Car Breaks Utility Pole, Disrupts Electric Service

Four teenagers escaped injury Thursday evening when their car struck a utility pole on Ridge Route Road near the home of Mrs. A.B. Lewis. The car had been driven north along Montague Drive and failed to make the turn onto Ridge Route Road. The force of the impact severed the pole, disrupting electrical service to the surrounding area for a short time. Service crews from Bandera Electric Coop were called to the scene and promptly restored service. Dennis Bruce, the driver, was charged with failure to control speed.

Pickup Overturns Near Medina

Mrs. Delia Ortiz and her children, Debbie and Jacob, of Medina were injured when their Ford pickup overturned and slid into a tree. The accident occurred on SH 16 near Medina Children's Home in the late afternoon Friday, December 28.

Mrs. Ortiz received facial injuries, and Debbie and Jacob had minor injuries.

Bandera County E.M.S. transported the injured to Sid Peterson Hospital in Kerrville for treatment.

New Year's Paint-Out Held At Mayan Dude Ranch

Shown are some of the paintings displayed at the Paint-Out.

Members of the Southwest Watercolor Society gathered at the Mayan Dude Ranch for a four-day meeting called their "New Year's Paint-Out." The fun-filled sessions opened Saturday, December 29, and continued through Tuesday, January 1.

Participants came from all parts of Texas and also as far away as Saltillo, Mexico, to enjoy the occasion.

The society's membership come from all 48 of the continental states of the U.S.

On Monday evening 68 watercolors which had been painted of Bandera scenes—old homes, churches, landscapes—were displayed at the Mayan and favorites were chosen by vote of painters and of non-painters.

Leaders of the society said they had especially enjoyed visiting in Bandera and their hospitable treatment at the Mayan Ranch.

Notice

The Board of Trustees of the Bandera Independent School District will meet in regular session Wednesday, January 9, at 7:30 p.m. at Bandera High School.

Stolen Pickup Recovered

A pickup truck belonging to Martin Rico, was stolen from in front of his home in Bandera Saturday at about 8:15 a.m. A short time later Sheriff Bill James and Deputy Guy Pickett spotted the vehicle being driven on Main Street, headed toward Medina. They pursued the truck and as it rounded the curve near the old Mansfield Park entrance, the pickup struck a station wagon driven by Joe Greene of San Antonio. No one was injured in the collision. Patrick Sean McGuire, 16, was alleged to be driving the pickup.

Fender-Bender Sat. Is Minor

A car and a pickup truck were in collision Saturday morning at the intersection of Main and Cypress Streets near the Texaco station.

Howard Graves, driver of the car, received minor injuries. Bandera County E.M.S. transported him to Dr. George Meador's office for treatment and then to his home. Roy Chesson, driver of the pickup, was uninjured.

Graves was cited for failure to yield right-of-way.

The personnel of Hill Country Texaco are to be commended for cleaning up the broken glass lying on the pavement as a result of the accident.

Aliens Must Report In January

Richard M. Casillas of the San Antonio Immigration and Naturalization Service has again reminded all aliens to report their addresses during January.

Cards with which to make the reports are available at Post Offices and offices of the Immigration and Naturalization Service throughout the country. The reports must have a 15c stamp affixed to the card.

Parents or guardians are required to submit reports for alien children under 14 years of age.

Richard M. Casillas urges all aliens to report before the end of January, as willful failure to do so may lead to serious penalties.

Senior Citizen Van Destroyed In Crash

The Senior Citizen van was wrecked when it struck a large oak tree growing in the right-of-way alongside FM 1283 a short distance south of Pipe Creek. The accident, which occurred in the early afternoon Thursday, December 27, resulted in death for the driver and lone occupant, Bill Berne of Pipe Creek. He was pronounced dead at the scene.

The van left the road while rounding a curve. No skid marks were found to indicate that the brakes had been applied.

An autopsy was performed to determine if there was any indication that Mr. Berne was ill at the time of the crash, perhaps suffering some type of attack. Results from the autopsy have not yet reached county officials.

Mr. Berne was returning to Bandera after taking a Lakehills resident to her home.

Bandera County E.M.S. was called to the scene and they used the extrication tool to cut apart the wreckage.

Notre Dame Team Visits Mayan

Notre Dame's Girls Basketball team is staying at the Mayan Dude Ranch. They will be playing St. Mary's University in San Antonio on Friday, January 7, starting at 5 p.m.

Kelly Hicks, daughter of Mayan owners Don and Judy Hicks and a member of the Notre Dame team, received some good coverage in the following item published in the New York Times.

FIGHTING IRISH STILL GRAPPLING WITH TITLE IX

By Steve Cady

Special to The New York Times

SOUTH BEND, Ind., Dec 13 — The first name is Kelly, as in Kelly Tripucka. But the player driving to the hoop at practice here yesterday was not the 6-foot-6-inch Kelly Tripucka, the all-America junior forward who has been Notre Dame's leading basketball scorer the last two seasons.

This one was Kelly Hicks, a 5-foot-10 senior forward from Texas, whose battle cry of "C'mon, y'all" has helped earn her a reputation as the emotional leader of Notre Dame's other varsity basketball team. Unlike Kelly Tripucka, though, this Kelly never got an athletic scholarship.

"Way to go, Kel," a teammate called as Miss Hicks raced past a defender and sank a layup during a late-afternoon scrimmage by the women's team.

Yes, women do compete as the Fighting Irish in intercollegiate athletics. As the media guides point out, their nickname is the same as the men's team and so are their school colors of gold and blue. Miss Hicks and her 12 teammates even wear jerseys with IRISH printed across them, though for easier reading it is on the back instead of the front. They play their games in the main arena of the sprawling, twin-saucer Athletic and Convocation Center, where the men's team beat the University of California, Los Angeles, last Tuesday night before the usual capacity crowd of 11,345. So much for the similarities.

The major difference is that Kelly Hicks and Notre Dame's other female athletes do not get athletic scholarships. Kelly Tripucka and more than 100 other male athletes here do.

The status of the two Kellys

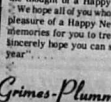
A THOUGHT FOR THE WEEK
By John M. Grimes

Another year has gone by. For many people it has been a time of great change. The impact of the change varies of course from family to family.



Regardless of personal situations, it is best not to reject changing times simply because they differ from times past. Can anyone dispute what should be obvious — that it is better to learn from the past in order to make proper decisions in the future?

Should it not be realized an attitude of gloom at New Year's will bring only dissatisfaction in the year ahead? Such attitudes, no matter what the reason, are not in keeping with the thought of a Happy New Year.

We hope all of you who read this will have the privilege and pleasure of a Happy New Year. May the year ahead bring memories for you to treasure. And when the year ends, we sincerely hope you can say, "Thank you, Lord, for a lovely year".

Senior Citizens News

Our January birthday luncheon is Tuesday, January 8, at 12 noon at the Activity Center. Remember, all those with birthdays in January are our guests; all others are asked to bring a covered dish. There will be a special film shown immediately following lunch. The subject of this film is medicine abuse and is of special interest to all Senior Citizens. It runs 38 minutes and is presented by Gene Esspree of AACOG.

Santa visited us in many guises. Jennifer Lockridge's 4th grade elementary school class collected assorted canned and packaged food for us to use as we thought best. We do thank all you small Santas for remembering us. The Baptist Church surprised us with bags of fruit, candy and nuts to be distributed at our Christmas party. The Good Sams of Kerrville sent bags of fruit and candy to all those who are on our lunch program. A big thanks to Lonetie Wilton's and Joy Vawter's high school home economics classes for baking all those delicious cookies that were distributed among the Senior Citizens, and a special thanks to all the friends and merchants who donated cash and ingredients toward this project. We may be well past childhood, but we still believe in Santa Claus.

We at the Activity Center and all the Senior Citizens whose lives were touched by Bill Berne are deeply grieved at his untimely death. He loved all the older folks and always had time to listen and to administer to their needs. He died while on one of these missions. He will be greatly missed.

Many friends here will be sorry to learn that Mrs. Ruth Seliner has been seriously ill with pneumonia in a Houston hospital. We hope she will soon improve and be able to return to her normal activities in the Hill Country.

Holiday visitors of Mr. and Mrs. Willie Schmidt were Mr. and Mrs. David Hall and children of Higginson, Ark., Mr. and Mrs. E.G. Hull of Waco, Capt. and Mrs. Terry Hull of San Antonio, Mr. and Mrs. Thomas Schmidt and family of Burleson and Billy Schmidt of Houston.

THOUGHTS

KNOW YOU WHAT IT IS TO BE A CHILD?

Know you what it is to be a child? . . . It is to be so little that the elves can reach to whisper in your ear. It is to turn pumpkins into coaches, and mice into horses, lowness into loftiness and nothing into everything, for each child has his fairy godmother in his own soul. It is to live in a nutshell and count yourself king of the infinite space; it is

To see a world in a grain of sand,
Heaven in a wild flower,
To hold infinity in the palm of your hand,
And Eternity in an hour.

Francis Thompson

Supplemental Security Income

Supplemental Security Income payments are provided by a Federal program aimed at supplementing the income of elderly or disabled people in financial need. Payments are made from general revenue funds to persons age 65 or older and to disabled persons of any age, even if they have never worked. The amount of payment depends on the income and assets of the individual and of their family in some cases.

Applicants may have assets of $1500 for an individual; $2250 for a couple; own their home and care and still qualify for SSI. Monthly earnings of persons age 65 and older will not affect the SSI check unless it exceeds $65 and then it is reduced only $1 for every $2 earned over the $65 a month.

The current maximum monthly SSI payment is $208.80 for an individual living alone and $312.20 for a married couple. These basic amounts will be reduced by a) but the first $20 of other countable income and some living arrangements. For eligible people who live in the household of another, the payment may be reduced one-third.

SSI payments can be especially helpful to low income families struggling with the financial burden of heavy medical expenses for a disabled child at a time when they are also trying to feed, clothe and educate other children in the family. In determining eligibility of disabled children under age 18, part of the parent's income and assets are considered; however, allowances are made for work and living expenses and for other children living in the home. Frequently after the allowances are deducted, the disabled individual is still eligible for some SSI payment.

Disabled children over age 18 may qualify regardless of the income and resources of their parents, even if they are still living at home.

The only way to find out about possible eligibility for SSI payments is to apply at any social security office. Delay in contacting social security may result in loss of some payments since no retroactive benefits are paid for months before an application is filed.

AARP Will Meet

The American Association of Retired Persons, Hill Country chapter, will meet Tuesday, January 8, at 2 p.m. in Kerrville's Municipal Auditorium for a program by Clifford L. Brock, disaster preparedness meteorologist with the National Oceanic and Atmospheric Administration of the Commerce Department. He will discuss long range weather and storm forecasting.

Questions about AARP's volunteer income tax aid program will be answered by Sherrell Wylie.

Change In Health Care For Aged Will Come In Feb.

A major change in the health care of Texas' elderly will take place this coming February, according to the Texas Department of Human Resources (TDHR).

Legislative intent expressed during the recently-concluded 66th Texas Legislature requires TDHR to eliminate the lowest level of nursing home care for state-supported (Medicaid) patients. As a component to the change, the state agency is to develop alternate means to care for the affected aged population.

Intermediate Care II (ICF II) nursing home care is to be consolidated with ICF-III (a higher medically-oriented level of nursing home care) to form a single intermediate level of care. Some 16,000 elderly are currently enrolled in ICF II care.

"What is being proposed," said Emmett Greif, M.D., deputy commissioner for TDHR's medical programs, "are new programs which include nursing home care, but also provide alternatives."

The alternatives, according to Dr. Greif, include assisting in their own homes those Medicaid-eligible elderly who require a lesser level of medical care. Eligible elderly with a high level of need for skilled medical care still would receive it in nursing homes.

Alternate, in-home, care includes such activities as chore services, like cleaning the house, preparing a meal, washing the dishes or doing some shopping. Other alternate care includes Meals-On-Wheels which is delivering a warm, nutritious, meal to the home of the Medicaid recipient. Another activity might be an adult day activities center where the elderly person could stay while their younger relatives with whom they live are at work. The alternate care proposals also include group living arrangements which would enable a group of elderly people to live together and share the costs of food, housing, janitorial services, perhaps a live-in attendant, and so forth.

"Neither the legislature nor DHR is anti-nursing home," Dr. Greif said. "For many medically helpless and handicapped people, nursing homes provide essential care, and DHR is proposing that persons now receiving nursing home care will be continued in the program."

Pointing out that in-home care is what most elderly persons want if they are able to function with some supportive alternative services, Dr. Greif also noted dramatic differences in the relative costs of institutional and in-home care.

"It costs," Dr. Greif said, "an average of $518 per month per patient for Medicaid care in a nursing home. The average monthly cost of caring for a recipient in his own home is $134," Dr. Greif said, "because 24-hour nursing home care is not involved and may not be necessary."

During the last state fiscal year, Texas spent $395.6 million for 63,680 elderly persons for nursing home care. In the same period, 27,440 eligible elderly received alternate care costing $43.2 million, a rate four times less expensive than institutional care.

"Many of the residents in Texas nursing homes today could have remained at home if in-home services had been available to them," Dr. Greif said. "Yet," he pointed out, "they reside in 24-hour medical facilities."

The 66th Legislature took specific actions regarding older Texans when it created its Joint Committee on Long Term Care Alternatives. The committee took testimony in seven hearings across Texas. The common thread throughout all the testimony, according to the committee report, was that, given a choice, older people preferred to stay in their own homes as long as possible, rather than live in a nursing home or in some other institutional setting.

The 66th Legislature, in session this year, attached several riders to the Appropriations Bill requiring that the findings of the joint committee be carried out.

Local Teacher Will Head Europe Student Travel Group

Kathy Hahn of Bandera, a teacher at Bandera High School, has been chosen by the American Institute for Foreign Study (AIFS) of Greenwich, Conn., to accompany a group of students to Europe. AIFS is the oldest and most experienced student travel organization; it has arranged foreign study programs for nearly 200,000 students and teachers since it was founded in 1964.

Group members of "Our European Heritage" spend two weeks visiting London, Amsterdam, Paris, the Swiss Alps, Florence and Rome while tracing the origins of American life and history in each area. The group will see the ways in which the art, architecture, politics and social structure of these European cities have affected the rich and diverse origins of our own society. This program is especially attractive because it offers such a broad view of Europe for students within a limited amount of time.

There are still places available in this group. For further information, students and parents may contact: Kathy Hahn, Rt. 2, Box 12, Bandera, TX 78003.

Wildflower Calendar Now Available

A wildflower poster calendar which lives long after the year is exhausted is now in its seventh edition and is growing in popularity each season.

The calendar's increasing popularity is a good thing for the originator—Carroll Abbott of Kerrville, the state's only fulltime wildflower seed and plant collector.

Sales of the calendars help fund Abbott's crusade to save the native plants of Texas by getting folks to grow wildflowers in their homescapes, in city and state parks and on school grounds.

The big calendar measures nearly two by three feet in full color and is bordered with 22 individual portraits of the most popular Texas wildflowers. A tranquil landscape with windmill and country cabin decorates the center.

The "Beautiful, Beautiful Texas" calendar never dies, Abbott said, because the individual portraits are useful later for framing and decoupage work. And the centerpiece often is laminated between plastic sheets for a place mat.

The calendar also serves as an educational tool. An accurate description is given for each plant, along with its botanical name. Many teachers use it as a classroom aid.

The calendar is available by mail for $3.90 each, which includes sales tax and postage, from Green Horizons, 500 Thompson, Kerrville, TX 78028.

Social Security Action Steps

There are at least five times when you will need to get in touch with your social security office in order to make sure you get the most out of your social security protection, according to Jules R. Gipson, branch manager of the Kerrville Social Security office.

Because in most cases social security coverage comes with the job and contributions are automatically deducted from paychecks, many people simply take social security for granted, Gipson said. They think of it as something for the future, with little to do with day-to-day living.

People forget that social security provides lifetime protection. It protects against two of the major threats to their families right now — disability or death of the breadwinner, Gipson said.

Gipson listed the five times for social security action as (1) when you need a social security card, (2) when someone in the family dies, (3) when you become disabled, (4) when you are ready to retire, and (5) when you have a question about social security.

Social security is for the future, but to get the most out of your protection you should be thinking about it today, Gipson said.

NOTRE DAME
Continued from page 1.

reflects the uncertainty on this and other campuses over the latest policy-guideline statement involving Title IX, the Federal law prohibiting sex discrimination in education. That policy, defined nine days ago by Patricia Roberts Harris, the Secretary of Health, Education and Welfare, requires colleges to give athletic scholarships to men and women in proportion to their participation in intercollegiate sports.

Since 1972, when Notre Dame became coeducational, its undergraduate ratio of women to men has grown to almost one in four; there are 1,500 women in an undergraduate enrollment of about 6,800. The university operates intercollegiate programs in 11 sports for men and four for women: basketball, field hockey, tennis and fencing.

There has been speculation among women here that implementation of the grant-in-aid policy relating to Title IX ultimately could mean as many as 27 full scholarships for female athletes at Notre Dame. However, the consensus is that the change should be gradual.

Weekend Development

Sharon Petro, the women's basketball coach, welcomes the development, but she says she does not want to see the programs in men's sports jeopardized.

"I'd also hate to see women's programs take on some of the bad pressure aspects of men's athletics," she said. "But scholarship aid doesn't mean you have to get into a situation of being paid to play."

Out on the court, amid occasional feminine shouts of "C'mon, you guys," players with blue shirts over green jerseys were attacking against a squad that wore yellow shirts inscribed with the word "Defense" and the blue equivalent of two feet, complete with toes.

"I put the feet on," Coach Petro explained, "to remind them they should play defense with their feet, not their hands. When you rely on your hands, you tend to reach out and commit fouls."

As the offense moved toward the basket, where rival teams see rigid lettering of "Go Irish Go" on the floor's blue border beneath the backboards, the coach called out, "Deny the pass, deny the pass. They're getting passes."

In 1977, the team's first season of varsity recognition, home games drew an average of about 50 fans; last season, the average was 200. Last Saturday, when the Irish forced scholarship-laden Michigan into overtime before losing, 500 free-admission spectators were watching and cheering.

That is still a long way from the sell-out crowd (at 96.50 a ticket) the men's team, coached by Digger Phelps, has drawn for 31 consecutive home games. But Bob Scott, the assistant coach of the women's team, argues that sports programs cannot generate money unless money is put into them.

"It's kind of a Catch-22 situation," he said, "when somebody talks about not being able to spend money on women's athletics because they don't generate revenue. Look at Old Dominion. Their women's basketball team generates a lot of revenue."

Charles (Lefty) Smith, Notre Dame's hockey coach, sees things a little differently.

"This could have a far-reaching effect on any number of men's sports," he said, "and I think it's bad for women's sports too. For example, I wouldn't set up varsity programs for women in any additional sport if it means a lot of extra scholarship money."

Smith's hockey team gets 30 full scholarships over a four-year period. Men's basketball gets 13 every four years, and football receives 95 — the maximum allowed under grant-in-aid regulations. But sports such as men's fencing, in which the Irish have won the National Collegiate title two of the last three years, get no scholarship aid. Neither does men's soccer, which has a smaller budget than women's field hockey.

"Football wouldn't get 95 scholarships," said Shiltz, "if it didn't put 59,075 fans at it a pop into that stadium for every home game."

Notre Dame's athletic director, Edward W. (Moose) Krause, the man in the middle, is being diplomatically cautious.

"We have no desire to discriminate against women," he said, "but we're not sure exactly what we're supposed to do to comply with the new Title IX interpretation. It's still a little confusing."

Krause pointed out that football's expenses, which takes care of Notre Dame's entire intercollegiate and intramural sports program for men and women, operated on a yearly budget of $3 million. He said the university was considering adding volleyball, track and swimming to the list of varsity sports for women.

Time Ripe for Change

"We don't want to drop any men's sports just to give scholarships to women athletes," he said, "but we may be forced to do it."

Kelly Hicks and other members of the women's basketball team do not want to see any men's sports dropped, either, but they are strongly in favor of athletic scholarships for women.

"I personally think the change should be gradual," said Anne Pallisti, a 5-11 center who has been drafted by the Houston Angels of the Women's Basketball League. "But it's high time something's happening in this area."

Miss Hicks also sees hope for the women's division of the Fighting Irish.

"Girls have tended to dream of being a college cheerleader," she said, "but that's all right, I guess. But why shouldn't girls also be able to dream of playing for Notre Dame?"

Decision Reached On Medina Lake Dispute

On January 2, 1980, District Judge Robert R. Barton rendered a verdict in an important law suit tried in Bandera County between Bexar-Medina-Atascosa County Water Improvement District No. 1 and Bandera County land owner George Wallace. The judgment was rendered denying the water district all relief sought against Wallace.

The water district had alleged that Wallace was violating the district's rules by installing a septic tank below the 1084 line at Medina Lake, and alleged that the district owned the land. Wallace disputed this and countered that the district rules were invalid and that the district did not own the land.

The court ruled that the water district's purported deed to the lake bed was void because of an inadequate description. The court further held that the water district is prohibited from filing any law suits in an attempt to enforce rules and regulations outside their territorial limits of it's water district, which is located entirely in Bexar, Medina and Atascosa counties. This ruling prohibits the water district from enforcing any rules in Bandera County wherein most of Medina Lake lies.

Bandera attorneys Robert E. Wehmeyer and Sam L. Darden represented Wallace in the law suit and they stated that this decision will affect literally thousands of tracts of land surrounding Medina Lake which are valued in the millions of dollars.

Should the decision stand, it will mean that land owners around the lake will be protected against any further law suits by the water district.

Notaries, Take Notice

The passage of Proposition No. 1 in the November 6, 1979 Constitutional Amendment Election will bring some changes in the laws governing Notaries Public in Texas. These changes went into effect January 1, 1980. Under the new law:

1. Application for Appointment will be made with the Secretary of State rather than the County Clerk.

2. The term of appointment will be increased from two to four years.

3. Appointments made by the Secretary of State after January 1, 1980 will be statewide.

4. The applicant must still be at least 18 years old, a U.S. citizen, and not have been convicted of a crime involving moral turpitude.

5. The requirement of residence in a particular county or the maintenance of a principal place of business or employment in a particular county will be eliminated.

6. Re-appointment will no longer be autothatic. The Secretary of State will notify all Notaries Public within ninety (90) days prior to their expiration, but an application for appointment will still be required.

7. The Four Dollar ($4.00) fee for qualification, the Four Dollar ($4.00) commission fee, and the bond and oath of office will be sent to the Secretary of State.

8. Personal bonds will no longer be accepted, but the bond of Two Thousand Five Hundred Dollars ($2,500) will still be required.

9. Any changes of address must still be reported to the Secretary of State within ten (10) days.

10. Each Notary Public shall maintain a seal of office engraved in the center with a star of five points, and the words, "NOTARY PUBLIC, STATE OF TEXAS," around the margin.

NOTE: Any Notary Public who is not an attorney and who advertises his services as a Notary Public in a language other than English, shall include a notice, in English and the other language, that the person is not an Attorney. Also, the notice shall include the fees that a Notary Public may charge and the following statement:

"I am not an attorney licensed to practice law in Texas and may not give legal advice nor accept fees for legal advice."

The literal translation of the term "Notary Public" into Spanish (Notario Publico) is prohibited. Failure to comply with these two provisions constitutes a deceptive trade practice and could lead to the revocation of the offending Notary's commission.

A Message For Everyone

President Sammie Brown and the directors and members of the MLBA wish to extend wishes for a healthy and prosperous New Year to everyone.

We thank you for the support you have given our dances throughout the year, the proceeds of which go toward retiring the note on the Civic Center, such improvements as renovation of the stage and storage areas, eight new ceiling fans, as well as day-to-day maintenance and utilities. This has enabled us to offer the building free of charge as a community service to other non-profit organizations: The American Legion for 3 benefit dances; Pipe Creek Volunteer Fire Dept. benefit dance; Bandera REACT club benefit dance; Gost Hill Road Committee benefit dance; benefit for a private individual; Bandera High School Junior-Senior Banquet and Prom; Methodist Church Fellowship and Barbecue; a reception for newly-elected Bandera County officials; and a monthly meeting place for the Medina Lake Shrine Club.

The building is rented for a very nominal fee to any private individual or organization, and this year has been rented for birthday and graduation parties as well as weddings and receptions. Information concerning the rental of the Civic Center may be obtained from Reservations Chairman Wes Davis, 751-3057.

The New Year's Eve dance has become a pleasant memory, but we do want to thank the following people for the nice things they have done: To Shirley McCollom and The Lone Star Ice Co. for the decorative stars and 4,000 tickets for admission to our dances; Joe and Margaret Talk for the artificial Christmas tree; our talented decorations chairman Ann Jack and her committee of Howard Jack, Joe Talk, the Smarts and the Moores for a beautifully decorated hall; Florence McMahan, who donated and cooked 18 pounds of the best ham flavored black-eyed peas in the country; chairman Mary Lou Haby and her corn muffin brigade — Fannie Davis, Elaine Howard, Mrs. A.W. Lich, Shirley McCollom, Lucille Moore, Marie Pickett, Joy Seideman, Margaret Talk and Helen Temple. And to Sammie Brown and the Bob Moores for clean-up after the dance.

We're looking forward to another successful year, especially to our annual membership meeting March 13 at the Civic Center (to which you are all invited). The directors feel that a great deal of our success is due to the interest, enthusiasm, zeal and hard work of a great president—Sammie Brown!

Our next dance will be held at the Civic Center January 26, with that great band — The Kountry Rhodes. Ya'll come!

NOTICE

Dear Customer:

The Bandera County Fresh Water District No. 1 of Pebble Beach collected six bacteriological samples during the months of July, August and September. The results of the coliform bacteriological samples exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public Law 93-523. Drinking water containing coliform bacteria in excess of the standard may constitute a potential threat to public health. Your water system has collected additional check samples as required by the "Drinking Water Standards." These checked samples were reported to be within the standards for drinking water. The Department of Health has been notified. Additional samples will be taken as it is deemed necessary. Coliform organisms are common to the intestinal tract of man and animals. Their presence in water is an indicator of bacteriological contamination of the sample either from the water system or from a sampling error.

Increased monitoring (check samples) and customer notification of the public when the standards are exceeded are required by law as a means of keeping the public informed.

Thank You

A great big thank you to the person or persons responsible for so thoughtfully remembering Minneana James with anonymous cards and notes, as well as a generous Christmas gift. Although your identity remains a completely baffling mystery, Minneana would like for you to know how very much she appreciates your continued thoughtfulness and kindness. Knowing that there is someone who cares enough to take the time and consideration to pick out cards with such cleverly worded verses and to write a few words that mean so much—all without taking the well-deserved credit for their actions—adds a very bright spot to each day. You have a place at the top of her list of blessings and you're always in her prayers. Thank you for bringing the "joy and sunshine"; she's trying her best to "Keep sweet"!

Card Of Thanks

A special thank you to Pastor Doerfler for the service and to the members of the Bandera United Methodist Church for their musical selections.

by Rushe Vay

[illegible] presentation called "Power Play" was presented by Cambel [illegible] to Bandera High School and Junior High School. The Presentation was sponsored by the [illegible] Council.

"Power Play" presentation consisted of 3 screens that covered the entire front of the BHS auditorium, six slide projectors, a movie projector, tapes of rock music, and a computer programed coordinator, all of which is worth about $20,000. Fur Market Is Depressed

Strikes by fur processors in Canada, which have now spread to New York, sent the fur market crashing this week, according to Homer Bolen of Bandera Fur Co. and John Frank Shaddix of D&W Fur Co., Hallettsville. One New York dealer reportedly dumped a large holding of furs on the market in anticipation of the strike, a move which added to rapid drop in price. Chances now appear slim that the market will again rise during this fur season.

Both Bandera Fur Co. and D&W Fur Co. are continuing to buy furs even though approximately one-third of Texas' fur buyers are officially closed.

Alanis Wins 'Voice of Democracy'

By: Dee Anne Doebbler

Edward Alanis won 2nd place in the District contest of "Voice of Democracy." Edward won the local contest with this year's topic, "My Role in America's Future."

The V.F.W. sponsors this contest each year. To participate one has to write a speech pertaining to the topic given. The 3-5 minute speech is recorded on a tape. This year Edward taped his speech at the Kerrville radio station. It is judged by three judges.

The awards ceremony was held on Sunday, January 6, at the V.F.W. Hall in Kerrville. First place was won by Center Point. Edward was the second place winner and received $150. For winning the local contest Edward won $25. Those who entered this contest besides

Edward were students from Center Point, Johnson City, Kerrville, Fredericksberg, and Comfort. Congratulations to Edward for representing our county well!

New Blood In BHS Vo. Ag.

by Rushe Vay

Miss Sandy Hunter replaced Mr. Wilson as B.H.S.'s Vo.-Ag. I and II teachers. Miss Hunter is a graduate of Tarleton State University where she majored in Ag. Education and minored in Horse Production. She was a student teacher in Ballinger, Texas before coming to B.H.S.

Miss Hunter graduated from Roscow High School in Roscow, Texas, where she was active in F.F.A. and 4-H. Miss Hunter was F.F.A. reporter, secretary, a chapter conducting team member, a state qualifying dairy judger, horse judger, barrel racer, and horse shower. She also showed registered Durac hogs in Alpine, Houston, Fort Worth, and San Angelo. She had a first place barrow in Fort Worth, and a fifth place in Houston.

Miss Hunter started college with pre-veterinarian courses, but changed her studies due to the fact that she enjoys working with young people. Her interest in both animals and young people led her to choose the career of Vocational Ag. teacher.

Ever wondered about the meaning of your life? Surely there is more than things—houses, cars, appliances, etc. Jesus says, "Man shall not live on bread alone, but on every word that comes from God." (Matthew 4:4) Man is the creation of God and he needs a right relationship to the Creator. Jesus Christ is The WAY. He says, "I am the Way." (John 14:6) His way is the way to eternal life.

PIPE CREEK COMMUNITY CENTER NEWS

We were real pleased with the turnout at our Holiday Get-Together held on December 28. We hope to have another next year in order to give friends and neighbors the opportunity to meet and exchange well wishes for the coming year.

We wish to express our gratitude to Mr. John Klauss of the Green Light Company for his generous donation of one gallon of 74 percent Chlordane, which will be used as part of our clean up, fix up, paint up project.

Do you have a gas cook stove or refrigerator in working condition that you absolutely don't need and would like to donate to the Community Center? Please let us know. These items would be used for community purposes and would be extremely appreciated by all.

Do you enjoy having a cup of coffee with a friend?

Do you enjoy a game of cards or dominoes?

Then join us every Friday morning, starting Jan. 18 at 10 a.m. for a neighborly get-together at the Community Center. NO CHARGE — JUST GOOD FUN!

Be sure and watch our column for something special coming up in February.

Cub Scout Activities

Cubs of Pack 146 and their families enjoyed a pack meeting and Christmas party on December 13. Webelos presented the colors and led the Pledge of Allegiance. Cubmaster Richard Evans introduced the new pack committee members, Rob Sandidge, Lynn Post, Robert Mikel, and the new den leaders, Cathy Post, Lola Post, Mary Alice Flach, Linda Redford, Cindy Martin, and Marie Subirias.

Two dens took trips in October — Den No. 2 went to the new Lost Maples State Natural Area and Den No. 3 took a trip to the Brackenridge Zoo. Walter Stricker, Jr. was congratulated for being the top ticket salesman of Scout Country Fair tickets in the Hill Country District. He won a free trip for him and his dad to Dallas to see the Dallas Cowboys play on December 2. Prizes earned by other Cubs in our pack included footballs, basketballs, knives, watches, baseballs, cable saws, and mini-stoves. Twenty-seven of our Cubs participated in FAT, the Cub Crafts First Aid course for young people. The Scout Hut building is finished and we will have a lot of work that will need to be done before it will be ready for use.

Cubs earning advancements in ranks are as follows:

Bobcat Badge
Robbie Mikel, Michael Miller, Milton Holmes, Scott Post, John Scott, Tobey Sandidge, Frank Montague, Richard Flach, Mike Pratt, Scott Horton, Simon Subirias, Steve Morgan, Jason Sisler.

Will Evans
Webelos Activity Badges

An Epiphany Happening

Epiphany is a Christian observance on January 6 of the manifestation of Christ to the Magi, or Three Kings. During the first three centuries, Christians marked the observance of the birth of Jesus on this date, and, in various countries, people continue the custom of exchanging gifts on January 6.

The home of Mrs. Elsie Eckhart, still festive with colorful Christmas decorations, was the scene on Sunday evening, January 6, of the gathering of St. Stanislaus Junior Choir for its Second Annual Epiphany Happening.

Lighted candles and a huge bouquet of long-stemmed red roses and white carnations formed the cascading centerpiece for the buffet table from which a covered dish supper was served along with spicy hot mulled apple cider.

Afterward, the group gathered around the Christmas tree to exchange gifts and to listen to a reading on Epiphany by Brenda Boyle and a humorous reading by Dee Ann and Tina Doebbler. Musical entertainment was presented by Rhonda Fleming, Suzanne Kindla, Christine Fleming, Toni Batto, Melissa Mangold, Leanne Neuman, and Dawn Neuman. Mrs. Eckhart provided piano accompaniment for the singing of Christmas carols. The dexterous "Lifesaver Game," directed by Helena Robertson, evoked giggles and laughs from participants as well as spectators.

Attending the evening affair hosted by Mrs. Elsie Eckhart, Mrs. Punkie Camp, and Miss Jana Camp were Becky Clements, Darthula Mauldin, Christi Schindler, Dorothy Duff, Christine Fleming, Keith Kindla, Melissa Mangold, Helena Robertson, Kelly Clements, Tina Doebbler, Terri Butler, Daria Johnston, Leanne Neuman, Brenda Boyle, Suzanne Kindla, Dee Ann Doebbler, Toni Batto, Rhonda Fleming, Dawn Neuman, Mrs. Mary Helen Anderwald, Mrs. Wally Butler, Mrs. J.M. Clements, Monsignor Ralph J. Smith, and Annette Kalka.

Independents Must File

An independent candidate who wishes to qualify to have his name placed on the November 1980 general election ballot must file a Declaration of Intent form by Monday, February 4. He should file the application with the Secretary of State if the office is statewide or district-wide or with the county judge for county or precinct offices.

If the potential candidate is filing to fill a vacancy in an office which occurred later than January 25, 1980, he need not file a declaration of intent.

In addition, a potential independent candidate must file an application on or before Monday, July 7, 1980. He may not collect signatures on the application until after the primary Saturday, May 3.

Copies of the Declaration of Intent form are now available in the office of the county clerk.

Co. Treasurer's Report Given

The quarterly report of County Treasurer Elizabeth James is published on page 9 of this issue of the Bandera Bulletin, and gives the financial status of Bandera County at the close of the last quarter on December 31, 1979.

The total amount approved by the Federal Disaster Assistance Administration for flood damage recovery under the administration of the County is $718,332.00. Of this total, $400,000.00 has been received by the County in advance of completion, while the balance of these approved funds will not be paid to Bandera County until the flood damage recovery has been completed and Federal authorities have inspected the work and audited the financial records. Transfers totaling $210,000.00 have been made from various County funds to the Disaster fund to cover the cost of the flood damage repair and replacement work until final reimbursement for this expense is received from the FDAA.

Stock Show Winners Named

Unseasonably nice weather encouraged a large and enthusiastic crowd to take part in the 44th annual Bandera County Junior Livestock Show and Sale held last weekend at the Rec. Center.

Sales of the livestock totalled almost $55,000 for 224 of the entries which were offered for sale. The bake sale brought in a little less than $6,000 for 117 entries. Of this amount, 95 percent goes to the sellers and five percent is used to pay part of the expenses of putting on the show, including a wide assortment of items ranging from paper clips to placement ribbons.

The success of the show can be attributed to the many long hours of planning and work donated by a very large number of persons. Plans for next year's show are already being made.

There is Hope in Life.

Does life seem without hope? You don't know who you are or why you are here, or where you are going? Jesus Christ said, "Happy are those who hunger and thirst for righteousness, for they shall be satisfied." (Matthew 5:6) He can satisfy both heart and mind by helping you to discover you are His creature made for fellowship with God, and that you can have eternal life in Him. He is ready and longing to be invited into your life.

ROSE GARDEN CLUB MEETS

The Rose Garden Club of Medina met at the Garden Center on Jan. 9. After roll call, the minutes of the December meeting were read and approved. Mrs. Henry Heinen gave the Garden Tip for the day. She gave suggestions about the planting of seeds and the care needed.

Mrs. J.D. Latta gave a report from the National Gardener. She reviewed the activities and projects of the National organization and the results of concerted efforts on conservation, ecology, education and other phases of Garden Club work carried on in the United States.

Mr. Louis Bishop of the Flower Shop in Boerne donated 21 poinsettia plants which were given to shut-ins in the Medina area. Mrs. N. N. Stansell donated a book on Purple Martins to the club library.

Thank-you notes from Mr. and Mrs. Geo. Whitehead and the Johnie family were read. The poinsettias were deeply appreciated. A note from Purple Hills thanked the club for the gifts and bags of candy which the club sent to the home.

Mrs. Paul Garrison urged members to prepare materials for arrangements for our Placement Show to be held in the home of Mr. and Mrs. S. Ward McCollough on May 10. Members were also reminded to prepare plants and have specimens ready for the horticultural division of the show. We want the flower show to be a success, as we need to work toward our goal of becoming a Gold Club. The flower show will be needed to reach this goal.

The club voted to contribute $5 to the District VII treasury. Our February meeting will be held at Ingram in the home of Mrs. Mamie Webb. Members will meet at the Garden Center on Feb. 13 at 1 p.m. so members can carpool for the trip.

The following officers were elected: president, Mrs. W.O. Hatfield, Sr.; 1st vice-president, Mrs. J.D. Latta; 2nd vice president, Mrs. Lucille Broe; secretary, Mrs. C.L. Tower; treasurer, Mrs. Ben Adams; corresponding secretary, Mrs. Henry Heinen; parliamentarian, Mrs. R. Hart.

Our Country Market will be held March 26. Members were reminded to plant seeds so small plants will be ready for sale; also work on arts and crafts which will also be on sale.

Mrs. Lucille Broe, program chairman, introduced Mrs. Peggy Edwards, County Extension Agent, who was our guest speaker. Her topic was "Planting and Gardening in Large Containers for Growing Fruits, Vegetables, Etc."

Mrs. Edwards showed slides and discussed each one and gave suggestions about them. Some large containers were plastic garbage cans, bushel baskets, pottery, tubs, large hanging baskets and plastic pots.

Some slides gave lists of vegetables suitable for container gardening which can produce home-grown crops where soil conditions are not conducive to gardening. People in apartments can do this type of gardening in window boxes or near a patio.

Other slides had lists of materials to be used in the growing media. Mrs. Edwards also gave suggestions for fertilizing and watering the plants. All gardeners need to be alert to diseases and insects which attack plants. She suggested using EPA-approved fungicides and insecticides. She gave each member a booklet "Vegetable Gardening in Containers No. B-1212." These can be obtained from the agricultural agency.

We received many helpful suggestions from her presentation and appreciate her coming to the club.

Hostesses for the day were Mrs. Paul Garrison, Mrs. C.E. Jackson and Mrs. Max Johnson. Delicious refreshments were served from a very beautiful table. The lovely arrangement of fruit, vegetables and candles on a green tablecloth were reminders that spring will come and gardeners need to get ready to greet the season.

Ghosts Sought

Know any ghosts? Ghost stories? Texas author Ed Syers is hunting them, wherever they may haunt Texans and particularly in the Bandera County area.

Syers, who has written many books on Texas including the heritage collection, "Off The Beaten Trail," a three-volume historical series, two novels and a new guidebook titled "Backroads of Texas," believes that a region's story is incomplete without its tales of the supernatural.

"We are a land of many cultures," he says. "Each has its ghosts."

His collection, to publish in approximately one year, will include such classic phantoms as the sentinel ghost at Tehuacana near Waco, the headless squaw near Stephenville, the ghost hounds of Orozimbo on the coast, the headless horseman of South Texas brush country, the South Plains ghost herd at Stampede Mesa, West Texas' inexplicable Marfa lights, and many others.

"I'm after the ghost story known to enough people long enough to establish some credibility," Syers says. However, he intends to investigate any report that he believes merits inclusion in the series.

You may write him directly at Ingram 78025.

Tarpley NEWS

Mrs. Nettie Dean
562-3664

A thought for the day: "Where there is room in the heart there is always room in the house."

Rev. and Mrs. Keith Mansfield and children, Bo, Connie and Brent, attended an Adams dinner and reunion at the Methodist Church at Medina Sunday. Miss Ann Chafin also attended and spent the day with the Mansfield family. They reported a lovely day and good fellowship.

Mrs. Pat Taylor, Mrs. Edith Jeffers and Mrs. Arthur Crider went to Castroville Monday. Mrs. Jeffers had a dental appointment and also visited with her son and family, Mr. and Mrs. Lynn Jeffers and family.

Mr. and Mrs. J.E. Dean and Mr. and Mrs. Donnie Newcomb and Molly visited Mr. and Mrs. Lewis Dean and Mr. and Mrs. Marvin Dean of D'Hanis on Saturday.

Friends of Mrs. Nora Coughran Woodmansee of New Braunfels will be sorry to hear that she is very low, following a fall in which she was seriously injured. Mrs. Woodmansee lived in Tarpley for several years.

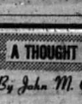
Mr. and Mrs. Bill Worther and children, Serena, Garland, Jacob and Ceria, of Glennville, Neb., visited Mrs. Edith Jeffers during the weekend. Mrs. Worther is Mrs. Jeffers' second cousin. Mr. Worther is a farmer from Nebraska and they are on vacation during the winter months, and dropped by while on their way from California enroute to Alvin, Tex.

Mr. and Mrs. Arthur Crider visited his nephew, Mr. and Mrs. Martin Jeffers, at Jourdanton during the weekend.

Mr. and Mrs. Donnie Newcomb of San Antonio and eight-months-old daughter, Molly Marie, spent the weekend with her parents, Mr. and Mrs. J.E. Dean, the occasion being Mrs. Newcomb's 33rd birthday on January 14. We remember the date of Marie's birth, January 14, 1947, and the large ice and snow storm we had, starting on New Year's Eve that year. There was ice and snow for about a week or more, breaking down trees and electric lines.

On Saturday, January 19, there will be a work day at the Tarpley Baptist Mission to repair the church. Every third Saturday of each month there will be a work day. Come around 8:30 a.m. and bring your hammer and nail bag. Lunch will be served at noon. All help restoring the old church will surely be appreciated.

A year's subscription to the Bandera Bulletin is being sent by Mr. and Mrs. J.E. Dean to Mrs. Vashti Sparks of Kingsville, Texas.



Mr. and Mrs. W.J. Schmidt are visiting Mr. and Mrs. Francis Crain in New Orleans, La. Accompanying the Schmidts were Mr. and Mrs. Gene Null. The three ladies are sisters. Mrs. Schmidt reports they had a very enjoyable visit.

A THOUGHT FOR THE WEEK

By John M. Grimes

What does "home" mean? A very small word that we use many times a day. But what a large meaning it has. And to each of us "home" has a different meaning.

Becky, our eight year old daughters knows of the past, is aware of today and we encourage the future. Past, Today, Future — is talked in our home often. As an example, Becky's grandmother died almost eight years ago, but to us she is alive today. She still has deep meanings in our lives. Our children know her well as both of us talk about her, wonderful deeds-often. We live on in the lives of those we love. Our wonderful grandmother is dead, and yet she lives — with God and with us. Our moments together include the past, the present and the future. With our home, it is all the little things that begin now, that I feel will be responsible for the future. I pray that we are able to guide and encourage Becky in the right direction in life. She is so precious to us.

As a parent, I am blessed; for I shall inherit a world of wonderful memories.

In Memoriam

Nicholas Earl White

Nicholas Earl White, who was born January 7, 1980, in Wilford Hall Hospital in San Antonio, lived only a few hours to bless his parents, James Douglas and Elizabeth Jean White. The family had anticipated his birth with great joy and gladness, which turned into sorrow when the little spirit departed into rest.

Baby White was laid to rest in the Pipe Creek Cemetery on January 13. Rev. Jeanie Devine of the Lakehills Methodist Church offered a beautiful eulogy which gave consolation and strengthened the love and faith of his loved ones.

Survivors are his parents, his grandparents, Mrs. Earl White of Pipe Creek, Mr. and Mrs. Lonnie Bullock of Lakehills and Mr. and Mrs. Clayton Collins of Round Rock.

In offering consolation to the bereaved family we give the words of Jesus in Matthew 19: 13, 14 and 15: Then were there brought to Him little children, that He should put his hands on them and pray: and the disciples rebuked them. But Jesus said, "Suffer little children, and forbid them not, to come unto me: For of such is the Kingdom of Heaven." and He laid his hands on them. In Matthew 18:10 He said, "In Heaven their angels do always behold the face of my Father which is in Heaven."

FHA First-Demonstration

By: Karen Retike

Miss Barbara Engel demonstrated hair and skin care to FHA members, Monday, January 7.

Miss Engel explained the importance of taking care of your skin while you are young. She told them which skin care products they should use and not use according to their skin types. Miss Engel demonstrated some skin care products on a few students to show how they work and how to use them.

Hair care was another exciting topic discussed by Miss Engel. Miss Engel pointed out what shampoos to use on your hair and how often you should use them. She also demonstrated on a few students by cutting their hair. After cutting their hair, it showed a different hair style can change your appearance.

Harvey Raab receives a facial with Helen Patton's assistance.

This is Miss Engel's second year to demonstrate hair and skin care to FHA members.

Children's Pictures Will Be Published

Wednesday, January 23, is the big day set to take Living Color pictures of your little ones. The Bulletin is having pictures taken of all children accompanied by their parents or other guardian to the Sands Motel between 11 and 7 absolutely free of any charge or obligation.

The Bulletin wants to publish a picture of your child in a photographic feature series of local children entitled "Citizens of Tomorrow."

A professional children's photographer will take the pictures in Direct Living Color. We emphasize, therefore, that you dress the children colorfully so as to take full advantage of the beauty of Color photography.

No Charge To Parents

There is no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the Bulletin nor even a reader. You do not have to purchase pictures either. Proofs will be shown in Color and you may obtain Color portraits by arranging direct with the studio representative if you want them. That is entirely up to you! The pictures appearing in the newspaper will be in black and white.

Good Pictorial Feature

In keeping with the quality Feature policy of this newspaper, we want to make this a memorable Feature. This means we want all the pictures of local youngsters we can get to run in the paper. Kiddies and parents alike will read no end of fun and pride as the pictures appear in the paper. Mothers and fathers of children in the area which this newspaper circulates, please help us and remember the date: Wednesday, January 23, at Sands Motel and bring your children to be photographed.

Arnet-Byrd

Mr. and Mrs. John Michael Arnet

Joan Irene Byrd and John Michael Arnet were married November 3, 1979, in a ceremony performed at Grace Wesleyan Methodist Church in San Antonio with Rev. Orland L. Johnson officiating.

Joan is the daughter of Mr. and Mrs. Sam Byrd of Bandera and John is the son of Mrs. Mary Arnet of Mason, Ohio. John is serving in the U.S. Army and is stationed at Camp Bullis.

The bride, who was given in marriage by her father, wore a full-length white gown with a long train. Kim Cavin was her maid of honor and bridesmaids were Ida Byrd and Nancy Amberson. The attendants were dressed in rainbow colors and carried silk flower bouquets in matching colors. They wore picture hats chosen to match their gowns. The junior bridesmaids wore flowers in their hair which matched their bouquets. The flower girls carried baskets of silk flowers of the rainbow colors.

Bryan Crow was best man and Mark Walsh and Denny Bruce were groomsmen. Ringbearer was Dustin Smith. Ushers were Gary Simmons and Chuck Brinks.

Study Course On Divine Healing Offered

A class on Divine Healing is being offered at Faith Chapel of Lakehills beginning Sunday, February 3, at [illegible]. The course is open to interested persons in the area as an extension of the church's Christian education and outreach program. The course is scheduled to run for 17 weeks and should offer a good opportunity for a fairly intensive study of this subject. The teaching will be Bible and emotional and physical Divine healing in the 20th century will be dealt with. Classes are scheduled for Sunday evenings (excepting Sunday, May 4) at the church and should run about 90 minutes. The student will have the opportunity to learn through reading and responding to the Bible, two other textbooks, class discussions, lectures, and outside reading.

The class is free of charge, and all are welcome. Students will be asked to purchase their own copies of the two textbooks in addition to the Bible and read them as a basis for understanding and class discussions. Lecture materials will be basically from other sources. The two books are Healing and The Power to Heal by Father Francis MacNutt, o.p. Father MacNutt has a B.A. with honors from Harvard, a M.F.A. from Catholic University of America, and a Ph.D. from the Aquinas Institute of Theology. He is a Roman Catholic priest actively engaged in the ministry of Divine Healing. The church has a consignment of these books in paperback available for sale for the first three weeks of the class. Neither the church nor the pastor will profit from the sale.

Faith Chapel of Lakehills believes that Divine Healing is a valid, though often neglected perhaps sometimes abused, expression of the reality, power, and the love of God in the year 1980. Faith Chapel is a small interdenominational church on [illegible] about $5.2 million more than cities received in January of 1979, Bullock said.

Bandera received $2,884.54, an increase of 71 percent over the payment of $1,679.01 received for the same period last year.

The optional one percent city sales tax is collected by merchants and businesses along with the state sales tax and is rebated monthly by the Comptroller's office to the cities where it is collected.

THOUGHTS

If I wanted to become a tramp, I would seek information and advice from the most successful tramp I could find. If I wanted to become a failure I would seek advice from men who never succeeded. If I wanted to succeed in all things, I would look around me for those who are succeeding, and do as they have done.

J.M. Wade

What is in a man's heart is on his face and is shortly written all over him.

Irving Sacheller

Every man has a right to his opinion, but no man has a right to be wrong in his facts.

Bernard Baruch

Some of the world's greatest geniuses were self-educated men and women, who visualized success for themselves, who saw themselves overcoming all handicaps, who gained the heights first through achieving a thorough knowledge of their inner resources and how and when to draw upon them.

USDA Food Consumption Survey Will Include Bandera

PHILADELPHIA, PA. — Selected households in Bandera are taking part in a follow-up to the largest food consumption survey ever undertaken by the U.S. Department of Agriculture (USDA).

Dozens of Bandera families will join more than 5,000 others throughout 48 states in a study of Americans' dietary and nutritional patterns today. Residents here will be contacted by interviewers from the National Analysis division of Booz-Allen & Hamilton, which is conducting the survey for USDA.

This study closely follows the last nationwide food consumption survey, done in 1977-78, which was the largest ever conducted by USDA. The present survey is designed to provide data for comparison with that obtained through the last survey. By means such, comparisons, educators, nutritionists, health officials, policy-makers and others will obtain indicators of the effect of higher food prices, inflationary trends, and changes in food program operations on national nutritional patterns and eating habits during the past two years.

The participating Bandera households will be contacted in person by the interviewer, who will be carrying appropriate identification. The interviewer will be carrying a letter from USDA describing the study. Only persons with badges identifying them as members of the survey team are authorized to conduct interviews. All information will be confidential. The success of the survey will depend on the willingness of the households participating to supply the needed information about the foods used in their homes. Their efforts will insure that accurate information is available for future food and nutrition policy planning, which will benefit all American families, according to the USDA.

Notice of Meeting

The Bandera PTA encourages everyone to attend the January 22 meeting to be held in the high school at 7:30 p.m. Members of the high school band will present the program.

The PTA executive board will meet at 6:45 p.m., preceding the regular meeting.

Girl Scout Cookie Sale Starts January 26

The 1980 Girl Scout Cookie Sale gets underway Saturday, January 26, and runs through Sunday, February 17, according to Mrs. Earl C. Steman, general chairman. The cookies, supplied again by Salerno-Ropewell Biscuit Co., will sell for $1.50 per box this year. Two new flavors will be added to the original five kinds. Available this year are the five perennial favorites: assorted sandwich, chocolate mints, peanut butter roundups, golden trefoil, and royal creme patties, plus the two newcomers, granola and daisy. Recipe folders are available upon request. Since Girl Scout cookies store and freeze well, they may be purchased in quantity during this once-a-year sale.

The Girl Scout Cookie Sale is the only council-wide money-earning project conducted by the San Antonio Area Girl Scout Council, providing troop profits for special troop projects, camperships to help send girls to camp, funds to send girls to national and international opportunities, and for numerous types of capital improvements. Cookie Sale profits also help to keep camp fees lower than most comparable camps in the area by supplementing the camp budget, help to build facilities, maintain camps in top shape, and provide a healthy chunk of the council's overall budget.

Beef Producers Will Vote On Referendum

Beef producers will soon have an opportunity to vote in a referendum on a Beef Research and Information Order. To vote, a producer must register between January 28 and February 6 at a local Agricultural Stabilization and Conservation Service (ASCS) office. Voting will be February 19-22. All cattle producers would be affected by the order and each individual (cow-calf operator, stocker-grower, feeder, dairy operator, etc.) who owned cattle during 1979 is eligible to register and vote.

The 1976 Beef Research and Information Act authorizes a national program under which cattle producers would be assessed to finance research and information activities designed to improve markets for cattle, beef, and beef products. This program will not be established unless producers vote to approve the order.

According to the act, amended in 1978, for the order to become effective, at least 50 percent of those registered must vote in the referendum and a majority of those voting must vote in favor of the order. Originally the act required approval by two-thirds of the registered producers voting. An order voted on in 1977 was favored by 56.4 percent of those voting and was not approved.

The new order was published in the Dec. 14, 1979 Federal Register. Copies are available from: AMS, Rm. 2610-S, USDA, Washington, D.C. 20250.

Beef Board

If the order is approved, A Beef Board composed of up to 68 beef producers would be appointed by the Secretary of Agriculture to administer the order, collect assessments, and conduct a beef research and information program. Up to five non-voting consumer advisors would be appointed to the board by the Secretary. The board would recommend qualified persons for these positions. It would elect 11 of its members to serve on an executive committee. This committee could employ a staff and direct the program within policies set by the board. USDA's Agricultural Marketing Service would monitor the program. This review responsibility would include approval of the board's plans, projects and annual budgets.

Board members and alternates would serve without compensation but would be reimbursed for necessary and reasonable expenses. They would be appointed to 3-year terms from nominations submitted by certified producer organizations.

Any organization representing producers may request certification by USDA to participate in nominating board members. To become

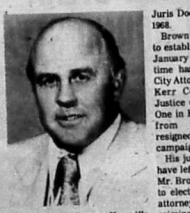
Scout Regatta Race Is Sun.

The Cub Scouts are completing construction of their sailboats in preparation for their regatta races which will be held Sunday, January 27, at the new Scout hut at Mansfield Park starting at 2:30 p.m.

If the weather is very bad, the event will be postponed until a later date.



Everyone is invited to attend and root for your favorite entry as the Cubs blow their boat down the waterways, racing toward the finish line.

Bandera Schools Announce Bad Weather Emergency Plans

Occasionally severe weather conditions affect Bandera and surrounding country. Should severe conditions such as heavy rains and/or icing of highways occur, parents should tune their radios to the following radio stations: KRME 1460 Hondo, KKYX 680 San Antonio, or KTSA 55 San Antonio. If it becomes necessary to cancel school for any reason, these stations will broadcast closing bulletins as a public service.

In addition, it might become necessary to dismiss school early due to severe weather conditions. In the event of an unscheduled early dismissal, your children should know exactly where they are to go. This is especially true if your children ride a bus. Bandera Public School encourages parents to formulate an emergency plan with their children to deal with the possibility of unscheduled early dismissals.

Republican Spencer Brown Announces Candidacy For D.A.

Juris Doctor of Law Degree in 1968.

Brown returned to Kerrville to establish his law practice in January 1969, and since that time has served as Kerrville City Attorney, Municipal Judge, Kerr County Attorney, and Justice of the Peace, Precinct One in Kerr County, a position from which he recently resigned to devote time to campaign for District Attorney.

His judicial service activities have left indelibly impressed in Mr. Brown's mind the necessity to elect an aggressive district attorney who will prosecute all criminal matters without fear or favor. He pledges this experience achieved during the past 10 years to bring the District Attorney's office into a partnership with the people of the 216th District for their protection and well being. The Republican candidate stated: "As our Hill Country area grows and expands in population and wealth, the criminal element grows with it. Thus it becomes increasingly important that the District Attorney's office vigorously and effectively prosecute the criminal's threat to lives and property."

Mr. Brown resides with his wife, Linda, daughter, Suzanne, and son, Spence, at 1311 Jackson Road, Kerrville.

Always willing to share civic responsibilities in the community, Brown's list of credits include past-president of Kerrville Jaycees, Chamber of Commerce Green Jacket Committee, United Fund Drive, American Cancer Society, vice-president of Hill Country Bar Assn., Rotary Club, American Red Cross director, Auld Youth Center director, Dwyer Community Center legal advisor, and member of First Presbyterian Church.

'79 Rainfall More Than Average

Bandera again had above average rainfall in 1979 with 36.15 inches. This was almost 4 inches more than the 32.28 inch average for Bandera. Our records go back to 1900. The last nine years we have received at least 30 inches per year, the longest period in our records without an extended drouth (more than a few months).

The most rain received in a 24-hour period in 1979 was 2.00 inches, so runoff and erosion was not the problem it often is.

August, September and October were months with below average rainfall. So, fall grass growth was less than normal; however, grass usually makes about 70 percent of its annual growth before July; so, overall production was still pretty good.

The lack of grass growth this fall has again shown the need for a good drought plan in every ranching operation. The smart rancher has found it more profitable to keep that extra grass on the land for more production and to carry him through the dry months. Feed on the land is cheaper than in the bale.

By leaving 50 percent of the total growth of grass on the land, we can harvest more than if we keep it short. Grass that only half feed is healthier and makes more efficient use of water it gets. The extra co

Tom and Betty Glassett of Lakehills visited her father and mother, Mr. and Mrs. Alfred Smith.

Mr. and Mrs. Curtis Young left Tuesday for Lake Jackson to attend the funeral of a dear friend, Fred Pearce, who died in Herman Hospital in Houston that day, following an illness of five months.

Mr. Pearce was well known in Bandera. He was a pilot for Dow Chemical Co. and was associated with the late Jack Lapham of the Texaco Co. He flew to Bandera many times to pick up Mr. Lapham and fly him to New York to board meetings and other company business meetings. Mr. Pearce and his wife had made plans to move to Bandera. They had bought acreage at the Flying L and were planning to build a home there.

Funeral services for Mr. Pearce were held Wednesday at 3:30 p.m. at the Lake Jackson Church of Christ. Mr. Young served as a pallbearer at the service.

Mr. Pearce is survived by his widow, a son and daughter.

Many friends here offer sympathy to the bereaved family.

Mrs. Pauline Stevens and son, Reagan, and Mrs. Frances Shear returned last week from a trip to Colorado. They stayed two days longer than planned, due to a heavy snowstorm.

Sabinal Canyon NEWS

Mrs. Lillie Thompson

The vicinity in and around Vanderpool received one inch of rain Wednesday night and Thursday morning of last week with a heavy thunderstorm and small hail. Reports came in of a damaging hail storm between Sabinal and Utopia. Another inch of rain fell Sunday night.

Our nice neighbors of Sabinal recently becoming subscribers to The Bandera Bulletin, sent in this news item: Four young men spent the night with the Werner Wiebolds of Sabinal on their way to Jacksonville, Fla., from San Diego, Cal., riding racing bicycles. The four youths, Phil Darrow, Mike Behrman, Steve Coll and Bill are students of Williams College of Massachusetts and are traveling coast to coast by bike. Have a safe trip, men!

Emmett Trader and wife, Jerry, are happy to be back in the Hill Country for a while. Emmett has been hospitalized in Houston and Corpus Christi off and on for a month suffering from a pinched nerve condition.

Mrs. Lera Johnson is home from San Antonio, recuperating from oral surgery and other illnesses. Everyone wishes her a speedy recovery. Mrs. Joe Ellison took Lera's place at the piano Sunday morning for song services at the Baptist Church.

Mr. and Mrs. Joe Haynes of Kerrville weekended at their place above Vanderpool.

Rev. Geo. Polvado is in Methodist Hospital in San Antonio, slightly improved at this time. He will be able to be brought home Monday, by his daughter and husband, Mr. and Mrs. James Arnze, of Nederland.

Young Tommie Thompson, 4-year-old son of Mr. and Mrs. Gordon Thompson, returned home to Carrizo Springs Saturday after spending two weeks visiting his grandparents, Mr. and Mrs. Finis Thompson.

Mrs. Wichita, Kan. is here visiting the Franklin Neffs.

Donald and Joe Lee Dibbens are in San Antonio with their daughter, Donna Jo, who has been a victim of the flu. She will go home with them Monday to recuperate and spend a week's vacation.

Mr. and Mrs. Doc Cline were Baptist Church visitors Sunday.

Mrs. Bettie Bo Yeager of Fourney is visiting her father, Curley Thompson, and brother and wife, Bud and Nancy Thompson.

Norma Duke reports that her mother, Blanche Bownds, has been improving nicely the past two weeks and would appreciate your cards and letters. Her address is: Mrs. Blanche Bownds, Golden Age Manor, Room 421, 8810 Long Point, Houston, TX 77055.

CARD OF THANKS

Johnnie Thompson wants, at this time, to thank all his friends everywhere for all the many nice cards and letters and telephone calls he has received — the card from the Baptist Men's Class with all the names signed on it; also a card from friends of the Methodist Church and another card with many names signed on it from Friends of the Methodist Church. He has received over 100 cards and letters, including his Christmas cards and get-well cards. Johnnie has had his eye surgery and is doing well. He came through the surgery fine and will soon be seeing out of the eye. He has begun his first treatment of chemotherapy and with God willing, these treatments are going to help him. He is home now and says "Thanks again" to all. It means so much to see the mail man leave some mail.

Just Wondering . . .

I lost my dog, Barnaby, in the flood and had given him up for dead until two weeks ago when I believe I saw him on S.H. 16 between Ranger Crossing [illegible] who has collared, neutered male with short hair, long tail, sort of hound looking, about the size of a large border collie. This dog had on a collar. I would love to know that Barnaby had found a home and was okay, or if he is a stray now, I'd love to give him a home. I would so appreciate hearing [illegible] Barnaby.

Bailey Appointed To Committee

Ross Bailey of Bandera, a member of VFW Post No. 9176, has been appointed as a member of the POW-MIA Committee at the Texas department level of the Veterans of Foreign Wars which is to hold its annual Mid-Winter Roundup in Austin January 25-27 when its POW-MIA Committee will hold a caucus and make a report at the VFW Texas department's Council of Administration meeting on Saturday of that weekend.

The committee will act largely on information that has been researched and developed by the Washington headquartered National League of Families of American Prisoners and Missing in Southeast Asia.

The National League of Families determined that the U.S. Government was not adequately interrogating Vietnamese refugees for information about captive Americans still held in Indochina. The National League, aided by its Texas Chapter, undertook its own investigations. It was expensive but many reports of live POW sightings have been obtained.

Also, the VFW POW-MIA committee chairman, Al Chapin, has received a large volume of documents from the Defense Department which tell of many uncorrelated American POW sightings, some as late as 1978 — five years after the signing of the Paris Peace Accords which ended our combat involvement but only partially the return and accounting of American Prisoners of war.

The National League and its Texas chapter now have sufficient information to indicate that Americans are being held captive in Southeast Asia, but their treasuries are depleted. More funding is needed to continue efforts to bring these veterans home. Organizations and individuals can render valuable aid not only in supplying needed funds but also by helping to awaken the public and present administration to our cause — bringing the POW-MIA crisis out of chaos and our veterans home.

Mrs. F.J. Schluter spoke on "Life in Early America: Colonial Pewterers" to the members of the Captain Francis Eppes Chapter, National Society Daughters of the American Colonists, at the meeting held at the Butt-Holdsworth Memorial Library Room, Kerrville on Thursday, January 10.

Mrs. Schluter told that pewter played an important part in the development of civilization, both as a medium for artistic expression and as a material from which domestic utensils were fashioned. Besides that furnished to the homes of England, much pewter was exported to America. The English pewter that was exported to America, no doubt served as example for colonial craftsmen and thus laid the groundwork for the American pewter industry. The early American settlers, with few exceptions, came with a background of English craftsmanship and English habits of thought and taste, they were accustomed to the type of utensils produced in England. The earliest pewterers of whom there is authentic record were Englishmen by birth or training, and the reason is evident why early American pewter followed the English tradition.

When America was settled, pewter was mainly for the wealthy. Wooden utensils were much more common. What pewter there was was cherished by the colonists, and divided among heirs and passed from generation to generation.

Pewter is a low luster, soft metal made of tin, a small amount of antimony, and a bit of copper. This constituted the better pewter. Some lesser pieces were made of a larger percentage of lead, which produced a very soft, easily bent pewter article.

The idea that pewter was a "poor man's silver" is not strictly factual, because, as England realized that the colonists had little tin available, she laid a heavy tariff on the shipments of tin to America. This meant then that as utensils became worn or broken, the pewterer might gather these broken pieces and melt them down in order to fashion his new utensils. Pewter was never thrown away, but was reused. There is comparatively little colonial pewter, authentically marked, left today. Needless to say today pewter is a valued collector's item and dearly treasured.

The period from approximately 1700 to 1830 is undoubtedly the "Golden Age" of American pewter. During the first half of this period, practically all of the dishes used were pewter. During the latter half of the tinth period new developments in china and porcelain assumed sufficient proportions to threaten the dominant place of metal utensils. It was during this century and a half that most of the really great American pewter craftsmen lived and worked.

As far as we can judge from the marked specimens that have come down to us, the craft of the pewterer in the young America was firmly founded upon the housewife's patronage. Next to the plate, in importance, the basin seems to have been the most important item for the housekeeper. It is quite likely that more spoons were made here, marked or unmarked, than of any other one pewter form in use at the time.

Among American pewterers were the names of Francis and Frederick Bassett, Robert Boyle, William Bradford, Joseph Copeland, Thomas and Joseph Danforth, Gershom Jones, James Liddell, Richard Lee, Henry and William Will, Paul Revere, the silversmith, was also said to have made some pewter.

As individuals, pewterers were not in any way different from their neighbors with whom they shared the daily life. Most of them had to supplement their incomes with the fruits of other occupations.

There is a charm about pewter today that makes would-be collectors of us all. Its soft, beautiful luster flows in our hearts, and always brings to mind the Colonial pewterer plying his trade. It signifies "early America" to us now.

Members enjoyed viewing the pewter collection of Mrs. Schluter.

A brief history of the French Fleur de lis flag was given by flag chairman, Mrs. Emmit E. Schmidt, Sr., explaining that the explorers LaSalle, Joliet, and Champlain carried the royal emblems of France into the very heartland of the New World. Fort Duquesne was built by the French in 1754 at the forks of the Ohio to protect the land they claimed to the west and to force the English settlements back over the mountains.

On November 25, 1758, General John Forbes' army relieved the smoldering ruins of the evacuated Fort Duquesne, and the French were never to return to the valley of La Belle Riviere.

Mrs. Thomas M. Daniel and Mrs. F.J. Schluter were elected as delegates to the Fiftieth State Assembly of the Texas Society of the National Society of the Daughters of the American Colonists to be held on February 28, 29 and March 1, at the Ramada Inn at College Station, Texas. The alternates elected were Mrs. Emmet E. Schmidt, Sr., and Mrs. C.W. Hofer.

The next meeting of the Captain Francis Eppes Chapter will be held on April 10.

Three Structures Are Historic Sites

Bandera County Courthouse, Old Courthouse, and Jail, which comprise a significant Bandera County historical site, was officially listed in the National Register of Historic Places on October 31, 1979. Nominated for inclusion in the register by the Texas Historical Commission, the site is now formally awarded for its contribution to the history of the American people.

These three county buildings constructed between 1869 and 1891 are all of local materials and reflect the post-Civil War boom town growth of Bandera. The jail was designed by noted Texas architect Alfred Giles in 1881. All three buildings have remained in continuous use in governmental and commercial functions.

The national register is a nationwide inventory of historic properties considered to be worthy of preservation for their cultural and historical values. Bandera County Courthouse, Old Courthouse, and Jail is one of approximately 650 Texas archaeological, historical, or architectural significance which have been included in the national register, under the National Historic Preservation Act of 1966.

This designation does not infringe upon the private property rights of site owners. It does afford a measure of protection from disturbance in any federally-funded or licensed project such as highway or reservoir construction. National register properties are also eligible for financial assistance through the grants-in-aid program. Such funds can be used for acquisition, preservation, or restoration of the sites. The federal funds distributed to the states as grants-in-aid are not tax exempt. They are considered lease payments to the Department of the Interior for resource exploration on public lands. Funds are allocated to the states each year through the Heritage Conservation and Recreation Service of the Interior Department. The money is administered in Texas by the national register office of the Texas Historical Commission, under the direction of Truett Latimer, state historic preservation officer and executive director of the agency. Texas' 1979 allocation of $1,494,000 is the fifth largest state grant in the nation, reflecting Texas' active preservation efforts.

The Texas Historical Commission is the official state agency for historic preservation. It acts as a clearinghouse for preservation information, sponsors educational and consultation programs, and publishes preservation-related materials. The agency is responsible for the state historical marker program and for an extensive program of workshops, publications, and services in the fields of preservation, archaeology, and museology. The Commission works closely with a network of 250 county historical commissions as well as 237 non-profit heritage organizations in the state.

Bandera County Emergency Medical Service coordinator Martin Smith spoke to members of the Madrona Garden Club at their first meeting of the year held January 11. He described how this county volunteer organization functions, what its purpose is, and the upkeep and expense involved with maintaining the equipment.

There are 19 active emergency medical technicians (EMTs) and 20 emergency care attendants (ECAs) in Bandera County, according to Smith. He also reported that the ambulances made 281 runs in 1979. Bandera County now has 3 vehicles in use.

Mrs. Edith Edwards spoke on iris propagation, telling of her personal experience in propagating and cross-pollinating the iris. With an iris plant in bloom which she had previously pollinated, Mrs. Edwards demonstrated and explained the process of propagation and cross pollination.

Mrs. H.L. Bruce read an article from the Texas Department of Highways and Public Transportation entitled, "Madrona, the Naked Indian," Wildflower specialist Carroll Abbott of Kerrville has successfully started hundreds of Madrones from seeds. The Texas Department of Highways recently bought 900 sapling Madrone trees to be placed on Texas Highways.

Following the program a short business session was held.

Twenty-two members and two guests, Mrs. Anne Jeffers and Mrs. Frances Halstead, answered roll call.

Mrs. J. Burgin Davenport, nominating committee chairman, presented the names of officers: Mrs. Gladys Hueby, president; Mrs. W.J. Haynes, first vice president; Mrs. R.W. Alexander, second vice president; Mrs. D.R. Rippey, third vice president; Mrs. Pat Spencer, recording secretary; Mrs. M.M. Chipman, treasurer and corresponding secretary; and Mrs. H.L. Bruce, parliamentarian. The new officers were elected by acclamation.

The club voted to donate $50 to the Bandera County E.M.S. Also, a $50 donation was made by Mrs. Anne Jeffers, a guest.

Plans were made for the annual Mexican luncheon, White Elephant Sale and Bake Sale to be held on February 4 at the Bandera United Methodist Church Fellowship Hall.

Hostesses for the meeting were Mrs. H.L. Bruce, Mrs. W.P. Jordan, and Mrs. Dixie Hammonds.

Legion Auxiliary Holds Meeting

The American Legion Ladies Auxiliary met January 15 at Legion Hall in Bandera for a very productive meeting concerning Legion scholarships and the yearly process of sending a girl to Girls State for training in governmental procedures. The auxiliary would be glad to have letters telling us "Why I would like to go to Girls State." These would be judged for a winning essay.

After returning from Girl's State, the winner would report at the mid-summer picnic-meeting to members of Legion Post 137 and its auxiliary.

The scholarships will be for the graduating boys and girls. We hope to have one scholarship award this year and will work toward having one each for a boy and a girl next year.

Scholarships from The American Legion must be given to children of servicemen, but Girls and Boys State training can be given to those most interested.

Participation in Christmas programs at the Legion Hospital were reported. The auxiliary tries to remember the Veterans several times each year.

A THOUGHT FOR THE WEEK

By John M. Grimes

As written by Harold M. Dunning, "Rivers are like lives. The more contributions they gain from friendships, the bigger they grow. Friendly, quiet little streams that join them in their long, troublesome journey to the sea, make them strong and mighty. The helpful contributions of love and kindness we gain from friends make our journey of life better and richer."

Friendliness is one of the most admirable characteristics a person can have. While it is often connected with curiosity, it is seldom insincere. Instead, it almost always reflects a true friendliness, which takes for granted that one's fellowman is worthy of friendship. Friendliness is a very valuable asset to anyone. Bronson Alcott wrote that a friendship formed in childhood might become the guiding genius of one's life, and this is equally true of friendships formed at any time in life. A man's friends may be his most valuable possessions.

What is the secret of having a beautiful life — having friends. Life is so important because of the many friends we love and care about. Life will mean much more to all of us when we take the time to make a new friend. Now is the time!

BEEF REFERENDUM
Continued from page 1

certified, an organization's membership would need to consist of a substantial number of cattlemen who produce a substantial volume of cattle in a designated geographic area. ... area would have representation on the board proportional to its share of the U.S. cattle inventory. The following geographic areas would be represented by one member and alternate: Alabama, Arizona, Arkansas, Florida, Georgia, Idaho, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Montana, New Mexico, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Carolina, Tennessee, Utah, Virginia, West Virginia, Wyoming, Nevada-Hawaii, Washington-Alaska, Maryland-Delaware-New Jersey-District of Columbia, and the New England States. States entitled to two members and alternates would be: California, Colorado, Minnesota, Oklahoma, South Dakota, and Wisconsin. Three members and alternates would represent Iowa, Kansas, Missouri, and Nebraska. Texas would have 6 members and alternates.

Research, Information, Education and Promotion Programs

The board would develop, and submit to USDA for approval, programs of research, consumer and producer information, education, advertising, and promotion for cattle, beef, and beef products. The board could, with USDA approval, allocate funds for use by a State's beef council or other beef promotion entity to carry out activities under the order. Funds could not be used to influence government policy or action.

Advertising or promotion programs could not make misleading or unwarranted claims; make any reference to private brand names of beef or beef products; or use unfair or deceptive acts or practices with respect to quality, value, or use of any competing product.

Assessments

Assessments would be made through a deduction by the buyer each time cattle are sold. Slaughterers would collect and send assessments to the beef board at the time of slaughter. The final assessment would include the accumulated total of assessments paid by all owners of the cattle. The assessment rate could not exceed two-tenths of 1 percent of the sale price of cattle for the first two years of the program operation. After that, the assessment rate could be changed by the board with USDA approval but could not exceed five-tenths of 1 percent. At the two-tenths of 1 percent level, about $98 million would be collected annually.

With an assessment rate of two-tenths of 1 percent (20 cents per $100 value) the assessment process would work as follows:

A cow-calf producer who sells a calf to a stocker grower for $400 would have to remit 80 cents deducted from the check he receives. If the stocker grower sold the animal to a cattle feeder for $600 an assessment of $1.20 would be deducted by the feeder. If the feeder sold the animal for slaughter for $800, the slaughterer would deduct $1.60 and forward it to the beef board. Each owner would contribute an amount based on the value they added to the animal. In this case the cow-calf producer contributed 80 cents and the stocker-grower and cattle feeder each contributed 40 cents.

High-valued breeding or dairy animals would be exempt from assessment until slaughter. Since these cattle reach their peak value prior to slaughter, rather than increasing in value until slaughter, they do not fit the value-added concept of assessment.

Beef producers not wishing to fund the program would have their assessments refunded upon request when accompanied by proof of payment. The refund request would need to be made within 60 days after the end of the month in which assessments were due. The board would make refunds within 60 days of the request.

Reports, Books, and Records

Slaughterers would maintain and make available to the board or USDA information needed to carry out the order. All such information would be kept confidential.

Terminating An Order

The order would be terminated if it is not carrying out the policy of the act. The secretary is required to hold a referendum to discontinue an order if requested to do so by at least 10 percent of the number of producers that voted in the referendum that originally approved the order. An order would be terminated if a majority of producers, accounting for more than half of the cattle produced by all voters, favored termination.

Attention All Cattle Owners

The opportunity to register and vote in the 1980 BEEF REFERENDUM is here. Any individual, group of individuals, association, cooperative corporation, partnership, or other entity which owned one or more cattle at any time during the year 1979 (except solely for slaughter) is entitled to vote in the 1980 BEEF REFERENDUM. Each producer entitled to cast only one vote.

Each producer desiring to vote must register with the Bandera County ASC Office or the county office serving the county where his/her farm or ranch headquarters is located.

An absentee producer who does not have a local headquarters may register and vote in any county where his/her cattle are located.

A list of registered producers shall be posted daily during the registration period at the ASC Office.

A producer wishing to register and/or vote by mail may request the county office to mail a registration card and ballot; however, no return postage can be provided.

You do not have to be participating in ASC programs to be eligible to vote, although this would be an excellent time to come in and advise us of any change in your farming or ranching operation. Also, if you are a new landowner in the county and wish to receive our monthly newsletter, let us know when you come in to register for the Beef Referendum.

REGISTRATION PERIOD — January 28 through February 6, 1980.

Frontier Times Museum News Report

By Jonn V. Saul, Curator

We were pleased to have a visit from Mr. and Mrs. Hugh Turk of St. Petersburg, Fla., this week. The Turks were here to visit at the Dixie Dude Ranch with Mrs. D.H. Crowell and other friends in the area. Mrs. Turk continues to be interested in Bandera and the museum which she liberally funds each year, as well as providing scholarships for Bandera High School graduates. She continues to carry out the wishes of her late husband, F.B. Doane, in conducting the affairs of Frontier Times Museum, assisted by a local board of directors. Mrs. Turk sent regards to all the board members.

The Frontier Times Museum had a very successful 1979. From the first of June many visitors from foreign lands were entertained at the museum. Checking our register of visitors, we found that we had 14 visitors from France, 2 from Mexico, 3 from Sweeden, 1 from Puerto Rico, 13 from Germany, 46 from England, 10 from Canada, 4 from Ireland, 6 from Switzerland, 1 from Hungary, 2 from South Wales, 2 from Scotland, 1 from United Kingdom, 1 from Bermuda, 2 from Holland, 4 from Norway, 3 from Alaska, as well as hundreds from Texas and the United States.

Cowboy Capitol Trail Queen Chosen

Christine Fleming

Christine Elise Fleming, daughter of Mr. and Mrs. Harry Fleming of Bandera, will represent Bandera Cowboy Capitol Trail as Queen of the 1980 official 11th Annual Cowboy Capitol Trail Ride to the San Antonio Livestock Show and Rodeo.

Christine, a brunette, is a student at Bandera Junior High School, where she is active in sports and other school activities. She enjoys dancing and horseback riding and caring for her horse. Since the age of three years, she has made the big ride to San Antonio with her family. The first several years as a trail rider, she rode in a unique double saddle with her mother. Of course, Christine soon graduated to her own saddle and mount and has made ten rides with the Cowboy Capitol Trail Riders. "Christine has grown up with the ride and we are honored and proud to have her as our 1980 Queen," said Frank H. Anderwald, trail boss, in making the announcement of the selection of the queen.

The Cowboy Capitol Trail Ride gets underway Tuesday, February 5, at 9 a.m. starting at The Longhorn on Highway 16. Lunch stop will be at Pipe Creek and night camp and presentation of the Queen will be at Villa Real at Midway. The second day out, riders will have a rest stop at Floore's Country Store in Helotes about midmorning and on to Hill and Dale Store on Loop 1604 for lunch. Night camp will be at the Outdoor Theaters, 600 Bitters and San Pedro. A dance, compliments of The Golden Stallion Club, will be Wednesday evening for all trail riders from the eleven different rides.

Thursday, February 7, the Cowboy Capitol Riders will join the ten other official trails of the San Antonio Stock Show for welcoming ceremonies at the Joe Freeman Coliseum at 1 p.m. County and local officials and the Red Carpet Committee of the San Antonio Chamber of Commerce will welcome the trails and show their appreciation to the trails for their promotion of the livestock industry and the stock show and rodeo.

Tall white tapers in brass candelabra flanked the arrangement. Nick Carter of San Antonio and Steve Pirtle of Houston were candlelighters and ushers. Joe Parks, organist of Pipe Creek, played "Trumpet Voluntary" by Purcell for the processional. For the recessional he played "Ode to Joy" from Beethoven's 9th Symphony.

The bride wore a white silk chiffon gown over taffeta, fashioned with a lace mandarin collar, with a sheer V-neckline, sprinkled with seed pearls and lace, which extended floor length, forming a three-tiered long train. Her fingertip veil of net and lace cascaded from a Juliet cap of lace and seed pearls. She carried a cascading bouquet of pink roses, white feathered mums and a purple throated orchid. For something old, she wore her late Grandmother Schott's gold bracelet. The groom was attired in a white tuxedo with pink rosebud boutonniere.

Kelly Rogers of Waco was maid of honor and Tim Anderson of Waco was best man. Bridesmaids were Loraina O'Neill, Valerie Culbertson, both of San Antonio, and Barbara Hall of Dallas. They wore floor length dresses of deep rose and carried nosegays of pink spring flowers, intermingled with long-stemmed, golden heads of wheat, grown on the Schott ranch. They descended the stairs from the choir loft and were met by the groomsmen—Randy Schott, brother of the bride, Grant Moak, Oklahoma City, Okla. and Randy Harick of Temple, Tex. The bride followed, and was met by the groom. The groomsmen wore black tuxedoes and white ruffled shirts with rose trim to complement the bridesmaid's dresses. They wore white boutonnaires.

For her daughter's wedding, Mrs. Schott wore a floor-length gown of mint-green. The groom's mother wore a mauve gown. Both wore multi-colored corsages.

The bride and groom, their parents and the wedding party formed a receiving line outside [illegible] to greet guests as the setting sun. After receiving congratulations, they departed for the Quihi dance hall, where 400 guests enjoyed a barbecue dinner.

A three-tiered wedding cake, decorated with pink flowers and white doves, was served from a fountain pedestal in which fresh flowers floated. The groom's cake was milk-chocolate, decorated in light chocolate with dark chocolate roses. Mrs. Florence Hoffman made the bride's cake and Mrs. Sue Graff made the groom's cake. Kala Murphy presided at the bride's book.

Band Boosters & Council Hold Joint Session

by Beth Mukqueeny

Blue and White Ball technicalities were discussed in a joint meeting between the Band Boosters and the Council at the High School Band Hall Monday, January 21.

The meeting was held to decide a convienient date for the band and band boosters to hold the dance.

Overall format of the dance was set and the theme will be "The Wild Wild West". Dress will be totally non-formal such as blue jeans, cowboy boots, and western shirts. Discussion over a prize for the best western guy and gal is still up in the air. This dress code would probably consist of petticoats and frills for the gals and chaps and spurs for the guys.

Unfortunately, the dance date will probably be moved to sometime in April due to the various contests coming up that the band will participate in, but then there will be suitable time for preparation. The exact time and day will be announced later.

Reporting Self-Employment Income For Social Security

It will soon be time for self-employed people to file their 1979 Federal personal income tax returns and report their self-employment income for social security, Jules R. Gipson, branch manager for Social Security in Kerrville said recently.

A person receives social security credit, and must pay social security taxes, if net earnings from self-employment amount to $400 or more in a year. For 1979, a maximum of $22,900 can count for social security credit.

Anyone who has both wages and self-employment earnings covered by social security pays the self-employment tax only on the difference between his or her total wages and the social security maximum. The 1979 self-employment tax rate is 8.1 percent.

Even though a person may owe no Federal income tax, an income tax return must be filed if there are social security self-employment taxes due. This is true even if the person is getting social security benefits.

Under certain circumstances, it is possible to use an optional reporting method and get credit for earnings even if net earnings are less than $400.

The leaflet, "If you're self-employed, reporting your income for social security," contains more detailed information about how to report earnings, including information on the optional method. Free copies can be obtained at the Kerrville Social Security office. The office is located at 1004 Junction Highway and the telephone number is 896-1422.

Walter Zigler reports that his 1979 TS 100 Suzuki was stolen from in front of the New Frontier Hotel Monday night, January 14.

These classes are held every Thursday at the Senior Center beginning at 9 a.m. and continuing to 12 noon. Many stay on for our nutritious noon meal. There is a dollar donation for the lunch.

Thanks to the Hevenor Lumber Co., who donated the material, and Ron Roberts for his labor, we now have a ramp for those who couldn't negotiate our steps before.

Mrs. Lillie Thompson

Saturday was a beautiful, sunny day. Saturday night a front moved in with heavy clouds and mist and by Sunday morning, the temperature dropped to 30 degrees.

A large crowd attended the gospel song services by the Boyd families Saturday night in the new community center in Utopia.

The bicentennial committee sponsored a second Flea Market sale, with benefits going toward floor covering and other necessary items for the community building. A nice convenient kitchen, restroom and treatment room are now complete. The heating unit has also been installed and was ready for use Saturday night.

Gloria Swantner, her son, Rick, and ten of his friends from Houston, San Antonio and Austin enjoyed the weekend at the Swantner Aribella Ranch at Vanderpool.

Mrs. Jane Ivy fell and received a broken arm while visiting a daughter in Odessa. She was in the hospital several days, but is now back at her Utopia home doing nicely.

Visiting the Nelsons at their ranch in Vanderpool are Alice Huisman and Marianne Van Benthem from Holland. The girls are really enjoying Texas as part of their tour through the United States. Alice's father built the Nelson's sailboat while they were staying in Holland. Ardell and Peg Nelson and two of their sons sailed the boat from Amsterdam, Holland, to Galveston. The ten-month trip took them to Spain and then across the Atlantic Ocean to the West Indies and on home to Galveston. Alice and Marianne say Texans are very friendly, and the country is beautiful. They hope to come back some day soon. In Holland they don't have mountainous country; only rolling flats with lots of green grass and livestock, consisting mostly of Holstein.

Ernest Rainey is recuperating at home after being in Sid Peterson Hospital in Kerrville for two weeks. He underwent surgery for an infection in his arm.

PHILLIP HEARNE

Funeral services were held for Phillip Hearne, 78, of Uvalde on Thursday, January 24, at 2 p.m. in Rancho Estates Funeral Chapel with interment in Waresville Cemetery, Utopia. Rev. Lonnie Webb officiated.

Mr. Hearne was a veteran of World War I, serving with the U.S. Marine Corps. He was married Dec. 23, 1923, to Emma Barton in Leakey.

He is survived by his widow, a sister, Mrs. Margrete Mace of Palestine, Tex.; two brothers, W.A. Hearne of Blythe, Calif. and Joe Hearne of Texas. The Hearne family lived in Utopia for many years.

CLAUDE OJETTY

Claude Ojetty, 84, of San Antonio suffered a heart attack last week and passed away before reaching Uvalde Hospital. He had been recuperating at the home of his daughter, Mrs. Doris Hester, on B & R Ranch after being hospitalized in San Antonio for several weeks.

Martin Pankratz of San Antonio was a visitor at the Foster ranch Saturday.

Mrs. R.C. Cutler spent several days visiting her parents, Mr. and Mrs. L.R. Morgan, of Corpus Christi.

Norma Hoover and Ada Ruth Reiber were San Antonio shoppers Thursday.

Quite a number of folks are victims of the flu. Mr. and Mrs. Hoyt Foster have been shut-ins for two weeks. Mr and Mrs. Richard Wilkins are also flu victims. As Hoyt said, "This weather doesn't help." If we could have a few sunshiny days everyone would feel much better.

The oil-rich OPEC countries are a growing market for U.S. farm products. Their purchases of U.S. agricultural products are approaching the $3 billion mark.

YOUR COUNTY GOVERNMENT REPORTS

I want to use this column today to brag on a certain number of our fellow citizens in Bandera County and to acquaint you with some of the things they are doing for all of us on a day and night basis.

I am speaking of our Emergency Medical Technicians (EMTs) and our Emergency Care Attendants (ECAs) who are the embodiment of our Emergency Medical Service team in Bandera County. A number of them are pictured with this column.

During the calendar year 1979, our Emergency Medical Service transported 281 patients. A breakdown of this number of patient trips by point of origin is as follows: Bandera and vicinity, 58 percent; Lakehills and vicinity, 19 percent; Pipe Creek and vicinity, 9 percent; Medina and vicinity, 9 percent; and Tarpley and vicinity, 4 percent. Sabinal Canyon and vicinity is covered by a Uvalde County unit which operates out of Utopia. A number of our Bandera County residents help to man that unit.

Equipment for the improvement and updating of our EMS is ordered periodically from the donations and memorials contributed to our County EMS fund by interested citizens. I urge any of you reading this who may not have been interested in the past to give your support and financial assistance to our fine EMS team in the future.

The EMTs pictured here are standing in front of the new modulance unit recently donated to the County through the great generosity of Mr. and Mrs. Albert B. Alkek of the Flying A Ranch. All of the other lesser contributions made by many of our citizens over the years also adds up to significant support for our EMS.

The third Saturday of each month the Bandera County EMS meets to discuss new and better ways to improve its operations and to constantly upgrade attending of patients as well as to train in the use of any new equipment that may have been obtained.

I suggest that anyone interested enough to read this report might wish to familiarize themselves with the faces and names of those in the photo. They are one of the most dedicated groups of people that it has ever been my pleasure to know.

Mr. Martin Smith, minister of the Bandera Church of Christ, presently serves as the over-all EMS coordinator. The others are all our friends and neighbors who live within our County and who give selflessly of themselves, their time and talent to serve the rest of us and to make our lives considerably safer in the event that we would become ill or injured. They serve without pay. To demonstrate the extent of their dedication, I must tell you a little story.

For some time prior to our "Great Flood" in August, 1978, the EMTs had felt the need for a Hurst Tool or "Jaws of Life," a device used to cut injured people out of automobile wrecks and the like. At the time of the flood an effort was made to purchase such a tool with Federal Disaster Funds. However, the item was disallowed. Rather than give it up, they forewent their uniform allowances which they had previously been paid and, instead, they contributed these sums toward purchase of the Hurst Tool. How's that for dedication?

I just thought you would like to know and be able to identify these folks who are constantly on standby to help each of us in our time of need. When you see them, why don't you make a special effort to say hello and let them know you appreciate what they do for us. Other than the satisfaction that they derive from helping others, it is the only pay they get and I am sure they will be grateful for your expressions of gratitude.

We are happy to report that Mrs. Lillian Haner is doing fine following surgery last Friday morning at Baptist Memorial Hospital in San Antonio.

Pat and Wilma Taylor, Jr., of San Antonio were guests of his mother, Mrs. Pat Taylor, Sunday.

Mrs. L.E. Alexander of Uvalde came to visit Thursday and Friday with her sister, Mrs. Pat Taylor.

Alta Wood James and a friend, Eduard Kubecka, of ... grandmother, Mrs. Edith Jeffers, and Ethel Mae on Saturday afternoon.

Mrs. Bill Mansfield visited Rev. Keith Mansfield and children, Bo and Brent, ... Jeanette and daughter, Connie, are still in California.

Visitors at the Tarpley Baptist Mission Sunday were Mrs. Bill Mansfield of Bandera, Mrs. Lewis Fisher of San Antonio and Mrs. Arnelia Maverick Nolen of Wilmington, Del. It was a very cold day so we were happy for the number who came.

Rain measured 2.3 inches in Tarpley last week. Monday the temperature was 40 degrees and cold showers of rain were falling.

Sidney E. Howe of Tarpley is a new subscriber of the Bandera Bulletin, compliments of Margaret Cain.

MRS. LOUIS CHICK SPROTT SUCCUMBS

Word has come of the passing of Mrs. Louis Sprott of Sabinal. She passed away of an apparent heart attack two weeks ago at her mobile home in Sabinal.

Mrs. Sprott, the former Lois Chick, was the daughter of the late Mr. and Mrs. Charles Chick of Tarpley. She is survived by two daughters and a son; a sister, Mrs. Nora Chick Woodmansee of New Braunfels, and a niece, Mrs. Frankie Heinen of Bandera. Our deepest sympathy to her family.

Scientists were puzzled at first when three white polar bears at the San Diego Zoo turned green. A check-up revealed that algae growing in the bears' pool had found a safe home inside the bear's hollow hairs, explains the National Wildlife Federation.

Community Wolf Club Annual Meeting Is Monday

The 16th annual meeting of the Community Wolf Club will be held at the Pipe Creek community center on Monday night, Feb. 4, at 7:30. Directors will be elected to take care of the club's business for the ensuing year, and other business will be attended to.

There were 47 coyotes caught and killed on the premises of the present paid-up members of precincts 1 and 2. Coyotes killed in precinct 1 on club members ranches were as follows: Middle Verde Ranch Co., 11; Flying A, 13; Bob Mansfield, 1; Roland Britsch, 1; and L.E. Monier, 1. In precinct 2: Dewitt Leibold ranch, 8; Gilbert Scheele, 2; Faris Bros., 2; Rugley Ferguson, 5; Randy Schott, 1; and E.H. Prerich, 2.

We appreciate the support of the 68 ranchmen and businessmen and also the support from our commissioner, Jimmy Russell of precinct 1, and commissioner Stanley Tschirhart of precinct 2.

We need a lot more people to help us hold the line on these predators because they certainly have an effect on the economy of our county, especially on the sheep, goat, deer and turkey population. Get involved and help support this club. The bounty on those 47 coyotes cost $50.53 each, for a total of $2,375. In 1978 we caught 72 coyotes for the cost of $3,600, which totals 119 coyotes for about $5,975 for a period of two years. There is no other way we have tried that can effectively catch as many coyotes as cheaply as this club has since we went to the bounty system. No coyotes caught — no money paid out.

Come to our meeting, bring your family and a friend, and enjoy seeing a film pertaining to the big game of the Artic. Refreshments will be served.

Memory Trees Replanted

Members of the family of the late Russell Zickler gathered on the courthouse lawn Monday to view the planting of a cedrus deodora tree in his memory. The ceremony was conducted by Bandera County Judge Rein Vander Zee, when the new tree was planted to replace one previously planted there which did not grow.

Judge Vander Zee's address was directed to members of the Zickler family shown here: (l-r) Mrs. Helen Zickler, Rusty Zickler, Karen Zickler, Russell Zickler, Jr., and Wilynn Zickler. Judge Vander Zee is standing at the back.

A red oak tree was planted Monday on the courthouse lawn in memory of Harold W. Brooks, Sr., to replace a tree planted there about four years ago which failed to grow. Ceremonies were conducted by Bandera County Judge Rein Vander Zee.

Pictured at the planting are Judge Vander Zee at back; Mrs. Carolyn Brooks, Rita Lee Brooks Hatcher, Harold W. Brooks, III, Elsie Lee Brooks Smith. In front are Dorian and Heathcliff Hatcher, twin sons of Rita Lee B. Hatcher.

The late Harold Brooks will be remembered most kindly by many friends here. He worked with the Little League baseball team while he owned and operated Frontier Drug Store for 15 years. His mother, Mrs. Ruth Brooks, resides in Vancouver, Wash.

His son, Harold Brooks, Jr., and family are presently stationed in Germany with the U.S. Air Force.

Woman weightlifter Jayne Renfro, who last weekend sidestepped a challenge by the flu to squat 187.5 pounds and deadlift 270 pounds, pumps iron in the garage of her northwest Austin home. Citizen photo by Anita Miller

Lady lifter: Pumping iron isn't just for muscle-bound men

By DONALEVAN MAINES
Citizen Staff

The day before Jayne Renfro entered her first power lifting contest — and set three state records — she did something her opponents may never have considered: she got a manicure.

Clip, file, polish, the works.

"That's probably the most feminine thing I've ever done," Jayne laughs, contrasting her debut in the decidedly masculine sport with her first professional nail job.

After totalling 540.5 pounds in three lifts, Jayne slipped on a silk blouse before dancing up to the stage to accept her awards. "I got the announcer so rattled, he gave me the wrong trophy," she says, gleaming with pride.

"She gets all the cat calls at meets," adds her husband, Bob, a "novice" powerlifter whose male ego doesn't seem the least bit threatened by his wife's progress in the sport.

Instead, Bob sat out a few weeks before Jayne's first match to help her train. And it's his extensive research in the sport, his constant encouragement and booming "Stay tight now, drive!" coaching that prompted Jayne to set three state records in her first meet, then break each of those in her second contest.

Jayne also benefited from attending meets and practicing with some of Austin's first-class powerlifters, Adonises such as Chip McCain and Bill Johnson, whose names are spotlighted in muscle magazines and top several world record lists.

Jayne, 25, says weightlifting "has tightened me up and firmed me up, but hasn't built me up like a brute goon.

"When I start getting too muscular, I guess I'll take up knitting," she laughs.

"If anything, it's helping me keep my weight down because I try to stay in the 123-pound class," she says. "When I'm in training, I don't pig out like I normally do."

Which doesn't mean her sport demands abstaining from "the good stuff." Says Bob: "That's the reason we powerlift. You don't have to give up spaghetti and lasagna and beer. You just have to be big and strong."

Last weekend, Jayne (whose maiden name is Mansfield) sidestepped a challenge by the flu to squat (187.5 pounds) deadlift (270 pounds) and total (581 pounds) her way to three new state records.

"I was a little bit disappointed," she says, "that I didn't break 105 on the bench-press. "I wasn't as prepared as I should have been, but I knew I could get 105 in the garage."

The garage in the Renfros' northwest Austin home is their training ground, complete with weights, security pipes ("A plumber's nightmare," says Jayne) and a stereo that plays disco and KLBJ music to pump iron by.

"Music can wipe you out or get you all keyed up," says Jayne who installs phones for Southwestern Bell.

"But put on Willie Nelson (music) and you can't get in to it," says Bob. "It's too laid-back."

— The Austin Citizen

Jayne Renfro is the former Jayne Mansfield, daughter of Mrs. Kitty Mansfield of Bandera.

THE BOY WHO CARED

He was full of life and a handsome lad,
When he came your way he made you glad.
He visited here and he visited there,
You could see him about, everywhere.
He would feed your dog or pen your lambs,
He would help anyone get out of a jam.
He would look at you with a twinkle in his eye,
And give you a smile as he waved goodbye.
Off he would go on his bicycle slow;
Just weaving here and there, to and fro.
He grew so tall, with his bicycle small;
Which often caused him to take a fall.
He'd get right up with a great big grin,
And let you know he could take it on the chin.
He wasn't a boy that was afraid;
He liked a challenge when he played.
He saw God in everything;
He heard the angels in the rain.
He had a heart filled with love;
It seemed to come from the Lord above.
The adults knew him in our town;
As one so polite as he made his rounds.
Could it be in all of this;
That he is saying a word of bliss.
Serve the Lord and don't go astray;
Come to Heaven and thru eternity stay.
He made an impression that is here to stay.
We're thankful to God, that He gave us Billy Grav...

Tom Loeffler Will Seek Re-Election

MASON—Pledging a continued "working partnership" with the people of the 21st Congressional District, U.S. Congressman Tom Loeffler Tuesday announced his intention to seek a second term by kicking off a two-day campaign swing in the district, beginning in his boyhood home of Mason.

Loeffler, stressing both the challenges and the opportunities awaiting America in the decade of the 1980's, pledged to maintain the working partnership necessary to assure that "the voices of the 21st Congressional District of Texas are heard and heeded in the Congress of the United States."

Pointing to his views of limited government, a balanced Federal budget, and the return of a strong America, economically and militarily, Loeffler said these principles had guided his actions as a United States Congressman, and would continue to do so in the next Congress.

"I want to continue to do the job you elected me to do," Loeffler said, "for it is a job which must continue. Too few in the Congress have stood up for our ideals—yours and mine. They are the good, solid ideals which are the cornerstone of this country's greatness: a strong Nation dedicated ever stronger by the dedication and spirit of her people; limited government; unlimited personal freedoms to aspire and prosper; the right to make our own decisions about our future—and that of our children; and the hope to expect more, not less from the greatest Nation on earth."

Loeffler said critical decisions must be made in the first year of the new decade, decisions which would shape America and the quality of life all Americans could expect.

Essential to a prospering America, Loeffler asserted, must be Government commitment to reverse the growth of big government, its cost, and its intrusion into American life. "Washington still believes it has all the answers—all the time," Loeffler charged. "In truth, we all know it does not.

"Government's responsibility is to use tax dollars wisely. It has not. Government's responsibility is to eliminate waste, inefficiency, and mismanagement. It has not. Government's responsibility is to live within a budget. It has not.

"These are the reasons for inflation. These are the reasons our free market economy is on the ropes and our small businessmen, farmers and ranchers are finding it more difficult to make ends meet. These are the reasons it is hard for someone fresh out of school to find that first job; for a young married couple to purchase their first home; for a family to send their children to college; and for those living on fixed incomes to provide the necessities of life."

Loeffler observed that the time may have come to determine if government's costs are exceeding benefits.

Carrying his reelection campaign to seven cities in the 21st District, Loeffler said the time had also come to make the decisions necessary to establish America's energy security.

"We must decide on a course of action which uses American dollars, to produce American energy, to create American jobs. We have the resources. We have the capacity. We need only the leadership to chart our course and produce what we must have in the coming years.

"Leadership, in fact, may be the most important decision we make this year. The lack of it today has undermined us militarily, and cost us the respect of friend and foe alike.

"America is a strong country. We must begin to act like one. And that means refusing to knuckle-under to every country which has an axe to grind with the United States."

Loeffler said the same spirit of optimism and pride, so basic to America's past, would prevail in the future. "We shall certainly be tested in the months and years ahead, as we have been tested for over two hundred years. Our record of accomplishment is clear for all the world to see. We shall build on that record of the past in the 1980's. With courage and determination—and with the good Lord willing—we shall make the next decade the best ever for America."

Loeffler, a member of both the powerful Interstate and Foreign Commerce, and the House Administration committees, brought to his position in Congress years of previous Washington experience with the legislative process, particularly in energy matters, and a unique Texas heritage of independent thought and action, having been born and raised in the Texas Hill Country.

The fourth-generation Texan and his wife Kathy, along with their two-year-old son, Lance, call home their residence on the banks on the Guadalupe River near Hunt.

Friends will be sorry to learn that Mrs. Roscoe Hayes is in Sid Peterson Hospital in Kerrville for surgery.

Fritz Weber was admitted to the Medina Memorial Hospital in Hondo on January 20 and was dismissed January 26.

Form W-2 Filing Time Here

Employers are now preparing Forms W-2 to report their employees' wages. Now that the filing season is here, the Social Security Administration wishes to remind employers of several important points.

Employers now are required to give their employees a Form W-2 by January 31, 1980, and to file the Copy A of the Form W-2 with the Social Security Administration by February 29, 1980. Employers in Texas should mail their Forms W-2 (Copy A) to the Social Security Administration, Albuquerque Data Operations Center, Albuquerque, New Mexico 87186.

The Form W-2 is a dual purpose report used by both the Social Security Administration for crediting FICA wages and the Internal Revenue Service for income tax reports. The FICA wages reported on the Form. W-2 determine the worker's future entitlement to Social Security benefits. Employees are urged to review their W-2 for errors in their name, social security number, and amount of wages. Any errors should be reported to the employer for correction.

There are two methods available to employers for submitting W-2 information — the paper method and the computer method. Employers who have computers or who use the services of a company that has computers should inquire about sending the W-2 information to the Social Security Administration on magnetic tape, diskette or disk cartridge.

Contact your Social Security office if you have any questions about the W-2 report. The people there will be glad to see that you get the correct information.

County Has One Fatal Accident In December

In December 1979 there were 13 llyse lost in 12 fatal accidents ... the rural areas and cities and communities comprising the San Antonio District of the Texas Highway Patrol. Bandera County was charged with one death.

In addition, there were 201 persons injured in 127 injury type accidents and an additional 276 accidents in which there was property damage only.

These figures reflect only those accidents of which the Texas Highway Patrol has knowledge. There are many accidents that go unreported, and as a result, the number of total accidents carried here does not reflect the total of all accidents.

Most of these deaths were caused by at least one of the following law violations: driving at an unsafe speed, driving while intoxicated, driving on the wrong side of road or failing to yield right of way. At least 85 percent of the accidents involved evasive action on the part of driver behavior. In some, drivers also accounts for YOU!

The Community Council of South Central Texas announces that the Energy Crisis Assistance Program (ECAP) for the winter of 1979-80 is now in progress. This program is to assist those individuals or families who will require assistance in paying their energy related bills, i.e. gas, electricity, etc.

All applicants must meet the following tests to qualify under this program:

A THOUGHT FOR THE WEEK

By John M. Grimes

It has been said strict patterns of behavior are hard to live by because life moves at such a terrific pace these days. Those who say and believe that often take the easy road. Invariably, they wind up with a hard row to hoe. The distinction between price and value of morals is not understood.

For example, popularity is considered a value. And it certainly is. However, happiness and pleasure obtained through popularity is a false value when the price includes abandonment of morals. Sooner or later, improper behavior brings about a feeling of frustration. The price paid far exceeds the value received.

A reputation for decency, dependability and honesty reflect good character. Good character cannot be bought. It is your most valuable possession for which there is no price tag.

Census-Taker Testing Gets Under Way

Testing is under way in the local area prior to hiring enumerators and clerks to assist in taking the 1980 Census.

The Census Bureau is seeking applicants who will be able to work 40 hours a week, including evenings and Saturdays. Work in many of the positions will begin soon, with hiring continuing into April.

Before being hired, applicants will be tested for their ability to understand and follow printed instructions and to do simple arithmetic.

Census enumerators must be physically fit, since the jobs require they climb stairs and be on their feet for long hours. They should also have good eyesight for reading small print and have good hearing.

Most will need a home telephone and a car. Mileage will be paid for use of a personal car.

Wages are paid to all personnel during the training period. Enumerators will then be paid for use of a personal car.

Wages are paid to all personnel during the training period. Enumerators will then be paid a piece rate for the number of household listings completed and can earn an average of $4 an hour or more. Clerical positions pay $3.55 per hour.

Most jobs will last three to five weeks.

For information about taking the written test, applicants should call 796-2781.

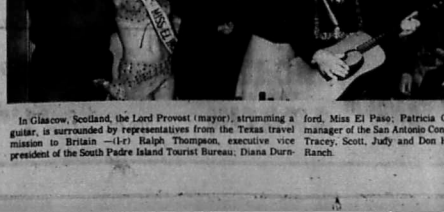
Mission Promotes Texas Travel

Five representatives from Bandera returned Sunday from Great Britain, where they were part of the Texas travel mission, a group promoting vacations in the Lone Star State. Don, Judy, Scott and Tracey Hicks and Bobby Boyd, representing the Mayan Dude Ranch, had completed a two-week tour through England, Scotland and Ireland.



The mission was sponsored for the third year by the Texas Tourist Development Agency, British Caledonian Airways and the U.S. Travel Service (London). They visited Glasgow and Edinburg, Scotland, and Manchester, Birmingham and London, England. The Mayan group also visited Rosbeg, County Donegal, Ireland. Enroute to Rosbeg, they landed briefly in Belfast.

Besides hosting receptions where literature about Texas recreation areas was distributed, those on tour had the opportunity to view the countryside, traveling from city to city, and also do some sightseeing in the cities where they stopped.

In describing the trip, Don noted the hotel expense of accommodations comparable to San Antonio's Gunter Hotel. At a currency exchange rate of $2.24 to the British pound, a single in London's Britannia Hotel was $64.96; at Birmingham's Albany, $40.32; at Manchester's Piccadilly, $58.24; and at Glasgow's Central, $56.

Judy described their stop in Belfast as a truly scary experience—seeing bombed-out buildings and soldiers carrying guns, and experiencing a thorough check of vehicles and possessions, in addition to individual questioning.

The number of vacationers from Great Britain showed a large increase last year, according to tour agencies, who predict an even greater increase in 1980. Britons, they say, enjoy the friendly hospitality shown them in Texas.

In Glascow, Scotland, the Lord Provost (mayor), strumming a guitar, is surrounded by representatives from the Texas travel mission to Britain —(l-r) Ralph Thompson, executive vice president of the South Padre Island Tourist Bureau; Diana Durnford, Miss El Paso; Patricia O'Connell, international relations manager of the San Antonio Convention and Visitors Bureau; and Tracey, Scott, Judy and Don Hicks of Bandera's Mayan Dude Ranch.

AT CITY COUNCIL . . .

Fire Department Is In Need Of Funds

Fire Chief Kenneth Pawvlik came before the Bandera City Council at their January meeting, Monday, February 4, to inform them that the Bandera Volunteer Fire Department is in critical need of funds. In addition to other expenses the department needs a new motor in one of the fire trucks. Chief Pawvlik said that donations are at a very low level now. This volunteer organization is financed by donations and their own fund-raising activities. At this time the city has no provision for any help to them in the current budget.

Cable TV

In other business, Ray Hillard presented to the council a proposal for a cable TV system in Bandera. A hearing on cable TV will be held at the council's next regular meeting on Monday, March 3, starting at 7 p.m. in the municipal building. At that time any other parties interested in offering cable TV to the city will be heard.

Offices for Rent

The city is offering for rent 3 offices located in the new municipal building. The sizes are approximately 320 sq. ft., 200 sq. ft. and 150 sq. ft.

Plumbing Inspector

Applications for a part-time plumbing inspector are now being accepted by the city.

Mobile Home Ordinance

The city council is studying proposals for a possible revision of the mobile home ordinance to allow certain types of modular buildings be placed in the city. This is on the March meeting agenda and proposals will be heard then.

Grant Denied

The city has been notified that it does not qualify for the $500,000 Community Development grant which was applied for.

City Elections

City elections will be held April 5, and March 5 is the last day to file for the offices of mayor or two places on the council. These positions are now held by Wilvie Smith, mayor, and Tommy Kindla and Pat Price, councilmen. Go by the office of the city secretary in the municipal building to get an application if you wish to run for one of these offices.

Present at the meeting were Wilvie Smith, mayor; Clarence Rhodes, Raymond Smith, Joe Hearn, Pat Price and Tommy Kindla, councilmen.

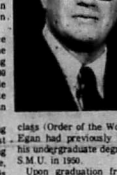
1 Dead, 4 Hurt In Smash-Up

A pickup truck slammed into a tree near Pipe Creek Tuesday, February 5, about 10 p.m. leaving one dead and four injured.

Jimmy Kalka, son of Mr. and Mrs. James O. Kalka, was pronounced dead on arrival at Methodist Hospital in San Antonio. Others in the accident were George Montague, David Sab, Charles Garcia, the driver, and Rhea Kalka. Their injuries were not believed to be serious. Montague had arm injuries; Sab, an injured right ankle and rib or collarbone injuries; Garcia, ankle injuries, and Rhea Kalka, bruises and abrasions.



The five young men, all Bandera High School students, were returning from night school at Fort Tech High School in San Antonio. The driver lost control of the vehicle, which skidded across the road, hitting a tree on the south side of the road, east of the Barrel House Feed Store.

Jimmy Kalka, who was riding in the back seat of the crew cab, was pinned in the wreckage.

The Bandera County EMS was called to the scene and they used the extrication tool to free the victim. All five were transported to Methodist Hospital in San Antonio.

Joe Mike Egan Seeks D.A. Post As Republican

Joe Mike Egan has authorized the Bandera Bulletin to announce his candidacy for the nomination of the Republican Party for the office of District Attorney for the 216th Judicial District (Bandera, Gillespie, Kendall and Kerr Counties) in the May, 1980 Republican Primary election.

Egan's application for place on the ballot together with the statutory petition in lieu of filing fee were filed February 1, 1980 in Austin with the Honorable Chester R. Upham, Jr., State Chairman of the Republican Party of Texas.

Egan, 52, took his law training at the Southern Methodist School of Law in the evening division and graduated in June, 1964, in the top 10 percent of his class (Order of the Woolsack). Egan had previously received his undergraduate degree from S.M.U. in 1950.

Upon graduation from law school, Egan left the Sun Oil Company, where he had been employed for eleven years, to accept a clerkship with the Honorable James Noel, United States District Judge for the Southern District of Texas. He worked with Judge Noel for three years, then moved to Kerrville, where for the past twelve and one-half years he has been engaged in the general practice of Law.

Egan said, "I have been involved in legal matters at all levels. While in Kerrville I have gained much experience in trials and appeals of felony cases as well as of misdemeanors at the county court level. My federal court experience in Houston and Galveston gave me the chance to assist the court in criminal trials. I also gained experience working on petitions filed in federal court by state prisoners.

"I am licensed to practice in the courts of the State of Texas; in the United States District Court for the Western District of Texas; in the United States Court of Appeals for the Fifth Circuit (which has appellate jurisdiction over decisions of federal courts in Texas); and in the Supreme Court of the United States.

"My family's reason for moving to Kerrville was to make our permanent home on a ranch at the dead end of Goat Creek Road, about six miles northeast of Kerrville, just inside Gillespie County. My dad, the late J.M. Egan, first started working this place in 1948.

"My wife, Mary, has taught elementary school in Kerr County for several years, and our two youngest children, Mike, 18, and Frances, 16, attend high school at Harper. Our oldest, Kathy, 20, is in her third year at the University of Texas at Austin. We are members of the First Presbyterian Church in Kerrville.

"My most important reason for seeking this job is that it is work that I want to do. It is also a job that I am trained and qualified to do, and it pays a fair salary. If chosen to serve as District Attorney, I will put aside my private practice entirely and devote my full time and energy to the responsibilities of the office."

Schreiner Reduces Tuition For Some

KERRVILLE — Residents of the Texas Hill Country have rallied to the support of Schreiner College and because of their efforts, that college is announcing a reduction in tuition for Hill Country students for the 1980-81 academic year.

Hill Country residents who apply to Schreiner College this coming year will be given a Hill Country Tuition Grant of $25 per credit hour. This grant is available to all permanent residents of Kerr, Kendall, Gillespie, Bandera, Real, Edwards or Kimble Counties.

This grant, based on a $73 per credit hour charge, is available to all Hill Country full- and part-time students taking credit courses. It is not available for non-credit courses which normally have a lower tuition charge. The grant may be claimed in addition to the general federal and state financial aid programs, but not in addition to other specific institutional grants such as Garland Lang Scholarship, Continuing Education Incentive Zwards and Athletic Awards.

The Hill Country Grant is for the 1980-81 college year only and is not automatically renewable.

Connally Qualifies In Texas

The Connally for President Committee qualified John Connally for a spot on the Texas Republican ballot for president by turning in 27,000-plus names to the State Republican Party office, more than five times the number of qualified voters needed.

Texas Campaign Chairman Paul Eggers personally delivered the signatures to the party headquarters after holding a news conference at the State Capitol.

"There are actually more than 30,000 qualified voters on these petitions," Eggers said, "but we had the workers stop counting at 27,000 because they needed to get to work on the big upcoming nationwide telethon Governor Connally will hold February 14."

Use of Label, Envelope Prevent Errors & Delays

AUSTIN, TEXAS—Many simple errors that can cause weeks of delay in the processing of federal income tax returns could be avoided if taxpayers used the label and envelope that accompany their tax packages, the Internal Revenue Service said.

The peel-off label, which is printed with the taxpayer's name, address and social security number, is designed to expedite processing at IRS Service Centers and prevent common errors that can delay issuance of refund checks.

One of the common and yet most troublesome errors that can be averted by use of the label is the listing of an incorrect or illegible social security number. Such an error can take weeks or even months to unscramble, the IRS said, and is one of the major causes of delayed refund checks.

The agency advised taxpayers to use the label, even if corrections are necessary. If such is the case — due to a change of address, for example — the correction should be marked directly on the label.

The IRS also noted that each label saves the government about ten cents in processing costs due to automation. Additional savings can be realized if taxpayers use the pre-addressed, coded envelope, which speeds sorting of tax returns during the annual deluge of mail that arrives at the ten IRS service centers.

No Change In '80 S.S. Tax Rate

The social security tax rate will stay at 6.13 percent for 1980 but there will be an increase in the earnings base, Jules R. Gipson, social security branch manager in Kerrville said recently.

The earnings base is the maximum amount of annual earnings subject to the social security tax, Gipson said. The base will be $25,900 in 1980, compared to $22,900 for 1979.

Workers who earn less than $22,900 will pay no more tax in 1980 than they did in 1979. Those who have earnings of $25,900 or more in 1980 will pay an additional $183.90 in social security taxes.

The maximum 1980 social security tax will be $1,587.67 for workers with annual earnings of $25,900 or more. The maximum tax for 1979 is $1,403.77.

The tax rate for self-employed people will stay at 8.10 percent for 1980, Gipson said, but the higher earnings base will mean a bigger tax bill for those with earnings of more than $22,900.

Workers should check their 1979 W-2 forms carefully when they receive them. A copy of this form is used to enter a person's covered earnings in social security records. Any difference between the worker's own records and the information on the W-2 form should be reconciled.

Workers should check their social security records every 3 years or so, Gipson said. This is especially important for those who change jobs often. People can get a free postcard form for this purpose at the Kerrville social security office.

The Kerrville office is located at 1001 Junction Highway and the telephone number is 896-1422.

LAKEHILLS UNITED METHODIST CHURCH

Sunday Morning Worship: 9 a.m.
Sunday School, all age groups: 10:15 a.m.
EVERYONE WELCOME — REV. WM. B. HENDERSON

Fishermen of the Week

Rick Morehouse and Todd Newman of Alamo Beach are the fishermen of the week. They were proud of the white bass which they caught at Pop's Place Saturday morning.

resting place, a place for fellowship and food, a center for prayer and worship, and a place for conversation and entertainment. The church will be staffed 20 hours each day. The SWTC of United Methodist Women will be represented by a banner whose central theme is the body, mind and spirit. The banner, which is 3 ft. x 5 ft., was made by Ann Smith of the Northern Hills UMW in San Antonio.

To Whom It May Concern:

The rumor that one may not buy a beverage at the Avalon Cafe unless one eats a meal is untrue. Although the Avalon has a revised menu and serves lunches Monday through Friday, this does not mean that one cannot drop in for beverages. The two friendly and efficient ladies who are there to serve one are Mary Lou Haby and Bee Borchers.

Frank Kerr Honored

Frank Kerr, who has served as treasurer of the Lakehills United Methodist Church the past 12 years, was honored with a surprise dinner and sing-along at the fellowship hall Sunday evening.

New Members

Sunday morning at the LHUMC Mrs. Barbara Roach was received into the church by confirmation and the holy sacrament of baptism. Mr. and Mrs. John Blanke, residents of Pebble Beach, were received into the church as associate members.

Lakeside Rangers

The Lakeside Rangers, who comprise a private security guard for homes, businesses and construction sites for residents and weekenders of Pebble Beach and Lakehills, are on the alert around the clock. Call C.O. Kelley for information, 751-3811.

Guests

Mr. and Mrs. John Thabet of San Antonio were the weekend guests of Mr. and Mrs. Hal Olsen of Alamo Beach, who feted them with a Texas size steak dinner. The Thabets formerly lived in Michigan and are quite taken with the hill country and the friendly Texans. They are potential residents of AB.

Honeymoon — Lakehills

There are Niagara Falls, Hawaii and Acapulco, which are rated top romantic honeymoon sites; however, there are two honeymooners who rate Lakehills as the most glamorous of all — John and Linda McCord of Las Vegas spent four days of their honeymoon at the home of Gene and Barbara Ott last week. The guests toured the Alamo and the Lone Star Hall of Horns in San Antonio and Arthur and Nora Lich's fabulous wine cellar in LH. John, who is originally from SA, had told Linda about the tasty Mexican food at Adolph's and the Avalon; since Linda hails from Missouri, she had to be shown. Gene and Barbara could not let their guests depart without treating them to the well known "Ott Menudo."

Guests In Lakehills

George Richardson, Pat Haskell of Natalia and friends were Sunday guests of Ken and Idee Lee.

Things Are Not So Bad

It is true — the economy of Lakehills is slow; however, LH holds its own. There was a good crowd at the business and eating places over the weekend.

MLVFD

The MLVFD has compiled an area map of their fire protection coverage which is approximately 10 square miles. The map is laid out in grid form to help locate and pinpoint a fire or drowning accident. This map has been sent to all property owners at no charge. Please memorize your grid area as though it were your social security number. If you did not receive your map, please call Eric Denton, PR director, at 751-3773. If you wish to make a contribution to help defray the cost of the maps, send contributions to Ray Mauer, Treasurer of MLVFD, Box 915, Lakehills, TX 78063.

Facts About The MLVFD

The MLVFD is the only fire department in Bandera County with a sub-station; they maintain a fire trucks with a fifth to be delivered in the near future. There are also 3 regular trucks with one rescue vehicle. The MLVFD is operated by volunteer firemen. Several of the volunteers are certified firemen. Others are in training. After 160 hours of training they will also become certified. The MLVFD, which is the largest fire department in Bandera County, is to be commended. Many do not realize the long hours the volunteers put in for the safety of others.

Business Meeting of MLVFD

The MLVFD will meet in business session February 12. Better be there — I'm rumored that Gib Gray and Carol of The Red Hen Restaurant will treat.

Training Session

The MLVFD will hold their regular training session on the 20th at 7:30 p.m. Many of the volunteer firemen are in training at ECA School.

Rumors

A "watering hole" will be opened lakeside in the near future. There will be no food served — just water.

A thought to live by: "Live life today, as though today were all. Your yesterday was ended with the sun. Tomorrow has not come. Today is here." — Douglas Mallach

Tarpley and Rio Hondo subdivision residents reported ice on the trees and icicles hanging from the roof Saturday morning. Sleet was falling Friday night. If we believe the ground hog story, then on Saturday, Feb. 2, he had to have seen his shadow, as the sun shone nicely after a week of cold, misty weather. We are told that means six weeks of bad weather.

Mrs. Mary Hietalahti of Rio Hondo visited her husband, Ray, at the veterans hospital at Kerrville Friday. Mary reports Ray is improving and doing as well as possible. We all extend our best wishes for Ray's recovery and hope he will soon be home.

CARD OF THANKS

Mary and Ray Hietalahti wish to send a large bouquet of lovely roses to all their friends and neighbors for their wonderful help and concern during Ray's hospitalization. 31-1tc

Mrs. Pat Taylor and Mrs. Edith Jeffers and daughter, Ethel Mae, were Kerrville visitors Friday. They did some shopping and Mrs. Jeffers reports a good check-up from her doctor.

Mr. and Mrs. J.E. Dean were in Kerrville on business Friday and stopped by Mosty's Nursey for fruit trees. We were told one should get trees planted now, or at least this month.

Debbie and Byron Singleton of San Antonio visited his parents, Mr. and Mrs. Albert B. Singleton, last weekend.

TARPLEY COMMUNITY CENTER COVERED DISH SUPPER

Friday, February 15, will be the usual time for the covered dish supper at the community center. Everyone is invited to have fun, food and fellowship. Bring your eating utensils, covered dish and y'all come.

TARPLEY BAPTIST MISSION WORK DAY

Saturday, February 16, is the day set to work on restoration of the Tarpley Baptist Mission. Bring your hammers, nail sacks and the ladies will serve the lunch.

Mr. and Mrs. Felix Billings attended the auction in Hondo Saturday. They reported a good run of cattle and prices good.

Mr. and Mrs. J.E. Dean received a nice letter from Lee Mansfield. He had surgery January 31 on his eyes. He sends regards to everyone and hopes to be back in March, if possible. His address is: 1018 Lorman Dr., Lee's Summit, Mo., 64063 — for friends who would like to send him a card. Everyone sends best wishes to Lee.

Mrs. Keith Mansfield, her daughter, Connie, and her aunt, Mrs. Selma Morrison, arrived home Saturday afternoon after driving to Fresno, Cal. ten days ago. They report having real good weather on their trip to California.

Mr. and Mrs. Bill Crider of Kerrville visited Mrs. Edith Jeffers Sunday.

Miss Janna Sandidge of Lubbock visited her parents, Mr. and Mrs. G.T. Sandidge, Jr., last weekend.

Mr. and Mrs. Dan Sandidge and son, Matt, of San Antonio have moved to Tarpley to make their home. We welcome them to our community.

Mrs. Sterling Fisher and Mrs. Selma Morrison of Utopia visited their niece and family, Rev. and Mrs. Keith Mansfield and children, Sunday afternoon.

Trying To Collect Student Loans

AUSTIN— State Comptroller Bob Bullock says he is stepping up efforts to collect more than $1.2 million in delinquent joint state-federal student loans for seven Texas colleges and universities.

Bullock said 1,802 persons have been identified as being overdue in the repayment of loans from the National Direct Student Loan program.

The defaulters will join some 400 other former students who owe money to the state's Hinson-Hazlewood program who won't receive state salary checks or other payments until they have settled up their education debts.

He said 235 persons who owe the NDSL program money also owe the Hinson-Hazelwood program for student loans.

"A computer cross-check showed that we've got a few double-dippers who have now become double-defaulters," Bullock said.

State law prohibits anyone owing the state a debt from receiving state payments.

Bullock said he will continue to hold checks to anyone due state money until the college debts are resolved.

The University of Texas at Austin had the largest number of defaults—1,201, totaling $748,239. Other schools and loan defaults include, East Texas State University, 203, $190,116; UT Health Science Center at San Antonio, 16, $4,781; Lamar University, 96, $65,851; Midwestern State University, 14, $10,851; University of Texas at Arlington, 201, $169,882; and Southwest Texas State University, 71, $39,818.

Bullock has cleared up more than two million dollars in debts in the state's Hinson-Hazlewood program since last September by holding up checks to over 1,000 defaulters.

In August last year, the Texas College and Coordinating Board held loan defaults worth more than $39.9 million under the Hinson-Hazlewood program from loans to 24,685 former students.

Bullock decided to help colleges and universities collect delinquent National Direct Student Loans after federal efforts to recoup the loans were sidetracked by the U.S. Senate's defeat of a proposal to allow the Internal Revenue to deduct loans from tax refunds.

Mr. and Mrs. Charlie Dugosh of Kerrville visited his mother, Mrs. Cleofus Dugosh, Sunday.

Mrs. Lillie Thompson

Visiting in the Franklin Neff home for the past two weeks were his sister and husband, Mr. and Mrs. Ralph Martin of Houma, La. They are interested in buying a place here and found just what they wanted, buying the T.E. Luther place on the B and R Ranch. They plan to move here the latter part of March.

Another visitor in the Neff home is a sister-in-law of Mrs. Neff, Mrs. Pearl Dibbens of Garden City, Kan.

The flowers in the Baptist Church Sunday, February 3, were in memory of Mrs. Cora Haby, placed there by her family.

I would like to correct an item in last week's paper. It was Mrs. Flora Ivy who fell and broke her arm.

Mr. and Mrs. Franklin Neff and Mrs. Pearl Dibbens were Monday visitors of a cousin, Mrs. Cecil Comstock, in Reagen Wells.

Mr. and Mrs. Richard Hill, their son, Richard, Jr., and their daughter and baby, Mrs. Jenette Wheeler, all of Corpus Christi, were weekend visitors of Mrs. Hill's parents, Mr. and Mrs. Jack Hawkins.

Mrs. Pauline Tampke underwent gall bladder surgery in Medina Hospital in Hondo Saturday and is reported to be doing nicely.

Randy Harp and his friend, Pete Nicolaidis of Texas City, spent the weekend with his grandparents, Mr. and Mrs. Hub Thompson.

Visitors of Lecil and Ruby Howard Sunday afternoon were their son, Dahl, and family of Kerrville.

Ardell and Peg Nelson took their guests, two girls from Holland, to San Antonio Wednesday, where they caught a plane for California to tour parts of the United States before returning home to Amsterdam.

The Nelsons are spending some time at their Vanderpool ranch and Camp Wood ranch.

Medina NEWS

Mrs. Orville Wier
589-2515

TO THE VOTERS OF PRECINCT 3:

To the voters who do not know me, I was born and raised in Kerr County. In 1935 I was married to the late Howell Keese. We raised and educated four children, three boys and one girl.

We ranched most of our life in Bandera County. I own my own home four miles out of Medina on Highway 16 toward Kerrville. I am a member of the First Baptist Church and have worked in all phases of it. I've also worked in the P.T.A. and with any organization that was for the betterment of our community. I still have a vital interest in our school and county as I have children living here who also own property and will soon have school age children.

If you choose to return me to the job as your commissioner, my pledge is to do the best job I know how that will benefit the most people and still live within our budget.

I feel like my past experience has given me a very good understanding of county government and how it works. As you know, there are four commissioners in our county so no one commissioner works completely independently of the others. We must take into consideration how working together can best benefit Bandera County and their respective precincts.

Key points include the acquiring of money for Farm to Market roads. Two of which were acquired while I was commissioner, Ranch Road 1336, or Wesl Prong, was redone for ten miles, another two miles completely finished and right-of-way bought to intersect with the Highway at Vanderpool, in western Bandera County, Precinct 4. Ridge Route Road was completed from Bandera, Precinct 3, to intersect with 2828, both fine heavy traveled roads. Also right of way and fencing on State Highway 16 in Bandera County to Bandera city limits was bought and is in the process of being completed.

Not as many projects were completed in Precinct 3 as I would have liked to have done, but I did the very best that I could with what I had to work with. I hope to get more done in the way of road repairs and new projects.

Road repairs are not the only thing that is done by a commissioner. Many things such as the protection of our underground water system, health care, taxes, welfare, crime prevention and many, many other things.

I know I do not have all the answers but if not, I will sure find someone who can answer them, should you ask me. Please feel free to call me anytime, 589-2573.

Thank you.

Candidate for County Commissioner, Precinct 3

Land Title Problems As Old As History Of Land Trading

Even Abe Lincoln had land title problems.

Not everyone knows the story of how Abe's family lost title to three Kentucky farms while Abe was growing up. The property was lost through no fault of their own, rather, because of land title problems so serious that the family was finally forced to move from the state.

This legend warns 1980 home buyers that unresolved land title problems can still bring financial disaster.

The Lincolns' title problems began when Abe's father, Thomas Lincoln, tried to sell the family farm and found it 39 acres short. Then past indebtedness on their second farm was discovered to be much larger than the seller had told the Lincolns it was, and, worse, the title holder demanded cash payment instead of settling for payment in merchandise. The Lincolns lost their third Kentucky farm through a suit of ejectment to remove them from the property.

By this time Thomas Lincoln understandably felt very brow beaten, so, with "his back against the wall," he relocated his family in nearby Indiana where land title problems occurred less frequently. The state of Kentucky thus forever lost its chance to be known as the home of the future president.

Years later Abe Lincoln wrote of the move to Indiana, "This removal was partly on account of slavery, but chiefly on account of the difficulty in land titles."

Protection for the home buyer is crucial in 1980, according to Bill Thurman, president of the Texas Land Title Assn. He explained that land title problems arise from the enduring nature of land and claims against the land which may be filed by different parties.

Advance precautions to protect the buyer before purchase should always include a proper title search of public records to disclose any title problems. Thurman advised the buyer to purchase title insurance to protect against all title hazards including those a title search cannot reveal.

Thurman says home ownership is an excellent hedge against inflation as long as real estate transactions are properly conducted.

Texas Land Title Association recommends that all prospective home buyers review the following checklist:

Study the particular advantages and disadvantages of a single family dwelling, town house, condominium or other type of residence before deciding what to purchase.

Consider the neighborhood where the residence is located. What is its condition, and, more important, what are the future plans for the neighborhood?

Check the distance from the house for sale to your job, shopping centers, schools, and public transportation.

Carefully inspect the house's structural condition. You may want to get a structural expert's appraisal.

Check on the amount of insulation. How much fuel is required to heat the house?

Shop for the best deal you can find in mortgage financing. Ask about the interest rate, late payment penalty, amount of insurance required, refinancing requirements, and possible prepayment penalty. Will interest, taxes and insurance be included in the monthly payment?

Find out in advance how much closing costs run in your area, and get a "ballpark" estimate of how much you will have to pay in out-of-pocket expenses.

Before you close the real estate transaction, arrange for owner's title insurance protection, available at minimal cost. The required lender's title insurance policy protects only the mortgage lander.

Warning of a definite need for buyer protection, Thurman tells the story of what happened to an unfortunate home buyer in Illinois. The buyer thought he received clear title but, after moving-in, received notice that a past year's property taxes were still unpaid. The discrepancy was not found by title search of public records because the county tax rolls had been posted incorrectly at the courthouse. Fortunately, the owner's title policy provided coverage which paid the tax claim, saving the owner financial loss and possible loss of his real estate.

Another time, a Georgia property owner charged that a neighbor's house extended onto his land. After a new survey proved the claim to be correct, the title company insuring the encroaching neighbor arranged the purchase of a strip of land—including that occupied by part of the house—to solve the problem.

Be My Valentine

by Lynne Fitzpatrick

"Be My Valentine!" is a saying that is most often heard on February 14th, commonly known as Valentine's Day.

Valentine's Day comes on the feast day of two different Christian martyrs named Valentine. But, the customs of this holiday have nothing to do with the Saints' lives. The customs come from an ancient Roman Festival called Lupercalia which took place every February 15th.

This festival honored Juno, the Roman goddess of women and marriage and Pan the god of nature. It was celebrated as a lovers' festival for the young people. Partners were chosen by chance from a box of names and gifts were exchanged along with some vows of newfound love.

Today Valentine's Day is celebrated with the exchange of Valentine cards, flowers, and candy that all exemplify friendship or undying love. The plea to "Be My Valentine" is heard and read by young and old alike who never seem to tire of this romantic saying.

Hopes of old loves and new loves are renewed upon this holiday with its symbol, the heart. Cupid becomes alive once again, sharpening his arrows and aiming them true with the saying, "Be My Valentine!" So, enjoy this romantic holiday and be prepared to be someone's Valentine!

Varsity Girls Surprise District

By: Dee Anne Doebbler

Basketball season for the girls is finally drawing to a close. The varsity girls were picked as last in district before the season even opened. The girls showed their will power by proving many people wrong, and placing third in the first round of district play.

The girls attained victory from three teams, in the first round, two who were in disbelief by the end of the game. Boerne and Smithson Valley were both defeated by the Varsity in the first round. These two did not want to believe that the team that had been picked last place in district had just won over them.

In the first round of district the girls record was 3-2. Winning over Smithson Valley, Cole, and Boerne. The second round to be completed Friday, with their record now set at 1-2.

When Coach Manurek was asked how she felt the team played throughout district, she replied, "I thought we as a team played well and played as a team. Even though we are not a contender, the girls showed character by keeping their heads up."

Bandera vs Cole

by DAVID BARNET

Two wins and one loss was the record coming out of a night of playing basketball on January 28 at Cole.

J.V. boys kicked off the night with a hard effort, but could not seem to keep the Cole's offense from beating them 15-54.

Varsity girls played second with a big win of 43-33. These girls never let Cole get ahead of them on the scoreboard. High point girl was Veronica Romo with 13 points and Lynne Fitzpatrick close behind with 12.

Third and final game of the evening was the boys varsity. Again Bandera pulled off a win from Cole, with a score of 54-48. Joe Romo was high point boy with 22 points, Johnny Cardenaz had 16, Chris Robbins had 13, and Greg Dockery had two.

Solo & Ensemble Contest Is Near

by Beth Mulqueeny

Regional Solo and Ensemble Contest is scheduled to be held on Friday, February 6, in Boerne.

Solo and Ensemble is an annual competition held to select the best high school musicians in the state of Texas. First the student plays his selected piece of music in front of a judge and is rated on a scale of I - V (being the lowest). Depending upon the class of the solo (I, II or III, with I as the hardest) if a student attempts a class I solo and receives a rating of I, he may go on to all state competition. The students may choose their musical piece from a prescribed U.I.L. music list.

A rating of I on any class of solo or ensemble results in a medal provided by the University Interscholastic League.

Many students will be representing Bandera this year and hopefully they will prove to be some of the best musicians.

Financing A Post Secondary Education

By Karan Rettko

January 21, a session was held in the high school library concerning financial aid for students who plan to attend college. The session was for seniors and their parents so both would fully understand the benefits and how one qualifies for financial aid.

From this aid one could receive from $200 to $1800. The actual amount you receive depends on the financial information reported on your application. You should apply soon because your application must be received by March 16, 1980. It will take at least six weeks to receive a SER in the mail telling you whether or not you qualify, and also estimate the amount of aid one can expect.

If you would like to know what schools take this grant or if you have any question about the application check with Mr. Graves, the counslor.

A THOUGHT FOR THE WEEK
By John M. Grimes

This month we celebrate a birthday anniversary of a very big man. This man, who stood six feet-four inches tall, was Abraham Lincoln.

We know this man was not an appeaser nor one who yielded to the expediency of the hour. He was a man of character and high principles. He, unflinchingly, faced the tasks that duty and destiny set for him. Even though he was a peace-loving man, he bore the griefs of a nation at war on his shoulders. His faith and courage kept us an undivided nation and a free people.

Lincoln was more than a great American. He was a great humanitarian. He was a man of great ability, with immense spiritual insight. He had an unusual understanding of the dignity of the common man.

This month as we pay homage to this big man, wouldn't it be well for us to remember these virtues that made him great? Wouldn't it be well for us to remember his unswerving loyalty and patriotism?

The man Lincoln is, as ever, a bountiful spirit for our present day and for the ages.

Alleen de Montel Celebrates 90th Year

Miss Alleen de Montel, one of the last of the original de Montel pioneers of Bandera County, celebrated her 90th birthday quietly at the home of Jimmy Pue on Saturday, January 26. She is pictured with a birthday cake made especially for her by Mrs. Russell (Ada Mae) Dickey, her niece.

Miss de Montel was born on January 26, 1890, in Castroville, to Charles de Montel and Anna Steinle de Montel. Her parents moved to Bandera County near the Camp Verde community when Miss de Montel was about 10 years old. Here, she and her three brothers, Frank, Lee and Richard, and two sisters, Flossie Pue and Anne Mae de Montel, grew to adulthood. She has been a ranch woman all of her adult life.

Miss de Montel tells many interesting stories about her early life. Her grandfather, Charles de Montel, Sr., came from Germany to Philadelphia. From there he came to Indianola, Tex. He served under Gen. Sam Houston, who insisted that he change his name from "Schelamorte" to "de Montel."

Miss de Montel is presently residing with Mrs. Judy Pue in her home on Hengstler Hill and will be pleased to have her friends call.

...r Pets, But Do Our Neighbors?

...t Problem — A private and public responsibility.

Or is it an owner problem!

Dogs and cats have been part of our lives since before recorded history. They give us companionship, status, affection, a sense of responsibility, and protection. They work for us, participate in our recreational activities, and keep us in contact with nature.

Too often, dogs and cats also give us noise, bites and other injuries, diseases, unwanted puppies and kittens, and scattered garbage.

Whether pets are enjoyable members of our communities or undesirable nuisances depends almost entirely on our attitudes as pet owners.

"I'M A GREAT BELIEVER IN PHYSICAL FITNESS. MY DOG STAYS IN SHAPE BY RUNNING ALL OVER TOWN."

Dogs and cats that are not always restricted to their owner's premises are the ones that tip over garbage cans, get into fights, chase children on bicycles, harass adults walking or jogging and get killed by cars and trucks. An owner who does not confine his pet is actually saying "I don't care about my neighbors and I don't really like my pet."

Annual Rabies Drive Is March 1

Yes, it's that time of the year again — cold, windy and probably raining — so it must be time for the annual Bandera County Rabies Drive.

Every year [illegible] spends millions of dollars on dog food, dog houses, cat food, brushes, combs, toys and all the related items for the health and care of our pets. This year be certain that your dogs and cats' health is protected by having them vaccinated against rabies. This deadly disease can be controlled by annual vaccination of all cats and dogs.

On March 1, the annual rabies drive will take place at the Bandera Fire Station [illegible] from 9-1 p.m. Rabies vaccination will cost $4 for dogs 3 months old or older. The County treasurer will be present again this year to register and license your dogs for $1 each. As usual, cats are not required to be licensed.

All cats over 3 months of age will be vaccinated at Hill Country Vet. Hosp. between 2-3 p.m. for the same cost as the dogs.

Statewide Testing Planned

Many Texas parents and employers want to know how well our children are learning the basic skills—reading, writing, and mathematics. Texas public schools should have the answers following this year's statewide assessment of basic skills.

The series of tests will be taken by some 500,000 fifth and ninth grade students throughout the state. They will cover items believed to be essential, depending on the grade level. Testing includes such areas as use of words, knowing the difference between fact and fiction, ratios and percentages, measurement, organization of ideas, and reading maps, charts, and graphs.

Approximately 170 students in the Bandera Independent School District will participate in the testing February 26-28 for fifth graders and March 4-6 for ninth graders.

Results will help teachers and school administrators plan remedial and other programs for students.

LSA Holds Organizational Meeting

The Bandera County Legal Secretaries Association held an organizational meeting on February 2 at the Flying L Ranch. Olga Oruna, president of the Kerr County LSA, and Joy Sandlin, both of Kerrville, attended the luncheon, as did Glendon Roberts, Ron Jackson, Mrs. Millie Moore, Kim Kramer, Denise Perkins and Gary Hehmidpke.

Elected were Jimmye Kramer, president; Cindy Moore, vice-president; Edith Clendenen, TLS representative; Mary Perkins, secretary-treasurer-governor.

MY ROLE IN AMERICA'S FUTURE

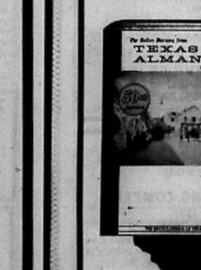
When we look back over the works of the Founding Fathers, we are impressed with their independence of thought and action. Washington, Jefferson, and Franklin knew the weaknesses of all the ancient civilizations and planned what they thought would be best for the colonies, without a blueprint to guide them.

They did not idolize their difficulties, not did they decide their problems to be insoluble. Instead, they worked, they sacrificed, they fought, and they had Faith. They discarded Old World prejudices and set up a new conception of freedom and justice.

They had a vision of balance of power in government—something which the world had never known before. They produced their Great Drama without rehearsal, and it was a tremendous success. However, there is still no guarantee that American people will continue to have rights and liberties, unless they themselves have the mentality and the courage to fight for them. One generation cannot insure the future for the next. There is an old proverb which we must never forget—"Eternal vigilance is the price of liberty." If America is to continue to cradle a free society, much work must be done. As a young citizen, I hope to contribute to this work during my life. For me, being an American implies a commitment—a commitment to excellence, to broad-mindedness, and open-mindedness. But most important, it implies a commitment to enlightened leadership, because despite all the world's criticism, we have much to offer. And inasmuch as "leadership" implies constructive change, let us, as a nation, take the lead in changing our "world" for the benefit of all mankind. Changes for the better only come from people of energy and imagination.

There are many ways that I can contribute to and help America in the future. Some are quite simple, while others are very difficult and require a great deal of sincerity and dedication.

Some of the simpler ways in which I can contribute include voting and becoming an active and responsible citizen. Voting is one of the greatest privileges granted to a democratic people, and it should be the obligation of every citizen to become informed on the political issues and vote. Although I myself cannot yet actually vote, I can still fulfill my obligation by working actively in politics and persuading those who are eligible to vote to do so.



"Serving" America is the most demanding role I have in her future. If my generation is to be successful in the nation's future, our answer to the question "Where were you when America needed you most" must be—"Where we could serve her most!" This is not only applicable to military service, but to service in all social areas—business, science, and government. In whichever field we may have special talents, we must work and produce the best that we can. This would insure a future for America. For, as a recent television commercial states, "the future belongs to those who prepare for it."

In preparing for the future, my generation has quite a task. If we are to keep America living through the future, we must now arm ourselves with the necessary tools. These tools include an education, responsibility, loyalty, and incentive. We will require each of these "tools" to defend democracy and to strengthen it. Arming ourselves with these tools must be done quickly and efficiently, for little time is left before we will be handed the reigns. Lewis Timberlake, a lawyer and a dynamic speaker, told a story which illustrates what we must do if we are to be ready to "take the reigns."

"There was a young man who was quite successful, with a wife, a teen-age daughter, and a young son. He suddenly and unexpectedly contracted a rare disease and was hospitalized. He was visited everyday by his family for months while doctors tried in vain to reverse the disease. Finally, one day when only his wife was visiting him, a doctor came to him and told him he could expect to live only a few hours more. Immediately, the wife called her daughter and said these words—"Clean yourself up, get your brother, and hurry."

This is what my generation must do if we are to be there for America in the future—Clean ourselves up, get our brothers, and hurry, hurry.

Range Seeding

We are now begining a new decade and it is time for all landowners to consider changes in their operations that will allow them to receive more production from their land. Many landowners should consider converting poor condition cedar infested rangeland to improved grass or a mixture of better native grasses by range seeding.

Range seeding is normally recommended when the existing range condition is so low that proper management practices cannot improve, the range condition in a reasonable period of time. Unfortunately, in many cases, rangeland that is in poor range condition has become infested with undesirable wood brush species. If the rangeland is infested with brush, this adds another step to the range seeding process. If the rangeland to be seeded is infested with brush, the first step is to remove this brush. If this is done with heavy machinery, it not only is accomplished quickly, but a dozer or similar equipment also disturbs the soil surface. The disturbance prepares a seedbed which is necessary before seeding can be accomplished.

Once the brush has been removed, if this was necessary, and a firm seedbed has been prepared, the landowner is ready to select the grass he wants to use and purchase his seed. The landowner should select a grass which is adapted to the area of the state and the soil type he will be planting the grass on. This is another important factor in native seed selection for planting in any given location. The seed should have its geographic origin not more than 200 miles to the north, 300 miles to the south, 100 miles to the east or 200 miles to the west of the location where it is to be planted.

When the grass has been selected and located, the seed should be purchased according to pounds of pure live seed (PLS) not just by pounds of seed. The pure live seed figure is determined from purity, germination and firm seeds. The amount of seed that a landowner should purchase depends on the acres of land to be seeded and the rate or pounds of seed per acre needed for the grass the landowner selected.

The following chart shows the seeding dates and rates of some grasses commonly used in Bandera County.

The grass species will be given first, followed by seeding rates (pounds of PLS) broadcast or drilled. Seeding dates (Optimum) for all these grasses is March 1 through May 15. Bluestem mixture, 3.4; Switchgrass, 3.4; Indiangrass, 4.5; Sideoats grama, 5.5; Little bluestem, 3.4; Kleingrass, 2.0 lbs PLS.

The landowner should plan on deferring the seeded area for at least one complete growing season to allow the grass to become established. Without a proper deferment period, the grass seedlings will not develop an adequate root system and may be killed if they are heavily grazed.

The landowner who follows the proper steps in range seeding and obtains a good stand of grass, can expect to increase the number of animals he can carry on his place. The increased carrying capacity will mean more money in the bank every time he carries animals to the market.

For more information concerning range seeding, contact your local Soil Conservation Service office at 804 Main St., Bandera, or P.O. Box 816, Bandera, Texas 78003.

AARP Will Meet In Kerrville

The Hill Country Chapter of the American Assn. of Retired Persons will meet at 2 p.m., Tuesday, February 12, in Kerrville's Municipal Auditorium.

COUNTY OF BANDERA

All persons interested in lands described here below are commanded to appear at the next regular meeting of the Commissioners' Court of Bandera County, Texas, to be held at the Courthouse on said County at 10:00 a.m. on the 10th day of March, 1980, to protest, if desired, against the action requested in the following application to-wit:

"APPLICATION FOR CANCELLATION OF PORTION OF LAKE MEDINA HIGHLANDS SUBDIVISION "TO THE HONORABLE COMMISSIONERS' COURT OF BANDERA COUNTY, TEXAS:

"Now comes Patricia M. Swenson of Bexar County, Texas, and makes this her application to cancel that portion of Lake Medina Highlands Subdivision situated in Bandera County, Texas described as follows to-wit:

"All of Lots Nos. 1 to 15, inclusive, in Block 9, in Subdivision "C" of Lake Medina Highlands Subdivision, as shown by plat of said Subdivision on file in Volume 1, page 5, Plat Records of Bandera County, Texas, to which reference is here made for a more particular description of said property.

"In support of this application, the Petitioner, Patricia M. Swenson, respectfully shows the Court that said Subdivision is not included in any incorporated City or Town, nor is it located within five (5) miles of the corporate limits of any City; that Petitioner is the owner of all of said Lots Nos. 1 to 15, inclusive, Block 9, Subdivision "C" of Lake Medina Highlands Subdivision, as above described; that a cancellation of said portion of said Subdivision does not interfere with the established rights of any purchaser owning any portion of such Subdivision; that said Lots are not staked and are not laid out on the ground; that no roads exist through said property; that said Lots join ranchlands on the North and East thereof which have never been developed as a subdivision; and the Lots here involved have never been developed as a subdivision property and for all practical purposes and appearances the same is ranchland. Petitioner further says that there are no restrictions of record affecting the said Subdivision.

"WHEREFORE, Petitioner respectfully requests the Commissioners' Court of Bandera County, Texas, to set this application for hearing and to cause notice thereof to be given as required by Article 7227, Vernon's Annotated Civil Statutes of Texas and after such hearing, the Court enter its Order cancelling said portion of said Subdivision and granting to Petitioner permission to cancel said portion of said Subdivision so as to throw said land back into acreage as it existed before such subdivision was made, all in accordance with said Article 7227, Vernon's Annotated Civil Statutes of Texas.

Schreiner Will Have College Day

Community members are organizing and sponsoring a college day at Schreiner College this year.

All seniors from area high schools including Kerrville, Fredericksburg, Center Point, Comfort, Boerne, Bandera, Medina, Leakey, Blanco and Junction will be invited. Approximately 300 students and more than 100 community members sponsoring those students are expected to attend Kerrville's Schreiner College Day.

Kerrville's Schreiner College Day will begin at 9 a.m. on Tuesday, March 18. The day's program is being designed to assist these seniors in finding answers to questions about college life in general as well as allowing them a look at Schreiner College as a possible choice for higher education.

Guest students will visit college classes in progress, see first hand the fun of dorm life, obtain information on available financial aid, and learn the basics of application procedures used in most colleges.

Presently enrolled students and faculty members will be on hand to answer questions about college life. Campus tours, recognition of the community members who organized the event and lunch are also agenda items for the day.

An additional program is being planned this year to better acquaint attending community members with their college.

HUMAN DIROFILARIASIS

Three Connecticut radiologists reported dirofilariasis, dog heartworm, in four human patients recently. All were asymptomatic, but routine thoracic radiography showed solitary nodules apparently resulting from lodging of the Dirofilaria immitis (dog heartworm) parasites in a peripheral pulmonary vessel. Larvae develop in the mosquito and are transmitted through bites to a dog where they mature, reproduce, and may cause right heart failure via pulmonary vascular obstruction or a human being where they do not mature, tend to remain in soft tissues, but may migrate to cause pulmonary artery infacation.

IRS Matches Returns With Interest Statements

AUSTIN—Around the first of every year, your employer, bank, the company you own stock in, and others who paid you income send you statements showing wages, interest and dividends paid to you the previous year. Later, when you file your federal income tax return, you have to include on your return the information from the statements.

Your bank, employer, etc., also send copies of these documents to Internal Revenue Service. If you're thinking that's a lot of information documents, you're right. For example, in 1977, more than 494 million information returns arrived at the ten IRS Service Centers. About 275 million of them were on magnetic computer tape, disks and diskettes. The rest were paper forms.

What does the IRS do with all this information? The IRS matches as many as possible of these information returns against tax accounts of individual taxpayers in the computer system. For 1977, nearly 100 percent of the magnetic documents were matched and about 15 percent of the paper documents.

This year, IRS will improve its matching program through a cooperative effort with the Social Security Administration, called Combined Annual Wage Reporting. Under this program, employers will file Forms W-2 and W-2P (for pensions) with the Social Security Administration, which transfers the information to computer tape and shares it with the IRS. By receiving the W-2 and W-2P information on magnetic tape, the IRS expects to match almost all wage and pension information.

* Whether documents are on magnetic tape or on paper, it is important that each document has the correct taxpayer identification number (TIN) of the person receiving the payment. An individual taxpayer's TIN is the social security number, while the TIN for the employer's business account is called an Employer Identification Number. Whe a TIN is entered incorrectly on an information document, or left off altogether, the IRS must find the correct one. Sometimes that involves correspondence with the taxpayer. To reduce errors, the IRS urges taxpayers to use their TINs on all correspondence with the tax agency, and to check TINs on income statements sent to them to be sure the payer has the correct TIN.

Farmers' Deadline

Farmers must file their 1979 income tax returns by March 3 if they did not file an estimate of their income and pay these estimated taxes by January 15.

Farmers who did file an estimate have the same deadline as other taxpayers—April 15, points out an economist with the Texas Agricultural Extension Service, Texas A&M University System. Farmers with hired help should provide W-2 forms to employees by January 31 and should also complete Form 943, "Employer's Annual Tax Return for Agricultural Employees."

During 1976 he served as committee chairman for Scout Troop 146. Goodenough is presently serving as Bandera County's neighborhood commissioner for the Hill Country District.

The Hill Country District again won the plaque for having the greatest attendance from outside San Antonio, an award they also won in '73, '74, '76, '77 and '79.

Dianne L. Tobin Seeks Mayor's Post

Dianne Lindig Tobin has submitted this week her Application to run for mayor of Bandera. Mrs. Tobin is a graduate of the University of Texas in San Antonio, and attended her first year of college at Texas A&M University. Her studies included such diverse subjects as Business Law and Animal Science. Mrs. Tobin remarks about the office of Mayor of Bandera: "I understand that there are some rather tedious tasks connected with being Mayor of Bandera. Nevertheless, there are also challenging situations which arise to the Mayor and City Council every month. Bandera is a unique town, possessing rural, urban, and suburban aspects all at the same time, which many larger cities do not have to contend with. This means that all of its problems must be dealt with in a way appropriate specifically to Bandera." Mrs. Tobin invites anyone interested to discuss her views concerning the office or her decision to run for it at any time.

Submitted by Dianne L. Tobin.

At Commissioners Court . . .

Herman Rogers Appointed J.P., Precinct 3

Herman Rogers

Herman Rogers has been appointed by the Bandera Commissioners' Court to fill the vacancy as justice of the peace for precinct 3. The appointment was made Monday when the court met for their regular February session. Rogers has filed as a candidate in the Democratic First Primary Election which will be held May 3. He is the only person to have filed for that spot, and no one filed before the deadline an intention to run in the November general election as an independent. The appointment would become effective March 1 and would be for the remainder of the year.

Because this position had been vacant, no budget was set for that office this year. The court amended the 1979-80 budget, using $1,000 from the general fund to pay expenses of the office. The salary was set at $100 per month with the remaining amount to be used for operational costs.

EMS Health-Information Forms

Martin Smith, EMS county coordinator, presented for the court's approval a health-information form. Anyone in Bandera County who wanted to could complete one of these forms which then would be filed in the sheriff's department where the dispatcher would have ready access to pertinent information for EMT's in time of emergency. Information on the form would include how the EMS could locate your home if you had an emergency there, special health problems, the name and location of your family physician, identifying numbers for health insurance, medicare, medicaid, etc., and other information that could help them serve you better during an emergency. Each family which chooses to participate in this service would be responsible for keeping the information current. Local banks and savings institutions have offered to mail the forms with their statements. The court approved spending $60 from the ambulance fund for the cost of printing the forms.

Hunting Regulations

Bob Carroll of the Texas Parks and Wildlife Department explained to the court recommendations from his department regarding regulations for hunting and fishing during the next season. By vote, the commissioners unanimously endorsed a closed season for spike bucks. For hunting turkey, all four commissioners voted for an open archery season and a closed spring hunting season. For the regular gun season on turkey, the vote was split with Commissioners Russell and Tschirhart favoring a limit of one gobbler or bearded hen and Commissioners Ashley and Thompson wanting a two-bird limit. Judge Vander Zee broke the tie, voting for the two-bird limit. All were opposed to killing either does or bucks within the bag limit (doing away with doe permits.)

Bump Gate Road

Five persons living off of Bump Gate Road in precinct 2 presented a petition asking that improvements be made to that road.

Subdivisions

Medina Lake Estates subdivision was accepted for platting, subject to payment of required fees.

Whispering Winds subdivision, section C, was approved and accepted for platting, subject to posting of bonds and fees.

The preliminary plat of Valley View Acres subdivision was approved.

English Crossing Road

Representatives from Bandera Falls subdivision explained drainage and road grading problems along English Crossing Road. The court also discussed right-of-way widths along this road.

Resignation

Terry Stokes submitted his resignation as sanitation inspector, saying he would serve until a replacement could be named. The court is now seeking a replacement, a licensed plumber, if possible.

Ambulance Fees

The charge for the EMS to transport a patient to Kerrville is $50 and to San Antonio, $60. The fee for transporting persons in addition to the first has been increased to $25 each from $15 each, in order to keep up with rising costs.

Senior Citizen Van

Since the Senior Citizen Van was destroyed, Lois Linney, the driver, has been using her private car as a replacement. The short-term solution is costing her $84 a day from their department of the pocket.

Regular Business

Monthly bills were approved for payment. The January minutes were approved, as were monthly reports. Payment for out-of-county travel expense was raised to 20c per mile from 15c.

Budget Meeting

A meeting to present and discuss items to be included in the 1980-81 budget will be held Tuesday, February 26, at the courthouse starting at 7 p.m.

Present during the commissioners court meeting were Rein Vander Zee, county judge, Jim Russell, Stanley Tschirhart, Bob Ashley and Curley Thompson, commissioners, Ron Jackson, county attorney, and Vera King, deputy clerk.

At The Library

Our new assistant librarian is Carole Richey, originally from Denton. Carole, her husband, Joe, and son, Nathan, have been residents of Bandera for two years.

The Flood Book is here and everyone who has seen it so far finds it fascinating. Jim Hannah put in many long hours getting the material together, and we're proud to have this account of Bandera's worst flood as a permanent part of the library.

Our craftsman of the month is Roy Palmer of Bandera. We have a display case in the library of some of his beautiful lapidary work; including belt buckles, bolo ties and necklaces. We also have a display of some of Roy's polished, petrified wood from the local area.

Some new books we have recently gotten are A Ranger Legacy by Kilgore; James Herriot's Yorkshire; The Brethren by Woodward; The Day of the Butterfly by Norah Lofts; Smiley's People by Le Carre; Serpentine by Thompson and Princess Daisy by Krantz.

Speaking of new books, we don't have any county money for books this year, so we are having to ask for more donations in order to provide new books for Bandera County readers. We have had good response so far to our plea for donations, but we still need lots more help.

Recent memorial donations: Tom Grant donated the book A Ranger Legacy, 150 Years of Service to Texas in memory of Joe Walton. Dr. and Mrs. T.B. Samsel, Jr. made a donation in memory of Robert W. Halfmann, Marshall Akin, L. Fuller Workman, Walter Perkins and Lupe Trueblood.

Our thanks to Mr. and Mrs. A.B. Alkek for their donation for plants and for window coverings for the back half of the library. We hope to be able to show films in the library after we get the windows covered.

Sabinal Canyon NEWS

Mrs. Lillie Thompson

"The coldest spell of the season" blew in early Friday morning with sprinkles, light showers and some sleet. Temperatures dropped to the middle 30's by night. Saturday morning timber was iced over and, with the sun breaking through now and then, it was a beautiful sight. Saturday night gusty winds subsided and skies cleared so by Sunday morning, the temperature was a brisk 20 degrees and some hydrants were reported frozen. A beautiful, sunny morning brought out a large attendance for church services.

Carley Ivy of Corpus Christi was a Baptist Church visitor and weekend visitor of his mother, Mrs. Flora Ivy.

Douglas Schryver, son of Mr. and Mrs. Nick Schryver of Vanderpool, and Jordon Rutherfurt, son of Mr. and Mrs. Jody Rutherfurt of Utopia, are in Hobbs, N.M., where they have been employed by D&M Service, Inc. since January 1.

Wade and Linda Graves and Shawna of Uvalde were Sunday dinner guests and visitors of her parents, Nick and Carmen Schryver.

Mr. and Mrs. J.B. Alley and daughters, Stephanie and Suzanne, of Uvalde, met Iona's parents, Lecil and Ruby Howard, at Utopia Baptist Church services Sunday morning, then enjoyed dinner and an afternoon visit in their home.

Mrs. Mildred Graham and daughter, Ethel Maude Weynand, from Tarpley were afternoon visitors of Mrs. Lena Fincke.

Anna Pearl Gabriel recently spent a week in Corpus Christi visiting a sister and husband, Floyd and Frances Crow; a brother and his wife, Joe and Onida Davis; and a cousin, Oleta Broughton.

Redman Smart underwent arterial surgery last week in Sid Peterson Hospital in Kerrville. He is back home, recuperating nicely.

Everyone is invited to a miscellaneous shower Saturday, Feb. 16, from 2:30 to 4:30 at the Baptist Educational Building, honoring Sharon Easley.

All young people are invited to the Junior and High School social Saturday night.

Artie Franklin of Uvalde visits the nursing homes in Uvalde almost every day, helping entertain the elderly people. Among them is Chilli Aeres of Utopia, who is delighted to have her push him around in a wheelchair.

Cases heard before County Judge Rein Vander Zee in county court Tuesday, February 12 were as follows:

Mary Dorris Murray, Lakehills, DWI, pleaded nolo contendere, sentence suspended, fine and court costs.

Melvin Dale Roach, Ingram, DWI, pleaded guilty to public intoxication, fined $75 plus court costs.

William Opfel, Boerne, speeding, appealed from J.P. court, pleaded nolo contendere to illegal parking on a state highway, found guilty and fined $50 plus court costs.

Larry Ronald Grell, Hondo, enticing a child, dismissed.

Son Is Born

Mr. and Mrs. Carl Hubble of Bandera proudly announce the birth of their son, Michael Stuart Foley Hubble, at Sid Peterson Hospital in Kerrville on Tuesday, February 12, at 12:25 a.m. He weighed 8 lbs. 1 oz. at birth and measured 21 inches long.

He is also being welcomed by a sister, Heidi, and a brother, Jody. His grandparents are Jimmy Phillips of Camp Wood, Betty Phillips of Kerrville and Mr. and Mrs. H.W. "Buddy" Hubble of Medina.

Congratulations

Congratulations to Edward Alanis, who received a $50 savings bond for his participation in the VFW Voice of Democracy program. Edward is a senior at BHS. He will later be recognized by VFW Post 8176. His parents are Mr. and Mrs. Danny Alanis III of L.H.

Card of Thanks

I would like to thank everyone that came to my dance. I don't know of a better way of having a birthday party than to have such wonderful people as you to attend.

I received many beautiful cards, a birthday cake, cigars, plenty of booze and such necessary items as Preparation H, Polident tooth powder, and corn pads.

My only problem is, I can't housebreak that damn lobster that Jim McLean gave me.

Thanks again,
Ed Jennings

A Fish Story

There are fish stories and fish stories — Perhaps Adolph Lutzenberger of Lakehills tells the best. . . .

Frank Kerr Honored

The Lakehills United Methodist Church was the scene of a most enjoyable event the evening of February 3. A large group of members and friends honored Frank G. Kerr for his service to the church as treasurer for the past twelve years. A bountiful covered dish supper and a time of fellowship was enjoyed by everyone. Mr. Kerr was not aware that the evening had been planned in his honor until Rev. William B. Henderson presented him a Certificate of Appreciation and a gift certificate for tickets to the Fiesta Dinner Playhouse in San Antonio. He was surprised and pleased. The evening concluded with a sing-along of favorite hymns.

Remember?

When Pen-n-Paw was called Sunday Daze and Loy Ed Johnson, Danny Alanis and Elsie Faurie were the reporters?

Personality Of The Week

Jane Swager has turned a childhood hobby into a lucrative business. As a child Mrs. Swager did wood-burning as an avocation. Today she creates beautiful designs on polished wood and offers them for sale. She also knits, crochets, grows flowers, and enjoys fishing. At one time she did photography for fun; she says that film is too expensive now and she is satisfied to let her daughter, Mrs. Adolph Mazurek, do the family photos. Jane and husband, Robert, live on Park Road 37.

A Place Of Beauty

Have you seen the beautiful rock retaining wall which Larry Persyn is building on his premises at Park Road 37 and 1283 North? It is a work of art and very real.

Lakehills Is Proud

Lakehills is very proud of the 13 students from Lakehills who made the honor roll at BHS the third six weeks.

MLVFD Members Accept Brush Truck

Members of the MLVFD accepted the new 1¼ ton, 4-wheel-drive brush truck from the Texas Forest Service. Left to right standing, are Austin Taylor, Bill Sutton, Erle Denton (second Assistant Fire Chief), Ralph Willis (President, accepting papers from the Forest Service Representative), Ralph Schmitchell (Sgt.-At-Arms), Tony Kruse, Gene Laue (Secretary), Boots Laue (First Assistant Fire Chief), Kneeling, left to right are Norris Dohrow, Pete Somsel (Training Officer), R.P. Hood (Communications Officer), and Clinton Oehler (Fire Chief). This vehicle was obtained from the Texas Forest Service at a cost of $3,500. It is equipped with a 320-gallon water tank, 18 horsepower motor and pump, 150 ft. red line hose and reel, 20 ft. hard reaction hose, two 1½ inch pre-connects, red lights and electric siren. After qualifying for this vehicle from the Forest Service, the MLVFD could not have purchased this truck had it not been for the many people who patronize our semi-annual barbecues which are held in April and September and their grateful donations throughout the year.

A Reminder

Erie Denton, PR director for the MLVFD, reminds everyone to call 751-2101 in case of a fire or drowning. Report whether it is a house, brush, auto fire or drowning. Give location by using grid map. Example: House Fire, Park Road 37, K-6. Remain on phone until released by fireman.

The cost of farmland has increased 200 percent since 1970. A 14 percent hike is forecast for the coming year.

THOUGHTS

PERFECTION

Perhaps he sometimes slipped a bit -
Well, so have you.
Perhaps some things he ought to quit,
Well, so should you.
Perhaps he might have faltered - why,
Why, all men do, and so have I.
You must admit (unless you lie)
That so have you!
Perhaps, if we should stop and think,
When painting someone black as ink,
As some folks do,
Perhaps if we would recollect,
Perfection we would not expect
But just a man half-way correct,
Like me and you.

JV Girls Go Undefeated In District Play

By: Babo Teich

Junior Varsity girls basketball team finished the 1979-80 season with an undefeated district record.

Through the district the Junior Varsity has played one round, five games, and won all five games. The teams that were played were Smithson Valley 34-24, 20-25; Cole 44-13, Randolph 30-16, 43-34.

In each individual game the Bulldog JV has struggled for each point to keep a winning record.

High point girls for the season are Teresa Welch 64 points and Stacey Youngblood 48 points.

Winning—A Matter of Pride

By: Dee Anne Doebbler

The Boys Varsity Basketball team is closing their season off this week. Their district, although it has been tall and tough, will remember this team as a very determined ball club. Their record in district is 3-2 for the 1st round, and with two games to be played in the 2nd round their 2nd round record is 1-2.

The boys have worked hard, never giving up for that one goal, which is to keep winning. Although these boys kept working, they have also had those games when nothing would go right. They have had their share of injuries, which caused at least three boys to miss some important games, if not all of them. Yet with all this they are still able to maintain good records. With their coaches pride and their determination they are sure to be able to attain such good records.

When Coach Kirkland was asked how the team had been playing in district, he said, "We've had a good season, and it's just a matter of pride whether we can win these last two games."

Bulldogs Too Hot To Handle

by Darcy Word

Three very exciting basketball games were played here February 5. J.V. girls and Varsity boys produced victories for the hometown fans, while the Varsity girls suffered a loss to the Randolph Ro-hawks.

J.V. girls started off hot and got a good lead throughout the game. The halftime score was 16, Bandera's favor. Teresa Rich was high point with 20 points and proved to be the most aggressive player until the end of the game, when the total score was 43-34.

Although the incentive was there, the Varsity girls had a harder time bringing it out. Bandera Teammates tried to work their offense, but were constantly interrupted by the very tall girls on the Ro-hawk team. Veronica Romo was high point with 12 points. Followed by Lynne Fitzpatrick and Sheila Montague, with 6 points each. Final score, 30-68, Ro-hawks victorious.

By 8:00 pm, the young men that make up the Bulldog Varsity team were ready and waiting to blow the Ro-hawk team off the court back to Randolph. The Ro-hawk defense was strong, but the skill of the Bulldogs offense broke through and put many points on the scoreboard for the hometeam. At halftime, the score was 49-17, and Chris Robbins helped to put many of those points on the board. He was high point with 14 points, followed close behind by Trey Ryan and Johnny Cardenas with 13 points each. After a long and exasperating game, the Bulldogs came out on top with a score of 67 to 32, and the Ro-hawks went home defeated.

Fredericksburg Freezes Bandera

By Edward Alanis

Bandera's freshmen boys met with a narrow defeat from Fredericksburg, 35-30, in their February 4th game.

The game was extremely close throughout, with a half-time score of Bandera—16 and Fredericksburg—15.

Charlie Robinson and David Edwards were our top scorers with 10 points each. When the clock ran out Bandera was the underdog and Fredericksburg stole the game with a three point lead.

Valentines Day & Its Obstacles

by Cupid's Wittle Helper

Today is (or yesterday was, whatever the case may be), Valentine's Day. Have you looked on the shelves of your local K-Mart? Chocolate candy has sky rocketed to it's all time high. What does the person who is broke do for his Valentine!!!!!

Perhaps he could hijack the nearest Hershey or Pangburn truck to his Sweety's front lawn.

In some cases though, especially if your Sweety is obsessed with diet Pepsi's and Dexatrims, candy is inappropriate. Then you should consider flowers. Ah yes, lovely flowers. If you can't afford those, the least you could do would be to pick some of the nearest dandilions, or maybe even some beautiful milkweed flowers. Surely your loved one would understand your economic stupor because "Roses aren't a dime a dozen".

Needless to say, if all of the above fails, maybe you could resort to buying your honey a ring which would symbolize eternal love (but if it isn't a diamond don't expect it to be eternal!)

Remember, don't expect too much from Cupid this Valentines Day, his gasoline operated wings are on empty.

Have a passionate Valentine's Day!!!!!!

Rebels Win Battle Over Bulldogs

By Phyllis Goodenough

Bandera Girls basketball team ended their district season with a loss to Hays Consolidated.

Bandera's girls put forth a strong effort, but could not break Hay's tough defensive press and they had a difficult time bringing the ball down the court to score. This resulted in the minimal amount of points accumulated by Bandera.

Lynne Fitzpatrick was high point with 10 points and Veronica Romo scored 6 points.

The varsity boys were also defeated by Hays. The boys tried extremely hard to lessen the difference in the score before the last buzzer rang, but the game ended in defeat. Joe Romo scored 27 points and Johnny Cardenas scored 19 points, these two were the top scorers of the night. They were 71 percent at the foul line.

Ag Students Learn To Respect Electricity

by Charles Jackola

Mr. Dennis Winright and Mr. Bobby Wade, spokesmen for the Bandera Electrical Co-op were at the high school on January 29 to talk to the students of the vocational agriculture department on electrical safety and energy conservation.

The first phase of their demonstration dealt with the aspect that electricity is very dangerous and explained some of the do's and don'ts when working near electricity. Mr. Winright and Mr. Wade gave reasons why people get hurt and killed every year due to the misuse of electricity. Built in safety features that help prevent accidents were also explained.

The second phase of their demonstration dealt with energy conservation. Tips on how to save energy were given to the students. For the price of a phone call, the co-op will come into your home and give a free energy audit and they will tell you what you can do to make your home more energy efficient.

The Co-op is attempting to make available to all organizations these demonstrations free of charge. If your organization would be interested, please call the Co-op at 796-3741 and ask for Mr. Dennis Winright or Mr. Bobby Wade.

Bandera Takes Part

BY: David Barnet

This past week has been hectic for many Bandera FFA and 4H members. The reason—they have been participating in the San Antonio Stock Show.

The San Antonio Stock show has FFA and 4H participants from all over Texas. There have been many from Bandera that have already shown their exhibits in the show. Some of the people have placed this past week, a few of these are, Ann Chafin with a fine wool champion lamb, Leila Kendrick second place southdown lamb and Kelly Perry with a 3rd place crossbred lamb, all in the carcass contest. Tom Doebbler in the turkey section placed 16th, and Janie Saathoff placed 32 with her fine wool lamb. Ruth Lynn Mazurek won grand champion breeding Duroc Gilt. There have been many other participants that haven't been quite as lucky but have put forth good effort. Other exhibitors have been, DeeAnne Doebbler, Tina Doebbler, Lori Robbins, Lamar Lindley, Yvonne Lindley, Jimmy Marigold, Richard Stein, Tinker Stein, Russell Hevenor, Reagan Mazurek, Michael Kendrick, Lisa and David Schwarz.

The show is still continuing in its final week with Jim Bob Robbins, Todd Sandidge, Janie Saathoff showing heifers, Jim Bob Robbins, Chris Robbins, Robert Mazurek, showing hogs, and several others that will be in battle for ribbons and money as the show draws to an end.

We Enjoy Our Pets, But Do Our Neighbors?

THE PET PROBLEM

A private and public responsibility, Or is it an owner problem?. . .

"MY DOG IS JUST A BIG BABY. HE PLAYS WITH THE NEIGHBOR KIDS ALL OF THE TIME. HE WOULDN'T HURT A FLEA."

Sometimes we forget that dogs and cats are not people. They are animals and animals do bite and scratch. Every year, pet dogs kill someone in the United States and the victim is usually a child. Thousands of children and adults are bitten by dogs and cats each year. Most of these deaths and injuries could be prevented by responsible pet owners.

"MY LITTLE DOG NEVER, EVER BITES AND SHE ISN'T BIG ENOUGH TO TIP OVER A GARBAGE CAN, WHY DO I HAVE TO KEEP HER ON A LEASH OR IN MY YARD!"

The average-sized dog will deposit 275 pounds of manure somewhere every year. Dogs and cats like to keep their home territory clean so they will usually defecate in a neighbor's yard and not in their own. This keeps the owner's yard clean but certainly shows a lack of consideration by the owner for the other community residents.

Notice To Republicans

John Connally, Ronald Reagan, and George Bush have qualified for the Republican Preference ballot which will be offered to the voters of Bandera County the first week in May. It is conceded that it is imperative that whoever wins the Texas vote will probably go on to win the nomination.

The county executive board is anxious to organize the precincts to get out a large vote for these candidates. It is suggested that if the people that are pushing for one of the candidates should get their people out to vote.

Without a primary in your precinct there will be less chance to get these people out to vote for your favorite. If you are interested in having a primary in your voting precinct, please get in touch with Bob Hawley at 796-3179.

Thank You

Mr. and Mrs. Frank Anderwald,

Just a short note to "thank you" for all the nice things you did for me before and throughout the trail ride. Needless to say, I am very proud to have been your Queen, and I hope I acted in such manner.

The trail riders were the finest as usual, and although we were small in number, we were great in spirit. And after all, this is what makes the trail ride a success.

To Mr. Latto Martinez, our assistant trail boss, a "special" thank you. He keeps everyone happy.

My trophy and my crown will always bring back fond memories, not only because I was Queen, but because I got to meet and ride alongside many good, clean fun-loving people.

My thanks also to Mr. Bobby Morris for being my escort at the Queen's gathering. I had a wonderful time.

Without my parents none of this would have been possible. To me they are the greatest.

Although the trail ride just ended for 1980, we will be looking forward to next year.

Sincerely Yours,
Christine Fleming

In Memory Of Jimmy

by: Yvonne Martin

Every day, as we strive to live,
We're surprised to hear those people who give
The memories we hope so long to retain,
But then, in a moment, they have been lost, or gained.

We know so well of that thing - called death.
But we never realize how it will effect our breath—
When we lose someone close, so very dear
When we lose someone we love—someone close—to death.

We all knew him so very well—
He added life and cheer to our every new day.
But then very quickly, his thoughts went away—
Jimmy's life was gone—he was dead—gone away.

We knew that we lost him:
We knew that we did,
We tried to accept it—
But—he was only a kid!

Why did he go Lord,
Why did he leave?
His life ran so fast!
It's so hard to believe.

Weeks will pass,
Then the months and the years,
Will we forget this loss
Or will we still be in tears?

We'll try to forget him.
But we know we must now—
We'll forget that he's gone,
But we'll remember his thought.

Card Of Thanks

The family of Mrs. Ethel Ferguson wishes to thank their many dear friends and relatives for the kindnesses shown, the beautiful flowers, cards and many expressions of sympathy while she was ill and at her passing.

A THOUGHT FOR THE WEEK

By John M. Grimes

St. Valentine's Day is celebrated as a lover's festival because the budding of plants and flowers in early spring is typical of the beginning of love. This day was originated in ancient Rome. Boys drew girls' names from a love urn. The custom has continued through the centuries and is now linked with the feast of St. Valentine, a bishop of Rome who was martyred on February 14, 270 A.D.

Perhaps many of us are guilty (because of our fast pace in life) and do not take the time to tell the ones we love how much they really mean. But on this special day and it is meant, just for you, you are much more than a wife—you are my best friend! I want to take the extra time, for this day and every day, is an occasion for getting sentimental. Because of devotion, love, happiness and a promise of a future, our lives have had many wonderful moments. And most important of all I want you to always remember my special gift to you on this day—my love.

Many friends and relatives here offer sympathy to the bereaved family at the loss of their loved one.

Card Of Thanks

FROM THE FAMILY OF JIMMY KALKA TO ALL THOSE THAT LOVED AND CARED FOR JIMMY—

These words will be the hardest I have ever wrote. How can "Thank You" or "We Appreciate" be enough to express what we feel for all that was done by so many, to help us all get through these past days.

God gave him to us for nineteen years. In that nineteen years he gave us love. If you feel better for having known him or perhaps feel a deep loss then you too have received the gift God put him here for.

TOWARD A SOVIET AMERICA
NEW EXECUTIVE ORDERS TIGHTEN FEDERAL CONTROL
OVER UNSUSPECTING CITIZENS

Advancing toward a Soviet America the Marxist government in Washington recently expanded the federal regional concept of centralized power and strengthened a national police to enforce its edicts. Executive Order No. 12149, "Federal Regional Councils", signed by President Jimmy Carter 20 July 1979, replaced Executive Order No. 11647, "Federal Regional Councils", signed by President Richard Nixon 10 February 1972. (1)

The objective is to dislocate and alienate the population, divorce the people from familiar political landmarks and historical reference points, and direct their efforts into channels ordered by the new administrator class.

The result is regional governance - a government of appointed rather than elected officials.

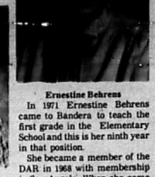
DAR Recognizes 3 Teachers

Three Bandera County teachers have been recognized and honored by the Bandera Chapter National Society [illegible] the American Revolution.

Those honored are Lois Easley, Utopia; Faye Carpenter, Medina; and Ernestine Behrens, Bandera.



Lois Easley

Mrs. Lois Easley was graduated from the University of Mary Hardin-Baylor with a bachelor of science degree in physical education.

She began teaching eight years ago with the Utopia Independent School District, teaching fourth through sixth grade. Her responsibilities include teaching most of the fourth grade subjects, half of the fifth grade subjects, and language for the sixth. She has served as the school librarian on a volunteer basis also. Another responsibility has been working with, encouraging, and guiding students who entered the American History Essay Contest, sponsored by the D.A.R.

Prior to coming to Utopia, she taught physical education in the Alamo Heights School District in San Antonio for nine years at both elementary and high school levels. She also sponsored a cheering squad of high school girls, who provided entertainment with flash cards at football games.

Next she taught six years in San Antonio at Our Lady of the Lake University and at St. Martin Hall, the university's experimental school, where she introduced "Outdoor Education" to both schools.

Ernestine Behrens

In 1971 Ernestine Behrens came to Bandera to teach the first grade in the Elementary School and this is her ninth year in that position.

She became a member of the DAR in 1968 with membership in San Angelo. When she came to Bandera to teach, she became a member-at-large.

In 1974 the first Junior American Citizen Club was organized by members of the Bandera Chapter DAR in the Bandera Elementary School. Miss Behrens was the first teacher to organize a JAC Club in her class. Each year since, her class has participated in the fourth grade subjects, half of JAC state awards and her students have won several awards.

DAR Will Meet

Bandera Chapter DAR will meet Thursday, February 21, at 2 p.m., in the auditorium at Bandera Electric Cooperative building. Students from Utopia, Bandera and Medina Schools will be honored for their participation in the American History Month essay contest and Junior American Citizens poster contest. The three outstanding American history teachers from area schools will also be honored. Mrs. Alton E. Reininger will make the presentations.

St. Christopher's Observes Lenten Season

This next week will be a busy and meaningful time at St. Christopher's Episcopal Church.

Tuesday, February 19, is Shrove Tuesday and the men of the parish will hold their traditional Pancake Supper, serving from 5 to 7 p.m. Pancakes, sausage, coffee and tea will be served for $1.50 per serving.

On Wednesday, February 20, the Ash Wednesday Service will be held at 7:30 p.m.

We extend a cordial invitation to our friends and members to attend both events.

Porcelain Art Club Meets Saturday

The Comfort Porcelain Art Club will meet at the Methodist Church in Comfort on Saturday, February 16, at 10 a.m. Mrs. Alice Quinn and Mrs. Wanda Phillips of Boerne will be co-hostesses for a covered dish luncheon.

Mrs. Ruth Strange of San Antonio will be guest artist and will demonstrate the painting of strawberries and cherries.

Plans for the club's annual exhibit on March 15 will be finalized at this meeting. The exhibit will be held at the Methodist Church in Comfort. Members will display their work, and some items will also be for sale.

First Grandson Arrives

Mr. and Mrs. Don Tobin announce the arrival of their first grandson, Christopher Stephen Tobin, born to Mr. and Mrs. Don Tobin, Jr., in Franklin, La., on February 6.

Young Stephen has three older sisters, Suzanne, Kara, and Mindy; and a cousin, Amy Tobin, of Bandera.

His maternal grandmother is Mrs. N.K. Owen of New Orleans. Paternal great-grandparents are Mr. and Mrs. Thomas B. Portwood of San Antonio.

Faye Carpenter

Mrs. Faye Carpenter started teaching in the Medina Independent School District in 1962 and in 1973 she was named elementary principal and continues to hold that position.

Mrs. Carpenter has supported the activities of the DAR over the years. She believes that citizenship and patriotism are important values and are necessary in building good character.

B&PW Will Meet

The Bandera Business and Professional Women's Club will meet Thursday, February 21, at 7:30 p.m. at the Flying L Ranch for a dinner meeting. All members are urged to attend.

Happy Birthday, Steve

Steve Wich, who will soon celebrate his birthday, will be receiving the Bandera Bulletin as a gift from his mother, Mrs. Leo White. Happy Birthday, Steve!

Mrs. Hundley Is Recovering From Surgery

Mrs. Charles H. Hundley of Marble Falls is now making satisfactory recovery from major surgery performed last [illegible] at Scott and White Hospital in Temple. She has been released from the intensive care unit, but probably will be hospitalized for several weeks.

Mrs. Hundley taught English at Bandera High School during the time that her husband was high school principal and later superintendent of schools here.

Nightingale Joins Acupuncture Society

Dr. Conrad Nightingale became a charter member of the Veterinary Acupuncture Society of Texas during the recent Texas Veterinary Medical Assn.-Louisiana Veterinary Medical Assn. joint convention held in Houston.

Acupuncture, a Chinese method of relieving pain, has created much interest in the United States during the past ten years. Acupuncture in the field of Veterinary Medicine has had a slow start due to the lack of English translated texts on the subject.

Eleven charter members attended the organizational meeting and Dr. Nightingale will be attending other seminars to learn how to implement this method of disease therapy. Between seminars on lameness, reproduction, digestive disorders and upper respiratory diseases, Dr. Nightingale participated in the 1st Annual Fun Run and was the over-all winner. More than 20 veterinarians from Texas and Louisiana participated in the 5-mile run.

Speaks To HGS
At the January meeting of the Hill Country Genealogical Society, Mrs. Erna L. Martin reviewed the book she auth... ch "History of the Leinweber Family." She gathered material from family members through personal interviews, letters and telephone calls. One authentic source came from the church records in Germany, where the families lived before immigration to the United States. Several generations are included in this line, as well as related family lines. In sharing her experiences with the society, she encouraged members to further their efforts in recording the information they have found on their individual lines.

Twelve members and five guests, Mrs. Martin and Frances Bader of Hondo; Aileen de Montel, Donna Tobin and Magdalen Kalka, attended.

Anyone interested in genealogy is encouraged to visit the society's meetings and share information brought to the attention of members, such as newspaper clippings, Indian records, recent publications and other articles. The next meeting is Thursday, February 21, at 2 p.m. at the First State Bank building, Bandera.

Game Regulations Hearing Set

A public hearing will be held by the Parks and Wildlife Department at the Bandera County Courthouse on Tuesday, March 11, starting at 2 p.m., according to Carlton Becker, game warden. At the hearing information will be gathered about proposed hunting, fishing and trapping regulations in the county.

The Texas Parks and Wildlife Commission is responsible for the setting of seasons, bag limits, and means and methods of taking the wildlife resources in Bandera County.

All interested peptons are urged to attend the hearing. This is your opportunity to comment on the proposed regulations.

Jureczki House In National Register

The Jureczki house, a Bandera County historical site, was officially listed in the National Register of Historic Places on January 11. Nominated for inclusion in the register by the Texas Historical Commission, the site is now formally recognized for its contribution to the history of the American people.

Built in 1876 by a Polish immigrant, this well-preserved house is an excellent example of indigenous Polish pioneer architecture. The building housed a store and saloon in the first floor, and long served a vital social role in the Polish community at Bandera.

Franz Jureczki and his wife, Carolina, were original builders and owners of the house. Their son, Albert, inherited it and lived in it for many years.

In 1962 the property was purchased from Albert Jureczki's daughter-in-law, Mrs Henry Jureczki, by Mr. and Mrs. Don Tobin, who made repairs and reconstruction necessary for the preservation of the house. Mr. and Mrs. Tim Tobin now live in the house.

This house has been pictured in several books on Texas architecture—"Texas" by Buck Schiwetz, "Nineteenth Century Texas Homes" by Drury Blake Alexander, and "Texas Buildings, A Lesson in Geometry," by Clovis B. Heimsath.

The National Register is a nationwide inventory of historic properties considered to be worthy of preservation for their cultural and historical values. The Jureczki house is one of approximately 650 Texas sites of archaeological, historical, or architectural significance which have been included in the National Register, under the National Historic Preservation Act of 1966.

Lloyd Murphy Files For State Congress

Lloyd Murphy of Comfort has filed as a Republican candidate for the Texas House of Representatives, District 45, which includes the counties of Bandera, Blanco, Frio, Hays, Medina and the northwest part of Bexar County.

Murphy, 51, lives with his family on a small farm east of Comfort, where he is active in Kendall County and community affairs.

He is chairman of the Kendall County Goals and Plans Committee, a group of citizens appointed by the Commissioners' Court and which now includes 13 subcommittees of some 80 prominent County residents. He also chairs the Citizen Awareness sub-committee.

He was elected in 1977 on a write-in ballot to the Comfort ISD Board of Trustees in that German-pioneered community and is currently serving as vice president.

He is a director of Comfort's Chamber of Commerce and chairs its Tourism Development committee; he is a director of the Comfort library, active in the Methodist Church and founder of the Hill Country Volkssportverein, a walking and biking club which sponsors family-oriented sports activities.

Murphy holds a master's degree in political science from George Washington University and a master's degree from University of Wisconsin in communications.

His B.A. is in journalism and physical education from Oklahoma A&M (now Oklahoma State U.), where he edited the college student daily and was selected for "Who's Who in American Universities" while working his way through college.

Last summer Murphy completed a full career in the regular Army, retiring as a full colonel. His last assignment was at Ft. Sam Houston, which enabled him to make his home in Comfort since 1972.

During his military career he served two years of combat in Vietnam and one in Korea as an infantry officer, commanded a mechanized infantry battalion and a support brigade in Germany, where he was simultaneously a community leader of the 10,000-person U.S. community in Wurzburg, and served as an assistant professor of military science at Texas Christian University.

Murphy states he is running for Congress for several reasons.

"First of all, and perhaps immodestly, I think I have a great deal to contribute to my nation and state; in fact, I feel an obligation to continue serving my country.

"Secondly, I believe voters should have a choice; the one-party system in Texas has, in effect, disenfranchised voters who have been left with little choice on the ballot in the past.

"I also feel that the small towns and rural communities of Texas are not adequately represented in our legislature.

"As to my political beliefs, I am for eliminating governmental interference in our private lives and small businesses. I am against deficit spending by government at any level — government should be on a pay-as-you-go basis.

"I'm a strong advocate for eliminating most governmental controls and supports. I favor free enterprise, the law of supply and demand and in purging the bureaucracy from our daily lives. In other words, the best government is the minimum government.

"I'm in favor of a living salary for our public school teachers — those dedicated people to whom we entrust our most precious assets — our children.

"We've also got to create the conditions needed to assure those courageous enough to farm and ranch that they can make a decent living in return for their labor and investment. For example, it's ridiculous that ranchers are being forced out of the sheep and goat business by government-protected coyotes.

Murphy plans on several visits to our area and welcomes support of all Republicans, Independents and Conservative Democrats.

"But," he insists, "I will accept no financial contributions if they have a string attached. I will vote my own conscience, in the best interests of the 45th Congressional District as I judge it. A principal reason for my upcoming visits will be to determine how the voters feel about local and state issues."

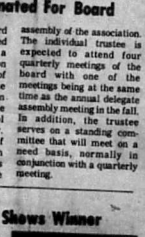
Bloodmobile Visits Bandera March 4

The Bloodmobile of the American Red Cross Blood Services will be in Bandera on March 4, at the First Baptist Church and will receive donors from 12 noon to 6 p.m.

Goal for this visit is 40 pints of blood and all eligible residents are urged to appear. Since the rising costs of operating the Bloodmobile have caused the elimination of Medina from the 1980 schedule, all regular donors from the Medna area are especially needed.

If you are 18 years old (17, with consent of parent), or older, weigh at least 110 pounds and are in good health, you are eligible to be a donor.



Remember, as a resident of Bandera County, you are entitled to receive blood from the American Red Cross at any time that you need it. There will be no charge for the blood. You will pay only the processing fee, currently $25 per pint. Reported

Keese Nominated For Board

The Bandera School Board of Trustees has nominated Thomas H. Keese as a candidate for the vacancy on the Texas Association of School Boards Trustees. The vacancy resulted when Jerald Edwards of Marble Falls Independent School District resigned recently.

The TASB Board of Trustees is charged with carrying out the policies established by the delegate assembly of the association. The individual trustee is expected to attend four quarterly meetings of the board with one of the meetings being at the same time as the annual delegate assembly meeting in the fall. In addition, the trustee serves on a standing committee that will meet on a need basis, normally in conjunction with a quarterly meeting.

Ann Chafin Shows Winner

Ann Chafin showed the champion fine wool lamb carcass in the Quality Lamb Carcass Contest at the San Antonio Stock Show last week.

Ann is the daughter of Mr. and Mrs. Dwight Chafin and the granddaughter of Mr. and Mrs. Jack Chafin and Mr. and Mrs. Mike Pember.

A Fiscal Conservative . . .

I, Armond Laurel, intend to be a strong advocate of "Gasohol." I fully endorse the gasohol movement because I consider energy the number one priority. I perceive gasohol plants in Texas as an alternative to help us solve our fuel problems. Gasohol production in my district would enhance two sides in the equation. First and foremost it would encourage the farmers in the Wintergarden area to plant and produce more grain for consumption to gasohol producers. This would help the farmers become more self-sufficient. I want to protect our family farms in Texas. They put our food on the table. Our Texas farmers are also caught in the fuel crunch.

Secondly, by producing gasohol in Texas we help alleviate the fuel crisis in the urban townships. It would also cut down on dependence on imported oil.

I would introduce a bill in the House to eliminate the state excise tax on gasohol to create an incentive in the fuel's market so that more distributors would market and sell gasohol. I would also encourage all state operated vehicles to use alcohol blend fuels to conserve gasoline.

It seems to me that we need to change directions, however modestly. We need to catch up to the American people who are screaming out, "Get all this burden of spending and taxing off of us and let us produce again."

I support Republican Governor Bill Clements' proposal of the sunset technique for reviewing and running State Agencies. We need to get State Government under control. As a businessman, I, Armond Laurel, am against giving the State Legislature a blank check to conduct business.

I am a strong advocate of the Free Enterprise System, along with its profits incentive; to me this is the greatest system of its type in the world. We must return Texas to the fundamentals which made it great. The work ethic, Freedom of Choice, Opportunity and Belief in the merits of the free Enterprise System.

I am owner of the South Texas Steel and Supply in Pearsall.

I am for initiative and Referendum. The "Initiative" process allows the people, by Statewide Majority vote, to pass laws directly. For example, the people, by Statewide Majority Vote, could reduce taxes. The "Referendum" process allows the people by Statewide Majority vote to set aside an act or the legislature that is obnoxious to the people. All political power is inherent in the people and all free governments are founded on their authority and instituted for their benefit. First constitution of the State of Texas, 1845, in the past 10 years the Texas State Government payroll has grown faster than California's or New York's.

In 1974 the Texas budget was 4.5 billion and now in 1980 it has skyrocketed to 20 billion dollars.

Remember, our forefathers said they were creating a government "Of the people, by the people, and for the people." It is significant they used the word "People" instead of the word "Politicians" or "Bureaucrats."

State Representative District 45 serves Hays, Blanco, Bandera, Kendall, the North West part of Bexar, Medina and Frio Counties; basically it is a rural district.

Did You Hear?

About a Houston Street merchant in SA who has been in business for a very long time including the depression years of the 1930s when a lot of people couldn't pay their bills. This merchant never had much trouble with debtors — When an account was overdue, he would write to the debtor — "Your account is overdue; if not met I shall be obliged to notify your other creditors that you paid me. . . ."

Mrs. Kline Is Capped

KERRVILLE—Marielen Robison Kline of Pipe Creek is one of 21 vocational nursing students to be "capped" in recent ceremonies at Schreiner College.

This significant event, following completion of pre-clinical time, tells each student nurse that the basic academics and fundamental skills have been covered and that the instructor feels the student is capable of ethically giving good nursing care.

Male students are "capped" by receiving a white ribbon for their collars.

The students will follow the capping ceremony with additional study to qualify in each hospital area such as obstetrics, operating room, medical and surgical wards.

The vocational nursing program at Schreiner College is a 12-month course beginning Sept. September which prepares the student to sit for the board examination leading to licensure in vocational nursing within the state of Texas. For more information, write the Admissions Office, Schreiner College, Box 4550, Kerrville, TX. 78028 or call (512) 896-5411, ext. 37.

ERNEST JUSTICE CELEBRATES BIRTHDAY

Ernest Justice, one of our beloved citizens of Medina, celebrated his 91st birthday last week. On Sunday his daughter and husband, Mr. and Mrs. Dwight Jublin of Boerne, had him over for a lovely birthday dinner and birthday cake at the Country Kitchen there in Boerne. Mr. and Mrs. Whit Justice of Crystal City and Mr. and Mrs. J.R. Justice of Medina attended. Mr. and Mrs. Lewis Caton (Jessie Belle) were unable to attend as Lewis was ill at the time. We, along with many others, wish him many more happy birthdays.

THOUGHTS

No man is too big to be courteous, but some are too little.

Look before you leap, for snakes among sweet flowers do creep.

Good Samaritans

Last week, we had occasion to try Oriental food at the Frontier Restaurant, newly opened by Larry and Be Claussen. The food was tasty and we were impressed by their real efforts to make all of their new business.

But what was most impressive was the Claussen's humanitarian approach to daily living. Despite moving expenses, start-up costs and contract problems that were considerably greater than anticipated, Larry and Be still set aside all money left as tips by their customers in a special fund. This fund is used to buy milk and food-stuffs which are sent to VietNam for needy children there, through their daughter who is unable to leave.

For the Claussen's, the VietNam war is not yet over and it is heartwarming to have a pair of Good Samaritans in our community. Let's make them feel welcome. 33-1tp

Statewide Testing Starts Next Week

Fifth and ninth graders in the [illegible] School District will join 500,000 other Texas Public School students in taking a test of basic skills. Fifth grade students will be tested on February 26, 27 and 28, ninth grade students will be tested on March 4 and 5. With this annual assessment of the learning trends of Texas students, educators can determine which areas of instruction should be emphasized.

The Bandera ISD will report its district and campus aggregate scores to the public at a June meeting of the board of trustees, according to Ronald Caloss, superintendent. However, individual student scores will be reported only to the student, parents or guardian, and the school personnel directly involved.

This testing program is designed to help the student and the school improve achievement, and for this reason, results will be reported in a manner that will be more effective.

Third grade students will be added to the annual sequence during the 1980-81 school year, according to plans announced by the Texas Education Agency. The three tests will make up an annual assessment effort designed to help both state and local school officials improve their services.

Overall student performance, both by campus and by district, will be reported each year to the public by the local board of trustees.

Westinghouse DataScore Systems of Iowa City, Ia., will both help administer the 1980 test program and develop and field test new items for the 1980-81 series under contract to the state Board of Education. The Iowa firm will also operate a computerized inventory of all test booklets to assure strict security at all times.

One-Act Play Off To Flying Start

By Edward Alanis

This year's one-act play cast was chosen at the tryouts on Monday, February 11th. Our promising dramatists are already practicing diligently for the upcoming district contest.

The play to be performed this year is The Canterbury Tale From the Wife of Bath. The tale is set in Old England and is a humorous account of a young man whose life depends on whether or not he can find the answer to the very perplexing question--what do all women want? The student playing this character, Sir Gallant Dilemma, is Bill Sieve. Other characters include the Wizard, played by Harvey Raab; the Wife of Bath, played by Karrie Oehler; the Old Crone, played by Sharon Wyrick; the Queen, played by Angel Kelley; Princess Oscarina, played by Jolene Morrow; Lord Bumble, played by Brad Stevens; two guards, played by David Barnet and Eric Hornbeck; and the Jack of All Trades, played by Raymond Popham. The women of the court who are questioned by Sir Gallant Dilemma are Lady Stumble (Tina Foster) Lady Bumble (Patricia Studstill), and Lady Fumble (Linda Mueller).

Miss Hahn is directing the play once again this year. She is also directing the district contest, which is to be held in Bandera, March 27.

If you want to witness some great drama and support your school's play, keep your eyes peeled for more information on the upcoming contest!

Officers Discuss Jr.-Sr. Prom

by Darcy Word

Officers of both the Junior and Senior classes met Friday, February 15, in the library film room to discuss the 1980 Junior-Senior Prom.

Topics discussed were theme, location, and the type food to be served.

One of the main questions that came from the Junior officers was whether or not the Seniors wanted a dance after the dinner and presentation. The Senior officers decided the best way to find out was to poll the Senior class. This poll will take place next week and the results will be presented to the Junior class so that they may proceed with their plans.

Girls End Season Smiling

By Phyllis Goodenough

Varsity Girls' Basketball team ends the season smiling even though they may have had many heart breaks during the '79-80 playing season.

The team work and strong determination of this team surprised the whole district. They were ranked last at the beginning of district, until they won their first three games against Smithson Valley, Cole, and Boerne. They ended the first round of district play with a 3-2 winlose record. They were defeated by Randolph and Hays. In the second round the team didn't fair quite as well due to illness and injury having a record of 1-4 winloss. Their district record ended 4 wins and 6 losses.

During the total basketball season the girls won over 50 percent of their games, having a 7-13 record for the season. They also won 3rd place in the Bandera Invitational Tournament in November.

The major threat to their defense during district competition was each opposing team too many foul shots. The team averaged 22 fouls per game during district.

Veronica Romo was high point scorer for the season with an average of 14 points per game. Lynne Fitzpatrick consistently averaged 7 points per game and Sheila Montague averaged 5 points per game. Mella Montague also averaged 5 points per game.

The graduating seniors of the team are Lynne Fitzpatrick, Sharon Boyd, Mary Lou Canfield, Veronica Romo, Mella Montague, and Phyllis Goodenough.

Statewide Changeover From Quarter To Semester

For the past two weeks, students in grades 8 through 11 have been briefed on the new requirements for graduation. They have also been making choices on courses which they would like to take next year. "Everyone made a list of these classes and was supposed to discuss them with their parents," Mr. Graves said.

Next year, Bandera High School and all other schools across the state will convert back to the semester plan credit system. This simply means that for every subject taken one period a day a student will receive one unit per year instead of the three quarter credits he earned in the past. Bandera will require a total of 20 units for graduation. This will be the same as 60 quarter credits the seniors will be required to have this year. Thirteen subjects in Bandera High School are required and seven are elective.

Eighth graders will be making a four year plan of courses to be taken in high school as well as for just the ninth grade. Parents are urged to look at these plans, sign them, and return one copy back to the school.

The counselor, Mr. Graves, desires that if any parent has questions about graduation requirements or course selections, to phone him at his office in the high school (796-3530). All of the students were counseled through their English classes.

Symposium Presented In Austin

by Joan Turner

Fourteen students and two faculty members went to a Science Symposium at McCallan High School in Austin, Texas, on Saturday, February 16.

The Physics class went to a session which helped them with the conversion of cellulose to alcohol for their ethanol distillation unit they are constructing.

A session much enjoyed by all that went was one on "black holes."

In Memoriam

Grace Dorow

Memorial services for Mrs. Grace Head Langford Dorow, age 98, were held Sunday, February 17, at 2 p.m. at the First Baptist Church of Bandera with Rev. Harvey Hulse, pastor, officiating. Rev. Hulse delivered a beautiful eulogy in honor of the beloved mother who died February 15 at Purple Hills Nursing Home.

She was laid to rest in the Bandera cemetery under the direction of Grimes-Plummer Funeral Home. Casket carriers were Robert A. Holdsworth, Bryan Holdsworth, Burt Holdsworth, Joe Cohen, Montie Chapman and Richard Braden. Honorary pallbearers named were Clinton Risinger, Frank Mansfield and Les Short.

Grace Head was born November 15, 1881, in Waco, Tex., the daughter of John Armstrong Head and Mary Susan Ragsdale Head. She grew to young womanhood and became a school teacher.

On May 16, 1912, Miss Grace Head was married to Allie B. Langford, one of Bandera's young businessmen. Their marriage was blessed with five children. Two children preceded her in death. Mr. Langford preceded her in death in 1940.

In 1956 she married Professor A.E. Dorow, retired teacher and rancher of Selma, Cal. He preceded her in death in 1971.

Mrs. Dorow's survivors include two daughters, Mrs. Robert Q. (Lucile) Holdsworth, of Kerrville, Mrs. Leroy (Mildred) Cohen of Victoria; one son, Dr. Allie Gerald Langford of Gainesville, Fla.; 5 grandchildren, 4 great-grandchildren, and several nieces and nephews.

Mrs. Dorow was a gracious lady and a faithful member of the First Baptist Church. She was a founding member of the Woman's Missionary Society, originally called "The Ladies' Aid Society."

Many friends here remember her very kindly and offer sympathy to her loved ones.

Card Of Thanks

We would like to express our heartfelt thanks to our friends and relatives for their love and thoughtfulness during the time of bereavement in the loss of our loved one. The prayers from each of you, the phone calls, cards, flowers and food were deeply appreciated. A special thanks to Bro. Thank You

FROM THE FAMILY OF JIMMY KALKA TO ALL THOSE THAT LOVED AND CARED FOR JIMMY —

These words will be the hardest I have ever wrote. How can "Thank You" or "We Appreciate" be enough to express what we feel for all that was done by so many, to help us all get through these past days.

God gave him to us for nineteen years. In that nineteen years he gave us love. If you feel better for having known him or perhaps feel a deep loss then you too have received the gift God put him here for.

33-1tc

Card Of Thanks

For all the expressions of love and affection, for the prayers, for the beautiful flowers, for the gifts of food, for all those who in any way assisted us in the illness and burial of our mother Orlee Langford Dorow, we offer our deepest and heartfelt thanks.

Card of Thanks

The Lane Langford Family extends to their friends and relatives sincere appreciation for their many acts of kindness, the visits, cards and especially, the prayers offered for him while he was in the hospital. May God bless each one.

A thought to live by —
"The only way to have a friend, is to be one."

Congratulations are in order for Little Miss Paige Ralph on being named Valentine Day Baby of 1980 in a contest sponsored by Market Square and Alamo Diaper Service in San Antonio last Thursday night. Paige is the charming little eighteen-month-old daughter of Kathy and Bill Ralph of Tarpley. She is the granddaughter of Doris and Rod Ralph of Tarpley and Mrs. Edith Granger of Bandera. Paige is the niece of Mary and Ike Craddock of Tarpley.

Mrs. Margaret Cochran of San Antonio and her sister, Miss Elizabeth Grimes of Castroville, spent the weekend visiting Mr. and Mrs. Calvin DeHart.

Ray Hietalahti of Rio Hondo subdivision area was discharged from the veterans hospital in Kerrville last Friday and is at home now. His friends will be glad to know that he is doing well.

Mr. and Mrs. J.E. Dean were Hondo shoppers last Tuesday and also visited Mr. and Mrs. Lewis Dean at D'Hanis. They report a new great-grandson and the first grandchild for their daughter, Betty Jean and husband, Maurice Zerr of Hondo. The baby was named Michael Adam.

Mr. and Mrs. Ike Craddock and daughter, Michelle, and Mr. and Mrs. Bill Ralph and daughter, Paige, attended the San Antonio stock show Saturday.

Lynn Elbert Jeffers of Castroville visited his mother, Mrs. Edith Jeffers, Monday. Lynn has been ill with a flu virus.

Mrs. Kitty Mansfield of Bandera spent Sunday afternoon with Jeanine and Keith Mansfield and their children, Bo, Connie and Brent. Connie is ill with the flu.

Mr. and Mrs. Donnie Newcomb and baby, Molly Marie, of San Antonio visited her parents, Mr. and Mrs. J.E. Dean, Saturday.

The temperature around Tarpley Saturday morning was 22 degrees but it didn't stop the eight volunteer men who came to work on the restoring of the Tarpley Baptist Mission. We can't find words adequate to express our thanks to those who came on such a day.

Tarpley fire reporting number is 562-3232.

A THOUGHT FOR THE WEEK

By John M. Grimes

Many of us are concerned with the problems our Government in Washington faces today. Perhaps we can find some reassurances in remembering some problems faced by George Washington in the years that made us independent. . . .

He had a problem of men. . . The states' militia were all short time volunteers. Enlistments were constantly running out at the wrong time. Desertions were frequent.

He had a problem of officers. . . The officers were to be elected by the men in this democratic army. Some were elected who were better vote getters than soldiers. Congress gave promotions to many men who were not as capable as the men who were leading troops in battle. Many good officers resigned rather than serve under these politicians.

He had a problem of food and supplies. . . It was not uncommon to hear the cry: "No bread, no meat, no soldiers!"

He had a problem of soldiers' health. . . Inadequate food, clothing, and shelter caused many to become violently ill.

These were some of the problems in 1776. They were just as difficult for the men of the Revolutionary period as our problems are today. We, as a nation, came through that critical period. However difficult and complex our problems may seem to us today--are we not, as a nation, equal to them?

Hermann Sons Meet To Organize

Hermann Sons members living in the Bandera area have been invited to meeting in the Pipe Creek Community Building at 7:30 p.m. Friday, February 22, to plan the organization of a new lodge in the statewide fraternal benefit society.

Louis B. Kaechele of San Antonio, grand president, pointed out that the decision to organize the lodge was based on the growth of the Bandera and Pipe Creek area and the fact a sizable number of Hermann Sons members had moved there in recent years.

Working with area members are William R. Palmer, district supervisor in San Antonio; Dan Barth of San Antonio, general membership representative, and Horace Brooks of Pipe Creek, local lodge membership representative.

The Order of the Sons of Hermann was organized in New York City in 1840 by German descendants who adopted the name of a legendary folk hero, Hermann the Cheruker, who in A.D. led his tribal forces in the annihilating defeat of Roman legions in the historically decisive Battle of Teutoberg Forest.

The first lodge in Texas, Harmonia No. 1, was organized in 1860 in San Antonio. In 1890, the eight lodges that had been formed in the state established the Grand Lodge in San Antonio, and in 1921 the order in Texas severed ties with the national organization and became autonomous. There are now 77,000 members in 156 lodges in some 135 cities and towns throughout Texas.

Annual Rabies Drive Is Saturday

The annual rabies drive will be held at the Bandera Fire Station on Saturday, March 1: Dogs over 3 months of age will be vaccinated from 9 a.m. for a fee of $4. County license will be given at the same time for a fee of $1.

Cats will be vaccinated from 2-3 p.m. at Hill Country Veterinary Hospital also for a fee of $4.

In 1979 confirmed cases of rabies in domestic pets, livestock and wild animals totalled 1159. In 1978 the total was 520. Please attend this rabies drive and have your pet vaccinated. Help us all to make our county a safer place for our pets and ourselves.

Bloodmobile Visits Tuesday

What if you needed blood and there wasn't any? That is a possibility if the residents of the Hill Country fail to continue their support of the blood program of the American Red Cross Services. So far, because of that fine support, no patient in a Hill Country hospital has been forced to go without blood.

The Red Cross Bloodmobile will be in Bandera at the First Baptist Church on Tuesday, March 4. Donors will be received from 12 noon to 6 p.m.

Because, for economic reasons, it was necessary to drop Medina from the 1980 schedule, Tom H. Montgomery, area chairman, issued a special appeal to residents of the Medina area to support this visit.

At least 40 pints of blood are needed to justify the visit to Bandera and all regular donors are urged to attend.

Register To Vote Now

If you want to vote on Saturday, April 5, in any of the elections being held in Bandera County on that day, you must be properly registered to vote by March 5, according to Marguerite Stevens, Bandera County tax assessor-collector.

School trustee elections in Bandera and Medina, Bandera City election for councilmen and mayor, and election of board members of the Bandera County Water Control and Improvement District Number 1 (Bandera City) are all scheduled for Saturday, April 5.

March 5 is also the last day to file for a position on the ballot on any of these four elections. Those wishing to run for office with the city or water district should file at the city-water district office in the municipal building on Main Street. To file as a school trustee, file at the office of the superintendent, either in Bandera for the Bandera School's election or in Medina for that school's election.

For school trustees at Medina, three have filed—Henry Heinen and Fred Burch, incumbents, and W.C. Johnson. Frank Harmier and John L. Kroyance have filed for school trustee in Bandera. Incumbents are R.R. (Rudy) Schott, Ruby Tschirhart and Eddie Jon Ryan.

In the city election, Dianne L. Tobin has filed for mayor and she is the only one who had filed by Monday. Incumbents are Wilvie Smith, mayor, and Pat Price and Tommy Kindla, councilmen.

The incumbents in the water board election—Ray Wyatt and Burgin Davenport—are the only persons to have filed by Monday.

Two Charged With Assault

Two Bandera County men were charged with aggravated assault as a result of an encounter in the Wharton's Dock area Friday afternoon.

Charges were filed against Sam Byrd and Kenneth Andreas. A gun shot was allegedly fired through the windshield of Bill Hickman's car while Hickman and Andreas were seated in the vehicle.

Grand Jury Finds Two True Bills

The grand jury met last week and returned two bills, both for theft by check; one no-bill; and one case was passed.

Grand jurors for this term of court are Joe Talk, Mrs. Harold Kesler, Donald M. Anderson, Mrs. George Sandidge, John K. Harrell, Eric Boultinghouse, Mrs. Sara Garrison, Louis C. Reininger, Pedro Fernandez, Jerry Dodson, J. Kenneth Leighton and J.E. Porter.

Time To Apply For Tax Exemptions

Between January 1 and April 30 each year, taxpayers should render their property for taxation. At the same time tax exemptions may be applied for.

The Bandera Independent School District offers several types of tax exemptions, according to Charles W. Purdy, district tax assessor-collector. They are:

— state homestead exemption, $5,000;

— exemption for persons 65 years old or older on Jan. 1, 1980, $10,000;

— social security disability exemption, $10,000;

— veterans exemption based on percent of disability;

— civil service disability exemption, $10,000;

— exemption authorized by Bandera School Trustees on homestead for those 65 years old or older on Jan. 1, 1980, $6,000.

Also the taxpayer's choice of one of two ag-use exemptions is offered —

— agriculture use on valuation of the land (article 8, section 1-d); OR

— agriculture open space valuation (article 8, section 1-d-1).

Exemptions are not automatic nor are they automatically renewed. Application for exemption must be made each year, Purdy explained.

For further explanation of any of these exemptions offered by the Bandera Independent School District, come by the school tax office on Cherry Street at the Junior High campus. Remember to apply now, Purdy urged, for no exemptions can be allowed after Wednesday, April 30.

Tax Booklet Released

Marguerite Stevens, Bandera County tax assessor-collector, announced that a new 13-page pamphlet which may help county residents save on their property taxes is now available.

The pamphlet explains how the property tax system in Texas operates, and highlights possible tax savings available to citizens.

The publication was developed by the State Property Tax Board in accordance with Senate Bill 621, passed by the Texas Legislature in 1979.

Information in the pamphlet is applicable to property taxes collected by all levels of local government, including counties, cities and school districts.

Mrs. Stevens noted that many persons are able to reduce their overall tax bills by applying for available exemptions. All homeowners, for example, may apply for a homestead exemption, but this must be done before the county's tax rendition deadline of April 30.

Additional exemptions are available upon application to disabled veterans.

April 30 is also the last day for owners of agricultural land to apply for taxation of the land at its productive rather than market value.

"More complete information regarding tax rendition and exemptions is available from tax office personnel," Mrs. Stevens added.

In County Court

Betty Strickland of Center Point was tried and adjudged guilty of a traffic violation, speeding, before a jury in Bandera County Court Tuesday. She was fined $50.

Mrs. Strickland was represented by Clarence Williams of San Antonio and Bandera County Attorney Ron Jackson represented the state. County Judge Rein Vanderpool presided.

Jurors were Betty F. Leighton, Leon J. Swonke, Barbara D. Marrs, Lila B. Evans, Carole H. Martin and James F. Martin, foreman.

In a second case tried without jury, Julius Guillory pleaded guilty to disorderly conduct and was fined $50.

Traffic At Pecan & Main Not Enough For Light

County Attorney Ronald Jackson received the following letter in reference to a traffic study made of the intersection of Pecan Street with Main Street (by the U.S. Post Office) in Bandera.

Dear Mr. Jackson:

With reference to our letter of November 19, 1979, a traffic and engineering study was conducted of the above intersection.

The study results indicate a change in traffic pattern with a substantial increase in traffic on Pecan St., while there was a slight decrease in traffic on S.H. 16 (Main St.) since our previous study of this intersection was made in September 1978. Even with these noted changes, the existing conditions do not meet the minimum requirements for traffic signals. Therefore, we are unable to authorize or install the requested signal at this time.

Thank you for your interest in traffic safety.

Very truly yours,

R.E. Stoter, Jr.

Margo's Mart Is Damaged

Margo's Mart was heavily damaged Thursday, February 21, at approximately 4 a.m. when a pickup veered off SH 16 and struck the front of the building.

Greg Rex Smith of Bandera, who was driving a pickup owned by Bob Ross of Medina, was charged with failure to report an accident.

Visit Classes During Schools Week

March 2-7 has been designated Public Schools Week throughout Texas and the Bandera Schools are observing the week by extending a special invitation to parents and all others interested in the schools to visit classrooms while classes are in progress any day next week.

Please go by the principal's office first, at any of the three schools—elementary, junior high or high school—so that they may welcome you and help you find your way around the campus.

Bandera Schools earlier in the year held an open house and will not be holding another during Public Schools Week.

Motorcycle Accident Injures Driver

A motorcycle accident near the Medina Children's Home on SH 16 Saturday afternoon resulted in injuries to the driver.

Paul Lynn Mayo of San Antonio was treated at the scene and transported to Sid Peterson Hospital in Kerrville by Bandera County EMS. He was not believed to be seriously injured.

BSA Drive Starts

The Boy Scouts of America have opened their annual fund drive, according to Judy Goodenough, chairman of BSA sustaining membership enrollment for Bandera County.

The Boy Scouts encourage participation and membership of adults in its program, and one type of membership—Sustaining Membership Enrollment (SME)—provides an opportunity for adults with an interest in scouting to share in the financing of the program.

The money donated to the SME Scout drive is spent in six scouting categories: organizing new units, serving existing units, training leaders, maintaining camps, maintaining service center records and information, and professional staff supervision. Without the existence of BSA's connectional programs, boy scouts would be just a group of boys or boys' club.

Boaters Oppose Ban

Texas boaters have been urged to testify at a March 13 hearing against Department of Energy proposals for authority to ban weekend boating as a means of saving fuel, a move the Boating Trades Association of Texas calls both "unnecessary and discriminatory."

The hearing, scheduled for the Americana Inn and Conference Center at Six Flags in Arlington, is one of six scheduled around the country on the Emergency Energy Conservation Act of 1979.

"It's the inequity of the proposal that disturbs us," Don Dacus, president of BTAT, said. "The Department of Energy doesn't mention anything about a ban on auto racing, general aviation and recreational vehicles."

Dacus said boaters should not have to assume too much of the burden for conserving fuel during a severe energy shortage. He pointed out the act as passed by Congress requires fuel to be equitably distributed among all users after it has met essential needs.

"Once Texas boaters understand just what DOE is trying to do to them, I'm sure they will want to testify at this important hearing," Dacus said.

Dacus said a ban on weekend boating would be unnecessary since driving restrictions and fuel shortages would reduce boating in Texas in the same manner as Jet summer.

"The DOE made a serious error in assuming that boating uses a significant amount of this country's fuel," Dacus continued. "The truth is, boating consumes less than one half of one percent of the nation's energy. Thus the potential energy savings from curtailing boating is minimal."

Dacus said the DOE has also underestimated the economic impact of its proposal on the marine industry. "Over 80 percent of the boating in Texas takes place on weekends," he said. "Thousands of Texans employed at marinas and other marine facilities will be put out of work and millions of dollars in retail spending lost if this proposal is ever implemented."

Boaters must contact the Dallas office of the DOE no later than 3:30 p.m. on March 7 if they want to testify at the hearing. They should write Grace Morrison, P.O. Box 35228, 2626 W. Mockingbird Lane, Dallas, Texas 75235, or call area code 214, 767-7726 to apply to testify. All will be notified before the hearing if their applications have been accepted.

Written comments concerning the proposal may be sent to the headquarters of the Boating Trades Association of Texas at 411 Adolphus Tower, Dallas, Texas 75202. BTAT officials will submit all comments at the hearing. For more information, call 214-748-8215.

Voter Registration Reflects County Population Shift

By January 31, 3,932 Bandera County residents were registered to vote, according to Marguerite Stevens, Bandera County tax assessor-collector.

Of this total, 1,714 or 43.59 percent live in commissioner's precinct 1, made up of voting precincts 1, 4, and 5, which includes the city of Bandera, Tarpley and the area surrounding them.

Commissioner's precinct 2, including voting precincts 2 and 10 (Pipe Creek-Lakehills area) has 1,250 registered voters or 31.79 percent of the total registered.

The Medina area, commissioner's precinct 3 and voting precinct 3, has 698 registered voters, 17.75 percent of the total. In commissioner's and voting precinct 4, the so-called "West End of the County," there are 270 registered voters, only 6.87 percent of the total.

In April the official U.S. Census will be taken. The census count should more accurately picture the shift of population within the county.

Survey of Cultural Resources Completed

Kathy Burns, historic preservation officer for the Texas Historical Commission, working through AACOG, has completed a comprehensive index of cultural resources for Bandera County. The survey which has historical and architectural significance was funded by a grant from the Texas Historical Commission. It was begun in March 1979.

Miss Burns presented her final portfolio to the Bandera County Historical Commission at a meeting held Friday at the Old Jail Museum. The portfolio contains photographs and information cards on approximately 300 historic structures.

Miss Burns' survey will serve as a source of material for historians, architects and home owners in the future.

Commission members expressed their appreciation to Miss Burns for her year-long survey.

The portfolio will be placed in the Bandera County Library.

The Commission plans a book sale during April.

Work has begun on the 1981 historical calendar. If you have photos of early day people, the Historical Commission would be interested in viewing them for possible use in next year's calendar.

The Independent Cattlemen's Assn. will be represented at this hearing by President Roy Wheeler and 1st Vice President Dr. Eddie Payne. ICA's brucellosis chairman. We will stress the need for an effective vaccine, which will be universally accepted, as the only way the disease can ever be controlled.

MRS. WEBB HOSTS GARDEN CLUB

The "Rose Garden Club of Medina met February 13 at the home of Mrs. Mamie Webb in Ingram. Guests were introduced and then the minutes of the January meeting were read and approved.

Mrs. Jeff Keese gave the garden tip. She said two causes of losing potted plants were over-watering and placing plants in pots which were too large for the size of the plant.

Mrs. Paul Garrison gave a report from the National Gardener. She gave the names of the All American selection of flowers and vegetables. Among those mentioned were the Flora Ann and Cherry Ruffle tomatoes and Peter Pan and Red Sun zinnias. Mrs. A.E. McClendon gave a report from The Lone Star Gardener on Arbor Day. Texas first celebrated Arbor Day in 1889. National Arbor Day will be celebrated April 17, 1980. Everyone was urged to plant a tree and it was suggested that members urge neighbors to plant trees.

Saturday, March 15, The Rose Garden Club will have a Country Market Day at the Garden Center. Mrs. W.O. Hatfield appointed the following members as chairmen of the various booths: Foods - (baked goods, coffee and cake, canned food) Mrs. Walter Ford; Arts and Crafts - Mrs. Margie Smith; Plant Sale - Mrs. Jeff Keese and Mrs. Homer Stevens; "White Elephants" - Mrs. A.E. McClendon; Used Clothing - Mrs. Vernon Williams.

The District VII Spring Convention will be held in Uvalde on March 5-6. Registration blanks may be obtained from the president. Theme of the convention is "A Joyous Spring."

Mrs. J.D. Latta introduced the speaker for the program, Mrs. Mamie Webb, who is well known in the Hill Country as an active garden club worker and who is involved in many church and civic activities. She presented a program on "Creating Artistic Designs with Dried Materials." For arrangements in containers and baskets she uses styrofoam as a base. She covers the top of styrofoam with modeling clay which holds the stems more securely. She uses Ray Miller Underwood's book, "Dried Flower Arrangements," for suggestions and ideas.

The members were divided into three groups and toured the lovely home where various dried arrangements in baskets, vases, picture frames and other types of containers were displayed in many artistic ways. Mrs. Webb mingled with each group and answered questions about the source of the dried materials. She was wearing a "silver" butterfly fashioned from a dried cotton boll.

Her lovely hanging baskets were artistically arranged in one area of her home. One basket contained bachelor buttons and butterfly vines and other small specimens. She suggested placing a wire in the stems while specimens are fresh to prevent crumbling when stems become dry.

Hostesses for the day were Mrs. C.L. Bower, Mrs. Homer Stevens and Mrs. Maud Stokes. Delicious Girl Scout cookies, coffee and tea were served from a table centered with a beautiful Valentine arrangement.

Club members and guests appreciated the hospitality of Mrs. Webb and enjoyed viewing the lovely arrangements which were so artistically displayed in her home.

INDUCTION OF NEW MEMBERS INTO BETA CLUB

The Medina High School Beta Club inducted seven new members into the National Beta Club Friday, February 22, in an assembly for the student body, faculty, parents, and friends. The program was presented by the secretary, Sherry Kinsey, and the treasurer, Teddi Talley. The principles in the Beta Creed about which they spoke were honesty, justice, service, cooperation, responsibility, trustworthiness, humility, and charity.

The vice president, Dicy Glenn, presided at the induction, and Chester the president, Julie Dodson, was unable to talk due to a tonsilectomy. During the program, members of the club spoke of the special significance of the nine points on the Beta shield, hoping that these would cause all to have a better understanding of themselves and a better realization of their relation to others. Jimmy Adams spoke of education; Steve Heinen of courage; K.R. Madden of unselfishness; Cody Crider of recreation; Michelle Raines of cooperation; Cindy Prater of interest; Mike Britt of trust; Bill Hinds of yourself; and Teddi Talley spoke of service, an important point since the Beta Club is a service organization.

After the Beta Club pledge was administered to the new members, each was presented a certificate, membership card, Beta pin, and banner by the officers. Those who were inducted were Lisa Britt, John Brown, Kyla Green, Mark Jones, Robert Selement, Janice Standard, and William Tabor.

Accident Injures One

Gifted Program Being Developed

Al Kindla, Bandera Elementary School principal, and Donna Reinsch and Mary Evans, elementary teachers, recently completed a series of workshops conducted by Region XX Educational Service Center in San Antonio for gifted and talented education.

Workshop information is being used to develop a written plan for gifted education in Bandera. The proposed program, subject to School Board approval and state and local funding, would begin with grades K-5 in the fall of 1980 and would expand to the upper grades in coming years.

Virtue, wisdom, goodness, and real worth, like the load-stone, never lose their power. These are the true graces, which are linked hand in hand, because it is by their influence that human hearts are so firmly united to each other.

Track Season Opening

By: Dee Anne Doebbler

March 1 is the official opening of the 1979-1980 track season for both girls' and boys' track teams. The girl's team will be traveling to Mason to participate in the Mason Meet, and the boys are going to Junction to compete in the Junction Relays. This will only be the beginning of their long, hard season.

Both teams have been practicing about two weeks. In preparing for track season, many long hours of practice are essential for reaching goals. The teams have been working hard, especially by the sight of the track at after-school practice. The track is crowded with both girls and boys, and both young and old. Everyone is striving for that individual, but also team goal of winning, whether it be an individual medal, or a team trophy.

Be Something Better

By: Stacey Dyer

Always there is the cliche cry of young people, "What can we do? Where can we go?"

"I can make some suggestions. Here are a few of your words:

"Clean your room, clean the house, learn to cook, scrub the floors, paint the woodwork or build something. Rake the leaves or mow the lawn, or clean up a park. Read to a sick person or visit the nursing home. Tutor a handicapped child.

"Offer your services to your Pastor, the Red Cross, the Salvation Army. Assist the poor. Do your homework. And when you're through, if you are not too tired—read a good book.

"Your parents do not owe you entertainment. The world does not owe you a living. Your city does not owe you recreation facilities. You owe the world something. You owe it your time and energy, and your talents so that no one will be at war or in poverty or sick or lonely, ever again.

"In your words: Grow up, quit being a cry baby, instead of griping about something that needs attention, help accomplish it or do it completely. Get out of your dream world and develop a backbone not a wishbone. Start acting like a man or a woman."

A woman in Houston Texas said; "I'm tired of nursing, chauffeuring, protecting, pleading and begging; making excuses for your laziness and trying to accomodate your endless demands. I'm also tired of being told 'It's your fault I'm like this. You spoiled me.' If you don't like yourself, BE SOMETHING BETTER."

Baggage Hands Given To Travelers

BY EDWARD ALANIS

For the single purpose of learning of life abroad, the newly formed Travel Club met once again on Monday night, February 18th. The topic for discussion was "Baggage—What to Take Overseas."

Club sponsor, Miss Hahn, advised that the lightest luggage (light, without sacrificing durability) was the best. The importance of a comfortable and strong handle on a case was also stressed. To those club members who will be traveling to Europe this summer the discussion was extremely helpful and informing.

Miss Hahn also presented an exciting slide show on the fascinating city of Salzburg, Austria.

Afterwards the eight members present enjoyed refreshments. If you are interested in joining the Travel Club and expanding your knowledge of the world, listen for dates and times of upcoming meetings!

Alice Lynne Fitzpatrick

By Darcy Word

When Alice Lynne Fitzpatrick was born in Austin, Texas, on February 3, 1962 the world gained a cheerful, spirited, and zany new person.

Lynne, the daughter of Wanda and Alfred Fitzpatrick, says that in general, she likes people and this is quite evident in the activities she participates in as a Bandera High School student. She has attended BHS since the sixth grade and will graduate this year as a mighty Senior of 1980.

While in high school, Lynne has been a member of NHS for three years and is currently the reporter. She was this year's 1979-80 Bulldog Mascot and played alto-saxophone her freshman year in band. One of Lynne's hobbies is writing, and she contributes to this hobby by writing stories for the Pen-o-Paw and being a member of the Journalism class. Lynne is also very active in Student Council. She has been a member four years, was secretary-treasurer her junior year, and is vice president this year.

Not only does Lynne have scholastic ability, but she is also very athletically inclined. She has participated in basketball four years and has lettered three times. Her freshman year, Lynne was a Regional-Finalist in the 880 yard run. She also lettered that year in track. Volleyball is another of her favorite sports. She has played four years, lettered three times, and was named All-District 2nd team both her junior and senior years.

Lynne has also received the Outstanding History, the A's, and the Good Citizenship Awards. She is a current member of both the Who's Who Among High School Students and The Society of Distinguished High School Students.

Besides school and related activities, Lynne has many other interests. She has traveled to many places, but she liked Maui, Hawaii the best. And, as Lynne puts it, "I have a lot of favorite people, but these are the main ones: my family, my "two sisters", Darcy Word and Melia Montague, and the Senior Class of 1980.

After high school, Lynne plans to attend college, become a physical therapist, and work with handicapped children.

Alice Lynne's philosophy is "Believe in yourself, and believe in others, because these beliefs give life meaning and without them there is no hope for tomorrow."

Calligrapher Spoke To DKG Meeting

Kyrenda Allison, art teacher at Roosevelt High School and the Art Institute in San Antonio, gave a visual talk about handwriting and calligraphy at the Epsilon Theta chapter meeting of Delta Kappa Gamma Society, International, held Thursday, February 14, at the Boerne Primary School.

Handwriting provides communication and calligraphy provides art, beauty and challenge, according to Miss Allison. To better illustrate her talk, she gave a slide presentation of some sample pages from books done in Gothic, Italic and Roman styles of handwriting by well-known American and European women calligraphers. Other displays depicted the many different variations in combinations of writing in colored inks that can be used.

President Annie McElroy recognized Mrs. Rosita Hollar, who was honored at the Cypress Creek Community Center in December by Congressman Tom Loeffler, with congratulatory messages from President Jimmy Carter and Gov. William Clements, for her 63 years of teaching and 4-H work. Mrs. Frances Chamberlain also noted the recognition accorded Mrs. Hollar in the February issue of the "PTA Communicator" of the Texas Congress of Parents and Teachers as the Texas PTA's nominee for the Winthrop Rockefeller award for distinguished [illegible] service.

Recognition was also given by Miss McElroy to Mrs. [illegible] number for assembling the [illegible] Jubilaeum edition of Those Comforting Hills," and to Mrs. Irene Spencer for printing the folklore magazine of the Confort Middle School. Mrs. Betty Johannes, a former member, started the magazine in 1976. The second edition was dedicated to Miss Annie McElroy for her 50 years of teaching.

Then Miss McElroy recognized Dr. Verna Mae Crutchfield, who, along with other members of the Center Point School Board, participated in the dedicatory plaque ceremony at the new Center Point High School when it was dedicated.

The next meeting will be at Comfort, Thursday, March 13, with Mrs. Ruth Davis and the research committee in charge.

Boerne members hosting the initial hour were Mesdames Ruth Davis, Alice Fletcher, Bonnie Schwarz, and Betty Scogin. They used a Valentine motif and served Ranchburgers; salads, cake, coffee and tea.

Twenty-one members and two guests attended. Coming from Bandera were Mesdames Sallie Lewis, Vernell Mullenax, Naomi Snyder, and Kaye Walters and, from Medina, Miss Thelma Gallant.

Miss Vawter Honored

Friends of the Library Will Meet

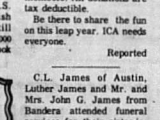
Friends of the Library will meet at the Bandera County Public Library at 2 p.m. March 3. Prior to the meeting, the Council for the library will hold a brief session at 1:30 p.m.

Anyone who is interested in promoting the library is extended a cordial invitation to join the Friends of the Library. It is desirable to have all community organizations represented.

The library is usually supported by taxes and is free to everyone. To represent the county completely, everyone must be eligible for membership.

The Friends of the Library has been organized to create public support for an expanding library program; to sponsor programs designed to add to the cultural life of the community; to intensify community awareness and use of the library; to work for library legislation or appropriations; and to provide direct financial aid by purchasing for the library special and unusual items which would be of great benefit but cannot be purchased from the budget.

The Bandera Library budget is very low and help will be needed. Won't you join the Friends of the Library?



Card Of Thanks

We wish to express our sincere appreciation to our friends for your many favors during our stay in a San Antonio hospital in January and also June's recent confinement in a Corpus Christi hospital. Your visits, phone calls, flowers, letters, cards, and last but not least, your prayers, were indeed a boost to our morale. May the Lord bless and keep you. We love you.

A THOUGHT FOR THE WEEK

By John M. Grimes

People and nations have known good times and bad. No matter what the social, economic or physical status is or will be, a crisis or confusion will always exist somewhere for some people.

A crisis and confusion is part of living. Each of us must face some sort of crisis or confusion sooner or later. To face a crisis requires courage—and courage is a personal matter. Courage cannot be leased, borrowed or bought. It must be drawn from one's self, for one's self. And when courage is shown, confusion can and often does disappear.

Ever since time began, the greatest source for courage has been traced to a foundation on a faith. Faith creates hope. Without faith and hope, courage is difficult to come by. In spite of dark clouds—faith, hope and courage will always be the means to let us see the rays of sunshine again. . . .

Future of Soil & Water Conservation To Be Discussed

Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service, College Station, will preside over a public meeting in San Antonio on March 6 to discuss the direction future soil and water conservation programs of USDA will take.

The meeting, which will be held at the Marriott Hotel, will start at 9:30 a.m. and should end by noon.

The meeting is being held as a result of the Soil and Water Resources Conservation Act of 1977 (TCA). Under the Act, Congress directed USDA to appraise the condition of the nation's renewable natural resources and to propose programs to guide future conservation activities of USDA.

As a result of RCA, three documents have been published that can be reviewed at USDA offices. These include Parts I and II of the appraisal and a summary of the appraisal, national conservation objectives for selected resource areas, and seven alternative strategies.

The purpose of the alternative strategies is to provide a selection of the best and most acceptable method of achieving national conservation objectives set by USDA.

Anyone interested in reviewing the documents before, or after, the meeting should contact local USDA Soil Conservation Service or Agricultural Stabilization and Conservation Service offices.

Written comments will be accepted at the meetings or they can be sent to the Response Analysis Center, P.O. Box 888, Athens, GA 30603.

Public Transportation Survey Made

SAN ANTONIO—The State Department of Highways and Public Transportation will be conducting a survey of all agencies known to provide public transportation. Questionnaires will be mailed out requesting information on number and age of vehicles, type, if equipped for handicapped, special services, ridership, and fleet improvements, among other relevant items. This data, when compiled, will help in furthering public transportation in Texas.

The Department is particularly interested in public transportation, the transportation needs of the elderly, handicapped, the disadvantaged and persons unable to provide their transportation by privately-owned automobiles.

Agencies considered providers that should respond are municipal transit systems, taxi cab systems, human services agencies, including welfare and governmental groups, social organizations and commercial carriers.

The questionnaires were mailed to public transit operators throughout the Department's District 15 on February 11. The District has responsibilities in Atascosa, Bandera, Bexar,

Thank You

"Thank you" isn't sufficient to express my gratitude to my many, many, grand friends who have been so extremely kind to me during my recovery from a broken ankle and rib. The delicious food, visits, cards, calls, prayers, transportation to doctor, etc. overwhelms me and I am so deeply grateful. May God's blessings be with each and every one of you.

Letter to the Editor

Upon reading of the designation of the Todd Jureczki House as a National Historic Site, Mrs. Thelma Jurecki, former resident of the house, called me to make some corrections in the historic data on the house given in an Austin news release.

Mrs. Jureczki, says that her late husband's family never used any part of the main house as a saloon. They did operate a store in a log building, since demolished, elsewhere on the property.

It is also erroneous to say that Albert Jureczki inherited the property outright. He actually bought the interests of two other family members after the deaths of Carolina and Franz Jureczki.

It is important that those of us interested in preserving Bandera County history strive for precise accuracy. It is in the interest of this [illegible] that I bring Mrs. Jurecki's corrections to the attention of your readers.

PUBLIC NOTICE
All Developers and Subdividers planning projects in Bandera County are urged to obtain and follow the Regulations Governing Subdivisions in Bandera County. Failure to follow these established regulations will almost certainly result in costly delays. Some of the most critical items are:
1. Written request to proceed accompanied by a statement from Bandera Electric Cooperative that electricity will be furnished.
2. Utility easements indicated by survey.
3. Road dedication indicated by survey.
4. Construction and maintenance bonds on roads.
5. All lots or tracts adequate in size.
6. Plats to be drawn to a scale of 200 feet to the inch, on 18" by 24" sheets. A key map shows the entire area to be drawn on U.S.G.S. maps which are available in the County Judge's Office.
7. Compliance with Bandera County Regulations covering sanitary facilities and water wells.
These directives, most of which have been in force since 1972 by order of the Bandera County Commissioners' Court, are available for any developer at the office of Permits and Inspections, County Courthouse. I urge all concerned to obtain this document and follow it closely during the course of your planning and development schedule.

County Judges, Commissioners Meet

Mrs. Reita Vander Zee (l) of Bandera, Bandera County, and Mrs. Evalyn Anthony of Friona, Parmer County, were among those accompanying husbands at the 22nd annual County Judges and Commissioners Conference in College Station recently. The conference is sponsored by the Texas Agricultural Extension Service and the Texas County Judges and Commissioners Assn.

Keynote speakers were Texas Gov. Bill Clements, Mark White, Texas attorney general, and Mack Wallace, Texas railroad commissioner.

Among topics the 800 county officials discussed during the conference were development of new oil and gas resources, a recent revision of the property-tax system, Texas jails, nuclear waste storage, inflation and foreign relations, along with several others.

4-H'ers Place 2nd In Neatness

Showing the Simmental heifers in the San Antonio Show was a great experience. Showing in both the Open Show and the Junior Show was an opportunity that will long be remembered by Gayla Adams, Beckie Blakemore, Derrick Berg, John Fest, Tina Macon, Jim Bob and Lorri Robbins, and Todd Sandidge.

In the Junior Show division, all the Bandera County heifers showed in the same class with a total of 24 heifers. Two heifers placed in the prize money — Tina Macon-7th, and Jim Rob Robbins-8th.

In the Open Show, in Class 6, Gayla Adams placed 3rd and Beckie Blakemore-4th. In Class 7, Derrick Berg placed 4th and John Fest 5th. In Class 8, Tina Macon placed 5th. In Class 9, Jim Bob Robbins placed 4th, Lorri Robbins 6th and Todd Sandidge 7th.

A lot of time and work by the parents, exhibitors, the two Vocational Agricultural teachers, Telvy Robbins and Sandy Hunter and the County Extension Agent went into washing and fitting the heifers for the Show. It was a great effort and the heifers looked great when they went into the Show ring.

The County Extension Agent wants to take this opportunity to thank everyone for helping. It was a great thrill to receive Second Place in the Neatness Award in the Junior Beef Heifer Division of the Show. This division included all the different beef breeds.

Everyone helped to win this award, everyone worked. Todd Sandidge was with the heifers all the time and did an outstanding job. I am not trying to favor anybody in particular, but he did a good job. And again I'll say, it was a great effort by everyone. I must also say that it was a pleasure to work with all of you.

Ard Richardson sponsored these eight fine Simmental heifers. A lot of credit goes to him for working closely with all the children. He has checked on these heifers monthly and assisted everyone with any problems. Workshops were held monthly when the heifers were weighed at his ranch. Thanks, for all your help.

Werner Liedig
County Extension Agent

New Rabies Law Passed

Excerpts taken from the Rabies Control Act passed by Texas legislature are as follows:

SECTION 3

Local Health Authorities: The commissioners' court of each county and the governing body of each city or town shall designate one officer to act as the local health authority for the purposes of this Act. The officer designated may be the county health officer, municipal health officer, animal control officer, peace officer or any entity that the commissioners' court or governing body considers appropriate, except as restricted by rule of the board.

SECTION 4

a) A person having knowledge of an animal bite or scratch or other attack on an individual that the person could reasonably forsee as capable of transmitting rabies, or of an animal that the person suspects is rabid, shall report the incident or animal to a local health authority of the county or the city or town in which the attack occurs.

b) The owner of an animal that is reported to be rabid or to have attacked an individual, or that the owner knows or suspects to be rabid or to have attacked an individual, shall submit the animal for quarantine to the local health authority of the county or the city or town in which the owner resides.

SECTION 5

a) The local health authority shall quarantine for at least 10 days any animal that the authority has probable cause to believe is rabid or has attacked an individual.

c) A local health authority may contract with one or more public or private entities for the purpose of providing and operating a quarantine facility.

d) If a quarantined animal is found to be rabid, the local health authority shall humanely destroy the animal. If an animal dies or is destroyed while in quarantine, the local health authority shall remove the head or brain of the animal and submit it to the nearest Texas Department of Health laboratory for testing.

e) If a quarantined animal is found to be free from rabies, the local health authority shall release it to the owner following the quarantine period if: 1) the owner has an unexpired rabies vaccination certificate for the animal; or 2) the animal is vaccinated against rabies by a licensed veterinarian at the owner's expense.

f) The owner of an animal that is quarantined under this Act shall pay to the local health authority the reasonable costs of the quarantine and disposition of the animal, and the local health authority may bring suit to collect those costs.

SECTION 6

Vaccination required: Except as otherwise provided by the board, the owner of each dog or cat shall have the dog or cat vaccinated against rabies by the time the dog or cat is 4 months of age and at regular intervals thereafter as prescribed by rule of the board.

c) No county, city, or town may register or license an animal that has not been vaccinated in accordance with this section.

Patty Adamson Announces Candidacy

I would like to take this opportunity to introduce myself and announce my candidacy for the upcoming election of school board trustees.

I am Patty Callahan Adamson, the daughter of the late Calvin O. Callahan and Mrs. Dorothy nee Anderwald Callahan. Six generations of both my paternal and maternal families have lived continuously in Bandera county since the 1850's. I am the wife of Virgil Rodney Adamson, and together we are the parents of four children—Michelle, Charmaine, Mark, and Sharon—, all of whom attend Bandera schools. I am a graduate of Bandera High School and have lived all my life in Bandera county, except for the first eleven years of my married life, when I was a resident of Bexar county. We have lived back in Bandera since 1974.

Although I am not employed outside my home, I have always been involved in various projects and hobbies. I was a volunteer teacher's aide in San Antonio for one year, and a room mother here in Bandera for two years. I am presently a volunteer helper for the Bandera Elementary and Junior High Library, a volunteer helper for the County library through the Friends of the Library, and a volunteer helper at the Old Jail Museum and Art Gallery through the Bandera County Artists Club.

I have but one reason for seeking the position of school board trustee, that being that I sincerely care about every child who attends the Bandera schools. I want them to be prepared in every way for the life they will lead in an incredibly complex world.

I have but one campaign promise, that being that I will dedicate myself to do my very best by thinking and acting independently, with absolute honesty, without prejudice, and with common sense—always with the welfare of our children and their teachers and other school employees in mind.

I respectfully request your vote and support.

To the Members of Bandera Electric Cooperative, Inc.:

The management of the Bandera Electric Cooperative, Inc. wishes to express its thanks for the patience and understanding of those consumers who were forced to cope without electricity on Sunday, March 2, during this winter's coldest spell of weather. The demand placed on a portion of the existing system as a result of the record breaking temperatures was more than it could stand. Your Board of Directors, based on the advice from consulting engineers more than 3 years ago, authorized the building of a new transmission line to run from a switching station near Center Point to a point approximately 10 miles west in the Upper Turtle Creek area. The two stations are complete and have been sitting idle for a year. Approximately one third of the right of way has been obtained and cleared, however, negotiations with property owners along the remaining portion of the right of way have broken down. This has resulted in undue delays which are not only expensive, but has placed your entire electric distribution system in a position where, when extreme heavy demand is placed on it, severe damage may occur to existing substation transformers and related equipment, thereby causing "brown-outs" and possible longer black-outs.

The Board of Directors, at its meeting in March, took action instructing its attorney to commence condemnation proceedings against the affected property owners as rapidly as possible. This course of action is regretful and expensive but the board recognizes its responsibility to all the member-consumers of the cooperative and therefore has no other alternative.

Again please accept apologies from the management and staff, but bear in mind that until the Turtle Creek line is completed and energized the threat of outages during inclement weather conditions will remain.

Pipe Creek Postmaster Will Be Installed

The public is invited to the formal installation of Carmen Haynes as postmaster of the Pipe Creek Post Office. The installation will be held at 2 p.m. March 14 at the post office.

Carmen assumed her duties at the Pipe Creek Post Office on June 29, 1979.

Refreshments will be served.

Census Clerks Needed

Juan Martinez of the U.S. Bureau of the Census will be in Bandera at the county courthouse on Friday, March 7, at 2 p.m. to interview persons wishing employment as clerks.

Clarification

In last week's Bandera Bulletin a news item identified a Larry Taylor as being assessed a 5-year prison sentence for theft by check.

This Larry Taylor had been living in Medina a short time. He had moved to Bandera from the Houston area.

He is not the Larry Taylor whose family has lived in Bandera for many years.

Census Seeks To Count Everyone

For most Americans, the 1980 census will be simple enough.

A questionnaire will arrive in the mail on March 28. The recipient will simply answer the questions, which will not take long, and then either mail back the form on April 1 or hold it for a census taker to pick up, depending on the instructions.

What may not be apparent to millions of Americans, as they answer the census in the privacy and convenience of their homes, is the fact that they are making personal contributions to an undertaking so vast, so complex, that the 1980 census qualifies as one of the largest peacetime efforts ever mounted in this country.

By the time the last American is counted sometime during the summer, the Bureau of the Census will have reached an estimated 222 million U.S. residents and 86 million housing units, and gathered more than three billion answers.

The 222 million residents, a nine percent population increase since 1970, include some people who do not speak English, people with various political opinions, the rich and the destitute, the educated and the illiterate, members of all the earth's races. The census must also assess their housing—single-family homes, houseboats, condominiums, shacks, "abandoned" buildings, migrant worker camps, jails, school dormitories, at sea, and overseas. The census is expected to count 25 percent more housing units in 1980 than in 1970.

At the same time, never in the history of the census, which has been taken every 10 years since 1790, have census findings played as important a role in American life as they do today. Besides the Constitutional mandate to provide a basis for reapportioning seats in the House of Representatives, the census measures how well the Nation is doing, from the block level to the entire country. Its findings are used in the private and public sectors to decide how billions of dollars will be spent annually.

Planning for the 1980 census, which has gone on since the early seventies, reflects this heightened need for the most complete count ever taken, especially of minorities.

In 90 percent of the Nation's households, people will be asked to take their own census, in effect, by answering the questionnaires and mailing them back in postage-free envelopes. Census takers will obtain the information from households that fail to mail back completed questionnaires as requested.

The remaining 10 percent, which will receive instructions to hold the completed questionnaires until census takers pick them up, are mostly in sparsely settled areas in the Western half of the Nation. In some cases, the census takers will ask additional questions.

Census questions seek basic information about people—age, sex, occupation, and the like—and about subjects such as housing, personal transportation, and energy use. Most people will be asked to answer a basic census questionnaire, which has 19 questions. About one of five households, chosen randomly, will be asked to answer a longer version with 46 additional questions.

By law, the Bureau must provide the President with the population totals for all the States by January 1, 1981, for purposes of Congressional reapportionment. A new law also requires that the population of counties, cities, and other political subdivisions be provided to each State no later than April 1, 1981, for redrawing district lines.

At City Council Meeting . . .

Watch for New Stop Signs On 13th St.

Two intersections on 13th Street became four-way stops when stop signs were placed at the intersections of Pecan and 13th (by the Frontier Times Museum and the Baptist Church) and at Oak and 13th (near the George Fee home, formerly owned by the late Ernst Lindner, and the F.M. Balson home, formerly owned by the late Paul Weber). After a few weeks as four-way stops to get residents accustomed to the change, the stop signs on Pecan Street and on Oak Street will be removed. The result will be that Pecan and Oak streets will become through streets and 13th Street will no longer be a through street. The Bandera city council at their monthly meeting, Monday, March 3, made these changes at the request of city residents who live on 13th Street. The residents felt that this change would reduce the number of speeders on 13th Street.

Cemetery Plot Accepted

In other business, James Brady of the Bandera Cemetery Assn. reported that a hedge of wax-leafed ligustrum has been planted along the edge of the cemetery as previously requested by the city. The city then accepted the plat of the extension of the cemetery.

Cable TV

Representatives of the Guadalupe Valley Telephone Co. presented their proposals for cable TV to the council. Further discussion of cable TV will be held at a special meeting to be held March 17.

Fire Department

A delegation from the fire department met with the council and after discussion the council voted to assume control and indebtedness of the fire department. The auxiliary to the fire department will be an independent group and function to aid and support the department. Contributions by businesses and individuals will still be needed and volunteer firefighters are encouraged to join the department.

New Rabies Law

Dr. Conrad Nightingale thanked the council for their assistance with the rabies drive last Saturday. He also explained the newly-passed state rabies law. He stressed the need to keep stray animals off the streets and for having a quarantine building. More discussion of this matter will be made at the next meeting.

New Deputy

Glen Roach has been employed as deputy sheriff with principle responsibilities as city night watchman and he started to work February 19.

Pickup Purchased

A used 1976 Chevrolet pickup was purchased from Clint Dowell Chevrolet Co. for $2,978.50. It will be used for maintenance work in the city and will replace the old truck.

Chairs

Twelve new chairs will be purchased for the municipal building. They will provide seating for guests at council meetings.

Fire Department Is Kept Busy

The Bandera Fire Department has been kept very busy lately, especially answering calls for grass and brush fires. Fire danger is especially high at this time of year because of last year's rains which resulted in thick growths of grass and weeds. Cold winter weather has killed the vegetation and left it dry and easy to burn. And now the windy March weather can quickly spread a small fire, creating a large and dangerous situation.

Volunteer firefighters are always needed and everyone is urged to join the fire department for the mutual protection of all homes and businesses. Firefighters meet Wednesdays at 7 p.m. at the fire house on Main Street.

Some of the recent fire calls are —

February 7 — auto fire at Bandera Pass.

February 14 — 2 calls for grass and brush fire near Elm Pass Road.

February 15 — 2 calls for grass fire along S.H. 16 which spread to the high school campus.

February 15 — grass fire between S.H. 16 and the Medina River about half way between Bandera and Medina.

February 28 — grass fire in field at Raymond Baltz's.

February 29 — auto fire, Louis Stein's.

February 29 — grass fire near S.H. 16 across from Mrs. Agnes Kalka's house. Fire spread to an outbuilding.

March 2 — grass fire at Bandera River Ranch subdivision.

March 3 — car fire at Pecan and 13th streets. Car was being fueled with propane.

Two Deputies Added

The Bandera County sheriff's department has added two deputies to its staff, Kathryn and Glen Roach. She will work as a dispatcher and he will patrol.

Mrs. Roach has been employed at Leon Valley, first as a dispatcher and later as a patrolman.

Mr. Roach was employed at Balcones Heights as a dispatcher and most recently as a patrolman.

More Enter School Trustee Race

Patty Adamson, Eddie Jon Ryan, incumbent, Carol Teich, Rob Sandidge, Gordon A. Spencer and David A. Schwarz II have filed to have their names placed on the ballot for trustee of the Bandera Independent School District since last week. Those filing earlier for the race were Frank Harmier and John L. Provance.

Three positions are to be filled and incumbents, in addition to Ryan, are Ruby Tschirhart and R.R. (Rudy) Schott.

Donations To The Fire Department

Donations received for the Bandera Fire Department from February 20 through February 20 were A.B. Alkek, Flying A Ranch - $1,000; H.A. Hutcheson - $50; Diamond T Trading Post - $25; Triple Oaks Store - $25; Quihi Pass Ranch - $100; and Mary Ann Zickler - $25.

Bandera Band Will Have Two-Day Clinic

Lee Boyd Montgomery

Lee Boyd Montgomery, Jr., will be the guest conductor and clinician of the Bandera High School band on Friday and Saturday, March 7 and 8. The two-day clinic will be held at the high school auditorium.

Montgomery has taught twenty years in the public schools and is presently in his tenth year as director of bands and music for the Eanes Independent School District at Westlake High School in Austin. He received his Bachelor of Music degree from Texas Tech University, Master of Arts degree from West Texas State University and has done additional graduate work in conducting at the University of Texas at Austin.

He has served on numerous Texas Music Educators Assn., University Interscholastic League and National Band Assn. committees. He has served as lecturer, clinician and adjudicator in New Mexico, Oklahoma, Kansas and Texas. His professional affiliations include the National Band Assn., second division and first place awards in marching, concert and sightreading.

A salad supper will be served Saturday from 5 to 7 p.m. and a concert will follow at 7:30 p.m.

The public is invited to attend the supper and the concert.

Lawsuit Filed

The State of Texas and the Texas Parks and Wildlife Department filed a suit on February 28 against Bandera County, Anna Mae Jack doing business as Ann Jack Real Estate and Medina Lake Recreation Park, Inc. The suit is for a declaratory judgement and permanent injunction to prohibit charging a fee for use of the boat ramp at what is called the "State Park" at Medina Lake.

Scouts Will Distribute Goodwill Bags

Bandera Boy Scouts, Webelo Scouts, and Cub Scouts will again participate in the annual Good Turn Day to help handicapped persons training for gainful employment in Goodwill Industries.

Goodwill bags will be distributed to the homes in Bandera on Saturday, March 8. They will be collected by Scouts the following Saturday, March 15.

During the intervening week, residents of the households are asked to place discarded, but still usable or repairable, items in the bags. These items include clothing, shoes and small appliances.

These articles, later, will be repaired and refurbished by handicapped workers at Goodwill Industries. This work not only helps train handicapped people for gainful employment in business and industry but also provides a small income for them from sale of the repaired articles.

Bandera Will Host Contest

Bandera High School will be the host school for the Music Region XI UIL playing contest March 14 and 15. Twenty-eight Class AA, A, CC, and C bands will be involved in the contest. Competition will begin each day at 9 a.m., concluding each day about 6 p.m. Each band will be rated by a panel of judges in both concert and sightreading events.

Judges for concert are Al Cortinas, Rio Grande City High School; Gerald Babbitt, Copperas Cove Junior High; and Humberto Gonzales, Robbronville High School. For sightreading, the judges are Joe Wassel, Calhoun High School; Al English, New Braunfels Junior High; and Dan Schrieber, John Jay High School.

Bandera High School band is scheduled to perform their prepared music at 11:30 a.m. on Friday.

The contest is open to the public and will be an opportune time to observe the calibre of bands in Music Region XI.

Notice Of Meeting

The Board of Trustees of the Bandera Independent School District will meet in regular session on Wednesday, March 12, in Bandera High School at 7:30 p.m.

Beware of "Buying" Brucellosis

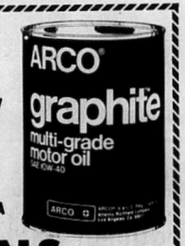
Cattlemen rebuilding their herds should be careful not to "buy" brucellosis or Bang's disease, cautions Werner Lindig, county agent with the Texas Agricultural Extension Service, Texas A&M University System. This contagious reproductive disease is most often spread when newly purchased cattle are added to a breeding herd.

Brucellosis reduces calf crops and milk yields and causes breeding problems.

While the overall infection rate of U.S. cattle is quite low, the economic importance to individual cattlemen and market area restrictions are significant, notes Lindig. The disease is most prevalent in Florida, Louisiana, Texas, Mississippi, Arkansas, Alabama, Oklahoma, Kentucky and Tennessee.

When cattle are sold in higher risk areas, the law requires that they be tested for brucellosis. Reactor cattle must be branded with the letter "B" and sent directly to slaughter. The owner receives the slaughter price and also may qualify for an indemnity payment. However, these compensations can amount to something far less than market value before the herd became infected.

Government control efforts include periodic testing of milk samples from dairy herds and testing of blood samples from certain animals sold or in marketing channels. Reactors are traced to herd or origin, and all animals in these herds are tested. If brucellosis is confirmed, the herd is quarantined and periodically retested until disease-free. For the owner of a herd under prolonged quarantine, marketing restrictions and repeated gathering of cattle for testing can be quite expensive.



Lindig advises buyers to double check health records to be sure the animals they are purchasing have actually been tested. Most importantly, buyers should be aware that ONE NEGATIVE TEST IS NOT ENOUGH TO PROVE AN ANIMAL IS BRUCELLOSIS FREE. It takes three weeks to three months, sometimes longer, for an exposed animal to develop a positive blood test reaction. Longer incubation periods occur when a cow is exposed to infection just before or shortly after breeding.

Lindig suggests a few rules for cattlemen buying replacement animals: buy cattle from low-infection areas; buy from sellers who have a reputation for selling brucellosis-free cattle; buy only animals that were calfhood vaccinated as shown by ear tags, tattoos and health records; buy from herds that haven't added animals within the past 12 months; and isolate newly purchased animals for 45 to 120 days for observation and retest for brucellosis before mixing them with the rest of the breeding herd.

Rev. Thelma Sue Carroll of the Pipe Creek United Pentecostal Church reports that her husband, Rev. Charles Carroll, is gravely ill with cancer and is hospitalized at Northeast Baptist Hospital in San Antonio in room 222. She asks that friends offer prayers for Rev. Carroll.

Lakehills News

Helen Temple — 751-3185

From beautiful Lakehills comes the thought for the week: "Peace of mind lies in a change of mental attitude."

AROUND LAKEHILLS

In Memory Of Roy D. Bennett

Friends and relatives of the late beloved Roy D. Bennett said farewell to him February 27, at Mission Burial Park South. American Legion Post 410 of Lakehills, under the direction of Commander Gene R. Laue, read an impressive ceremony. Roy, who had lived in Lakehills for many years, had a host of friends who loved him and held him in high esteem. He did many things for other people in the community and worked constantly for the betterment of Post 410. He was one of four WWI veterans who lived in Lakehills who received a life membership to American Legion Post 410. Roy will be fondly remembered by all who knew and loved him.

Al and Gwen's Cafe

At Al and Gwen's, everyone will have a chance to discover how good the food is which the affable Al and Gwen Hanson will serve at their restaurant (formerly Bill's Place). They will offer breakfast tacos along with a varied menu, combined with a pleasing atmosphere in their new food venture. Al and Gwen are well known as excellent chefs. This friendly and efficient couple will be the owners and operators of Bill's Place. Where is Bill? After an interview with him I quote his exact words: "Due to advanced age, I am going on an extended vacation. I urge everyone to come by and meet Al and Gwen." — end of quote.

Here Is Your Chance . . .

To show your talent as a stew cook. Penny and Marg of the Red Cove Restaurant will host a "Stew Cook-Off" at their place of business March 22nd. The proceeds will go to the Mico Volunteer Fire Department. The entry fee is $5 and one must cook a minimum of 5 pounds. The deadline for entering is 12 noon March 22. There will be 1st, 2nd and 3rd place trophies. Judging will be at 5 p.m.

Prince Works Again

After a long absence due to an injured foot, Prince, a highly-intelligent and valuable sheep-working dog is back on the job again. His master, Randy C., is jubilant.

A Birthday To Remember

Gwen Akin was a happy lady when she read her birthday greetings in the Bulletin; there was no way Gwen could have conjured up what would follow — before noon a florist delivered 5½ long-stemmed yellow roses (a gift from her husband) to her office at Holmes High School; at lunch time she was lured to the cafeteria, where students of the business department had set up a table with a birthday dinner; Friday evening there was another birthday party at Bill's Place with Mr. and Mrs. Earl Klein. The grand finale came when Bill served his famous chocolate birthday cake. In case you want to know why 5 roses, ask Gwen.

Guests

Mitch and Berdene of Castroville were guests at he Sportsman Inn Saturday evening.

Other Guests

Tom Land, Deputy Grand Master of the Grand Lodge of Texas Masons, and his party were the weekend guests of Joe Mayfield at the Sportsman Inn. Mr.Land was reared in a Masonic home for orphan children and is the 3rd Grand Master to come from a home. He will become the grand master in December.

Miss Judy Fishman, editor of Cosmetic Marketing magazine of New York City, was a special guest of James Terry. More than 300 guests danced to The Lotions of Austin. This band features the sensational reggae (South Seas Caribbean dance). Dinner was served.

American Legion Meets

American Legion Post 410 of Lakehills met in regular monthly session Thursday evening. Commander Gene Laue and Auxiliary president Jerry Mauer announced that plans were finalized for the Legion birthday dance which will be held at the Lakehills Civic Center March 15. The auxiliary also finalized plans for their annual plant and bake sale which will be held March 29, at the Cutaway Beauty Salon Patio. The auxiliary voted to buy an American Legion banner for the meeting room in memory of the late Roy D. Bennett. Memorials made in memory of Roy will be used for this project. Terri Slove was selected as a delegate to Girl's State.

Belle Retires

Belle Mahood retired recently from the communications department of the San Antonio Police Department. Belle returned recently from Germany, where she visited with her husband, Bill, who is on a work assignment there. The friendly Mahoods have a home in Lakehills and will make it their permanent home.

Visitor

Mrs. J.E. Strange of SA is spending two weeks in Lakehills as the guest of her son and daughter-in-law, Mr. and Mrs. Chuck Strange.

Sandy's Birthday

Mr. and Mrs. Albert Hildebrandt spent Tuesday at Wharton's Dock at the home of Mr. and Mrs. Ronnie Richards. They came especially for Mrs. Richards' birthday.

Mr. and Mrs. Hise are both veterans. At the present time Mr. Hise operates the Milton Hise Co. in Tularosa and Mrs. Hise is an R.N. They will retire soon in Lakehills.

It's A Boy

Mr. and Mrs. Gary Harrell of Maypearl, Tex. proudly announce the arrival of their second child. The pretty baby arrived February 27, weighing 7 pounds 8 ounces. Welcoming the baby is his sister, 2-year-old Christina. Mr. and Mrs. Bill Mallory of Pebble Beach No. 1 are the proud great-grandparents.

MLBA Dance

It was sooooooooooo cold outside. Inside, however, a large crowd of all age groups enjoyed dancing to the Stardusters band Saturday evening at the Civic Center. Mr. and Mrs. Pete Moore of Pipe Creek, who were in the Pat O'Hara party, celebrated their 17th wedding anniversary with family and friends. Another highlight of the evening was the presence of a grand lady, Mrs. Jeanne Nair of Phoenix, Ariz. She is 86 years young and the guest of Mr. and Mrs. Paul Kirk of Pipe Creek. "His Honor," Mayor Willie Leibold, was there giving out "sweets" to the sweet.

Would You Like. . .

To write a slogan, make a suggestion, or sketch a picture which would depict Lakehills and be an eye-catcher on a T-shirt and matching cap? The T-shirts and caps would be available in the local business places. See Shirley McCollom at the Lone Star Ice and Food Store for details.

Where Else But Lakehills

Where else but Lakehills would 3 gentlemen leave their Sunday dinner and go to the aid of two would-be dog-house haulers whose car had stalled. That's exactly what David and Ray Mauer and Gene Laue did. Thanks guys. You are A-OK!

Faith Chapel Sets Date

Rev. Jim Colley, pastor of Faith Chapel on Park Road 37, announced today that dedication services would be held for the Chapel on March 22, beginning at 1 p.m. A sing a-long, fellowship and refreshments are the first events on the agenda, with the dedication service following at 3 p.m. Rev. Thanks

A special note of thanks with warm appreciation for your concern, telephone calls, cards, flowers, visits and food during my beloved husband's hospitalization and death. It is nice to know that others care and are concerned when one has to face the loss of a loved one. Thank you for everything. Your kindness was wonderful.

35-1tc Laura Bennett

MLVFD

Two Fires

According to Erle Denton, PR director for the MLVFD, firemen were called to the A.L. Wilcox residence early Sunday morning. The fire was attributed to a bent flue pipe in the ceiling. Damage was estimated at 20 percent of the residence. A second fire occurred in mid-afternoon at the Red Hen Restaurant on Park Road 37. An over-heated deep fryer grease pit started this fire. The MLVFD was able to confine damage area to the kitchen area unit. Salvage was estimated at approximately 75 percent of the building; however, loss will be high due to the replacement of equipment and appliances. The assistance of the Pipe Creek Fire Department in controlling this fire was greatly appreciated. High winds increased the velocity of these fires greatly.

Donations Received

The MLVFD greatfully acknowledges donations from the following: Mr. and Mrs. Weldon Gatlin, Mr. and Mrs. Leonard O'Neill, Mr. and Mrs. Ted Kearns, Mr. and Mrs. Silas Turner, Mr. and Mrs. C.H. Noble, Neader Construction Co., Mr. and Mrs. Otto Henke, Jr., Mr. and Mrs. Henry Hannasch, Tom Johnson, Ruth Johnson, Rotherford Prentice I. Garren, George and Ellen Tipton, Chester Kiefer, J.I. Shafer and L.E. Bolden.

A Reminder

Erle Denton reminds everyone again to be careful when burning trash or brush. Please check your heating systems thoroughly.

To The Voters Of Precinct 3

Below you will find a list of the roads in Precinct 3 with the amount of Federal funds appropriated for repairs after the 1978 flood; appropriation for each, the amount spent on each, and the amount left over or overspent on each. The completion date for use of these funds was December 31, 1979.

As you know, this was Federal disaster funding, or a "Once in a Lifetime" thing. Hopefully we will never have such a flood again, but since we did and money was approved for it, it should have been utilized to the fullest extent. To not have the money to do needed road work is one thing, but to have it and not use it is a crime to all of us and will surely have to be made up by the local taxpayers.

This report was taken from courthouse records. If you would like to check them feel free to do so, as all records are open to the public.

Sabinal Canyon NEWS

Lillie Thompson

Friday, February 29, was a wet, typical spring day, little could we believe weather forecasts stating the coldest spell of the season would hit Friday night. Gusty winds blew in about 10:30 p.m. and by Saturday morning temperatures were in the low 20's with lots of ice. Frigid arctic winds blew all day Saturday with clear skies diminishing late Saturday night and by Sunday morning temperatures dropped to the 10 degree mark. Even the Sabinal River was frozen over in places. At least we have one consolation; if March comes in like a lion, it will go out like a lamb. On the other hand, don't forget all the thunder in February means frost in April. Large flocks of geese have been flying north, but let's say even the geese must be mixed up.

Mr. and Mrs. Jack Hawkins were in San Antonio Thursday for a doctor's appointment.

Joe F. Thompson became seriously ill Friday morning, February 15, and was transported to the Sid Peterson Hospital emergency room by the E.M.S. He was hospitalized for 11 days. He was slightly improved by Monday and allowed to come home February 25, where he is slowly recuperating. What would one do in a crisis like this without our many good friends and neighbors and especially our E.M.S. crew of faithful workers.

The Youth Group from Calvary Baptist Church in Bryan will be here this weekend camping at Boutinghouse Park. They will also attend Calvary Baptist Church Sunday and all will enjoy dinner on the ground.

Two recent weddings of interest to the community were Suzy Ruth Boyce, daughter of Mr. and Mrs. Kverette Boyce, Sr., to Wilmer Brian Brose on Sept. Antonio on January 1 in Houston Bible Church, Houston. Also, the wedding of Kathy Wyatt, daughter of Mr. and Mrs. Gerald F. Wyatt of Bridge City and David Haby, son of Mr. and Mrs. Stuart J. Haby of Vanderpool, who were married Saturday, February 9, at St. Peter's Catholic Church in Groves.

Mr. and Mrs. Gale Hawkins and family of Ft. Worth were Friday and Saturday guests of his parents, Jack and Nita Hawkins.

George and Kay Shelton and little son, Christian, of Austin were last weekend visitors of her parents, Mr. and Mrs. Bill Cornelius.

A revival will be held at Utopia Baptist Church March 23 through 30 with Rev. Merle Stephens doing the preaching.

Leo Stark of Point Comfort, a retired rancher, is spending some time here visiting friends, Tom and Lorene Fielder.

Dennis and Jan Yeager of Wichita Falls were overnight visitors of Steve Thompson in San Antonio, where Dennis attended a business meeting then came on by Vandenpool for a brief visit with his grandfather, Curley Thompson, and Bud and Nancy Thompson.

Charlsie Porter was an overnight patient in Sid Peterson Hospital for tests and X-rays February 22.

Visitors of Lecil and Ruby Howard Sunday were Mr. and Mrs. J.B. Alley, their three daughters and two friends, Kenneth Bostic and Richard Marlin, and Mr. and Mrs. Gary Scallorin and daughter of Uvalde.

Mr. and Mrs. Hoyt Foster were in Lubbock Tuesday through Thursday, where guests of her daughter and family, the A.B. Singletons and Jeri.

The North Wind sailed in with a blast Friday night but this area and our spring-like weather was over. The temperatures dropped to 16 degrees in the Rio Hondo subdivision and Tarpley areas on Saturday and Sunday mornings. In case this is difficult to believe, there was quite a good deal of icebon Williams Creek, by the bridge going to Utopia. Many water pipes were frozen most of the day.

Mr. and Mrs. J.E. Dean spent the weekend with Mr. and Mrs. Donnie Newcomb and daughter, Molly, and Mrs. H.D. Newcomb of San Antonio. The Deans went for medical check-ups and all is well.

Congratulations are in order to a lovely Tarpley lady, Mrs. Edith Riley Jeffers, who will be 81 years young this Thursday, March 6. We will have a full report on her birthday celebration next week.

Season Opener Cancelled

By: Lee Anne Obenhaus

Saturday morning, the 1st of march, the Bandera girls' track team was arriving at the school for their last minute preparations before their first meet of the season which was to be at Mason. The weather was not actually track meet weather, but the team was ready to run. Coach Mazurek phoned to Mason to confirm that the track was still to be held, and it was at this time. The Meet Directors felt that once the sun came out that it would warm-up enough to participate. So the team departed the school at 6 a.m.

Upon arrival the weather was still the same, except the sun had come out, but only to brighten everyone's outlook, not to warm-up. The [illegible] to warm-up in preparation for the meet. Marks were set for jumping, hurdles were gone over, throwers were waiting to begin, and after all this the girls were informed that the meet had been cancelled. The meet directors felt that with such cold weather, and that it was not going to get warmer, but colder, that too many people would be injured. The temperture that morning in Mason was 23 degrees and a chill factor of -7 degrees. The meet was re-scheduled for March 14th. The girls next meet in Saturday March 8th at Llano.

Prom On The Way

By: Sandy Albrecht

Tuesday, February 19 and Wednesday, February 20, the committees for the 1980 Prom met to discuss some of the details for the prom.

They talked about many themes for the prom, but have not selected one of yet.

They have selected a pattern for the programs, and place cards.

Junior Boys—

Fun & Opportunity Awaits You

By Edward Alanis

Now is the time to make plans for your first week of summer. That's right—applications are now being accepted for participation in the 1980 American Legion Boys State. Any Junior boy who is interested in learning more about leadership and his government is a prime candidate.

"Learn by doing" is the theme of the program and that is exactly what the participants do. The State is divided into two political parties and the members then seek election in the various state, district, county, and city offices.

Not only is Boys State an exciting government workshop, it is an opportunity to make friends with the top students from every school in the state and learn the principles of leadership and working with your fellow man. Boys Staters compete in sports ranging from handball to football, put on talent shows, and march in parades. They are also given the chance to participate in the Boys State Band, a fine musical group.

The program is six all-expense paid days on the University of Texas Campus in Austin. In addition, it prepares you for your final year of high school and the life that lies ahead—the life of a responsible and industrious American.

With Boys State on your record, new doors open up to you. Colleges and Armed Force Services recognize you as an outstanding leader and scholarships suddenly become attainable.

If you are interested in this once in a life-time experience, contact your local American Legion Post today! (Lakehills Post Commander—Gene Laue, 751-2707.)

Monrgomery To Be Guest Clinician

By Tamby Laskowski

Director Lee Boyd Mongomery, Jr., of Westlake High School in Austin will be the guest clinician and conductor for the 1980 Bulldog Band Spring Clinic and Concert. This clinic is held each year in order to prepare the band students for the U.I.L. Concert and Sight-reading Contest. The contest will be held at Bandera High School for the Class AA, secondary, and senior High bands in this region. The Spring Clinic and Concert will be held Friday, March 7 to Saturday afternoon March 8.

Following the clinic, a Salad Supper will be served by the Band Boosters and the Concert will start at 7:30. The serving time for the salad supper is 5:00 p.m.

Girl's State Competition Coming Up Soon

By Beth Mukqueeny

Annually, a few individuals are chosen and sponsored by the local American Legion to attend Girl's State.

Learning all about the federal and national government, meeting new people, learning responsibility, and getting accustomed to public speaking are just a few of the educational experiences open to Junior girls in the 79-80 school year.

To be considered for this wonderful experience, one must be a Junior girl in high school, and submit an essay on the theme "Why I would like to attend Girl's State" to your local American Legion post.

While you are at Girl's State, held at Texas Lutheran College in Seguin, you are taken through all aspects of district, county, state, and national government. The grass roots of the government are explained, how to get on a campaign, how to write a speech, and the funniest part, the actual running for office, are the activities held at the camp. Half of the time while you are TLC you are given the chance to campaign and write all your speeches for election; then once you win your office, you are allowed to act upon authority of that office.

The finale of your trip to Girl's State is the touring of the capital of the state of Texas. You are shown through the offices, congressional meeting halls and the capital rotunda.

This trip will never be forgotten, and is rewarding both educationally and inspirationally. Your chance is coming soon to submit an essay to your local American Legion. Don't pass up the chance to enter.

If you have any questions pertaining to the contest or Girl's State in general contact your local American Legion post.

THOUGHTS

"Marriage"

A Bible entry: "Born, a girl."
A knitted shoe, a golden curl.
A wooly lamb, gay colored blocks.
Some wee worn garment in a box.
Some dog-eared books, a pair of skates.
Old photographs of all her mates.
Boarding-school letters full of jokes
And "love to all the dear home-folks."
A glove, a program from a dance,
A rose pressed in an old romance;
A rain of rice along the hall—
Tears on my cheeks and that is all!

Edward Daniel Alanis

By Tamby Laskowski

"The future belongs to those who prepare for it"—this is the philosophy of one of the Senior Class' funniest and yet smartest guys, Edward Daniel Alanis. Edward is the son of Mr. and Mrs. Dan C. Alanis, III.

Water skiing, boating, and working with aquariums are some of Edward's favorite hobbies. His interests in school include band, speech, and journalism. Edward has been a member of the "Swingin' Band from Bulldog Land" since seventh grade. This year he has been nominated as a Band Beau Candidate. Throughout high school he has actively participated in speech and drama. For three straight years he placed in the district competition of the V.F.W.'s Voice of Democracy oratorical contest. Last year Edward placed 2nd at the U.I.L. district speech meet and 8th at the regional meet in the event of informative speaking. Edward served on the student council his freshman and sophomore years, and is currently a member of the National Honor Society. He is also a member of the journalism staff this year. Outside of school Edward is involved in 4-H and church organizations. Last summer he was selected to attend the 1979 American Legion Boys State. Edward received the Scholastic A's Award at the end of his junior year and was included in the 1979 volume of "Who's Who Among American High School Students."

Edward has traveled all over the Midwest and Eastern United States. Florida is his favorite state because of the many attractions.

This summer he plans to participate in the European Tour with the travel club. Later this fall he will attend Texas A&M University. He has already been accepted to study ocean engineering.

A THOUGHT FOR THE WEEK

By John M. Grimes

At one time or another we all must face a moment of truth. It is a normal pattern of life. At times, the unclouded truth is hard to take, especially when it reveals bad luck or disaster. At that moment, we can open the door and courageously face reality—or—we can close the door and try to hide from the despairing truth. When we face reality, we must face the truth that self pity does not and cannot create pride and who among us can deny a desire to be proud?

A moment of truth can be like a fading candle light that leaves us dreary behind a closed door. Or, it can be a beacon of light that shines our path as we open the door to face the future.

When compelled to face a moment of truth, we can gain help from examples of others who showed us how it is possible to triumph over tragedy. In next week's thought, we will mention people by name and show why the world owes them a debt of gratitude for showing us how we too can face our own moment of truth. It will be interesting.

Leaders Attend Conference

Mr. and Mrs. Cotton Fitzgerald, Bandera County Farm Bureau directors, attended the Texas Leadership Conference launching the 1980 program of work in Texas. The conference was held Jan. 21-23 in Austin.

County presidents of the 213 organized county Farm Bureaus and county chairmen for State Affairs, Young Farmers and Ranchers, and Commodities were invited to participate.

General session speakers included Governor Bill Clements; TFB President Carrol Chalaupka; Warren Newberry, Waco, TFB executive director; Joe Halow, Washington, D.C., North American Grain Export Association; and T.B. Pickens, Jr., Amarillo, president of Mesa Petroleum Co.

At the opening session, Chalaupka outlined Farm Bureau's goals for 1980. Newberry explained the purpose of the conference. Halow discussed the effects of the grain embargo. Energy was the topic of Picken's luncheon talk on Tuesday. His emphasis was on the role of the petroleum industry.

Governor Clements outlined the issues to be considered in the special session of the Legislature later this year.

Schools Must Change Back To Semester System

The Bandera Schools will again be using the semester system (dividing the school year into two periods, each called a semester) next year in order to comply with a state directive.

For the past several years Bandera Schools and all other Texas public schools have used the quarter system. The year was divided into four parts and three of these periods were used for school instruction, the fourth being summer vacation. The change to the quarter system was also a state directive.

In order to comply with the new semester regulation, some curriculum and credit changes will be made. All quarter credit units will be totaled and that total will be divided by 3. A remainder of one-third will be recorded as one-half credit. A remainder of two-thirds will be recorded as a full credit. Under the quarter system, 60 quarter units are required for graduation. With the new semester system, 20 credits will be required.

Presently marching band can be substituted for the required physical education, in compliance with the Principles, Procedures for the Accreditation of School Districts handbook. Since building trades is a 3-period block of instruction, students are greatly limited in scheduling other courses. Therefore, in compliance with the PPASD handbook, building trades may be substituted for one credit of physical education.

At this time 2 quarters of American government and 1 quarter of free enterprise are taught. Under the semester system American government will be a full-year course with free enterprise infused into the class.

Presently a student is allowed to receive full credit for a course even though he might have failed one quarter, as long as the average for the year is 60 points or higher. This policy will remain unchanged.

In order to graduate from Bandera High School, a student may earn no more than 2 credits by correspondence, summer school, night school or a combination of these.

Required credits for graduation are language arts - 4 (English I, II and III plus a 4th credit in English IV, speech, journalism or VOE co-op); social studies, American history - 1; world history or world geography - 1; government (including free enterprise) - 1; science - 2; mathematics - 2; physical education - 1½; and health education - ½. To these 13 required credits must be added 7 elective credits for a total of 20 credits.

Rainfall

Bandera recorded .64 inch of rain during February, 1.35 less than the average for the month, according to Millard Schuchart of the Bandera Soil Conservation Service.

The total rainfall for 1980 is 1.71, which is 2.02 less than the average for January and February.

ADMITTED TO THE HOSPITAL

Admitted to Sid Peterson Memorial Hospital this past week have been Del Bingham of Medina, February 27; Mrs. Diana R. Enger of Medina; Mrs. Florence M. Hathaway, Clarence H. Terry of Bandera, February 29; Harmon P. Smith, Eric Welch of Bandera, March 3.

The Pet Problem. Or Is It An Owner Problem? . . .

"OUR CAT NEVER LEAVES OUR YARD. I DON'T THINK THAT SHE NEEDS A RABIES SHOT EVERY YEAR!"

Rabies is a killer. It is present in our wildlife, especially bats, skunks, foxes and raccoons. Pet dogs and cats do not have to leave their yards to be exposed to rabies by a wild animal; the wild animals will meet them more than halfway! If a pet develops rabies, the persons most likely to be exposed by them to this fatal disease are the owner and his family. An annual rabies vaccination is very inexpensive life insurance for both the pet and its owner.

"NEUTER OUR PET? THAT WOULDN'T BE FAIR, ANYWAY, WE HAVE ALWAYS BEEN ABLE TO FIND HOMES FOR MOST OF HER BABIES."

There are an estimated 2,000 dogs and cats born every hour in the United States. In other words, to keep our dog and cat population at its present level, 72,000 pets must die every day. THAT isn't fair! Neutered dogs and cats, both males and females, simply make better pets, enjoy a healthier life and are less likely to stray.

Ownership of a pet is a privilege with many obligations. Pet owners are responsible for the health and well-being of their pets. Just as important, pet owners must show consideration for the safety and comfort of other citizens.

If you are a pet owner, are you a RESPONSIBLE pet owner? If not, WHY?

TV Pilot Filmed

Slim Pickens

"Jake's Way," an hour-long CBS-TV pilot, is being filmed this week at John Steen's River Ranch and the Flying L Ranch. The film's distinguished cast of characters includes Robert Fuller, star of the show; Slim Pickens, co-star; and Andrew Duggan, guest star.

According to the producer, Bryan Hickox, the pilot film features the story of a country sheriff and old-time law enforcement officers.

Robert Fuller is well known for his starring roles in "Laramie," as a scout in "Wagon Train," and two years with the TV series "Emergency."

Slim Pickens started his career as a rodeo cowboy and has gained fame in western roles.

Guest-actor Andrew Duggan has appeared in 75 feature films.

Director Richard Collia has directed seven pilots besides TV and movie series, including "Battle Star Galactica," "McCloud," and others.

In speaking to a reporter from the Bandera Bulletin Friday, Hickox commented on the beautiful Hill Country, especially the Flying L. Ranch and the River Ranch. He also spoke in glowing terms about the hospitality of the Steen's to the movie company during the filming of "Jake's Way."

Don't Leave Keys In Your Car

Two cars have been stolen from Main Street in Bandera during the past two weeks, according to the sheriff's department. In each case, the ignition key was left in the vehicle.

Deputy Mel Lemons reminds everyone to take your keys with you when you leave your car. Don't leave the keys where someone passing by is tempted to take your car and drive away.

Schwarz Seeks To Be Trustee

As a candidate for the school board, I would like to ask for your support in the upcoming election.

I am a businessman, and a graduate of Rice University. I have been involved in several youth organizations in the community, including Little League officer and board member, and various duties and committees in the Junior Livestock Show.

I am an active church member, and have served on such committees as the budget, house and education.

My family includes my wife, Cynthia, and my children, David and Lisa, who are enrolled in the Bandera schools.

My reason for wanting the school board position include my concern as a parent and as a member of this community for the education, development and welfare of our youth.

Lakehills Man Injured

Bandera County EMS transported to Wilford Hall Hospital in San Antonio Terrance G. Nordland of Lakehills. He was injured in a one-car accident on Park Road 37 Friday.

DPS Issues Statement

In 1974, the first year of the national 55 m.p.h. speed limit, we had widespread voluntary compliance with the law which resulted in a 17.5 percent reduction in traffic deaths in Texas. Since that year compliance has decreased and speeds in Texas have increased to the point that it is estimated that the final death count for 1979 in Texas will be 4,233, an all time high.

Research has conclusively demonstrated that driving at 55 m.p.h. effects a substantial reduction (approximately 20 percent) in gasoline consumption when compared to driving at 70 m.p.h.

On February 13, Col. Jim Adams, director of the Texas Department of Public Safety, announced an all out effort through aggressive enforcement action to reduce speeding in Texas. Col. Adams stated that field commanders would have greater flexibility in determining the best techniques to apprehend violators.

Today, Capt. Randol Gilmore, commander of the San Antonio district of the Texas Highway Patrol, stated that an all out aggressive enforcement program has begun on the highways of south Texas. This program will have supervisors who drive unmarked cars doing more enforcement work, troopers working radar out of unmarked cars and these cars will be concealed in any way possible, task force operations at certain times and locations. Capt. Gilmore stated, "We think we have some very good techniques to use against the deliberate and determined law violators who seek to defeat our enforcement efforts by using radar detectors, police scanners and citizen band radios, to avoid detection." Capt. Gilmore also said that all of the methods and techniques which will be used are legal, and that we will use any method or technique that is legal and safe to effect compliance.

Thumper Demonstrated At Class

EMT Lloyd Hickman is pictured demonstrating how the Thumper is used. The thumper is a mechanical cardio-pulmonary resuscitator used to re-establish a person's heart beat. Bandera County's Thumpers were donated by Mr. and Mrs. A.R. Allaks.

The demonstration was given during Emergency Care Attendant (ECA) classes held by the Bandera County Emergency Medical Service (EMS).

Twenty-two persons coming from all sectors of the county have completed the ECA course. Martin Smith, county EMS director, said that because these new ECA's come from various parts of the county, their training is more useful and valuable.

Certified Emergency Medical Technicians, (EMT's) must be re-certified every two years and 11 local EMT's were re-certified by successfully completing this course.

Plans are now being formulated to offer another ECA course, possibly in May. Perhaps, in time, an EMT course could also be offered.

Donations to the Bandera Fire Department are from James W. Evans - $15, Mrs. G.F. Plummer - $25, anonymous - $100, and Conrad Nightingale, D.V.M. - $100.

Spencer Announces Candidacy

I have filed as a candidate in the April 5th election of School Board Trustees for the Bandera Independent School District. My purpose in this advertisement is to acquaint you with my background, experience, and educational philosophy so that you may judge my suitability for a position on your school board.

I was born and raised in New York City, attended Harvard, and joined the U.S. Army Air Corps in 1940. I saw combat in 28 missions in B-17s over Germany. After World War II I continued in service for a total of 27 years during which I taught in several service schools, including the Air War College and the Air Command and Staff School. I also developed and administered Air Force training programs in the fields of nuclear weapons and ballistic missiles.

In 1967 I retired from the U.S. Air Force and began a second career as a teacher in public school systems in Ohio, Oregon and Texas. In 1971 I received an MA degree in mathematics from the University of Oregon. Most recently, I taught Saudi Arabian students at Lackland AFB in a very successful program which prepared young men, whose prior education had been almost totally concerned with their Islamic religion, to enter Air Force technical schools and receive training in modern aircraft and armament systems.

My wife of over thirty years, Pat, and I have three children who, necessarily, attended many different schools in most parts of the United States and Europe. They involved us in a great variety of educational problems but, ultimately, they exposed us to an in-depth look at the relationship between public education and the real world we all live in. Happily, the children are all grown, married, and seem to be pulling their share of the load in our society.

Since we came to live in Pipe Creek, my wife and I have done occasional substitute teaching in Bandera and I have been pleasantly impressed with the students and the schools of the district. I am disturbed, however, with the lack of recreational opportunities for the students in the Bandera area. I believe we, as a community, must recognize and face this problem. I think that the schools could and should be used outside of normal school hours as learning and recreational centers for our students.

From the experiences described above I have developed a philosophy of education which I sum up as follows:

— A relevant and meaningful education lasts a lifetime, and is one of the few things that do.

— Learning is hard work, and it should be because it is the most important task of our youth and should not be acquired too easily lest we forget its importance.

— The school system must serve its citizens not just from 8 a.m. to 4 p.m. when they are 6 to 18 years of age but at any time and at any age when a learning, leisure, or, recreational need exists.

When I am elected to serve on your school board I will work toward these goals:

— Provide the best possible education for your children and the community with your tax dollars.

— Assure that the learning experiences in your schools reflect the real world of 1980.

— Make your school system a leader in providing for the learning and recreational needs of Bandera County.

I ask for your support in my campaign and your vote on election day.

Harmier Wants Election As Trustee

I would like to introduce myself as a candidate for school board trustee. I am Frank Harmier. I am 38 and have lived in Pipe Creek for four years with my wife Azelia "Beth" and our son Jarrod, age 4. We have been married 9 years.

In 1965 I received a Bachelor's degree from the University of Puget Sound in Tacoma, Washington with a major in Business Administration and a major in Speech and Drama. I was honorably discharged from the U.S. Army in 1968 and have been a member of Royal A. Gove Lodge F&AM in Tacoma for 12 years. At the University of Texas San Antonio I was certified to teach in three areas: Business, English and Speech. During the coming summer school at UTSA I will complete a Master's Degree in Education concentrating on curriculum.

Presently I teach 9th grade English, Speech and Drama classes at Hondo. As a member of the Hondo Classroom Teachers Association, and having served on textbook and accreditation committees I worked for solutions to the problems of rising inflation, declining test scores and improving school curriculum.

If elected, I will consider issues carefully and serve the people to ensure a quality education for all students. I believe in a basics approach to education in which self-disciplined students are well grounded in reading, writing and arithmetic.

I respectfully ask for your support and vote in the coming election.

Provance Is Trustee Candidate

John Provance announced this week his intentions to run for a place on the board of trustees of the Bandera Independent School District, subject to the trustee election April 5, and authorized the Bandera Bulletin to place his announcement in the paper.

Provance retired from the U.S. Air Force in 1965 and has been a resident of Bandera County and Kerrville since. He is presently living in Lakehills.

He respectfully asks for your support and vote in the April 5 school board election.

Smith Seeks To Continue As Mayor

I, Wilvie Smith, have filed for candidacy as mayor of the city of Bandera.

I have lived in Bandera for 23 years, operating my business, the Western Auto Store on Cedar Street.

I am seeking another term because there are some very important issues coming up:

— The city will take over the Water Board.

— The municipal building grounds are to be completed.

— A contract is now being negotiated to bring cable TV to Bandera and the surrounding area.

— We have a Federal grant search for aid, hopefully 100 percent, for new sanitary landfill facilities and for street improvements with curb and gutters.

If elected I will do the best I can to make Bandera a cleaner, safer place to live.

Joe Grady Tuck Seeks Re-Election As District Attorney

Joe Grady Tuck has authorized the Bandera Bulletin to announce he is seeking re-election as District Attorney of the 216th Judicial District of Texas. The sprawling 216th District covers Bandera, Kerr, Kendall and Gillespie Counties.

In making his announcement the incumbent District Attorney said "I am running on my record of achievement in the 216th District. I believe that my vigorous prosecution of felony cases has contributed to the quality of life we enjoy in the Hill Country." Now seeking his third term as chief prosecutor, Tuck said, "I will continue to serve the people of the 216th District with fairness and impartiality."

Now age 33, Joe Grady Tuck was first elected in 1972 to become the youngest elected District Attorney in the United States. A third generation Texan, he is a University of Texas graduate, holding Bachelor of Arts and Doctor of Jurisprudence degrees.

Tuck has a broad background in both government and private practice. He has served as attorney examiner of a 12 state region in the Washington, D.C. Office of Interstate Land Sales Registration. He has practiced in the Houston Law offices of Congressman Bill Archer, and prior to election as District Attorney was engaged in the private practice of law in Kerrville. Tuck has also served as an instructor in the law enforcement department of Schreiner College and has served as Republican Precinct and County

Two Named All District

by Georging Macon

The 1979-'80 Basketball season ended with Joe Romo, and Johnny Cardenas gaining the title of All District Team members. This is Joe Romo's third year to receive this award.

This year our district had many outstanding players and it is a honor to be chosen as one of the best. Coach Kirkland remarked that "Both of the boys deserved and earned it."

At the end of each season the district's coaches meet and nominate five persons for both a first and a second team. Joe Romo was named to the first team, and Johnny Cardenas was named to the second team.

Medina High School Students Chosen to Attend Student Congress

Two Medina High School students, Mark Jones and Janice Standard, were chosen by the Medina Rotary Club to attend the International Student Congress at Eagle Pass-Piedras Negras on March 20-23.

Mark and Janice will write themes on "Youth in the 80's." The themes will be judged and trophies awarded for 1st, 2nd and 3rd places.

The seminar will be housed at the Fort Duncan Country Club, and will consist of meetings with other students who are sponsored by Rotary Clubs from their home towns and from the Republic of Mexico. The American students will be housed in Mexico and the Mexican students will live in Eagle Pass.

Mischelle Raines, Connie Gray and Teddi Talley, placed fourth. The 800 meter relay placed fifth. That relay consisted of Sara Talley, Robin Seale, Dicy Glenn, and Mischelle Raines.

The Medina High School band, under the direction of Herbert Bilhartz, played for the residents of Purple Hills Nursing Home on Thursday morning, March 13. Mrs. Wedgworth, Purple Hills social and entertainment director, made the arrangements for the appearance of the band.

The program included selections which the band will perform at next week's U.I.L. Concert concert in Fredericksburg. Also on the program are old-time favorites such as "Grandfather's Clock" and "Buffalo Gals."

The serving table was covered with a white cloth on which were yellow flowers and two cakes. A white birthday cake decorated in green and white. The families brought all sorts of food and gifts. They presented their mother a corsage of yellow carnations.

Mrs. Jeffers' children and their families came, from Sterling City, Midland, Water Valley, Center Point, Lampasas and Castroville.

This is the first birthday reunion for Mrs. Jeffers with all her family present since 1973. Many pictures were made of everyone after dinner. Several photos were of four generations.

Everyone extends their very best wishes for many more wonderful birthdays to a lovely lady, neighbor and friend.

Mrs. W.W. Riley of Rio Hondo subdivision brought her sister, Mrs. Mildred Wolfman, home last Friday from Medina Memorial Hospital in Hondo, where she has been ill for more than a month. We are glad to report that Mrs. Wolfmann is improving now and very best wishes are extended for her recovery.

Little Miss Paige Ralph, 19-month-old daughter of Mr. and Mrs. Bill Ralph of Tarpley, will be in a baby contest preliminary judging finals on Sunday afternoon, March 16, at McArthur High School in San Antonio. The Elks Lodge sponsors this contest. Good luck, Paige.

Mr. and Mrs. Earl Hood of Rio Hondo subdivision visited their daughter and son-in-law, Mr. and Mrs. Ray Cheatham, Thursday and Friday at Kingsland.

We regret to report Mrs. Flora Ivy, 92, suffered a stroke at her home Friday night and is partially paralized on the right side.

Bob Patton of Camp Wood, a former Utopian, underwent surgery in Uvalde Memorial Hospital and is being moved for further treatments.

Ardell and Peg Nelson of Galveston are spending two weeks at their Vanderpool ranch. Peg's father, Hener Agnew of Greenport, N.Y., accompanied them for a visit to the hill country.

Clara B. Wallace moved her letter-back to First Baptist Church in Utopia from Comstock. She lived at Amistad Dam, Del Rio, for several years but has moved back to Utopia.

Jack Blalock of Boreman, Mont., is visiting his mother, Mrs. J.T. Blalock, and attended Baptist Church services Sunday. Other church visitors were Joe Duke and friends of Houston.

Joe and Jill Gann and two children of Midland spent the weekend visiting his grandmother, Mrs. Clara Custer.

Last weekend Mrs. James Arnce of Nederland and her two daughters and baby of Houston were visitors of her parents, Rev. and Mrs. George Polvado.

Mrs. Jo Ellen Smith and baby daughter, Jennie, of Charlotte were weekend visitors of her parents, Mr. and Mrs. Richard Wilkins.

Jay and Sis Taylor of Pleasanton were visitors of her aunt, Mrs. Clara Custer, last week and are making plans to build a cottage on their Vanderpool property.

Johnnie Thompson hasn't been feeling up to par the past week and is undergoing a new series of treatments.

John Pyjar, who recently bought acreage from Dick Swantner, returned to his home in Michigan to construct a new home for a friend and then return in the early spring to start construction on his home.

Mr. and Mrs. Nick Schryver received word of the arrival of a new grandson, weighing 5 pounds, born to Chuck and Elaine Schryver of Houston.

Irene' Fincke Baffstar of Samuels, Ida., was a visitor of relatives in Utopia and Vanderpool Wednesday through Friday. She has been in Texas for a year visiting her family members in Bogrne and San Antonio and her husband's family in Yancey, Moore and San Antonio.

Douglas Schryver of New Mexico was a visitor of his parents, Mr. and Mrs. Nick Schryver, last week.

PIPE CREEK COMMUNITY CENTER NEWS

Do you like to play games, cards, dominoes, checkers, etc? Then join us on Saturday, March 15, at 7:30 p.m. for a St. Patrick's Day game night. There will be goodies to eat, coffee and punch to drink. Bring the kids and make this a fun family get-together. If you have any special games you play at home, bring them along and share with those who may want to learn a new game.

Jim Hannah, Ken Edwards and Jay Edwards have really been busy sprucing up the old building. They have the meeting room just about all painted and it sure looks nice. The color has been changed from that institutional green to a very pleasing yellow with white trim. The arts and crafts room will be painted all white. Painting is not all these three have been doing, there was a lot of repair work to be done before they could even begin to paint. As we have said before, without these three hard workers things would not get done so fast. All their hard work is greatly appreciated.

Scholarship Contest Rules Changed

The Bandera County Business & Professional Women will again award scholarships to graduating seniors. However, the method of selecting such a person to receive this award has been changed from previous years in order to hear more from the applicant.

Forms will be given to counselors in the high school and will in turn be given to anyone who is desirous for such a scholarship. Upon completion, they will be numbered, and at a meeting of the club will be voted upon by the membership. The girl receiving the scholarships will not know who are winners until graduation. Only the person reading the letters will be aware of the name and will not vote.

These forms will be in the hands of the school by the end of March and a deadline for their return will be made at the time of distribution.

Come on girls, get those forms and let us know about your aims and what your activities have been in school. We are giving you the opportunity of expressing yourselves!

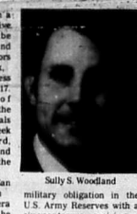
A THOUGHT FOR THE WEEK



By John M. Grimes

George Washington, even with his muscular power, was in ill health during his whole life. Beethoven was deaf, yet he wrote music. Helen Keller, one of the world's greatest personalities, was deaf, mute and blind. John Milton continued to write poetry after his eyesight failed him. Homer was also blind. Robert E. Lee, defeated in war, became a great educator. Dostoyovsky, the Russian novelist, was an epileptic. Hideo Nogachi, brilliant Japanese bacteriologist who paved the way for syphilis cure, had schooled in pitiable poverty. Worse yet, at age three, his left hand and arm were badly crippled in an accident. F.D.R., a crippled polio victim, was elected President four times. P.T. Barnum, of circus fame had to start all over again at age 60; gained greater fame and fortune than in earlier years. J.C. Penney had horrible financial reverses in the depression but he continued, built a department store empire to expanded greatness.

Such people from all over the world, show us how to face reality. Stevenson spotlight such examples in these words: "You must sometime fight it out or perish; and if that be so, then why not now, and where you stand?"

Woodland Joins First State Bank

Sully S. Woodland

Sully S. Woodland, with a brand new title as Executive Vice President, will be greeting customers and greeting visitors when doors of the First State Bank, Bandera, open for business Monday morning, March 17.

Announcement of Woodland's election to the bank's directory of officials was made jointly this week by John Langford, President, and Raymond Barker, Chairman of the Board.

Mr. Woodland, born in San Antonio and reared in Kerrville, comes to Bandera from El Campo, where he compiled an enviable five-year record of community and civic service while authoring outstanding professional leadership as Vice President and advisory director of the Commercial State Bank. His tenure with the El Campo Bank was primarily engaged in commercial and agricultural lending together with installment accounts. It was within these areas Woodland handled loan volume of $12-million of a total loan portfolio approximating $30-million.

He is the son of Mr. and Mrs. Sully S. Woodland of Kerrville, graduating from Tivy High School in 1966, where he was an honor student as well as a campus leader and outstanding athlete. He captained both the baseball and football teams while at Tivy where he quarterbacked the Antlers.

Woodland attended Rice University at Houston in 1966, playing with the Owl football team two years and maintaining his scholarship achievements with perennial listing on the President's Honor Roll. He was a member of the school's elite Rally Club and graduated from Rice University in 1970 with a Bachelor of Commerce Degree. His wife, the former Cynthia Jean Coyne of Devine, also graduated from Rice in 1970 cum laude with Bachelor of Arts in Spanish.

That same year he launched his professional career with the Cullen Center Bank & Trust in Houston. One year was spent in the bank's training program, one year as installment loan officer, and three years in major commercial credit experience, during which period he had attained the post of assistant vice president prior to resigning in mid-1975 to accept the El Campo bank's vice presidency.

Woodland is a 1976 graduate of Southwestern Graduate School of Banking and has completed various American Institute of Banking courses.

The 32-year-old bank executive fulfilled his military obligation in the U.S. Army Reserves with a six-year tenure, receiving an honorable discharge in 1976.

A member of the First United Methodist Church, Woodland is past Chairman of the Administrative Board, and active in Sunday School and other religious-oriented areas. A host of civic and community credits while in El Campo include: Director of El Campo Chamber of Commerce and Agriculture, Past Director of West Wharton County United Fund, Member of Lions Club, Member of Ricebird Booster Club, and has served as both coach and administrative officer in El Campo Little League.

His hobbies run the scale from hunting, particularly quail and dove, to fishing, jogging, golf, tennis, and ever the avid sports fan.

Excited anticipation at coming "back home" to the Hill Country and becoming a part of Bandera's civic, social and business community is shared by Woodland's wife, Cindy, and their two sons, Cody (5), and Kyle (3). "We look forward to coming back to the Hill Country," Woodland said, "and to the pleasures of meeting and working with all the people in the Bandera area. It is our desire and purpose to perpetuate and promote the friendly atmosphere to everyone when they visit the First State Bank. It is our pledge to be a participating part in the various activities and interests of the community and we look forward to contributing to the growth of Bandera and the surrounding area as well as to the well being and success of its people."

Voicing mutual pleasure with Woodland's acceptance of the First State Bank's invitation to become its Executive Vice President, President John Langford and Board Chairman Raymond Barker stated: "We are confident Mr.

Reminder

Jerry Parsons, noted vegetable specialist will be in Bandera on Wednesday, March 19, to present a program on gardening. All interested people are invited. The program will begin at 7 p.m. at the Bandera Electric Co-op building. Parsons will cover basic gardening information and answer questions from the audience.

Peggy Edwards
County Extension Agent

Woodland will provide a new dimension in the banking services and programs so necessary in today's society, especially in the ever-changing business community. We are comfortable in the knowledge that Mr. Woodland's background of experience, his progressive enthusiasm and desire to provide the vehicle for individual and community progress will contribute solidly towards Bandera's and the area's orderly growth."

Thank You

The co-ordinator and members of Bandera County's Emergency Medical Service would like to publicly express our sincere appreciation to Sheriff Bill James and the personnel of his office for their cooperation and assistance.

For all of this organization's emergency calls, the sheriff's office is the dispatch center which alerts the emergency medical technicians by radio, paging over the law enforcement radio system. This alert puts the ambulance and nearby medical personnel enroute to the scene of the emergency.

In almost all situations the sheriff, or one of his personnel, is also dispatched to assist at the scene and to ensure that there is maximum delay in locating the site or residence with which the ambulance personnel may not be familiar. In several past emergency calls, Sheriff James or one of his patrolling deputies has picked up nearby EMT's and transported them to the emergency, arriving several minutes before the ambulance, thereby helping to ensure that the necessary medical help was on the scene in time to save a life.

Cooperation and assistance from the sheriff's department has been given without restriction, making the almost impossible job of giving emergency medical coverage to Bandera County not only possible but one of the most efficient rural systems in our region.

Farm Bureau Sends Check

The Bandera Volunteer Fire Department received a check for $75 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the department's work on the property of Lolis Stein.

The money will be used for their loss prevention program.

The Texas Farm Bureau Insurance Companies pay fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

The insurance company believes fire departments have contributed to reduce the amount of loss involved by fire and more important, to prevent fires. It is their hope this money will help the Bandera Volunteer Fire Department in their program.

Mrs. Mills, daughter of Mr. and Mrs. A.E. Hammit of Bandera, died March 8, in Loverne. She was born November 26, 1931, in Hebbronville, and was a member of the Church of Christ.

Gifted & Talented Program Approved For Bandera School

Meeting in regular session on March 12 the Bandera School Board reviewed a plan for a Gifted and Talented Program for the 1980-1981 school year. The plan was presented by teachers, Mrs. Mary Evans and Miss Donna Reinuth. After the presentation, the Board approved the plan as presented with a commitment of local effort of 50 percent funding.

In other action the trustees:

— Approved the minutes of the regular meeting of February 13 and the special meeting of February 29.

— Approved payment of the March bills in the following amounts: State Compensatory 1979-1980 - $111.23; Title IV, Part B - $740.00; Consolidated Application - $120.00; Interest and Sinking - $63,180.00; Merrick Construction - $16,867.80; Operating - $29,449.07; TOTAL - $110,468.10.

The floor was then opened for the textbook protest hearing, but there were no protests.

The following candidates for school trustee were introduced: Patty Callahan Adamson, Frank R. Hartmier, John L. Provance, Eddie Jon Ryan, Rob Sandidge; Rudy Schott, David A. Schwarz II, Gordon Spencer and Carol Teich.

The floor was then opened for the hearing of other delegations, but none asked to be heard.

In other action, the trustees:

— Approved the recommendations of the local textbook committee for the length of their state adoption.

— Approved the proposed 1980-1981 school calendar.

— Authorized the Superintendent to advertise for bids for a metal building facility for the transportation department.

Superintendent Caloss presented the following items for information to the board:

Texas Education Agency 1978-1979 Standard Accident Report

— School lunch competitive food regulations

— Activities cutback: How much is too much? By Bailey Marshall

— Calendar of events

— Enrollment report

— Tax receipts report

The board authorized Superintendent Caloss and Tax Assessor-Collector Charles Purdy to contact the local County-Wide District Appraisal Board concerning future tax assessment in the Bandera Independent School District.

The Board then went into executive session, and upon returning, the trustees took the following actions:

— Approved the personnel and compensation recommendations of the Superintendent for the 1980-1981 school year.

— Employed Erma Sides who was recently released from the CETA program; added Judi Johnson to the substitute teacher list; and accepted the resignation of Jane Dry, effective May 31.

Cable TV Discussed

Ralph Hillard and Robert Awe of Bandera Cablevision, Inc. met with the Bandera City Council at a special open meeting, previously announced, to review and discuss a proposed ordinance for cable TV which had been drawn up by Sam Darden, attorney for the city. Kenneth Lloyd of Kerrville was also present, representing his cable TV business.

Final agreement and approval has not yet been reached.

Polling Place Changes

The city election for mayor and aldermen and the election for directors of the Bandera County Water Control and Improvement District, No. 1, will be held on Saturday, April 5, in a new location. These elections will be held jointly at the new municipal building on Main Street, across from the county courthouse.

In previous years these elections were held in the commissioners' court room of the courthouse.

The change has been made in the hope that this location is more convenient for the voter.

Absentee voting, now in progress for both elections, is being conducted at the municipal building, also.

Commissioner Of Education Rules In Favor Of Bandera ISD

The Texas Commissioner of Education, Alton O. Bowen, ordered that the Bandera Independent School District's motion to dismiss the appeal of Joy Vawter and Lonette Wilton, Bandera High School homemaking teachers, be granted. The order was issued March 4.

Miss Vawter and Mrs. Wilton sought to appeal the action of Bandera I.S.D., limiting materials that could be used in teaching sex education.

The motion to dismiss was granted on the grounds that the State Commissioner of Education lacks jurisdiction to hear the appeal. The ruling states: "The Respondent, Bandera I.S.D., through its Board of Trustees, enjoys broad discretionary, administrative, and managerial powers pursuant to the grant of 523.26, Tex. Educ. Code Ann. The statute bestows the Board of Trustees with 'the exclusive power to manage and govern the public free schools of the district.'

"It is difficult to imagine an area over which the Respondent's (Bandera I.S.D.'s) Board of Trustees may more appropriately exercise its broad managerial powers than that of determining which teaching resources and techniques are to be approved for a given source of study. As the Respondent (Bandera I.S.D.) undoubtedly possesses the authority to determine to cease the teaching in its schools of sex education altogether, how can it be argued that Respondent (Bandera I.S.D.) lacks the authority to determine how and by what means and techniques the subject will be taught? In the formulation of such a determination the Respondent's (Bandera I.S.D.'s) Board of Trustees, as elected officials, are responsible to the members of their community, not to the Petitioners (Vawter and Wilton) or to the State Commissioner of Education.

The Bandera I.S.D. Board of Trustees enacted a resolution specifically identifying what means and were approved for use in teaching sex education on Feb. 8, 1978. Miss Vawter and Mrs. Wilton filed a grievance with the Bandera superintendent on March 19, 1979, more than a year later. Their grievance was rejected on May 16, 1979. On June 11, 1979, Miss Vawter and Mrs. Wilton requested a hearing before the Bandera Board of Trustees and that hearing was held on July 26, 1979, when, again, the grievance was rejected. The notice of appeal to the State Commissioner of Education was filed by the two teachers on Aug. 3, 1979.

The commissioner said, "I conclude that as the Petitioners (Vawter and Wilton) have not complied with the mandatory time limitations set forth in Texas Education Agency Rule 23.11.010, Procedures on Hearings and Appeals, I am without jurisdiction to hear this appeal. I further conclude that the Petitioners (Vawter and Wilton) are not parties properly aggrieved within the terms of 511.13, Tex. Educ. Code Ann. I also conclude that the determination in limitation of materials and techniques to be used in the teaching of sex education is within those broad discretionary powers granted to Respondent's (Bandera I.S.D.'s) Board of Trustees by 523.26, Tex. Educ. Code Ann.; that Respondent's (Bandera I.S.D.'s) actions are not arbitrary, capricious, or in violation of law, and that the State Commissioner of Education should not substitute his judgment in this matter for that of the elected officials of the school district."

Anyone who would like to read all of the document is invited to come by the office of the superintendent, located in the high school building, according to Ronald Caloss, superintendent. Those who would like to have a copy may get one at a minimum charge of 10c per sheet, to cover the cost of copying.

George Fee Died Tuesday

As we go to press, funeral services are pending at Grimes-Plummer Funeral Home for George Fee. Mr. Fee died Tuesday, March 18, in Sid Peterson Memorial Hospital in Kerrville.

Schott Seeks Re-Election

I, R.R. (Rudy) Schott am announcing this week that I am seeking re-election to the Bandera school board of trustees.

My wife, Elsie, and I own and operate a ranch South East of Bandera on Park Rd. 37. We have three children, all graduates of Bandera High School. Each have a college degree. R.C. (Sonny) Schott from the University of Texas at El Paso and is employed at White Sands, New Mexico. Randy from Southwest Texas State University, San Marcos. he is a self employed rancher and farmer.

Linda graduated from Baylor University at Waco and is presently living at Pala Alto, Calif. where she is doing graduate work at Stanford University.

I have served on the school board for the past six years and during this time the new high school was finished with the exception of four hundred stadium seats.

We are now in the process of constructing the Merrick educational building on the Jr. high campus.

I have always had the best interest of the students at heart & continue to do so.

I'm deeply concerned about our high inflation rate which in turn will cause a higher cost in school operation.

We should try to keep our valuation and tax rate at the lowest cost possible and still maintain a good school. We should write to our Governor, Senators and Congressman asking them to vote for a sales tax to finance our schools.

Thanking you for your support

I am Sincerely
R.R. (Rudy) Schott

USDA Asks For Your Help

March 28 will be the end of a 60-day period during which the public has been asked to tell the U.S. Department of Agriculture (USDA) the direction they think future conservation programs should take.

The department has developed seven alternative strategies for future conservation programs. The public is requested to give their opinions on which of these strategies they prefer.

The strategies include a proposal for making soil conservation mandatory through national and state laws; a suggestion that farmers be required to carry out soil conserving measures before receiving crop insurance, price support payments or other help from USDA's farm programs; and a proposal for offering landowners stronger incentives to practice soil conservation through tax reductions, cash bonuses, low interest loans, and other methods.

More information about these proposals is available in the local USDA Agricultural Stabilization and Conservation Service and Soil Conservation Service offices.

Interested citizens are urged to review the proposed alternatives and make written comment. The comments can be mailed to the RCA Response Analysis Center, P.O. Box 888, Athens, Ga. 30603. All signed comments will be considered in the final formulation of programs.

New LCRA Financing Policy Approved By Wholesale Customers

The Association of Wholesale Customers, representing 26 cities and 10 electric cooperatives, served by the Lower Colorado River Authority, including Bandera Electric Cooperative, Inc., today congratulated LCRA on a new approach to methods of financing that will save consumers millions of dollars.

Specifically, LCRA and the association agreed to negotiate future rate case issues in advance. LCRA will finance major system additions through revenue bonds, and rates will be proposed on the basis of 1.5 times LCRA's debt service obligations.

The new policy means that LCRA will not propose a $25 million increase this month, as previously planned. Instead, it will propose a $5 million increase next fall. Future increases will also be postponed and scaled down. Rate case expenses will also be reduced.

The new policy was announced to the association by Tom Souther, director of finance for LCRA, at a special meeting of the association in Austin. The association voted unanimously to congratulate LCRA on its new policy and complimented LCRA for working with the association to reach these understandings.

LCRA's new policy climaxes eight years of efforts by the association and its members, especially through rate cases at the Public Utility Commission of Texas. Charles S. Seale, general manager, Bandera Electric Cooperative, Inc., a member of the executive committee of the association, states that this will result in savings in excess of $800,000 to the member-consumers of the cooperative.

22 Donate Blood

Thanks to the students of Bandera High School, who contributed 15 donors, the visit of the Red Cross Bloodmobile in Bandera on March 4 drew a total of 22 donors. By comparison, Comfort, a community of similar size, contributed 44 donors the following day!

Do the residents of Bandera County expect that blood will never again be needed in the County?

According to Tom H Montgomery, area chairman of American Red Cross blood services, it will be impossible to continue to schedule the Bloodmobile in Bandera County unless a much better response is assured. The costs involved simply cannot be justified by such a small number of donors.

Montgomery has asked that some Bandera County organization, a church or civic group, for example, assume the task of sponsoring the Bloodmobile and lining up prospective donors for a visit in 1981. Any interested group may write to Montgomery at 213 Spring Mill Drive, Kerrville, or telephone him at 512-896-8190.

If a sponsor can be found, the Bloodmobile will be scheduled into Bandera one more time. Otherwise, Bandera must be dropped.

As a resident of a county which gives blood to the American Red Cross Blood Services, you are assured of blood from Red Cross when you are in need of it.

ROSE GARDEN CLUB MEETS

Mrs. Joan Lawler and Mrs. Dona Anderson, owners of Stay-N-Stuff of Kerrville, presented a program, "Using Baskets With Plants For Home Decorating," to the Rose Garden Club of Medina on Wednesday, March 12. They had a display of a great variety of baskets, most of them hand-woven, which contained a variety of plants.

Some of the baskets were used as large ferns. Some baskets, to be used as a corner unit, had a fan tucked in back of the basket to add a decorative touch. Tiered baskets containing small plants were an attractive feature of the display. It was suggested that these tiered baskets could be used as organizers for make-up, etc. Various sizes and shapes of baskets contained plants which could be used in many areas of the home.

They had small bags filled with fragrant rose petals and spices. These potpourri bags would be a good sale item at a bazaar or mart. Small baskets filled with fragrant flower petals could be used instead of air fresheners bought in supermarkets. Some of the baskets used as stools served a dual purpose, either as a stand to hold a plant or up-ended to hold a plant inside.

The well-planned program gave members many ideas from the displays and discussions.

During the business session Mrs. J.J. Adams gave this garden tip. Her tomato bushes were healthy and produced no tomatoes. She cut off some of the plants and buried them in deep soil. They grew and produced lots of tomatoes. Incredible but true.

Mrs. E.M. Anderson reported that she used a diluted solution of "Repel" as a spray and the deer and rabbits did not damage the plants at her home.

Mrs. A.E. McClendon's report from the Lone Star Gardener suggested pruning plants at this time. Control size and shape of plants by removing unwanted branches while they are small.

The Country Market has been postponed until Friday, April 11. Members were urged to bring their plants, arts and crafts and other articles for sale on Thursday. Food items should be brought early on Friday. Label plants and bring a saucer to place under the pot plants.

The club won a first place award on club history and also an award on world gardening at the convention held in Uvalde March 5-6.

The spring meeting of the Texas Garden Club will be held in San Antonio on April 8-10. On April 2, there will be a panel discussion on horticulture at the regular meeting of the San Antonio Garden Center, Inc.

Club members will meet at the Garden Center on Wednesday, March 26, at 1 p.m. to carpool to Kerrville for the meeting of the Hill Country Garden Council at the Butt-Holdsworth Memorial Library.

The club will not sponsor the highway cleanup by the Medina School senior class.

At the close of the meeting the hostesses, Mesdames Henry Heinen, A.J. Flowers, Jeff Keese and C.O. Bauerlein, served refreshments from a "St. Patrick's" table. Reported

Hicks Spells Defensive Relief

by Frank LaGrotta
Sportswriter

Defense on the Notre Dame basketball court has become practically synonomous with name Bill Hanzlik, and when the men are in the arena that just might be the case. But when Sharon Petro's women cagers take the floor, they look to senior forward Kelly Hicks to provide the necessary stopping power.

And she rarely lets them down.

"Kelly is a very intense, very dedicated athlete," comments Petro. "She comes to practice every day with a positive attitude and a real desire to become the best player she can be. When we are going up against a team with a top scorer, more often than not, Kelly draws the assignment to stop her."

Sometimes that can mean a lot of pressure for the blonde-haired Texan who gets back on defense faster than a southerner can say "Y'all." But Hicks has been surrounded by athletics all her life and she accepts the added responsibility as being part of the game.

"I come from a very sports-oriented family," she reveals. "Both my brother and sister coach high school basketball and I've been playing since I was in high school."

Hicks, who transferred after her sophomore year from St. Edwards in Austin, Tex. might never have come here at all if it weren't for the influence of her father.

"He's a loyal alumnus," smiles Hicks, "and he lives and dies for Notre Dame. Everything with him is Notre Dame, Notre Dame, Notre Dame, so you might say I grew up surrounded by this place."

— The Observer

Kelly is the daughter of Mr. and Mrs. Don Hicks of Bandera.

SCS Makes Study

USDA's Soil Conservation Service (SCS) is currently making a study of alternative ways in which a National Plant Materials Centers Program can be conducted that responds to resource conservation needs. SCS is asking the public for their views on alternatives under consideration and for other proposals.

Millard Schuchart, district conservationist at Bandera, says SCS, in cooperation with other Federal and State agencies and through other arrangements, presently operates and maintains 22 plant materials centers (PMC's) in the United States. Each center develops new plants for conservation purposes in the geographic area it serves that are released jointly with the State's agricultural experiment station and other State and Federal agencies to commercial growers for production.

Important plants to this area that have been released from PMC's in the past are: Alamo switchgrass; selection 09 of kleingrass, Knight sideoats grama, Aztec maximillian sunflower, and selection 75 of blackwell. The plant materials center serving Texas and Oklahoma is located at Knox City, Texas.

The alternatives being studied for conducting a National Plant Materials Centers Program range from continuation of the present program, to transferring complete operations and management of the centers over to nonfederal entities.

Interested persons wishing to comment about the direction they think the future PMC program should take should write letters by April 1 to George C. Marks, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas 76501.

Bandera's First Tennis Scrimmage

By Stacey Dyer

Bandera's Tennis Team hosted Randolph's Tennis Team in a Scrimmage, March 4. Unfortunately, Bandera lost by an overall score of 8-0.

The poor score could be attributed to the fact that Bandera's team had only practiced four days prior to the scrimmage. Randolph, on the other hand, had already contested five other schools before coming to Bandera.

Bandera's team consisted of Tanya Paris, Veronica Leyva, Maggie Gonzales, Mary Lou Canfield, Ruby Haver, Pam Kalka, Leanne Neuman, Beverly Mc Means, John Fest, Doug Graves, Greg Dockery, Eric Hornbeek, David Marrs, and Joe Connors will contest Cole's Team at Cole, March 11.

Golfers Tee Off

by Darcy Word

Since 1977, Bandera High has not had a golf team. This year interest for the sport has returned and some BHS students will attempt to do their best on the golf course.

There are 13 members and they are: Edward Alanis, Charlie Robinson, Lionel Lopez, Darrell Sandidge, Kirk McMullan, John Clark, Gina Macon, Sharon Wyrick, Jolene Morrow, April Lopez, Darcy Word, Carrie Oehler, and Liz Walters.

Hulon Kirkland coaches these members on Tuesdays and Wednesdays from 4:00 pm until almost dark, helping to prepare them for their first tournament which will take place April 7th and 8th.

Errors Lose Game

By Babo Teich

The Bandera Baseball Team competed in their first baseball tournament in Boerne Friday March 14, 1980. Errors prevented the Bulldogs from striking up any type of offensive game.

Bandera was matched up with Crystal City in the first game. Five errors allowed Crystal City to move to a 6-0 victory. Crystal City's pitcher allowed Chris Robbins, Richard Stein, Joe Romo, and Jimmy Jennings to reach first base on walks.

Bandera then played Fredericksburg, but errors again hampered their ability to score. Although Bandera had three hits by Greg Hicks, Joe Romo, and James Kling (who hit a double) they lost by a score of 4-0.

Coach Sides feels the season is still young, and by district play the young team will have had more experience and will not make as many mistakes.

Antlers Shot By Bulldogs

By David Barnet

As the season progresses, the Bulldog Baseball team continues winning with a record of 2-0. Thursday, March 6, the Bulldogs defeated the Troy Antlers J.V. 13-3 at the Mansfield Park field in Bandera. The game ended during the fifth inning after the Troy Coach "threw in the towel". The Bulldogs played Somerset here at Bandera last Tuesday.

New Choices at BHS

by Darcy Word

During the summer quarter, Bandera Schools will be experimenting with a new lunch program.

On Monday and Tuesday of each week, lunch will consist of vegetables, fruit, bread, dessert, milk and two main courses. The student will have a choice between these two courses. The cost of the meal is still 80c, but there is an extra charge for second helpings.

If this new program is well accepted it will carry on next year and will be offered to the students each day of the week.

by Monica Fry

Many 4-H and F.F.A. students participated in the Houston Stock Show held February 26 through March 2, 1980.

Russell Hevenor placed seventh with his heavy, Southdown Lamb. Others who attended but did not place were Tina and Tom Doebbler, Mark Clark, Mark and Brenda Mayfield, Reagen and Robert Manurek, Chris and Jim Bob Robbins, Janie Saathoff and Joy Stein.

Concert & Sightreading Results

by Beth Montgomery

Annually the bands in this region compete in two of the most important contests combined in the state, — Concert and Sightreading contest. This year the district contest was held at the Bandera High School. Schools came from Kerrville, Fredricksburg, Pearsall, Crystal City, Hondo, Medina Valley, Boerne and San Antonio, to name a few, to participate. The judges, who were very noted musicians in the state of Texas, consisted of (in the concert contest), Rabbit, Cortina and Gonzales, and in the sightreading room the panel of judges was made up of Dan Shrieber, Al English and Joe Wassel. All were very competent and fair judges.

The outcome for the "Swingin' Band" from Bulldog Land" in the contest was a superior rating of I in concert and a rating of II in sightreading. Bulldog band director Tome Walters says that the band is now third best in the region.

Doris Tschirhart

By Toni Batto

For those who would like to meet a record breaker, I introduce Doris Jean Tschirhart, the daughter of Mrs. Ruby E. Tschirhart. Doris, an active member of the girl's track team since her freshman year, broke the school record for a girl, her sophomore year, throwing the discus. Her record-breaking throw was measured at 104 feet. Doris has also been active in volleyball her freshman, sophomore, and junior years.

Her philosophy of life, "Have confidence in yourself and you will always do the best you can," is the basis of most of her accomplishments. She has been a member of the National Honor Society her junior and senior years, qualified for the State Solo and Ensemble contest, been a representative of her class for the band council her junior and senior years, two years of German class, and, of course, her accomplishment in sports.

Doris feels that her favorite holiday is Christmas "because it is a time of giving part of your love to everyone, and I think giving is much better than receiving."

Her favorite people at BHS are Veronica Romo, Rhonda Fleming, Phyllis Goodenough, Patricia Studstill, Sharon Wyrick, and Jolene Morrow.

Spring Is Here Again

by Lynne Fitzpatrick

Today, March 20th, is the first day of Spring. Spring is here again!

Spring means many things. For nature it is a new awakening. Flowers begin to bloom and the trees put on their new blossoms and leaves. Hibernating animals leave their winter domain and awake to find the season changed. Migratory birds come back, and the air is filled with their song. It is a fresh start for nature.

But, what about human nature? Man, another one of God's creations, is also affected by this season called Spring. Spring is usually a busy time for man, but he takes time to see nature awake and perhaps takes a look at himself.

Spring can also be associated with that age-old thing called romance. Spring can be the start of new relationships or the renewal of old ones. This beautiful season can be a romantic time for man along with nature itself.

Spring means something different to everyone, but whatever the meaning—the Spring of 1980 has arrived!

Don't Look Here for Blood Donors

By: Karan Rettko

For people in need of blood don't look here in Bandera for it. On Tuesday, March 4, 1980, FHA sponsored a Blood Drive from 12:00 p.m. to 6:00 p.m. For some unknown reason few people turned out to give blood. All together there were 22 donors and most of them were students from Bandera High. No one really knows what the problem is, but it could have been a number of things. Failure to take the time or afraid because you have never given blood before could be excuses. What was your excuse?

Just think someday you, your family or your friends might be in need of blood, Don't be shocked if it isn't available. You didn't care to donate why should others care to take the time. It may be years, if every again, Red Cross comes back to Bandera for donors, because there wasn't enough people who cared.

For the people who did care and took thrity minutes of their time to see if they could become donors, we Thank You for being so considerate. Your donation will give life saving help to someone in need.

In Memoriam

Charles H. Heimsath, DD

Charles H. Heimsath, humanist, writer, preacher, and university teacher, died suddenly March 16 in Columbus, Tex., at 86 years. Dr. Heimsath regarded San Antonio as his home, although he lived elsewhere for portions of his life.

His parents were Charles H. and Lula Nash Heimsath, who made their home in Huir Street, San Antonio, at the turn of the century. Their son, the only child, born March 8, 1894, attended local academies, the University of Texas, the Southern Baptist Theological Seminary in Louisville, and then the Yale Divinity School. He married Star McDaniel, also of San Antonio, in 1924, and together they made their life one of scholarship and service through the church.

Dr. Heimsath's first major pastorate was the First Baptist Church of Bridgeport, Conn., from where he moved in 1931 to the First Baptist Church of Evanston, Ill., a suburb of Chicago. While in the north he published two books of sermons, *With Honor* (1935), and *Sermons on the Inner Life* (1940) and a popular introduction to various faiths, *The Genius of Public Worship* (1944). His books, articles in *Harper's*, *Atlantic* and the *Christian Century* and his service to the Northern Baptist Convention led to his inclusion in *Who's Who in America* for more than a decade.

His preaching, rooted in humanistic values revealed in art and philosophy as well as in the Bible, urged his congregations to seek moral truth as individuals rather than relying on authority or popular opinion. He eschewed what he called the "warm middle ground" of a comfortable religious life and never flinched from taking stands on controversial issues.

Burdened by the mechanics of administering a church, he decided on a change of careers when he was older than 50. He returned to San Antonio to join the Trinity University faculty in 1947 and founded there the humanities program, while Star taught in the philosophy department. He ran the Trinity Forum, a lively radio discussion series. Marking another change in his life was Dr. Heimsath's decision to join the Episcopal Church and become ordained as a priest.

In 1950 he was installed at St. Christopher's Church in Bandera as rector while continuing to teach at Trinity. Under his leadership, St. Christopher's undertook a building program which resulted in the present "Hill Country Gothic" edifice on the hill overlooking the town.

Wherever he lived, Dr. Heimsath became a center of intellectual and cultural enterprises. For years he led the Medina River Reading Club, a group of rural residents in Bandera County devoted to the study of great literature. The ranch home that Charles and Star built became a center for social gatherings for friends from the area and San Antonio. The genial manner of "Dr. Charles," as well as his breadth of learning, touched many people's lives.

Recently he and his wife have resided in a nursing home in Columbia, near his son, Clovis Benton Heimsath. Star may be reached in care of Clovis, Fayetteville, Tex., 78940. Other surviving members of the family are: daughter, Virgilia Heimsath Pancoast of Bronxville, N.Y.; son, Charles H. Heimsath of Medina and Washington, D.C.; cousin, Mrs. Connie Heimsath Villemain of Bandera.

Dr. Heimsath's funeral was conducted by Canon Daunt at St. Christopher's Episcopal Church on Tuesday, March 18, and his body laid to rest in the Bandera Cemetery.

Irene E. Baylor

Irene E. Baylor of Kerrville died Friday, March 14, at San Antonio Community Hospital. A former long-time resident of San Antonio, she was born September 26, 1903 in Bandera. She was a member of St. Paul's United Methodist Church, Kerrville.

She is survived by her husband, Arthur Baylor of Kerrville; brother, Wilson H. Elkins of College Park, Maryland.

She was the daughter of the late W.B. and Lucy Mae Stevens Elkins.

Services were held at 4 p.m. Monday, March 17, in the Kerrville Funeral Home Chapel with Rev. J. Michael Lowry officiating. Graveside services were held Tuesday at Sunset Memorial Park, San Antonio.

Trio Speak To Bandera Group

Three members from the Kerrville Genealogical Society presented the program to The Heritage Genealogical Society Thursday, February 28. Mrs. Jannet Garrett, charter member of the Kerrville society, told how five persons met at the Dieterl Claim on Jan. 1, 1970, to organize the Kerrville Genealogical Society. Their first project was collecting books and making records of the cemeteries in Kerrville. She said the society expanded and began to grow when Mr. and Mrs. Robert Haynes moved to Kerrville for they were both interested in genealogy and worked hard at increasing the society's membership. At the end of the second year, there were 90 members, and at the end of 1979, there were 300 members on their roll.

Next Robert Haynes, treasurer for the Kerrville society, explained how he collected the dues and memorials, kept the books, purchased supplies and issued the receipts.

Mrs. Robert Haynes followed. She told of the progress made by the Kerrville Genealogy Society in eventually covering all the cemeteries in Kerr County and compiling the data gathered. It is their hope to have this information printed in book form soon. She also showed maps, records, old letters, books and pictures of interest to those studying genealogy.

Pete Stein Crowned

Elizabeth Ann (Pete) Stein was crowned Miss Texas Charolais 1980 at ceremonies Friday, February 15, climaxing week-long activities of the National Charolais convention held in San Antonio at the Convention Center.

The seven Texas finalists enjoyed a week filled with luncheons, a style show, tours of San Antonio and parties.

Fulfilling duties of her new title, Miss Stein represented this cattle organization at various activities at the Houston Stock Show. This week she is in San Antonio, attending the Independent Cattlemen's Assn. convention. Later she will travel to other Texas cities to represent the Charolais organization. In October she will compete with other state winners for the U.S. title.

Pete is the daughter of Mr. and Mrs. Richard Stein of Bandera.

Three From Hondo Give Program

A program on flower show procedure was presented to the Madrona Garden Club Friday, March 14. Hondo garden club members Mesdames Hilmer Haegelin, Bruno Schweers and V.H. Crow presented the instructive program.

During the business session the club named Mrs. G.M. Merritt to meet with the cemetery board concerning Memorial Day clean-up. The club made plans to plant a red leaf maple on the grounds of the new Masonic hall in commemoration of Arbor Day.

Mrs. Helen Edwards, flower show chairman, asked that the show be postponed, and, after discussion, the group postponed the show until next year.

Mrs. W.J. Haynes and Mrs. H.L. Bruce attended the District VII spring meeting in Uvalde on March 6 and Mrs. Haynes served as a delegate to the Uvalde meeting.

The club gave Mrs. Cecily Rippey special recognition and thanks for her many years of service to the garden club. Among her many accomplishments were work on the yearbooks and flower show schedules, presenting programs and giving flower arrangement demonstrations, and contributing and assisting at the bake sales and the annual Mexican dinner.

Hostesses for the occasion were Mrs. W.I. Walker and Mrs. Gladys Huseby, assisted by Mrs. Wm. Jordan.

Cigarette smoking is responsible for about 83 percent of lung cancer cases among men and about 43 percent among women, according to the American Cancer Society.

A THOUGHT FOR THE WEEK

By John M. Grimes

So often in these modern times we hear people say, "What is happening to family life!" We can find the answer to that in the Bible. . . "O that there were such an heart in them, that they would fear me, and keep all my commandments always, that it might be well with them, and with their children forever." God yearned for the happiness and contentment of His people. He was concerned about their homes. He wanted every one of them to be truly beautiful and happy. He wanted them to be orderly, peaceful and godly, with parents and children fearing Him and keeping His commandments.

Have you ever walked past someone's house and said, "Such wonderful people live there! They're the best people in the neighborhood." What makes their home so different? Maybe their home is beautified by "the commandments of God, and the faith of Jesus."

To be beautiful a home does not have to be elaborate inside or outside. It doesn't need expensive draperies, deep-piled carpeting or a big, color television set and matching furniture. Yet it can possess a radiance beyond description.

Wouldn't you feel good if someone passed by your house and said: "They're the nicest people in the neighborhood." Maybe they do. . . .

Sculpture Unveiled

Yes, Virginia, there really was a Texas Aggie Twelfth Man and there he is.

A permanent reminder of the originator of a legend — a once 1922 has-been, the Texas A&M student body on its feet during football games was unveiled Saturday, February 29, at College Station.

Houston sculptor Pat Foley's handsome 6-foot likeness of the late Dr. E. King Gill of Rockport, class of '24, stands at the north entrance to Kyle Field near the Aggie Club Bldg.

It's a tribute to the legend-maker, a lanky basketball player summoned out of the press box in case he was needed by an injury-riddled football team. History hath it that the team rallied and won and Gill never got the call. But he stood ready, nevertheless, representing a willingness to serve and the camaraderie and loyalty of the corps that is known today as the Twelfth Man.

Although the plague won't say as much, the statue also should be a tribute to Aggie sweethearts who through the years have stood by their men in the stadium, regardless of aching feet and unprogrammed philosophy.

The class of '80, headed by Mike Murphy, presented the statue to the university as a parting gift. He was introduced by Paul Gulig, class of '80's gift committee chairman, who assisted in making the arrangements for the statue.

Clyde Wells of Granbury, chairman of the board of regents, accepted it for the university and a miniature was presented to Dr. Gill's niece, Mrs. C.D. Nicholas.

Mrs. Nicholas of Pipe Creek is the closest relative of Gill.

Four From Bandera Attend Meet

Representatives from 12 South Texas counties were in Uvalde on Tuesday, March 4, to participate in the 1980 District 27 Crusade Kick-Off for the American Cancer Society, held at the Uvalde Civic Center. Volunteers from Bandera, Dimmitt, Edwards, Frio, Kinney, LaSalle, Maverick, Medina, Real, Uvalde, Val Verde and Zavala Counties were in attendance. Representing Bandera County were (standing) Mrs. Tressa Trowbridge and Mrs. Gladys Huseby. Seated are Mrs. Dorothy Davis and Mrs. Avis Chipman.

In charge of the meeting and presiding over the day-long session was Mrs. Joe Bailey Martin of Pearsall, District 27 Crusade Chairman. The meeting carried a "Fantasy Island" theme throughout the day.

"The month of April has been designated as Cancer Crusade Month. It is during this month that volunteers will be making their visits to homes and businesses asking for financial assistance," said Mrs. Martin. "The purpose of our meeting is not to tell us how to raise funds, but why we need to raise the money."

Mrs. Brady Speaks to DAR

Mrs. James B. Brady discussed "The Betsy Ross of the West Coast," by Anna Wallace, Santa Anita chapter DAR, Arcadia, Cal., to Bandera chapter members at their meeting, Thursday, March 13. Mrs. Brady said Doña Refugia Arguello de Baradini, wife of Don Juan Bandini, presented an American flag, made from her daughters' dresses, to Capt. Hensley of Commodore Stockton's American forces, at La Punta, located about 15 miles from San Diego. Hensley proclaimed, "A more beautiful flag has never snapped in a breeze." The flag was the first American flag manufactured on the Pacific Coast. As such, it was eventually shipped to Washington, D.C., where for years it remained on display.

Mrs. Alton E. Reininger announced that Heath Hatcher, Bandera first grader, has placed first for his grade in the Texas JAC poster contest. His poster has been sent to NSDAR, Washington, D.C., for judging in the national contest.

Jake Short won the "most enthusiastic C.A.R. member in Texas" award at the C.A.R. state conference held in San Antonio, according to Mrs. Don F. Tobin. In addition, Jake was selected to serve as a T.S.C.A.R. duke.

Mr. and Mrs. Abner Clayton and daughter, Nancy, Mr. and Mrs. James Clayton and Mr. and Mrs. Jack Chaney of San Antonio and Hoyt Foster of Vanderpool were visitors and enjoyed some of the delicious cake — one made by Mrs. Fred Horner and one by Mrs. Cate. Among the gifts, one Mrs. Ivy was especially proud of, is a bed jacket knitted by Doris Foster.

Teague Returns From 9 Months At Sea

When the USS Kitty Hawk docked February 25 in San Diego, Cal., after a nine-month cruise, she had aboard her one sailor from Bandera, AO3 James Teague, son of Mrs. Jennie Marchand.

During the first six months of the cruise, the Kitty Hawk visited the Philippines, Japan, Hong Kong and Korea.

On the way home, President Carter ordered the ship to go to the Indian Ocean when the American hostages were taken in Iran. Also in the Indian Ocean were the Nimitz and the Midway, making this the largest task force put together since 1973.

After 74 days the Kitty Hawk was relieved and she returned home.

Teague is an aviation ordinance man. He enlisted in the Navy in 1976 and is now finishing his fourth year. When he finishes his enlistment, Teague plans to go to college and then go back into the Navy as a jet fighter or attack pilot.

Republicans Announce Polling Places

Polling places for the Republican first primary election to be held Saturday, May 3, were announced at a meeting March 17 of the county executive committee, according to Dick Paxton, county chairman.

Republican voters from voting precincts 1, 4 and 5 will cast their ballots at Bandera High School, precinct 6 at the Vanderpool Community Center, precincts 2 and 10 at the Lakehills United Methodist Church, and precinct 3 at Medina High School. Precinct conventions will be held at the same locations with the exception of precinct 3 which will be held at the Tarpley Community Center. Times will be announced later.

The county convention will be held in Bandera at 10 a.m. on Saturday, May 10. The location will be announced later.

At the meeting the order that names will appear on the ballot was also determined.

Two non-binding referendums will also appear on the ballot. The first states: "Under the supervision of a judge, the state police should be able to use electronic surveillance methods, such as wiretapping, in cases where suspected drug dealers are involved." The second says: "Texas should have initiative and referendum, a way for the public to vote directly on issues and make law in elections rather than depending only on state legislatures."

By state law, no write-ins are allowed for the primary elections except for county or precinct chairmen.

Friends will be glad to know that Mrs. Geraldine C. Thallman, who has been ill in Nix Memorial Hospital in San Antonio, is now improving and hopes to return home soon.

Mrs. Thallman, Sr., former owner of Lost Valley Resort Ranch, has been in Bandera visiting old friends. Pearson is living in Cowan, Tenn., but plans to move back to Texas some time in the future.

Mrs. Lillian North of Ipswich, Mass., has been the house guest of Mr. and Mrs. Charles Taylor of 14th and Mulberry Street, this week.

Sales Tax Rebate Larger Than Last Year

City sales tax rebates for the first quarter of 1980 grew substantially compared to the first quarter of 1979 but the increases don't fare as well under close inspection, according to State Comptroller Bob Bullock.

The apparent increases are partly offset by the fact that during the first quarter of 1979 city sales tax allocations were down due to late filings and a backlog of 2,400 returns in the agency's accounting system, Bullock said.

System improvements have eliminated the backlog and strengthened the agency's ability to quickly handle returns and put more money into the system for rebates, he said.

Bandera received $9,144.94, $3,250.60 more than for the same period last year.

The city sales tax is collected by merchants and other sales tax permit holders along with the state sales tax and is rebated monthly to cities in which it is collected by the comptroller's office.

Mrs. Jim (Marta) Rose, Jr. and sons, Jimmy and Jonathan, of Houston visited Mr. and Mrs. Melvin King recently.

Young Adults Honored At Dinner

The young adults of the Bandera United Methodist Church, ages 16 to 30, were guests at a St. Patrick's Day dinner on Sunday night, hosted by Mr. and Mrs. Davis May and assisted by the members of the Adelante Class.

The Fellowship Hall was decorated with shamrocks, and the waiters, Bill McConnell, Bob Cowan, Larry Hein, Al Heep and Bill Hathaway, wore green aprons and ties.

The program featured special Irish music and song by a quartet composed of Bennie Fleenor, Willie Schmidt, Ray Workman, and Larry Hein, accompanied by Judy Goodenough. Two Irish ladies, Mrs. Mary McGroarty and Mrs. Robert Awe, gave interesting information about Ireland and displayed various things from Ireland, including a special blackthorn cane, generally known as a shillelagh, a leprechaun, and examples of Irish knitted garments. Terry Tomlinson sang lively songs and accompanied himself on the guitar. Davis May gave the after-dinner talk.

Fifty-one persons attended.

Tarpley NEWS

Mrs. Nettie Dean
562-3464

A good thought: "Smile and no one will know you're mad."

Ray and Mary Hietalahti of Rio Hondo were happy to receive greetings from Lee Mansfield of Lee's Summit, Mo. recently and he is doing fine since his eye surgery February 1. He hopes to return in April, if possible.

Guests of Mrs. Pat Taylor and son, Mickey, for several days last week were her daughter and granddaughter, Mrs. Dorothy Haney and Annie, and Mrs. Laura Smith and two children of Hattiesburg, Miss. Friends from Bandera who also visited were Mrs. Seezanee Sphan and son, Skipper.

Cherie Eernisse of Sweetwater is a house guest of Rev. and Mrs. Keith Mansfield for a few days. Cherie teaches school at Loraine.

Several men came Saturday and worked on the Tarpley Baptist Church. It surely is looking better. Others who came by to visit and observe the restoration of the church were Mr. and Mrs. Felix Newcomer of San Antonio. Their visit was enjoyed.

Saturday Royal Ambassador groups from Ingram, Bandera, Tarpley and Boerne met at Boerne for a county track meet and report a fine time. Congratulations to Bo Mansfield, son of Rev. and Mrs. Keith Mansfield, on winning first in the softball throw. Bo will attend the Waco state meet.

Guests of Mr. and Mrs. J.E. Dean during the weekend were their children and families, Maj. and Mrs. Larry Dean, Sara and Michael of Abilene, Sgt. and Mrs. Mike are spending the week visiting their grandparents, Rev. Mr. and Mrs. Donnie Newcomb and Molly Marie were weekend guests.

Please remember the big benefit fire dept. dance on Saturday night, March 29, at the Recreation Center in Bandera. Everyone is invited to attend. More news will follow concerning this benefit dance.

We are reminded of the old saying "Thunder in February and frost in April," and on Feb. 15 there was thunder; also one other time in February. Watch out for your gardens in April. Many people have their vegetables up as of now.

Mrs. Nora Anderson attended the wedding of her niece, Terry Mumme, of Hondo Saturday night, March 15. Terry is the daughter of Mr. and Mrs. Raymond Mumme, Jr. The groom is Bobby Studer of Uvalde. The couple will reside in Uvalde. They had a reception and dance at Quihi Hall after the wedding.

Mrs. Nora Anderson visited her mother, Mrs. Charlie (Ellie) Geuea in Hondo last Wednesday. We are sorry to hear that Mrs. Geuea has been ill with the flu. She is now 95 years young and does real well, her daughter tells us.

TARPLEY E.H.C. CLUB MEETS

In the absence of Mrs. Peggy Edwards, our County Extension agent, the program was given by Mesdames Wootton, Reininger and Fitzgerald on "Cleaning on a Shoestring."

The next meeting will be April 3 at 2 p.m. at the Tarpley Community Center, with Mrs. Alvena Reiber and Mrs. Hortense Jacoway as hostesses.

Lost Youth Found

Searchers combed the hilly, wooded area about six miles from Bandera on the Tarpley Road Wednesday night, March 19, looking for an 11-year-old boy who was reported lost.

Tommy Lee Heinen, son of Elmer Lee Heinen, went for a walk with his dog after coming home from school. When he had not returned in time for the evening meal, his father went out looking for him. When it became dark and Heinen had not found his son, he called for help.

The Bandera/ sheriff's department coordinated the search teams made up of the Bandera County Civil Defense, county fire fighters, members of the sheriff's department, the game warden and many other volunteers who looked for the missing boy most of the night.

At about 7:30 the next morning Tommy and his dog were found by Deputy Brawner walking home along the road. Tommy said he got lost, and he and his dog spent the night sleeping under a tree.

Sheriff Bill James said, in commending those who looked for young Heinen, "We also appreciated the coffee which the ladies served us."

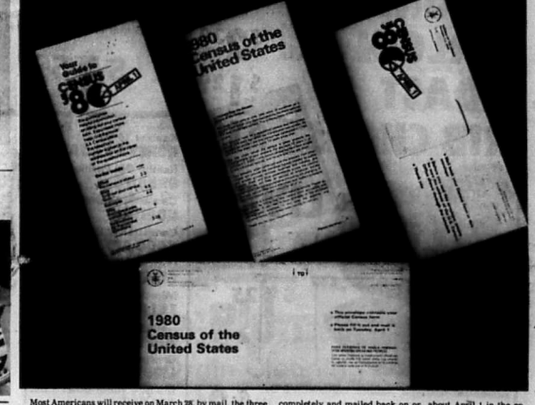
Be Sure You're Counted



Census Day Is April 1

Census Day for the United States of America is April 1st. From the eastern-most tip of Maine to Hawaii's most westerly island; from Alaska to Key West, Fla., it is the day for all Americans to be counted.

Tuesday is the day every household should fill out its census questionnaire, and in this area they should mail it back in the brown, postage-paid envelope provided.

Everybody must be counted. You are your own census taker. Fill out your census form, mail it, and count yourself into America's grand population total.

All information provided in the census is confidential. All census employees are sworn to silence. No one outside the Census Bureau has access to individual census forms, nor may the Census Bureau give the information to any other public or private agency or to anyone for any purpose.

Most Americans will receive on March 28, by mail, the three top items enclosed in the envelope shown below. An instruction guide (top left) is available in any of 32 languages. The census questionnaire (middle) should be answered completely and mailed back on or about April 1 in the enclosed postage-free brown envelope (right). For assistance, dial the phone number that appears on the mailing label.

Keese Named to Board

AUSTIN—Bandera School Board president Thomas Keese has been named to the Board of Trustees of the Texas Association of School Boards to fill an unexpired term.

TASB is an Austin-based association which provides legislative, policy, legal, insurance, communications and educational services to the 1,013 school districts, junior colleges and education service centers whose school boards are TASB members.

Keese was selected from among four nominees to succeed Marble Falls trustee Jerald Edwards. He will provide representation for school boards in Bandera, Kerr, Gillespie, Llano, Burnet, Blanco, Kendall, Hays, Comal, Bastrop, Caldwell, Guadalupe, Wilson, Atascosa, Karnes, Gonzales and Fayette counties.

Keese's appointment to fill the District 24 position for the year remaining on the three-year term will be subject to approval by the TASB Delegate Assembly in San Antonio in September. Following that confirmation, he will be eligible to seek

Thomas H. Keese

election to a full three-year term in 1981.

In addition to providing direction for TASB as a member of the policy-making Board of Trustees, Mr. Keese will also serve on the Planning and Development Committee which oversees construction of a new addition to the TASB headquarters building and development of new service programs for member districts.

"We are pleased to have Thomas as a member of TASB's leadership team," said TASB president Dr. Charles H. Whiteside of Kilgore. "Thomas brings with him five years experience in working with citizen concerns for quality education and that experience will be especially helpful as we enter a new decade and as we prepare for the 1981 legislative session."

Invitation to Briefing Given

The Bandera County Judge, Commissioners, and interested landowners have been invited to attend a briefing at the Kerr Wildlife Management Area on Tuesday, April 8. The visitors will be able to see and discuss with the management personnel the results of the Texas Parks and Wildlife Department's spike buck study.

Similar groups from Comal, Kendall, Kerr, Medina and Real counties have also been invited.

The briefing is scheduled to begin at 2 p.m. at the Kerr Area headquarters. It will be followed by a field tour of the area in order to better acquaint the visitors with the research findings.

Research has shown that nutrition, age and genetics can affect antler size in white-tailed deer, according to Charles D. Travis, executive director. Current research deals with the genetic aspect and shows that the characteristic for inferior antlers is passed on to the male offspring. The spike bucks in the breeding program have sired a high percentage of spike offspring, he said. At the same time, a superior buck that had 6 points at 1.5 years of age has sired only one spike out of 16 male offspring. Both groups of deer have been on the same high nutrition and have been treated in the same manner, he explained.

Bandera County Judge Rein Vanderr Zee asks that any landowner interested in making the visit to the Kerr Wildlife Management Area please call his office, 796-3781, to have his or her name included in the group that will attend from Bandera County.

Crowd Attends Frontier Times Museum Open House

Many local residents who had never previously visited Frontier Times Museum were among the estimated five hundred visitors attending open house on March 18. The event celebrated the 100th birthday of the museum's founder, the late J. Marvin Hunter, Sr. Mr. Hunter passed away in 1957, and during the past several years the museum has been under the direction of the Doane Foundation.

Pupils from Bandera Elementary and Junior High School were among those who came to look over the collection of relics and curios. Each class was conducted through the display by their teachers, and their splendid conduct is to be commended. Al Kindla arranged for the field trip, and accompanied the elementary group. Jim Parker and Yvonne Fenner accompanied the junior high students.

Refreshments were served in the art gallery. The centerpiece of the refreshment table was a large arrangement of flowers from Mr. Hunter's granddaughter and husband, Mr. and Mrs. Harold Ferrell of Fort Worth. A three-tiered birthday cake was decorated with a cascade of flowers in the shape of a horseshoe and the words, "100th Birthday, J. Marvin Hunter." It was served with punch and coffee. Homemade cookies were also provided by members of the museum board of directors. A cut flower display, compliments of Eckhart Flower Shop, was placed at the registry. After the open house the arrangement of flowers was taken to the room of Mrs. J. Marvin Hunter, Sr., at Purple Hills Nursing Home by her son and daughters, J. Marvin Hunter, Jr., Mrs. Les Short and Mrs. John Saul.

Receiving the visitors and assisting in the details of the open house were Mrs. D.W. (Carmen) Hicks, hostess chairman, John Saul, curator, board members and members of the Hunter family. Mrs. John Jahnes, Mr. and Mrs. Bill Short, Mr. and Mrs. J. Marvin Hunter, Jr., Mrs. A.B. Lewis, Mr. and Mrs. Marvin Hay, Mr. and Mrs. Les Short, Susie Short Batman, Jake Short, Les Short, Clare Jo Short, Hunter Batman and others who did not register.

Memorials were given to the museum, including one from Miss Vivian Keese, in honor of J. Marvin Hunter, Sr., Mr. and Mrs. Willard D'Spain in memory of their son, Timmy, and Mr. and Mrs. Jerry Hall in memory of Patty Pearson Robinson.

One of the guests came from Houston, Levelland, Mesquite, Center Point, San Antonio, Baytown, Lubbock, Michigan, Fredericksburg, Waring, Mason, New Braunfels, Georgia and Ohio. The guests coming the longest distance came from England.

Republican County Chairman's Report

"Conservative in Texas Means Republican"

This will be a monthly report to the people of Bandera County from the County Executive Committee. As the campaign "heats up," the report will appear weekly in the Bulletin. The Committee's goals are as follows:

1) A strong County Executive Board. This board is made up of the County Chairman, Vice Chairman, Secretary, Treasurer, and the precinct chairman from the seven precincts in the county. We feel that these chairman from each precinct should maintain close ties with the people of their area not just during times of election but all through the year. We are hoping that each precinct chairmen will call all of the good conservatives together from time to time to talk about what we can do to improve things in the county and the precinct. In order to have a strong group that can represent our conservative viewpoint we are asking that all good conservatives write in the names of people to represent them on the County Executive Board at the Republican Primary May 3rd.

2) A group of conservative minded women to form a Women's Republican Club.

3) A group of conservative minded young people to form a Young Republican Club

4) A group of conservative minded able people who would like to run for office.

5) Encourage all liberals to vote in the other party that got us into this mess.

Our leader, Bill Clements and Tom Loeffler, our congressman, and the strong Kerr County Republican Club are examples of what can be done.

We conservatives of Bandera County are on the move and we are inviting all of like thought to Join Bill Clements, Tom Loeffler, and all of the good Republicans in Texas who can't stand four more years of Jimmie, Rosaline, Billy, and Miss Lillian.

If you are interested - get in touch with us.

Weatherwise — dry and dusty, with one dust storm after the other and no rain. Forecasters try to keep up our morale by giving us a 70 percent and 80 percent chance of showers. It seemed we couldn't miss our equinox March 20th, the first day of spring. Strong southerly winds blew in the moisture but the northwest winds blew it, moving all the clouds east. Some folk's water wells are getting low and pumping gravel and mud. We must live in hopes that April showers will bring May flowers!

Velma Neff called in to say she saw the first humming bird at her place Wednesday, March 19. She quickly filled a feeder and hung it out and in no time several more appeared at the feeder.

Mr. and Mrs. Franklin Neff have returned from Houma, La., where they assisted Franklin's sister, Bertha, and husband, Ralph Martin, with moving to their newly-acquired place on B & R. The Neffs also visited a granddaughter, Dava, and husband, in Houston and their daughter-in-law, Thell, who has moved to San Antonio.

Mr. and Mrs. Joe Haynes of Kerrville spent Wednesday through Saturday at their cottage above Vanderpool. They were Friday dinner guests of Hub and Lillie Thompson, Saturday being the Haynes' anniversary.

Mrs. Margie Griffin of Stroud, Okla. is visiting her mother, Mrs. Lena Fincke, this week.

The Baptist revival started Sunday, March 23, at Utopia with Rev. Merle Stephens bringing the messages twice daily.

House guests in the R.C. Cutler home this past week were Mrs. Betty Mote and Mrs. Frankes Howard of Corpus Christi.

Mr. and Mrs. Homer W. Leverett of Houston bought a place at Comfort and plan to build a home there soon. Homer is clearing the property, while his wife, Topsy, is staying with her sister and husband, Jerry and Emmett Trader, of Vanderpool.

Charles Foster's mother, Martha, and husband, Bill Williams, were in a car-train collision near Seguin. He was killed instantly and Martha is in serious condition.

Bertha and Ralph Martin have moved to their place on B&R. They are the couple who sailed around the world. Martin built his own 3-hulled sailboat named "Seeker." THOUGHTS

Little Things

The little things
That make life sweet
Are worth their
weight in gold.
They can't be bought
At any price,
And neither are they
sold.

A little rose
A little kiss
From some dear one
we know.
Drives care away
And helps us on
Our journey as we go.

The little smiles,
The little songs,
That cheer us up each
day,
Are but a part
Of God's great art
To help us on our way.

Cattle Raisers Issue Policy On Brucellosis Program

Texas and Southwestern Cattle Raisers Assn. meeting in San Antonio March 9-12, issued a resolution regarding the newly-adopted brucellosis eradication program for cattlemen by the Texas Animal Health Commission.

The program needs continued review and guidance, says TSCRA president John S. Cargile of San Angelo and the association strongly supports the following nine points:

1) Continued funding for sufficient brucellosis research to increase understanding of the epidemiology of the disease and to develop better diagnostic procedures to distinguish field strain infection from vaccinal titer.

2) Increased calfhood vaccination of heifer calves.

3) Acceptance by USDA as soon as possible of reduced dosage levels for Strain 19 vaccine, which will give sufficient immunity, reduce titer levels, and possibly allow vaccination of heifers over ten months of age.

4) Continued evaluation and improvement of the Market Cattle Identification Program, including improving the effectiveness of the MCI trace-back procedure.

5) Improved education of and relationship with the private veterinary practitioner, who is a person in a successful brucellosis control program.

6) Adequate laboratory capabilities to provide fast and efficient testing support for the brucellosis program.

7) Continuous reviews to determine the percentage of people involved in the program, including federal personnel, state personnel and cattlemen.

8) Indemnity payments based upon the fair market value of animals destroyed because of brucellosis.

9) Adequate funding of the cooperative state-federal program, so long as it is effective and acceptable, to assure the disease is brought under control.

TSCRA, which represents 14,000 cattlemen in Texas, Oklahoma and surrounding states, also seeks additional changes in the Uniform Methods and Rules from time to time as needed to make the brucellosis program operate at optimum effective levels while protecting economic stability of producers.

Mike Adamietz

By Toni Batto

What does being a senior mean? To Michael Anthony Adamietz, it means that this is the school year in which the members of the class should share as many good times as possible with each other before they all go out into the world to pursue their individual interests.

Mike is the son of Mr. and Mrs. John J. Adamietz of Bandera. He enjoys listening to music, being with friends, basketball, dancing, and talking. But, Mike is most famous at BHS for his ability to make the people around him laugh. When asked who his favorite people were, he replied, "I enjoy everybody at BHS, including the faculty, because the people are so nice and easy to get along with.

Mike's high school accomplishments include being a member of the National Honor Society his sophomore, junior, and senior years, and being vice president of NHS his senior year, being a member of Future Homemaker's of America his junior and senior years, and serving that organization as vice president in charge of projects his senior year. He has represented his class on the Student Council his junior and senior years. Mike has been selected for Who's Who Among American High School Students his senior year.

His future plans include attending Southwest Texas State University for a year or two and then transfering to the University of Texas at Austin to continue studies in electrical engineering with a minor in computer science.

Handicap Program

by Phyllis Goodenough

Coping with a physical handicap was the topic discussed by representatives of the Kerrville Lions' Club and the Texas Commission for the Blind who visited the Homemaking Department at BHS, March 18.

Nhlan Underwood and Julie Evans, the representatives, brought a film, equipment, and information used in working with the blind and other physical handicaps. They demonstrated the use of a "Visual Tek" a machine which enlarges a person with very little eyesight to read and a talking calculator. They described the use of Braille books. The representatives also talked about some research being conducted on sensory perception.

These techniques are used to help a person with a severe handicap to adjust and live in todays society.

A Break For Crime Victims

Under the Compensation of Victims of Crime Act, Texans can now recover damages for certain crime losses, said a director of the state comptroller's office at a recent County and District Clerks Seminar at Texas A&M University. Persons now convicted of criminal offenses must pay fees to the county clerk ranging from $10 to $15. This money is then put into a fund to compensate victims through a program administered by the Texas Industrial Accident Board. More than $200,000 has been collected since the law went into effect last September.

Miss Ruby Hillman of San Antonio spent the past weekend here with her sister, Mrs. Thomas S. Keese.

Richter-Vawter

Mr. and Mrs. Thomas Richter

Frances Joy Vawter of Bandera was united in marriage with Thomas Richter of San Antonio on Friday, March 7, at the Church of the Blessed Sacrament in San Antonio. The Rev. Michael O'Gorman officiated in the large, open church decorated with white gladioli, carnations and softly glowing candles.

The bride was escorted down the aisle by her father, Edwin Vawter of Pipe Creek. Her dress of white organza with a long-sleeved bodice of lace, was styled with pinafore ruffles trimmed with seed pearls. The full skirt, which flowed into a short train, was embellished with lace medallions and bordered by a deep, lace-edged ruffle. She carried a bridal bouquet of three white cymbidium orchids and stephanotis, as well as two long-stemmed deep crimson roses which she stopped to present to her mother and the groom's mother as she neared the altar. As her father gave her into the keeping of the groom, he raised her chapel length illusion veil and kissed her.

The bride fulfilled tradition by affixing an antique watch to her dress with a borrowed fleur-de-lis pin. The watch had belonged to the bride's maternal grandmother and was given to Joy on her last birthday by her parents. The pin was borrowed from her sister, Patricia Renton. She also carried an antique handkerchief, borrowed from Tommy's mother. She wore new gold flower earrings, a gift from her nephew, Jordan Johnston, and a blue garter.

Joy was preceded down the aisle by her three attendants, Mona Tindall, Lonette Wilton, and honor attendant, Patricia Renton. Each was met and escorted to position by a groomsman. The best man was Bruce Tschoepe. Groomsmen were Patrick McBrearty and Roy Mendez. The bridal attendants wore dresses of a deep crimson chiffon, cut with asymmetrical tiers, and carried bouquets of pink carnations and baby's breath.

The groom wore a white tuxedo with a white rose boutonniere. The groomsmen and the fathers of the bride and groom wore black tuxedos with white frilled shirts and boutonnieres of white carnations. Ushers were Timothy Bolner, Michael Kleinschmidt and Marcus Johnston.

The two altar boys assisting Rev. O'Gorman were the groom's nephews, Christopher Bolner and Paul Richter. Three scriptural passages were read by Mike Tindall, Clifton Bolner and Otto Richter II. The sacraments were presented for the mass by the groom's brother and his wife, Mr. and Mrs. Otto Richter II.

The bride's mother wore a floor-length jacket dress of dusty rose sateen with a pink blouse. The groom's mother wore a long dress of teal blue. Their corsages were cymbidium orchids with baby's breath.

Out-of-town relatives present were the bride's mother and husband, Mr. and Mrs. Leonard Surber, and the bride's son, Jim Welborn, of Albuquerque, N.M.

An informal reception was held after the ceremony.

After a trip through the southern and eastern United States, the couple will be at home in Bandera.

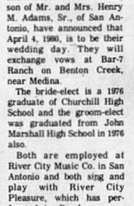
Cartrett-Welborn

Jewell Welborn and Calvin Cartrett were married Saturday, March 15, in a quiet, home wedding held at the Welborn home.

Rev. John Provance performed the ceremony before close friends and immediate relatives. Gina Welborn attended her grandmother and Rev. Herman Murff attended the groom.

Adams-Gumm

Robert Lewis Adams and Carole Sue Gumm



Carole Sue Gumm, daughter of Mr. and Mrs. Terry Gumm of San Antonio, and Robert Lewis Adams, son of Mr. and Mrs. Henry M. Adams, Sr., of San Antonio, have announced that April 4, 1980, is to be their wedding day. They will exchange vows at Bar-7 Ranch on Benton Creek, near Medina.

The bride-elect is a 1976 graduate of Churchill High School and the groom-elect was graduated from John Marshall High School in 1976 also.

Both are employed at River City Music Co. in San Antonio and both sing and play with River City Pleasure, which has performed in Bandera many times.

Robert is the grandson of Henry Adams of Delightful Hill, Bandera, and the brother of Mrs. Paula Shackelford, also of Bandera.

Cindy Bates Named to Honor Society

Cindy Bates, daughter of Mr. and Mrs. Billy Bates of Pipe Creek, has been selected for the National Honor Society for 1979-1980 with a 4.0 average.

Cindy is a 1979 graduate of Bandera High School and is attending Bauder Fashion College in Arlington, Tex, majoring in merchandising.

The Bates' two other daughters, Nancy and Brenda, are graduates of Texas Tech University and are teachers of Home Economics in San Antonio.

Birth Announced

Mr. and Mrs. Jordan Johnston announce the birth of a daughter, born Monday, March 17, at 4:46 p.m. at Riverview Hospital in Idaho Falls, Idaho.

The little miss, who weighed 8 lbs. 3 ozs., has been named Frances Vawter Johnston. She is being welcomed by two sisters, Melissa and Tamme.

Proud grandparents include Mr. and Mrs. Robert L. Gaconnet, Gary G. Johnston and Mr. and Mrs. Thomas W. Renton, all of Bandera. Great-grandparents are Mr. and Mrs. Edwin Vawter of Pipe Creek and Mr. and Mrs. Frank Gaconnet of California.

Megan Elisabeth Tobin

Baby Megan Elisabeth Tobin, born March 16, 1980, passed away one week later on March 23 in Santa Rosa Children's Hospital in San Antonio. Funeral services for the infant were held at Grace Lutheran Church with Rev. David Doerfler officiating. Graveside rites were also held at the Don Tobin Ranch under the direction of Plummer Funeral Home.

The little girl was the daughter of Mr. and Mrs. Phillip Tobin. In addition to her parents she is survived by a sister, Amy 7; two grandparents, Mr. and Mrs. Don Tobin of Bandera and Mr. and Mrs. Alfred Schulte, Jr., of Pipe Creek.

Friends here offer sympathy to the Tobin family at the loss of their loved one.

For Megan Elisabeth Tobin

March 16, 1980 — March 23, 1980

Like a delicate flower she came into this world.
Then all too soon she was quietly taken away.
Megan touched our minds and our hearts; and through her gentle touch she changed our lives.
From within her shone the preciousness of life, the beauty of love and the peace of God.
Like a soft summer's breeze that gently enfolds you and then is gone, she was ours.
Yet her innocence and beauty brought us a strength and understanding that will live on forever.
In her living as in her dying our love for Megan will last through eternity. . .

Megan Elisabeth Tobin

Dear Friends,

Our daughter Megan was born Sunday, March 16 at Sid Peterson Hospital in Kerrville. She was welcomed by her parents, her big sister Amy, her grandparents Mr. and Mrs. D.F. Tobin and Mr. and Mrs. A.H. Schulte, as well as many other relatives and friends. Shortly after her birth, she was transferred to the Intensive Care Unit of Santa Rosa Childrens Hospital in San Antonio because of breathing difficulties. She was diagnosed as having Hyaline Membrane disease and other complications. She died at Santa Rosa Sunday, March 23. She was laid to rest on the Tobin Ranch after a beautiful service conducted by Rev. J. David Doerfler at Grace Lutheran Church on March 25.

Megan was only with us a week, but our love for her, our respect and honor for her fighting spirit she showed us in her little way, and our memories of her will last a lifetime.

We would like to say "thank you" to all those whose prayers, concern, offers of help, and love, have enabled us to get through this hard time. May God bless you all.

Phillip, Donna and Amy Tobin

For Successful Living

If you really are trying to stretch your food dollar in 1980, Texas fish can help. Fish supplies high-level protein with practically no waste. Since fish steaks and fillets contain few bones and no fat, you pay for only what you eat, and, when cooked properly, fish has practically no shrinkage.

Baking is one of the easiest ways to cook fish. Try this cheesey fish casserole, featuring a light spicy flavor.

Fish Au Gratin

2 pounds fish steaks or fillets; 1½ teaspoons salt; dash pepper; ¼ cup flour; 2 tablespoons grated onion; 1 can (10½ ounces) condensed cream of celery soup; 1 cup grated cheese; 1 tablespoon chopped parsley; paprika.

Remove skin and bones as necessary and cut fish into serving-size portions. Add seasoning to flour. Roll fish in flour and place in a well-greased, shallow, 1½ quart casserole. Add onion to soup and spread over fish. Top with cheese and parsley. Sprinkle with paprika. Bake at 350 degrees for 25 minutes or until fish flakes easily when tested with a fork.

Makes six servings.

Thank You

I want to say "Thank You," for every prayer from individuals and prayer groups. I have no words adequate for all the beautiful things done for me at home and in the hospital — wonderful food, beautiful flowers, cards, visits, phone calls and gifts. I cannot use my arms for 6 more weeks, so this is the only way we can say thank you, and God bless you.

A THOUGHT FOR THE WEEK

By John M. Grimes

JEALOUSY! Happy indeed is the person who is free of it. . . It has been called — very aptly — "a green-eyed monster." Perhaps nothing hurts our personal relationships with others more seriously than jealousy. It can destroy respect for others. It is fine to have admiration for someone who has done better than we have. It can lead to emulation and our own eventual success. But the man who is jealous cannot admire for he only hates and envies. It can destroy friendships. For if we are jealous of our friends and what they have, we resent their good fortune and rejoice at their failings. These attitudes can and do destroy friendships. Jealousy can shatter love. For when we are jealous, we can no longer trust. . . and when we can no longer trust, we cannot truly love.

But even worse than what jealousy does to our relationships with others is what it does to ourselves. There is probably nothing that can make a person more miserable than to be in a constant state of jealousy. The jealous person is bitter and sour. He is always enviously conscious of whatever others have.

The Bible describes jealousy as "cruel as the grave: The coals thereof are coals of fire, which hath a most vehement flame." Jealousy! Jealousy! That vehement flame. And the Bible is right as usual.

Inflation Fighting Garden Guidlines

Growing some of your own vegetables is one way to fight inflation, says a horticulturist with the Texas Agricultural Extension Service. Texas A&M University System. Locate the garden in a sunny, well-drained area. Till the soil 8 to 10 inches deep. Make a garden plan. Grow only vegetables your family really likes and plant recommended varieties. Use transplants where possible — you can buy them or grow your own. Keep weeds and insect pests out of your garden, and check regularly for diseases. Harvest vegetables at their peak of quality.

All Developers and Subdividers planning projects in Bandera County are urged to obtain and follow the Regulations Governing Subdivisions in Bandera County. Failure to follow these established regulations will almost certainly result in costly delays. Some of the most critical items are:

1. Written request to proceed accompanied by a statement from Bandera Electric Cooperative that electricity will be furnished.
2. Utility easements indicated by survey.
3. Road dedication indicated by survey.
4. Construction and maintenance bonds on roads.
5. All lots or tracts adequate in size.
6. Plats to be drawn to a scale of 200 feet to the inch, on 18" by 24" sheets. A key map shows the entire area to be drawn on U.S.G.S. maps which are available in the County Judge's Office.
7. Compliance with Bandera County Regulations covering sanitary facilities and water wells.

These directives, most of which have been in force since 1972 by order of the Bandera County Commissioners' Court, are available for any developer at the office of Permits and Inspections, County Courthouse. Sugar, Food Additives

Sugar is safe for human consumption but may increase tooth decay. And enriched bread can make an important contribution to an individual's diet. Those were some of the comments of speakers at a recent Texas Human Nutrition Conference at Texas A&M University. One official said that enrichment of foods through certain additives is one of the greatest factors in nutrition today in that it reduces certain nutritional deficiencies.

MEDICAL JOURNAL
According to a recent radio broadcast sponsored by Columbia-Presbyterian Medical Center and Prudential Insurance Company, researchers, in their attempt to disprove a cure for the common cold, have found out much about how these bothersome viruses are spread.
Most colds are picked up by children in school and then carted to family and friends, according to University of Virginia Professor of Internal Medicine Dr. Jack Gwaltney.
Laboratory tests run by Dr. Gwaltney have indicated that hands are a principal means of transmitting a cold virus. In fact, he says the hands were shown to be "more efficient" in spreading colds than was coughing or sneezing.
Dr. Gwaltney stresses that these tests do not necessarily reflect real life conditions, and that more study must be done. But in the meantime, he says there are steps that can help prevent colds — such as steering clear of infected persons and muffling coughs with tissues and handkerchiefs.
He also recommends basic good hygiene such as washing hands and avoiding finger contact with eyes and nose.

Skunks & Other Wildlife As Pets

In Texas many persons have direct contact with wildlife, and people are often interested in keeping wild animals as pets. If you are considering adopting a wild animal as a pet, consider the following facts:

Since 1960, skunks have become the most frequently reported rabid animal and the most common source of human rabies in the United States. In Texas, rabies is found throughout the state, and skunks represented 830 out of 1150 rabid animals in Texas in 1979. Texas has been number 1 in the United States for several years in reported cases of rabies.

Even if skunks are captured where rabies is not commonly found (such as Nevada, Utah, etc.) and quarantined for 6 months, the risk of rabies is reduced, but they still cannot be regarded as completely safe. And there are no rabies vaccines licensed for use in skunks or other wild animals, and there is little evidence that any vaccine is effective in protecting them from rabies.

Skunks are highly susceptible to rabies, and produce large amounts of the rabies virus in their saliva from the time they become infective until they die.

In one study 58 percent of pet skunks were responsible for biting one or more persons. In households where pet skunks were kept 21 percent of all family members were bitten by their pet skunks.

In one case, a pet skunk had been in the household for 1½ years before it developed rabies; however, the average period for skunks to succumb to rabies seems to be approximately 4 months.

Rabies virus may be secreted in skunk saliva as much as 18 days prior to death, but the animal may not demonstrate any illness until the last 3 days.

Wild animals are adapted for life in the wild, and their habits and dietary requirements can be very demanding on your home life. For instance, most small mammals are nocturnal (active at night), and as pets they may be active while you sleep. Finally, small mammals may have dietary requirements which will be difficult for you to supply.

Many wild animals may be gentle and manageable while young. However, at sexual maturity they may undergo a behaviour change that makes them aggressive and intensifies their instinct to return to the wild.

Many people think that by descenting, declawing, or defanging various animals that will make wild animals acceptable pets. A common result is that when the animal becomes a nuisance and is no longer wanted as a pet, it is incapable of survival if returned to its natural home in the wild.

All wild animals are subject to a wide variety of diseases which may be transmitted to man. These diseases are called "zoonoses." Rabies is one example, but there are many others.

For example, leptospirosis (in which the bacteria may concentrate in the kidneys, causing the animal to become a true carrier) is common among wildlife. Rats are the principal carriers of one type of leptospirosis (L. icterohaemorrhagiae,) skunks another type (L. pomona), while raccoons are carriers of still another type, (L. autumnalis).

In one study conducted in Texas in 1977, almost one-third of the wildlife which was tested showed evidence of infection with leptospirosis. Animals may harbor these agents of disease and spread them in the home if kept as pets. In the wild, these diseases are one of Nature's ways of controlling wildlife populations, but in the home they represent a direct threat to the health and wellbeing of your family and friends.

DRIVELINE

Jaws III to Attack In The Deep

Fenderbender of the Year Award for 1979 goes to Harold Jacobson of Rhode Island who reported this one:

A collision between a 1975 Fiat and Harold's 12 ft. one-man submarine on the murky bottom of Warwick cove. How the Fiat came to rest on the bottom no one knows. . . . He thought he had gotten away from it all.

Drag racers have long noticed the connection between high humidity and high revs — Quarter mile times constantly clock quicker with moisture in the air.

Won't do for us: street people though — slow times are good times because slick roads are deadly.

Every Which Way But Loose
or
Which Way To Go When The Tornado Comes

When a monster tornado demolished large sections of Wichita Falls, folks took to the road to escape. Outdated federal guidelines had long maintained that motorists who spot a tornado should try to escape it by driving at right angles to the path of the storm.

Wrong. Wrong. Wrong!

Subsequent damage reviews recommended "In case of a tornado alert, all motorists, no matter where they are driving should leave their cars and immediately find shelter."

Golden Age Party Report

March 20, the first day of Spring, coincided with the Golden Age party. Those who were unable to attend were greatly missed and special love was felt for member, Ila Fee, who had lost her beloved husband, George.

The Fellowship Hall of the Methodist Church was decorated in an Easter theme. The door prize was won in a drawing by Isabel Stokes.

Refreshments were served after several lively games of 42, dominoes, pitch, and Samba to 19 guests.

The hostesses were Lahree Wilson, Emmie Davenport, Peggy Alanis, Esther Everett, Rena Sandidge and Meleese Ruth.

Mrs. Eloise Hoerster of Mason and Mrs. Lester Vollmar of Fredericksburg were guests at Frontier Times open house Tuesday of last week. While here they visited their aunt, Mrs. J. Marvin Hunter, Sr., at Purple Hills Nursing Home.

LITTLE MISS PAIGE RALPH WINS FIRST

We are all happy for little 19-month-old Paige Ralph on winning first place in the beauty contest of her class (or age group) recently in the preliminary finals sponsored by the Elks Club at McArthur High School. This Sunday, March 30, Paige will be in the finals there. Her parents, Mr. and Mrs. Bill Ralph, and her grandparents are all very happy over the many honors this little red curly-haired, green-eyed girl has achieved.

SURPRISE BIRTHDAY DINNER HONORS MRS. JEFFERS

Last Friday night a surprise, belated birthday dinner was given in honor of Mrs. Edith Jeffers' 81st birthday. Her friends came from Medina, Bandera, Pipe Creek, San Antonio, Abilene and Tarpley for this festive occasion and she was really surprised. She was presented a lovely corsage by Mr. and Mrs. J.B. Edwards and Mrs. Edith Edwards of Pipe Creek. A birthday cake with one large gold candle on it was enjoyed by all.

Guests of Mr. and Mrs. Albert Singleton and Jeri during the weekend were Mrs. Dorothy Mimms and daughter, Roxanne, of San Antonio.

Mr. and Mrs. E.E. Peyton of San Antonio visited Tuesday in the Albert Singleton home. It was Mr. Peyton's 75th birthday. He is the uncle of Mrs. Singleton. The Peyton's have recently moved to San Antonio.

Mrs. Margaret Cochran of San Antonio is spending several weeks visiting the Calvin DeHarts and helping them get moved into their new mobile home.

Mrs. Elizabeth Grimme of Castroville visited last weekend with Mary Lou and Calvin DeHart and her sister, Mrs. Margaret Cochran.

Mr. and Mrs. Lynn E. Jeffers and children of Castroville came Saturday and took his mother, Mrs. Edith Jeffers, home with them for the weekend.

Maj. and Mrs. Larry Dean of Dyess A.F.B., Abilene, visited Mr. and Mrs. J.E. Dean last weekend and returned home with their children, Sara and Mike, who had spent the week here visiting their grandparents.

RABBITS FALSELY ACCUSED

Many have been thinking the rabbits were eating their gardens but recently it has been found that cutworms seem to have taken over. The freeze killed a lot of vegetables that were up. Everyone is wondering why the army of cutworms has invaded us.

Mr. and Mrs. Terrell Ridgon of San Antonio came Tuesday to visit their daughter and family, Mr. and Mrs. Albert B. Singleton and Jeri.

Elsie and Wayne Perkins of San Antonio visited Nettie and Elzie Dean last Tuesday.

Our very best wishes go to Emma and Lane Langford and also to Wayne Ruede for a complete recovery.

Apply Now to Vote Absentee in Primary

Qualified voters of Bandera County who are now absent from the county or expect to be out of the county on May 3 when the first Democratic and Republican Primary Elections are to be held may make applications now at the county clerk's office to have ballots mailed to them, according to Olga Schmidt, county clerk.

Voters must state they are now absent or expect to be absent from the county on election day as well as during the entire period of absentee voting.

Voters may request applications by writing or calling the clerk's office, or go to the office to complete application forms if they expect to be away on election day or during the entire period of absentee voting.

Absentee voting starts April 14 and ends April 29. Voters who will not be in the county on election day, May 3, but will be in the county between April 14 and April 29 should go to the clerk's office between those dates to vote in person, rather than making application now.

Qualified voters 65 years of age or older who are unable to visit the office to cast absentee votes may apply to vote by mail and should mail or call in their requests as soon as possible.

Any qualified voter younger than 65 years may write or call to request an application to vote absentee because of illness or physical disability which would keep him from appearing at the polls. A statement from a physician will be required unless a "Certificate of Permanent Disability" has been placed on file with the voter registrar.

Edith Clendenen Promoted to Assistant Vice President

Bandera Branch Manager Edith Clendenen, who started with University Savings in Fredericksburg in 1974, has been promoted to assistant vice president.

Clendenen has been branch manager of the Bandera office for almost three years, according to Ken Sultemeier, executive vice president and managing officer of the Community Division of University Savings.

Clendenen is a director and treasurer of the Bandera Chamber of Commerce and a member of Bandera's new chapter of Texas Legal Secretaries Assn.

Although she is from St. Louis, Clendenen has lived in Bandera since 1951 and says, "It's home." She has two children, a son, Mark, of Houston, and a daughter, Dody Cherry, of Bandera.

In the five years she has spent with University Savings, Clendenen said she has been very impressed with the training and motivation programs, as well as the service offered to customers.

"The services University Savings offers to the hill country are outstanding," she said.

"One new service we are offering is traveler's checks," said Clendenen. "With vacations coming up, I think the community will find them a great convenience."

The University Savings' Community Division regional office is in Fredericksburg, with other hill country offices in Marble Falls, Llano, Kerrville, Boerne, Blanco, Comfort and an agency in Burnet.

Election Day Is Saturday

This Saturday, April 5, is election day throughout Texas. In Bandera County four elections will be held—Bandera school trustee election, Medina school trustee election, Bandera city election, and directors election for the Bandera County Water Control and Improvement District, No. 1, (Bandera City). The directors election for Bandera County Fresh Water Supply District, No. 1, (Pebble Beach) will be held next Saturday, April 12.

For all the elections the polls will be open from 7 a.m. to 7 p.m.

A joint election for the Bandera city and the Bandera water board will be held at a new location this year. Balloting will be at the new Bandera Municipal Building on Main Street rather than in the Commissioners' Court Room as in the past.

The Bandera school trustee election will be held at the Junior High campus (the old high school campus) as in the past.

Medina voters will cast their ballots for Medina School trustees at the Medina school building.

Sample ballots for the elections can be found on page 11 of this issue of the **Bandera Bulletin.**

Purple Sage Donates to Scouts

Bandera County Boy Scouts and Cub Scouts are very fortunate to have received equipment for their newly-constructed Scout Hut, located at Mansfield Park.

Purple Sage Ranch and Conoco, through the efforts of W.R. Fortune, manager of special services of Conoco, and Luther James, Purple Sage ranch manager, gave the Scouts 11 tables, 24 chairs and a desk. This generous contribution of much-needed equipment is greatly appreciated, according to Richard Evans, Cub leader.

Notice

City and Water Board offices will be closed Friday, April 4, in observance of Good Friday. However, garbage will be picked up on its regular schedule Friday.

Don Rains Seeks Re-Election As State Representative

State Representative Don Rains of San Marcos, seeking re-election to his seat this year, has been actively campaigning throughout Legislative District 45 which encompasses Bandera, Blanco, Frio, Hays, Kendall, Medina, and a portion of Bexar counties.

Rains, who attended a recent reception in his honor in Boerne, expressed his desire to visit as many communities as possible to campaign and to expand his awareness of the problems and interests of the people.

The legislator is presently serving his third term in the House of Representatives and sits as vice chairman of the influential House Appropriations Committee. He has been vice chairman of both the Higher Education and Election Committees and a member of the Agriculture Committee. Rains has earned respect in the legislature for his integrity and for his expertise in higher education and rural problems.

A graduate of Stark High School in Orange, Tex., Rains attended Navarro Junior College before receiving a Bachelor of Science degree from Southwest Texas State University. He also served in the U.S. Marine Corps from 1966-69. At present, he is employed in the life insurance, construction, and ranching business.

Rains' community interests include membership in the U.S. and San Marcos Chambers of Commerce, First Presbyterian Church, past president and current board member of the Hays County Farm Bureau, Texas Assn. of Life Underwriters, and the Texas and Southwestern Cattleraisers Assn. In 1977, he was inducted into the Agricultural Hall of Fame at SWTSU for his outstanding service to the Texas agricultural community.

Rains and his wife, Betty Jack, have two children, their son, Donald Patrick, 7, and their new baby daughter, Jackie, 4 months.

When asked about his candidacy, Rains explained, "The upcoming session of the legislature will be responsible for the reapportionment of voting districts for the next decade. Since approximately 80 percent of the people now live in urban Texas, representatives from rural districts such as District 45 must be strong and experienced to insure that the small communities and rural areas are not ignored. I believe that I am the only candidate in the race with the necessary credentials."

Rex Simons Is Trustee Candidate

I, Rex Simons, would like to let everyone know that I have put my name in for the candidacy for School Board Trustee of Medina, Texas.

I went to school in Medina from 1963 through 1968, from which I graduated. I have lived in Medina for the past two years. I am also a taxpayer and a land owner in this precinct. I have three children in school and soon there will be a fourth in Medina School. We also belong to the First Baptist Church of Medina.

I married Rita Whitehead, the daughter of E.C. Whitehead, who is a lifetime resident and property owner and a friend of many of the citizens of Medina.

I have been employed by the City of Kerrville Fire Department for the last 9 years. I hold this job because I believe it is the job of every man or woman to do their civic duty.

I would appreciate your vote April 5, 1980.

Thank you,
Rex Simons

In District Court . . .

Wayne Eugene Smith, a native of Houston, was sentenced Friday, March 28, to serve an additional five years in the Texas Department of Corrections for violation of terms of his probation. District Judge Robert R. Barton of the 216th Judicial District handed down the sentence.

District Attorney Joe Grady Tuck filed the motion for revocation of Smith's probation. Smith was placed on probation July 12, 1976, when he was 17 years of age.

In other district court action the bond of Richard Garza of Medina was revoked. Garza stands indicted for theft by check, and he failed to appear at his pretrial hearing.

Also, Wesley Robert Kercheval, presently incarcerated in the Bandera County Jail, is charged with the 1979 theft of a dog from Bob Gaconnet. He pleaded not guilty at his arraignment.

The Bandera County Grand Jury returned two true bills, Friday, according to District Attorney Joe Grady Tuck:

One was against Sam Byrd, 51, Bandera, who was indicted for aggravated assault. Charges stemmed from a February 22 shooting incident at Wharton's Dock.

The second true bill was returned against Robert Leon Potter of Tarpley, indicted for unlawfully carrying a weapon on the licensed premises of the Silver Dollar Saloon. Deputy Jess Brawner made the arrest, charging Potter with possession of a pistol.

Also, there was one no-bill and one case was passed.

Henry Heinen Asks For Re-Election

Henry Heinen, encumbent, has authorized the Bandera Bulletin to announce that he is running for re-election to the Medina School Board of Trustees, subject to the action of the April 5 election.

Mr. Heinen asks for the support and vote of the people in his district to re-elect him and will perform the duties of that office to the best of his ability.

Notice of Meeting

The Board of Trustees of the Bandera Independent School District will meet in regular session on Wednesday, April 9, at 7:30 p.m. at the Bandera High School.

Vandalism Mars City

Vandals were busily at work over the weekend, according to Mayor Wilvie Smith.

He reports that shrubs which were recently planted to beautify the city park were pulled up by the roots. Also, spray paint was used to deface street name, speed limit, stop, and yield signs throughout the city.

Replacing and repairing damage of this kind is very costly to the city, and traffic accidents might be caused when warning signs are obscurred.

Residents are asked to help the city eliminate vandalism by calling the sheriff's office, 796-3771, to report any suspicious behavior that you see. Your name will not be revealed.

Rob Sandidge Asks For Your Vote

I, Rob Sandidge, am a candidate for Trustee, Bandera Independent School District.

My wife and I and two children live in the Tarpley community where we farm and ranch. Both of our children attend Bandera school.

I attended all twelve grades in Bandera and graduated from Bandera High School in 1968.

I am interested in the education of our children as well as the spiraling cost of operating a school, and I believe a sales tax would be the most equitable way to finance public education in Texas. If elected I will strive for the best education for our children that the taxpayers can afford.

Sincerely,
Rob Sandidge

A Tribute To Jim Rivet

Friends will not grieve for Jim; instead they will remember his kindness, friendliness, ready smile, and happy go lucky charm. He will be missed at the parties, barbecues and talk sessions which he attended. Friends extend sympathy to his children, Rusty, Dusty, Judy and Julia; also to his mother, Mrs. Gertrude Rivet, his sister, Mrs. Julia Kelley; his brothers, Dickie and Stanley; and Mr. and Mrs. Ray Votaw. Memorials are being made to the EMS in memory of Jim.

by Monica Fry

Being with people, swimming, reading, listening to music, skiing and dancing are just some of the many interests that Bridget Annette Nothe has. Bridget, daughter of Mr. and Mrs. Clarence E. Nothe, was born in Kerrville, Texas on June 11, 1962.

Bridget has been very active in her four years of high school. She was in track, band, Jr. Historians and speech her freshmen year. She was in F.H.A. and 4-H for three years and in journalism for two years. She was the assistant art editor for the annual in her sophomore year. Bridget was a crew member for the one act play her junior year. She has participated in the pep squad her freshmen and senior years and in O.E.A. her senior year. Her junior year she was nominated to the Who's Who among American High School Students. Bridget has held offices in 4-H her sophomore year as a council member; in her senior year as a 1st Lieutenant of Belles and in O.E.A. as a Parliamentarian.

Bridget has many friends at Bandera High School but

some of the favorites are Debbie Ziegler, Sharron Kelly and Coach Kirkland. A very special person in Bridget's life is Tim Hensley, but most important are her parents.

"I believe that you should always be yourself and, strive to do the best you can. Accept people for who they are and try not to change them" is the philosophy of this fine student.

Her plans for the future include attending Southwest Texas in the fall and major in Journalism and Advertising. She also hopes to marry someday and raise a family. But not too soon.

Being a senior is important to this student because it is a form of self-satisfaction and a reward for all the hard work.

Sharron Kelly

By: Bridget A. Nothe

"To climb as high as I possibly can in whatever I do, because once I quit climbing, my life will be just another lost horizon in this broad adventurous world we live in", this is the philosophy of Sharron Kay Kelly, daughter of Ms. Shirley McCollom. Sharron Kay was born in San Antonio and has attended Harmony Elem., John Glen Elem., and Poth Elem.

Sharron enjoys many hobbies, some of which include, machrame, sewing, ceramics, and liquid embroidery. She has traveled to Tenn. and Mexico but says that Texas is still her favorite. Sharron has many friends at B.H.S. these are Brenda Morgan, Bridget Nothe, Debbie Ziegler. Her friends outside of school consist of James Monaco and his family, the Morgan family, Brandie Smith, and Sharron's own family.

Her future plans are to be married on November 15, and get a good job. Sharron feels that being a senior is her year of changes. "The sad ending of one life, and the happy beginning of another." Christmas is her favorite holiday because the world is happy and everyone is full of love.

Sharron Kay has been active in N.H.S. her junior and senior years and has been a member of O.E.A. also, those two years. Sharron is Historian in O.E.A. her senior year.

Harvey Raab

by Lynne Fitzpatrick

"Blondes have more fun" is an old saying that Harvey Raab believes in and lives by.

Harvey also known as "Chaz" is the son of Mr. and Mrs. Harvey Raab Sr. He was born in Alice, Texas, and has attended schools in Aransas Pass, Llano, and Port Lavaca before coming to Bandera.

While attending Bandera High school Harvey has become involved in many activities. He played football this year and lettered. He is in FHA and FFA, serving as Treasurer for the Future Homemakers of America and Sentinel for the Future Farmers of America. So, no one knows what the "Future" holds for Harvey Raab. Harvey is also a member of the One Act Play Cast this year starring as the "Wizzard."

Harvey's interests include sports, cars, water skiing, scuba diving, and swimming

which is his favorite. He has also traveled all around Texas and throughout 22 Deer states.

Harvey says he does not have any favorites when it comes to people and that his friends are numerous. But, with his good humor-and witty remarks he has become a favorite around BHS.

"Life is for the taking" is Harvey's philosophy and being a blonde-haired senior and "having more FUN", he will surely make the most out of his life.

We are a free, self-governing congregation under Christ alone as Head, with no denominational affiliation or earthly headquarters. We invite you to come worship with us.

On Sunday morning we meet at 10:30; on Sunday evening we meet at 6:00 for youth fellowship and Bible study. We are located off of highway 46 one mile from highway 16; follow the signs.

The teenage youth presented a candlelight service, and the children re-enacted a play at the tomb-side. Those who participated were: Lisa Vakey, Wendy Mitchell, Kirk Vakey, Catherine Blackshear, Lisa Wallace, James Colter Wallace, Jolene Butler, Scott Rogers, Neal Graves and Jimmy Gutierres of the Pipe Creek-Bandera area and Ron Wenzel, James Murray, Jenny Murray, Alisa Murray, Cheryllyn Buck, Julie Davion and Matthew Wenzel of the Boerne area. 39-1tc

Rev. Gerald Hamilton of Baytown held services twice last Sunday at the Pipe Creek Pentacostal Church. Various ministers have been filling in while Rev. Carroll is seriously ill.

Ruth Callahan of Pipe Creek fell Saturday, March 22, and her ankle was broken in three places. She was hospitalized at Sid Peterson Hospital in Kerrville until the following Saturday when she went to Menard to the home of Mr. and Mrs. Harold Pearson to recuperate. Mrs. Pearson is her aunt.

Hondo speech teacher Frank Harmier, who lives in Pipe Creek, has three students who won in UIL District literary events: Ray Don Tilley in informative speaking; Curt Van de Walle in persuasive speaking and Steve Coyle in prose reading. These students will compete in the regional meet at Texas A&I Univ. on April 18.

PCVFD SAYS PLEASE BE CAREFUL

The Pipe Creek Volunteer Fire Department would like to caution everyone to PLEASE BE CAREFUL when burning trash and brush.

In the past week we have had numerous fires which resulted from burning trash.

We would like to thank everyone who donated in the past weeks. Without your help we would not be able to operate our equipment.

Thanks to Camp Sionito for having the Fire Department out to cut wood for the upcoming barbecue which will be held April 17-18.

We hope to see you all there.

Our birthday dinners are held the second Tuesday of the month. This month it falls on April 8, so all you folks with birthdays in April please come as our guests to the Senior Center, 13th and Hackberry at 12 noon. All others are requested to bring a covered dish.

Despite the inclement weather we had five tables playing at our Bunco party last week. Maybe it was to celebrate the nice rain, but whatever, it was a gala occasion. These parties are held the 4th Thursday of the month at 2 p.m. No matter if you have never played; it takes no skill, just a little bit of luck. Mark April 24 on your calendar and y'all come.

Our noon dinners continue to be delicious and for the dollar donation it's the best buy around. Call 796-4969 before 9 a.m. for reservations. For transportation call 796-4584.

Friends are pleased to learn that Robert Stein, Sr., has returned home from the hospital and is making gradual improvement. He was hospitalized for three weeks at St. Luke's Lutheran Hospital in San Antonio.

A THOUGHT FOR THE WEEK

By John M. Grimes

"Out of the mouths of babes" . . . This has always been a favorite expression of adults. This brings to mind the story of a family who came to church on the Sunday after Easter and found the parking lot filled to capacity. The young son explained, "They must still think it is Easter!"

He had gone to the heart of the matter, as small children are often inclined to do. He suggests the central meaning and challenge of Easter. If Christ be risen and alive, then it puts our lives in a new dimension both here and hereafter.

Easter does not end with the celebration on Easter Day. Should it not be continued in our lives with a daily renewing of the living spirit of Christ? Otherwise we shall have missed the Easter faith.

The real test of Easter is what follows after Easter Day when we have heard the Resurrection story and our Lord's promise; "Because I live, ye shall live also." Shouldn't Easter be for each day of the year—a continuing experience? . . .

Cross-Over Voting Approved

If you sign the petition of a Republican to help him get his name on the Republican primary ballot without paying a filing fee, you can still, if you wish, vote in the Democratic primary on May 3, according to a ruling by Secretary of State George Strake.

Likewise, if you sign the petition of a Democrat, you may vote in the Republican primary.

Strake made the ruling in spite of the wording at the top of the petitions that "I understand that by signing this petition I become ineligible to affiliate with any other party or to participate in the primary elections, conventions or other party affairs of any other party."

Of course, no voter may vote in both primaries.

Reminder

Friday, April 4, is the last day to register to vote and be eligible to vote in the Democratic or Republican primary elections which will be held on Saturday, May 3, according to Marguerite Stevens, tax assessor-collector.

If you are not now registered, be sure to go by her office by Friday.

Tuesday Morning Accident Is Near Pipe Creek

A San Antonio woman fell asleep and lost control of the pickup she was driving, which overturned.

Tonia Swanson was driving on F.M. 1283 about 1¼ miles from Pipe Creek, near the Pipe Creek Fire House, when she was involved in the one-vehicle accident at about 12:30 a.m. Tuesday, April 1.

Her injuries were not believed to be too severe. She was taken to San Antonio to Methodist Hospital for treatment by Bandera County EMS.

Admitted to Sid Peterson Memorial Hospital in Kerrville this past week have been Mrs. Joy Evans of Medina, Frank M. Montague IV, March 27; A.C. Bain, Medina; Miss Janice Chism, Utopia; Mrs. Martha Callaway, Mrs. Mary M. Mazurek, Bandera, March 31; Mrs. Anna M. Bramer, Bandera, April 1.

Sabinal Canyon Park Named to Registry

Sabinal Canyon State Park has been designated as a national landmark by the U.S. Secretary of the Interior, Cecil D. Andrus, and will be added to the National Registry of Natural Landmarks under the authority of the National Sites Act of 1935, according to Congressman Tom Loeffler.

The Heritage Conservation and Recreation Service of the Interior Department identified, evaluated and nominated the area for the designation.

The park, located 61 miles from San Antonio in Bandera County, encompasses 2,190 acres of outstanding Ed-wards Plateau flora and fauna. The rugged mesic, limestone canyons support a relict population of big tooth maple. In addition to numerous other deciduous tree species, the slopes are covered with mature Ashe Juniper, which represents the largest known nesting population of the threatened golden-cheeked warbler.

Landmark designation officially recognizes the national significance of the park's unique natural resources and assures its protection.

Notice

The Bandera Electric Cooperative, Inc. has employed the services of the OSMOSE Company for the purpose of inspecting poles.

The OSMOSE crews, under the direction of foreman; Mr. John Cresinsy, will be working in the Bandera, Pipe Creek and Medina Lake areas.

Trucks used by these crews will have the OSMOSE Company sign displayed.

Keep Extra Riders Off Farm Equipment

Extra riders on farm equipment signal "danger," says a safety engineer with the Texas Agricultural Extension Service, Texas A&M University System. Extra riders on farm equipment account for many farm and ranch accidents each year, and a large share of extra rider victims are children. Most motorized farm equipment has no provisions for safely carrying passengers other than the operator, so keep extra riders off.

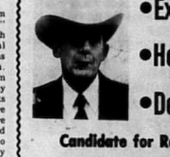
No Respecter

Cancer is no respecter of sex, age or wealth. The American Cancer Society urges everyone to have regular health checkups and cancer tests that help to save lives.

AARP Will Learn About Library Services

Services offered residents of Kerr and adjoining counties by the Butt-Holdsworth Memorial Library will be discussed by Librarian Evelyn Jaeggli during the 2 p.m. Tuesday, April 8, meeting of the Hill Country Chapter of the American Association of Retired Persons in the Kerrville Municipal Auditorium.

Mrs. Jaeggli will include information about the library's extensive community services and interlibrary loan program. She will discuss services planned for the future and what if available especially for retired persons.



A program of exceptional interest to retirees, the information provided will help them obtain maximum pleasure and benefit from this exceptional library, said Bob Janda, program chairman for the chapter.

James Menke was given a copy of "100 Years in Bandera" by Margaret Evans as Judy Pue looked on at the meeting of the Heritage Genealogy Society.

Menke Spoke to Genealogy Society

San Antonian James Menke, who is well known for his Index of the 1850 Census of Medina County, was guest speaker at the Heritage Genealogy Society meeting held Thursday, March 27. He spoke on "Medina Migrations," reviewing Medina County's history and giving little known historical facts. French immigrants headed for Castroville were the first brought to Texas by boat, he noted. Also the Medina River was the dividing line between Bexar and Medina counties until 1873.

The next meeting will be held on April 24, starting at 2 p.m. at the First State Bank. Mrs. Eva Flower Sanderlin, author of The Family Secrets, will be the speaker.

Barn Destroyed by Fire

Fire Monday consumed a barn located on property South of Bandera, part of what was once called the Hanging Tree Ranch. High winds whipped the flames and hampered efforts of firefighters.

Destroyed in the structure were several electrical appliances and other household goods.

Holy Week At St. Christopher's

Special Holy Week services will be held at St. Christopher's Episcopal Church. On Thursday evening at 7:30 p.m. there will be a celebration of the Holy Eucharist commemorating the institution of that sacrament at the Last Supper. At the conclusion of the service, the altar will be stripped in preparation for the observation of Good Friday when a special liturgy at 12 noon will remember the suffering of Christ on the Cross of Calvary. That will be a one-hour service.

Students Named to Dean's List

SAN MARCOS—Eight Bandera County residents were among the 3,497 students whose fall semester grades earned them places on the Southwest Texas State University Dean's Honor Roll and Superior Honor Roll lists. Trudy Bailey, Sheri Darden, Julie Jenkins, and Mike Stevens of Bandera were among those listed, along with Norlene Chamberlain, Cindy and Karen Newcomer of Pipe Creek and Tracey Sparks of Vanderpool.

To make the regular honor roll, a student must be enrolled for a minimum of 12 semester hours of coursework, excluding physical education activities, and achieve an overall "B" average.

Making the superior honor roll requires grades of "A" in at least 12 of the required 15 semester hours of coursework, excluding physical education activities, and no lower than a "B" in the other three-hour course. This translates into a 3.8 grade-point average or better on a 4.0 scale.

Undergraduate courses only are considered in the tabulated list.

Incomplete, or "I," grades earned during the fall semester disqualifies students from the Honor Rolls.

Simons Is Honored

Recently honored during the 34th annual Texas Job Training and Safety Conference in Austin was Willie R. (Sam) Simons, Jr., employee of Bandera Electric Cooperative, Inc., Comfort, and formerly of Medina.

Simons' alert thinking and knowledge, acquired through safety meetings conducted each month at the Cooperative by instructors provided by the Texas Engineering Extension Service, resulted in saving of the life of a co-worker, Curtis W. Wiseman of Comfort and formerly of Bandera.

Wiseman, working from a bucket truck while sawing off the top of a broken pole, turned into a "hot" wire and, as a result, received an electrical shock through his body, entering one arm and exiting through the other. He was immediately knocked unconscious. Simons, who was working on the ground, observed the accident and immediately radioed for help, then proceeded to lower Wiseman to the top of the truck. He removed Wiseman's lifeless body from the basket and began performing CPR. An EMS ambulance transported him to Sid Peterson Memorial Hospital in Kerrville where he remained over night for observation.

Simons was awarded a plaque and a wrist watch and his name has also been placed on the life saving honor roll at the Texas Electric Cooperatives, Inc., Austin.

HERMANN SONS WILL MEET SUNDAY

Bandera County Hermann Sons met March 21 to continue efforts to form a lodge in Bandera County. The preliminary work has been done; however members' help is needed to get the new lodge chartered.

The next meeting will be on Sunday, April 13, at 2:20 at the Community Center in Pipe Creek. The meeting date has been changed to Sundays to better accomodate our membership.

All Bandera County Hermann Sons are invited to attend even if they are members of another lodge. Bandera County residents who are members of another lodge who wish to transfer to the new lodge may do so at the meeting.

Tentative plans are being made for the presentation of the lodge's charter by grand president Louis Engelke on May 4. The time and place to be announced later.

The Sons of Hermann is a fraternal organization, organized 90 years ago in Texas, and dedicated to the family and fraternalism.

Notice

The Bandera County Business and Professional Women will meet Thursday, April 17 at 7:30 p.m. at Flying L Ranch.

Thank You

At this time, I would like to thank all the people who helped elect me to a position on the Bandera Independent School District Board of Trustees.

Thanks go especially to my dear family, to so many of my former Bandera High School teachers for their support, to my friends, and to all of you who voted for me.

I will always be willing to talk to anyone on any issue. Honest communication is so very important to me, especially in the coming years when runaway inflation and new State rulings are certain to drive our taxes up. A sales tax would help alleviate the pressure on taxpayers, and I will work toward this, as should every one of you.

With your help and with God's help, I will do my job well.

A THOUGHT FOR THE WEEK
By John M. Grimes
"Out of the mouths of babes"... This has always been a favorite expression of adults. This brings to mind the story of a family who came to church on the Sunday after Easter and found the parking lot filled to capacity. The young son explained, "They must still think it is Easter!"
He had gone to the heart of the matter, as small children are often inclined to do. He suggests the central meaning and challenge of Easter. If Christ be risen and alive, then it puts our lives in a new dimension both here and hereafter.
Easter does not end with the celebration on Easter Day. Should it not be continued in our lives with a daily renewing of the living spirit of Christ? Otherwise we shall have missed the Easter faith.
The real test of Easter is what follows after Easter Day when we have heard the Resurrection story and our Lord's promise; "Because I live, ye shall live also." Shouldn't Easter be for each day of the year—a continuing experience?....

Bandera Electric Loan Approved

Senator Lloyd Bentsen was advised Tuesday that the Rural Electrification Administration has approved a loan of $5,768,000 to the Bandera Electric Cooperative, Inc.

The loan is being made at 5 percent interest. The funds will be used to finance service for 1257 more consumers, build 108 miles of distribution lines, one mile of transmission lines, finance additional headquarters facilities and make system improvements.

Mrs. W. P. Jordan, past president and Mrs. A. B. Alkek, president of the Friends of the Bandera County Library, are discussing the urgent need of funds for new books to fill the empty shelves in the Bandera County Library.

A membership drive is being conducted to obtain funds for books, and a SilverTea will be held at the Bandera County Library on Friday, April 25, from 2 to 5 p.m. The Friends appeal to all citizens of Bandera County to be a "Friend" and support the Bandera County Library

Miss Bandera County

A record crowd braved the elements Saturday night to watch the 12th annual Miss Bandera County Beauty Pageant and the crowning of Little Miss and Little Mister Bandera County, sponsored by the Bandera County Chamber of Commerce and held in the High School auditorium.

A panel of five judges had difficulty selecting Miss Bandera County from the 25 pretty young ladies vying for the title; however, the final trophy winners were Esther Galvan, Miss Bandera County; Linda Muller, first runner up; Barbara Middlebrook, second runner up; Georgina Macon, third runner up; and Dina Felten, Miss Congeniality (voted by contestants).

Genie Lu Clements, daughter of Mr. and Mrs. J.M. Clements, was crowned Little Miss Bandera County and Wade Bradford, son of Mr. and Mrs. Halley (Butch) Bradford, was chosen Little Mr. Bandera County.

The program was directed by Jimmy Goodman of Beeville, assisted by his wife, Martha Iris. Contestants were judged on the basis of poise, personality, first impression and appearance. At a tea held Saturday afternoon in the dining room of Flying L. Ranch, each of the beauty queen contestants was interviewed by judges as the first segment of the pageant, which concluded that evening in the auditorium of the high school. The five decision-makers were Mr. and Mrs. Robert Young of Pettus, Mrs. Orlene Kilm of San Antonio, Charles Burton of Houston and Norman Gard from Liverpool, England.

Friends of Library Issue Invitation

The Friends of the Bandera County Library cordially invite you to attend their annual Membership Drive Tea on Friday, April 25, from 2 to 5 p.m. at the library.

The friend's organization is a group of citizens with a common concern for their library's active expansion and participation in community life. They have a conviction that good library service is important to everyone, and their purpose is to encourage understanding and appreciation of the work of the Library.

This fiscal year, Bandera County was unable to appropriate funds for new library books. Therefore, to meet this emergency, contributions are needed.

Membership in the Friends of the Library is available and is a simple way to give financial help to the library. Annual dues are $1 for individuals, $10 for sustaining members, and $100 for life members. They may be paid at the tea or sent by mail to Mrs. Patty C. Adamson, treasurer of the friends or left with the librarian. All memorials and donations are greatly appreciated.

At Commissioners Court . .

The Bandera County Commissioners Court met in regular monthly session Monday, April 14, for a long day's work of routine business.

Veterans Land Board

Clarence Rhodes was appointed chairman of the Bandera County Veterans Land Board. J. B. Edwards is also a board member. Rhodes asked that a third person be appointed also.

Subdivisions

Several delegations representing county subdivisions came before the court: Charles Glassing and Leon Karr representing Freedom Springs, Timber Creek and Mountain Springs; Earl Faulkner for Exotic Acres; Barnie Sledge for Medina Shores; Carl Hilderbran and Harold Solonon for River Oaks Ranch.

Roads

A delegation from Rio Hondo subdivision sought to have the county take over and maintain certain roads in their subdivision. It was again pointed out that the county must have dedicated to them the right-of-way of the road passing through a ranch bordering Rio Hondo and separating Rio Hondo from the highway.

A delegation from Lost Valley Hills came before the court asking that their road be paved. The court endorsed the need for paving, but explained that no money is available at this time.

Senior Citizens

May Bachelor, representing the Senior Citizens, asked permission to sell refreshments in front of the Bandera County Library on election night, May 5, to raise funds to pay off the new mini bus. Permission was granted.

Precinct 2 Equipment

The bid of Girard Machinery and Supply Co. was accepted for a crawler-loader for precinct 2.

Routine Business

CF Bike-A-Thon Is Saturday

"Our goal is simple: to find a cure or control for the inherited disease, Cystic Fibrosis", said Mary Evans, chairman of the Spring Bike-A-Thon in Bandera.

"We have dedicated volunteers, a national organization, renowned scientists and researchers, and 115 diagnostic centers," said Mrs. Evans. "What we don't have is enough money. That is why the Cystic Fibrosis Foundation is appealing for support to expand research and care programs through the Spring Bike-A-Thon."

Funds raised in the Bike-A-Thon will help support the CF care, teaching and research centers across the U.S., where children with lung diseases are diagnosed and treated with the most modern techinques and equipment.

Although Cystic Fibrosis is still incurable, the average life expectancy affected has been increased from infancy to the teen years, and many patients now live to young adulthood. These giant strides of progress are due to earlier diagnosis and improved methods of treatment, which have developed from a better understanding of the disease.

Bandera's Bike-A-Thon will be held on Saturday, April 19, from 9 a.m. until noon, and it will begin at the corner of Pecan and 11th Streets. Please be willing to show your support for this deserving cause by your participation as a rider or as a sponsor.

Republican Committeewoman To Speak at Lakehills

Mrs. Elizabeth Rohn, State Republican Committeewoman, will be a featured speaker at the Political Rally at the Lakehills Civic Center on Sunday, April 20, starting at 4 p.m. Everyone is invited.

County Treasurer's Quarterly Report Published

The quarterly report of County Treasurer Elizabeth James is published on page 13 of this issue of the Bandera Bulletin, and gives the financial status of Bandera County at the close of the last quarter on March 31, 1980.

The total amount approved by the Federal Disaster Assistance Administration for flood damage recovery under the administration of the county is $718,352. Of this total, $400,000 was received by the county in advance of completion of the replacement and repair work necessitated by the flood, while the balance of these approved funds has not been received to date even though the work was completed in the county by December 31, 1979. Bandera County officials are awaiting inspection of the work by federal authorities, who will also audit the financial records. Transfers totaling $237,420.08 have been made from various county funds to the disaster fund to cover the cost of the flood damage repair and replacement work until final reimbursement for this expense is received from the FDAA.

Bandera Church Hosts Gospel Meeting

The public is invited to hear some "Bible preaching" at the Bandera Church of Christ April 21-27 at 7:30 p.m. each evening.

The speaker will be Charles Wilson. He has been preaching for 20 years, all in Texas, with several different congregations. He has been doing radio work for seven years. Also, he has written a newspaper column for the last six years. He preached for the Church of Christ in Medina during 1969-1972. While living there, he served a term as Rotary Club president. He has preached the last four years in Giddings, Tex.

Charles and his wife, Katherine, have three children, Mitchell, 20; Mark, 17; and Lori Kay, 12.

They are looking forward to seeing many of their friends of the Bandera-Medina area.

THE UNITED STATES IS IN DEEP TROUBLE

The liberal left regulatory political philosophy of the past 30 years has failed. The nation will not survive unless there is a radical change in the nature and scope of government.

The government is in the clutches of people who are unable to comprehend or understand the simple application of "common sense" in the governing process.

People must be warned that if the present system is continued they will lose their spiritual and physical freedoms concomitant with the destruction of the middle class.

Those who do not join in the political process deserve what they get.

All Bandera Citizens are urged to participate in a political rally scheduled for Sunday, April 20, Lakehills Civic Center at 4:00 P.M.

The agenda will include discussion of the issues by questions and answers.

Principal speakers will be Jud Ashmore, KBUC Radio Commentator, and Elizabeth Rohn, State Republican Committeewoman.

Your Support will be greatly appreciated.

Party at Waterman's

In 1968 an idea was born. You watched this idea grow and grow. You worked faithfully on this idea because you believed in it. You did not sit back and wait for something to happen, you helped make it happen. In January of 1974 you saw a part of the 1968 idea coming true for beautiful Lakehills. The concrete slab was poured for the Civic Center. Your worked constantly at any job which needed to be done, so that the Civic Center would become a reality. You were one of the dedicated who helped with the hard labor behind the scenes such as carpenter work, electrical, sewage and other tasks too numerous to mention. You made donations as you served as vice president, president and as a director. Clif Waterman—Lakehills salutes you for your help, guidance and encouragment in making the 1968 idea of the Civic Center come true for Lakehills.

Lakeshore NEWS

Glenda Haley
796-4948

This is the first news column in some years to be written about the community located approximately ten miles southeast of Bandera on the west side of Medina Lake.

Since the newly organized fire department is called Lakeshore, the area served by this volunteer fire department will also be known as Lakeshore. This is the area which was formerly referred to as Wharton's Dock.

The Lakeshore Volunteer Fire Department has received its charter from the State of Texas. An organizational meeting was held and officers and directors have been elected.

Louis Duquette is president; Allen Haley, vice president; and William Bentley secretary-treasurer. The directors are J.B. Lackey, Ray Bowen and Wayne Hildenburg.

A membership drive is underway and all Lakeshore residents and property owners are urged to become members and to participate in the activities and the building of this volunteer fire department. Any person interested is asked to contact one of the officers or directors to pay his membership or to offer his time and services to help get this fire department started. A 1½ ton Willys truck has been donated by Bandera County. Other equipment has also been donated.

At the executive meeting this last week, Allen Haley was appointed fire chief and Wayne Hildenburg is the assistant chief. Future activities were discussed and will be announced in this news column from time to time. The next meeting for all members and other interested persons is planned for April 26 at 2 p.m. at the Copper Lantern. Everyone is urged to attend.

Congratulations to Terry Hodges who won second place in the mile race at the District Track Meet held at [illegible]. Terry is visiting his father, Mr. and Mrs. Sinn Sanford, for a few days.

Roy Morales of San Antonio spent the weekend with his aunts, Mrs. Ida Klauss and Mrs. Dolly Sarran.

H. Baird is in the hospital in San Antonio. It is hoped that he will soon be home again and feeling better.

Very glad to report that John Ciarlo is home from the hospital after having surgery. He is out and around the neighborhood again and will probably be back to work on his house before very long.

Mr. and Mrs. Bethel Lackey have had his brother, Tom Lackey, from Freeport as a visitor the past few days. He and Bethel were doing some fishing until the weather turned so windy and cold.

Larry York, who has been here at Lakeshore for the past month, left Sunday to return to his home in Lewisburg, Kan.

Wendy and Misty York of Houston were here visiting their father and family, Mr. and Mrs. Bob York, during their school's spring break.

Arriving on Friday were Sonny Sanford and Danny [illegible] for a few days. They are visiting their father, Mr. and Mrs. Sinn Sanford, for a few days.

Your generous support will enable us to better serve the needs of you and your neighbors should you be unfortunate enough to need us. In case of fire call 535-4511. 41-1tc

During the first three months of 1980 the Pipe Creek Volunteer Fire Department has received donations for the following: K. Dahlman, J. Klauss, Bandera Auto Supply, Pipe Creek Homemaker's Club, C. Nicholas, L. Valdez, A. Matthews, M. McNabb, W. Jackoway, G. Goodenough and C. Arnold.

Don't forget to mark your calendar and make a date with us for May 17 and 18. Besides enjoying the good food which is always available at P.C.V.F.D., you can visit with old friends and meet new ones. We'll be seeing you there!!

Sixty dozen brightly colored eggs made the surrounding grounds and trees of the Pipe Creek Volunteer Fire Department look like a flower garden as both the men and women of the department welcomed 51 children, many with parents in tow, to an Easter Egg hunt on April 5. Each child was greeted by the Easter bunny , who presented him with a hand-crocheted bunny stuffed with a plastic egg full of goodies. The children were divided into age groups—those 1 thru 4 years and those older than 4 through 13 years. The "Big Hunt" was on! Prizes were awarded the child in each group who found the most eggs.

Homemade cookies, punch and coffee were served. After posing on and around the fire truck for photographs, everyone took their Easter baskets of eggs and went happily home. The joy and pleasure exhibited on the faces of the "little ones" caused many an "oldster" to pause and reflect on their own childhood memories, making the whole afternoon more than worth the effort.

Eleven-year-old Jolene Bulter, a fifth grader at Bandera Elementary School, is a contestant for "Little Miss Pipe Creek Volunteer Fire Department," a title she won last year.

Each cent she collects for the Pipe Creek Volunteer Fire Department is also a vote for her.

Welcome to our new postal clerk, Mrs. Gerda Robinson. Gerda has resided in Pipe Creek on Bear Springs Road for almost two years. The two Robinson children attend school in Bandera.

Everyone interested in a better trained dog is invited to the dog obedience training class on Tuesdays at 7:30 p.m. at the Pipe Creek firehouse, sponsored by the 4-H Club. All dogs must be on a leash and have a current rabies shot. Adult leader will be Connie Schultze of Boerne, with Mary Bolen of Pipe Creek as junior leader. There will be no charge , but donations for the 4-H Club will be accepted.

The Pipe Creek Volunteer Fire Department meets on the second Thursday of each month at 8 p.m. Everyone is welcome to come and participate to help the fire department to function for the benefit of the total community.

Three From Bandera Join American Simmental Juniors

Cattle may be registered at regular ASA rates.

Founded in 1960, the American Simmental Asan. now numbers more than 13,000 members, of which nearly 1,300 are listed as juniors. Simmental cattle originated in the Simme Valley of Switzerland and were imported to North America in 1967. The breed currently ranks fourth among U.S. beef breed organizations in the number of animals registered annually.

One lady stated she tried so hard to get everything planted, including her tomato and pepper plants. By Saturday afternoon she was thankful she didn't get her plants put out. A cold gusty norther blew in early Saturday morning, with thunder and lightning, some rain, small hail at places, and sleet. Sunday morning we had a 32 degree temperature and only .03 inches of rain.

Conservation Is DAR Topic

Mrs. Emmit E. Schmidt, Sr., presented a program titled "Conservation", to members of Bandera Chapter DAR at their regular meeting Thursday, April 10. She asked members to keep a list of the weight of bird seed fed to wild birds and corn fed to the deer and other wildlife so that she can include this information in her annual DAR report. Other conservation measures are to use fireplaces and wood burning stoves in place of electrical and gas heat. Car pooling, especially in rural areas is a definite fuel saver.

Bandera chapter, in weaving "A Tapestry of Service," received awards at the state conference in the following categories: Assistance to the American Indians, Children of the American Revolution, Constitution Week, DAR magazine subscription increase, DAR service to veterans-patients, flag of the United States of America, insignia, junior American citizens, junior membership, public relations, and contribution to Selmes Microfilm Center. Senior Citizens News

Remember our flea market and bake sale May 3. The place will be announced later. We will be grateful for anything you can contribute toward this project. Please drop it off at the Senior Citizens Activity Center, 13th and Hackberry, anytime between 9 and 5 Monday through Friday. The proceeds are to go toward payment of our mini bus. It's so nice to once again have a bus for transporting our Senior Citizens and for delivering lunches to those not able to come to the center. We do thank the sheriff's department for the use of a car during the time we were without the bus. There must have been a few raised eye-brows among the neighbors when the sheriff's car drove up, but they soon learned it was for transportation to the doctor, grocery, bank or what ever and not a jaunt to the jail.

Again, please bring us anything we can sell, be it cast-offs, old jewelry, bric-a-brac, appliances that work, utensils, dishes, and home canned items really go big.

For further information call 796-6969.

Our April bunco party will be Thursday, April 24 at 2 p.m. at the Center. So mark this date on your calendar and y'all come.

A THOUGHT FOR THE WEEK

By John M. Grimes

How many times have you caught yourself knocking on wood while thinking, "I hope that doesn't happen to me, or I hope that would happen to me?" Have you ever wondered where this custom started?

Knocking on wood is about as old as primitive man's efforts with the powerful force that ruled him, namely nature. The Druids of ancient England made a big thing of it—knocking on wood (a tree) to summon spirits to ask for help, a favor, or to give thanks for these things. In time this had spread to latter-day Ireland. The Irish, of course, knocked to call the leprechauns to thanks them for good luck. As religions of many kinds spread over the world, touching a wooden cross in Christian hands became a substitute for prayer in some societies, and supplanted the Bible in Oathtaking....So, over the centuries, many customs came and went, but knocking on wood is still with us.....

APRIL 22 PROCLAIMED 'EARTH DAY '80' 10th ANNIVERSARY OF OBSERVANCE.

In 1970 Earth Day was organized primarily by students. It occured largely on campuses and was mostly about the need to control pollution. The event was a manifestation of the times, a period of intense social and political activism. In 1980, what is Earth Day to be?

Ten years ago, before the first Earth Day, hardly anyone could tell you what the word "ecology" meant. Now virtually any schoolchild can define it. This is a profoundly significate change. We may not have yet rescued the physical environment from threats to its health and stability, but certainly society has been equipped with the tools needed for the task. The rock upon which this movement is truly built is the steady ever growing public commitment which Earth Day 1970 helped to inaugurate. Earth Day '80 will celebrate and reaffirm that commitment.

April 22 is a historic date. Ten years ago millions of people demonstrated their support for a cleanup in this nation's values. They participated in rallies, teach-ins, street fairs, festivals and demonstrations. They added momentum to a movement that had its ideological roots before the turn of the century, but which failed to reach prominence in our national agenda. Few people realized the profound and exciting effect their actions would have on society. For they had launched no less than a sweeping re-ordering of the way this country does business. A new dimension of concern and evaluation would be added that required a recognition of our responsibility to act as stewards of an awesome heritage.

That day was Earth Day—the day this country awoke to the fact that we have only one earth and we had better take care of it. April 22, 1980, recognizes that our job is not over; nor will it ever be as long as we have to exploit nature for our survival. Earth Day '80 signals a rededication, in a crucial year, to those goals that are in our true self interest, to goals expressed in a public pledge a decade ago and remembered in a public celebration. Organizers of Earth Day 2 will concentrate activities on educating the public and encouraging it to act in support of environmental goals and programs.

As his first official act of the new decade President Carter proclaimed April 22 as Earth Day 1980. The President declared that the nation "must achieve another decade of environmental progress", and stressed the need to place special attention on "community activities and educational efforts directed to protecting and enhancing our lifegiving environment. President Carter said that in celebrating the new Earth Day, Americans should "rededicate ourselves to our great goal—freeing the people of this north from disease, pollution, and the lack of basic necessities; and from the destruction of our common natural and cultural heritage."

He added: "Let us rededicate ourselves to the creation and maintenance of safe and healthy surroundings, to the wise husbanding of the natural resources that are a pillar of our well-being, and to the protection of free-flowing streams, majestic mountain forests, and diverse landscapes pulsing with life."

Dallas Florist Aids Theater Benefit

Howard Eckhart

By Peggy Lane

Howard Eckhart of Marty Swartz Flower Selections, Dallas, did the centerpieces for 115 tables in the Hyatt Regency Reunion Ballroom and worked with costume designer Bob Mackie in coordinating flowers for a Dallas Theatre Center benefit luncheon and style show.

Mackie, winner of four Emmy awards and twice nominated for Academy Awards, for "Funny Lady" and "Lady Sings the Blues," has created costumes for Barbara Streisand, Carol Burnett, Cher, Ann-Margaret, Diana Ross, Raquel Welch and many more.

The show was sponsored by the Women's Committee of the Dallas Theater Center and Richard Brooks Fabrics, and was underwritten by DuPont and McCall patterns.

Not only did Eckhart donate his time and talents to the civic project, which raised more than $75,000 for the theater center, but he supported the project as well by attending the show and inviting three fellow florists as his guests.

At the Library

The aroma of good homecookin' filled the library Monday during a luncheon held by the Bandera County Library board of trustees for Judge Vander Zee and the Bandera County Commissioners. This annual event provides an excellent opportunity for the library board and the commissioners to exchange ideas about the library in an informal atmosphere.

New books just added to our shelves this week are: Ashes in the Wind by Woodiwiss; The Silver Dolphin by Velda Johnston; Salem's Lot by Stephen King; The Bourne Identity by Robert Ludlum; Creek Mary's Blood by Dee Brown; Hungry As the Sea by Wilbur Smith; The Brethren by Woodward and Armstrong; and Free to Choose by the Friedmans. We'll be glad to put your name on a waiting list for a new book if it's not in the library when you are.

The library is now subscribing to both Newsweek and National Geographic magazines, and the latest copies are always available for in-library reading.

Watch this column for details on the summer reading program for students. It will begin shortly after school is out. We are making plans for a story hour, including the use of film strips and cassettes. Movies will also be shown in the library which will be of interest to both adults and children.

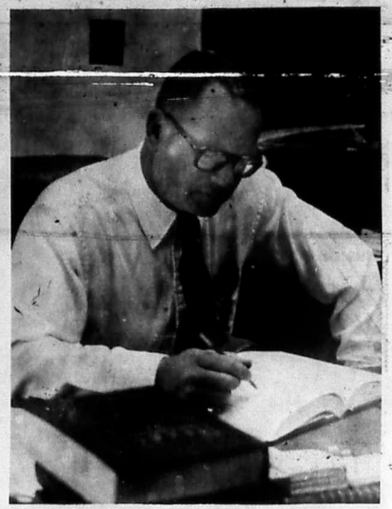
Members of the Bandera Unit of the American Cancer Society met Monday to make plans for the local Cancer Crusade campaign now underway. Workers are (back) Mrs. Dottie David; (middle) Mrs. Anna Childs, Mrs. G.M. Merritt, Mrs. Dorothy Keese; (seated) Mrs. Helen Ahr, Mrs. Sophia Adams and Mrs. Elsie Brooks Smith.

Each community in the county will be visited by the crusade workers.

The group expressed regrets that Mrs. Dottie Davis, president, resigned and will be moving soon to Provo, Utah, to make her home.

Terri Voigt, field representative from the Uvalde headquarters distributed work packets.

Anyone in need of assistance from the American Cancer Society may contact any of these ladies.



The Bandera chapter of the National Assn. of Legal Secretaries (International) installed officers and held their first official meeting on Thursday, April 3, at the University Savings meeting room. Joe Mike Egan, candidate for District Attorney.

Joe Egan has pledged to be a full time District Attorney. "I think the D.A's duties should always come first," Egan has said. "I will drop my private practice in total if elected. Our area is growing, and I don't think the voters want any conflicts of interest to be possible where the District Attorney is concerned."

One-Act Play Attends Area Contest

By Edward Alanis

One-Act Play cast and crew travelled to Luling on April 10 to participate in the U.I.L. Area contest. They advanced to this contest having won at the district level.

Although B.H.S.'s play, "A Canterbury Tale From the Wife of Bath," did not qualify to advance to the regional contest, it did gain some awards. Patricia Studstill, playing the character of Lady Bumble, was selected as a member of the Area All-Star Cast and Sharon Wyrick, playing the Old Crone, received honorable mention to the All-Star Cast. The All-Star Cast consisted of only 12 members and only eight students received honorable mention.

Palacios High School, performing "Androcles and the Lion," and Weimar High School, performing "I Never Saw Another Butterfly," were selected to advance to the regional contest. The expert critic judge was Ms. Mavoureen Dwyer, a drama professor from Baylor University. Ms. Swyer appreciated many aspects of Bandera's play and congratulated the cast for good sportsmanship and a fine performance.

Everyone enjoyed a big cast party to meet actors from other school before departing the contest.

"An important aspect of the quality of life we enjoy in the Hill Country is the relative freedom of our citizens from the fear of crime."

Joe Grady Tuck, District Attorney

Joe Grady Tuck was first elected District Attorney in 1972. In his 8 years of service to the citizens of the 216th Judicial District, Joe Grady Tuck has compiled an impressive record. A record reflecting leadership and accomplishment. District Attorney Joe Grady Tuck has worked closely with the Consumer Protection Division of the Attorney General's office in protecting the rights and property of our senior citizens. He has worked with the farming and ranching communities to obtain a conviction in every livestock theft case he has prosecuted. His hard work in urban areas has led to a decrease in crime at a time when crime has been on the rise in other parts of the state.

Our chief felony prosecutor has a proven record of accomplishment. Let's keep this leadership working for all our families.

Nightingale Attends Acupuncture Seminars

Dr. Conrad Nightingale recently attended several days of seminars on the study of acupuncture at the Intermountain Veterinary Medical Assn. meeting in Nevada.
Dr. Satoru Ishizaki, D.V.M. from Hiroshima, Japan performed a demonstration at a local veterinary hospital where an animal was anesthetized with the use of acupuncture needles and completely relieved of any pain sensations so that surgery could be performed. This animal received no sedatives or tranquilisers as we know them today.
There will be another seminar at Purdue Univ. in June that Dr. Nightingale hopes to attend where he will receive actual training in the use of this ancient Chinese art.

SACRIFICE OR INVESTMENT?

by David Keese

Jesus said, "Truly, I say to you, there is no one who has left houses or brothers or sisters or mother or father or children or lands, for my sake and for the gospel, who will not receive a hundred fold now in this time...and in the age to come eternal life." Mark 10:29 & 30.

Even though few of us are called to give up family, friends or lands for the gospel, we are regularly asked to give of ourselves in some way in service to God. We usually accept these sacrifices as a necessary part of our Christian duty. From the verses in Mark 10, however, these "sacrifices" appear to be more like "investments" in our spiritual lives. What business man would turn down an opportunity to obtain a one hundred fold return on an investment? Many Christians, however, overlook this great principle in regard to our giving to the Lord and His return to us.

Working with young people today is one of the greatest opportunities for "Spiritual Investment." The power of youth is tremendous, and the directing of this power toward spiritual goals is a great responsibility. The investment of our time, effort, and love in this area will reap benefits not only now, but in the years to come.

Sunny Glen Children's Home has been involved in this kind of investment in working with young people during the past forty years. Superintendent, John Calvert, along with the houseparents and staff at Sunny Glen Children's Home, have dedicated a large part of their lives to God in service to young people. Their efforts to provide a Christian home is a worthy task and has shown great results in the lives of many young men and women over the years. Surely their investment of time and effort has been greatly rewarded.

As a member of the "AGGIES FOR CHRIST" I have become aware of the many opportunities to invest time in working with young people. Twice each year we are able to spend several days with the young people at homes such as Sunny Glen Children's Home throughout Texas, Arkansas, Oklahoma, New Mexico, and Mississippi. Several weekend trips during the year also allow us to work with young people of many congregations in Texas. Many people would consider this a tremendous sacrifice of time, but I and the other "AGGIES FOR CHRIST" consider it time well spent. We realize that young lives are being influenced for Christ and our own lives are also being enriched as well through our service to God.

NOTE: Brother David Keese graduated from Texas A&M University in 1977, Magna Cum Laude, with B.S. Degree in Aerospace Engineering. He is currently enrolled in the School of World Evangelism at A&M Church of Christ. He is a member of the "Aggies for Christ" and has been on our campus with them several times.
