Bulldogs Meet St. Anthony Friday

The Bandera Bulldog varsity football team starts the new season playing the varsity team from St. Anthony's High School of San Antonio.

The game will be played in Bandera at Bulldog Stadium on Friday, September 4. Kick-off time is 8 p.m.

The season promises to be an exciting one and all the Bulldog fans are expected to be on hand Friday.

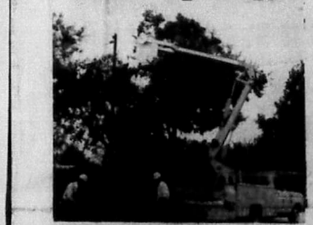

Change In Football Schedule

There has been a change of schedule for freshmen and junior varsity football games this week.

The freshmen will play St. Anthony here starting at 7:30 p.m. rather than at 5:30.

The junior varsity will play at St. Anthony rather than here.

Conserving Energy

These workmen from Bandera Electric Cooperative are trimming trees in order to conserve energy. Electrical energy can be "bled off" by tree limbs that touch or are merely near power lines, causing a loss and waste of energy, according to Leroy Sprott, who works with the trimming crew.

At Commissioners Court

The Bandera County Commissioners' Court met briefly Monday afternoon, August 31.

They voted to transfer the funds from the permanent school fund to the Bandera and Medina Independent School Districts. This money is available only for use for permanent improvements.

The court also discussed radios for use by the Lakehorn Volunteer Fire Department.

Present for the meeting were Rein J. VanderZee, judge; Jim Russell, Stanley Tschirhart, Bob Ashley and Bud Thompson, commissioners, and Vera King, deputy clerk.

Softball Ratings

Men's: Bullets 7-1, Rattlers 6-1, Wranglers 3-4, Charron 3-5, Utopia 2-4, Kilowatt 2-5, Renegades 1-6.

Women's: Utopia 6-0, Purple Cow 5-3, GST 2-4, First State Bank 1-6.

Hicks Has Found A Home

After spending most of his football career in the offensive and defensive backfields, Texas A&I sophomore Greg Hicks has found a home as a wide receiver.

The 5-11, 175-pounder from Bandera was switched to the wide receiver slot during spring training and that move is proving beneficial to the Javelina receiving corps.

In the Javelinas' most recent scrimmage, Hicks was the leading receiver, catching six passes and two for touchdowns. He had had a touchdown reception in an earlier scrimmage in the week.

Hicks was used as a quarterback most of his high school career, but played in the secondary on occasion. As a freshman at Texas A&I he was used in the secondary. Then came the move to receiver in the spring.

"I like being a wide receiver," Hicks says. "I feel comfortable there."

Greg Hicks

Like most of the Javelina players who participated in an off-season weight program, Hicks has gained weight during the past nine months. He's up from 160 pounds to 170.

He hopes he doesn't gain any more weight "because of track." He said any additional weight will hamper his speed.

Hicks was a quarterback for the Javelinas last spring before a pulled muscle forced him off the team. He does plan to be back with the squad this spring.

In high school, Hicks won the district title in the 400-meter and 800-meter dashes as well as in the long jump and was on the 400-meter relay team that took second. He finished second in the quarter at the Region IV-AA meet in Kingsville and ran in the state meet.

But at the present, he's concentrating fully on football and his new receiver position. And he's hoping he'll be able to contribute to the javelina cause as a receiver as well as he's done in the spring and pre-season scrimmage this fall.

Final Soccer Registration Is September 5

The Bandera County Youth Soccer Assn. will hold its final registration on Saturday, September 5, from 10 a.m. to 3 p.m. in the Community Room at First State Bank.

All players must register. Registrants should bring proof of age such as birth certificate, hospital records, etc., and the $12 registration fee.

Anyone who wants to play and cannot attend registration should call Cindy Woodland at 796-4914.

Have You Registered?

A list of Selective Service registrants born in 1962 and the first part of 1963 has been posted in the Bandera County Courthouse.

According to Col. Paul Dean Aikin, state director of Selective Service for Texas, the Military Selective Service Act requires that the names of Selective Service Registrants be posted in a public place within each local board area.

Local board tentative assignments have been made based upon the zip code of the registrants permanent home address.

Col. Aikin says the law (Military Selective Service Act) still requires all young men to register with Selective Service at age 18.

Currently, men born in 1963 are required to register within 30 days before or 30 days after their 18th birthday. Registration forms may be completed at any United States Post Office.

If any young man failed to register on time, he may clear his record by registering as soon as possible.

Mazurek's Fence Wiped Out Again

The driver of a car lost control of his vehicle at the curve at Lakehills near Mazurek's place and the Red Hen, tearing out part of the fence after hitting a road sign.

Scott Edmonds was charged with DWI.

In District Court

Three cases were disposed of in 216th District Court, Judge Myrlin R. Johnson presiding, on Friday, August 28.

Terry Bruce Cook was adjudged guilty of theft, more than $200 but less than $10,000. He was sentenced to three years in the Texas Department of Corrections.

James Virgil Hinesley, was found guilty on two charges of DWI, subsequent offense. He was sentenced to two years in the county jail, but the sentence was probated.

Teachers Doing A Better Job Than Parents

The public schools and their principals and administrators are doing a better job educating students than parents are "in raising their children to be self-disciplined and responsible young people."

That is one of the findings of the 13th annual Gallup Poll on Education sponsored by the National Association of Elementary School Principals (NAESP), the National Association of Secondary School Principals (NASSP), and the Charles F. Kettering Foundation.

The poll also shows that the public sees a need for both student and teacher testing, that people perceive discipline to be the major problem in schools, and that the level of confidence in the school's performance remains about the same.

Respondents were asked this year to grade parents "in this community for the job they are doing in raising their children to be self-disciplined and responsible young people." Five percent gave parents an "A grade;" 34 percent gave them a B; 36 percent a C; 18 percent a D; and 11 percent failed them. Eight percent indicated they did not know.

"The success of the public schools is this in no small part to the kind of job parents do in rearing their children in the home is no responsible in our society," wrote George Gallup in his analysis of the poll. "It was thought, therefore, time to raise the schools and teachers it would be only fair to rate the kind of job parents are doing."

When asked about the performance of their community schools, respondents awarded slightly more A's and B's and less D's and F's than they gave parents. The grades were: A's, 8 percent; B's 27 percent; C's 34 percent; D's, 13 percent; F's, 7 percent; and 10 percent indicated they did not know.

"The 1981 survey provides further evidence that the decline in the ratings given by the public to the public schools in their communities has apparently come to a halt," Gallup wrote. "Only slight changes have been recorded since 1976."

School principals and administrators received almost exactly the same rankings as did schools: A's, 10 percent; B's, 25 percent; C's, 28 percent; D's, 13 percent; F's, 8 percent; and 15 percent of the respondents said they did not know.

Among the problems public schools face, discipline continues to be number one, but a slight decline has been registered since last year when it was mentioned by 26 percent of the respondents; use of drugs, 15 percent; poor curriculum-poor standards, 14 percent; lack of proper financial support, 12 percent; difficulty of getting good teachers, 11 percent; integration-busing, 11 percent; large schools-overcrowding, 5 percent; parents' lack of interest, 5 percent; teachers' lack of interest, 4 percent; lack of respect for other students-teachers, 4 percent; and pupils' lack of interest-truancy, 4 percent.

There is increasing support among Americans for a national test that high school students would have to pass before receiving their diploma.

Only half of the respondents supported that idea when the question was first asked in 1958. This year 49 percent were in favor of a national exam - an increase of 19 percentage points.

BVFD Answers Two Fire Calls

The Bandera Volunteer Fire Department answered two fire calls last weekend.

Saturday evening they were called to the Langford apartments on Cypress Street where a small fire in a bed was quickly extinguished. Damage was confined to a bed and some chairs in a ground-floor apartment.

Monday at about 2:30 a.m. the firefighters were called out again to a fire reported to be at the Silver Dollar on Main Street. The call turned out to be a false alarm.

One Killed In Auto Accident

Dottie Ashmore, 17-year-old daughter of well-known TV and radio personality Jud Ashmore, was killed in a head-on collision on FM 1283 Tuesday evening.

A light rain was falling at the time and may have contributed to the accident.

It appeared to investigating officers that Miss Ashmore's car went off the pavement onto the shoulder and when she pulled the vehicle back on the road her wheels locked and her auto slid into the one driven by Marlene Page of Lakehills.

Mrs. Page, who was injured, was taken to Methodist Hospital in San Antonio for treatment.

Funeral services for Miss Ashmore will be held Saturday, September 5, at 10 a.m. at Sunset Memorial Funeral Chapel in San Antonio.

Friends who wish may visit at the funeral home Friday between 5 and 9 p.m.

The family asks that those who desire send a memorial to the Virgil T. Blossom Scholarship Fund, care of Northeast School District in San Antonio.

Besides her father, she is survived by her mother, Barbara Ashmore, a sister, Jeannie, and a brother, Jamie, all of San Antonio.

Dottie was a senior student at Lee High School in San Antonio.

Submariners To Convene September 16

The national convention of U.S. Submariners of World War II will convene in Sacramento, Calif., on September 16-20, with upwards of 2000 submarine veterans and families attending.

In addition to the normal convention activities, a full slate of tours and other entertainment will be provided. The USS Gudgeon (SS 567), one of the three remaining diesel boats in commission, will be tied up for tours. The Saturday night banquet and installation of officers is always the high point of the reunion. Last year in St. Louis, more than $25,000 in volunteer contributions to scholarships was donated in the "Marchs To The Podium." That amount is expected to be exceeded this year. Interest and attendance is increasing each year and those desiring to attend should make travel and lodging arrangements immediately.

Mr. and Mrs. J.D. McLemore will be hosting a social and get together for all submarine veterans and their families at their ranch in Kemp, Tex., the second weekend in October. This is an annual affair. Parking and hook-ups for recreational vehicles will be provided, but room accommodations must be made in advance. Those desiring further information on either of these activities please contact James A. Woodall, State Secretary, P.O. Box 1308, Galveston, Tx 77553, Phone (713) 765-7910.

Grand Jury Met Friday

Five true bills were returned by the grand jury, 216th District Court on Friday, August 28.

Two cases were for burglary of a vehicle, and one each for possession of marijuana, more than 4 ounces; theft, more than $200 but less than $10,000; and DWI, subsequent offense.

One case was passed and there were no no-bills.

Donations To BVFD

According to City Secretary Rexy Sandidge, donations to the Bandera Volunteer Fire Department from the Bandera Water Control and Improvement District No. 1, amounted to $267.50 in July and $188.81 in August.

AROUND LAKEHILLS

One Has a Choice

It will be a great weekend in LH. There will be the MLVFD barbecue, family gatherings, boating, fishing, and two name bands playing for dances.

Bouquet of Roses For:

Mrs. Arnold Haby who is ill.

Marie Pickett for tending her at the MLBA dance.

Jenny Peryon

Olga Bradford who is ill.

Alma Martin on her birthday September 9.

Earth Day

All beauty lovers are looking forward to Sunday, October 4, the second annual Earth Day.

Everyone who wishes to participate should be at the Civic Center at 1 p.m. on October 4. This project is sponsored by attorney Bob Caswell.

Folks You Know and How They Met

J. Boone and Jean Baker of Austin met while they were students at the University of Oklahoma.

Revs. Dan and Jeanne Devine met when they were students at Yale University. Jeanne was impressed by the tall Texan.

Hal and Sandi Olson met at a posh club in Big D.

C.E. and Florence McMahon met at a dance in MacDona.

Leroy and Gwen Akin met in a cafe in Tahoka.

Flea Market

President Shirley McCollum of the MLBA announced today that a flea market will precede the judging of the Great Gumbo Cook-Off (9 a.m.—5 p.m.) at the Civic Center. Inside tables are $5 each and outside tables are $3 each. 8-1tc

Condolences

The community of Lakehills extends their sympathy to Judge Ed Jennings of Pipe Creek in his recent bereavement. His wife, Ann, had many friends in LH who will miss her.

The Dance

A large crowd attended the Saturday evening dance at the Civic Center. It was nice to see the Bandera crowd. Door prizes were won by Douglas Forster of SA, 10 gal. of gasoline donated by the TOAH Mobil. David Mauer won the armadillo ash tray donated by Turk's Grocery and Wilvie Smith of Bandera won the tickets to the next dance.

Memories of a Tour

They were gone 20 days and toured 11 cities. In London they saw Piccadilly Circus, Buckingham Palace, the changing of the Guards, Houses of Parliament, Big Ben, No. 10 Downing Street, St. Paul's Cathedral, Westminster Abbey and the white cliffs of Dover. In Paris they were excited over Napolean's Arch of Triumph, the Eiffel Tower, Notre Dame Cathedral, the Louvre Museum, where they saw the famous Mona Lisa painting and Versailles. In Lucerne they viewed the Lion monument and attended a yodeling program. Michelangelo's statue of David and a cathedral were visited in Florence. In Rome they saw the Forum, the domed Pantheon, the colossal coliseum and St. Peter's Basilica, Trevi Fountain, and Tiroli Gardens. It was a sound of music tour in Salzburg and a ride down the Blue Danube. The Olympic site, Nymphenburg Palace and the opera house were visited in Munich. Making this tour were Dana Alanis, Dana Beman, Kari Weeks, Jim Muller, Mike Stevens, Kathy Hahn and Tudi Glasscock.

Congratulations

Congratulations were extended to Mrs. Matt E. Dugosh of Mico on her retirement as personal secretary and office manager for Dr. C.C. Shotts in SA after 33 years of service. Mrs. Dugosh, who was commended for her faithful and loyal service, will be honored at a retirement party at the Oak Hills Country Club in SA by Dr. and Mrs. Shotts in September.

Condolences

Condolences are extended to the family of Witcher Saunders.

Neil's Birthday Party

Thirty friends celebrated the birthday of Neil Flores at the lakeside lawn at Gene and Barbara Otts home Monday evening, August 24. Everyone enjoyed sampling the chili which Chef Gene prepared instead of the traditional hors d' oeuvres. A variety of covered dishes and a birthday cake made the occasion a wonderful evening.

New Businesses Reflect Growth

The growth of Lakehills is reflected by the number of new businesses. The Gaines Plant Shop, which offers a variety of plants, is one of the latest business shops in LH. Coming soon will be an electrical and plumbing supply business which will be operated by Kenneth Gonsoulin. His business will be located next door to the post office.

The Passing of the Gavel

Gene Laue, commander of the American Legion Post 410 of LH for two consecutive terms, passed the gavel to Ray Mauer in a ceremony Thursday evening at the Legion Home. The new officers are first vice commander, Tony Kruse; second vice commander, Ralph Willis; adjutant officer, Sam Brown; finance officer, Leon Saliman; chaplain, Norris Darrow; service officer, Gene Laue; historian; Travis Latham; and sergeant at arms, Glenn Stuffelbean; Barbara George was installed as president of the ladies auxiliary; Ruth Tschirhart, vice president; secretary, Eleanor Laue; treasurer, Sue Kruse; chaplain, Ruth Cowley; historian, Louise Marmor; and Myrtle Barth, sergeant at arms. Stanley Tschirhart, past District 11 commander, and Jerry Mauer, past department officer and past president of the auxiliary, were the installing officers. After the installation Karrie Oehler gave a report of her activities at the recent Girl's State.

Membership Drive

The annual membership barbecue dinner will be hosted at 5 p.m. September 26, at the Legion Home First vice commander Tony Kruse urges all past members to send in their renewal notice now. If you are eligible and not a member, or a member of another Post, and want to transfer, see Tony at the dinner.

NCR Party

Employees of National Cash Register and their families gathered at Pop's Place Saturday afternoon for their annual picnic. Swimming, boating, dancing and a picnic dinner were highlights of the afternoon. Patti Morehouse of PC, Bert Raeer of Boerne and Joe Knight and Hank Taubert, both of SA, coordinated the picnic.

Max the Sax and his Upsetters Band played dance music Saturday at Pop's Place. Michael Holston on the guitar, Jimmy Miller, the drums, Henry Alfaro the base guitar and Max the Sax with his saxophone are new in the area, however, they are well known in SA where they play at private clubs, weddings and private parties.

Condolences

Condolences are extended to Rachel Schmidt of LH and Erma Dixon of SA. Their mother, Maria Baeske, passed away in SA August 25. She is survived by six grandchildren, 19 great-grandchildren and five great-great-grandchildren. She was laid to rest in San Fernando Cemetery No. 2.

The Guest List

Mr. and Mrs. Heinz Wagner of Frankfurt, Germany, spent the day picnicking and boating at Pop's Place Friday. The Wagners are on a seven-week vacation in the U.S. Their hosts in SA brought them to the hill country.

Administrative Council Meets

The administrative council of the LHUMC met September 2 at the church. Formation of the United Methodist Men Organization mission saturation and preparations for the coming charge conference were on the agenda.

The MLBA will provide rice for each entrant and, as space permits, will provide their stove for reheating of the gumbo if necessary. The bowls and spoons will be provided by the MLBA for the sale of all gumbo. The price will be $1.50 per cup, and the entrant has the option of either splitting the profits 50-50 with the MLBA or, if the entrant so chooses, donating as a charitable donation the entire proceeds to the MLBA. After the judging has taken place, the MLBA will take one quart from each contestant which will be auctioned off to the general public to the

TRUSTEE ELECTION DUE

The 7th annual general meeting of the Pipe Creek Cemetery Association is scheduled for September 12, 1981. The meeting will be held at the Pipe Creek Cemetery starting at 7 p.m. All citizens of the Pipe Creek area are encouraged to attend.

An election will be held to elect a trustee for a three year term.

One candidate's name is printed on the ballot and a blank line for a write-in selection of your choice. The person selected as a write-in candidate MUST reside in the Pipe Creek area in order for that person to be actively involved in management of the cemetery.

A THOUGHT FOR THE WEEK

By John M. Grimes

LABOR DAY, instituted during the sweatshop era in our history, is now generally a holiday of affluence for Americans. The symbolism of Labor Day has been lost to many in the enjoyment of the good life. For most of us, the struggle and deprivations of the centuries have faded into the limbo of history and are no longer comprehensible.

This being the case, it may be the better part of wisdom to consider some of the practical aspects of Labor Day as it is now observed. Coming as it does at the end of the summer it is an invitation to one last fling. Countless numbers of Americans will take to the highways, mountains, lakes or ocean. Sadly, there will be accidents. An army of attendants, maintenance crews, firemen, police and rescue personnel will be on hand to minimize the casualties.

So this Labor Day weekend, drive carefully, put out your campfire, handle firearms with care, and use common-sense precautions while swimming. And above all, remember there will be other holidays and other trips. Don't leave the countryside a no man's land of litter when there are millions of litter receptacles around. They are there to help preserve the beauty of our land — so let's use them. Have a happy and safe Labor Day. . .

Lakeshore NEWS

Things seemed pretty quiet this week at Lakeshore, until Sunday afternoon at Wharton's Dock. Ken Pollard put together a jam session comprised of three separate bands playing together and calling themselves the "Wharton's Dock Misfits." Some of the musicians were Jerry Kennedy, Phil Trimble, Walter Mann, Gene Fuller, Caesare Masse, Russell Holbey, Bob Whitehead, Floyd Little, Ken Pollard, Jeff Kennedy, Randy Thaler, Don Shamburger, Bill Birdhouse, and Arkie Blue.

Local residents enjoying the music included newlyweds Mike and Alexis Taylor. They were married Saturday in Bandera at St. Stanislaus Catholic Church.

Deanie and Richard Newman celebrated their 36th wedding anniversary August 31.

Last Wednesday John and Marrietta Overholser hosted a going away party for Chris Hines and many of his friends and relatives. Chris leaves September 2 for Army basic training at Fort Jackson, S.C.

Helen Baxter will be visiting her daughters, Judy and Patricia, and their families in Ft. Worth for the next two weeks while Helen's husband, Charlie, goes to Houston on business.

Last week Ray and Margie Hansen entertained their grandchildren, Nathan and Chris Hansen from Corpus Christi.

Bob York was visited by Harold, Vance and Craig Self, Mike Tucker and Guy Dean Kilpatrick from Dallas.

At their weekend home, Wanda and Roy Lich entertained Hank and Kay Moon of Kerrville and Fran and Wayne Hildenburg with a barbecue.

Marvin, Betty June and Tammy from Ingram visited their friends in Lakeshore. They boated to Pop's Place with Fran, Wayne, Roy, and Wanda to enjoy the music of "Max the Sax" who was playing for the NCR party.

Al and Renene Strong enjoyed a restful weekend at their waterfront home.

We want to welcome two new property owners in our community — Allen McCullough of Boerne and Don and Barbara Saathoff, their children and Don's brother Bubba, from San Antonio.

Don't forget the first Saturday of the month supper at the Copper Lantern. Bring a covered dish and enjoy a fun evening. The meat will be furnished. See you there!

September's news will be written by John Portman and YoYo Mayorga. Phone 796-4436 with your news.

3. Road dedication indicated by survey.
4. Construction and maintenance bonds on roads.
5. All lots or tracts adequate in size.

A thought : "Bad news does not improve with age."
— Judy Powell

We dedicate our column as a living memoriam to our good friend Mary Lou (Cochran) DeHart who passed away Monday, August 24, in the Baptist Memorial Hospital in San Antonio. Mary Lou fought a great fight to conquer the malignancy that struck her several years ago, but at 6 p.m. on Monday it was over.

When the news came the day was saddened and the sun not so bright for her friends and loved ones. She would have observed her 54th birthday on September 27. We all will surely miss her bright happy smile and her hearty laugh and she made it a better world in which to live. Her leadership was outstanding. Our deepest sympathy to her cherished loved ones and friends.

.7 of an inch of rain fell in the Tarpley area.

Mrs. Willie Morris of Rio Hondo spent the weekend in San Antonio visiting her daughter and son-in-law, Joanna and Dana Seamans.

Earl Hood of Rio Hondo was discharged last Wednesday from the Hondo hospital and has returned home. He is improving nicely.

Those who have been sick this week are Marie Hood, Edith Jeffers, and her daughter, Ethel Maxey, and Hazel Purvis.

On Sunday, September 6, Rev. Jack Rotan of Utopia will be the speaker at the Tarpley Baptist Mission.

Many former residents of the Tarpley area plan to be here to attend the Tarpley School reunion and the fire department barbecue. There has been some confusion over the reunion, but the two functions are combined and there will be a charge for the meal which benefits the fire department.

Mary Jordan of Mobile Ala., returned to her home Tuesday, accompanied by her sister, Laura Walzem, for an extended visit.

Senior Citizens News

Would that all audiences were as appreciative of amateur efforts as Purple Hills residents proved to be last Friday night when the Memory Lane Melodiers brought them a program of songs from the past. Imagine their surprise when their physician, Dr. George Meador, appeared in a different role, playing his golden fiddle along with the singers and in a nostalgic solo, "Marcheta!" The Melodiers scheduled practice session was held at the Senior Activity Center following this activity, in anticipation of another program in September.

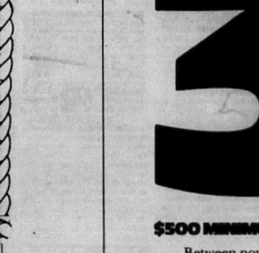

September brings the resumption of classes at the center, without cost to those over 55 years of age. Conversational Spanish with Harold Sherman of Pipe Creek begins on Wednesday September 9, 10, to 11:30 a.m. Please notify the center at 796-4969 by Tuesday if you plan to participate. Art classes begin at 9:30 a.m. Thursday, September 10, with limited enrollment so please notify instructor Olga Bolduc at 796-4839 if you are interested.

A covered-dish luncheon, honoring those with September birthdays, will be held on Tuesday, September 8 at noon. No reservations necessary. Following the luncheon a new film will be shown "Ruth Stout's Garden," on gardening and its benefits as a hobby and money-saver for seniors. Friday, September 11, there will be table games, and now is a good time to set up new groups.

Every day at noon lunch is served to senior citizens for the donation of $1.

Join in the fun! If you have a skill you can teach, or wish to learn (woodworking? exercise crafts?) contact the center as soon as possible. There's a great need for volunteer workers in several community projects (library, school, museum, outreach); if you want to enrich your life, place your name on the growing list of senior volunteers by calling Kay Robinson, volunteer coordinator at 796-3490

Between now and October 1st, you can lock in 30% interest on an investment as low as $500 with our "New All Savers' Bonus Plan."

Then, on October 1, 1981, we'll automatically transfer your funds into the new high-yielding All Savers' tax-exempt certificate. Which means you'll be allowed to earn up to $1,000 worth of tax-exempt interest per individual ($2,000 if you file a joint tax return).

The "New All Savers' Bonus Plan" is a special plan that links an interim purchase of a Security Repurchase Agreement paying 30% per annum to the issuance of a one-year tax-exempt certificate of deposit beginning on October 1. The repurchase agreement is not a savings account and is therefore not insured by the FSLIC. However, the tax-exempt certificate to be issued on October 1 will be insured up to $100,000 by the FSLIC.

EARN TAX-EXEMPT INTEREST.

The interest rate to be paid on the tax-exempt certificate will be the maximum rate allowed by law, fixed for one year, at approximately 70% of the prevailing rate on one-year U.S. Treasury Bills. If issued today, the rate of the certificate would be approximately 11.6%, tax-free, or a taxable equivalent yield of approximately 17% for 30% tax bracket taxpayers, 18% for 35% taxpayers, 19% for 40% taxpayers, and 23% for 50% taxpayers.

To open your account, contact any one of our 75 convenient locations statewide.

The "New All Savers' Bonus Plan"—an incredible offer, only from University Savings.

Carrie Rampt sang "As for Me and My House, We Will Serve the Lord."

The reception followed in the family center of the church. The bride's table was adorned with a three-tiered wedding cake and the punch was served from a hand-painted bunch bowl. Serving the cake was Phyllis Birdwell of San Marcos.

German chocolate cake was served from the groom's table which was adorned with melon halves filled with fruit. The cake was served by Mrs. Henry Schaefer, sister of the groom. The punch was served by Kelly Maier, cousin of the groom. The rice girls were Jackie Jackson of San Marcos, Trisha Hamilton of Bandera, and Connie Mansfield of Pipe Creek.

Texas Heritage
PHOTO BY PERRY

People around the globe know about the beautiful Texas Hill Country but the boundaries and exact location are difficult to define.

One reference says, that the Hill Country consists of approximately 12 million acres of land located west of San Antonio and Austin on the upper elevation of the Balcones escarpment. Using this criteria, one can reasonably assume that the Hill Country is made up of all, or part, of the following counties: Bandera, Blanco, Burnet, Comal, Gillespie, Hays, Kendall, Kerr, Kimble, Llano, Mason and Travis.

A newspaper story in 1835 described the Hill Country in glowing terms. It said there were clusters of large trees and that grass was belly-high to a horse, giving the countryside the appearance of a groomed park. (Note picture from Tapatio Springs Ranch in Kendall County). Due to heavy deposits of organic matter from dead leaves and grass, water run-off was minimized and numerous streams had an abundance of clear fresh water throughout the year. There were lots of wild game everywhere, making the Hill Country a favored habitat for several Indian tribes.

In 1882, C. Hugo Clauss, in lamenting about the "good-old-days" of 1855 when he first came to Boerne and the Cibolo Valley, was quoting in Schuetze's **Jerbuch fur Texas** as saying, "The Valley appears differently today, the river is settled to its source and the songs of the shepherd echoes where not long ago the Comanche shouted his war-cry. The luxuriant forest is overgrown with wild grape vines and the mountains are bedeckt with cedar. The Guadalupe river was laden with fish and shaded with giant cypress trees which now, unfortunately, have mostly disappeared." — Thus we have some evidence of what the Texas Hill Country was like over 100 years ago.

Dogs Pay Back Old Debt

By Trey Shackelford

After a year of waiting the Bandera Bulldogs savored revenge over the Comfort Bobcats by a score of 22-0. The game was played in the Comfort Stadium Friday, September 11.

Less than 45 seconds into the game, the smell of victory was strong as Lee Hornbeck ripped a 70 yard run on the very first play of the game to make it 6-0. Danny Spangler booted in the extra point. Aided by his great running ability, Jim Bob Robbins plunged in for three, short yardage touchdowns. Randy Mauer also scored on a 42 yard pass that was good for six. Spangler added another extra point to make a final score of 22-0.

After reviewing the film of the game, the coaches couldn't decide on an offensive and defensive player of the week. Every area of the team played well, according to the coaches. The Bulldogs still have a long road ahead of them and a lot of things to prove to the people of Bandera and the teams they still have to face. In the words of Head Coach Dan Neuse, "We're two down; we have eight more to go."

Volume Sales Winners Cited

Fred Buchholtz, (r) president of the Texas Land Multiple Listing Service has announced that Pipe Creek Realty-Roundup Realty, owned and operated by David (l) and Geri Valder, was the fifth largest producer in volume sales of its members for the period from January to July 1981. Texas Land MLS Services the entire state of Texas with more than 330 participating brokers specializing in land sales of over 10 acres in size.

Do You Need To Register To Vote?

October 3, 1981, is the last day to register to vote in order to be eligible to vote in the November 3 election, according to Marguerite Stevens.

This is only for new residents of Bandera County or those who will be 18 years old before November 3.

If you have moved during the 1981 year, you need to contact the tax office for a correction on your voter registration certificate.

School Board Adopts New Policy

At their regular meeting September 8, the Bandera Independent School District Board of Trustees adopted a new policy to reimburse teachers who must return to school to meet teaching or emergency certification requirements.

Teachers may, under the new policy, be reimbursed $150 for each three semester hour course. To qualify for the stipend a teacher must be working toward certification in a particular field, must be requested to return to school by the superintendent in order to acquire certification in a given subject area and must furnish proof of completion of courses to the superintendent before reimbursement will be made. The policy will be retroactive to May 1, 1981. Teachers who return to school on their own to work on a higher degree will not be reimbursed.

In other action, the trustees hired Suzanne Pillmer as an additional (the third) kindergarten teacher. She is a graduate of Southwest Texas State University and has taught previously in the Victoria schools.

The board also approved Linda Balson and Susan Hardy as substitute teachers and hired Tammie Hay as a student employee as part-time assistant to work with the junior high football program.

Superintendent Ronald Calons advised the board that school enrollment for the district is up over last year. As of September 1, 1,039 students were enrolled in grades K-12. Of this figure, the elementary school listed 425 students, junior high had 205 and high school 349 students.

Additionally, the trustees received a ratification bonus and rental division order from Clay County of Tetamco finalizing the mineral lease agreement for the county's school land prospect in Maverick County.

The board reappointed Superintendent Calons as its representative to apply for Public Law 874 funds at the U.S. Office of Education during the 1981-1982 school year.

Payment of September bills totaling $206,078.79 were considered and approved by the Board. Of this sum $98,703.79 represented operating expenses.

Attending the meeting were President Thomas H. Keese, Patty Adamson, Richard Evans, Katie Runde, Eddie Jon Ryan, Charlotte Saltzman and Rob Standridge.

Martin Smith of the Bandera Church of Christ gave the invocation.

City Council Names Police Chief, Corporate Judge & Sets Tax Rate

Walter Welch has been hired as police chief for the City of Bandera, and he will begin his duties on Thursday, October 1.

The Bandera City Council approved Welch at its regular monthly meeting held Tuesday, September 8.

Welch is a former deputy sheriff of Bandera County. He served in that capacity for eight years.

Werner Lindig has been appointed corporate court judge for Bandera and also begins his duties on October 1. Lindig for many years was county extension agent.

The city council also approved the 1981 tax rate which was set at 45 cents per $100 valuation. This is the first year that the city has used the 100 percent evaluation. Last year's rate of $1.30 per $100 was computed on 22 percent rather than 100 percent evaluation. The result is an increase of 6 cents per $100 valuation.

As an added convenience, consumers may pay th Lone Star Gas bills and Bandera Elect Cooperative, Inc., bills as well as their water bill, the city offices in t Municipal Buildi beginning October 1. You not have to be a city resid in order to use this servi

Scott attends BHS where he is on the Jr. Varsity football team and a sophomore; Craig, the other son, lives away from home. The Evans bought the Joe Mays home.

Tarpley NEWS

Mrs. Nettie Dean
562-3464

Delayed last week

A thought "Humbleness is always grace; always dignity".

James Russell Lowell

The Tarpley area had 4.5 inches of rain during the week.

Earl Hood had to go back in ICU Saturday morning. He had been in a semi-private room for a few days and seemed to be doing well. He is in the Medina Memorial Hospital in Hondo. We all send best wishes for a complete recovery.

Mrs. Earl Hood was happy for a weekend visit from her sister, Edna Oliver of Baytown, who also visited Earl Hood in the hospital. Irene and Clifton Hood of Shepherd will be here Tuesday, September 8 to visit Earl and Marie Hood. He is Earl's brother.

We extend our deepest sympathy to Edith Jeffers and her family in the death of her brother, Harvey Lee Hand of Leon Springs, on Monday, August 31.

Weekend guests of Elzie and Nettie Dean were Elzie's cousin and wife, Lloyd and Sylvia Dean of Ingleside. They were here for the school reunion. His parents are Wesley and Jennie Gandy Dean, formerly of Tarpley.

Edith Jeffers and daughter, Ethel Mae Maxey, had Margie and Lynn Elbert Jeffers and family of Castroville and Loyd Jeffers of Center Point Sunday in the afternoon they attended the school reunion.

Everyone feels very happy about the Tarpley school reunion and the successful barbecue sponsored by the Tarpley Volunteer Fire Department Sunday, Sept 6. There were many former students and quite a lot of Tarpley teachers and visitors. Many came from out-of-state—Harvey Sauter of Oregon, came greatest distance; the Oscar Hermes of Conway, Ark., the Jack Caldwells from Arkansas, near Conway; Doris Sauter and husband, Selvie, of Miami, Fla.; the Austin Smarrs of Bear Creek, Okla.; former Tarpley teachers. These all came especially for the reunion.

A quote: "The door to happiness opens outward."

The Tarpley area had 1.8 inches of rain Sunday night.

Mr. and Mrs. Bill Morris of Rio Hondo and son Billy drove to Austin Saturday morning to attend the Texas vs. Rice football game Saturday night. The score was 34-3 in Texas' favor. Bill is a Texas ex. They returned home Sunday afternoon.

Ed and Pat Flood and four children leave recently moved to the Lively Ranch. We welcome them to the community.

Sorry to report Mary Hinojosa has been in the Veterans Hospital in Kerrville for some time and will be there for several weeks. She comes home on weekend passes. Her room number is 514. She would appreciate your cards.

Mr. and Mrs. Anson Risner had as guests recently, their daughter and husband, Judy and Steve Johnson of Sunny Mead, Calif.

Mrs. Richard Tatsch, mother of Marilyn Haner, was the honoree at a birthday dinner to celebrate her 75th birthday at the home of Mr. and Mrs. Anson Haner Other guests Saturday night were Mr. Guests at the dinner party were Mr. and Mrs. Richard Tatsch of New Braunfels, Mr. and Mrs. Joe Sweeney of Kerrville, Mr. and Mrs. H.E. Haner of San Antonio, the J.E. Deans, Mr. and Mrs. Doyle Haner of Dallas, and Mr. and Mrs. Herbert Vordenbaum of San Antonio. Alta and Ed Kostecka of Houston spent Wednesday and Thursday visiting her grandmother and uncle, Edith Jeffers and Ethel Mae Maxey. On Thursday, Neil and Allen Wood of Lampasas visited her mother and Ethel Mae.

Marie and Dennie Newcomb and Molly of San Antonio spent Friday night and Saturday visiting her parents Mr. and Mrs. J.E. Dean.

Many friends will be interested to know Earl Hood was transferred Friday to the San Antonio Community Hospital for further tests and observation. He is in room 309.

Slick Lewis has been moved from Kerrville to Methodist Hospital in San Antonio and is reported to be in a stabilized condition. We hope he may continue to improve.

A THOUGHT FOR THE WEEK

By John M. Grimes

What is stress? Today we hear a great deal about the stresses we have in our lives, in our daily problems, in our daily work, in our daily home life..."Stress means different things to different people. Everybody has it; everybody talks about it, yet few people know how to deal with it successfully. It seems there is nothing we can do to make ourselves immune to stress.

We are all subject to knocks of life, to heartaches and disappointments. These can have a pile-up effect that doctors call stress. It has been said that life is like a river...it flows...sometimes encountering rocks, sticks, eddies and whirlpools...It flows. It moves.

There is something we can all do to lessen the difficulties or unhappiness we are encountering. We can "drop out" for a few minutes a day. We can empty ourselves through prayer...talking to Him as though He were physically present. We can unburden ourselves...Yes, we can counteract stress with moments of absolute peace. Moments like this restore us and charge us with energy for what lies ahead. They give us an inner perspective.

Prayer can and does work. These "drop out" moments can nurture us and fill us with the fullness of God and help us along the way....

Senior Citizens News

"Loneliness is Old Age: It sounds cruel to say, but many people earn their loneliness by not giving of themselves, and not investing in friendship when they were younger. The answer is to get busy helping somebody else. It makes you feel great!"

We want to thank all those who took part in the Free Plant Exchange last Friday. Many plants changed owners and there was a lot of good fellowship under the tall trees in the shady yard of the Activity Center. Sallie Lewis and Mary Joe Kirkpatrick were among the hostesses and special thanks go to Minnie Hayes, who spent all day and until 9:30 in the evening, tending the Center!

Center co-director, Glyn Taylor is back from her vacation trip, so be sure to stop by to hear all about it.

Remember that the hours for the Senior Activity Center are from 9 a.m. until 3 p.m. However both of the part-time co-directors, Glyn and Minnie, are generous with their volunteer time, and we have no trouble scheduling evening activities such as the meetings of the Memory Lane Melodeers. Last Friday there were 25 in attendance at the sing-a-long. The group seems to grow more enthusiastic as time goes on. It has received some additional invitations to perform, so get in on the fun if you like to warble the golden oldies. Dates are the 2nd and 4th Fridays at 7:30 p.m. Next performance is at Purple Hills on Friday, September 25, 6 p.m.

Calling all bunco players of Bandera! Come to test your skill and try for the booty at the Big Bunco Bash on Thursday, September 24, 2 to 4 p.m. Or come for lunch - (phone reservation, by 9:30 a.m.) and enjoy your choice of table games on both Tuesday and Friday afternoons.

The birthday dinner on Tuesday, September 8, was the biggest yet. There was a real feast, complete with ice cream and birthday cakes. Jimmie Hughey, our county librarian, brought the film, Ruth Rossi's Garden, and it had everyone in stitches. Many thanks for a wonderful time. She also brought new books to the center which can be checked out just like in the library, including some in extra-large print. Jimmie would like to know if anyone would like to have her borrow more of these easy-to-read gems from the San Antonio library system. Please indicate your wishes, and look over the titles on hand. They are in the activity room in a bookcase made by Al Robinson 54 years ago.

The advisory board of the Senior Activity Center will meet at 3 p.m. on Friday, September 18. All members are urged to be present. Plans for the October activities (circus, Austin trip, center anniversary celebration, etc.) must be finalized.

We're planning a trip to LBJ Library in Austin on September 29. We will leave the Center at 9 a.m. The seats are on a first come first served basis. So be sure to get your reservations in early. Call the center at 796-4969 for any further information.

Parents Honored At Upcoming Game

By: Toni Byam

Recognition will be bestowed upon the proud parents of 25 outstanding football players, Friday night at 7:30, prior to the game.

The reason for this night is to express the coaches' players' and schools' graditude to the parents for allowing their children to participate in the football program. The parents' support, and the sacrifices they make, enable their sons to carry on our schools' football tradition. This night is just a small token of appreciation to our football parents.

Pep Rally Brings Renewed Spirit

By: Charmain Adamson

With the second Pep Rally came the determination to increase school spirit and to pep up the Bulldog team for the upcoming game at Comfort.

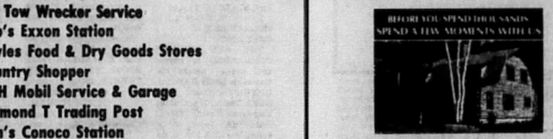

The student body responded with renewed interest when Captain Randy Mauer gave a Spirit talk and Head Coach Neuse talked about loyalty to the school and team.

The Cheerleaders enthusiastically lead several cheers and chants, plus the class competition which the sophomores won.

The twirlers performed two lively routines, and the Bulldog Band added the extra zest needed to make the Pep Rally a success.

The cheerleaders listen as Coach Neuse speaks about school loyalty.

By Sandy Riedner

Bandera Volleyball teams were victorious as they walked out of the Warrior's gym September 10 with their first big win of the season. Both Varsity and J.V. teams left the Ingram Warrior's scalped with scores: Varsity 15-13, 15-12,; and the J.V. 15-13, 15-1.

Enthusiasm was running high as the J.V. warmed up for their first game. The girls improved as they were constantly hustling and always ready for the attack. Christine Caloss had a hot hand as she forced the Warrior's to the floor with her hard-hitting spikes. Of course this could not have been accomplished without the excellent sets of Kim Cherry and Kathy Ryan. Those scoring points were: Kelly Clements, 7; Mary Bolan, 7; Shannon McMullan, 6; Christine Fleming, 4; Catherine Caruthers, 3; and Kim Cherry, 3.

With high spirits the Varsity walked onto the court determined not to be defeated. After a yell, "for the shoes," the Varsity was off. If wondering what "for the shoes" means, Ms. Vogler promised the Varsity a new pair of volleyball shoes if they could make this a victory. They didn't let her down!

Those scoring points were Teresa Welch, 8; Tinker Stein, 6; Diane Mangold, 6; Tiffin Youngblood, 4; Sandy Riedner, 3; Dey Romo, 3.

Halftime shows have been brought to life with the glamour of the B.H.S. Flag Corps.

This year the captains are Diane Mangold and Gretchen Jennings, both have been in the flag corps for four years and are responsible juniors.

Other members are: Dana Beman-senior; Christine Hill-junior; Michelle Speckman, Vicki Bates, Stephanie Mullins, Karen Rizner, Michelle Tondre-sophomores; Kristi Robison, Shannon McMullan, Kim Cherry-freshmen.

Flag Corps adds a nice touch to the band and halftime shows with their soft smiles and their flag corp abilities.

Did You Know . . .

Decriminalization refers to the process of reducing the penalty, which in some states is imprisonment, for possession of small amounts of marijuana. Many people feel that even though marijuana use should be discouraged, imprisonment is too harsh a penalty, especially for young users. Many states have already changed their laws, making possession of small amounts for personal use a misdemeanor and requiring civil fines, mandatory drug education programs, or involvement in public projects instead of prison.

Laws would remain harsh for the dealers of marijuana. Some states have noticed that as punishment for personal possession decreases, punishment for dealing marijuana has increased.

The word decriminalization is often misunderstood and many people think that decriminalization would be just one step away from legalizing the use of marijuana. Decriminalization doesn't mean the drug is "safe" nor "okay," it is merely an attempt to establish a more appropriate punishment for the offense of possessing small amounts of marijuana. Possession of large amounts — usually more than 1 ounce — remains a felony in all states.

Many eligible seniors unknowingly pass up opportunities to receive valuable scholarships and grants that are offered every year. Some of these opportunities are missed because some scholarships require early application.

Part of the scholarships being offered are sponsored by the armed forces. Almost all of these are work study programs in which they pay for a student's education in return for military service.

Other scholarships involve contests and competitions that are conducted statewide, and even internationally. A few of these are the "American Legion Oratorical Award," the "Miss Teenage America Contest," and the "Creative Writing Awards and Scholarship."

If you are a senior and interested in a scholarship or grant, it would be advisable to check with the counselor as soon as possible.

MEDINA LAKE SHRINE CLUB

The next meeting will be at the home of Ed Howard, Lakehills, Saturday, Sept., 26 at 7 p.m.

Prepare Soil Now

September, cooler nights, milder days. Fall not being far away, now is the time to start preparing that seedbed for pasture planting in the spring. From now till the middle of October is the optimum time. By working the land now, ranchers can take advantage of the fall rains.

Land should be disked a minimum of 6-8 inches deep, and allowed to sit or mellow out. This will allow the soil to gather moisture from the fall and winter rains, and for the roughness to smooth out.

In February, about a month before planting, lightly disk soil to break up the crust and to eliminate competition from winter weeds. Fertilizer should be applied at this time (20-40-0 per ac.). Coma March selected variety of grass (Kllengrass, coastal bermuda most common in Bandera County) should be planted.

Grasses should be rested and not grazed the entire first growing season. This will allow plants to develop root systems, produce more forage, and gain in vigor. Followed with proper management, pasture grasses will produce high quality hay and excellent grazing.

Profits will be seen through cut expenses and labor required each year. Good weed control of animals per acre land will support, are all some of the benefits of planting improved pastures.

Pasture planting and management will be one of the topics to be discussed at the Bandera Soil and Water Conservation District's annual Range and Wildlife tour, to be held October 3. For information on seedbed preparation or pasture management, Range and Wildlife tour, contact the Soil Conservation Service in Bandera, personnel will be happy to assist you.

Texas Heritage

By Perry

Lange's Mill, off FM 783 two miles Northeast Doss in Northwest Gillespie County, is described in Alexander and Webb's **Texas Homes of the 19th Century** as, "Another handsome stone structure which reflects the German tradition in its square form and small casement windows."

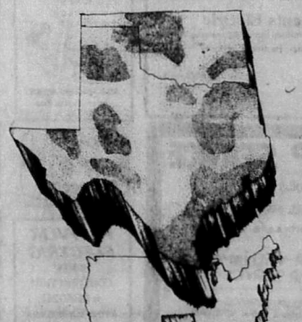

Established by brothers Thomas C. and John E. Doss in 1856, this historic old mill was owned and operated by them as both a sawmill and gristmill until it was sold to August Steiness in 1864 for $10,000 in Confederate money. Mr. Steiness worked feverishly to improve the mill, first by tearing away an adjoining distillery and expanding the gristmill to make both flour and corn meal. He then added a room onto the old house to serve as a community post office when mail was delivered weekly from Cherry Spring.

Following Mr. Steiness' death in 1866 his widow, Mary, sold the mill to William F. Lange for $530.00 U.S. currency. The Lange's, who had just arrived in San Antonio from Germany, inherited quite a thriving business as the mill and its products were well known throughout the area. They, too, made numerous improvements to the mill, including building a bigger dam and replacing the overshot wheel with a turbine. Later that dam was destroyed by a flood and it was rebuilt in 1872-75 by Philip Buchmeyer, a stone mason who used his utmost skill to structure a dam that wouldn't break. It was a remarkable piece of craftsmanship and today both the dam and the old mill are in a perfect state of preservation.

Lange's Mill is still owned by descendants of William Lange, and while it is not open to tourists, the building is located on a public road and the outside view is an impressive sight to people driving through Doss Valley in the beautiful Texas Hill Country.

Why gas is plentiful:

50% of the Gas

There are thousands of square miles of natural gas formations in these nine basins. Industry experts estimate that these basins hold 50% of the nation's remaining onshore reserves. Lone Star's pipeline system extends to eight of them, which should give you a nice, warm feeling for many a long winter. It's another reason to be glad you're served by the Lone Star system.

Gas. It's plentiful, efficient and right for the times.

Parole Violator Nabbed

This airplane made a belly-landing on an airstrip at Medina River Ranch near FM 1283 Wednesday, September 16. The three men who were in the aircraft fled from the scene.

One, who was wearing a cast on his leg and using crutches, was captured a short time later. He was identified as Enrique Valenzuela of Arizona and was wanted by the U.S. Marshall Service for parole violation.

Skunk Believed To Be Rabid

A skunk which died at the home of Mr. and Mrs. Clint Dowell on Cypress Street in Bandera is believed to have been rabid.

Mrs. Dowell reports that Monday she saw the animal acting in a strange and erratic manner and shortly after that time found the animal dead. Local vet Dr. Conrad Nightingale was out of town, so Mrs. Dowell consulted with Dr. Roy Smart, Boerne vet, who stated that it was very likely that the animal had rabies.

Mrs. Nightingale took the skunk to Kerrville Tuesday morning to be tested.

When Mr. Dowell was searching for the skunk to kill it, he saw a squirrel which was also acting "if it were rabid, but it got away before he could kill it.

Tax Assessor-Collector Gives Tax Computation

The Bulletin asked Marguerite Stevens to explain the county tax computation and she kindly submitted the following for your consideration.

There seems to be a lot of misunderstanding regarding the 34 percent increase. This 34 percent has nothing to do with your tax increase over 1980 taxes.

See the form below which the state requires the tax assessor to follow in order to arrive at the effective calculated tax rate. This is an exact copy of how the tax rate was calculated for the county ad valorem. This form was also used to arrive at your tax rate for county special, road district and road bond tax rate. Read this calculation carefully:

A - Farm-to-market Road or Flood-control Tax
B - General Fund Tax
C - Maintenance of Public Roads Tax (Calculate only debt service rate)

Bulldogs Sitting Pretty At 3-0

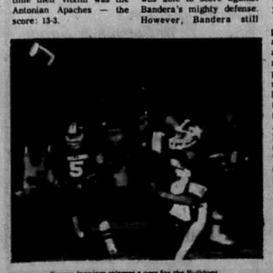

By Charles Newcomer

For the third week in a row the Bulldogs have left the field with a victory. This time their victim was the Antonian Apaches — the score: 13-3.

Antonian proved to be the toughest team the Bulldogs have faced so far this year. They are the first team that was able to score against Bandera's mighty defense. However, Bandera still played an excellent defensive game as they had 5 interceptions which kept Antonian's passing attack to 9 yards, and allowed only 70 yards rushing.

The Bulldog offense performed equally aggressively to the defense as it wrapped up 90 yards rushing and 140 yards passing. The first score was set up when Jimmy Jennings hit Jim Bob Robbins with two 37-yard passes which took the Bulldogs to the Apache two-yard line. Jim Bob got the call again, only this time for a touchdown. The three-play drive was done in the last minute and a half of the first half. The second score came in the fourth quarter when Lee Hornbeck crossed the goal line on an 11-yard run.

This victory brought Bandera's record to 3-0. It also proved what spirit, talent, and excellent coaching can do for a team.

Jimmy Jennings releases a pass for the Bulldogs.

The valuation for the county for 1981 after all exemptions is estimated to be $138,813,770. We cannot expect a 100 percent collection, therefore, we estimate approximately 90 percent collection. Ninety percent of $138,813,770 is $124,932,393, which is the valuation used to calculate the tax rate for 1981. The amount needed to meet the 1981 budget is calculated as follows:

County Ad Valorem — $603,000 divided by $124,932,393 = .00425 x 100 = $.40 per $100 valuation.

County Special — $80,000 divided by $130,156,120 = .00074 x 100= $.07 per $100 valuation.

Road District — $59,400 divided by $134,932,393=.00040 x 100 = $.04 per $100 valuation.

Road Bond — $60,320 divided by $138,932,393 =.00040 x 100 = $.04 per $100 valuation.

Total tax rate to meet the 1981 budget is 56 cents per $100 valuation. The difference between the effective calculated tax rate of 41 cents and the 56 cents is 14 cents. The percentage for this is 34 percent which is what we must publish. It has nothing to do with the tax increase over 1980 taxes. I will say that the overall average tax increase is approximately 83 percent over 1980 taxes. Please keep in mind that the 1980 taxes have nothing to do with the 34 percent increase.

A THOUGHT FOR THE WEEK
By John M. Grimes
Did you ever wonder why the stalks, stems, leaves and flowers of weeds always look so healthy and green? It seems that weeds do best when you ignore them. They seem to thrive on neglect and just seem to do well without any human effort. But just plant a legitimate seed, something which would grow and bear fruit, and a battle royal breaks out! The four "R's" - BIRDS, BUGS, BEATLES and BEASTS — do their best to torpedo the project.
Like the weeds and legitimate plants, there are great differences between men, between the weak and the powerful, the great and the insignificant. It is determination, a fixed purpose. Like the weeds that grow, there are hinderances from without and within, but the outer hinderances never amount to much if there is no inner surrender to them.
Edwin Markham said it well:
"We are all blind until we see
That in the human plan
Nothing is worth the making if
It does not make the man.
Why build these cities glorious
If man unbuilded goes?
In vain we build the world, unless
The builder also grows."

Madrona Garden Club Meets

The Madrona Garden Club opened the club season last Friday afternoon when about 40 members and guests met at the First State Community Room. Mrs. H.L. Bruce gave an entertaining reading from the National Gardener.

Peggy Edwards, Bandera County Extension Agent, presented a program on "Poisonous Plants Around the Home" and showed films of the most common poisonous plants and shrubs.

She said some common house plants and shrubs are beautiful but poisonous. She said, "The U.S. Public Health Service reports that about 12,000 children ingest poisonous plant parts each year, such as philodendron, caladium, elephant ear, dieffenbachia, split-leaf philodendron, sweet pea, hyacinth, iris, chinaberry, castor bean, lantana, azalea, poinsettia, hydrangea, lillie of the valley, holly, wisteria and oleander."

Six safety rules are never eat any part of an unknown plant whether in your yard or in the wild; never chew on jewelry made from plant parts such as seeds; never attempt to make your own "nature tea" unless you the know the plant you are using and you know that the recipe is from an authoritative source; if you grow your own herbs for cooking, make sure they are properly identified.; do not allow children to pick anything in the yard without your supervision; and store seeds, bulbs, and similar materials saved for replanting away from children.

Mrs. Edwards went on to tell of chemical poisons, such as insecticides, fungicides and herbicides, cleaning and laundry products, glue, paints fuels and medicines. They can poison by ingestion, absorption through the skin or by respiratory, inhaled and absorbed through the lung tissues. Symptoms include fatigue, headache, dizziness, blurred vision, excessive sweating, nausea, vomiting, stomach cramps.

Hostesses Mesdames Felix Billings, Hazel Billings and Annie Laurie James served refreshments.

NOTICE

Bandera County Commissioners' Court readopted and authorized republication of the following regulations at a meeting held Tuesday, September 22, 1981.

REGULATIONS GOVERNING SUBDIVISIONS IN BANDERA COUNTY

It is ordered by the Commissioner's Court of Bandera County, Texas, on this 14th day of April, 1980, that the rules governing Subdivisions ordered by this Court on November 15, 1972, and amended on November 13, 1978, be further amended and it is hereby ordered that the following specifications are requirements precident to the acceptance of plats of subdivisions to be sited within Bandera County but situated outside the boundaries of any incorporated town or city, in accordance with Article 6626a and Article 970a of Vernon's Texas Civil Statutes.

The owner or owners of any tract of land situated outside the boundaries of any incorporated town or city in Bandera County, Texas, and who may hereafter divide the same in two or more parts for the purpose of laying out any subdivision of any such tract of land, or for laying out suburban lots or building lots and streets, alleys or parts thereof necessary or convenient for public use, for the use of purchasers or owners of lots of any such tract of land, must comply with the following regulations:

Owners subdividing or resubdividing property in Bandera County should familiarize themselves with the rules for sanitation and avoidance of water, air, or other types of pollution under Article 4477-1 of Vernon's Texas Civil Statutes.

A. PLATS

1. Persons, Corporations, Partners, or others contemplating the conversion of raw or other type of lands into subdivisons or acreage as defined herein, should develop a preliminary plan in sketch form and submit same to the Commissioners' Court. The Court will review the preliminary plan and will inform and discuss with the subdivider the results of the review.

2. If the subdivider decides to continue with his plans after discussing them with the Commissioners' Court he should prepare a plat for submission with a written application for conditional approval. If the review of the plat by the Commissioners' Court is found to conform with the requirements set forth herein, it will grant conditional approval, subject to conditions agreed upon in writing. The preliminary plat will be accompanied by two (2) copies of the proposed restrictions contemplated by the owner. Bandera County shall be included as a party with standing to enforce the restrictions.

3. The subdivider can now stake out the tracts on the ground in accordance with the conditional approval given to the Preliminary Plat, and he shall post a bond to guarantee completion of the proposed improvements, and submits same with a final plat to the Commissioners' Court for final approval. The Subdivider shall present the proposed final plat to the Commissioners' Court at least 30 days prior to the subdivider requesting approval of the subdivision as a platted and recorded subdivision, accompanied by a statement from Bandera Electric Cooperative that power lines will be made available to the subdivision. No final approvals will be granted without the Bandera Electric Cooperative certification that power will be furnished. The court then reviews the submitted material and further grants final approval or informs the subdivider of what is lacking to obtain final approval. Upon final approval, the subdivider then records the approved final plat, and other documents with the County Clerk. County approval is granted for advertising at this point, if desired by the developer.

4. The final plat shall be an original drawing on linen or film type material to a scale of not more than two hundred (200) feet per inch and certified to as to accuracy by the engineer or surveyor who prepared the plat from actual survey on the ground. This plat shall be tied to an original survey line corner and shown on the plat.

5. The final plat shall be on one or more sheets measuring 18 inches by 24 inches in size. A key map showing the entire area shall be drawn on the first sheet and on a U.S. Geological Survey map on a scale of 1" = 2,000'. U.S.G.S. maps are available for this prupose in the County Inspector's office.

6. The North point must be indicated and the scale must be prominently shown. Scale for the key map is 1" = 2,000. The scale for the plat shall be 1" = 200'

7. The name of the proposed subdivision or any of the physical features (such as streets, parks, etc.) must not be similar in the spelling or in pronunciation to the names of any similar features in Bandera County, or in any incorporated town or city therein, as to cause confusion. Names shall be checked by the County Inspector. Streets which are continuation of any existing street shall take the name of the existing street.

8. Boundary lines and lot lines shall be shown by bearings and distances. The subdivision shall be described in relation to established surveys and shall be located with respect to an original corner of the original survey of which it is a part. All property lines intersecting roads or streets will end at the intersecting line of the R.O.W. of such road or street. No property line can be extended to the center of the road.

9. All block corners and angles in streets and alleys shall be marked with a galvanized three-fourth inch pipe, 3 feet long, or with an appropriate concrete or other type marker approved by the Commissioners' Court. All proposed road and drainage layouts are to be checked with the County Inspector before they are built. A high and low elevation for each lot or tract located in flood prone areas will be determined and indexed by lot or tract number. This index may be on the first sheet, or on sheets which show the lots or tracts. All elevations will be recorded in feet and tenths of feet above mean sea level.

10. Unconventional layouts, or layouts that will cause unsatisfactory drainage conditions, or that will complicate maintenance of streets, or any land dedicated for public use, will not be accepted.

11. Lot and block numbers and street names are to be arranged in a systematic order and shown on the plat and on the ground in distinct and legible figures and letters. No roads, streets, or lots will be accepted without names or numbers shown on the plat and on the ground.

12. All lots shall contain a minimum of 20,000 square feet.

13. Locations of lots, streets, alleys, parks, sanitary landfills, borrow pits, utility easements and other features must be shown with accurate dimensions in feet and decimals of feet. Length of radii and arcs of all curves, with bearing of all tangents, shall be shown. Dimensions from all angle points and points of curve to lot lines shall also be shown. These must be on the final plat before it is accepted and recorded.

14. A certificate of dedication, duly acknowledged, of all streets, alleys, parks, playgrounds, sanitary landfills and other land intended for public use forever, shall be a part of the plat. The dedication be absolute. A borrow pit of suitable material both as to quality and quantity shall be included in the dedication to the County for use in maintaining roads in the subdivision, and will be indicated on the plat.

15. Appropriate dedication for public utilities not less than 20 feet wide must be provided where needed, either by absolute dedication, or by dedication of easement. No structure of any type shall be placed on said easement and unrestricted passage must be maintained at all times. All such easements will be accurately shown. A sample utility easement can be obtained in the County Clerk's office or at the Bandera Electric Cooperative.

16. There shall be one (1) original and five (5) copies of each plat furnished to the Commissioners' Court. In addition, one (1) copy of the plat will be furnished to the County Inspector as a working copy as soon as is practicable.

17. Reference must be made to the original patented survey and to the number of acres in each survey with the abstract number of same for all dedicated areas. Show the number of acres in all areas where roads are dedicated for the public use. Show number of linear feet of roads. Show total number of lots or tracts.

18. Where a subdivision is sold in tracts or lots of varying sizes, each lot must bear upon its face the amount of acreage contained therein. All lots or tracts within the limits of any one survey must have shown the number of acres in each survey contained in that tract or lot.

19. All plats and subdivision restrictions shall provide that all stock animals and horses shall be fenced in and shall not be allowed to run at large in the subdivision.

20. Filing and recording fees for subdivision plats in Bandera County shall be $3.00 per lot but not less than $100.00 minimum for each Subdivision plat or unit thereof filed and recorded. These shall be payable to the County Clerk at the time of filing the final plat.

An inspection fee of $25.00 per lot or tract shall be payable to the County Treasurer 30 days prior to the submission of the final plat.

Commissioner, Pct. No. 1

Commissioner, Pct. No. 2

Commissioner, Pct. No. 3

Commissioner, Pct. No. 4

22. Developments containing fewer than 25 lots or tracts will be presented in their entirety. Developments containing more than 25 lots or tracts may be submitted as units of not less than 25 lots or tracts per unit.

B. STREETS, ROADS, AND ALLEYS

1. Alleys shall be not less than 30 feet in width.

2. Streets and roads shall have a minimum width of right-of-way of sixty (60) feet, and must impede unhampered circulation through the subdivision. All trees, bushes and shrubs shall be removed from said right-of-way and no trees, bushes or shrubs shall be allowed to grow in said right-of-way. A permanent dead-end street shall have a turn-around having an outside roadway diameter of one hundred (100) feet. Proposed right-of-way shall be inspected by the County Inspector prior to the beginning of construction.

3. Dead-end streets may be platted where the Commissioners' Court deem desireable and where the land adjoins property not subdivided, in which case the street shall be carried to the boundaries thereof.

4. All streets preferably shall intersect at 90 degree angles. Where this is not possible, the intersection on the side of the acute angle must be cut back as specified by the Commissioners' Court, but is no case shall the cut back be less than 25 feet.

5. All street and road grades must be approved by the Commissioners' Court before they are constructed. A centerline profile and cross sections of roads will be submitted to the County Inspector if called for.

6. The County will not assume any liability or responsibility for maintenance, repair or replacement of any structure used to impound water.

7. No street or road shall have an abrupt offset or "jog" in it. Developers are encouraged to avoid 90 degree turns and to use gentle curves insofar as possible. Inside curves shall be designed so that traffic will not be induced to use the ditch as part of the traveled way.

8. Where streets in an adjoining subdivision end at the property line of the new subdivison, the said streets shall be continued through the new subdivision either on a straight line, or a curve as provided elsewhere herein. All streets and roads in new subdivisions shall be platted so that a continuation of said streets and roads may be made in other subdivisions in the future.

9. Where part of a street has been dedicated in an adjoining subdivision adjacent to and along the common property line of the two subdivisions, enough width of right-of-way must be dedicated in the new subdivision to provide the minimum width specified herein.

10. Any drainage pipes, culverts or bridges shall be of adequate size to accommodate the anticipated flow of water, and in all cases shall be at least eighteen (18) inches in diameter. The County Inspector shall inspect these drainage structures and render an opinion in writing to the Court before the County assumes maintenance. A slab structure to be over water over the road can be substituted at the discretion of the Commissioners' Court. Drainage structures, bridges and culvert size shall be determined by Talbot's Formula:

A - Area of waterway opening in feet

C - Constant of retardation based on topography, soil characteristics, vegetation and climate.

D - Drainage area in acres.

$$A = C\sqrt{D^3}$$

Check dams will be placed as required to prevent erosion of drain ditches using the following method of computation:

$$\text{Spacing} : \frac{100\ H}{A - B}$$

A - percent of grade of centerline of road

B - percent of grade of proposed water surface

H - ditch grade expressed in feet.

11. Drainage structures across streets and roads shall have a minimum of thirty-six (36) feet of clear roadway. Across-the-road drainage slabs shall be a minimum of 30 feet in width, including aprons.

12. Minimum grades of streets and alleys normally shall be one percent (1 percent). Maximum grades shall not exceed 6 percent unless a variance is granted prior to construction. All cuts thru earth embankments will be on a two to one slope. All cuts thru rock will be on a 1¼ to 1 slope. All cuts more than 15 feet in depth will be benched above the 15 foot elevation to a width of 12 feet and the two to one or 1¼ to one slope resumed. Right of way will be widened as required to allow benching.

13. Remove and dispose of all trees, brush, rocks, and other material created by construction of road, street and alley right-of-way.

14. Subdivision entrances entering on county road or state highway shall meet the approval of the Commissioners' Court and/or the Texas Highway Department.

15. Sub-grade shall be watered, rolled and bladed to a depth of six inches before any base material is placed on it. Compaction equipment will be used to maximum advantage.

16. Every road accepted by the County must be put into shape for paving. The same specifications will apply to unpaved roads as to paved roads. Base material must be approved by the County Inspector. Cost of paving in the future shall be paid for by the landowners of the area paved.

17. If requested by the Commissioners' Court the contractor shall, before placing any material, furnish the County with reports of analysis of the proposed material made by an approved laboratory. The owner or his representatives shall furnish evidence of conformity with these specifications whenever called upon to do so by the County. Specifications for base material shall be caliche or gravel and are detailed in paragraph 20 below for unsurfaced roads.

18. Make a borrow pit of suitable road material available for County use in repairing and maintaining the roads in the subdivision. Borrow pit shall be dedicated to the County and shown on the plat.

19. Where a street or road section is constructed without curbs, the flexible base, shall have a minimum thickness of 6" after compaction of a material approved by the County Inspector, and a minimum of 28 feet wide and feather edged as shown on the Bandera County Road and Street Section. Caliche shall consist of a sub-base course and/or a base course as established by the County Inspector; shall be composed of caliche and stone materials and shall be constructed as herein specified in one or more courses in conformity with the typical sections shown on page 18 of these regulations.

b. Material. The material shall consist of limestone, calcareous clay particles, stone, conglomerate, gravel, sand or other granular materials. The material source shall be approved by the County Inspector. Prior to placing any material, the developer shall open pits in such manner as to expose the vertical faces of all the various strata of material for inspection and acceptance by the County Inspector.

c. Soils Analysis. Soils tests shall be made by the developer as required by the County Inspector. Materials passing the No. 40 sieve shall be known as soil binder and shall meet the following requirements when prepared in accordance with Test Method Tex-101-E procedure:

The liquid limit shall not exceed. 40

The plasticity index shall not exceed. .12

d. Construction Methods. The roadbed shall be excavated and shaped in conformity with the typical section shown on page 18 & 19 of these Regulations. All unstable or objectionable material shall be removed from the subgrade and replaced with approved material. The subgrade shall be wetted, shaped and compacted to achieve the required density on both subgrade course (if placed) and the base course. Compaction equipment shall be power rollers weighing not less than 10 tons, tamping rollers (sheepsfoot), pneumatic tire rollers or grid roller, either self-propelled or towed by suitable crawler or rubber tired tractor.

e. Density. Density of the sub-grade and/or the surface course shall be not less than 95 percent as determined in the field.

f. Maintenance. Roads will be maintained in such a manner as to provide all-weather surfaces to users until such time as the County assumes maintenance responsibility. The county will normally assume maintenance responsibility when there are six (6) permanent residences per mile of road.

Alleys shall be graveled ten feet (10 feet) wide and 8 inches in thickness after compaction. The finished centerline grade of alleys shall be enough lower than the abutting property to provide drainage.

23. The above specifications for construction of streets are based on the assumption that a flexible base with an asphalt pavement will be constructed in keeping with prevalent practice in this locality. The materials, design, specifications and procedure shall conform to those of the Bandera County Road requirements for similar construction. This also applies if a concrete pavement is used instead of the flexible base with asphalt pavement. Base material used for streets normally shall meet the following requirements:

1. For paved streets with curb. . $4.50 per linear foot.

2. For paved streets. $3.75 per linear foot

3. For graveled streets. $2.50 per linear foot.

4. For graveled alleys. . $1.15 per linear foot.

B. Construction Bond: Where drainage structures or other additional construction costs are involved: Add estimated cost of additional work to amount of Bond fixed under "A" above.

C. Maintenance Bond:

1. For paved streets with curbs - 5 percent of the amount of construction bond.

2. For paved streets - 10 percent of the amount of construction bond.

3. For graveled streets - 40 percent of the amount of construction bond.

4. For graveled alleys - 40 percent of the amount of construction bond.

The distance determining the linear feet involved are to be measured along the center line of said street or alley between the intersection of said center line.

The condition of said Construction Bond shall be that the owner of said approved and accepted subdivision shall begin construction of such streets and alleys as are shown on the subdivision plat within a period of ninety (90) days from the date of approval of the plat of said subdivision by the Commissioners' Court of Bandera County, Texas and execute and complete such construction in accordance with the specifications herein provided within a reasonable number of working days to be determined and agreed upon by the owner and the County Commissioners' Court. Said Construction Bond shall remain in full force and effect until all of the streets and alleys in said approved and accepted subdivision have been completed to the satisfaction of the Commissioners' Court.

In the event any or all of the streets and alleys as constructed by the owner fail to meet the requirements of the specifications herein provided and are not accepted and approved by the Bandera County Commissioners' Court, and said owner fails or refuses to correct the defects called to his attention in writing by said Court, the unfinished improvements shall be completed at the cost and expense of the sub-divider.

25. The condition of said Maintenance Bond shall be that the owner shall guarantee to maintain, to the satisfaction of the Court, all of the streets and alleys shown on an accepted and approved subdivision plat, in a good state of repair until such time as the County shall assume maintenance.

The Maintenance Bond by its terms shall provide that liability thereunder shall begin on each of the streets and alleys shown on an accepted and approved Subdivision Plat and remain in full force and effect for the period of one year thereafter from the date of the acceptance of the construction of each street or portion thereof by the County Court in writing. Said bond shall be renewed every three (3) years as required.

Periodic inspections of all the streets and alleys that have been approved and accepted will be made by the County Inspector during the period of liability covered by the Maintenance Bond, and in the event any of said streets and alleys are not being maintained in a good state of repair, the owner will be so advised in writing and if he fails for a reasonable time he fails or refuses to properly maintain said streets and alleys, they shall then be maintained at the cost and expense of the sub-divider.

26. Each of said bondsshall provide that should the same be unenforceable as a statutory bond, the obligors shall be bound by their contract as a common law obligation.

5. The subdivider shall ascertain and certify that an acceptable septic tank with a proper drain field can be installed on each tract platted or offered for sale unless public sanitary sewer collection facilities are made available to the site. A statement of availability of electric power will be obtained from Bandera Electric Cooperative and will be submitted prior to any septic tank permits being issued.

It is understood and agreed that it shall not be considered a violation of the provisions of this easement if wires or cables carried by such pole lines pass over some portion of said tracts not within the twenty (20) foot side strip as long as such lines do not not prevent the construction of buildings on any tracts in the development.

White - Norris

April Ayers Norris and Stephen Lee White exchanged marriage vows August 1, before the altar of First United Methodist Church in Katy. The Rev. William J. Hodge performed the double ring ceremony before a background of a pyramid candelabra and two arrangements of daisies and pink gladiolas. Ribbon bows and ropes marked the church pews. Mrs. Arthur Glenn Robichaux provided the wedding music at the organ.

The bride is the daughter of Dr. and Mrs. C. Wayne Norris of Pattison. The groom is the son of Mr. and Mrs. Leo White of Bandera.

Given in marriage by her father, the bride wore a chiffon candlelight gown overlaid with lace enhanced with bridal pearls. Styled with a Queen Anne collar, fitted bodice and long tapered sleeves, the gown's skirt swept into a chapel length train. Her veil descended from a Juliet cap and she carried a bouquet of orchids and white roses.

The bride's attendants were Melissa Neighbors of Pattison; Julie Norris, her sister of Pattison; Carla Allen of Katy and Jan White, the groom's sister, of Bandera. They wore pastel pink, floor-length gowns fashioned with fitted bodices and accordion pleated skirts. Each carried a spring bouquet.

Flower girl was Ouidi Wyman of Katy and ring bearer was Forest Clark, the bride's cousin of Spring.

Serving the groom as best man was George Montague of Bandera. Groomsmen were Phil White and Gary White, brothers of the groom and Henry Saltman, of Bandera. Ushers were Kinly Williamson of Bandera; Robert Poorman of Katy and George Thomas of Valley Lodge.

For her daughter's wedding, Mrs. Norris wore a blue formal gown. Mrs. White wore a formal pink gown. Both wore corsages of daisies and carnations.

A reception followed the ceremony in the Katy VFW Hall. The bride's table covered with a white lace cloth, was draped with English ivy. A white ceramic center piece held pink tapers complementing the white, three-tiered, columned wedding cake decorated with pink confection rosebuds. The groom's cake was a boot-shaped creation of chocolate.

Members of the house party were Kathy Fly at the guest book and Jennifer Freeman and Kelli Lieberman served the refreshments.

Following their honeymoon, to South Padre Island, Mr. and Mrs. White are living in Houston.

Dye - Gerth

Jean Marie Gerth became the bride of William Dye in a double ring ceremony on August 1, with Judge E.S. Jennings officiating.

The bride is the daughter of Mr. and Mrs. H.A Gerth of Pipe Creek. The groom is the son of Mrs. Chris Dye of Austin.

The bride was given in marriage by her father in the garden at her parents' home. A reception followed for friends and relatives. After a short honeymoon the couple will make their home in Austin.

Admitted to Sid Peterson Memorial Hospital in Kerrville this past week were Bill E. Chesdenes of Bandera, September 18; Roy Glynn Tramell of Medina, Jennifer Marie Culberson, Vivian L. Heder of Bandera, September 22.

Scouts Win Ribbons

Scouts from Bandera Troop 146 attended junior leadership development courses at McGlinsey Scout Park in San Antonio on September 18, 19 and 20.

Nine Scouts from the troop took 6 firsts, 9 seconds, and 5 third place ribbons in competition with more than 130 other scouts from the Alamo Area.

Scouts attending the camp were Carl Loudermilk, Tim Lurker, Tom Mangold, Tony Fernandez, Jr., Scott Anderwald, Lance Tomlinson, Cody Tripp, Bobby Garza, and Milton Holmes.

Visibility Improved At Intersection

As a part of the widening and improving of SH 16, workmen are lowering the level of the road between 13th and 14th Streets in Bandera. This will enable motorists entering town from Pipe Creek to see cars turning on to SH 16 from 13th Street.

Buck Grows Sweet Potatoes

Clyde Buck is quite the gardener. He harvested this crop of sweet potatoes from his garden at his home in Bandera Pass Ranch.

Texas Heritage

By Parry

Many people remember the "black bean" incident when a group of Texans were captured following their invasion of Miers, Mexico in 1842. Few, however, recall an earlier "game of chance" execution that occurred while Texas was still a Spanish territory.

It all started in 1801 when Phillip Nolan, a brash young American from Louisiana — knowing of the revolutionary problems Spain was having with Mexico — decided to lay claim to Texas with a small force of volunteers. His not yet completed fort near Waco was attacked by Spanish soldiers on March 22, 1801. Nolan was killed in the skirmish but Ellis P. Bean, a 17 year old recruit, took charge and managed to escape with a small band of survivors. They were captured a few days later, however, and 10 of the prisoners were taken to Chihuahua where they languished in jail for six long years while awaiting a decision from the King of Spain regarding their disposition. The King finally decreed that one in five should be executed and the balance set free.

LUCIANO GARCIA	3+4 = 7
JOSEPH REED	6+5 = 11
DAVID FERO	5+3 = 8
EPHRAIM BLACKBURN	3+1 = 4
SOLOMON COOLEY	6+5 = 11
JONAH WALTERS	6+1 = 7
CHARLES KING	4+3 = 7
ELLIS BEAN	4+1 = 5
WILLIAM DAHLEY	5+2 = 7

Since John Pierce had already died, the Alcalde determined that only one should be killed and the nine prisoners should be blindfolded and required to shoot dice for the unlucky low number. Ephreim Blackburn threw a four (shown above) and was hanged. The rest of Nolan's force was released and, except for Ellis Bean, disappeared from history. Bean, who rolled a five for the second lowest number, stayed on in Mexico where he became a national hero during the Mexican Revolution. In 1835 he helped get Stephen F. Austin released from a Mexico City prison where he had been held for 28 months on suspicion of espionage. Ellis P. Bean died in 1846 at 62 years of age.

Thank You

I sincerely want to thank each and every citizen of Bandera County who participated in "The Forum" Monday evening on KQRK when I was their guest speaker. Without your participation, the program would have been meaningless. Thank you again to our Bandera radio station for their efforts in attempting to provide our citizens with information on current tax increases and for being such wonderful hosts, making me feel as comfortable as if I had been visiting in the home of a friend!

Also, I sincerely regret that I had to be out of my office so much of the time on Tuesday, Wednesday, and Thursday this week, because I am sorry to have missed those of you who came by the office to visit with me or called me on one of those days. I was in Kerrville attending the annual conference of the County Treasurers' Association of Texas, assisting in some of the hostess duties for the meeting as well as trying to learn as much as possible about County government and the duties of County Treasurers in Texas today so that I might be able to try to serve you more efficiently in my role as your County Treasurer.

Thank you for your interest and support. I feel that I am serving some of the finest people in the world today. It is indeed a privilege and I love you and appreciate you.

Competition for the candidates will include western attire, judges interviews, swimsuit, and special group routine.

Crowds Agree—Soccer Is Fun!

A very large and enthusiastic crowd of spectators gathered to watch the first soccer games of the season which were played Saturday at the Bandera Electric Cooperative. This is the first year soccer has been played locally and enthusiasm is very high.

The Bandera County Youth Soccer Assn. kicked-off its premier season with the first series of games being played Saturday, September 26, at the Bandera Electric Cooperative.

In Division D, players 10 and 11, the Bandera Electric Coop Kilowatts downed the Hill Country Vet Armadillos 4-1 in opening play, while the O.S.T. Longhorns defeated the First National Bank Antlers 3-1.

Division E, players 8 and 9, has provided the closest competition with both games ending with tied scores. Jr. Food Mart Red Roosters battled with Roger Stevens team to end up scoreless at 0-0. The Sport Shack Sun Devils and the McMullan Insurance Blue Devils each scored twice.

In Division F, players 5, 6 and 7, the Soccer Boyles, sponsored by Boyles Food Store, edged out Larry Upton's Kikkers 4-0, while the Gill Savings Wildcats outscored the First State Bankers 7-0.

Six more games will be played Saturday, October 3, at the same location with the first game starting at 8 a.m. and the last at 11:30 a.m.

18-Year-Old Seriously Injured

Eighteen-year-old Mike Wells of Bandera was seriously injured Sunday morning when the car he was driving hit a tree. The accident occurred at about 8 a.m. east of Pipe Creek on SH 16. Apparently Wells went to sleep and failed to round the turn as he drove toward Pipe Creek. Bandera County EMS transported Wells to Wilford Hall Hospital in San Antonio for treatment of a broken leg and severe facial and head injuries.

Rabid Skunk Identified In Bandera City Limits

By Conrad Nightingale, DVM

Last week Bandera County reported its third laboratory positive rabies case of 1981. These three rabid animals are the first reported cases in the county in eight years. Eight years ago a rabid bat was identified.

The rabid skunk was found at the southwest edge of Bandera and was submitted to the Texas Department of Health laboratory in Austin. No human exposure occurred as the dead skunk was handled carefully.

Since rabies virus can be retained in wildlife for many months without causing death, a potential long-term hazard exists for this area. Residents are cautioned to avoid wild animals of all ages and any stray dogs or cats. Rabies virus can infect any warm-blooded animal and man. Any suspicious animals, including strays, should be reported to the local sheriff's department for handling. Persons which may receive a bite or scratch from a wild or domestic animal should report the incident to their physician. Suspect domestic animals need to be examined and quarantined in a veterinary hospital or animal control facility for 10 days observation. This holds true even if the animal has been vaccinated for rabies. Suspect wild animals need be destroyed immediately (do not destroy brain tissue) and submitted through a veterinarian to the rabies laboratory.

Due to the large number of rabid animals in the State of Texas, it is now unlawful to own a dog or cat that is not vaccinated annually against rabies. Rabies vaccine can be administered by your veterinarian when pets reach three months of age.

Your cooperation in keeping our area safe is appreciated. Keep all pets penned or on a leash as required by county ordinance.

Rate Change Made

The user fee for steer or calf roping at the rodeo arena at Mansfield Park has been changed.

The fee, approved at commissioners' court Monday, September 14, at their regular monthly meeting, was set at $1 per run.

Two days later this was changed to a flat rate of $250. The change was made by the judge and three commissioners present together and the fourth commissioner by phone, but not at a court session.

Tour & Election Set

The Bandera Soil and Water Conservation District and County Extension Service will sponsor a Range and Wildlife Tour starting at the Tarpley Community Center, Saturday, October 3.

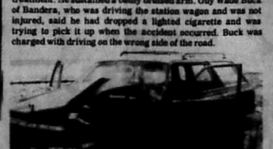

Registration will begin at 9:30 a.m. Dwight Goynn, extension service biologist, will discuss wildlife management. The tour will then proceed to Bill Langley's Ranch, where SCS personnel will discuss range and pasture management. The tour will then move to the Shadow Dance Ranch where range and wildlife management will be discussed. Shadow Dance has a good variety of

In County Court

The following cases were tried Wednesday, September 23, in County Court with Judge Rein Vander Zee presiding.

Edwardo A. Guerrero, Jr., of San Antonio pleaded guilty to a charge of possession of marijuana and was fined $100 plus court costs.

In a jury trial Hector A.H. Moreno, Jr., of Bandera was found not guilty to a charge of DWI.

Castle Lake Man Not Hurt In Accident

A Castle Lake man was apparently uninjured when the jeep he was driving ran off the old road and hit a culvert on the new road in the construction area of SH 16 near Bandera River Ranch.

Rudy V. Swigert was found lying on the ground near his jeep at about 7:30 a.m. Sunday, but investigators believed he had been there since about 5 a.m.

Bandera County EMS was called to the scene, but Swigert said he was not hurt.

Grand Jury Met Friday

The grand jury, 216th District Court, met Friday, September 25, and returned three indictments—one for possession of a controlled substance and two for theft of services, more than $200 but less than $10,000.

There was one no-bill and no cases were passed.

AROUND LAKEHILLS

A Surprise Party For Nora

Nora Leach was a happily surprised lady when a caravan of cars filled with friends and led by Sheriff Roberts and Gene Ott drove into her yard Tuesday evening. Seventy-five good friends came to honor Nora on her birthday. Three birthday cakes in decors of mint, pink and yellow graced a table which held a motiff of summer flowers and carnations. Nora was delighted and said that this was the first surprise birthday party she had ever had. It wasn't easy but this surprise had been a closely guarded secret for two weeks. The guests enjoyed "parsea" instead of the traditional hors d'oeuvre, and a buffet.

Second Annual Earth Day

Bob Caswell's second annual Earth Day is set for this Sunday, October 4, at 1 p.m. at the Lakehills Civic Center. The purpose of this project is two-fold to keep clean the main thoroughfare of Park Road 37 from the intersection with Highway 1283 to the Old State Park and to allow the residents of the Lakehills area to show their pride by volunteering to contribute in this community clean-up project.

The original Earth Day was first held last May 3 and the 30 or so participants did not lack enthusiasm but the quantity of people needed to effectively and quickly do the job was lacking. That is why the theme for this year's team clean of Park Road 37 is appropriately "Won't You Please Help Us This Time". Besides people needed to drive the trucks, ride the trucks, and pick up the trash that has accumulated during the summer; volunteers are also needed for numerous other small tasks on that day, including an office staff, phone callers, traffic directors, donaters of trash bags, drinks and ice, and workers to prepare the hot dogs and chili for the gathering afterwards at the Civic Center.

Please call 751-3401 or sign up in person at one of the lists at Bob's law office, Cut-A-Way, D & H Mobil, or either one of the Lone Stars. Won't you please participate this time, rather than watch everyone else pitch in to do the job?

Mice Ian

Wiley and Beverly Watson of Mico are operating the Mico Inn for Speck and Faye Baich while they are doing other things. There was a large crowd having a ball with Wiley and Beverly the 23rd and wishing them well.

When the place is completely remodeled, it will become a recreation center for the Air Force at Medina Lake. Watch for the opening date. 'Tis rumored that there will be an open house.

MEDINA 13 - NUECES CANYON - 9

Friday night, September 25, the Medina Bobcats defeated the Nueces Canyon Panthers by a score of 13-0. Medina held Canyon on the first possession and forced them to punt. Medina then took the ball and drove it 70 yards before Kelly Rambin rambled 9 yards for the first score. Richie Burk booted the extra point to make the score 7-0. The second quarter was defensive battle and the half ended 7-0.

In the third quarter, Medina took the ball after the opening kickoff and marched it 65 yards for their score. Mike Britt took it over from the 1 yard line. The conversion failed, so the score remained 13-0. The fourth quarter was another defensive battle with the play marred by penalties. Medina will meet D'Hanis next Saturday night at D'Hanis.

Players of the week are Kelly Rambin and Mike Laging offense; Marshall Townsend and Kenny Martin, defense; Mike Britt, best hit.

Mrs. Nettie Dean

562-3464

A quote by Calvin Coolidge: "We cannot do everything at once, but we can do something at once."

Last rites for Beulah Branch Wells of Fredericksburg were conducted Friday, September 25, in Fredericksburg with Rev. C.M. Fields of the First Baptist Church officiating. She was born October 24, 1890, and was 85 years, 10 months and 29 days of age. She died September 23 in a Fredericksburg hospital. She is survived by two daughters and a son, Rev. Fresh Pear Cake

Peel the pears, slice and cook until tender; add some sugar.

Use 3 eggs, 1¼ cups salad oil, 2 cups sugar, 3 cups all purpose flour, 1 tsp. salt, 1 tsp. soda, 2 tsps. vanilla extract, 1 tsp. cinnamon, 1 tsp. cloves or nutmeg if you prefer, 3 cups cooked pears, chopped, 1 cup raisins, 1 cup pecans.

Mix eggs, oil and sugar, blend well. Combine flour, salt spices and soda, add to egg mixture. Then add vanilla, pear, nuts and raisins, mix well and pour in a greased and floured bundt cake pan. Bake at 350 degrees for 1 hour or until done. If you prefer you can add a topping of 1 cup firmly packed brown sugar, ¼ cup milk and ¼ cup margarine.

Combine and cook 2½ minutes. Pour immediately over cake in pan. I prefer it plain with no topping.

A THOUGHT FOR THE WEEK

By John M. Grimes

William Penn said, "Time is what we want most, but what alas we use worst."

"Tempus fugit." Time does fly and we are always asking ourselves where it has gone...Yet time doesn't seem to fly for people who are confined to a sick room at home or in a hospital, or to someone exiled in some far distant land.

One of the best ways to use time and to be happy is to keep one's mind on the interest and goodness inherent in human life. Granted there are burdens to be borne...disappointments to be thrust aside and forgotten...sorrows to be surmounted. Still life is good. We have the beauty of nature by day; the beauty of stars by night; the interesting personalities we meet by day; the challenges we meet every day. The world goes about at an astonishing rate on axis or orbit. But what of it? Won't tomorrow's sunrise bring with it the promise of another good and great day?....

exotic game.

Following the tour, election of a district director of the Bandera Soil and Water Conservation District will be held. The elected director will serve with four other members on the board. Present director for Zone 3 is Raymond Hicks.

The SWCD is a state agency with no taxing power. It's sole purpose is to promote sound soil and water conservation programs on farms and ranches throughout the county. The SWCD serves as a voice on conservation matters and issues affecting private property rights of landowners. The district board of directors coordinates the efforts of local, state, and federal agencies on conservation efforts. They have authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes. All programs managed by the district are of a voluntary nature to the landowner or operator.

Candidates for the SWCD director must own land in the Zone he represents and live within the county, be at least 18 years of age, and be actively engaged in farming or ranching.

Voters in the election must own land in the Zone, live in the county and be at least 18 years of age.

A dutch-treat barbecue lunch will follow the election on the Shadow Dance Ranch.

The tour will be informative and everyone is invited to attend. For information on the tour or election contact the Soil Conservation Service in Bandera or the Bandera County Agent.

Many friends in this area learned with sorrow of the death of Harry L. Burk of San Angelo, who died Thursday in a Kerrville hospital, at the age of 84 years.

Funeral services were held Monday in San Angelo and he was laid to rest in Lawnhaven Memorial Gardens.

Burk was born November 5, 1896 in Texas and served in the U.S. Army from May 1915 until May 1919.

He was a member of Lakehills American Legion and for many years was active in the affairs of veterans organizations in Bandera County.

Senior Citizens News

On Wednesday, October 7, the county nurses will be at the Senior Activity Center for their free blood pressure clinic. In addiiton, a special attraction is offered at 1 p.m., a book review by Verzell Mullenax of Carbury, by Catherine Marshall. Why not call the center by 9:30 a.m. to make your luncheon reservation, stay for the "story-hour" and meet the nurses before you leave?

On this same Wednesday at 10 a.m., conversational Spanish lessons with Harold Sherman will be offered. Eight participants are necessary for this class. Please indicate your interest by calling the center at 796-4909.

Last Friday morning a crafts workshop was held for the Christmas Boutique and Bazaar to be held at the Senior Center's fourth anniversary celebration on October 20. This Friday, October 2, another workshop will be held. Needed urgently are plastic bags (bread wrappers, cleaner and vegetable bags), nylon hose and panty hose or shredded foam for stuffing, and strips of fabric a yard long and from 3 to 6 inches wide or more. Work may be done at the workshop (9:30 a.m.) or items may be taken home for completion. Other categories for donations include white elephant, pot plants, and flea market.

Bill Hathaway, chairman of the advisory board, reminds us that as government funds dry up the board is determined that the center's services will be maintained with the help of its volunteers.

Junior High Football Team's Undefeated

Photo by Jones
7th grade quarterback Scott Cafcas calls the play.

The Pearsall Mavericks traveled to Bandera to face Bandera in two Junior high football games, seventh and eighth grades. Both Bandera teams were defeated, the seventh grade 22 to 0, and the eighth, 36 to 6.

Leading tackler for the seventh grade team was David Clark and leading tackle for the eighth was Louie Rodriguez. Though the Bandera teams were defeated, Coach Paul Olsen commented, "It was a learning experience."

Dogs Downed By Two

Photo by Jones
Charlie Robison receives a pass and goes in for Bandera's second touchdown.

Bandera's Varsity football team lost a hard fought battle by a score of 21-19 against the Blanco Panthers. The game was held at Bulldog Stadium, September 25.

Bulldogs jumped out to a 13-0 lead in the first six minutes. Jim Robbins scored on a short run and Charlie Robison scored on a pass from Jim Jennings. Danny Spangler completed one of the two extra points. Blanco came back and scored two touchdowns before the half that made it 14-13.

Early in the third quarter, Blanco scored again to make it 21-13. In the fourth quarter with a minute left to play, the Bulldogs charged an eighty yard drive up the field. With twenty seconds on the clock, Jim Robbins plunged in to make the score 21-19. The tie or die conversion was stopped on the one foot line, thus stopping the Bulldogs from victory for the first time this season.

The Bulldogs have wrapped up 99 points on offense compared to twenty-four points by the opposing teams. Bandera's record is now 3 wins, 1 loss.

Pep Rally Reconstructs Spirit

By: Linda Meiler

A gym full of new spirit was exhibited at our Bandera vs. Blanco pep rally September 25. From the first drum roll of our fight song to our closing Alma Mater the excitement in the room grew and grew.

The cheerleaders started out the rally with one of their new cheers: "Blue and White". The J.V. squad performed "We just won't be defeated", and our twirlers presented a well executed routine.

Our speakers for the week were Coach Kevin Long and senior player, Kirk Vakey. They both showed much optimism towards the upcoming game as well as the entire season. Sure, Blanco is tough and has a good record; but we're tougher, better, and we can win this game!

Though it was an extremely close contest this week, as most everyone was bubbling with pride and support for the BULLDOGS, once again the Sophomores won the spirit stick. The pep rally ended in a final burst of spirit where all decided that the Bandera Bulldogs were indeed the best of all the rest.

Plague Strikes Bulldogs

By: Bubba Caloss

Bandera Freshman football was struck with a fatal disease known as "turnovers" when they traveled to Pearsall, September 4, losing 31-0.

Pearsall's ferocious defense, led by the linebackers, picked off three Bulldog passes while scoring 18 points. The Bulldog offense failed to put any drive or score on the board. The line lost its poise allowing Pearsall to sack quarterback Marcus Fernandez several times.

Somerset will travel to Bandera October 1, at which time the young Bulldogs will attempt to move their record up to 3 wins.

Bulldogs Wear-Out Warriors

By: Dey Romo

Defeat befell the Ingram Warriors as they matched their volleyball skills against the Bulldog Varsity team. This meeting of teams was held on September 22, in the Bandera High School Gym.

Bandera immediately took control of the match-up by winning the first game, 15-6. Ingram was unable to pull together, which enabled the Bulldogs to win with a score of 15-7. High point servers for the evening were Teresa Welch with 13 good serves and Tinker Stein with 6 good serves.

J.V. girls also played the Ingram Warriors, but were unable to win. Their scores were 15-2 and 15-5. Christine Flemming led her team with 3 good serves.

Clements Takes First

By Sandy Riedner

San Marcos was the site for the first Invitational Cross Country meet of 1981. Bandera's Varsity girls, boys, and JV girls participated in the meet along with thirty-two other teams.

First to run the rugged two mile course were the JV girls. Becky Clements did a remarkable job and was the first runner across the finish line! Becky's time for the two miles was 14:15. Other JV girls placing were: Nancy Patton-16, Eve Elkins-30, Becky Walker-32, Judy Parkinson- 38, Jillians Moseley-41. The JV girls placed fourth out of thirty-two teams with 164 points.

Runners set . . Bang! . . and the Varsity girls are off! Teresa Welch, the first runner in for Bandera, commented, "The San Marcos course is likely to be the toughest course we'll run this year." The Varsity girls did very well, placing twelfth as a team. Individual runners who placed were: Teresa Welch-30, Linda Hamilton-47, Brenda Mayfield-52, Tina Doebbler-75, Tina Schott-88, Diane Hamilton-90, Jill Nealy-91.

Last to run were the Varsity boys. Steve Dunkin, first runner in for Bandera, remarked, "It was one of the roughest courses I've ever run! It was also extremely crowded!" The Bandera Varsity boys proudly placed sixteenth out of the thirty-two teams. Placing individually were: Steve Dunkin-41, Pete Fernandez-103, Terry Hodges-48, Robert Sowell-107, Frank Konvicka-121, Ronald Skinner-122.

Boys' Cross Country On The Run

By: Dey Romo

As you drive up to H.H.S. you may notice a group of boys eargerly warming up for a strenuous hour of running. This group of boys is the High School Cross Country Team.

Mrs. Mazurek can be found working these boys early first period and after school for two hours. The boys run eight faithful miles in intervals, hillwork, and sprints.

JV Mashed By Mavericks

By: Charles Newcomer

Bandera's Junior Varsity football team was defeated by a score of 39-0 when they faced the Pearsall Mavericks.

However, the score doesn't give any type of description of the tremendous effort that was put forth by the Bulldogs.

Coach Jim Rainey stated the Bulldogs played better in the first half than he has ever seen this group of boys play. He also said terrific individual efforts were made by Dyke Ferrell and Chuck Ford.

At half time the score was 13-0, then when Bandera came out for the second half it was as if they had lost all "Will to Win" and Pearsall wanted nothing but more points. They scored 27 points to give them a 39-0 lead which they held to win the game.

The Bulldogs are presently back in town working hard preparing themselves for their first home game against Somerset on October 1.

Did You Know . .

Heroin accounts for about 90 percent of all narcotic abuse and addiction in this country. Do you know what Heroin is?

Heroin is derived from morphine. Morphine comes from the juice of a particular species of poppy. The poppy is grown in Asian countries and in Mexico. The morphine, derived from the poppy, is further processed into heroin.

There were 64,000 narcotic addicts registered with the Bureau of Narcotics as of December 1968. However, it is estimated that there may be as many as 200,000 in the U.S. today, and many more are added each year.

Information for the "Did You Know" articles is taken from TANE Press publications. TANE is Texas Alcohol Narcotics Education, Inc., a non-profit organization dedicated to preventing alcohol and drug problems through education.

Homecoming Planned

By Linda Meiler

New and exciting homecoming plans were elaborated on and organized at the first Student Council meeting September 9. The theme song for our October 16 Homecoming against Cole will be "Sailing."

A beautiful backdrop for the homecoming court is being painted by Brad Stevens and his assistants. Blue and silver decorations are in the making, entertainment is being lined up, and refreshments are being ordered in preparation for the homecoming dance. Also, new wild and wacky spirit ideas are forming in the mind's of the homecoming spirit boosters committee. The entire Student Council has high hopes for the homecoming.

On top of all their homecoming tasks, Student Council has begun plans for a new undertaking, the Monopoly-A-Thon. This project will help raise money for Cystic Fibrosis. In the Monopoly-A-Thon, a player needs to obtain sponsors who pay a set amount of money for each hour this player plays in the Monopoly-A-Thon. Then, of course, the money is turned over to the Cystic Fibrosis cause.

Other items covered at the meeting consisted of arrangements made for new members to attend beginner workshops and officers and other experienced Student Council persons for the district meet. A safety lecture for the Bandera Jr. High was planned and secret pals were selected.

Store Cookies By Freezing

Baking cookies for occasional snacks — and want to save most for later?

Freeze them, suggests Dr. Cass Ryan-Crowe.

After baking, simply cool the cookies and place them in an airtight container or freezer wrap, and freeze them. They'll stay fresh for as long as one year, she says.

Make the Connection

Admitted To The Hospital

Admitted to Sid Peterson Memorial Hospital this past week were Robert S. Monsees of Utopia, September 28; Mrs. Mary R. Mansfield, of Bandera, September 29.

Mr. and Mrs. Tony Mazurek spent a week at the coast and on the way they took Tina Foster, their granddaughter to Texas A&I University at Kingsville, where she is attending classes. From there they went to Padre Island to fish along the intercoastal canal. They caught some big red snappers, croakers, trout and flounder and sheeps head.

They also drove to Aransas Pass, Port Aransas, and Rockport.

Heinen Reunion Held

The second annual Heinen reunion since reorganization in 1980 was held Saturday, September 26, at the Cypress Creek Community Center with 70 descendants of the Ferdinand Heinen family in attendance.

All of a brief business meeting officers for 1982 were elected—Henry Heinen of Comfort, president, and Chester Kirchoff, vice president to serve two years; and Alwina Boerner, treasurer and Lois Hayes, secretary to serve one more year. The Saturday preceding the fourth Sunday in September was set for the 1982 reunion.

A memorial service, presided over by Willie Schmidt, was held with Eleanor Treiber giving a brief history of the Heinen family dating back to the 1700's. A golden candle was lit by Anna Karger, the only living child of the Ferdinand Heinens. She is a young 91 years. Johnie Schmidt gave the closing prayer and blessing, after which tons of good food, visiting and games were enjoyed by those present.

Mothers' Club Levied Fines

The Mothers' Club met at the home of Mrs. W.J. Davenport, Sr., on November 6, 1913 Mrs. Noonan, Mrs. Epperson and Mrs. Glasner were appointed to serve on the visitation committee. Mrs. Cohen, Mrs. Meredith, Mrs. Priestly and Mrs. Stevens were appointed to the lookout committee. Duties of the Lookout Committee are to always be on the "lookout" for steps to be taken by the Mothers' Club for the good of Bandera in general and for the good of the children.

There were no dues for membership but a fine was levied against those members who failed to have a good excuse for failure to attend the regular meetings. Today the membership dues are $1.00 per adult and no fine is levied. You are invited to join any time during the year. The high school open house and PTA Potluck Supper-Membership Drive were very well attended this year. One hundred nineteen memberships were issued, 207 were served and the 7th grade had highest attendance.

The next regular meeting will be in conjunction with the Elementary-Junior High open house on October 27. Time and place will be announced.

Artist of the Month

Olga Bolduc has been chosen "Artist of the Month" for October by the Bandera County Artists. She has been painting since 1972 and specializes in oil paintings using brush and palette knife techniques. Mrs. Bolduc is president of the Bandera County Artists and also teaches three classes per week. Her works are on display at University Savings, Gill Savings, First National Bank and First State Bank.

City Gets Sales Tax Rebate

Seven hundred fifty cities received $40.9 million in city sales tax rebates for August.

The payments push the city's rebates for this year to $480.3 million, up 14.7 percent over yearly payments to date during 1980.

Bandera received $5,980.72 compared with $4,883.07 for the same period last year. To date Bandera received $61,225.93 compared with $67,614.64 for the first eight months in 1980, for an increase of 7.16 percent.

The optional one-percent city sales tax is collected by merchants and businesses along with the four-percent state sales tax and returned each month by the comptroller's office to the city in which it is collected.

DO YOU KNOW THE LAW?

Texas Heritage
A Nostalgic Glimpse Into History
By Garland Perry

The great Spindletop oil gusher brought in by Capt. A. F. Lucas near Beaumont in 1901 paved the way for the Texas petroleum industry to reach its full maturity, but it was C. M. (Dad) Joiner's wildcat discovery well near Turnertown in Rusk County some 30 years later that brought us the East Texas "Granddaddy" of oil fields and established a one acre tract as the "World's Richest Acre."

At the corner of E. Main and Commerce Streets in Kilgore there is a historical marker and replica of 24 oil wells placed on a scaled down 1.195 acre site representing that part of the skyline of Kilgore from the mid-1930's until the 1950's when the old "boomtown" derricks were finally dismantled.

Developed before well-spacing rules were enforced, this block was the most densely drilled tract in the world. The 24 wells were on 10 lots owned by six different operators. The acre has produced approximately three million barrels of crude oil that has sold for $1.10 to $34.00 per barrel and has brought in more than six million dollars.

During the peak of the oil boom more than 1000 oil derricks stood in downtown Kilgore. For years the derricks were decorated with lights during Christmas and many people throughout east Texas and western Louisiana made an annual pilgrimage to see the beautiful Kilgore Christmas decorations.

The East Texas oil field has produced nearly five billion barrels of oil since 1930 and it still has more than 17,000 producing wells. Not bad for a crusty old wildcatter who went against geology reports of major oil companies and through his own courage, ingenuity, and stickability, discovered the biggest oil field of its time.

Second Rabid Animal Reported In County

In less than one week the Texas Department of Health Rabies Laboratory has identified two rabid animals in the county. One was a skunk found dead at the edge of the Bandera City limits. The second was a fox which came into a yard containing two dogs and began barking. The fox had the odor of a skunk and was immediately killed and submitted to Dr. Conrad Nightingale for transport to the state lab. The fox was shot northwest of Medina.

No human exposure was reported as the animal was handled carefully. You are reminded to destroy suspect wild animals, but DO NOT shoot in the head.

Because foxes roam over a wide area, it is not known whether this fox had any contact with other dogs or cats.

Again your cooperation in keeping your pets at home is advised. Should additional rabid animals be identified in these areas stringent control of straying animals will be enforced. Please report any suspicious strays or wildlife to the Bandera County Sheriff's office.

A Special Note To Hunters

Be especially cautious of unusually friendly wildlife — foxes, skunks, raccoons. Report any bite or scratch wounds to your physician whether it be from a wild animal or domestic animal (vaccinated or unvaccinated).

Notice of Meeting

The board of trustees of the Bandera Independent School District will meet in regular session on Tuesday, October 13, at 7:30 p.m. at the Bandera High School.

Redistrict Vote Expected Monday

The Bandera County Commissioners Court tentatively agreed on a plan to re-district the county at an emergency meeting held last night, Wednesday, October 7. This meeting was called and officially posted that day.

The court is expected to officially vote to accept the county division discussed at Wednesday night's meeting at their regular monthly court meeting next Monday, October 13.

No public hearing will be held before the vote Monday, because "none is required by law," Judge Reta Vander Zee said.

The precincts are drawn so that no two of the present commissioners will reside in the same precinct as re-drawn.

The general boundaries for each precinct are approximately as follows (Since it is not know how the precincts will be numbered, each is identified here by the name of the commissioner who resides in the area):

Russell — From county line along Elm Pass Road to SH 173 to Ridge Route Road, down road to Pete Locklin home, connecting to road behind Purple Hills Nursing Home, encircling and excluding all of the city of Bandera to the north and east except a small portion along Montague Dr., along SH 173 south, to the county line, to the center of Medina Lake and northward up the Medina River to Red Bluff Creek, to FM 1283, to Pipe Creek, excluding Ed Jennings residence, along SH 16, to SH 46 to county line.

Tschirhart — From county line along SH 46 to SH 16, and along SH 16 to FM 1283, including Ed Jennings residence, to Red Bluff Creek, to Medina River, to Medina Lake, to county line.

Ashley — From county line along Rocky Creek to Medina River, to SH 16, through Medina, dividing the town along SH 16, continuing along SH 16 to the city limits of Bandera, behind Purple Hills Nursing Home, across road by Pete Locklin residence, to Ridge Route Road, to SH 173 north at the Ople Boyle home, and continuing along SH 173 to Elm Pass Road, to the county line.

Thompson — From county line along Rocky Creek to Medina River, to SH 16 through center of Medina, continuing to city of Bandera, containing all of the city of Bandera except a small portion near Purple Hills Nursing Hone, down SH 173 south to county line.

Committee Urges No-Nonsense On School Buses

The new Bandera Transportation Advisory Committee, meeting with Superintendent Ronald Caloss on September 29, urged school officials to take no-nonsense policy toward disruptive students aboard school buses.

The committee, composed of the superintendent, principals, the transportation director, bus drivers and members of the community, will meet as required to offer the school district advice to help improve transportation conditions within the district.

At its first meeting, the committee listened to a general overview of school transportation problems throughout the state from Frank Peraya of Region 20 Service Center. In addition, the committee heard from two of the county's experienced bus drivers, Martin Smith and Wanda Stratton, who described some of the everyday problems confronting drivers each day toward disruptive students aboard school buses.

Superintendent Caloss explained that the district is exceedingly large, providing service for a 350 square mile area over many roads that are hard on the buses, the drivers and the children. Each day more than 1,000 miles are driven by the buses delivering the children to and from school.

Peraya said that here, as throughout the state, the biggest problem for bus drivers is discipline. He cited several examples of fatal and near-fatal accidents that have occurred elsewhere in the state when the driver's attention was diverted from the road momentarily because of disruptive behavior aboard the bus.

Members of the committee, who include Mr. and Mrs. Paul Hughey, Mr. and Mrs. Marion Heisler, Ernest Mayfield, Frieda Barefield, Wanda Stratton, Martin Smith, Del Rinner, Al Kindle, Gus Pfeuffer, and Ted Dunbury, asked Caloss to send a letter to all parents within the district stressing strict enforcement of the district's disciplinary policy aboard the buses to insure the safest possible conditions for our children. The letter reads as follows and asks for each parent to acknowledge receipt of the letter.

BANDERA INDEPENDENT SCHOOL DISTRICT

October 5, 1981

Dear Parent:

As Superintendent I am concerned about the safe operation of our school district's transportation system which transports our children over 1,000 miles a day.

In order to assure the best service possible for our children, I have appointed a transportation advisory committee composed of parents, principals, bus drivers, the transportation director and myself. The committee, acting in an advisory capacity, has been asked to help improve transportation conditions within the school district.

News of the committee's progress will be made available to you through The Bandera Bulletin, and I urge you to keep yourself informed.

In its first meeting held on September 29, 1981, the committee reviewed the problems of school transportation systems here as well as throughout the state.

A problem that we share with other districts is that of discipline aboard the school buses. Mr. Frank Peraya of the Region 20 Service Center indicated to the group that some serious school bus accidents in the state have resulted when drivers were distracted by unruly children.

I am sure that you will agree with me that the safety of our children is paramount. I would like to emphasize to all parents that we will not tolerate unruly, rude, or disruptive behavior aboard our school buses. Children who engage in these activities threaten the lives of all the children on the bus, and will, after appropriate disciplinary measures, be suspended from riding the bus to school.

I am asking you to discuss the importance of appropriate school bus behavior with your child (or children), and encourage him (them) to act in a manner that will insure the safety of all our children.

Together we can make our school transportation system one of the safest in the state.

Sincerely,

Ronald Caloss

Center Point Man Killed

A one-vehicle accident resulted in death for a Center Point man Sunday morning. Donnie K. Spradling, 32, was killed when the car he was driving overturned on SH 16 between the Red Bluff Creek crossing and the intersection with SH 46. His passenger, 20-year-old Craig Tucker of Bandera, received only slight injuries in the mishap.

True Bulldogs, Step Forward

Jim Bob Robbins plunges across the goal line for the TD.

By Charles Newcomer

Bouncing back from their only loss to Blanco, Bandera's mighty Bulldogs travelled to Somerset where they got back on the winning track with a 16-0 victory over the Somerset Bulldogs.

Going into the game Bandera was picked to lose by 14 points, but Bandera's "Doomsday Defense" proved to be too much for Somerset's offense. Bandera kept Somerset to only 140 yards total offense, while wrapping up 200 yards and 3 touchdowns for themselves.

Bandera's touchdowns were scored by Jim Bob Robbins with two and Lee Hornbeek with one. All three were scored on short runs right up the middle, thus proving the power of the Bulldog offensive line and the speed of the backs. Hornbeek's TD came with 3 seconds left in the first quarter. The PAT made the score 7-0, which it remained until the third quarter when Jim Robbins made his score. The PAT failed. In the fourth

Sigmor Mourns Joe Billings

It was a sad day for Sigmor and Mission Petroleum Carriers August 18 when Joe Billings passed away.

Joe had been a truck driver for Mr. Turner long before there even was a Mission Petroleum Carriers. He started working for him when Mr. Turner purchased his second truck, July 13, 1949.

He had driven for the company ever since, hauling primarily in San Antonio and around Texas. He had just received his Safety Award Belt Buckle for 10 years without a chargeable accident.

Joe was making a haul in Austin when he suffered an apparent heart attack. He was 54.

A very well liked driver, P.A. Polansky said, "Joe was a gentleman without a bad word to say about anyone. He was well liked and will be missed by all of us."

Joe is survived by his wife Anna Mae, and three children: Mark, Allen, and Carol. Deepest sympathy is expressed to his family and his many friends at Sigmor.

—Sigmor Tattler

God bless each one of you.

A THOUGHT FOR THE WEEK
By John M. Grimes

There have always been "controversies" as to who really discovered America. Did the ancient Phoenicians, Chinese, Romans, and, of course, the far-venturing Norsemen reach one of the American continents or islands before Columbus? Recent unearthings have shown apparent settlements of the Norsemen in Newfoundland and Greenland.

But, for all the excitement of a mystery, the question is largely academic. The important fact is that Columbus led the first SUCCESSFUL discovery of Europe in 1492 was ready for America! There was a measure of political stability; military and naval technology had been established and population pressure was beginning to build. Man's minds were ready to cast off medieval superstition and provincialism for the adventure of conquering new worlds.

We may find in future years that some stray adventurer or storm-driven sailor did indeed reach American shores before Columbus. But none will ever claim the greatness of that courageous Genoese navigator, Christopher Columbus, whose voyages changed forever the face of the world. . .

Card of Thanks

With the warmest thanks and the deepest appreciation, we want to express our love to all for the many cards of sympathy, the prayers of strength, the touching visits in our homes, the concern shown us from those we met, and the numerous phone calls of condolence. Also our heart felt thanks for the many beautiful flowers and greenery and the thoughtful memorials sent in memory of our loved one. A special thanks to Dr. Meador who was always there when we needed him, to the EMS who answered our call and stayed to help, to Brother Moseley for his comforting words and prayers, the Medina Baptist Church Dinner Committee who served the dinner, and to John Grimes and his staff who guided us through our most trying times.

May God be with you always.

JEHOVAH'S WITNESSES ANNOUNCE SPECIAL CAMPAIGN

Evolution of Creation: This is the topic discussed in a special September edition of Awake, which magazine is being used locally by Jehovah's Witnesses as part of a nationwide campaign to approach those associated with the teaching profession.

The special series of articles addresses the latest divisions that have developed among evolutionists themselves, and also the recent efforts of some to push the teaching of "scientific creationism" in the schools.

Awake's stand will be based primarily on the Bible's viewpoint of creation; discussing in detail the agreement of true scientific fact with the Bible's explanation of life and its origin.

As a public service, school systems, both public and private, are being approached with complimentary issues of this special edition of Awake. It is the desire of the publishers, Watchtower Bible and Tract Society, to provide this timely information for those who must deal with this controversial matter. 13-1tc

Somerset Falls To Freshman Fight

By Bruce Robison

Freshmen sent heads rolling in a 13-8 victory over Somerset setting their record at 3-1. Deg running back Tommy Adams lit up the board first with a plunge over the goal line setting the score at 6-0. The conversion was unsuccessful.

The fiesty frosh furthered their lead in the fourth with a 35 yard punt return by Marcos Fernandez, upping the Bandera lead to 13-0. Somerset scored later in the fourth and Bandera Freshmen took one more step toward a winning football season.

Bandera Eighth grader's 22 points came off James Compton's two touchdowns, Louis Rodriguez's one and 2, two point conversions. The Eighth Grade Dogs playing a defensive second half, allowed only 14 points to be scored.

Both teams are fired up and ready to get the Devine Warhorses, October 8, when they play in Devine.

By Trey Shackelford

Bandera's Jr. Varsity football team played Somerset at Bulldog stadium Thursday, October 1, and lost by a score of 18-0

Although the Bulldogs fought hard they could not hold back the opposing offense. Somerset's defense also proved tough as Bandera was stopped inside the 20 yard line several times.

The Jr. Varsity now has a season record of 1 win and 3 losses after the Somerset game. They will play the Devine Warhorses next Thursday, October 8 in Bulldog Stadium.

quarter, Robbins scored again, giving Bandera a 19-0 lead.

This gave Bandera a record of 4 wins and 1 loss. This is the best record a Bandera team has had in over 8 years. Bandera is starting district next week and at the present they are leading all the district 27-AAA teams in every statistic except field goals and extra points. Bandera has scored 118 points and has allowed only 34 points for the first half of the season.

The greatness of this team should be attributed not only to the talent of the players but to the excellent coaching job. The coaches are Dan Neuse — head, Kevin Long, Jim Rainey, and Neil Peterson.

Did You Know . .

LSD is the most dangerous of all drugs abused in this country today. Those who engage in the illicit use of LSD are playing a kind of chemical Russian roulette that can have devastating consequences. What was to have been a mild "trip" leads to permanent catatonia (a type of insanity), and what was to have been a mind-expanding experience produces instead a long term despondency and mental and emotional withdrawal from life that is pathetic to witness. In short, LSD is unpredictable.

Bonfire '81

...October

Century III Leaders Scholarships

By Charles Newcomer

Seniors at Bandera High School have an opportunity to enter the 1981-82 Century III Leaders program, which awards local, state, and national prizes to students who demonstrate leadership abilities and social awareness necessary to help meet America's needs as we enter our third century.

The Century III national winner will collect the $11,500 scholarship. That person is selected at the Century III Leaders Conference, scheduled for March 5—8, 1982, at colonial Williamsburg, Va.

Two winners from each state and the district of Columbia — chosen from a pool of winners from each participating high school — receive $1,500 scholarships and all-expense paid trips to the Williamsburg Conference. Two state alternates each receive $500 awards.

Students are judged at the local school level on leadership abilities, school and community involvement, a short essay written on a particular issue facing America, and a current events examination.

"The scholarship money is not the only reason we support Century III," said Mr. Graves, counselor of Bandera High School." We feel that this is an excellent way for young people to become involved in community and national concerns."

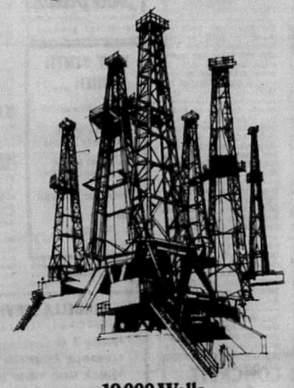

In all, the Century III Leaders program awards $518,000 in scholarships and provides for 102 students to attend the Williamsburg conference. The program is administered by the National Association of Secondary School Principals and funded by the Shell Oil Company.

Deadline for students to apply is October, 16, 1981. Students interested in participating in the program should contact their counselor.

A New Beginning...

Ever feel like starting over again? You can. Jesus Christ offers a life so new, so different, so revolutionary those who find it say it is like "being born all over again." In fact, Jesus said, "Truly, truly, I say to you, unless one is born again, he cannot see the Kingdom of God." (John 3:3) Begin a new life in Jesus Christ today. By faith accept Him as your savior and confess Him as your Lord. (Romans 10:9-10)

Texas Heritage

By Garland Parry

In approaching the quiet little community of Cherry Spring — 16 miles NW of Fredericksburg in Gillespie County — one is impressed by the sudden appearance of a gigantic house on a ridge some distance away. Herein lies the story of an imposing frontier Hill Country gentleman.

Diedrich Johann Gottlieb Rode was born July 8, 1828 in Germany and he immigrated to Texas in 1846. From the German Emigration Company he was granted townlot No. 516 and 10 acre outlot No. 273 in Fredericksburg. Earlier records show that he was a director of the Zion Lutheran Church, and that he married Katherina Phillippine Klaerner in Fredericksburg July 27, 1851. They lived for a time in his log cabin, then moved to a section of land at Cherry Spring that he bought with Wilhelm Kothe for twenty-five cents per acre in 1852.

A civic leader, minister, teacher and rancher, Mr. Rode worked tirelessly to improve the quality of life for the frontier settlers. He kept a diary and a day-to-day journal of his various business activities. He taught school in neighborhood homes at night, and through thrift and hard work continued to build his vast land, cattle and sheep ranching empire.

Mr. Rode built the three-story limestone rock home in 1879, setting aside the third floor for storage of baled cotton and wool which was pulled up with a block and tackle fastened to a steel beam extending from the roof of the house. The second floor was used as a school and community church. Mr. Rode later built a two room rock schoolhouse which still stands.

Diedrich Rode is remembered by historians for his strong leadership in his community, his business acumen, integrity, his strength of character and his lifetime devotion to improving the life of his fellowman.

Rains Bring Fears Of Flood

As the water rose, this gate near the G.M. McGregor home was covered with water.

When the water receded, damage to the gate and fences at Mansfield Park was revealed.

Heavy rains, reported to be as much as 16 inches on the West Prong of the Medina River, sent flood water and debris rushing through Medina and Bandera Tuesday. Six or more inches fell at the Garrison Ranch, washing away their boat and boat dock and covering their jeep with water.

On the West Prong, the water level was reported to have been about four feet higher than it was during the August 1978 flood.

At the Medina Children's Home 6 inches was recorded and the dams were damaged. Roads in the area were washed out in places and school students had to travel through Kerrville to get home after school.

Classes were not scheduled at the Medina School Wednesday.

In Medina 2 inches fell within 45 minutes.

Two Bandera men had to abandon their pickup truck when it stalled in the rising water at Smith's Crossing near Medina. Harold Jenkins and Roy Hartman escaped from the vehicle before the river swept it downstream to near the George residence. Neither was injured in the mishap.

Many Bandera residents, remembering the 1978 flood, took precautions when notified that the river was rising so rapidly.

At Commissioners' Court

Darden Appointed Co. Attorney

Sam Darden was appointed county attorney by the Bandera Commissioners' Court Monday, October 12, at their regular monthly meeting. He replaces Ron Jackson who recently resigned.

Re-Districting Plan

The court determined that they were not yet ready to vote on their plan to re-district, and on a motion by Bob Ashley, seconded by Bud Thompson, the court deferred taking action until their next meeting. It was not announced whether this would be the November meeting on the second Monday, the 9th, at a meeting on the fourth Monday, October 26, when the court occasionally meets if business warrants it, or at a special or emergency session at some other time.

The open meeting law requires that a notice of these meetings be posted and they can be found on the bulletin board located in the hallway outside the county and district clerk's office at the courthouse.

One of the concerns which some commissioners noted troubles their constituents is the mixing of "wet" and "dry" areas in the same precinct.

Commissioner Ashley asked for an attorney general's opinion and the reply was that what is now "wet" would remain "wet" and what is now "dry" would remain "dry." Of course, a local-option election could be called according to law.

How this would effect selling beer at the Rec Center by individual groups at various times has not been determined. At present organizations which sell beer at the Rec Center operate through a license for a location that under the new division would be in a different precinct.

Each precinct as re-drawn should have 1,770 residents, within 2 percent, more or less.

(Refer to maps on page 6.)

Rio Hondo Roads

A group of residents from Rio Hondo met with the court to discuss county maintenance of roads in their subdivision. The court noted the road from the paved highway to the cattle guard has been accepted.

The delegation noted that 31 families are permanent residents of the subdivision.

An oil company, which plans to move equipment in to the back portion of the area is expected to make extensive repairs to the main road "over the mountain," and this would reduce the work to be done by the county at this time.

An alternate entrance, approximately 1½ miles west of the present entrance, along Shadow Dance Ranch, was discussed. This would eliminate the need to build high fences to contain exotic game along side the road connecting Rio Hondo and the highway.

Lateral Road Funds

The county's portion of the Lateral Road Fund, $57,926.66, has been received by the county. Treasurer Elizabeth James reported to the court. Of this amount, $19,308.89 was the 1980 allocation. This amount was due the county in October 1980 but was withheld due to the governor's action. The 1981 allocation in the same amount has been included in the precincts' income in the 1981-82 budget year.

In addition the 1982 Lateral Road Funds, $19,308.88, has been invested by the treasurer to mature in October 1982 to be used by the precincts in the 1982-83 budget year.

This is the first time that the state has distributed any of these funds in advance.

"Roll-Back" Petitions

Mr. and Mrs. Bill Ellis presented to the court petitions said to have the signatures of 1,018 registered voters of the county. There is a total of approximately 4,100 registered voters in Bandera County. Later Bill Billingsley brought additional signatures. The court acknowledged receipt of the lists and turned them over to the clerk's office. Here it will be determined if the petitions are valid. If there are any persons who have signed more than once; if the persons listed are registered voters; if the signatures are bona fide by comparing them with voter registration application signatures (one person cannot sign the name of another), etc.

Waste Disposal

No bids were received by the county for collection and disposal of garbage and trash. Garbage Gobbler was the only firm to make a response, noting that the low concentration of residents made curb-side pickup too costly. The company proposed placing containers in strategic locations throughout the county, available to all persons and financed by county funds. The court rejected this proposal, saying that they thought county residents would oppose this plan.

Chamber of Commerce Sign

Terry Ferrell, Bandera County Chamber of Commerce president, came before the court asking permission to place the Chamber of Commerce sign, which is now situated between the carwash and Boyle's Washateria, on the grassy area by the Bandera County Library, next to the drive way by the Municipal Building. The judge, noting that the Chamber office is in the Municipal Building, suggested that the sign be placed there, and if that is not possible, then the library board should be consulted. Ferrell said he felt there was not enough room at the Municipal Building, but that he had not talked to city officials. He noted that he had discussed the sign with Mrs. Mormando, president of the library board, but that the board had not discussed the matter.

Central heating Unit

The central heating unit from the old jail will be offered for sale. Bids will be taken on the unit which uses natural gas.

Subdivisions

Representatives of Medina Development Co. met with the court asking to vacate the plat of section 6 of Lost Valley Shores. The procedure for accomplishing this was explained to them by the court.

Final approval of Triple M Ranch was granted by the court, pending approval by Bandera Electric Cooperative.

Jerry Gray, county inspector, reported on Deer Forest, Exotic Acres, Lake Forest, Mountain View, and Willow Springs. He also reported a sewage problem at a home in Pebble Beach.

Architect Bob Cowan

Bob Cowan reported on the progress of courthouse repairs. He also reported that electric clocks could be bought, installed, and electrical connections made for $11,385.77. Because of the lack of tax money for this project, several citizens have expressed an interest in donating to this cause.

Anyone who would like to take part in this project is welcomed to contribute.

Routine Business

Quarterly reports of the treasurer and county clerk were approved. Monthly bills were approved for payment. Minutes of the last meeting and reports of county officials were approved.

Present for the meeting were Rein Vander Zee, county judge; Jim Burrell, Stanley Hackbarth, Bob Ashley, and Bud Thompson, commissioners; and Vera King, deputy clerk.

County Receives $57,926.66

State Treasurer Warren G. Harding has announced that this week $25,770,675.15 will be distributed to the 254 Texas Counties. These funds are the Lateral Road Fund administered by the state treasurer's office as allocated by the 67th legislature.

The Bandera County allocation is $57,926.66, and the funds will be used for the construction and improvement of county roads. The lateral road fund is comprised of monies derived from gasoline taxes collected at the pump. The county allocations are based on the county square mile area, the rural population, and the county lateral road mileage. Expenditures of the funds are reported by the counties to the State Treasurer.

Treasurer Harding stated that the distribution includes money appropriated for fiscal years 1980, 1981, and 1982, as well as interest earned on these funds. The 1982 funds are being distributed now rather than at the completion of the fiscal year.

Texas Supreme Court Upholds Ruling

On October 7, 1981, the Texas Supreme Court upheld the ruling of the Bandera District Court in a suit between Bexar-Medina-Atascosa Counties Water Improvement District No. 1 and George J. Wallace, in which Wallace obtained a judgment prohibiting the water district from filing any law suits, or otherwise attempting to enforce its rules and regulations on Medina Lake, which lies outside its territorial limits.

This ruling applies to the portion of Medina Lake which lies in Bandera County.

This ruling is of importance to thousands of property owners surrounding the lake.

Banner Welcomes Exes Home

By Chris Reeves

A bold blue and white banner spans the main street in Bandera. The slogan, "Welcome to Bulldog Country," was hung downtown Monday and reflects the pride that the community has toward the Bandera Bulldogs.

Photo by Bubba Caloss

The idea for the banner was proposed as a City Service Project, originated by Coach Danny Neuse. Many supporters helped in the funding of this project.

The money for the project was raised by selling baked goods and was directed by Marcia Walker and Shirley Kendrick. Many people were involved in making the fund-raising project a success. The total profits were $191.10. This amount was added to $41.65 donated by the Junior and Senior Athletic Booster Clubs. The total of $232.75 was used to purchase the banner.

Two Killed Monday

Two teenagers were killed in a one-car roll-over Monday on SH 46 in Kendall County, just past the Bandera County line.

The accident, which took place soon after noon, claimed the lives of Tom Menger, 13, and his sister, Kristen Menger, 14. The station wagon in which they were riding at the time of the accident was driven by their older brother, Todd Anthony Menger, who was uninjured in the mishap.

The vehicle, which was headed toward Pipe Creek, rolled over 1½ times, and both passengers were killed when they were thrown from the car.

Mother of the three, Cynthia Walden, lives in San Geronimo.

Sirens — Night & Day!

Do you hear the shriek of sirens at all hours of the day and night?

No, we're not experiencing a rash of lawlessness.

Law enforcement officials are following a new law passed by the last legislature which recently went into effect. The law states that officers in most routine cases pursuing a suspected violator, for any type of infraction — small or large — turn on both his red lights and his siren, if equipped with both, until the pursuit is ended.

A THOUGHT FOR THE WEEK

By John M. Grimes

We have a lot of anti-this and anti-that fault finders in our country today. They seem to oppose everybody and everything. It seems to be a national indoor sport for everyone to tell everyone else how bad this country is...And, unfortunately, the boob tube takes up the sport every night...Politicians are all classed as cynical opportunists...always on the take. Businessmen are sneeringly named as the Establishment...always ruthless money grabbers...So called intellectuals are signed off as a bunch of left-wingers. Seems like nothing good is being said about anybody...so much so that it leads us to wonder how over 230 million people could have all gone bad so suddenly!

To this national mania of "we are so good" we say: "It simply isn't true." All throughout our land there are average, plain decent, home-loving people. They mow their yards, go to work, touch up their houses, take their kids to a community function and go to church. More than any other people on earth, we Americans enjoy more benefits and advantages than any other nation on earth.

This is the real America...This is our country's strength...These are the American people.....

How Can Re-Districting Best Serve The Interests Of All The County?

This map shows precinct lines as presently drawn.

In order to afford equal representation for all citizens in the county, the county government is now in the process of re-districting Bandera County. The re-districting process is also taking place nation-wide, at all levels of government, because this is a requirement by law.

Two maps of Bandera County are shown here. The top map shows the four commissioners' precincts as they presently exist.

The bottom map of the county represents the plan which may soon be adopted by the commissioners' court.

But we ask — does this plan best serve the regional differences of the people of our county?

Because these four areas do not have a near-equal number of residents, (but is 1,770 persons in each (within 2 percent more or less), the county leaders are charged with re-drawing precinct lines.

Must both the communities of Medina and Pipe Creek be separated into different precincts?

Is there some way that those parts of the county which have traditionally been "dry," and wish to remain so, could be grouped with others who share their beliefs?

We feel that the answer to the first two questions is no, and to the last is yes — but we don't claim to have all the answers.

We do suggest that any county citizen who has a constructive suggestion to offer their commissioner or the county judge on this vital matter should contact them and let them know how you feel.

To more fully understand the population distribution of the county, we suggest that you visit the office of the county judge in the courthouse to study the population maps stored there. On these maps the county is divided into many small areas, and the population according to the '80 Census for each of these small areas is given. By adding together the figures in these small areas, one can determine the population for a larger area.

There are many possible plans that could be made, and we feel the commissioners' court needs your assistance to make re-districting benefit our county as greatly as possible.

These lines divide the county as proposed by the commissioners court's re-districting plan.

4-H Awards Dinner Held

Highlighting the annual 4-H awards dinner held Saturday evening, October 10, were the Gold Star Awards given to Bandera County's highest achieving 4-H'ers. Green all-weather jackets were awarded to sophomore Mary Bolan, daughter of Mr. and Mrs. Charles Bolan, Pipe Creek, and Becky Blakemore, daughter of Mr. and Mrs. Robert Blakemore, Pipe Creek.

Following the covered-dish meal and in keeping with this year's theme "Pathways to the Future," Jerry Huie, Medina School Superintendent, discussed college opportunities through scholarships acquired through 4-H merit. He stressed the importance and necessity of keeping accurate and extensive 4-H record books.

Delicia Montague described her experiences on a Mexican safari last summer, a trip for which she applied through 4-H. Tracy Sessom from Kerrville showed slides describing her six weeks living with families on the Islands of Trinidad and Tabago through IFYE, International Foreign Youth Exchange.

4-Hers completing both their project and project record book were awarded certificates of achievement and pins. Certificates of achievement were given by project leaders to those completing a project.

Adult leaders recognized were Raymond Batts and Ernest Mayfield, 10 years; Jimmie Ruth Sasthoff and Thomas Keese, 20 years; and Raymond Hicks, 35 years.

DAR Commemorates Yorktown Victory Today

On October 19 world attention will be focused on the quiet waterfront village known as Yorktown, Va., marking the 200th anniversary of the surrender of British Gen. Cornwallis to Gen. George Washington, effectively ending the War for American Independence.

The four day celebration, October 16-19, begins with "Festival Day" during which dignitaries will deliver addresses. Gov. Dalton of Virginia will officially open the ceremonies. On Saturday, "Military Day," 1,100 authentically dressed troops, who have marched from Rhode Island to Yorktown, will be featured in a parade. There will also be concerts and addresses by national and international officials. Sunday, October 18, "A Day of Prayer and Thanksgiving," for on this date in 1781 that Washington and Cornwallis negotiated the terms of surrender at the Moore house near the Yorktown Battlefield. The fourth day is called "Celebration of Victory."

It is hoped that all the schools and churches in Bandera County will mark this event in some special way.

At the DAR meeting in Bandera on October 15, at 2 p.m. in the community room of the First State Bank Mrs. Alton Reininger will speak on "The Disposition of Yorktown POW's." Please plan to attend this special celebration of the chapter.

Teague Earns More Awards

On July 15, Audition Ordinanceman 2nd Class James L. Teague, son of Mr. and Mrs. Hondo Marchand, received one medal and one Bronze Star for the 1981 West Pac cruise aboard the U.S. Carrier Kitty Hawk.

While enroute to Olangapo, Philippines, the Kitty Hawk spotted a small craft about 250 miles from land. Aboard the small craft were 12 Vietnamese adults and three children, none older than 5 years. They were leaving their country to find a better one. When the Kitty Hawk picked up the Vietnamese, they were starving and had had no water for 10 days. This rescue attempt earned Teague and the rest of the crew of the Kitty Hawk the Humanitarian Medal. All 15 persons survived the ordeal.

While Teague was on camel station last year during the Iran crisis in the Indian Ocean, he earned the Expeditionary Medal. This year Petty Officer Teague returned to the Indian Ocean, but now he is on Guam Station. This second tour to Iran earned Teague a Bronze Star to place on the ribbon he now wears. This represents two medals.

Petty Officer Teague is now in Fighter Squadron 11 where they fly the sophisticated F-14 Tomcat on board the Carrier USS Kitty Hawk and on land in San Diego, Calif., at N.A.S. Miramar.

Mrs. Willard Is Honored

Mrs. Sherman Willard was the honored guest at a recent convention of Grey Eagles, an organization of pioneer pilots held in Ft. Worth. She was accompanied by her daughter, Shermalee Mack.

Aman Carter, Jr., spoke on the contributions the early pilots made with each new problem in flying, but it all began such a short time ago with these men "flying by the seat of their pants."

Mrs. Willard's late husband held pilot license number 197. After a number of years of barnstorming, he went to work for Texas Air Transport in 1929. Later the airline grew into Southern Air Transport; Airtravel; and became American Airlines.

Martha Willard visited with many friends she and her husband had known a long time.

Dogs Fight A 0-0 Tie

By: Bobbe Calosa

Bandera Bulldog and Devine Warhorse freshmen teams defensively fought a 0-0 tie Thurs. Oct. 8, at Bulldog Stadium.

Bulldog offense was able to put only one drive together when they penetrated to the Warhorse 15 yard line. The attempt was unsuccessful as the Dogs were penalized for straight downs. Devine, who's offense threatened to score several times were held back by Bandera's awesome defense.

"The effort given on the defensive part was excellent, but the offense lacked punch as they failed to put a drive or score together," replied Coach Neil Peterson when asked his opinion.

Both Junior Varsity and Freshmen teams will travel to San Antonio and meet the Cole Cougars tonight, Oct. 15.

The two point conversion was made on a fake kick. It was Tim Butler, the holder, completing a pass to Chuck Ford that gave the Bulldogs the extra two points for their 8-0 lead. Butler also had a remarkable game on defense with a total of 3 interceptions.

Bandera held onto their 8 point lead throughout the second half. While at the same time keeping Devine to a minimum of offensive yardage.

This victory gave the Bulldog J.V. a record of two wins and three losses, with five games remaining in their season.

By: Charmaine Adamson

Tom C. Clark High School in San Antonio was host to the Bandera High School Cheerleaders and their sponsor, Mrs. Liz Vakey, Friday Oct. 9.

The purpose of this visit was to attend the Pep Squad class and Pep Rally, and also to get new ideas for future events.

Upon arriving they went to the gym where a mini Pep Rally was held for the Pep Squad, then proceeded to the courtyard for the main Pep Rally.

The Cheerleaders found many similarities between the schools except the Clark Pep Rally was on a much larger scale.

PSAT Test

By: Charmaine Adamson

PSAT stands for Preliminary Scholastic Aptitude Test. This Test will be given on October 27, to the 44 Juniors that chose to take it, and the 16 Sophomores that were chosen by the counselor.

By taking the test, you can find out how you rank among students across the country on verbal and mathematical reasonings, as well as a preview for the Scholastic Aptitude Test (SAT), which is required for admission to many colleges.

The PSAT Test also is the qualifying test for students who wish to participate in the nation wide competitions by the National Merit Scholarship Corporation.

Bus & Cars — A Success?

By: Linda Mailer

Perhaps the most important school assembly of the year was held October 7th at Bandera High. Many students from the 9th and 12th grades light-heartedly entered the school auditorium to watch a "silly" movie about car and bus safety. "Death Zone" jokes could be heard from various groups of people and smiling faces were seen everywhere. Within moments after this shocking movie began however, not a chuckle was heard in the room. Everyone was experiencing a very rude awakening to the dangers of driving. The statistics for the number of persons killed in car accidents every day, hour, and minute in the United States were told and stunning reactions were expressed by the student body.

There was an excessive amount of blood, guts, and gore in this film; but it all served an important purpose. The film's overall message was for driver's to take driving more seriously and to remember that driving needs one's total and undistracted attention at all times. Paying attention and reading stop signs and speed laws was another major point emphasized throughout the movie.

Time can only tell whether this film actually made an impression on our student body. It's been only two years ince Bandera's last tragicc car accident. Hopefully, the car safety movie has opened some eyes and made student drivers ask themselves when about to speed, "Is it really worth it?"

As a result of watching this movie, B.H.S. administration hopes to make the year safe from tragic car wrecks as in the past.

Did You Know . .

Glue sniffing, or "solvent sniffing," is one of the most common drugs used today, by kids between the ages of eight and seventeen.

Repeated sniffing of solvents, even though not taken in large enough amounts to produce immediate death, may cause damage to the kidneys, the liver, and the brain. The sniffer may also develop damage to his bone marrow, resulting in a fatal blood disease.

"Sniffers," tend to spread the habit to others, and often resort to stealing to meet their growing needs for the solvent, which makes them a target for narcotics peddlers as they seek even greater thrills.

Big Trouble in a Tube

Sometimes kids for thrills will seek
A lonely tube of glue
But little do they realize
Just what this tube can do.

It causes homes to fall apart
And friends to leave your side
It causes boldness without cause
And even suicide.

It causes pain and sure disgrace
With character at stake
But worst of all this tube of glue
A PRECIOUS LIFE can take.

Columbus Day Follow-Up

By: Kurtis Karr

The Columbus Day article published in last weeks edition of this paper received very little response as yet. This is probably due to the fact that many people doubted the parliament of the article. For this I must apologize.

Although a humorous connotation was indeed intended, it was also my intention to receive a general public response to create an interesting collage of expressions on the subject.

The few letters I did receive, however, seemed to reflect an opinion that I myself was apathetical towards the holiday. To set this matter straight I must say that I, in fact do care about Columbus' discovery of America. It is part of my history and therefore a part of my being. Without this essential part of myself I might not even exist.

But as far as creating a holiday in his honor I see no valid purpose other than a realization of his death. For this I feel no holiday should be necessary.

The Spirited

By Glen Bran Stevens

The week of Homecoming at Bandera High School promises fun and excitement for all. This week commonly known as "Spirit Week" can be one of the highlights of a student year. The following is a roster of the activities for Spirit Week.

Monday, October 12: Black out Cole day — students were requested to wear black to show spirit.

Tuesday, October 13: Rock Cole Day—most students were rock music T-shirts, although a few apparently misunderstood.

Wednesday, October 14: Sock Cole Day— students were strange and "exotic" socks.

Thursday, October 15: Cap Cole Day— students are wearing an unusual assortment of hats and caps, along with a miscellaneous "assortment of other head gear. (In addition there will be an after school car-decorating party.) Bonfire gathering and burning will be conducted Thursday evening, 7:30-9).

Friday, October 16: Blue and White Day—students are asked to wear blue and white to show school spirit.

Homecoming activities begin at 8 p.m. Homecoming Dance to be held after game at the Rec Center, 10-1.

Saturday, October 17: Bonfire Clean-up — all are invited to attend at Mansfield Park.

Homecoming is a very special event at Bandera High School. With the old and cooperation of the students, faculty, and community, Homecoming will be a great success!

Rock Cole Day: Many students wore rock music T-shirts but Kurtis Karr chose to carry his "rock" for the day.

Bucket Brigade Proves Spirit

By: Chris Reeves

The "Bucket Brigade" sponsored by the Student Council, is held each year and is one of many activities to take place prior to Homecoming.

All students are encouraged to put their pennies in the buckets provided in their class. All other forms of currency will subtract to the total amount of pennies formerly collected.

This activity is one of many which is planned to promote school spirit.

Senior Pictures

By: Dana Alanis

Only once in a life time does a person graduate from High School. This is an achievement that should be remembered by all and what better way to remember this event than with a picture.

Tuesday, October 6, 1981 was Senior picture day. Each student had the choice of two different poses. One pose in their cap and gown and the other in regular street clothes. These pictures will be given to parents, grandparents, aunts, uncles, and friends so that they too can remember the graduation of the class of 1982.

LEGAL NOTICE
CHANGES ARE MADE IN DETERMINATIONS OF THE CITY OF BANDERA, BANDERA COUNTY, TEXAS, SPECIAL FLOOD HAZARD AREAS UNDER THE NATIONAL FLOOD INSURANCE PROGRAM.

On December 1, 1977, the Federal Emergency Management Agency identified Special Flood Hazard Areas in the City of Bandera through issuance of a Flood Insurance Rate Map.

The Associate Director, State and Local Programs and Support, has determined that it is appropriate to add the special flood hazard areas of the flood having a one-percent chance of occurrence in any given year (base flood for certain locations in the City of Bandera. The additional special flood hazard areas amend the Federal Emergency Management Agency Flood Insurance Rate Map of the community which was in effect prior to this determination.

The changes are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, P.L. 90-448) 42 U.S.C. 4001-4128, and 44 CFR Part 65.

Under the above-mentioned Acts of 1968 and 1973, the Associate Director, State and Local Programs and Support, must develop criteria for flood plain management. In order for the community to participate in the National Flood Insurance Program, the community will be using the new special flood hazard areas to administer the flood plain management measures of the National Flood Insurance Program. These additional special flood hazard areas will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

Upon the second publication of notice of these changes in this paper, any person has 90 days in which to request through the Chief Executive Officer of the community that the Associate Director, State and Local Programs and Support, reconsider the determination. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Associate Director's determination to modify the special flood hazard areas may itself be changed.

Any person having knowledge or wishing to comment on these changes should immediately notify:

The Honorable W.D. Smith
Mayor, City of Bandera
P.O. Box 896
Bandera, Tx 78003

Also, at this location is the map showing the new special flood hazard areas. The numerous changes made on the City of Bandera Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the changes contained on the City of Bandera map.

Cable - Bailey

—Photography By Evans

Mr. and Mrs. Ray Coble

The marriage of Trudy Jane Bailey and Ray Coble of Wimberley was solemnized on Saturday afternoon, October 3, at the Bandera United Methodist Church. Rev. J. Wesley Jones officiated at the double-ring ceremony and Mrs. Russell Zickler, organist, presented the nuptial music including "The Wedding March" from Lohengrin. She also accompanied Mrs. David Crist, who sang "We've Only Just Begun."

Church decorations included two large ferns with lavender and white fuji mums and baby's breath on either side of the alter where the couple repeated their vows.

The bride is the daughter of Mr. and Mrs. Ross N. Bailey of Bandera and the groom's parents are Mr. and Mrs. Kenneth Coble of Wimberley.

The bride's attendants were her sister, Alice Kaywell, matron of honor, Alice Rae Valades and Tedra Klecka, bridesmaids. The groom was attended by Larry Coble, best man, David Gwynn and Paul Hamm, groomsmen. Ushers were Marty Valades and Butch Coble.

The bride was given in marriage by her father and mother. She wore a floor-length white Priscella gown of peau de soie satin and lace, featuring a train bordered with lace.

Her shoulder-length veil was held in place by a head piece which echoed the mood of her gown. The matron of honor was gowned in a floor-length lavender flowered dress with high bodice and ruffled neckline. The bridesmaids dresses were of floor-length lavender satin and lace. The bride's bouquet was of lavender and white fuji mums, white pixi carnations, baby's breath and English ivy.

For "something old" the bride wore a teardrop mother-of-pearl necklace; for "something new," her wedding dress; for "something borrowed," pearl earrings; and for "something blue," a blue lace garter, and she had a 1¢ penny in her shoe.

For her daughter's wedding, Mrs. Bailey wore a street-length lavender flowered dress. The bridegroom's mother wore a street-length blue flowered dress. Both wore white daisy corsages.

A reception followed the ceremony in the fellowship hall of the church. The bride's cake was three-tiered with a bride and groom atop and decorated with lavender flowers. The groom's cake was German chocolate shaped like a horseshoe.

Sheri Darden and Kim Basinger presided at the refreshment table and Mrs. Buddy Mann presided at the guest book.

After a honeymoon trip to New Orleans, the couple will reside in Austin.

COBLE-BAILEY REHEARSAL DINNER

Mr. and Mrs. Kenneth Coble of Wimberly hosted the rehearsal dinner for the Coble-Bailey wedding party Friday evening, October 2, at the home of Mr. and Mrs. Ross Bailey in Bandera.

Bailey - Hickey

Mrs. Roger Bailey

Wanda Star Hickey and Roger Kevin Bailey were united in marriage on Saturday, October 10, in Westbury Baptist Church. Lori Visser, soloist, sang The Lord's Prayer, The Gift of Love and Whither Thou Goest. A reception and dance was held following the ceremony at Sugarland Community Center.

The bride is the daughter of Mr. and Mrs. Marvin R. Hickey, the granddaughter of Mr. and Mrs. Ernest Morgenaters of Bandera and Merle Malone of Houston, and the great-granddaughter of Mrs. Orlando Morgenstern of Boerne.

The groom is the son of Mr. and Mrs. Arlington J. Bailey, the grandson of Mr. and Mrs. Paul Irwin and great-grandson of Mrs. Martin Schaefer, Sr., all of Houston.

The bride, given in marriage by her father, wore a bouffant silhouette gown of white French organdy, designed with a portrait neckline. Her Bishop sleeves fell to tapered cuffs. The traditional gown was trimmed with Chantilly lace and beaded mock seed pearls on the bodice, sleeves and cascades of lace down the back of the skirt. The chapel train fell from a matching band of lace. The bride's mantilla of imported white illusion with matching Chantilly lace was secured by a bridal cap. She carried a lace fan with white roses, daisies and carnations and apricot lilies.

Maid of honor was Lisa Alred and matron of honor was Mrs. Les Hughes. Bridesmaids were Laura Hickey, sister of the bride, Pam Bailey, sister of the groom, Beverly Bowman, Cindy Whitfield and Becky Bourn, all of Houston. They wore long organza gowns of apricot color. The sleeveless gowns featured moulded bodices and off-the-shoulder ruffles. The full skirts were worn slipper length with a large ruffle around the bottom that bustled up in back. Each bridesmaid carried a crescent-shaped bouquet of silk flowers in the fall colors.

Best man was Rick Bailey, brother of the groom. Groomsmen were Les Hughes, Mike Cox, Mark Taylor, Steve Lindley, Pete Suess and John Fraizer, all of Houston. Ushers were James Smith, cousin of the bride, Dirk Shoppe, Curry English and David Cunningham, all of Houston.

The bride and groom were graduated from Alief Hastings High School.

After a wedding trip to Acapulco, the couple plan to make their home in Houston.

Trudy Bailey's Honored

Trudy Bailey was honored with a bridal shower in the home of Mrs. Sam Darden on Tuesday night, September 29.

Trudy's chosen colors were used in a floral arrangement of lavender and white mums as the centerpiece. Milk glass and English lace completed the table settings.

After the honoree had opened her gifts, she, her mother, and guests were served cake and punch.

Baptists To Conduct People Search

Members of First Baptist Church of Bandera will conduct people search in Bandera and surrounding areas on Saturday and Sunday, October 17 and 18.

People Search is a religious survey being taken by Southern Baptist Churches to locate people who are not members of any local congregation and is part of the 1981-82 church growth thrust.

Teams of two persons will visit each residence in the community asking families to volunteer religious information concerning their family. Information from the survey will be shared with other churches where their church preference is listed.

Appearing elsewhere in the Bandera Bulletin is a reprint of the survey card to be used. If you are not going to be at home, please clip the form out and list the information called for and leave in your door for the volunteers to pick up.

Kevin Flis of Houston visited with Rev. and Mrs. Ira Garrison this week.

Concerned Parents To Meet

Bandera County Concerned Parents in War on Drugs will have its next meeting on October 19, at Bandera High School, Room 12, from 8 to 9 p.m. The program will be a presentation from the Court Watchers Committee.

The public is encouraged to attend and find out what the county and district courts are doing about drug abuse.

Cancer Society Garners Awards

At the meeting of the Bandera County Unit of the American Cancer Society Monday, October 12, Mrs. A.W. Huseby, crusade chairman, awarded certificates of appreciation to all her co-workers. Mrs. G.M. Merritt, service-rehabilitation chairman, received the "Quality of Life" certificate for servicing 33 percent of the patients in the county, with an increase of 10 percent from last year.

Terri Voigt, field representative, reported that the Bandera County Unit received first place in Texas in public information, third place in crusade, going over 119 percent of last year's total, and fourth place in public education.

About $315 has been received in memorials since the last meeting.

The Great American Smokeout which will be held this year on November 19 was discussed. Information is being distributed to the Student Council at Bandera High School, and other literature will be left at the Junior High School.

On October 31 there will be an awards banquet at Southwest Texas Junior College in Uvalde for all volunteers during the past year.

The next meeting will be held November 9 at 7:30 p.m. at the State Bank building.

Genealogical Society Views Slides

At the Heritage Genealogical Society meeting September 24, slides showing the Natchez Trace from Tupelo to Jackson, Miss., were shown and discussed. This highway, which is a national park, is in the Tombigbee Forest. Signs guide you through a Chickasaw Village where remains of the winter and summer homes and mounds are shown on the signs and the paths lead through natural growth with identification of each tree and bush and how they were used by the natives at the time of their migrations. There are no advertisements or commercial establishments, and a limited speed assures a leisurely relaxed sight-seeing day. The hundreds of miles our ancestors walked, rode horseback or on wagons, have left a deep pallway through this area which the highway crosses many times, and is a most interesting place to explore.

A book, Neath Georgia Sod, cemetery inscriptions compiled by Pearl Baker, was donated to the library by Mrs. John S. Hammonds along with publications from National Society Daughters American Colonists and Colonial Dames XVII Century.

The next meeting will be at the First State Bank on October 22. Loree Neiman of of Round Rock will present the program. She is owner of "Books & Things" bookstore, specializing in Texana and Genealogy. Come and bring your family.

Texas Heritage
By Garland Perry

One of the most interesting frontier churches in the Texas Hill Country is located two miles north of State Highway 46 on Privilege Creek in Eastern Bandera County. It's called Polly's Chapel, and therein also lies the story of a fascinating man.

Jose Policarpo Rodriquez was born January 26, 1829 in Zaragoza, Mexico. While still a young boy his parents moved to San Antonio with their 10 sons. "Polly," one of the middle siblings, soon became interested in the rough, untamed hills west of San Antonio — first as a hunter of wild hogs, bear and cougars — then as a camel herder at Camp Verde, an Indian Scout, fighter, and pioneer rancher. He endured the hardships of frontier life with a smile and was highly regarded by early settlers as an honest, hardworking, courageous man.

In 1858 Polly Rodriquez bought 360 acres of land on Privilege Creek from John James for fifty cents per acre. There, he settled down to raise a large family and became the leading citizen of his community. Recognizing the need for education, Polly built a one-room schoolhouse on his property. Having already been converted to the Methodist faith, Mr. Rodriquez also built the historic old Chapel with his own hands in 1882, and thereupon became the minister of his church.

Polly Rodriquez died March 22, 1914 at 85 years of age and was buried among his deceased relatives and friends at Polly's Cemetery near the church. The inscription on his tomb best describes "Polly" Rodriquez: "By nature strong, fearless, daring. By Grace an apostle to his people, winning many souls to Christ. He suffered privation, persecution, sorrow; unmoved he went with joy and singing to the end."

Preparations Underway For Hunters Supper

Ben Nolen sprouted horns at last years Hunters Supper, but none of the guests and local folks were disturbed. They continued to enjoy their meal and music by Los Gringos.

Perhaps this first cold front has stimulated your thoughts of fall activities. Members of the Bandera County Chamber of Commerce certainly hope so. As the calendar has it, we're only 3 weeks away from the 18th annual Hunters Supper.

For newcomers to Bandera County, this is a free barbecue supper given in honor of all those lease hunters who fill our roads, hunting cabins, and businesses during the fall months. This year is no exception. The Bandera County Chamber of Commerce, with the help of many residents, will do its best to give the lease hunters a warm send off on Friday evening, November 13.

Activities, which include a barbecue plate, sweet booth, donation drawing, music by Los Gringos and dancing by everyone, will begin at 6 p.m. at Mansfield Park. Brisket, sausage and trimmings will be served until 8 p.m.

More than 1,300 persons attended the event in 1980, and more than half were lease hunters who naturally enjoy a free meal and entertainment. A donation of $3.50 for adults and $2 for children's plates will help defray costs. The generous support of landowners and businesses has made the Hunters Supper a success for 17 years.

Your support is vital. Donations of monies, materials and energy are welcomed. Your co-chairpersons for this year are David and Geri Valdez and Conrad and Nancy Nightingale. Contact them if you can assist. Money donations will be received by Snuffy Short, Vercella Evans or Marcia Walker at the Chamber office.

Hunters tickets may be picked up at the Chamber Office 9-5 p.m. Monday through Friday.

This year the Chamber will continue the 12 point Buck Club with an 11"x16" photography by Evans appreciation certificate designed by Ben Nolen Graphics awarded as follows: Gifts of $10 above cost of tickets will be awarded the spike buck; $25-$49, 4 point buck; $50-$74, 6 point buck; $75-$99, 8 point buck; $100-$149, 10 point buck; and more $150 ... 12 point buck.

A banner designed by Trina Sandidge is being planned to recognize our donors at the barbecue but donations must be received by November 9.

Come on and join in the preparations.

It's Time To Change The Time

Daylight Savings Time ends for the year at 2 a.m. Sunday, October 25.

Remember to turn your clocks back an hour and enjoy an extra hour of sleep this weekend.

Mary Bolan & Becky Blakemore To Be Honored

The coveted Gold Star — highest recognition of 4-H achievement at the county level — will be presented to outstanding area club members at the District 13 Gold Star Awards luncheon in Uvalde on October 31.

About 150 4-H'ers, parents, adults leaders, special guests and Texas Agricultural Extension Service personnel are expected.

Mrs. Mary Howard, vice president of 4-H Volunteer Leaders Assn. of Texas, will present the awards with the assistance of Cherie Leahr, Uvalde County, and Ella Blair, Zavala County, Vice-Chairmen of the District 13 4-H Council.

Among those to be honored will be Mary Bolan and Becky Blakemore representing Bandera County.

They were named Gold Star winners on the basis of personal development, leadership, outstanding achievement in projects and activities and contributions to the overall county 4-H program.

Antlerless Deer Permits To Be Issued

The Texas Parks and Wildlife Department will issue antlerless deer permits for Bandera County on November 9-10 from 8 - 12 noon and 1 - 5 p.m. in the Bandera County Courthouse.

A map with the antlerless deer permit issuance compartments and issuance rates will be posted in the county courthouse prior to the issuance date.

To qualify for permits, a landowner must own or control acreage equal to at least one half of the permit issuance rate of the compartment where the tract is located.

After the opening of the hunting season, permits will only be available through the Austin office and will not be issued by local department personnel. Landowners or their agents are urged to pick up permits on the scheduled issuance dates.

Dr. Solomon Is Revival Speaker

The Bandera United Methodist Church will hold three evenings of revival services, October 25, 26 and 27. Dr. Dan Solomon, senior pastor of the Travis Park United Methodist Church, will be the speaker.

Dr. Solomon has pastored several of the largest United Methodist Churches in the Southwest Texas Conference and has served as District Superintendent of the Kerrville District.

Everyone in the community is invited.

Services each evening begin at 7:30. Special music is planned for each service.

The church membership and visitors are invited to bring covered dishes for a fellowship supper to proceed the evangelistic service on Sunday evening, at 6:30. On Monday, a sandwich supper will be shared at 6:30 p.m. Following the Tuesday evening service, refreshments will be served in the Fellowship Hall.

Georgina Macon Crowned Queen At A&I

Georgina Macon

Georgina Macon was crowned 1981 Texas A&I University homecoming queen during halftime ceremonies at the Texas A&I-S.F. Austin football game in Kingsville Saturday night.

She was selected by a vote of the Texas A&I students last week and the results became known for the first time at halftime.

Miss Macon, sophomore from Bandera, was sponsored by the College of Agriculture. She is an agricultural economics major and is a member of the Rodeo Club and Aggie Club. She is the daughter of Mr. and Mrs. Ron Macon of Bandera.

The queen was crowned by Paula de la Fuente, the 1980 homecoming queen. Dr. Bill Franklin, president of Texas A&I, presented a trophy and Ed Phillips of Houston, incoming president of the Texas A&I Alumni Association, presented a bouquet of roses.

There were eight candidates for queen.

Rena Sandidge Elected President

Rena Sandidge (r) of Tarpley was elected president of United Methodist Women for the Southwest Texas Conference for 1981-83 at their annual meeting held October 9-11 in San Antonio. Pictured with her is Betty Hixson who was elected vice president.

Vernell Mullenax's election as representative from the Kerrville District to the conference nominating committee was also confirmed.

This meeting celebrated 100 years of Methodist women working in missions in this area.

Playing Bingo Is Not Legal Yet

State Comptroller Bob Bullock's office has warned that it will be early 1982 before Texas can conduct and play legal bingo and cautioned against fraudulent claims that legal bingo has already arrived in Texas.

George Garland, director of the Bingo Regulation Division, said the new bingo law also requires a local option election before games can be held.

He said because of the language in the law the earliest date a local option election can be scheduled would be January 16, 1982.

"Any game before that time and before the sponsor holds a license from the comptroller's office is an illegal bingo game — just like it's always been," Garland said.

The legislature this year legalized bingo games sponsored by charitable, educational, religious and civic organizations.

The law also provides that sponsoring organizations must be licensed by the comptroller's office.

Garland said local option elections to play bingo can be called on a citywide, county or justice of the peace precinct basis.

If approved locally, Garland said, the governing jurisdiction can also impose a two percent gross receipts tax on the games.

Garland said each applicant for a bingo license will be investigated to assure that the organization qualifies under the law.

"We are not going to permit any fly-by-night operations, and unauthorized games will be subject to the penal code concerning gambling," he said.

"Nothing's legal without a license from the state," he said.

He also said the new law will also limit bingo games to three a week and the amount of prizes in a single game to $500 and $2,500 for a series of games.

Garland said the comptroller's office would be ready to issue bingo licenses to authorized organizations as soon as local option elections are certified.

He said the agency would also be adopting rules and regulations in time for Texans to conduct legal bingo games.

Danny Spangler & Jacque Cantu Are Mr. & Miss BHS

Jacque Cantu and Danny Spangler

Friday evening Danny Spangler and Jacque Cantu were announced as Mr. and Miss BHS of 1981. The actual selecting was done earlier by an election of the student body.

The other candidates were Randy Mauer, Karrie Oehler, seniors; Jimmy Jennings, Teresa Welch, John Fest, Dianne Mangold, juniors; Jimmy Perkins, Lisa Vakey, Tim Butler, Suzanne Tomerlin, sophomores; Heath Hulse, Katherine Caruthers, Bubba Caloss, Teri Butler, freshmen.

The Homecoming ceremony held during the half time of the game was narrated by band director Gene Walters. The traditional roses and gifts were presented to the winners by Mr. Thomas Reese, school board president. Miss BHS 1981, Dina Felton, crowned the 1982 Miss BHS, Jacque Cantu.

School Board Has Routine Session

A variety of routine matters were considered at the regular session of the Bandera Independent School District's Board of Trustees meeting on October 13.

After the invocation by Rev. David Doerfler of the Bandera Grace Lutheran Church and approval of the September minutes, the board approved payments of the October bills totaling $84,828.15.

In addition, the board amended the ESEA Title I budget from $49,115 to $49,905 and the vocational education budget from $8,386 to $8,646. These revisions were made possible as a result of increased federal funding.

The board authorized Superintendent Renald Caloss to apply for approval to extend bus route 2 in order to eliminate a hazardous condition for several young students.

The board approved the film "The Human Body" for sixth, seventh, and eighth grade students according to Sex Education Policy IV-14.

The board then heard a report on recently passed H.B. 30 from Tax Assessor-Collector Charles Purdy.

The district's total enrollment as of October 7 reached 1,056 — up 17 over last year.

Chuck Jones addressed the board concerning the new non-denominational organization, Teens for Christ. He asked permission to work with the school and visit the campuses to see if any students in grades 6-12 would be interested in joining this newly formed group. Teens for Christ will not be school-sponsored and meetings will not be held on the school campus. Jones and sponsors must have prior principal permission before coming on campus.

After executive session, the board accepted the resignation of Mildred Santangelo, and employed the following: Estella Garcia, local and under the CETA Program; Cynthia Schwarz and Melanie Stone as substitute teachers; Linda Killinger as bus driver; Walter Wooley as substitute teacher and substitute bus driver; and Victor Reyna as part-time transportation employee.

Attending the meeting were President Thomas H. Keese, Richard Evans, Patty Adamson, Charlotte Saltman, and Eddie Jon Ryan.

Learn About Hazardous Material Spills

The Bandera City-County Civil Defense will sponsor a program on hazardous material spills, conducted by Rupert D. Gamble, Region 3 Liaison Officer, Texas Department of Public Safety of the Governor's Division of Disaster Emergency Services.

The program will be presented on Wednesday, October 28, at 7 p.m. in the Bandera Volunteer Fire Department Station.

All interested persons are invited to attend.

Treasurer's Annual Report Given

The annual financial report for the County of Bandera prepared by County Treasurer Elizabeth James is published on page 11 of this issue of the Bandera Bulletin, and gives the financial status of the County at the end of the budget year on September 30, 1981. Also shown in this report are the annual total of the receipts and disbursements in each of the County's funds, as well as the beginning and ending cash balances.

The total indebtedness of Bandera County at the present time is $1,647,000.00, on which $213,407.50 is to be applied during the 1981-82 year with $100,000.00 of this amount to be paid on principal while $113,407.50 will be paid on interest.

Victory Worth 'Coming Home' For

By Charles Newcomer

Bandera defeated the Cole Cougars for the first time since the two teams have been playing, by a score of 13-0.

Bandera's scoring came in the second quarter when quarterback Jimmy Jennings turned a pass play into a quarterback keeper for a 65 yard touchdown run. The second touchdown came in the fourth quarter when again Jennings on another keeper scored from the 15 yard line. Jennings had six carries for a total of 85 yards, so it is easy to see why he received offensive player of the week.

This game gave Bandera their 5th victory, 4th shutout, and maintained their average of at least 2 touchdowns per game. For the season the Bulldogs have scored 131 points while allowing only 34.

The 1981 season is the first season the Bulldogs have started district play in a positive way for over eight years. Several of the alumni of BHS said, "It feels great to come home for a change and see a winning team."

Sales Tax Report

Bandera's share of the one percent sales tax for the past month is $4,308.77, an increase over the $3,616.54 received in the same period last year.

To date, $69,864.36 has been received by the city, compared with $51,221.19 received by this time in 1980. This is an increase of 8.56 percent.

He is a retired fireman of El Paso. Mr. and Mrs. Oliver and their two children like LH and the folks of LH. Son Ollis attends BHS and is on the JV football squad. Randall attends elementary school. A LH sized welcome to this fine family.

Condolences

Condolences are extended to the family of Bertha Lewis. Mrs. Lewis had a host of friends in Lakehills and the area who will miss her.

Teresa and Pace

Although we haven't heard from Teresa Prater and her quarterhorse, Paco, lately, they have had a very successful fall show circuit. Since Labor Day, they have competed in four shows, taking high-point honors at two of them and barely missing winning a saddle at another. All in all, in the four shows Teresa and Paco have garnered 10 firsts, 3 seconds, 6 thirds, 1 fourth, 3 fifths and 1 sixths. They only failed to place in 4 events entered. Next on the agenda for T and P is participation in a horse show clinic held by Texas A&M in SA at the Joe Freeman Coliseum next week. After this event T and P expect to take a four-months rest through winter. Congratulations to Teresa and Paco.

Bouquet of Roses For:

Jack Williams who gives so much of his time for neighbors and friends.

Hal and Sandi for their continuous donations to worthy community projects.

Everyone in the young fry set is invited to ENNDCC to an open house October 31, 5-8 p.m. (See ad elsewhere) Parents with children in this age group are especially invited.

CARD OF THANKS

We would like to say thank you to our friends and neighbors for all the prayers, calls, cards, visits, food, and lovely flowers during my stay in the hospital, and since coming home. You will never know how much they meant to me and how it helped me through a bad time.

A special thank you to the Lakehills United Methodist Church Prayer Group who offered special prayers for my recovery. I am very touched that you care so much.

God bless all of you.

Tarpley NEWS

Mrs. Nettie Doss
562-3464

A quote: "Old age is always fifteen years older than I am." Bernard M. Baruch.

Tarpley was about flooded Tuesday morning when 2.1 inches of rain fell rather quickly. Creeks and roads were blocked to Hondo and Bandera. Rio Hondo reported 2.5 inches but much more fell above Rio Hondo. The water crossing in that area was too high to cross for about 5 hours.

Attention all Williams Creek Home Extension Club members! October 26 will be the date for the regular club meeting at 7:30 p.m., at the Tarpley community center. Bunnie Erfurt will be the hostess. This will be a special meeting to elect new officers for the coming year. Serving on the nominating committee are Edith Jeffers, Bobbie Singleton, and Suzanne Taylor.

The program will be on Christmas ideas, so bring those ideas - things you have made, Christmas recipes, cookies or what ever. Visitors are welcome.

Marilyn Haner attended the area post office meeting Tuesday and Wednesday in San Antonio. In her absence, Joyce Koontz had charge of the Tarpley Post Office.

The Rio Hondo Extension Homemakers Club met Thursday October 15 at the home of Margaret Caine. Margaret presided as leader in the absence of the president, Dorothy Cutler. The title of the program was the arts and culture of the Navaho and Hopi Indians. Milton Hausmann, a past scout master, was present as he was very interested in the program. Margaret Caine showed examples of rugs, pottery, Cochino dolls, basket weaving and jewelry. Seven members were present and one guest, Milton Hausmann.

Those not feeling well this weekend are Edith Jeffers and daughter, Ethel Maxey, and Hazel Purvis. Get well wishes are extended.

Nettie and Elzie Dean visited his brothers, Mr. and Mrs. Lewis Dean and Mr. and Mrs. Marvin Dean Sunday afternoon at D'Hanis.

Learn To Build Your Own Solar Collector

The Kerrville Independent School District continuing education program will sponsor a lecture and workshop for home and business owners explaining how to build and install their own solar collectors. The lecture is scheduled for Thursday, October 22, in Kerrville at Peterson Junior High, 605 Tivy, in Room 3. The class will last from 7 to 10 p.m. Registration at the door will be $8.

A hands-on workshop to build the solar collectors will be Saturday, October 31, in Kerrville at Tivy High School, 1010 Barnett. Lab fee for the eight-hour workshop will be $37.

Solar collectors are heating domestic hot water to 190 degrees and can save the homeowner an average of 30 percent on monthly electric bills.

"All expenses associated with installing a solar system, including lecture and lab fees, are eligible for a federal income tax credit of up to $4,000," according to Jerry Reid, electronic-solar engineer, who will conduct the class and lab.

The workshop method of building solar collectors was designed by the Arizona State University with a grant from the Department of Energy in 1979.

"More than 4,000 participants in Arizona and California have completed the workshop without a single letter of dissatisfaction," said Reid.

For pre-registration or more information call Jerry Reid at 896-5716 or Judy Bowyer, Director of Continuing Education at 896-6005.

80th YEAR SURPRISE PARTY FOR LILA CLARK

At 1 p.m. Saturday, 19 September 1981 about 75 friends, descendants and other relatives gathered at te JP Ranch No. 2 (formerly Mrs. Foote's F-F Ranch) near Medina for a Super-Surprise Bar-B-Q Dinner & Champagne e Party to celebrate the eightieth birthday of Lila (Reynolds-Simon) Clark.

Red ribbon streamers and colorful balloons created a festive motif, the "Red Carpet" down the walk, a sea of faces shouting "Surprise!" and the traditional "Happy Birthday to You" song greeted the honor guest, while the corsage was pinned on — and promptly crushed by hugs and kisses. Popped-open eyes and dropped-down jaw soon showed that the attempt to surprise was successful — except it really wasn't that easy to see through the tears of joy and all that Love, so thick it could be cut — like the delicious birthday cakes made by Clara McCutchen (Medina's "Cake Lady"). On either side of Lila's cake were German chocolates honoring her son-in-law Quinton Godsey and grandson Reynolds Godsey, who share the same birthday (almost) with Lila.

Lila Clark

Hosting this affair were Lila's nearest female relatives, their husbands and children: her only sister, Marjorie (& Bob) Jordan of Medina; nieces Dorothy (& Charley) Davis, Jr., of Medina and San Antonio, and Mary Dee (& Chester) Gleason of Longview, Tx; daughters Marty (& Quinton) Godsey of "El Rancho Me Gusta" near Medina, and Jenny Pitts of Bryan, Tx, Caldwell, Tx, (JP Ranch No. 1) and Medina, Tx, (JP Ranch No. 2, site of the party); grandson Roland Godsey, wife Sheila Jo & their daughter Elizabeth (Lila's only great-grandchild) all of Stephenville, Tx; grandson Charlie Schmidtke and Donovan Bradford; Bonnie Dora and "Red" Beck; Nyssa Renia Elkins and Bill Ross; and Mrs. [illegible] Park (near Houston) Quinton's brother Eldridge "Red" Godsey and his wife Mary.

Special guests were lifelong friend Pete Wood and wife Ivar from Floresville, and Lila's double-cousin Arthur Cavender and wife Ruth, who still live at their "Green Horn Ranch" on the Guadalupe River near Spring Branch, Tx.

Pete and Arthur welcomed Lila to their "Over-Eighty-Club" and everyone enjoyed the gorgeous afternoon, which the Good Lord had provided. Thanks to Him, and to all who co-hosted, contributed, called, corresponded and-or otherwise co-operated — and Special Thank You to everyone who CAME - for helping to create a Beautiful Birthday for Lila - a Lovely Lady of Eighty.

Lakeshore NEWS

Dick and Deanie Newman drove to Dallas Friday morning with John and Marietta Overholser to help move their daughter, Debbie, to Austin where she is now residing and started her new promotion job. While in Austin they all visited with Ronnie and Betty Newman Saturday evening and enjoyed a barbecue supper. Before leaving Austin Sunday they stopped to visit Dewey Overholser and brought his Volkswagon back to Lakeshore. Monday morning John and Marietta Overholser went to Kingsland with the Bishops to spend a few days of pleasure and work.

John Portman and Yoyo Mayorga were visited by her daughter, Mary Lou Wynn, and friend, Johnny Allison, from Helotes over the weekend.

Wayne and Frances Hildenburg, Ray Bowen, Bethel and Dell Lackey attended the Pipe Creek Volunteer Fire Department barbecue Sunday afternoon.

They met some old friends, Bob and Doris Rippey, and granddaughter, Crimson Sloan, who were here for our last barbecue and will be back November 1 for our fall VFD barbecue.

Thanks to the Lakeshore VFD that worked Tuesday, securing boats and docks and warning people of the rising waters. As a result there was very little damage.

Dickey and Mary K. Andrews went to San Antonio Sunday to visit his brother, Ruby and Ken Parks, and Aunt Lillian Kingery; while there they had to rush Ruby to the emergency hospital for a while. She returned home late Sunday eve, feeling better. We hope she continues to do so.

In a few years the Utopia Baptist Church will be celebrating its centennial as an organized church. In preparation for that event, this group seeks information about the early history of their church. If you can be of help contact Homer Stephens, pastor, Utopia Baptist Church, Box 300, Utopia, Tx. 78884.

The big day for Utopia in the Volksmarching world is drawing near. November 7 and 8 approximately 500 walkers are coming to Utopia to participate in the first International Walkfest sponsored by the Utopia Footprints Assn., Inc.

There will be three trails provided for the walkers. All trails will start and finish at the Community Building. The 13 kilometer trail will go north to the first turn, go left, past Jones Cemetery, follow the road to the intersection with Fisher Road and 187, east to the Y of 470 and 187, thence on back to the Community Building. The 20 kilometer trail will go east from the Community Building to Thunder Creek development, circle Thunder Creek loop, then on to route 470, west on 470 to the Y of 187 and 470, thence back to the Community Building. The handicap route will go north on 187 to the Y of 187-470 then return to the Community Building.

There will be a meeting Monday, October 26, at 6 p.m. at Evans Creek Road and Route 337. Members are urged to attend. If it rains the meeting will be held in the Community Building.

A THOUGHT FOR THE WEEK

By John M. Grimes

Do you ever feel you have no influence whatsoever? How untrue this is... Everybody has influence. Whether we like it or not we do influence others by what we say; by what we do; and what we think. But most of all we influence people by what we are! There is not a human being living who doesn't influence others at some time or another. Think back over your life and evaluate the influence certain people have had on you. Your parents, your friends, your teachers and even your enemies have all produced an effect on you...It may be good, it may be bad;—but it is there.

Isn't it true that some people have the gift of extending their influence on others? These are the leaders and the geniuses. They do influence periods of time and change human customs.

But, let us remember that the influence of the greatest leader that ever lived can not compare with the daily influence we encounter and exert every day, on our family, friends, and acquaintences. True, influence can be powerful. It should not be taken lightly for it is a powerful reality and one of serious importance.

Hicks Re-Elected Director

Raymond Hicks of Bandera was recently re-elected to the Bandera SWCD board of directors October 3. Hicks represents Zone 3 of the district.

The purpose of the Bandera SWCD, with headquarters in Bandera, is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners.

The board of directors coordinates the conservation efforts of various local, state and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

As one of five individuals serving on the district board of directors, Hicks will be responsible for district policies and procedures for carrying out the district program within the framework of the Texas soil conservation district law.

In other areas of leadership, Hicks is active in the American International Charolais Assn., American Sheep Council and National Cattlemen's Assn.

He has been recognized for state 4-H leadership.

In Texas there are 201 soil and water conservation districts. Each is a legal subdivision of state government organized by local agricultural landowners with the assistance of the Texas State Soil and Water Conservation Board. Unlike most other legal subdivisions of state government, SWCDs do not have the powers of taxation or eminent domain. All conservation programs managed by the districts are of a voluntary nature to the landowner or operator.

Organized in 1946, the Bandera SWCD serves a very diverse area, from a farming-ranching community to urban sprawl of San Antonio. The problems are many, and the Bandera SWCD is instrumental in solving them. Current board members are Fred Burch, Alton Reininger, Vernon Porter and Tony Jennings, along with Raymond Hicks.

LSA To Host Banquet

The local ALS was organized earlier this year and has a membership of 80 students, 40 graduated last May. Raymond Popham, the first president, is expected to be present to pass the gavel to the newly elected president. Those students are interested in the legal field as a possible career. Membership is open to high school juniors and seniors and college students.

Dog Plays Role in Rocky Mountain Spotted Fever

Experimental and epidemiological studies conducted during the past seven years by the Texas Department of Health indicate that the pet dog may be a major factor in the transmission of Rocky Mountain spotted fever.

Field studies conducted from 1974 through 1978 in northeast Texas indicate that 98 percent of RMSF patients were in close contact with tick-infested pet dogs which had serologic evidence of Rickettsia rickettsii.

Based on reports received during surveillance activities, there appears to have been an increase in the tick populations over the past two years, perhaps due to the relatively mild winters Texas has been experiencing. TDH laboratory and Zoonosis Control Division studies indicate there is a very widespread distribution of ticks carrying the RMSF rickettsia.

Teresa Welch placed 8 and Brenda Mayfield placed 9 to bring home a fourth place

for the team. Terry Hodges was the only boy to place coming in 10. The varsity boys placed sixth overall.

On October 24, Bandera will host the Sixth Annual Bandera Invitational Cross Country Meet, starting at 10 a.m.

By Bubba Caloss

Varsity Boys Cross Country team received a third place, Consolation trophy when they participated in the Poteet Invitational Cross Country Meet, Saturday, October 17.

Terry Hodges was the first to cross the line for the team, coming in fourth.

Smithson Valley Tournament

By Sandy Riedner

Stars were still shining as the BHSA volleyball girls loaded up the gear and headed for the Smithson Valley Freshmen and JV Tournament. Since the JV team is made up mainly of freshmen girls they played as a freshman team and Varsity participated as a JV team. The girls were eliminated Friday after losing against Westlake and Tivy. Eight teams participated in the tournament.

Westlake was the first opponents who crossed the Bulldog's path that morning. Both Frehmen and JV were defeated by Westlake with scores: Freshmen: 4-15, 11-15,; JV: 13-15, 6-15.

Losing their first game the Bulldogs were then sent to conquer the Tivy Antlers. The Freshmen lost their first game against Tivy 9-15, but made a great comeback winning their second game 15-12. The third and final game was won by Tivy 9-15. Terri Butler was high scorer with 10 points.

Time proved to be an important factor for the JV as time ran out before the scores were complete. Being a tournament game the clocks were set with a time limit of 8 minutes. The Antlers, had a 4 point lead when the buzzer went off and suffomatically won the game 9-13. This repeated itself in the second game with scores 9-14. Tiffin Youngblood and Dey Romo made the most points scoring 4 each.

Cougars Shut Down Bandera

By: Bruce Robison

Heads rolled when the Cole Cougars met the Bandera freshmen football team and the score finally settled at 28-0, Cole.

Something must have shattered the scoreless freshmen who have thus far rambled to a winning season with a record of 3-2 and 1. Hopefully the fighting fresh will retain their winning record with a victory against the Smithson Valley Rangers this Thursday, here at 5:30.

JV Is Clobbered By Cougars

By: Trey Shackelford

Bandera's J.V. football team was defeated by a score of 30-0 by the Cole Cougars last Thursday, October 15, at Cole.

The Cougars jumped out to an early lead and held it all the way through to hold back the Bulldog offense and to insure victory for the Cougars.

The J.V. football team will be playing Smithson Valley Rangers at Bulldog Stadium next Thursday, October 22.

Judging Team Places 3rd

By: Wendy Frazier.

Bandera's Land Judging team, consisting of five students, placed 3rd in Boerne on October 14. Members of the team were David Schwarz, Ralph Klunz, Mike Kendrick, Jeff Ott and Karen Risner, who received 5th high point individual.

The contest consisted of 4 plots of land on which the students judged. They were asked to determine such things as wind and water erosion, soil texture, soil permeability, slope of the land, and the run off of the land. They were also asked how they could improve the land to make it more productive.

Did You Know . .

Barbiturates are a commonly used suicide tool. Over 2,000 people die in the United States each year due to barbiturate poisoning and over 600 die in New York alone from this cause!

Barbiturates are valuable medical drugs. In such conditions as high blood pressure, heart disease, anxiety states, and overactive thyroid conditions, barbiturates become an important part of treatment. By means of a barbiturate-like drug most patients with epilepsy are able to live healthy, useful, convulsion-free lives.

Yet barbiturates (and their related compounds) are classified along with amphetamines as "the dangerous drugs," even more so than narcotic. Some of the reasons for this attitude are as follows:

1. The constant HAZARD OF OVERDOSE, either intentional or accident.

2. The danger of TOXIC REACTION to the drug, even in those who have been taking the drug for some time. This may also occur with a relatively small dose.

3. When COMBINED with alcohol, barbituates form a treacherous and sometimes unpredictable poison. They add to the action of each other in sometimes lethal proportions.

4. WITHDRAWAL of barbituates in one who has abused the drug may be much more dangerous than with narcotics. When a great tolerance for the drug has been developed over a considerable length of time, sudden withdrawal of the large dose may produce convulsions and even death.

Bonfire — A Blaze of Success

By: Linda Mahler

Wood gathering was the primary activity all over Bandera the afternoon of October 15. At 2:15 p.m. the industrious and excited student body was released from the school in order that they could help to build our Homecoming Bonfire. Large amounts of wood could be found everywhere due to the river rise earlier in the week. Some clean-up work for the city was accomplished from flood debris being picked up to add to the rapidly growing wood pile at Mansfield Park.

After a long day of fun and hard work bonfire builders met at the high school in their decorated cars for a parade through town at approximately 7:00 p.m. Their destination was, of course, the bonfire site. The anticipated hour for the lighting of the fire was drawing closer. Yells were led by the cheerleaders and songs were played by the band as more and more people arrived at the park to watch the traditional Homecoming event. Everyone's spirit was indeed "fired up" by the time the woodpile was ignited.

The bonfire activities lasted about an hour, and ended traditionally with the Alma Mater.

Shoe Polish Mania

By Charmaine Adamson

Citizens of Bandera may have noticed the numerous vehicles and business windows about the town spiritedly decorated for the 1981 homecoming game.

This was done by the many shoe polish crazy students at Bandera High. With the owners permission shoe polish mania was spread to all sides of town. Nearly all cars and trucks could be seen with slogans of victory scrawled on the windshields.

This decoration certainly contributed to the festivities and spirit of Homecoming.

Thank You

Banders High School would like to take this opportunity to tell the County Commissioners and Board of Directors thank you for allowing us to use Mansfield Park for the bonfire. Without Mansfield Park, the student body would not have been able to hold a bonfire.

ALS in Action

By Noel Rodrigues

Association of Legal Students (ALS) were taken to the Bexar County Courthouse on Thursday, October 15. The purpose of this trip was to promote the profession of law and those who are interested in law, giving the 38 students the opportunity to become acquainted with court room procedures.

While on tour of the courthouse with their sponsors Mrs. Nancy Hunter and Mrs. Mary Perkins, the students were permitted to talk and enter the courtroom of Judge David Peoples. Afterwards, they proceeded to hear two court trials while in action, one on a divorce and another dealing with the possession of heroine.

Mr. Herbert Schaefer, chief of the criminal section of the district attorney's office, spoke about the Bexar County Criminal Justice Information System, which records information dating back before the 1970's, on micro-film. Information was normally filed on paper.

Mr. Jerry Haeckes, County Clerk, spoke about the procedures in filing for a marriage license, deeds, and wills.

Fall

By: Kurtis Karr

It's time to get out the guns and shake the mothballs out of the old jackets; Fall has arrived.

Fall is a season characterized by the changing and falling of leaves, hence its name. Although the trees seem unecoperative as yet in this aspect, never fear, soon the countryside will be bathed in brilliant crimson and amber hues. As of yet, however, the blue seems to be the only factor distinguishing Fall from Summer, and it will take some time before Autumn finally wipes the summer from her sleepy eyes and greets us with her stunning beauty.

FFA Getting Ready For Show

By: Wendy Frazier

All members of FFA, Future Farmers of America, will have an animal project which will be shown in the Bandera Jr. Livestock Exhibition on January 14 and 15. The Ag teachers, Mrs. Telvy Robbins and Miss Sandy Hunter, are busy helping students select projects and prepare them for the show.

Many of the students have their projects. They are as follows: steers-16; beef and dairy heifers-16; breeding sheep-22; lambs for fatening-17; and hogs-8.

Students who will be showing rabbits, broilers, and turkeys will have to wait to start their projects, because these animals have to be of a certain age or weight at show time. Along with raising their animals, students keep a record book on all project expenses.

Juniors Order Rings

By Lidly Gebel

The week of Homecoming '81 brings with it many exciting and loved traditions. One of these events particularly concerns the Junior class of 1982. Time to order their Senior class ring has finally arrived.

Excitement is all about while the representative informs students on all of the styles, colors of stones, and personalizing available. The big decision, what kind of ring to order? Most students choose to have the mighty mascot on one side of their ring. The rest of the ring is selected by the students own personal interests, or extra curricular activities.

The Junior class will receive their rings at the Junior Senior Prom in the month of May.

Canadian Thanksgiving Day

By: Dana Beman

We are all aware of Thanksgiving Day in the United States. But are there many people who know what Canadian Thanksgiving Day, is?

Unlike our American Thanksgiving Day being on the fourth or last Thursday in November, which is appointed as a legal holiday, the Canadian Thanksgiving Day is set every second Monday of October for the Canadians. This year's Canadian Thanksgiving Day is on October the 12th.

Thanksgiving Day, for both Americans and Canadians, is an annual festival of thanksgiving to God for the year's blessings. Celebrating for Thanksgiving means eating and drinking heartily and such festivities as parades and family gatherings. Thanksgiving was first observed by the Pilgrims in the fall of 1621, when Governor William Bradford of Plymouth Colony appointed a day for feasting and THANKSGIVING. From this, the Canadians derived their Thanksgiving.

On The Shelf

By: Dana Beman

This poem is written by Jolene Mulovich a 5th grade student:

When you are feeling quite contrary,

Take a stroll through our library.

And as you carefully take a look,

Grab yourself a useful book.

And so your book won't be a loss,

Check it out with Mrs. Caloss.

Coach Long attended the State University of New York at Cortland where he earned his Masters Degree in Physical Education. He then coached for seven years in New York. After coaching in New York, he moved to San Antonio where he taught in the Harlandale District for one year. Mr. Long decided to coach at Bandera High where he finds the students and facilities fascinating.

When asked if he plans to stay in Bandera and continue coaching, Coach Long said he does plan on staying because he loves coaching and he enjoys the students at Bandera High School.

What Is A Parking Lot?

By: Dey Romo

Vacant parking spaces and grizzled asphalt unveiled the parking lot as a boring place to be on Oct. 14, Homecoming Day. Suddenly, the boredom is broken by the appearance of a group of energetic cheerleaders. Then, personality enlivens the area as a devoted band equipped with twirlers and flag corps contribute to the inactivity of the area. After a brief pause and a bell, a crowd of students coming from all sides brighten the parking lot. Behind this colorful group of people a sophisticated bunch of teachers can be found keeping order.

This combination creates music from the band, dancing from the cheerleaders, and yelling from the crowd. All this commotion triggered the grand entrance of the noble football team, followed by four renowned coaches.

This mixture of individuals can only compose the 1981 Bandera High School Homecoming Pep Rally designed not only to add life to the inanimate parking lot, but to instill spirit throughout the school.

With a vivacious stream of enthusiasm, the Pep Rally got underway. Beginning with some cheers by the cheerleaders, followed by a glamorous twirling routine to the beat of the music of the Bandera High School Band, Following all this Mr. Neville spoke on how class competition would arouse spirit in the victory of the team. Class competition was next on the agenda, as the seniors showed true spirit and won the spirit stick.

Dixie Dudors Visit England & Belgium

After a busy year at Dixie Dude Ranch with visitors from nearly every state, as well as visitors from England, Germany, Switzerland, Belgium and Abu Dhabi, Billie Crowell and Dottie Madden decided to see some of these people in their own country. Many had invited the pair to visit them as did Mr. and Mrs. J. L. Hall. Hall is the executive vice president of Occidental International Oil Co., stationed in London. They have been living in England for 14 years. Tony Cocklin, manager of the press office for British Caledonian Airways in London and others from the company were guests and urged us to come to England in September, one of the nicest times to visit. We contacted Billie's daughter at Darlene Conoly Travels and told her to make reservations, and in three weeks we left.

The day before we left we had a letter from Marjorie Hall inviting us to make their home at Walton-on-Thames our headquarters and Tony Cocklin handled our itinerary. So on September 9th we were rushed to the San Antonio airport by our friend, George Chapman. There Doc and Thelma Wright came to see us off. "Bon Voyage." Middy Randerson met our plane in Houston and scooted us to the international terminal with no time at all to spare.

When we arrived at Gatwick Airport in London we were met by Tony and Joy Cocklin who assisted us through customs and out into the lobby where Marjorie Hall was waiting to take us to her home. Through winding, narrow streets, around numerous "round abouts," driving on the wrong side of the road, on to Walton-on-Thames we went to Berkeley house in Burwood Park to their home. The flower gardens at the entrance were beautiful and in the back it was like a park with flower beds around a walled garden, complete with swimming pool and game room. The two-story home was a beautiful place for our stay in merry old England.

She took us on a tour of Hampton Court, the palace of Henry VIII, where he lived with six wives, one at a time, divorcing and beheading them as the mood struck him. We walked through miles of beautiful rooms and corridors. Then we had a typical Englishman's lunch—plowman's lunch—at a British Pub called "Weir Courage" on the Thames River with tables outside on the edge of the river.

We toured Wisley Gardens covering 240 acres and run by the Royal Horticultural Society. Everything here was just beautiful.

England is a land of flowers—every home and building had roses, roses and other flowers.

On Saturday, Hugh Lennox from Poole, Dorset, took us for a tour of London. Because of a traffic jam caused by the "fly-over" (overpass) being closed, we missed the Changing of the Guards. The Guards going off duty had mounted their horses and rode right past our car, so we got a close-up view of them.

We drove around Trafalgar Square, Piccadilly Circus, Westminster Abbey and to St. Paul's Cathedral. We went through the Cathedral and walked up the steps we had watched Lady Diana walk down to marry Prince Charles. We went to the altar where the American Memorial to the soldiers who were killed in World War I and II is to be seen.

From there to the Tower of London where we went through the armory and saw all the armor worn by both men and horses and couldn't help but feel sorry for the horses who had to carry such a load. Then we went through the Tower displaying the Crown Jewels.

We drove back through London past Buckingham Palace and Horrod's Department Store and took a look at Big Ben. Then on a dual carriage way (divided highway) through the beautiful English countryside to Poole, Dorset, on the south coast to the home of Hugh and Pauline Lennox and her mother, Edie Ditworth, where we were guests for the night.

The next day they took us on a tour around Poole Harbor. It is a seaside resort and has many hotels with flower gardens everywhere and beautiful beaches. We could see the Isle of Wight in the distance when we crossed the harbor on a ferry. We saw heather in bloom and picked some and also picked some wild blackberries beside the road. We went to Gorff and saw Gorff Castle where Cromwell defeated King Charles II and made England a Republic for the only time in history. We had cream tea at one of the tea houses. This consists of hot tea served with scones (hot biscuits) and clotted cream which is spread on the scones instead of butter along with a variety of preserves.

We went through Poole Pottery and stopped at a roadside stand and tried cockles and pickled eel. Not anything we would want again.

Back at the Lennox home we were served beef with horseradish, Yorkshire pudding, and a variety of vegetables—again a typical English meal. Then we were driven back home to the Hall's.

The next morning we departed for Brussels, Belgium where we toured the city and saw all the old and new buildings. This is the headquarters for the Common Market. We saw the fair grounds where the Worlds Fair was held in the 1950's and toured a lace factory.

The next day Billie contacted the secretary of the American Ambassador and asked her to help her find the building where her great-grandmother had lived. She had resided 90 years ago. Annie Elizabeth Brown was employed to go to Brussels, as the tutor and nurse of the E.H. Terrell children as she spoke French fluently. She had been reared and taught by French tutors before the Civil War in Louisiana. The secretary was quite helpful and researched it for her and gave her the address where the former ambassador, Minister E.H. Terrell, had resided. Then the American embassy was also the residence of the ambassador. New offices had been built in 1954 with separate quarters for the families and the old building had been closed. Dottie took a tour to Waterloo and St. John's Hill where Napolean was defeated by England and her allies.

Next morning a long time dream of Billie's was realized when the taxi driver took them to 43 Rue de Billiard and they saw the building where she knew her great-grandmother had resided. The taxi driver got in the middle of the busy street and took their picture standing by the front entrance.

Back in England, Joy Cocklin met us and took us to the Copthorne Hotel, which started out as a farm house in the 16th century. That evening we went to see Laura, the Cocklin's daughter, taking her riding lesson dressed in her jodphurs, English riding boots and riding hat, complete with the crop they use to put the horses through their paces. They were learning to jump and it was quite interesting.

Marjorie Hall again picked us up and took us back to their home and on that night, September 13 and entertained Billie with a surprise birthday party. The table was set with an Irish linen cloth with china that was hand painted with gold leaf. The centerpeice was an arrangement made by Marjorie with flowers from her garden. She served chicken baked in wine with rice, fresh vegetables from their garden and a very proper English dessert of pie and to St. Paul's Cathedral. cake, a fruit cake topped with almond paste and rich cream icing, tied around with a gold lace paper ribbon.

Marjorie Hall took us to the Gatwick Airport where Tony and Joy Cocklin put us on our plane to come home. When we got to Houston our flight to San Antonio was canceled, but we finally arrived in San Antonio where George Chapman and Betty Baskett met us. We had to again wait for our luggage to arrive and go back to Dixie Dude after being up for 24 hours. We were very tired but happy over such a wonderful trip.

TET Opposes Proposition 6

Texans for Equitable taxation, the statewide coalition of property taxpayers and school districts, recently announced their opposition to one of the propositions on the November 3 ballot.

According to TET President W.R. Baker of Knox City, "Proposition 6, the so-called 'tax relief amendment,' is a hoax on Texas taxpayers. Anyone who votes for it will actually be voting for a guaranteed tax increases for most homeowners."

TET spelled out three reasons to vote "no" on Proposition 6:

First, the homestead exemptions that this proposition would authorize would be subject to approval by the governing body of each local taxing jurisdiction. Since some local governments will grant the exemption and some won't, this virtually assures a lack of uniformity within most county appraisal districts.

Second, the money [illegible] would be placed down by law over a three year period guaranteeing property tax increases on houses over the same period.

Third, the proposal provides for no state reimbursement to local governments that opt for the exemption. This will mean higher local tax rates for all taxpayers since local budgets will still have to be met.

"Perhaps the greatest irony in all this," said Baker, "is that if Proposition 6 passes, local governments will be required to inform their taxpayers that the State Legislature had nothing to do with raising local property taxes. "The fact is that Proposition 6, if adopted, will result in increased local taxes and the Legislature initiated it."

Sheep Dogs Compete Friday In Del Rio

The Del Rio Sheep Dog Trials, a test of the nation's best sheep gathering canines, will be held Friday, October 23 at the Val Verde County Fairgrounds in Del Rio.

Trial eliminations begin at 9 a.m. and finals commence at 4 p.m., according to Val Verde County Extension agent Rex Stultz.

Stultz said about 70 entries have been received from across Texas as well as Indiana, Illinois, Ohio and Canada for the Class A trial competition which features $1,000 added prize money.

Competition will be in three classes: ranch, open ranch and open class. Stultz said there is no deadline for dogs entering competition. A $10 per dog entry fee will be charged.

"Anyone who has never seen sheep dogs work a herd of sheep is in for a real treat," said Stultz. "This is a real exciting spectator event."

The activity is being conducted by the Texas Sheep Dog Handlers Assn. with local sponsorship by the Val Verde 4-H Club.

LEGAL NOTICE CHANGES ARE MADE IN DETERMINATIONS OF THE CITY OF BANDERA, BANDERA COUNTY, TEXAS, SPECIAL FLOOD HAZARD AREAS UNDER THE NATIONAL FLOOD INSURANCE PROGRAM.

On December 1, 1977, the Federal Emergency Management Agency identified Special Flood Hazard Areas in the City of Bandera through issuance of a Flood Insurance Rate Map.

The Associate Director, State and Local Programs and Support, has determined that it is appropriate to add the special flood hazard areas of the flood having a one-percent chance of occurrence in any given year (base flood for certain locations in the City of Bandera. The additional special flood hazard areas amend the Federal Emergency Management Agency Flood Insurance Rate Map of the community which was in effect prior to this determination.

The changes are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, P.L. 90-448) 42 U.S.C. 4001-4128, and 44 CFR Part 65.

Under the above-mentioned Acts of 1968 and 1973, the Associate Director, State and Local Programs and Support, must develop criteria for flood plain management. In order for the community to participate in the National Flood Insurance Program, the community will be using the new special flood hazard areas to administer the flood plain management measures of the National Flood Insurance Program. These additional special flood hazard areas will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

Upon the second publication of notice of these changes in this paper, any person has 90 days in which he can request through the Chief Executive Officer of the community that the Associate Director, State and Local Programs and Support, reconsider the determination. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Associate Director's determination to modify the special flood hazard areas may itself be changed.

Any person having knowledge or wishing to comment on these changes should immediately notify:

The Honorable W.D. Smith County Judge, City of Bandera P.O. Box 596 Bandera, Tx 78003

Also, at this location is the map showing the new special flood hazard areas. The numerous changes made on the City of Bandera Flood Insurance Rate Map make it administratively impossible to publish in this notice all of the changes contained on the City of Bandera map.

Lakehills Rabbit Club Finally Meets

With two rain cancellations in the past, the weather finally allowed the Lakehills Rabbit 4-H members to get busy readying for the stock show to be held in January. Leader Pam Pitts said 26 youngsters and parents attended.

Meetings will be the first and third Tuesday of each month, unless otherwise scheduled, at 6:30 p.m. at the Pitts home on F.M. 1283. The next meeting is November 3 and is a very important one, so be sure and attend.

For information about this group you may call 535-4030.

Texas Heritage

By Garland Perry

San Felipe is a sleepy little village located one mile north of IH-10 on FM 1458 at the Brazos River in Austin County. On casual observation one would hardly recognize it as the cradle of Texas where our constitutional government was spawned and grew to maturity, the place where so many of our pioneer customs and traditions had their beginning.

Stephen F. Austin selected this site as headquarters for his colony of "300" in 1823. It was at San Felipe that the Texas Rangers were organized in 1824 to protect the settlers from Indians. The Texas postal service had its beginning here and it is rumored that the first complaint about the postal service may have been lodged when a pack mule broke loose and scattered mail across the coastal prairie.

As the provisional capital of Texas in 1835, San Felipe had several public buildings, 30 houses, five stores and a blacksmith shop. The community was burned, however, in April 1836, when Sam Houston and the Texas Army retreated east from the Brazos River. The village was partially rebuilt in 1837. In 1842 the City Hall (above) was rebuilt as successor to the 1828 hall used for the conventions of 1832, 1833, and the Consultation of 1835, leading to the Texas Revolution. The old hall has since been used as a County Courthouse, a school, and is now the city municipal building.

San Felipe has a 640 acre State Park (donated by the city), a pioneer museum in the old 1847 Josey Store; a quaint 1837 Methodist Church, and a replica of Austin's log house. The city operates under the Mayor-Alderman type government that was established in the 1820's. By historic custom the city council still meets monthly on Saturday night before the full moon.

TSA '81 Design Award Goes To Gill Building

Gill Savings branch office, Bandera, by Larry O'Neill and Andrew Perez, Architects, San Antonio.

After a thorough historical and structural analysis of the abandoned 19th century limestone building in Bandera, the architects removed all 20th century additions and modifications and restored all interior and exterior finishes to their original state. Only two openings in the 18-inch-thick walls were needed to accommodate the building's new program requirements as a branch bank. A canopy for the drive-up teller was designed in the architectural vocabulary of the period.

Thirty four architectural projects have been selected as winners from a field of 254 entries in the Texas Society of Architects' (TSA) 1981 Design Awards Program.

The awards, to be presented during TSA's 42nd annual meeting October 29-31 in Corpus Christi, represent the work of 21 firms from Houston, Dallas, San Antonio, Fort Worth, Austin, Midland and Fayetteville.

Austin-based TSA is a 3,700-member regional component of the American Institute of Architects (AIA), which is headquartered in Washington, D.C.

Projects in TSA's 1981 program were judged in two categories—general design, with 20 winners, and interior architecture, with 14.

In the general design category O'Neill-Perez and Associates of San Antonio was honored for its adaptive reuse of the Gill Savings Branch in Bandera.

Jurors for the general design category were Louis de Moll, FAIA, Philadelphia; William Morgan, FAIA, Jacksonville, Fla., and author John Pastier, former Los Angeles Times architecture critic.

Nov. 1 First Class Postage Is 20¢

The cost of mailing a First-Class letter will rise to 20-cents beginning Sunday, November 1, when new postage rates go into effect, Postmaster Joe Short reminded customers today.

The 20-cent first-class rate and increases for other classes of mail, approved last month by the Governors of the Postal Service, take effect at 12:01 a.m. on November 1.

A new "C" stamp is on sale at the main post office and all stations and branches. The stamp bears the letter "C" instead of a denomination and has a postage value of 20 cents, the new rate for one ounce of First-Class domestic mail.

"The 'C' stamp cannot be used on international mail," Postmaster Short cautioned. "Mail destined for foreign countries and bearing 'C' stamps will be returned to senders."

"Any remaining supply of 18-cent stamps that mailers have on hand may, of course, be used," Postmaster Short said, "as long as they are combined with one or two-cent stamps to meet the new First-Class rate."

An ample supply of these lesser-value stamps is on hand, Postmaster Short said.

"There should be no shortage of stamps and no long lines at our offices if customers begin making their purchases now," he added.

Two Weeks 'Til Hunters Barbecue

The countdown continues as there are only two weeks until the 18th annual Hunters' Barbecue. This event is held each year as a way of saying thank you to the lease hunters who come to Bandera to hunt and patronize local businesses while they are here. These lease hunters eat free and a donation of $3.50 per adult and $2 per child is asked from all others enjoying the brisket and sausage dinner. These tickets may be purchased from the chamber office or from Conrad and Nancy Nightingale (Hill Country Vet Clinic) and David and Geri Valdez (Roundup-Pipe Creek Realty) who again are the chairmen for this event.

Buck certificates will be awarded again this year based on the amount of donation above the cost of meal tickets. Vercella Evans will be calling on the businesses, so please welcome them with a check. Only your help makes this event such a success. Coca-Cola, Huntress (Pepsi), Dr. Pepper, Big Red, Lone Star and Pearl have all agreed to donate again this year.

Tickets for the prizes will be available at local businesses this week. The prizes include a gun and camping equipment and will be described in full in next week's article. Mary Welch is ably heading this committee.

Circle the date — Friday, November 13 — at 6 p.m. and plan to be at the Rec Center for this exciting event.

Barbecuers for last year (and this) are (l-r) Cotton Fitzgerald, Cotton Griffin, Tommy Boyd and Ken Vakey.

Absentee Voting Ends Friday

The last day to vote, absentee by personal appearance or by mail in the constitutional amendment election is this Friday, October 30, according to Olga Schmidt, county and district, clerk.

Her office will be open that day until 5 p.m.

It's Halloween Time

Saturday is Halloween, a time for little trick-or-treaters to enjoy, going from door to door showing off their costumes and being treated to goodies.

But Halloween is a time when some older pranksters throw eggs at other pranksters.

This was not the case last year when goblins were better-behaved. But in years past many Bandera business buildings and some Bandera homes were pelted with eggs, also. Of course, this leaves an odoriferous mess to be cleaned up. In addition, the egg residue permanently stains many surfaces and removes paint from cars. Because of this, many Bandera residents feel that all of this is more than a mere prank and they have asked the City of Bandera and the Bandera County Sheriff's Department to prevent this malicious mischief.

In an effort to attain this goal, law enforcement officials will be patroling the area and charging offenders. They ask your cooperation to make this an occasion that everyone can enjoy.

Dwight Stevens To Address Ranchers

High interest rates, lower beef prices, high fuel costs, reduced profits, and unobtainable labor are just a few of the negative aspects confronting today's beef producer.

To minimize expenses and maximize profits in today's bleak cattle market the astute beef producer must be flexible and open to new ideas and products that are becoming available to him.

These topics and more will be covered at an informative meeting to be held on Wednesday, November 4, at 7 p.m. in the University Savings Community Room. All ranchers and interested persons are urged to attend.

The guest speaker will be Dwight Stevens of Krum, Tex., associated with Namoloc of Willow Grove, Pa. A film will be presented, followed by questions and a discussion of the plight of the beef producer. The meeting is being sponsored by Coates Ranches Liquid Feed.

Agriculture Department To Fight Oak Wilt Decline

Congressman Tom Loeffler received assurances Wednesday that the Department of Agriculture will take action to combat the spread of oak wilt and oak decline through the Hill Country.

The promise came from Texas Congressman Kika de la Garza, chairman of the House Agriculture Committee, during a discussion of the problem on the floor of the House.

Loeffler had introduced an amendment during debate on the Farm Bill calling for a formal study of the incidence of oak wilt and oak decline and evaluating methods of controlling spread of the disease.

Loeffler later withdrew the amendment when the promise of action was made.

"Research into this disease by the Forest Service in cooperation with the Texas Agricultural Extension Service has identified possible means to control the spread of oak wilt. Yet despite the best efforts of these groups, limited resources exist with which to combat the spread of the disease on a large-scale basis," Loeffler said in his dialogue with de la Garza.

The Texas Republican said heavy losses may eventually have an impact on more than three million acres of trees in nine states from Texas to Virginia. Oak decline is associated with oak wilt—the most destructive disease of oaks in the upper Mississippi Valley.

Bulldogs Fumble To Victory

By Charles Newcomer

Bandera's Bulldogs traveled to Smithson Valley where, despite 7 fumbles, they still won the football game 13-6.

Bandera played perhaps their worst game of the season but a few key plays at the right time allowed them to bring home a victory.

Jim Bob Robbins and James Kling scored the Bandera touchdowns. However, Kling's score came in a rather spectacular way. By playing heads up football he intercepted a Smithson Valley pitch and returned it 15 yards for a T.D.

Smithson Valley's touchdown came in the 3rd quarter on an off tackle run. Their conversion was blocked and the score remained 13-6 in favor of the Bulldogs.

Merchants Plan Shoppers Holidays Jubilee

Bandera merchants are now planning and organizing a Shoppers Holidays Jubilee to allow merchants and business people to say "Thanks" to the shoppers of Bandera and to offer discounts.

The big event, planned to start off the festive Christmas season, is slated for the first Thursday evening in December, the 3rd, when Bandera businesses will remain open until 9 p.m. This will afford shoppers the opportunity to see what local merchants have stocked for holiday buying.

A contest to pick the best business decorations is planned. There will be a variety of categories — western, contemporary, traditional, etc.

In addition the Madrona Garden Club is sponsoring a contest for residential decorations.

Carolers are expected to sing the traditional Christmas songs.

Lots of plans for a fun-filled evening are being drawn up now. Care to join?

Anyone interested in taking part, should call Karen Walbrun, Merle Norman Cosmetic Studio, 796-3114; Margaret Paradee, Paradee's, 796-3618; or Johnny Boyle, Boyles Groceries and Dry Goods, 796-4393.

The mishap took place Wednesday, October 21, on English Crossing Road near the Ellis Browning ranch.

Flag Football Season Begins

The new flag football season has started and the team is showing improvement. A couple of new members have joined the team and they have plans for a successful year.

Bandera's team played Whelan Plumbing of Kerrville in the first game on Wednesday, October 21. Bandera won by a score of 20-9 and feels very good about the win because Whelan Plumbing won it all last year and they have a good team again this year.

Bandera is 1-0 for the season with six more games to go. The schedule is as follows:

Tues. Oct. 27 at 8:00, Wed. Oct 28, at 9:00, Wed. Nov. 7 at 7:00, Wed. Nov. 11 at 7:00 and 9:00, Tues. Nov. 17 at 7:00.

Games are played in Kerrville at the Singing Winds Sports Complex. So if you'd like to see another good Bandera football team, come over and watch Bandera play. The team needs your support.

Members of the team are Johnny Cardenas, Ricky Craddock, John Dexter, Ken Berry, Joe Glasscock, Bob Kling, Bodie Browning, Lee Short, Jake Leal, Jerry Word, Bubba Quarles, Herbie Syring, and Mike Lema.

These game birds by placing the package in the refrigerator for 12 to 18 hours. This slow thawing will tenderize the meat.

Information About Veterans Land Program

The Veterans' Land Program was established by the Constitution on November 7, 1946. The Program was established to make long-term, low-interest loans available to Texas Veterans. It was late in 1949 before the first bonds were sold and a little later that same year the first piece of land was bought for a Texas Veteran. Since that time the voters of Texas have indicated their approval of the Program by voting for five separate constitutional amendments authorizing a total of 700 million dollars to continue the Program to the present time.

The state-wide election ballot on November 3, 1981, will include Proposition Number Seven to authorize the issuance of 200 million dollars in bonds to continue the funding of the Program. The bonds, repaid as loans, are paid in full by the veterans themselves - not the taxpayers. Repayment rates have been so outstanding that the veterans bonds have always enjoyed the valuable Triple A Bond rating.

Over 75,000 veterans have purchased more than four million acres of Texas land since the inception of the Program. Over 42 percent of the veteran purchasers have paid their loans in full, and statistics indicate that 50 percent of the purchasers will pay their loans in full within 30 years after purchase, although all the contracts are for a term of 40 years.

Texas has 165,000 returning Vietnam veterans, 316,000 Korean Veterans, and 740,000 World War II veterans. These figures do not include reservists and National Guard members who had four to six months active duty training and are also eligible for the Program.

For additional information, call Vet. county service officer, C.W. Rhodes, 796-3854 or 796-3388.

Items for sale at last week's open house.

A hearty thank you goes out to all the many people who helped make the 4th anniversary Open House of the Senior Activity Center the grand success that it was! Marie Self headed up the volunteers who provided the table loaded with refreshments. Vernell Mullenax spear-headed the committee with its many willing hands which created the bazaar and boutique. Center directors Minnie Hays and Glyn Taylor gave of their time unstintingly also, so that the community might be aware of the contribution which the Senior Center makes. 16-1tp

The Memory Lane Melodiers on October 15, presented a program to about 100 patients at the State Hospital in Kerrville. The audience participation was extremely good, and a repeat performance has been requested. On Friday, October 30, they will sing at Purple Hills, at 6 p.m. and gather at the Center following the program for another sing-for-fun session.

Wednesday, November 4, is the regular date for the county nurses' blood pressure clinic, which is always well attended. Preceding their arrival at 2 p.m. there will be two special events: a short film on activities for retired persons, shown by Peggy Edwards, and a slide film presentation of last year's Rose Bowl parade, shown by Helen Ahr. The films are scheduled for the period after lunch is served, or about 1 p.m.

Other activities at the center include the regular noon meals, by reservation, Spanish class on Wednesday morning, art on Thursday morning,and table games on Tuesday and Friday afternoons.

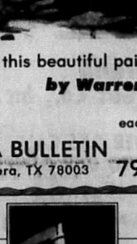

For transportation on the Senior Citizens Van the new number to call is 796-4909.

LET'S KEEP THE WATER RUNNING IN TEXAS!
In cities and towns all across Texas, local water problems are threatening to erupt into one enormous statewide crisis. Countless communities are facing growing water supply, water treatment, sewage treatment and flood control problems estimated to cost a staggering $50 billion over the next 25 years. To make matters worse, federal funds for water projects have recently been slashed.
But on November 3, Texans have the opportunity to adopt a plan, already passed by two-thirds of the Legislature, which would harness a portion of our state's budget surplus to help shoulder that heavy local burden.
The plan is proposed Constitutional Amendment No. 4.
Passage of Amendment No. 4 would:
- Make possible the sale of more than $200 million in authorized and urgently needed state bonds to address a backlog of needed projects.
- Create a loan guaranty program to enable local communities to save millions of dollars in issuing future bonds.
- Begin to build a "nest egg" for the future from a part of the state's budget surplus to assist local governments in financing future water and sewage projects.

Texas' water needs must be met, either now or in the future. We can act now, and save money . . . or pay the higher price later for our neglect, with possible increased taxes. Sensible action now makes much more sense for Texas.

A THOUGHT FOR THE WEEK

By John M. Grimes

A fellow was once asked: "How is the world treating you?" He replied: "The world treats me fine; the people in it don't".

There are those who say the world is worse than ever. Actually, what is meant is SOME of the people treat other people worse than ever. However, if we will only look around us, we will see vast goodness also. We hear more of the bad things than of the good. Screaming headlines of crime, disaster, destruction and tragedy steal the front pages. Kind deeds and friendly thoughts receive less publicity because they lack the punch of impact.

Isn't it true that we forget kindness far more easily than we forget injuries? We unconsciously regard a kindness as something that is our due, while we regard an injury as utterly undeserved, even when it is not.

We all need love and acceptance. Too often we forget. A smile, or a word of support and encouragement costs nothing. But it can enrich the life of the person you least suspect needs it....

Clark Completes Training

Marine Pfc. Mark W. Clark, son of Bennett M. and Linda D. McCarver of Bandera, has completed recruit training at the Marine Corps Recruit Depot, San Diego.

During the 11-week training cycle, he learned the basics of battlefield survival. He was introduced to the typical daily routine that he will experience during his enlistment and studied the personal and professional standards traditionally exhibited by Marines.

He participated in an active physical conditioning program and gained proficiency in a variety of military skills, including first aid, rifle marksmanship and close order drill. Teamwork and self-discipline were emphasized throughout the training cycle.

A 1981 graduate of Bandera High School, he joined the Marine Corps in July 1980 under the delayed entry program.

Ada Wood Inducted Into Alpha Chi

Ada Wood, Tarleton State University student from Bandera, has recently been inducted into the Texas Alpha Kappa Chapter of Alpha Chi, national honorary scholastic society. Membership in Alpha Chi is limited to approximately the upper five percent, academically, of the junior and senior classes.

Human Plague Case

In mid-February a 35-year-old cattleman who resided in New Mexico (near the Hudspeth County Tex., border) died of septicemic plague.

Earlier in the month, the patient had skinned a bobcat after catching it in a trap. Prior to skinning the bobcat, the patient cut his finger while sharpening his knife. No dressing was applied to the cut. Two days later, the patient developed "flu-like" symptoms and did not seek the hospital until 5 days later. He died within 8 hours of entering the hospital.

Historically, plague activity has been indicated by rodent die-offs. The general public should be educated to recognize the potential for plague activity in their areas and report the occurence of die-offs to local and health authorities so that the possibility of plague can be investigated.

Since 1974, 6 human plague cases have been directly associated with domestic pets. Four cases were traced to individual cats in which Y. pestis infection was identified; another was traced to a domestic dog which had died following a plague infection. Another occured in a veterinarian whose only known animal contact was with pets he had treated. In the latter case, no specific animal source could be identified.

Rain Doesn't Stop Meet

The straightaway was easy for Brenda Mayfield as the first girl runner in for Bandera.

Terry Hodges led the boys varsity team when he placed 4th in the meet.

By Sandy Riedner

Colorful uniforms brightening the wet and dreary day could be seen scattered across the hills at BHS for the Sixth Annual Bandera Invitational Cross Country Meet. Some 298 runners participated in the meet Saturday, October 24. The meet was divided into four divisions. Team results were Varsity girls — Bandera 4th; JV girls — Bandera 2nd; Varsity boys — 5th. (Bandera did not have a boys' JV team entered.)

The air was cold and occasionally wet as light showers came and went throughout the morning. Varsity girls were first to undertake the rugged two-mile course. Brenda Mayfield was the first runner in for Bandera placing 10th. Others placing for Bandera were: T. Welch, T. Doebbler, T. Schott, J. Nealy, L. Hamilton, N. Youngblood, Oh the J.V. team Beckie Clements was Bandera's first runner in taking 3rd place. Others placing in the top ten for Bandera were: N. Patton 6th, P. Youngblood 7th.

Defensive Battle Ends In Tie

By Bubba Caloss

Bandera Bulldog freshmen fought their second 0-0 tie of the season as the met the Smithson Valley Rangers October 22 at Bulldog Stadium. This was their second district game, with three remaining.

Evidence of the Dogs sputtering offense reflected on the blanked scoreboard. The Dog's offense threatened to score several times but couldn't cross the goal line, while the defense held the Rangers scoreless. This tie brought the freshmen's record to 3-0-2.

Freshmen and junior varsity teams will travel to San Antonio Thursday, October 29, to battle it out with the Randolph Re-Hawks.

JV Bulldogs Are 2-4

By Chris Reeves

Smithson Valley Ranger defeated the J.V. Bulldogs 14-0, last Thursday in Bandera.

The Bulldogs had two chances to make touchdowns during the game. One was called back, because of a "holding call." The other, a pass to a receiver, was dropped in the end zone. Although the Bulldogs lost, the coaches feel that they played a good physical game. The coaches stress mental concentration in conjunction with physical capability.

The J.V. now has a record of two wins and four losses. The varsity coaches are impressed with the attitudes and capabilities found in many individuals on the J.V. team. They look forward to having them play varsity football next year.

We Think You're Great!

By Linda Muller

This letter is to the entire 1981 Varsity football team:

Dear Bulldogs:

We have written this to tell you how proud we are of you. We realize how hard you worked this summer and this school year in order to have such a fantastic team, and want to thank you for this. Keep up the hard work and we feel sure that Randolph, Medina Valley, and Floresville will be like putty in your hands. We're behind you all the way, blue, so let's go for it and win DISTRICT!

Love,
The Bandera Varsity Cheerleaders

P.S. Congratulations on your victory against Smithson Valley! Bulldogs are the BEST!!

Did You Know . . .

When we speak of stimulants we usually mean Amphetamines. Do Amphetamines have any medical use? Yes! They are medically very useful and important when prescribed and controlled by doctors. They may be used to treat obesity, the overwhelming desire for sleep, depression or Parkinsonism.

Why are Amphetamines taken in excess? Because of their stimulant effect, they make tired people feel "alert" and depressed people feel "alive." But what many people don't know is how dangerous they are. Amphetamines may cause addiction. A person developes a "need" for the drug, both emotionally and physically. They cause a person to substitute a drug for sleep. Amphetamines cause changes in behavior. The abuser becomes excited, talkative, restless, and shaky. But abusers may also become hostile, agressive, combative, assaultive. Still others may develop panic, convulsions, coma, shock, or even death.

Hideous crimes may be committed while under the influence of amphetamines, including suicidal attempts.

Brain damage and types of insanity are other effects of this drug.

The main point is — while using these drugs, be careful and take them according to your doctor's directions.

Yea Team!

Lots of fun and excitement were present the morning of September 25, in the Bandera High School gym. The cheerleaders started off the weekly pep rally with some well known chants in order to make it easier for the student body to yell along with them. The use of old chants for extra spirit worked, and soon the whole gym was filled with enthusiastic voices from every class. The sophomores were especially "fired up" this week, which is why they deservingly won the coveted spirit stick.

Jimmy Jennings and Chuck McCay spoke on the importance of winning the upcoming game in order to win district and asked for everyone to come out and watch them play. The rally ended traditionally with our school song, the Alma Mater.

Our cheerleaders are planning a pep rally better than ever this week to leave the Bulldogs with no doubt that the school is behind them as they confront one of the toughest teams of the season Friday night. Be sure to show lots of extra spirit at the upcoming pep rally so that our team will really "rip up those Re-Hawks" at the game.

Things That Go Bump In The Night

Watch out for cars as you go Trick-or-Treating. Car(Randy Mauer) will be in the Halloween Safety skit.

By Brad Stevens

Halloween is one of the most exciting holidays celebrated around the world by children of all ages. Although with the fun and excitement, the evil that Halloween conotates sometimes becomes a reality.

This Friday, October 30 the Bandera High School Student Council will be presenting a Halloween skit to the elementary at 1 p.m. The purpose of the skit will be to remind the children to wear bright colored costumes and of other safety rules such as not to enter strange houses, and not to go trick-or-treating without an adult escort.

If common sense and a little extra caution is used, Halloween can be fun and safe for everyone.

Watch For Goblins

By Holly Gabel

Ghosts, goblins, and ghoulish spirits will be in full force over Bandera Halloween weekend. To insure the safety of all spooks remember these Halloween warnings:

1. Stay in groups — never trick-or-treat alone.
2. Always walk on the side of the street facing oncoming traffic.
3. Trick-or-treat only at houses you are familiar with.
4. Take a flashlight along for added safety.
5. Wear bright easily seen costumes.
6. Be sure and check all candy before eating.
7. Go only to houses that are well lighted.
8. Remember practical jokes can be fun but they can also be dangerous.

Here's hoping all you spooks big and small have a Hauntingly Happy Halloween.

Bulldog Band Set Back, But Soon To Return!

By Dana Beman

As the results of the Westlake Marching Contest were announced, several moans of disappointment were heard from the Band of Bandera. At this contest, the Bandera Bulldog Band received a rating of a III.

Although the band received a low rating, they kept their pride and high spirits and realized that they have a lot of work to do in the two weeks ahead to prepare themselves for UIL Marching Contest held in Hondo on November 7.

The Bulldog Band appreciates the help and support that they have received. Anyone interested in the Bandera Bulldog Band's performance for UIL competition is invited to attend and support them. Come and watch the Bulldog Band return with high spirits and pride.

Student Wins Local Century III Award, Moves To State Competition

By Dana Alaniz

Jacquelyn Cantu, a senior at Bandera High School, has been named the top Century III Leader in a competition there, according to Charles L. Graves, counselor.

The 17-year-old student is now eligible to compete with other local winners from around the state for one of two $1,500 scholarships and an all-expense paid trip to the national Century III Leaders Conference, slated for March 5-8, 1982, in Colonial Williamsburg, Va. State winners will compete for the national winner's prize of an additional $10,000 scholarship.

The Century III Leaders program is designed to bring together and recognize student leaders who share both strong leadership abilities and an interest in the future of America. Jacquelyn was judged on the basis of leadership skills, school and community involvement, and a current events examination. She also wrote a short essay on a particular issue which challenges America in its third century.

This is the seventh year of the Century III leaders program which awards a total of $118,500 in scholarships to 304 young leaders. Century III is sponsored and administered by the National Association of Secondary School Principals, and funded by the Shell Oil Company.

Stock Broker Speaks At BHS

By: Jake Short

A presentation was given by Mrs. Debbie Fall, a stock broker from Merrill Lynch of San Antonio, who explained the stock market to the government classes Tuesday, October 20, 1981. Mrs. Fall's presentation was a great help to further the understanding of the stock market by the students. Mrs. Fall explained briefly how the stock market works and discussed some terms used by brokers on the exchanges across the nation.

Dishes that are quick and easy to prepare are popular for camp cooking during the hunt. A favorite is backstrap and tenderloin (tenders) pan fried in an iron skillet or a stew cooked in a Dutch oven while campers are on the hunt. The liver and heart may be eaten first by the hungry campers if they wish to take time to dress them out.

Roasts, steaks, ground and chopped meat are popular for at-home preparation of recipes that require more utensils, ingredients or temperature control.

Ghosts and goblins are not immune to the impact of an automobile, at least not on Halloween night.

In other play, the First National Bank Antlers downed the Hill Country Veterinary Hospital Armadillos 5-2.

In Division E, Jr. Food Mart Red Roosters maintained their lead in the title race by out-scoring Joe McMullan Insurance Blue Devils 4-0 while Roger Stevens Contractor's Eagles remain a close second by defeating the Sport Shack Sun Devils, 4-1.

News From Your County Extension Agent — Ag.

PEACH ORCHARD MANAGEMENT

When you catch someone talking about peach orchard management, you usually hear comments about chemicals, diseases or insects that are used and cause problems during the growing season and during harvest.

One area of concern that many producers and back yard tree owners don't take into consideration are sprays that can, when used right, solve some of the problems before they ever occur. This is the area of dormant season spraying.

Dormant season spraying is used to combat problems such as scale, leaf curl and brown rot. Other diseases that are controlled are bacterial canker and bacterial leaf spot.

Dormant season sprays are applied during the trees dormant period in the year. This is the late fall and winter. Dormant oil treatments should be used in areas where there have been problems with scale. Disease such as leaf curl and bacterial canker can be controlled by applications of copper containing fungicides. Brown rot, which affects fruit, can be controlled by cleaning orchard floors of all fruit and by applying a fungicide containing benomy.

The Texas Agricultural Extension Service has a publication that contains information for year round care of fruit trees. Publications are free and can be obtained in the County Agents Office or by calling the County Agent at 796-3940.

PECAN TREE PLANTING

Planning to plant a pecan tree this year? If you are, there are factors that you will need to consider before you do.

First of all, you must take into account the space you have available for the tree. When you buy a tree, it won't take up much space. As it grows, it will require more space for root systems and for canopy growth. Be sure that the area you plant is large enough to accommodate the grown tree. Secondly, be sure to select a variety that is adapted to the area. Some are disease and drought hardy.

Some varieties that are suitable for our area are: Mohawk, Choctaw, Kiowa and Desirable. If you have any questions on sprays, soil types, varieties or planting call the County Agents Office.

If there's a chance of rain, parents should provide their child with an umbrella and shoe rubbers. A soaked trick-or-treater running for cover could slip and fall on the pavement.

Veterans Day Is Nov. 11

Governor Bill Clements has appointed Mr. Allen B. Clark, Jr., a Vietnam veteran, as Veterans Day Chairman for the State of Texas. Mr. Clark has appointed C.W. Rhodes, Veterans Service Officer for Bandera County to serve with him as the State Veterans Day Co-Chairman for this area. As the Co-Chairman, C. W. Rhodes urges all veteran organizations and individuals to participate in any local activities planned to honor our veterans on November 11, 1981, Veterans Day.

Veterans Day is a day dedicated to honor those who have served our nation during time of war. Because of the large number of Texans who have unfailingly answered their country's call, it is most appropriate for our State to commemorate the willingness of its veterans to fight for the truths, rights, and ideals expressed so eloquently and so clearly in the Declaration of Independence. Our Nation remembers her veteran's service and sacrifice in nine past wars. Most importantly, the State of Texas remembers its veterans and their sacrifices on behalf of America, this State, and all the people through their military service.

For this reason, as the Veterans Day Chairman for the State of Texas, Chairman Clark and his local Co-Chairman, C. W. Rhodes, have urged all of the residents of this area actively to participate in any local Veterans Day celebrations that may occur. Likewise, it is hoped that the press, radio, television and other public information media participate in the observance of Veterans Day in order to call special attention to this significant commemorative day.

At a time when there is no major war or conflict anywhere in the world, we should all avail ourselves of the opportunity to honor those who have fought and died to preserve our American way of life for all future generations to enjoy.

Trick-or-treaters should cross the street only at intersections and obey traffic signals. Older children should hold hands with younger children and look both ways before crossing the street.

BANDERA LODGE NO. 1123

10 Commandments of Firearm Safety

Accidents with firearms don't just happen! They are caused by ignorance, carelessness or disregard for safety rules. Abide by the following "Ten Commandments of Firearm Safety" each time you handle a firearm. Don't let a needless hunting tragedy mar your hunting pleasure.

1. Treat every gun with the respect due a loaded gun.
2. Watch that muzzle! Be able to control the direction of the muzzle even if you should stumble.
3. Be sure the barrel and action are clear of obstructions and that you have only ammunition of the proper size for the gun you are carrying.
4. Be sure of your target before you pull the trigger; know identifying features of the game you hunt.
5. Unload guns when not in use. Take down or keep actions open; guns should be carried in cases to the shooting area.
6. Never point a gun at anything you do not want to shoot; avoid all horseplay with a firearm.
7. Never climb a fence or tree or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.
8. Never shoot a bullet at a flat, hard surface or water; at target practice be sure your backstop is adequate.
9. Store guns and ammunition separately beyond the reach of children and careless adults.
10. Avoid alcoholic beverages before or during shooting.

Smoking Sausage

There are many ways to smoke meat. One way of smoking is to build a small fire out of hardwood (pecan, hickory or oak) at one end of a backyard, closed-type cooker. Burn it until live coals are obtained; then put a few hardwood chips on the coals. Place the sausage or cured meat cuts on the rack on the opposite end from the coals. Use enough water on the chips so they do not blaze and smoke the sausage with the cooker closed. Keep the temperature of the cooker between 130 degrees F. and 150 degrees F.

Smokehouses can be made from any closed device such as old refrigerators, oil drums, etc. An air inlet is needed at the bottom and a damper at the top. Some method for keeping the interior hot is needed. The whole smoking and drying procedure can be accomplished in one of these devices, but requires close watching.

Try a small quantity at first until you perfect your own special method. This is not an exact science.

Tag First, Then Tarry

Tag a deer or turkey carcass immediately after the kill.

Tags can be attached to any part of the carcass so that it won't become detached or defaced during handling or transporting.

A deer or turkey tag should have both sides properly completed, showing the hunter's name on the front, and the name of the ranch and county where the animal was killed, with the month and date of kill cut out on the reverse side.

Tags must remain on the carcass until it reaches the final destination, which is the permanent residence of the hunter or a commercial processing facility.

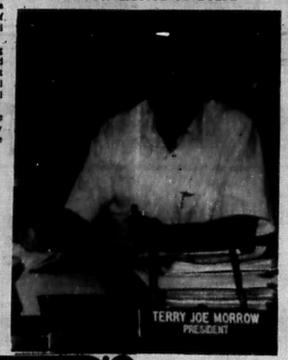

In countids where taking both gobblers and bearded hens is legal, the beard must remain on the turkey until reaching the final destination.

No tag may be used more than once; no person may use a tag taken from the hunting license of another person.

Jones Cemetery Clean-Up Is Nov. 1

Sunday November 1st is fall clean-up day at the John A. Jones Cemetery on the Forest Stevens Ranch. Bring a sack lunch.

Halloween Safety

Although masks are traditional Halloween garb, Texas Safety Association says parents should paint their child's face with cosmetics and include a hat as part of the costume. The eyeholes on masks are usually so small that they severely limit a child's vision and totally block it if the mask is moved around.

Camera Club Has Interesting Schedule

Lana Perkins

"Take a picture—it lasts forever. Take only memories—leave only footsteps." This was the theme for the October 8 meeting of the Bandera Camera Club.

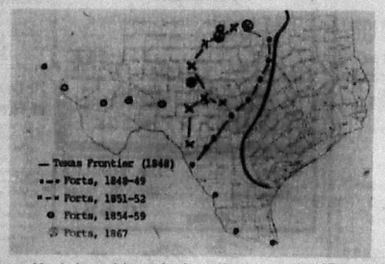

Winners at that meeting were Ben Nolen for prints and Lana Perkins for slides. In addition slides were shown of aerial views, landscapes, river scenes, breathtaking sunsets, thunderstorms, waterfalls, colorful fall scenes and wildlife scenes of javelinas and wild turkeys.

The November meeting is scheduled for November 12, starting at 7:30 p.m. at the First State Bank, and the contest subject for the month is water. Guest speakers will be Millard Schuchart and Russell Castro.

A special trip to Lost Maples has been set for November 8. Those who wish to attend should meet at the First State Bank at 8 a.m. that day. December's contest will be pictures takes at Lost Maples.

Texas Heritage

By Garland Perry

The history of frontier forts and the security of pioneer settlers in Texas is an interesting subject.

Following the battle of San Jacinto the Republic of Texas had a standing army at different times of from 1000 to 2000 men. They were a motley crew — untrained, undisciplined, adventurers, fortune hunters and outcasts. They were poorly kept and the pay was equally as bad. Staging areas and base camps for the army were centered around San Antonio, Austin, Nacogdoches and Houston.

President Sam Houston was sympathetic toward the Indians and was more inclined to let settlers protect themselves with private forts, vigilantes, and local militia — backed up by Texas Rangers. He furloughed approximately half of the regular army troups after a distrubance at a camp where the commanding officer was murdered. President Mirabeau Lamar, on the other hand took a more active stand against the Indians, so the army was brought back up to full force.

After the annexation of Texas and the United States war with Mexico, a number of army forts were established along the then Texas frontier running from Del Rio (Fort Duncan) to Uvalde, Fredericksburg, Burnet, Gatesville, Hillsboro and Ft. Worth. All were named after soldiers of the Mexican War. These 1848-49 forts were manned by infantry soldiers and were surrounded by early settlers.

Two to three years later another set of forts were constructed further west away from the civilian population, but they were still occupied by foot soldiers and they offered only passive resistance to the plains Indians who rode horses. It was not until 1855 that cavalry troops were brought to Texas and another line of forts were built further west for active campaigns against the Indians.

The last Texas frontier forts were built after the Civil War and they were all abandoned by the mid 1880's when Indians were no longer a problem.

Bakery fresh bread, sausage, brisket and all the trimmings. Join us again November 13.

To break the monotony, the Hunters' Supper Committee would like to take this opportunity to lighten your spirits by paying tribute to that person who visits the area during the fall migration — the hunter.

As told by one observer:

The Deer Hunting Story.

1 a.m. Alarm clock rings.

2 a.m. Hunting partner arrives, drags you out of bed.

2:30 a.m. Throw everything except kitchen sink in the pickup.

2:45 a.m. Leave for deer woods.

3:13 a.m. Drive back and pick up guns.

3:30 a.m. Drive like 90 mph in order to arrive before dawn.

4 a.m. Set up camp, find out you forgot tent poles.

5 a.m. Leave camp.

6:10 a.m. See 12 deer.

6:11 a.m. Take aim and squeeze trigger (click).

6:12 a.m. Load gun as you watch deer go over hill.

8 a.m. Head back for camp.

10 a.m. Realize you don't know where camp is.

12 noon. Eat wild berries and fire gun for help.

12:15 p.m. Out of shells; 12 deer came back, strange feeling in stomach.

12:30 p.m. Realized you ate poisoned berries.

12:45 p.m. Rescued.

1 p.m. Rushed to hospital for stomach pump.

3 p.m. Arrive back at camp.

3:30 p.m. Leave camp determined to kill deer.

4 p.m. Come back for shells.

4:30 p.m. Leave camp with gun loaded.

5:30 p.m. Empty gun on squirrel, armadillo, rabbit and 'possum.

6 p.m. Arrive at camp and see deer grazing.

6:01 p.m. Load gun.

6:02 p.m. Fire gun.

Complete Mailing Addresses Required

Postmasters of Bandera County are alerting all patrons that the time has come to be aware of correct addresses on all your incoming mail.

Quoting from an order from the manager, South Texas District, U.S. Postal Service: Representatives conducting visits to small post offices continually find mail addressed to customers bearing no post office box number or route and box number.

When it becomes necessary to make personnel changes at these offices, such as appointment of an officer-in-charge, or a postmaster, and hiring a new employee, who might have to work alone, unnecessary cost is generated, and mail is delayed or returned.

The U.S. Postal Service manual requires that all mail must include in the address the name and post office, box number, general delivery, or rural route and box number.

Postmasters Short, Derry, and Haynes suggest that you check your mail for correctness for 30 days. This may surprise some patrons, and at the end of this period advise your correspondents and publishers of the exact correct address: that is, post office box number, general delivery, or rural route and box number.

House numbers and streets are not qualified addresses in Bandera, Medina or Pipe Creek since there is no city mail delivery.

Bloodmobile To Visit Kerrville

On November 17 and 18, the Red Cross Bloodmobile will visit Kerrville for the last time this year. It will be located at the Municipal Auditorium and will receive donors from 12 noon to 6 p.m.

Congratulations on your 10th year in business in Bandera!

Two Receive Gold Star Award

Becky Blakemore receives the 4-H Gold Star Award.

Becky Blakemore and Mary Bolan were honored last Saturday, October 31st at the District 13 Gold Star Awards luncheon in Uvalde. Becky, daughter of Mr. and Mrs. Bob Blakemore, and Mary, daughter of Mr. and Mrs. Charles Bolan, both from the Pipe Creek area, were among the 23 awardees receiving the Gold Star. The Gold Star is the highest award given in 4-H at the county level.

Mary was unable to attend, due to illness, but was represented at the luncheon by her mother. Becky, Mr. and Mrs. Blakemore, and Peggy Edwards, county agent, were present also.

Mary Howard, vice president of the 4-H Volunteer Leaders Assn. of Texas, presented the awards and gave the key note speech.

Teenagers Nabbed

Two San Antonio teenagers, ages 15 and 13, were picked up in Medina and turned over to San Antonio authorities last week.

The pair was alleged to have been traveling in a '78 Cadillac which had been stolen. The car was involved in an accident about one mile south of Medina and was damaged on the right front and left rear fenders, as well as having both left tires blown out.

The pair came to the Texaco Station in Medina for aid and after they left Mrs. James Parker reported $40 was missing from her purse.

Rainfall Report

During the first 10 months of 1981, 41.15 inches of rain has been recorded, which is 11.81 inches more than the average.

During October, 5.34 inches of rain was recorded in the rain gauge at the Soil Conservation office in Bandera, according to Millard Schuchart. This is 1.64 more than the average for October.

Bulldogs Deadlock Ro-Hawks

Kling goes up for an interception.

By Trey Shackelford

Bandera varsity football team went all out last Friday night, as they tied the highly acclaimed Randolph Ro-Hawks by a score of 8-8.

The game was a see-saw battle from the starting kick-off to the last second. Randolph scored first in the second quarter on a quarterback keeper from 4 yards out. The two-point conversion was good, which made the score 8-0 in Randolph's favor going into half time.

Late in the third period the Bulldog defense came up with a fumble that set the Dogs up for their only touchdown of the game as Jim Bob Robbins plunged in from one yard out. Bandera's attempt for the two-point conversion didn't fail as quarterback Jimmy Jennings hit Charlie Robison on a roll-out pass play that tied up the game at 8-8.

The game was a defensive battle from that time on, as neither team could capture up any yards against the opposing defense.

This was the first touchdown the varsity team has scored on the Randolph in 8 years. The Bulldogs now have a season record of 6-1-1 which is the best record Bandera has possessed in over 8 years. The Dogs have scored 122 points as opposed to 36 points from their opponents. They will be playing at Medina Valley tomorrow night, November 6. A win against the Panthers would put Bandera on top in their district. Bulldog fans, continued support will help lead the team to victory.

How Can You Benefit From Reagan's Tax Changes?

President Reagan's Economic Recovery Act of 1981 has generated an abundance of controversy over the exact nature of the changes in the tax law. At this point the only certainty in many minds is the need to start planning now to avoid paying more than legally required in 1982 income taxes.

To aid the average taxpayer in understanding exactly what has been changed in the tax laws — both for individuals and for businesses — and when the changes take effect, "How You Can Profit From The Reagan Tax Cut," an 18-page guide to successfully planning tax strategies, is available without charge from Tax Information Center, a New Concord, Ohio, firm specializing in tax, estate and financial planning on a year-round basis.

The undisputed showpiece of the Reagan tax cut is the across-the-board reduction in individual income tax rates. The cut will total 23 percent by 1984, though the reduction for 1981 will total only 1.25 percent, a savings for the average American taxpayer ranging from less than one dollar to three or four dollars per paycheck.

But the individual income tax rate reductions aren't the only changes in the tax law. The "marriage tax," for example, has been reduced, though not eliminated. Also, as a result of the reduction in the maximum income tax rate, the maximum capital gains rate has already been dropped from 28 percent to 20 percent. Congress made this ceiling on capital gains tax available retroactive to June 10, 1981.

Taxpayers will have a little more breathing room under the new law for estimated tax payments. Under prior law, it was necessary for an individual to file an estimated tax return if the tax liability was $100 or more. Starting in 1982, the threshold amount will be $200. The amount will raise $100 per year in each succeeding year until leveling off at $500 in 1985 and subsequent years.

Through a very significant provision in the new tax law, Congress has locked in the income tax cut after 1984. Starting in 1985, the tax brackets, the zero bracket amount and the personal exemption will be adjusted for inflation. This indexing provision will stop taxpayers from being pushed from one bracket to a higher bracket simply because they receive cost-of-living increases in their salary. The rate of inflation will be measured by the Consumer Price Index.

These tax law revisions, and all the others, are explained at length in "How You Can Profit From The Reagan Tax Cut," which is available at no charge from Tax Information Center. To order a free copy, please send a self-addressed business size envelope (approximately 9½ by 4⅛ inches) and 35 cents postage to: Tax Information Center, 68210 Boden Road, New Concord, Ohio, 43762.

Jamie Herriott Recovering

Jamie Herriott, son of Billie Herriott of Bandera, was injured Friday, October 23, in an accident in Houston. He was involved in a minor auto collision, and when he got out to inspect the damage, another vehicle hit him.

Herriott underwent surgery that day on one leg and last Thursday surgery was performed on the other leg, an arm and a finger. Then on the following Tuesday plastic surgery was performed on his leg. Fortunately he had no internal or head injuries.

Herriott is presently recovering in Hermann Hospital in Houston. All of his Bandera friends hope he recovers soon.

Lakeshore NEWS

The Lakeshore Volunteer Fire Department held its second annual fall barbecue on Sunday, November 1. The highlight of the afternoon was the dedication of the new fire department facilities. The president, Glenda Haley, welcomed the members and visitors and introduced other officers of the organization who are vice president, Bill Haynes; secretary, Fran Hildenburg; treasurer, Harold Bentley; directors, Ross Bailey, Bethel Lackey, and Butch Highnote; fire chief, Allen Haley, and assistant fire chief, John Portman.

Col. Louis Duquette summarized the history of the Lakeshore VFD since its charter in November 1979. The organizational meeting was held in the spring of 1980. Throughout 1980 and 1981, the fire department continued to progress. The land was purchased, a water well was drilled, restrooms were constructed and then the members voted to build a fire department building. Col. Duquette explained that 19 members loaned $10,400 and the 2440 square foot fire department building was built with volunteer labor and without any assistance from any outside agencies, state federal etc.

Certificates of appreciation were presented to Hevenor Lumber and Roger Stevens for their contributions to the fire department. Sam Byrd was recognized and presented with a certificate of appreciation and made an honorary member for his numerous contributions throughout 1980 and 1981.

Special guest, Judge Rein Vander Zee, congratulated the membership on its facilities and accepted, on behalf of the commissioners' court, appreciation from the Lakeshore Volunteer Fire Department for the assistance and support they had received from Bandera County.

He stated that Lakeshore VFD is the seventh fire department in the county and that there are approximately 7,000 residents, which means an average of one fire department for every 1,000 people for their protection.

Zee cut the red ribbon — dédicating the Lakeshore Volunteer Fire Department to fire and flood protection for all the people of the Lakeshore community.

The fall barbecue was well attended and the many activities provided were enjoyed by all. A good crowd stayed for the dance in the evening and enjoyed the music provided by Caesare Masse, Randy Thaler and Jeff Kennedy.

A very lively auction took place during the afternoon. Drawing for prizes was as follows: The first prize of a video recorder went to Robert MacGregor, wall clock, Mrs. Doyle Loftis, $100 cash to Bill Crisp, 2 dinners at Hill Top Cafe in Mico, Perry Johnson; 10 piece family packs from Jr. Food Mart, Jesse Garcia, Charly McElreath and Danny Strate; lube job from R.L. Mrs. Hettie Dean
562-3464

Quote: "You see a lot when you haven't got your gun." Hunters' Rule.

Saturday morning rainfall around the Tarpley area was 2 inches. Showers fell slowly in Friday night.

Edith Jeffers was so gracious to write Tarpley news last week in my absence, but due to the mail in taking days to get to Tarpley via San Antonio, it didn't get in.

Mr. and Mrs. J.E. Dean visited Mr. Dean's sisters, Mary Chism and Vashti Sparks, in Kingsville and were happy to find Vashti improving from recent surgery. Mary Chism entertained with a dinner on Sunday for relatives and 12 were present.

Mr. and Mrs. Bill Morris and son, Billy, of Rio Hondo, drove to Austin on Saturday to see the University of Texas Longhorns vs. Texas Tech football game and they came back all smiles over Texas' big victory.

Mr. and Mrs. Anton Haner, accompanied by her parents, Mr. and Mrs. Richard Tatsch of New Braunfels, went to Dallas the weekend to visit the Haner's son and wife, Mr. and Mrs. Doyle Haner.

Nora Anderson spent a weekend recently visiting her son, Kenneth Anderson, and family in Corpus Christi.

Mr. and Mrs. Earl Hood of Rio Hondo left Sunday for Kingsland to spend the night with their daughter, Edna, and Ray Cheatham. Then on Monday Edna drove her parents to San Antonio for Mr. Hood's check up.

Rev. Eugene Branch of Fredericksburg brought his wife, Garnet, over for church services Sunday and to meet everyone. He preached at the Bandera First Baptist Church Sunday night.

Halloween seems to have been quite a night for the Tarpley young people who went trick-or-treating. We heard of apple dunking and popcorn popping at Jimmy and Paul Hughey's home.

Mrs. Kenneth Shinn recently visited her mother, Mrs. B.M. Clark, at Canton.

The Williams Creek Extension Homemakers met at the Tarpley community center on Monday night at last week. Bunnie Erfurt was the hostess and roll call was answered by giving "home remedies." The program was on Christmas ideas. It was also election night for officers. Joyce Koontz was chosen president; Patty Flood, vice president; Marilyn Haner, secretary-treasurer. Nine members were present and one visitor, Dorothy Maness of San Antonio. One new member was Dorothy Callahan of Bandera. We welcome her. The next meeting will be November 16 and Lillian Haner will be the hostess. It will be held at 2 p.m. at the home of Marilyn Haner probably.

Mr. and Mrs. J.E. Dean visited his brother and wife, Marvin and Mary Jo Dean, Sunday afternoon at Driftwood. Another guest was Mary Jo's uncle Alfred Sasthoff of San Antonio.

DELAYED LAST WEEK

Mr. and Mrs. Charles Knight of Kansas City, Kan., spent a week with their cousins, Mr. and Mrs. Jerry Hall and Elda Margaret Cain of Rio Hondo.

Dorothy Maness of San Antonio came last week to take her sister, Bobby Singleton to San Antonio for some Christmas shopping and to see the Singleton's grandson win first place in a baby beauty contest. Congratulations, Justin.

A fire broke out in the Col. Cloma Huffman residence Thursday. The Tarpley Volunteer Fire Department was called and, because of the quick response, the house and contents were saved.

Senior Citizens News

The Memory Lane Melodiers had the very best Halloween celebration — a day early — even without Jack-o-lanterns and costumes, when they serenaded their friends at Purple Hills Nursing Home on October 30. Their voices and Dr. Meador's golden fiddle expressed the gaiety of the season. Later during the regular singing session at the Senior Center, they made preparations for the busy months of November and December. Anyone who likes music is invited to join at the next session which is scheduled for November 20. However, impromptu singalongs may be held before this time, so keep in touch with Minnie Hayes and Glyn Taylor at the Center for the latest information.

On Tuesday, November 10, all persons with birthdays in the month of November will be honored by the non-birthday persons at a covered dish luncheon at noon. Following the meal, Peggy Edwards, extension agent, will show a film. Remember the old song, Accent-u-ate the Positive? Her film re-enforces this idea by dealing with "Abilities, not Disabilities, in the Elderly." A discussion will follow on what Senior Activity Center and its Outreach Volunteers can do in encouraging more social involvement of this community's homebound and frail elderly. More volunteers are needed in this commendable effort.

Notice

The First National Bank of Bandera will be closed Wednesday, November 11, in observance of Veterans Day.

A THOUGHT FOR THE WEEK
By John M. Grimes

A day of purpose is to be celebrated on Veteran's Day next week.

History reveals that 100 years ago, just as 200 years ago — there was an overwhelming dedication and belief in the United States. Patriotism was not something to be ashamed of or submerged in cynacism. . .nor were liberty, the principles of self-government or the American economic and political system. Strong convictions commanded respect, and no one doubted our destiny as a nation.

As we approach Veteran's Day, it seems that the inthing among many of the discontented is to shun convictions or allegiance to any cause or principle. Pursuit of such a philosophy to its logical conclusion is an abandonment of observation of all milestones in the history of our nation or in the history of mankind, for that matter. If nothing matters, there is nothing to observe; and, if there is nothing to observe or believe in, what is left but a vacuum where once there was a great nation and great people.

And so, on this Veteran's Day, let us turn out in tribute, because we wish to reaffirm those beliefs that make our nation great and which so many of our fellowmen gave up their lives. November 11th, in short, is a day of purpose. . .

Next Stop Regional!

By: Sandy Riedner

After placing 2nd in the District Meet, both Varsity girls and boys Cross Country teams will participate in the 1981 Regional Cross Country Meet. The Regional Meet will fall on November 7th in San Antonio. The District Meet, which took place October 28, was held in Floresville.

Bandera Varsity girls, who held the title "District Champs" last year, lost to Floresville by 1 point. Team scores for the girls division were; 1-Floresville-31 points; 2-Bandera-32 points; and 3-Smithson Valley-86 points. Teresa Welch was the first runner in for Bandera. Brenda Mayfield was hot on her heels taking 3rd; followed by Linda Hamilton 5th, Tina Doebbler 10th, Tina Schott 12th, Jill Neally 13th, and Nan Youngblood 19th.

Being the first year to have a boys' Cross Country program the boys have taken off to a great start. They placed 2nd as a team and had two runners in the top ten. Terry Hodges was Bandera's first runner across the finish line grasping 2nd place. Steve Dunkin was close behind with 4th place. Others placing were: Robert Sowell 12th, Richard Salas 14th, Pete Fernandez 21st, Frank Konvica 24th, Ronnie Skinner 25th.

Spirit, A Bulldog Booster

By Dana Alaniz

Spirit was bouncing off the walls as the student body enthusiastically showed their support for the Bulldog team at the pep rally, October 30.

Cheers were led by the Varsity and Jr. Varsity cheerleaders. The cheers were followed by the speakers of the week. Coach Neuse and Danny Spangler. The Sophomores, by showing an abundance of spirit, were awarded the spirit stick. The Swing'n Band from Bulldog Land provided the music for the Pep Rally.

Players of the Week

By: Bruce Robison

Neuman, Brieno, they're our guys, the players of the week for the Randolph tie, and so the rhyme goes for the coaches pick for outstanding players for this week's game.

Robert Brieno was in Coach Dan Neuse's words, "awesome," going in at left end in the third quarter and allowing the Ro-Hawks offense only two first downs around the left end in the second half.

Paul Neuman was the offensive player-of-the-week for this outstanding punting. Maintaining a 40-yard average and on one punt placing the ball out at the two yard line to put Randolph in the worst possible field position.

Volleyball Season Closes

Teresa Welch returns the ball as Dey Romo and Tiffin Youngblood stand ready, in the game against Floresville.

By: Dey Romo

Volleyball season closed on October 29, with high hopes for next year.

The Varsity team which consisted of 3 juniors, 4 sophomores, and a freshman will be returning next year.

Both J.V. and Varsity girls were defeated by the Floresville Tigers on October 27. Score for the first Varsity game were 11-15 and score for the second game were 7-15. Diane Mangold scored 6 points followed by Sandy Riedner, who scored four points.

J.V. pulled out 13 points in their first game but were unable to win it. The second game score was 15-5. High point servers were Christine Fleming and Kathy Ryan with 6 points each, followed by Shannon McMullan with 5 points.

On October 29, the last game of the season took place in Smithson Valley. Again J.V. and Varsity Bulldog girls were defeated. Varsity scores were 3-15 and second game 10-15. High point server for this game was Linda Clark with 4 points.

J.V. scores were 6-15 and 3-15. High point server for J.V. was Christine Fleming with 4 points.

JV Short of Victory

By Charles Newcomer

Bulldog JV played a tough game against the Randolph Ro-Hawks but were defeated by a score of 12-7.

"The opportunity to win was there, but Bandera failed to capitalize on it." remarked Coach Jim ".

Bandera jumped out to a 7-0 lead in the first quarter, when Greg Butler scored up the middle from three yards out and Warren Clingon kicked the PAT.

Randolph fought back in the second quarter and pushed into the end zone for six but their PAT failed, leaving the score 7-6, as it remained at the end of the half.

In the third quarter Randolph scored again, however, the two-point conversion failed. Bandera needed only one touchdown to regain their lead but all their attempts seemed to always stop with two or three yards left. The defense held up great, keeping the Ro-Hawks from scoring the rest of the game. Bandera's do-or-die drive was ended on the two-yard line when the clock ran out ending the game.

Ro-Hawks Edge Out Dogs

By: Bubba Caloss

Despite never giving up, effort, and hard rushing by tail back Tommy Adams, the Bulldog Freshman fell to the Randolph Ro-Hawks 14-6, when they traveled to Ro-Hawk Stadium, Thursday October 29.

The Dogs scored first on a 18 yard sweep by Tommy Adams. The two point conversion was unsuccessful. The Ro-Hawks struck back scoring two touchdowns, and a conversion in the second and third quarters to win the game. Randolph found Bandera's weakness early as they gained most of their yardage on outside sweeps.

Freshman and Junior Varsity will play against Medina Valley at Bulldog Stadium November 5, beginning at 5:30 p.m.

Did You Know . .

Do drugs really present a driving hazard? This is a frequently asked question. Drugs definitely do create a traffic hazard if they have an effect on the central nervous system, if they are taken to excess, if a person reacts unduly to them.

Some drugs which are most likely to cause a traffic hazard are sedatives—(sleeping pills, such as barbituates, bromides, etc.), certain tranquilizers, antihistamines (cold remedies), stimulants—(amphetamines), alcohol may strengthen the effect of any of these drugs.

Common reactions produced by these drugs that cause them to create a traffic hazard are drowsiness, delayed reaction time and redness, blurred, fuzzy vision, faulty judgement, certain stimulant drugs (amphetamines) in particular may produce shakiness, dizziness, confusion, irritability, combative and aggressive driving.

All in all, a good rule to follow where drugs and driving are concerned is to keep the two completely seperate in your lifestyle. If you must take drugs, do it under your doctor's supervision and be sure to tell him you will be driving!

Music Lovers! Attention,

Bandera Bulldog Band will go to UIL Marching Contest in Hondo, Texas on November 7, 1981.

Events will take place in the Hondo Owl Stadium starting at 10 a.m. and continuing through the afternoon. The Bulldog Band will perform at 2:15 p.m. and would appreciate the support and attendance of the community. So come on out and support the Swing'n Band from Bulldog Land.

Made A Mistake!

Last week we reported the Bulldogs had never defeated Cole since the two teams have been competing. This was an error! Coach Gerald Robison's 1976 Bulldog football team defeated Cole 9-6. Please accept our apologies.

Oops!

Tenth grader, Sandy Riedner was unintentionally left off the A honor roll last week. Also Kerry York, fourth grader should have been reported on the A-B honor roll. Congratulations to both these girls.

Hoover family's 100 years continuous occupation of the land, will be unveiled on Monday evening, November 16, at the Civic Center in Ozona, Crockett County, Tex. The Crockett County Historical Commission and the Crockett County Historical Society will host the unveiling, and Elmer Kelton, author from San Angelo, will be the featured speaker.

Mr. and Mrs. Howard Graves plan to attend the ceremony. Mr. Graves, whose mother was a Hoover, is one of the owners of the Hoover estate. The marker will be placed in the center of the Hoover ranch land in Crockett County.

Mixed Drink Tax

During the third quarter of 1981 Bandera County collected $9,027.38 in tax on mixed drinks. The county's share, 15 percent, is $1,354.09.

The City of Bandera collected $7,836.65 during the same period, and their 15 percent share is $1,175.79.

The 10 percent gross receipts tax is collected by the Alcoholic Beverage Commission and the City-County rebates are sent out quarterly by the Comptroller's office.

Signs Of Fall

On the first frosty day of November, the Medina River appears to be steaming, as the sunlight strikes the water.

Law Suit Filed Against LCRA

A suit seeking $138.5 million in damages has been filed against the Lower Colorado River Authority by its two largest wholesale customers for breaching existing power sales contracts and forcing the signing of new contracts "under duress," driving up the cost of electricity to Central Texas consumers.

Pedernales and Bluebonnet Electric Cooperatives have filed suit in 98th District Judge Hume Cofer's court, seeking to have their 1974 contracts with LCRA declared "null and void" and the award of damages resulting from subsequent overcharges after LCRA arbitrarily cancelled 25-year contracts that had been signed in 1962.

Pedernales, headquartered in Johnson City, is seeking $93,444,517.02 in damages and Bluebonnet, headquartered in Giddings, is asking for $45,059,409.12. The suit, filed by Round Mountain attorney Judge A.W. Moursund and Austin attorney Donald S. Thomas, charges that LCRA did not seek "in any manner" to protect its customers when Coastal States Gas Producing Co. defaulted on its natural gas contract with LCRA in 1973.

LCRA entered into a fuel supply contract with Coastal States on October 10, 1962, calling on Coastal States to provide natural gas from January 1, 1970, to January 1, 1985.

The two cooperatives and LCRA had entered into a 20-year contract that began July 1, 1962, calling for LCRA to provide them with energy at a maximum rate of nine mills per kilowatt hour. A mill is one-tenth of a cent.

That contract was amended in 1967, giving the co-ops the option to renew the contract for an additional five years after July 1, 1982, with the nine mill ceiling.

The LCRA board on May 30, 1973, passed a resolution containing provisions that ceiling rate and fuel clause provisions "which as of May 25, 1973, are a part of any wholesale power contract or of any schedule of rates and charges which is a part of any wholesale power contract between the Lower Colorado River Authority and a rural electric cooperative or a municipality are hereby rescinded and thereafter shall be of no further force and effect."

The board "attempted to justify its arbitrary action due to 'curtailments' by their natural gas supplier," the suit notes, admitting that such "curtailments" constituted defaults on the part of Coastal States. LCRA representatives admitted the default had actually begun over six months earlier.

The LCRA board took no legal action against Coastal States and the directors "repeatedly took the position that LCRA was in the same position as the City of Austin, City Public Service Board of San Antonio and many others who had contracts with Lo-Vaca Gas Gathering Co., when in truth and fact this was not the case at all, since LCRA's gas contract was with Coastal States Gas Producing Co.," the suit points out.

Lo-Vaca, a subsidiary of Coastal States, was allowed to default on its contracts by the Texas Railroad Commission.

LCRA representatives allegedly participated in the Railroad Commission case, the plaintiffs note, "even though LCRA's fuel contract was not with Lo-Vaca Gas Gathering Co., but with Coastal States Gas Producing Co."

"could only have been a charade as LCRA neither resisted, objected, appealed, challenged or in any manner sought to set aside any aspect of said Lo-Vaca . . . case that might incidentally affect said LCRA fuel contract with Coastal States Gas Producing Co.," the plaintiffs charge, while at the same time Coastal States was defaulting, it "was making huge new sales of natural gas to an interstate pipeline company."

The plaintiffs allege that legal action by LCRA would have remedied the default "but apparently the easier course of action . . . was to arbitrarily rescind its contracts with its wholesale power customers and bill them for whatever funds they desired by substitute fuels."

In may 1974, LCRA officers and directors, "apparently concerned about their arbitrary breaches and violations of their contracts," attempted to "legalize" their actions by drawing up a new contract.

That contract was presented to BEC shortly prior to June 24, 1974, and PEC shortly prior to July 15, 1974, under the threat that they execute the contract or "wholesale power . . . be cut off."

The plaintiffs note that they consider themselves bound by the 1962 contracts and are seeking to recover all charges in excess of that contract.

By forcing the co-ops to sign the new contracts under the threat of having power cut off to their consumers, LCRA has "attempted to perpetuate the most vicious of monopolies in direct contravention of the Anti-Trust laws of our land," the plaintiffs allege.

The Bookshelf

By Jimmy Hughey

Things have been happening at your library: new books for reading, new reference material, a promise of feature length movies for free and lots of new knowledge for the librarians resulting from a series of very informative workshops offered by District 110.

We have 10 of 15 fiction best sellers and almost that many non-fictions, including the famed Beverly Hills Diet.

Beginning Friday, November 6, we will have a weekly Pre-School Story Hour. Mom, here is your chance to get free help from 10:30 to 11:30 a.m. every Friday. We will have stories, puppet shows and films — not necessarily all at once, of course.

Saturday, November 21, is the day of our Sidewalk Book Sale — 10 a.m. to 1 p.m. — paperbacks by the score, hardbacks too, will go for ridiculously low prices.

We wish to thank the great people who have volunteered to help out this week at the library — Pat Carlson, Julie Awe and Karen Jackson spent considerable time, effort and expertise to help make your Library a more going concern. We certainly appreciate their assistance and hope that they will continue and that anyone else who would like to spend some time doing their "thing" in the Library will come and sign up.

The library will participate with the city businesses in a Christmas Cheer extravaganza — special activities, decorations and Open House on December 3. More information will be given later.

Don't forget that the library offers more than good stories to read and that what we do not have in our own collection we can obtain from other libraries at no charge to the patron, of course. Also, each month we have a new series of films available to the public. Come in and check our list of films available now. We can make the projector available to you with a little preplanning.

Our hours are currently 9:30 to 5, Monday, Thursday and Friday and 9:30 to 9 on Tuesdays. As has been the policy for some time we are closed on Wednesdays.

The most consumed food in U.S.: fluid milk and cream.

Texas Heritage

By Garland Perry

Westphalia — a small village in western Falls County between Temple and Marlin — was founded in 1879 by German immigrants and was named for the province from which they came.

The most unusual thing about the community is that all of its first settlers were Catholic and no one outside their own religion was invited to live within a five mile radius of the township, a definite no-no in today's society. Collectively, they simply agreed that their devout faith and belief in the customs, traditions, and teachings of their church would create a stronger community in which to live.

Mr. Theodore Rabrocker, the leader and first settler to arrive, helped select the Westphalia townsite, and his group set aside 100 acres for a church, school, and city lots. The Church of the Visitation was originally built in 1884 and was used as both a church and school. It was destroyed twice by storms before the beautiful sanctuary shown above was constructed in 1895. The central church area forms a Latin Cross and the bell tower has a built-in six inch sway for storm safety. It is the largest wooden church building in Texas.

Westphalia is still predominately Catholic but local citizens hasten to add that good people of all faiths are welcome. It is a peaceful, quiet little place with a thousand and one reminders of the town's historic past. One can spend hours browsing through the old stores looking at such things as vinegar barrels, nail kegs, tobacco cutters, lamps, horse collars, high button shoes, etc.

But of all the attractions in Westphalia, the Church of the Visitation stands out as the focal point of the entire community. Many people are still quite firm in their belief that the wisdom of using religion as the primary consideration in establishing their settlement was well founded.

Tomorrow Is The Day — The Hunters' Barbecue

Yes sir folks — the brisket and sausage is on the grill, the beans are cooking, the bread is just out of the oven and we are ready for the 18th annual Hunters' Barbecue. The pace has been hectic this week with everyone pitching in. Ben Nolen and Gay Guilott have been pounding the pavement picking up donations from the local businesses. If they should miss you, please just drop off your check at the chamber office. Gene Wehmeyer (Wehmeyer Machine Shop) has donated all of the labor for our new super beam warmer that he's made for us. The Bandera Co-op has been so helpful hanging the big banner as well as making a $100 donation. KQBK, our own local radio station, has kept its listeners well up to date and enthusiastic about the barbecue with their numerous announcements. Our prizes for the evening have been selected and put on display by Mary Welch. Western Auto provided the Remington Model 788 - 243 bolt action rifle. True Value provided a pair of Jason wide angle, fast focus binoculars and two counter hones with oil (knife sharpeners). Sport Shack provided a Coleman 2 mantle lantern. These items were contributed by these businesses at cost. Also, the Bandera Keepers donated a Case lock-blade knife to be given away at the barbecue.

Community Thanksgiving Service Planned

The Annual Bandera Community Thanksgiving Worship Celebration has been set for Sunday evening November 22 at 6 p.m. at Grace Lutheran Church. This yearly event is organized through participating pastors of the various congregations of our area. Each year a different congregation hosts the service. This year the host is Grace Lutheran Church.

Everyone is cordially invited and encouraged to participate regardless of their religious denomination. According to Pastor David Doerfler, preacher at this year's service: "This is a time to emphasize those things which unite us, and certainly thankfulness should be common to us all. One Lord, one faith, one God and Father of us all calls us together from our different denominational perspectives to grow as HIS ONE BODY in the world so that we might better serve him. Our worship all together, even if only occasionally, can have a strengthening and unifying impact on our community as we work to live as the People of God here in Bandera."

For fun and fellowship, everyone is invited to participate immediately following the service in what has been tagged The First Annual Community Potluck "Odd Food" Thanksgiving Supper. Bring enough for you and your family (plus a little more) of any of your favorite exotic, wild, foreign, weird food. For example: liver and onions, "mountain oysters," rattlesnake, grasshopper, armadillo, dove, venison...We'll eat what you bring.

Know Hunting Regulations

Laws and regulations for hunting seasons in Bandera County have been announced by Game Warden Carlton Becker. Deer and turkey season opens Saturday, November 14, and extends through Sunday, January 3. Quail season opens Saturday, November 14, and runs through Sunday, February 14.

Bag limit for turkey season is 2 gobblers or bearded hens.

Limits for deer season are three deer per person with no more than 2 bucks. Spike bucks are legal.

Be sure to properly tag deer upon kill. Pay particular attention to filling out the date. Any person in possession of a deer with tag attached without the date filled in will be filed on.

If any portion of a deer carcass is given to another person, a legal document signed by the person killing the animal will be required. This document must contain name, address, date-of-kill and hunting license number of the person killing the deer.

A person may quarter the carcass of a deer in the field, however, it cannot be finally processed until it reaches a commercial locker plant or its final destination, which would be the hunters place of permanent residence.

Any person observing a violation or some one who has knowledge of a violation may contact Game Warden Carlton Becker, 796-4671, or the sheriff's department, 796-3771.

All information will be kept in strictest confidence.

Re-District Vote Set For Tuesday At 2

Members of Bandera County Commissioners Court are expected to take a final vote on proposed redistricting plans at a session called for 2 p.m. Tuesday, November 17, at the commissioners' courtroom. The meeting was set late Monday afternoon at the end of a day-long session of the court, held on their regular monthly meeting day.

Precinct 1 Commissioner Jim Russell presented an alternate plan, which had minor changes from the courts' original proposal. His plan would divide the city of Bandera along SH 16 as it enters Bandera from Medina, continuing through town to Cypress Street and then on south along SH 173 to Battle Springs-English Crossing Road and on to FM 1283.

East of SH 16 in the City of Bandera would be in Russell's Precinct 1 and to the west would be Bud Thompson's Precinct 4, which would also include the Lakeshore-Wharton's Dock, Bandera Falls and Alamo Beach areas.

Rollback Election

Judge Rein VanderZee read two letters answering queries made by Clerk Olga Schmidt to the secretary of state and to the director of the State Property Tax Board. (See letters in related story on this page). He noted that this part of the law goes into effect January 1, 1982.

Later in the morning Bill Ellis came before the court warning them that "federal law" in the first amendment to the U.S. Constitution provides a means of action in this situation.

Road To Castle Lake

Chuck Haver, representing the Castle Lake Land Owners Assn., met with the court to discuss the need for improving Bear Creek Road which leads to Castle Lake, the cost to black-top it, and how it could be financed. Estimated cost at present for the 4 miles in question is $80,000 for the black-top, after the base work had been completed. This is about $20,000 more than the year's budget for the whole precinct.

Rec Center

John Dexter, Mansfield Park superintendent, discussed various methods of replacing the fence which was washed away in the last large rise on the Medina River. Drift caught in the chain-link fence, tearing it down and washing away a length of the outer fence.

After comparing prices and conferring with Bandera Electric Co-op, the court decided to replace the fence with ¾ inch cable strung through re-cycled posts purchased from the coop. The posts would be 30 inches above ground and two feet into the ground.

Child Welfare Board

Catherine Baker, accompanied by Pat Lawrence, social worker, and May Bachelor, board member, asked the court to approve new members of the Bandera County Welfare Board— Mona Morrison, Peggy Tobin, Pat DeWerff and Bungy Grant— and extended the appointments of Barbara LeSiourgeon, Mary Evans, May Bachelor, Lonette Wilton and Louis DuBose.

Mrs. Baker said a survey which they had made indicated that local recreational needs included a playground, movies, bowling, and facilities for dancing and swimming. She said her group plans to contact AACOG about a grant for recreational needs.

She said they also plan to sponsor a donkey basketball game to raise funds.

Insurance

Jack McBride of Gulf Insurance, Joe McMullan and Danny Akins met with the court to discuss insurance coverage for elected officers in the performance of their duties. They explained present coverage and cost and extent of additional coverage.

Architect's Report

Bob Cowan reported on the progress of the roof repairs by Beldon and recommended final payment to them be approved. The court reserved payment at this time, until they are satisfied that all leaks have been stopped.

Cowan also reported on roof repairs at the county library. He pointed out that it appears that repairing of all stone work of exterior walls is needed.

Sheriff

Sheriff Guy Pickett asked the court to approve funds to buy ammunition for his officers to re-qualify in shooting, as is required annually by law. Cost for reloads at $5 per box for approximately $200 annually was approved.

Advertisement for bids for a new patrol car will also be made.

Supplemental Death Benefits

Treasurer Elizabeth James reported on the cost of supplemental death benefits offered by the Texas County and District Retirement System. The cost per month to cover those now in active employment is $237.68, and to cover them and also those who have retired would be $297.32. The court decided to take no action now, but to review the plan when the next budget is planned.

Election Results

The results of the November 3 election were canvassed by the court.

Subdivisions

Representatives of Medina Development Co. met with the court and were given final approval of Sections A and B of Lake Medina Shores, (formerly Lost Valley Shores, Section 6). They agreed that a statement would appear on sales documents saying that the roads would never be maintained by the county.

Charles Glassing discussed with the court a 75-acre block that he plans to subdivide into 1 to 2½ acre lots. He proposes to have a high-security area where residents would own their own paved roads and their own water system. He also agreed that all documents would state that the roads will never be publicly maintained. The proposal also calls for no mobile homes, no modular homes, only on-site constructed homes, masonry construction of approximate size of 15,000 to 18,000 square feet each.

The proposed subdivision as yet has not been named. The site is on the old Sweeney Ranch, also called the Walton Ranch, now a part of Timber Creek.

Jerry Gray, subdivision inspector, gave a progress report on Triple M, Mountain View, Mountain Ridge, Diamond J, Timber Creek, Freedom Springs, Lake Country, Exotic Acres, Deer Forest, Willow Springs, River Oaks Ranch and W. W. Wolfe.

Gray reported that a substandard septic system has been installed at a residence on FM 1283. A malfunctioning septic system in the Lakeshore area has not been corrected, Gray said. In a third case a system said to be disconnected, is still defective, he reported. Corrective action is being taken in each case.

Bonds Approved

Bonds for Dispatcher Marlene Mingo and County Attorney Sam Darden were approved.

Routine Business

Monthly bills (except to Beldon Roofing) minutes of the previous meeting, and reports were approved.

Present for the meeting were Rein VanderZee, judge; Jim Russell, Stanley Tschirhart, Bob Ashley and Bud Thompson, commissioners; and Vera King, deputy clerk.

Mrs. Olga Schmidt
County Clerk
Bandera County
Bandera, Texas 78003

Dear Mrs. Schmidt:

You have asked us to comment in writing on Sec. 26.07, Property Tax Code, which deals with elections to repeal a tax increase.

This section was included in the original code with an effective date of January 1, 1982. It was amended by House Bill 30, 1st Called Session, 67th Legislature, but the effective date of the section was unchanged. Accordingly, the rollback election remedy is not available to taxpayers at this time and is our opinion can only be applied to tax rates adopted in 1982 or later years.

As revised, and when it becomes effective in 1982, Sec. 26.07 provides that a tax rate is subject to a rollback election if it exceeds the calculated rate by more than 8% rather than 5%, as was stipulated in the original section. A petition calling for a tax rate rollback election must be signed by only 10% of the registered voters in the taxing unit. Signatures are not counted if gathered by a person who was paid to circulate the petition. Voters have 90 days, instead of 60 days previously provided, from the adoption of the tax rate to submit the petition. The requirement that 75% of the voters participate in the election is repealed. A successful rollback election would set the rate at 8% above the calculated rate.

If you have additional questions concerning this matter, please do not hesitate to advise.

Sincerely,

Jim Robinson

Dear Mrs. Schmidt:

Thank you for your letter of October 16, 1981, in which you inquire as to the effective date of House Bill 30 from the special session of the 67th Legislature.

House Bill 30 amends Tex. Prop. Tax Code Ann. § 26.07 which is effective January 1, 1982. House Bill 30 is also due to become effective January 1, 1982. No problem is anticipated with preclearance of H. B. 30 by the Federal Department of Justice, so Tex. Prop. Tax Code Ann. § 26.07 should become effective as amended.

No election pursuant to this legislation may be held prior to the date upon which it becomes effective.

Sincerely,

R. E. Rose

BRYAN FINLEY, serving on the bank board that serves the People of Bandera County.

Bryan Finley, with his wife Ada Betty and their four children, came to our Texas Hill Country in 1970. Bryan says that the Rio Grande Valley was nice, but it just didn't have the climate, the business opportunities, or the type of folks that we have here. Bryan became a director of the First National in 1970 with the purpose in mind that he would contribute to the overall development of the community through this position with the Bank. As Bryan puts it, "The First National has always been interested in the people on the street, just our average folks." He wanted to be a part of this commitment to the people.

A THOUGHT FOR THE WEEK

By John M. Grimes

For nearly two hundred years I have been the banner of hope and freedom for generation after generation of Americans.

Born amid the first flames of America's fight for freedom, I am the symbol of a country that has grown from a little group of thirteen colonies to a united nation of fifty sovereign states. Planted firmly on the high pinnacle of American Faith my gently fluttering folds have proved an inspiration to untold millions.

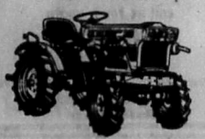

Men have followed me into battle with unwavering courage. They have looked upon me as a symbol of national unity. They have prayed that they and their fellow citizens might continue to enjoy the life, liberty, and pursuit of happiness which have been granted to every American as the heritage of free men.

So long as men love liberty more than life itself; so long as they treasure the priceless privileges bought with the blood of our forefathers; so long as the principles of truth, justice, and charity for all remain deeply rooted in human hearts, I shall continue to be the enduring banner of the United States of America.

Senior Citizens News

This week your response is requested in these areas of interest: Bridge...would you like to make a foursome some afternoon or evening, or have a class? Crochet, knit, macrame want to learn how, or improve? Exercise...would a regular session to music help you keep fit and limber? Rock Collecting...any rock hounds who want to share this fascinating hobby? Stamp Collecting...(or coins!)... what you enjoy alone is doubly rewarding when shared. Writing...(prose or poetry, imaginative or pertaining to local lore)...getting together with others might stimulate the creative juices! All of these and more are included in Kerrville's Dietert Claim programs for seniors, and can be started here in Bandera if the desire is present. The Kerrville State Hospital helps sponsor and fund these centers in the interest of mental health. Call the senior center at 796-6969 to indicate your choice. Evening meetings can be accommodated with advance notice.

The Dietert Claim bus comes to Bandera to furnish transportation to seniors (60 plus) twice a week, Mondays to Kerrville and back, and Thursdays to San Antonio and back. The bus leaves the center soon after 8:30 p.m., returns midafternoon so appointments should be made between 10 a.m. and 2:30 p.m. at your destination. There is no charge for this service. Our own Bandera Senior Citizen bus will take any senior in the county to a local destination any day Monday through Friday as needed. Call 796-4969 for reservations.

No reservation is needed for game days, Tuesday and Friday afternoons. Samba, Dominoes, "42" and Uno are among the games now being played.

Ane Coward of the Social Security office will be at the Bandera Commissioner's Courtroom on Monday, November 16, from 9:30 a.m. until noon.

If you prefer, call toll-free 1-800-292-1603.

Chairman Bill Hathaway reminds all members of the advisory board to be present at their regular meeting on Friday, November 20 at 3 p.m.

Memory Lane Melodiers will present their monthly program of Golden Oldies for Purple Hills Nursing Home on Friday, November 20, at 6 p.m. They will gather at the Senior Center immediately following to prepare for their appearances at the Shopper's Holiday Jubilee on December 3. Everyone who enjoys singing Christmas carols is invited to join in, and the same goes for instrumentalists! As the song goes, "strike the harp and join the chorus!"

Fowler — From Birth To Broadcaster

By Linda Muller

Can you imagine crazy Joe Fowler, that fun-filled guy who enters our living rooms enthusiastically each night via Channel 12 with the sports news, ever being the shy and quiet type? It's true! Born in Williamsport, Pa., on November 26, 1955, Joe has not always been the way we see him today. "My first date wasn't until I was a junior in high school!" Joe said when asked about his social life as a boy.

In 1970 Joe and his family moved to San Antonio where he attended one year of St. Pius Junior High and went on to graduate from Central Catholic High School with the class of '74. Joe first decided that he wanted to be a sportscaster during his teenage years at Central Catholic. When asked of this, he recalls, "I used to sit on the steps outside my school and look across the street at the Channel 12 building and think about the day that I would be working there."

Joe's interest in sports began at an early age. He played on his grade school baseball team as a child and thoroughly enjoyed it.

Photo by B. Caloss

Baseball is his favorite of all sports because, he says, "It involves more thought in every play made and also it's the only sport where you aren't playing against the clock." Joe's first job as a junior in high school was working as press boy for the San Antonio Spurs. This "glamorous" job involved getting cokes and hamburgers for the press. It seems that everything Joe did in his adolescence pointed toward his career goal of sportscasting — working for the press of an athletic team, for example.

After graduation, Mr. Fowler attended the University of Houston for one semester and then transferred to American University in Washington, D.C., where he majored in broadcast journalism. Joe stated that he loved American, but after three years felt that he had had enough schooling and wanted to see if he could make it professionally in his chosen career and therefore had to forfeit his degree. Joe returned to San Antonio in 1978 and began working as the radio announcer for the San Antonio Dodgers. This job fit in well with Joe's personality, as he enjoyed the sport of baseball so much. Soon afterward we all came to know Crazy Joe as the funniest sportscaster anywhere as he began his long-ago determined career on the news staff at Channel 12. He has been ranting and raving about who won this game or who fumbled that ball for one and one-half years now and is planning on many more years to come.

"I loved it!" was Joe's reaction to a question of how he liked our Bandera High pep rally November 6. "Y'all were as spirited as any big school I've ever been to." Joe went on to say that "the size of the school makes no difference; it's the spirit the school has that counts. The spirit for your team brings the school together and unites all the students as one. Where else can you get that many people cheering together for one cause? Nowhere but a high school pep rally! The kids cheer there because they want to, not because they're being ordered to!" exclaimed Joe. He said that he was very glad he had come because everyone here had shown him so much hospitality and had been so friendly to him.

Hodges Goes To State

By Sandy Riedner

Determination at its highest level could best describe Terry Hodges as he put forth all efforts to grasp 8th place and qualify himself for the State Cross Country Meet. The Region IV Cross Country Meet was held at Fort Sam Houston on the Pentathalon November 7. Both varsity girls and boys Cross Country teams participated in the meet.

Our varsity girls placed 7th out of 16 teams. Teresa Welch was Bandera's first runner across the finish line, placing 23rd. Others scoring were Brenda Mayfield, Tina Doebbler, Jill Neally, Tina Schott and Nan Youngblood.

Out of 18 teams our varsity boys placed 8th. Terry Hodges was Bandera's first runner in placing 8th out of 140 individuals. Others placing were Steve Dunkin, Pete Fernandez, Robert Sowell, Richard Salas, Frank Konvica, and Ronnie Skinner.

Terry will be running in the State Cross Country meet Saturday, November 14. The meet will be held in Georgetown. Good luck, Terry!

Time's Running Out

By Dana Alexis

A reminder to all Seniors who are planning to attend a junior or senior college next year; the best time to take the college entrance test is December 12 for the ACT and January 23 for the SAT.

One must pick up the registration form, fill it out, and mail it. The deadline for registration is November 13 for the ACT and December 15 is for the SAT.

Don't delay! Find out which one you need to take and pick up the form in the counselor's office. Most scholarship opportunities will be gone after these dates.

Chalk Up Another Win

They've done it again! The flag football team won another game, this time from Schreiner College. They had a good team but just couldn't keep up with Bandera. Bandera came up winners again by the score of 28-19.

The team is now 4-0 for the season with just a few more games to follow.

They play at the Singing Winds Sports Complex in Kerrville, so come over and watch them play. They need your support.

Happy Birthday

Mrs. R.C. Brown of Fremont will receive a year's subscription to the Bulletin as a birthday gift from her mother, Dorothy Callahan of Bandera.

More new books are being processed for circulation: Rombauer's **Joy of Cooking**, Barker's **Everyone in the Bible**, **The Encyclopedia of World Theatre**, two new mysteries; Lemarchand's **Nothing to do With the Case** and Blankenship's **Brutherly Love**. We wish to thank Jennette Hunter Saul for her most generous contribution of the fine collection of **The Bandera New Era** to the library. She asks that we use them and enjoy them in memory of her father, J. Marvin Hunter Sr.

Friday, November 13, will be our second Pre-school Story Hour. The first one was well attended and we think we have a good group going. This week we will branch out a bit into a puppet show and possibly some other areas of fun.

We are now preparing orders for more up to date reference material, and audio-visual materials to be paid for by District 10, Texas Library System. Our membership in the system made possible a recent book order of almost $900 as well. These new books, all adult reading, will be on their way here soon.

Texas Heritage

By Garland Perry

Fe in 1838 and she died one year later.

But it was little nine year old Cynthia Ann Parker, taken captive with her six year old brother, John, who won the hearts and imagination of Texas frontier folklorists. She was a captive of the Comanches for 24 years. Cynthia Ann married Chief Peta Nacona and had three children by him. Nacona was killed during the 1860 Pease River battle between Indians and forces led by Capt. L. S. (Sul) Ross of the Texas Rangers. Cynthia and her baby, Prairie Flower, were captured and returned to her relatives in East Texas. The baby died in less than a year and grief-stricken Cynthia Ann passed away two years later. Quanah Parker, the great Comanche Chief, was Cynthia Ann Parker's oldest son.

Fort Parker at Groesbeck in Limestone County is a beautiful well-groomed State Park carved out of the dense East Texas forest near the Navasota River. It is different because it was restored and is maintained to commemorate a human tragedy that is unequaled in the annals of Texas history.

It was here at 9:00 o'clock on the morning of May 19, 1836 that a party of hostile Comanche and Kiowa Indians attacked the old fort belonging to Church Elder John Parker and his family. Nine people were massacred during the ensuing fight. Two women and three children were abducted, some remaining virtual prisoners of different tribes for many years.

Mrs. Rachel (Parker) Plummer was one of the captives, as was her 18 month old son, James Pratt. The frightened, bloody and battered infant was soon separated from his mother and she never saw him again. Six months into her captivity Mrs. Plummer gave birth to a second son. The baby was pulled from her arms and savagely murdered. She was finally ransomed near Santa

Sanchez Slays Russian Hog

This 275-pound Russian hog was killed by Carlos Sanchez on the Kyle Ranch at about 8:30 a.m. Thursday, November 12. Sanchez, who works for Coates Ranches, got the animal with a shot to the head using a .22.

Pictured with the hog and the dogs which tracked it down are (l-r) Fourth Coates, Carlos Sanchez, and Richard Grona and Jerry Burson of Hill Country Hunting Service. Coates said he had found five freshly killed Angora goats in the three days before Sanchez killed this animal, but he had not checked to see how many more goats are missing. The hog's stomach was filled with Mohair, goat meat, grass and acorns, Coates said.

Plan For Re-Districting Approved

Two plans to re-district the county were considered Tuesday, November 17, at an announced meeting of the commissioners' court.

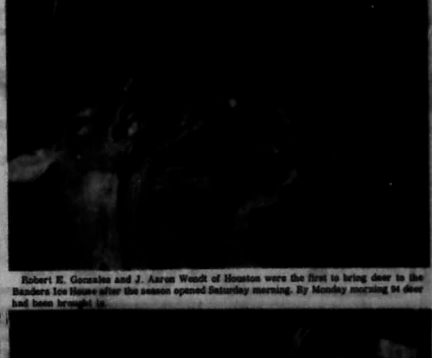

Judge Rein Vander Zee called for a motion to accept Commissioner Jim Russell's plan, a modfication of the plan devised by the court earlier. Russell made such a motion, but the motion died for want of a second.

Vander Zee then asked for a motion to accept the court's plan (a map of this proposal was published in the October 19 issue of the Bulletin). Commissioner Stanley Tschirhart made this motion, and, after a pause, the motion was seconded by Judge Vander Zee. Tschirhart voted for the motion and the remaining three commissioners — Russell, Bob Ashley and Bud Thompson — voted no. Judge Vander Zee did not vote.

Next the court went into executive session to discuss litigation concerning subdivision matters.

After returning to open session, the court again called for a vote on the court's plan for re-districting. Russell made the motion and Tschirhart seconded the motion. This time Russell and Tschirhart voted for the plan, while Ashley and Thompson voted against the proposal. Vander Zee broke the tie, voting yes.

Lockers Are Full Of Deer

Robert E. Gonzales and J. Aaron Wendt of Houston were the first to bring deer to the Bandera Ice House after the season opened Saturday morning. By Monday morning 94 deer had been brought in.

At School Board Meeting . . .

Keese To Advise State Board Of Education

Thomas H. Keese, president of the Bandera Independent School District Board of Trustees, has been appointed to act in an advisory capacity to the State Board of Education. The news of Keese's appointment was made public at the regular meeting of the Bandera board on November 10, at the high school. Keese will assist the State Board of Education in its consideration of the four legislative mandates—curriculum, teacher education, finance, and vocational education study—enacted by the 67th Legislature. He was nominated to the post by Joe Kelly Butler, chairman of the State Board.

In addition to congratulating Keese, the board approved payment of the November bills, including $41,520.03 in operating funds; renewed the contract with ARA Food Services Co. for the 1961-62 school year; approved the 1961 State Property Tax Board valuation report; and approved entering into a group contract for membership in the Texas Assn. of School Boards policy service.

The board listened to a presentation from William Mayo and John Jones, account executives with Merrill Lynch, Pierce, Fenner & Smith, Inc., concerning the school district's portfolio and listened to information about current market conditions affecting bond issues. Mayo commented that the Bandera School District enjoys an excellent reputation in the financial marketplace due to its solvency and sound financial management.

The board appointed its 1961 textbook committee consisting of Superintendent Ronald Caloss, chairman, Baird Neville, Mary Welch, Neil Peterson, Homer Stevens, Nancy Hunter, Robert Hunter, Lonette Wilton, Jill Edwards, Kaye Walters, Delores Workman, Sue Gabel, Leta Curbo, Barbara Mitchell, and Lee Kindla.

The board also heard a parent's appeal on a student bus suspension. After discussion, the board upheld the administration's suspension of the student for the remainder of the semester.

Thomas H. Keese

Superintendent Caloss informed board members of University Interscholastic League 1962-63 and 1963-64 district realignments. Bandera will be a member of UIL District 26AAA which, in addition to Bandera, will include Boerne, Cole, Randolph, Smithson Valley and Southside.

In other action, the board accepted the resignations of Mary Frances Murray, Jane Allert, and Joe Lopez, and employed the following for the remainder of the 1961-62 school year: Evelyn Langford, junior high teacher; Connie Young, junior high teacher; Donald Miller, VAC student employee; Joyce Koontz, substitute teacher; and Iris Sitts, bus driver.

The enrollment report showed that 1,500 students were enrolled in grades K-12 as of November 4.

All trustees were present at the November 10 meeting, including Thomas H. Keese, Patty Adamson, Richard Evans, Katie Ruede, Eddie Jon Ryan, Charlotte Salzman and Rob Sandidge.

Sheriff Attends Conference

Guy V. Pickett, sheriff and jail administrator for Bandera County, attended the 12th Jail Administrators' Conference at the Criminal Justice Center, Sam Houston State University, Huntsville, and was presented a certificate of completion from Dean and Director of the College of Criminal Justice Victor G. Strecher, Ph.D.

Approximately 180 sheriffs, jailers, and other personnel in related fields were on hand for the keynote address by the president of the National Sheriffs' Assn., L.C. Bittick, sheriff of Monroe County, Ga.

Ten workshops were presented to the law enforcement constituency, plus a morning address by W.J. Estelle, director of the Texas Department of Corrections; and a luncheon speech by Mike Morrow, Round Rock, a philosopher, humorist, and well-known after-dinner speaker.

Another highlight to the conference was the presentation of two $1,000 scholarships to outstanding students of criminal justice at SHSU. Texas Sheriffs' President Kenneth Kelly made the presentation to Cay Cannon of Houston and Stephen Appelt of Hallettsville. The award was based on academic accomplishments, law enforcement ambitions, and the intent to complete graduation requirements in criminal justice.

Hodges Is 8th In State

By Sandy Rieder

"Incredible!" was the word that came to mind as news spread of Terry Hodges outstanding in the 2-A State Cross Country Meet. Indeed it was incredible as Terry overtook 94 runners crossing the finish line to grasp 8th place.

The meet took place in Georgetown where 188 state qualifying runners were congregated in hopes of placing in the top ten. "I was real happy and excited and I felt dead tired," replied Terry. "The first thing I saw was Mrs. Maurek running toward me." Terry has been under the supervision of Head Coach Mrs. Barbara Maurek.

Terry's strong kick and everlasting endurance brought him from 22nd at the 1 mile mark, to 16th with 440 yards to go. Then using all of his strength he worked his way up to 8th. "I thought I've got to get up there.' I didn't want to go that far for nothing!" replied Terry. This is Terry's first year to run in a Cross Country program.

Dr. Hughey Honored

At the recent recognition dinner meeting of the San Antonio Area Council of Girl Scouts, Inc., 11 persons were recognized for their outstanding service to the local council. Eight people received the "Daisy" Award named in honor of Juliette Low, founder of Girl Scouting, whose nickname was "Daisy." This award is given to adults who have made a significantly outstanding contribution to the Girl Scout movement in the San Antonio Area Council of Girl Scouts.

The second award given during the evening was the Thanks Badge which is reserved for service so significantly above and beyond the call of duty that no other award can be appropriate. It is the highest honor for adults in Girl Scouting. Among those receiving this honor was Dr. Jimmie Flume Hughey of Tarpley.

3 Escape Serious Injury

An auto accident on SH 16 near the Privilege Creek crossing resulted in extensive damage to the vehicle in which they were riding, but little injury to the occupants.

Deborah Westmoreland of Tomball received head lacerations and her 13-year-old son, Robert Moore, was uninjured. The other occupant, John Randle of Cambell, had a lacerated tongue and chin.

The accident took place Saturday at about 12:50 a.m. Their vehicle crossed the road and hit the embankment on the left side of the road as they descended a hill while driving toward Pipe Creek.

Bulldogs Close Season With Victory

By Charles Newcomer

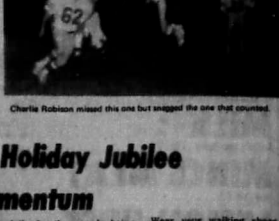

Bandera played their final football game of the 1961 season to a 12-6 victory over the Floresville Tigers. The entire first half was dominated by both defensive teams, as the score at half-time was 0-0.

Floresville came out the second-half and after receiving the kickoff marched down the field to score early in the 3rd quarter. The P.A.T. failed so the score was 6-0.

Bandera didn't get on the scoreboard until the 4th quarter when Jim Bob Robbins dove in from the one yard line. The P.A.T. failed leaving the game tied at 6-6. Then with twenty-five seconds left in the game Charlie Robison intercepted a Floresville pass and returned it thirty-three yards for the winning touchdown.

The game ended with a score of 12-6 in favor of the Bulldogs. This final victory left Bandera with a 7-2-1 win-loss record.

In the season Bandera accumulated an average of 17.6 points per game while allowing an average of only 8.4 points to their opponents.

Charlie Robison missed this one but snagged the one that counted.

Shoppers Holiday Jubilee Gains Momentum

The enthusiasm for the first Shoppers Holiday Jubilee is mounting daily. Bandera merchants are readying their merchandise for the big pre-Christmas open house set for Thursday evening — 5:30 to 9 p.m. — December 3, in downtown Bandera.

Entrants are being added daily for the parade being coordinated by Margaret Paradoe. If you'd like to take part, call her today at 796-3616.

Plan now to bring your friends and neighbors on the first Thursday in December to see what local merchants have on display in this festive gift-giving season. Wear your walking shoes, because you won't want to miss any of the businesses which will be open from 5:30 to 9 just for you.

The Bandera County Chamber of Commerce, which sponsors the event that they hope will be an annual affair, hopes to see you there!

Sidewalk Sale Successful

—Jimmie Hughey

The Sidewalk Book Sale, held Friday the 13th on the library sidewalk, was a great success. Thanks to the efforts of Paul Hughey and Robert Moseley who carried the books and tables out and in, and Julie Awe, who spent all day convincing our patrons that they would never again have a chance like this, we cleared more than $140. It was great fun and we intend to do it again. We do appreciate the efforts of our volunteers and the participation by everybody.

More than half that money has already been spent on best sellers. We have now added the following books to the growing collection: Colleen McCullough's Indecent Obsession, Howard Fast's The Legacy, Cynthia Freeman's No Time For Tears, Andrew M. Greeley's The Cardinal Sins, all of which are ranked on both the New York Times Book Review list and the more local Walden Books listing. Also being catalogued are Harry Reasoner's Before the Colors Fade, Robert Moss' Death Beam, Peter and Barbara Jenkins' Walk Across America 2, and Alastair MacLain's Athabasca.

The Pre-School Story Hour is going very well and we have room for more preschoolers to participate. In case you've forgotten, mothers, it's Friday mornings at 10:30 to 11:30.

On November 23, the library will be closed until 2 p.m. to enable the librarians to attend a workshop in Kerrville. These workshops are invaluable to those of us attempting to provide the services Bandera readers have come to expect. We regret the inconvenience of our being closed for that time, but in the long run it will be well worth it to everyone.

Margaret Mayfield enjoyed a birthday party last week. She received flowers, and everyone sang happy birthday.

Ruby Tanner celebrated her 90th birthday Sunday and Monday. Sunday her daughter, Leo Pindston and a friend visited. Mayo and Ada Tanner of Lakehills were with her Monday. Ruby received flowers along with greetings from the President and other gifts.

Dannie Robinson's daughters, Mrs. E. Clark of Medina and Mr. and Mrs. W.D. Feldman of Kerrville came for her birthday. Mr. and Mrs. Ross Maddox of San Antonio (her nephew) and Mildred Zuttermeister were also here. Dannie's youngest daughter, Elaine, had planned a big party for her. When all the relatives could come, and come they did from north, south, east and west — 45 in all. The only hitch was that Dannie wasn't able to attend because of a severe cold. However after enjoying a meal at the recration hall in Medina, they dropped by a few at a time to wish her a happy birthday. Her room was filled with flowers and gifts.

Flag Football Results

Last week Bandera's Flag Football team had its ups and downs. They played two games. In the first, they lost the game by the score of 21-13. Fitness First really played well and took advantage of Bandera's mistakes.

In the second game against Fredericksburg they came out winners. It was a game that Bandera had to win and did by the score of 13-6.

The team is now 5-1 for the season with just one game to follow. If they win the last game they will have first place in the Kerrville League.

Stock Show Meeting Scheduled

A general meeting concerning the Bandera County Junior Livestock Show will be held Tuesday, November 24, at 7:30 p.m. at the Bandera High School ag shop.

AROUND LAKEHILLS

Golden Wedding Anniversary

Mr. and Mrs. Gene Squires of SA were honored on their 50th wedding anniversary Saturday evening with a reception and dance at the Aggie Park party room. Hosting the celebration were their children, Mr. and Mrs. Richard Squires, Mr. and Mrs. Donald Squires, Mr. and Mrs. Jerry Rodgers, Mr. and Mrs. Ray Briggs, Flo Day and Jake Talley. The bride of yesteryear wore a floor-length gown of lavender with white lace. A pendant necklace, matching earrings and a white orchid wrist corsage enhanced her ensemble. Her groom was attired in a teal green suit. The bride's table was covered with a white cloth with gold decor. A tiered cake with golden wedding bells atop and gold cascadeing holding tall gold tapers formed the centerpiece. After greeting their guests, the honored couple danced the first two dances then bade their guests to join them. A buffet was served to guests from SA, Lakehills, Pipe Creek, Ft. Worth, Michigan, Bay City, and Santa Fe. The Leroy Grobman combo played for dancing. 19-1tc

A Surprise For Ron

Bonnie Cutter surprised her husband, Ron, with a birthday party Monday evening at Pop's Place. There was a birthday cake and cold refreshments.

Home Destroyed

The home of V.C. and Shirley Jones was destroyed by fire Friday evening. The fire originated from a faulty woodstove and is the first fire this year from this origin. The Lakehills Fire Department responded promptly with three trucks and 10 men.

Wedding Anniversary

Mr. and Mrs. Henry Birdsong of SA observed their first wedding anniversary at Adolph's this week.

Bouquet Of Roses For:

Felix and Gladys Berlinger and Bill and Norma Colley who performed the janitorial services at Faith Chapel during September and October. Also to those who made it possible to install carpet in the sanctuary at Faith Chapel. Thank You Note

We want to say thank you to my parents, Mr. and Mrs. E.C. Wells, for all their help when we needed it most. Thank you so much.

Love,
Ruby, Roger, Ollis
and Randall Oliver. 19-1tc

A Lakehills Welcome

Mr. and Mrs. E.C. Wells are new residents of Lakehills. They formerly lived in SA. Everyone extends a Lakehills-size welcome to them. The Wells bought the Jack Edwards place on Spur.

The MLBA

The MLBA gratefully acknowledges Panchita Thomson's donation of the new concrete walkway at the entrance of the Civic Center. The gift is in memory of Bob Larsen who was a hard working member of the MLBA and served on the board of directors.

New MLBA Members

The MLBA welcomes Mr. and Mrs. Joseph Balcerak of SA and W.C. McMahan of Florida as new members.

MLBA Appreciation Dinner

The MLBA will host an appreciation dinner Wednesday, December 2, at 7 p.m. for the workers of the recent Gumbo Cook-off. The purpose of the dinner is twofold: for the MLBA to show its thanks to the members and non-members, and to discuss recommendations for improving next year's cook-off. The dinner and drinks will be the courtesy of the directors of the MLBA. It is their way of saying thanks.

MLBA To Co-Sponsor

The MLBA and Bob Caswell will co-sponsor an entry in the Texas Governor's Community Achievement Awards for 1981. The state-wide awards are directed by the Beautify Texas Council and designed to encourage communities who demonstrate initiative and coordination in efforts to keep their community clean. Bob originated this project and all inquiries or suggestions should be directed to him.

A Lift

For everyone who feels let down after Xmas and after paying income tax, there will be a bright spot on February 13, 1982. On this night Panchita will host her annual Valentine Day dance at the Civic Center. Glenda Raye and her band will play for dancing.

Condolences

Condolences are extended to Mr. and Mrs. Richard Mixon of Lakehills.

Mr. Mixon's sister, Florence Welch of SA, died last week.

For O.P. Schnabel

Sorry—but Mr. Schnabel's name was unintentionally omitted from the list of workers on Earth Day. Mr. Schnabel is the San Antonian who founded the Beautify Texas Council. He provided all of the trash bags so indispensable the Earth Day project. Sorry...

The Winners

The winners of the donation prizes at the American Legion dance Saturday evening were rifle, Sandy Mauer; wheelbarrow of drinkables, Doris Colbath of SA; Thanksgiving basket, Otto Henke of Floresville.

The Hunters

Dr. Ted Samsel, Jr., a 4-pointer weighing 71 pounds; David Mauer a 9-pointer, weighing 78 pounds; Guy Prater a buck; Andy Halsey a buck. Seventeen deer and one Russian hog were brought to Adolph's storage over the weekend.

Thank Yes Note

The Hunter's Supper at St. Victor's Saturday evening was very successful. We express our sincere thanks to everyone who helped make it successful. Thanks are also expressed to community members who donated cakes and pies and to the donation ticket sellers. Julie Lehman won the quilt and Jim Klassen of SA won the pitcher basket set.

Grace Gonzales, president of the Altar Society. 19-1tc

You Missed It

If you missed the Auxiliary meeting on the 9th, you missed an informative and interesting evening. Cleo Taylor showed and narrated slides of her recent visit to England.

A Party For Bob

Bob Caswell was honored with a birthday party Sunday afternoon. There was a birthday cake, gumbo and things for the guests from LH, SA and Boerne.

The American Legion

Post 410 of the AL will host their 7th annual Christmas Eve dinner on December 24th. The purpose of this project is to put a little joy into the lives of those who are alone on Christmas Eve or due to health reasons cannot get out. Call Commander Ray Maurer or President of the Ladies Auxiliary, Barbara George, if you wish to participate but cannot drive or get out. This is a community project sponsored by Post 410 and the local churches. This worthwhile endeavor was originated by Bill Jenson when he commanded Post 410 and is anticipated each year.

Lakeshore NEWS

The Lakeshore Volunteer Fire Department will hold a general meeting on Saturday, November 21, at 10 a.m. at the fire station. Lunch will be available immediately following the meeting. There is plenty of chopped barbecue brisket, buns, chips, etc. left from the fall barbecue, and Wayne and Fran Hildenburg will have everything hot and ready to serve.

Notice: A 20 foot tower is needed for the fire station. If anyone knows of one available, please contact the fire chief, Allen Haley.

This weekend, Kurt and Erica Lamparten of San Antonio, friends of Butch and Irene Highnote, were looking at some Lakefront property. While here, they enjoyed visiting with some friends at the Copper Lantern.

Out of 104 entries, Terry Hodges came in 8th in the District Cross Country three mile race. Congratulations, Terry.

Proud grandparents they are—Tom Dickie and Mary Kay Andreas welcome the arrival of their new grandson, Ron Keller, Jr., weighing in at 8 pounds 3 ounces. He is the son of Ron and Bonnie Keller of San Antonio.

Helping to celebrate the birthdays of Kim Cherry and Marie Miller was Walter Burrell of San Antonio.

Happy birthday to Frances Hildenburg. May you have many, many more to come.

Dad, Bethel Lackey, and wife, Dell, had a pleasant visit with his son, Jimmy, of San Antonio who also spent time visiting with Dickie and Mary K. Andreas.

During the weekend of November 7, Earl Evans had a good time with his friends, Cecil and Faye Brody of San Antonio.

Visiting Dick and Deanie Newman for a few days this week is their daughter, Meridine Talley, with her children, Lana Lorraine and Pace, of San Antonio. Her husband, Buster, couldn't make it as he was hunting on his father's place.

Coming in from Kerrville for a few hours visit with friends were Ken and Shirley Koenig. We hope you can extend your visit a little longer the next time.

This hunting season is starting out pretty slow for Lakeshore residents with only two registered killings. We've a long time to go, so the situation should be better in the near future.

An elderly couple from out-of-town, names unknown, had some bad luck Sunday while attempting to do some fishing in the old park area. Their was a fire in the engine compartment of their car that burned up all the wiring. Through help from Deputy Hines, Clint Dowell Chevrolet gave them a tow into Kerrville. Some grass caught fire in the area without any real damage. We hope they have much better luck the next trip around.

We are happy to see Buddy Pinson and wife, Lucille, of San Antonio at their Lakefront property over the weekend. We hope you enjoyed your stay here for a few days, Buddy and Lucille.

Buddy Walker's wife, Mary of Houston, is out of the hospital and doing fine after surgery on her hand last week, according to her sister, Ruby, who visited with friends here this weekend.

Best wishes to Ray Bowen, who is recuperating from a heart attack at the VA Hospital in Kerrville, for a quick recovery. It was reported that Ray had a rough time of it for a couple of days last week.

News just in is that Jim Searcy will be going home to Athens from his latest treatments at the hospital this week. We hope that you can get down this way soon, Jim and the very best wishes for you.

Barbara and Jeff Johnson of San Antonio were Saturday guests in the home of Mr. and Mrs. Joe Sowell.

Looking at their new Lakeshore home and visiting were Dennis and Viola Crow of Kerrville.

HOMECOMING

The rain came on Saturday morning, October 3, but it did not seem to dampen the spirits of the many persons attending the Medina School carnival and homecoming activities. Many ex-students returned to visit with friends and former classmates and to participate in the parade, reception and program for the honored classes.

The most honored ex-student present was Sadie Hatfield of College Station, a member of the 1912 class, which graduated 70 years ago.

The class with the largest percentage present was the 1932 class. All members of this class, who graduated 50 years ago, are still living.

After the carnival, the 1932 class group gathered at the home of R.C. and Mrs. Leonard of whitened etc. visiting, eating, and picture taking. The Whitehouse and Archie Gallant were hosts. The class felt honored to have several of the ex-teachers present — Mr. and Mrs. Raymond Landrum, Alberta Bittel King, Mattie Mae Newcomer Pue, Vivian Keese, and Polly Teegart Wyatt. The group concluded the day by attending the reception and program at school. Fourteen class members were present — Lucinda Hillman Dickey, Meitzen Hillman, Ruby Hillman, Lucille Hatfield, Doss Keese, Eugene Keese, Cecil Lewis, Charles Pue, Preston Wheeler, Leonard Whitehead, James Sutherland, Archie Gallant, Rex Bauerlein, and Gus Adams, who traveled the farthest, coming from Oregon.

Seven members of the 1942 class attended, including Eva Dene Kelley Murphy, who came from Glenshaw, Pa.

Seven in the 1952 class were present, including Joy Leatherford Bailey, who came from Oklahoma. Three members of the 1962 class attended and 11 from the 1972 class came.

Other teachers of the past years who were present were Mrs. Carlie Wheeler, Kathryn McBryde, and Marvin Hatfield.

ROSE GARDEN CLUB REPORT

The Rose Garden Club of Medina met at the Garden Center on November 11. Mrs. James Arthur Gallant gave the Thought for the Day about moonlight and its effects on the people and their activities through the years.

Mrs. Curtis M. Heith reported World Gardening members contributed $20 to be sent to CARE, one of the activities of World Gardening.

The club voted to donate $15 to the junior Garden Club for their knitting project.

Mrs. C.L. Bower moderated the program, "Swap and Tell." Members explained the care and culture of the plants which they had brought to the meeting and swapped their plant for some other plant.

The club is sponsoring a Christmas decoration contest among the businesses and homes of Medina. Judging will take place on Monday, December 14, in the late afternoon.

Members were reminded to bring Christmas gifts for State Hospital patients and for patients at Purple Hills Nursing Home.

Medina 14 — Harper 8

Friday night, November 13, the Medina Bobcats hosted the Harper Longhorns in their final District 15A football game.

The victory for the Bobcats came from a tremendous defensive effort by the entire defensive squad. They held the Longhorns to 42 yards rushing and 30 yards passing. Two fumbles were recovered — one by Steve Heinen and one by Robert Carrales. Delbert Duchenseaux also intercepted a pass which was deflected by Steve Heinen.

The Bobcat offense scored first in the first quarter on a 4-yard run by fullback Mike Britt. The extra point attempt failed.

For the next two periods neither team could score. Early in the last quarter the Bobcat offense began a drive from their own 10-yard line only to give up the ball on the Harper 10-yard line by an interception.

After holding the Longhorns for four downs the Bobcats gained possession of the ball and Mike Britt scored on a 5-yard run. Extra points were good on a pass from Geoeff Williams to tight end Steve Heinen.

Honored this week are best hit - Steve Heinen, offensive players of the week - Mike Britt and Kenny Martin, and defensive players of the week - Delbert Duchenseaux and Mike Laging.

Statistics (Medina first) Total yards, 206, 72; first downs, 14, 4; penetrations, 6, 0; fumbles lost, 2, 2; and interceptions, 1, 3.

In Memoriam

George H. Bacon, Jr.

George Henry Bacon, Jr., age 79, died Tuesday, November 10, in St. Luke's Hospital in San Antonio.

Bacon was born May 8, 1902 in San Antonio, the son of George H. Bacon, Sr., and Margaret Gerfus Bacon. On January 1, 1930, he was married to Annie Elizabeth Asher in San Antonio. They have resided for the past seven years in Bandera.

He was retired from Kelly AFB where he was an aircraft inspector.

Funeral services were held at Grimes-Plummer Funeral Chapel Friday, November 13, with Rev. J.R. Dye, Methodist minister of Kerrville, officiating. He was laid to rest in San Antonio.

Survivors include his wife, Margaret Bacon of Bandera, and a son, Ronald Bacon of Marble Falls.

Bacon had many friends here who mourn his passing.

Earl Roberts

Emory E. "Earl" Roberts of Pipe Creek, passed away Tuesday in a San Antonio hospital at the age of 54 years.

Survivors include his wife, Rita Roberts of Pipe Creek; two daughters, Jeannette Gearly and Terry Recio, both of San Antonio.

Funeral services were held Friday morning in San Antonio. He was laid to rest in Fort Sam Houston National Cemetery.

In 1950, Pearson sold his interest in the Cumberland Portland Cement Co. of Nashville and retired.

Several months later, during a tour of the United States, he stopped in Bandera, spending the night at Lost Valley Resort Ranch. The charm and attraction of Bandera was so strong that in March of 1951 Mr. and Mrs. Pearson bought Lost Valley from George and Peggy Stevens and, for the next 11 years, the Pearson family operated this guest ranch.

Many friends in the Bandera area mourn his passing.

A THOUGHT FOR THE WEEK
By John M. Grimes

It seems that man certainly likes to talk! In our present day it seems that we are being constantly inundated with words. Some very meaningful, some pure "hog-wash," some truthful, some false. Voltaire once said: "There are some who only employ words for the purpose of disguising their thoughts."

We all know that many famous politicians, many famous leaders have a certain "knack" with words. They know how to use the right word — at the right time — in the right place — to say what they mean and mean what they say!

Lincoln is quoted as saying after he lost the senatorial election to Douglas: "It is a slip and not a fall." His words proved true. Instead of saying, "We owe a lot to the R.A.F.," Churchill said: "Never in the field of human conflict was so much owed by so many to so few."

We all have heard the expression: "Don't count your chickens until they're hatched." But would we know what was meant if we heard: "Do not enumerate your poultry prior to successful termination of the process of incubation." Let us use our ears wisely in this world when we hear words that can or can not help solve some of our present day problems. . . .

Senior Citizens News

The November birthday party, held at the Senior Center on Tuesday, November 10, was the biggest and best ever, with more than 30 persons attending and enjoying the covered dish luncheon. Following the meal, Peggy Edwards, Extension agent, presented a film on "Abilities, not Disabilities," stressing independence for those with infirmities. Then the group took a vicarious trip to Alaska, via Mary Worley's slides. Table games were enjoyed later.

The next party will be a Christmas celebration, on December 8.

The Memory Lane Melodiers will sing at Purple Hills Nursing Home on Friday, November 20, at 6 p.m. All reminded to bring their song sheets, and new singers will find nothing insurmountable if they wish to join in at that time. A sing-a-long will be held at the Center beginning about 7 p.m.

We hope to have an announcement soon about some news and views of and about seniors, which will be broadcast on our own radio station, KQRK, so tune in and listen for it! Mary Joe Kirkpatrick is lining up some interesting items for airing.

THE PRIDE OF BANDERA

I would like to take this opportunity to exalt and compliment the Emergency Medical Service of the Bandera County for their quick, capable and proficient treatment in the accomplishment of their outstanding training in rendering aid and service during my accident on November 9, 1981 on highway 16 south of the Bandera—Medina County line in Medina County.

Their prompt and efficient diagnosis of the extent of the injury, saved me many hours of agonizing pain.

I would also like to take this opportunity to thank Sheriff Guy Pickett and his department for their response upon receipt of the accident notification. Their quick response enhanced the continuous and orderly flow of traffic thus avoiding the accident scene.

Bandera County can assuredly be proud of these two outstanding organizations.

My thanks and blessing to you all.

School Floors Needed Oiling

Oct. 7, 1916 — Mrs. J.S. Hay, Mothers Club secretary, reported that the visiting committee visited the school and found 100 students enrolled, the floors needed oiling and there was a need for window shades. The club members voted to purchase shades and oil, and to pay someone to oil the floors.

Mrs. Young gave a talk on benefits derived from membership in the Texas Congress of Mothers and Parent-Teachers Assn.

It was further reported that Mr. Pyle would donate use of his grader if the club would furnish teams and wagons for the purpose of cleaning and grading up the school yard.

The yard isn't graded anymore and enrollment has certainly passed the 100 mark, but we are still PTA meetings. Two objectives remain the same — to make conditions favorable for learning and to continually up-grade the school system.

You are invited to attend the next meeting, on November 20 at 8 p.m. in the high school library. The topic of discussion will be "Future Renovations," presented by Ronnie Calver, school supervisor/architect. Refreshments and baby-sitters will be provided.

Sabinal Canyon NEWS

Lillie Thompson

Utopia was host to its first International Walkfest on November 7 and 8. The Utopia Footprints Assn. sponsored the event of walking three trails through the countryside around the community.

Six hundred and thirty-four short cards were issued. Ninety-nine walked the 30 kilometer route; 304 the 12 kilometer route and one individual walked the handicap trail. Four hundred eighty-two medals were awarded.

The participants were generous with their praise about the beautiful country, organization of the event, pleasant association with the personnel and, yes, for the average weight of each check point and water provided for their dogs.

There were seven girl scout troops among the walkers representing Eagle Pass, LaPryor, Uvalde and San Antonio.

The award for the "farthest traveled" was given to Ben and Alberta Wilkes from Clearlake Highlands, Calif. The "senior walker — best-dressed" award was earned by Mary Sidgwick Utopia. The "senior walker — male" was awarded to Kelly Morgan of Kerrville. The "largest group" was awarded to the Texas Wanderers of San Antonio with 35 of their members walking this event.

The medals featured the Bigfoot Maple and were suspended from a blue ribbon—the basic color of the Utopia Footprints Assn. The special awards were plaques made of oak lumber.

The theme of the medals and awards of the Utopia Footprints events is the foliage and wood of the canyon. Next year the Madrone will be featured on the medal and the plaques will be of pecan.

The Utopia Footprints has received their international sanction for next year's event on November 6 and 7, 1982.

Interesting facts of the walk are these. The age range was from six weeks to 78 years. The six-week-old young lady accompanied her parents, brother and sister. This was her fifth event. A 61-year-old walker, who has been walking the trails of Germany for the last three years, covered 30 kilometers during the two-day event. There were five national officers of the American Volkssport Assn. present and four officers of the Texas Volkssport Assn. participated. Dogs, on leash, were a common sight, ranging from toy poodles to leroes of German shepherds and doberman pinschers. It was an accident-free event with the most severe injuries being a few blisters. Bandera County Commissioner of Precinct 4 participated as a walker and as a worker.

Pipelines... make good neighbors

America has over 220,000 miles of petroleum pipelines carrying crude oil and products to refineries and storage terminals across the United States. Each day, more than 1.5 billion ton-miles of crude oil and products move through this network. These pipelines have a safety record *second to none* in the transportation industry . . . and we want you to help us keep it that way.

When you see signs like those shown above, they tell you that there's a pipeline nearby. If it's underground, you can't see it, of course. But it's there, working quietly to provide energy for you and other consumers throughout this nation.

Some of these signs list the commodity transported in the pipeline, the name of the operator, and a telephone number where the operator's representative can be reached at all times.

Although pipelines have an exceptionally good safety record, once in a while a leak can occur. Indications of a leak might include:
• A strange or unusual odor in the vicinity of a pipeline.
• A hissing or roaring sound (caused by petroleum or product escaping from a pipeline).
• A dense white cloud or fog.
• A spot of dead or discolored vegetation.
• An accumulation of petroleum liquids on or a mist above the ground in the area of a pipeline.
• Flames originating from an opening in the ground.

If you become aware of a pipeline leak . . .
• LEAVE THE LEAK AREA IMMEDIATELY.
• Avoid driving into vapor clouds.
• Avoid direct contact with the escaping liquids.
• Avoid creating sparks or sources of heat which could cause the liquids or vapor to ignite and burn. If you find yourself in a suspected vapor area, do not light a match, start an engine or even switch on an electric light.
• Notify the pipeline operator as soon as you reach a safe area. Call collect. Give your name, a description of the leak and its location. If you do not know who the pipeline operator is, call your local fire, police or sheriff's department, or the state police. Advise them of the nature and location of the emergency.

If you see someone digging near a pipeline or doing other construction work . . . or if you plan to do such work near a pipeline yourself . . . please call the telephone number shown on the sign and let the pipeline company know so damage can be avoided. It's in your interest . . . and the nation's.

Tax Appraisal District Directors Being Chosen

New boards of directors for the state's 254 county appraisal districts are being selected this month through votes cast by members of school boards, city councils and county commissioners courts.

According to Kenneth Graeber, executive director of the State Property Tax Board, each of the voting taxing units in a county must determine its vote by resolution and submit it to the county clerk before November 15. The governing body of the taxing unit may cast all its votes for one candidate or may distribute the votes among any number of candidates. The number of votes a given jurisdiction has is based on that jurisdiction's 1980 tax levy.

Voting ptaxing unit nominated candidates for positions on the board of directors in October. Names were submitted to county clerks who conduct the election process. The county clerk must count the votes, declare the winners and submit the results to all candidates and to all taxing units in the appraisal district by December 1.

The elected directors will serve a two-year term starting January 1, 1982.

Each county appraisal district is governed by a board of at least five directors. To be eligible to serve on the board of directors, a person must be a resident of the appraisal district. The person must have resided in the appraisal district for at least two years immediately preceding the date he takes office.

Members of the boards will set policy for appraisal districts which, beginning in 1982, will provide tax appraisal functions and handle taxpayer exemption applications and appeals for all taxing units in the county.

Fine Arts Program Features Music & Gift Decorating

Mrs. Al Robinson played the pipe organ at Grace Lutheran Church for the entertainment of Pine Arts members at their November meeting. She played theme songs from radio and television and the audience recalled music they had heard in the 40s, 50s, 60s and 70s. Many of them had not realized that these theme songs were taken from the classics.

Afterward Jewell Sheffield displayed handcrafted gift package decoration.

Members are looking forward to the Christmas program on December 1 at the Bandera Electric Cooperative where there will be a pageant, Christmas music and gift exchange, in addition to the Christmas tree.

District 45 Includes Bandera County

Rep. Jay H. Reynolds said today that, according to the new redistricting plans adopted last week, Bandera County will be in House District 45, along with Frio, Medina, Atascosa, Live Oak and Wilson counties.

The new lines were drawn up by House Speaker Bill Clayton and finally approved by the Legislative Redistricting Board in the final hours of debate. The redistricting board, composed of the speaker and Lt. Gov. Bill Hobby, Attorney General Mark White, Comptroller Bob Bullock and Land Commissioner Bob Armstrong, until Wednesday, October 28, to come up with plans for new house districts. Initial plans adopted during the 67th session of the Texas Legislature had been ruled unconstitutional by the Texas Supreme Court.

A problem with the plan adopted earlier this year by the house, was that many counties were divided between districts. Also certain districts, including Reynolds' proposed District 43, did not properly reflect the interests of the area.

"According to the earlier plan," Reynolds said, "our District 43 would have included a portion of metropolitan Bexar County plus five other rural counties. Clearly, it could have been difficult to satisfy the voters in Bexar while trying to reflect the interests of a basically agricultural area."

In plans adopted earlier, Bandera County had been placed in District 43 with Rep. Gerald Geistweidt. Presently Bandera is in Rep. Don Raina' House District 45 along with Frio, Medina, Hays, Blanco, Kendall and a portion of Bexar County. Reynolds said this new plan will be effective January 1, 1983, unless it is challenged in the courts. This does not seem likely at this time, according to Reynolds. "If there would be any challenge to this latest plan, it would not affect the rural districts," he said.

"I am very pleased with the new plan, and look forward to working with the people in this new district," Reynolds said. "I think the rural districts are in fine shape."

Reynolds said that, while still serving his present District 43, which includes Atascosa, LaSalle, Wilson, Dimmit, McMullan, Live Oak and Bee Counties, he is open to comments and suggestions from the new counties as well.

While not in session, Reynolds maintains an office in Floresville staffed by Janie Martinez. Pauline Mikus, administrative assistant, is in the Austin office to serve constituents.

Tigers Claw Bulldogs In Closing Game

By Bubba Caloss

Freshman Bulldogs ended their 1981 football season with a 34-6 defeat at the hands of the Floresville Tigers, Thursday, November 13, at Floresville.

Bulldogs were in for 4 rough night from the time of the first kick-off, when the Tigers ran it back for a 65-yard touchdown.

Bandera's 6 points came in the third quarter on a one-yard burst from Tommy Adams. The Freshmen ended their season with a 3-5-2 record.

"The coaches felt the Freshmen team put forth another good effort in the second half, but the team continued to lack the consistency needed throughout the game. Overall, for the season the coaching staff was well pleased with the enthusiasm and effort of the Freshmen. The coaches also felt the team learned the fundamentals necessary to carry on the winning tradition developing at BHS," replied Coach Neil Peterson, when asked his thoughts of the game and the 1981 season.

Tigers Slip By Bulldogs

By Trey Shackelford

The Junior Varsity football team lost to the Floresville Tigers by a score of 20-12 in their last game of the year. Although the Dogs fought hard they could not hold back the Tiger offense and keep them from their three touchdowns.

Bandera's offense wasn't so shabby itself with two touchdowns and the third one cut short by a fumble that cost them the game. In the end the bulldogs couldn't quite muster up that last touchdown to win the game.

The Junior Varsity team ended the season with 2 wins and 8 losses on the record. Every weekday before their games they could be seen scrimmaging the varsity and preparing them for their upcoming game. They were one of the main reasons for the varsity's success this season.

Big Halftime Performance

By Noel Rodriguez

Junior High Band students, which consist of the 6th and 7th grades, joined the High School Marching Band in their last Friday night performance of the year. They played the Rock-in-Roll tunes of "Soul Train" and "Walkin' and Talkin'." As the High School Band played a rather slinky jazz tune called "Summertime," the Junior High snapped to the beat.

Two weeks prior to Friday night's performance, the Junior High practiced and marched during their band periods. There are 45 Junior High students compared to the 70 High School students, which consist of grades 8th - 12th. This is considered a terrific number of students and shows a great future for the High School Band.

Friday night's performance was considered a lot of fun and a great learning experience for the Junior High, especially for the 7th grade because they will be performing in the High School Marching Band next year.

Knowing that we are certain to have missed someone's name from the list of workers or donors, we apologize. We would like to say a very big thank you to the Bandera Bulletin for all their help.

Also there is a small amount of brisket and sausage left over. This may be purchased by contacting the Chamber of Commerce Secretary at 796-3312. The brisket is $4 per pound and the sausage is $3 per pound. 19-1lc

Football Sweetheart

By Charmaine Adamson

Freshman Tana Allred was elected the 1981 Football Sweetheart. Tana was chosen by the Varsity Football team as the most enthusiastic and supportive person in BHS. At the Pep Rally she received a ball dozen roses and the Sweetheart title. Tana is one of the four JV Cheerleaders.

The End!

By Jake Short

As students filed into the BHS gym last Friday morning a gloomy look was fixed on their faces. This look was the result of what they knew would be the beginning of the final football rally of the year.

As the band played their rhythmical tunes and the cheerleaders overflowed with spirit it seemed to rub off on the gloomy student body. Everyone in the stands rose at the sound of the "Fight Song," and entrance of the 1981 football team. The gym was bursting with victory yells and chants led by the enthusiastic cheerleaders.

Coach Rainey and team member Pat Foster spoke to the student body on the importance of support at the game. The football team then rewarded the varsity cheerleaders with a yellow rose and presented Tana Albert with a half-dozen red roses for being the most enthusiastic supporter of the football team.

As the cheerleaders led more cheers and the band played more songs, the pep rally gradually came to an end. The football team filed out of the gym to the snappy "Fight Song." It was now the end of the final pep rally for the football season of 1981.

3. The effects of LSD can re-appear any time in a person's life even if they have not been in contact with the drug for many years.

4. Prolonged effects of the drug may permanently damage the brain.

Math Team Attends Practice Meet

By Jayme Alexander

Bandera's UIL Number Sense and Calculator Team attended their first practice meet of the year hosted by Clark High School on November 14. Those who attended were Earl Rose, Tom Doebbler, Bubba Caloss, Liz Walters, and Wendy Frazier, who placed 9th in Algebra I closed and 5th in Number Sense.

These students and others who were unable to participate will be attending many more practice meets to prepare for "district" competition in March. Any student interested in math competition should contact Mr. Russell Zickler for information.

Ag Teams Place 4th & 6th

By Wendy Frazier

Bandera's FFA quiz team placed 4th while the radio team placed 6th in District at Boerne on November 4. The quiz team's score was only 4 points away from 2nd, in which case they would have gone on to area.

Members of the quiz team were Wendy Frazier, Kevin Parker, Leslie Wennermark, and Tommy Callahan. On the radio team were Karen Risner, Tinker Stein, and Ralph Klinza, who was filling in for David Schwars.

Questions on the quiz were taken from the information in the Official FFA Manual and Parliamentary Procedure Guide. And the script used by the radio team was the same script that had placed 5th in state competition last year. It was based on the swine industry, how to select hogs, and the correct terminology.

Band Receives Division II

By Noel Rodriguez

As the announcer came over the microphone at Barry Field in Hondo, sounds of disappointment were heard as he said, "Bandera, Division II."

Although the band received a II in the most outstanding class of AAA, the band was very proud and satisfied with their performance.

Of the six bands that performed in class AAA, Hondo and Medina Valley, State winners, received a division I and will represent the district at the state marching contest on November 23 and 24.

We Have A Winner

By Dana Benear

Lisa Vakey, a sophomore, has been chosen to represent Bandera High at the district High O'Brien Youth Leadership Seminar. Toni Byam was the runner-up in the contest held at BHS.

To win this contest, Lisa was required to write three essays having no more than 100 words. She had to write of her leadership ability, her sensitivity and concern for others and her desire to learn and share knowledge and experience with others in her school and community activities.

Lisa will spend a 2½ day, all expense paid, weekend at the seminar. After competing at the district level, Lisa is eligible for competition at the state level.

Senior College Day

By Kelly Collins

Each senior has one school day out of the year to visit any college of their choice. This gives the students a chance to see the college which they plan to attend.

Permission slips can be obtained from Mr. Graves office. Each senior should contact the college and make a date for the day they plan to visit.

This day will be an excused absence and will be considered a field trip day. All students will be expected to make up any work missed from class.

All visits must be made before May. If you need any other information you should talk to Mr. Graves.

Outlook On Life

By Karin Karr

Although I am a degenerate living my life or anyone else, I'd choose my own (otherwise risk being arrested for impersonation).

Why is it that everyone these days seems obsessed with finding flaws in their own personal character in such at, like scabs, until they bleed?

And why then must the wounds be so lavishly concealed so as to indeterminably draw one's immediate attention to them?

Any why am I asking all these stupid questions?

It is possible that you are one who finds themselves etched with a patchwork of time worn scars of incessant self-critism.

I'm sure that some may find difficulty it be, wing this, but I have suffered from this affliction. The constant drain detracted largely from my daily life, rarely affording me the privilege of happiness that is every human's undeniable birthright.

Needless to say, this constant suffering finally brought me to the realisation that I must learn to appreciate my flaws as inseparable facets of my personality, if ever I was to partake in the actual enjoyment of life.

It is for this reason that although I am a degenerate myself, rather, and of morals proportion high moral standards, totally unacceptable, I like pride in my "flaws," for they are what make me an unique individual.

I love myself, and would do anything, within reason, for me. Of course there are still times when depression and self-conflict threaten the harmony of my existence, therefore I hold this basic philosophy as a guiding instrument in my life:

Life is like a dead cow.

If it is used to its full potential, one may enjoy full benefits.

But if he simply chooses to ignore its value, it stinks.

BANDERA HOSTS DISTRICT MEETING

By Chris Reeves

Student Council members from 24 schools filled the high school auditorium November 10 to attend the District 15 meeting.

Mr. Hegranes, a motivational speaker, spoke on "positive attitudes." The topics discussed were running for a district office, election ballots, and rules for the "Outstanding Student Council" competition held in March.

Many of these meetings and workshops are scheduled each year to improve the quality of Student Council in the school.

START COLLEGE IN TWO YEARS WITH MORE THAN $15,000.
How many employers today can guarantee you work for two years, let alone offer you a bonus for college? Today's Army will do both.
In fact, if you join the Army for two years, you could accumulate more than $15,000 for school.
Here's how: if you participate in the Veterans' Educational Assistance Program (VEAP), the government will match the earnings you save two-for-one for a maximum of $7,200. Then, if you qualify, the Army will add on an $8,000 educational bonus. That's $15,200 in just two years.

New Directory On The Way

Nathan Jones

"Morning Mist," a watercolor painting by Dallas artist Nathan Jones, is featured on the cover of the 1981 Bandera telephone directory, to be distributed beginning November 5.

Rick Gordon, customer services supervisor for Southwestern Bell, said the new directory contains 85 white pages.

"The cover painting captures a quiet moment in a dense marsh habitate in Texas, with ducks flying in a heavy morning mist," the supervisor said. An explanation of the painting appears on Page 1 of the Call-Guide Pages.

Each residential phone customer will receive one copy of the directory, Gordon said. Additional copies may be obtained from any Southwestern Bell business office or Phone Center Store after November 15.

A total of 26,216 books is being printed. Of that number, 19,429 new directories will be delivered to area residents.

"The extra books are for new customers moving into Bandera throughout the year," said Gordon. "Also, businesses and other customers sometimes need additional or replacement books."

NOW THAT YOU'VE QUIT SMOKING, DON'T START AGAIN

If your doctor, or your health wants you to quit smoking, The Texas Medical Assn. (TMA) does also. But realistically speaking, quitting isn't the big problem. Staying off cigarettes is.

Out of all the people who manage to go through the trouble, or agony, of quitting, nearly half of them return to smoking within a year. Don't be one of them. Here are some ideas to help you keep off the habit once you've kicked it.

First of all, realize when it is that you really crave a smoke. Is it when you're nervous, or bored, or depressed, or relaxed, or after eating, or instead of eating? Once you realize what your smoking craving relates to, you have some hints on how to deal with those awful moments when you really want to light up.

If your primary need is to hold something, start a hobby that involves the hands, such as needlework or writing. Or just fiddle with a toothpick. If it's the hand-to-mouth action you crave, be sure to drink loads of water or juice after you quit. And keep low-calorie nibbles such as carrot sticks and gum around.

Avoid situations where you used to smoke until you feel that you can trust yourself. Cocktail parties and coffee get-togethers can be hazardous to your smoking cessation. Spend as much free time as possible in non-smoking environments such as museums, theaters and stores. If necessary, avoid being with people who smoke for a while. Also, avoid alcohol or coffee, or any other substance that you've usually associated with smoking.

Hide all traces of your former smoking self. Get rid of ashtrays, lighters and, of course, cigarettes. Enjoy the fresh smell of your smoke-free home and office.

When the desire to smoke is intense — and it may be for a few months after you quit — take a few deep breaths until the urge passes. If it's still there, call a friend who wants you to stay off cigarettes. You need moral support, and don't be afraid to ask for it. Tell everyone around that you have kicked the habit. That way lots of people will be rooting for you, giving you the encouragement you need when the going gets a little tougher than usual.

Reward yourself for your achievement. After all, you've exercised a lot of will power. So do something special with the money you've saved from not buying cigarettes. Give yourself a "reward day" every month to look forward to.

If you do happen to smoke one cigarette, don't take that one transgression to mean that you have relapsed. After all, eating just one cream puff doesn't mean that you haven't lost those 20 pounds.

Texas Heritage
By Garland Perry

People who travel Interstate 10 East of Columbus, Texas could hardly miss the highway marker that says "Alleyton." Except for the sign, there is little to indicate a town ever existed here.

Alleyton was settled in 1824 by Rawson Alley and his four brothers: William, John, Thomas and Abraham. They were all members of Austin's original 300 colonists.

By 1860 the Buffalo Bayou, Brazos, and Colorado railroad extended from Harrisburg (Houston) to Alleyton, near the East bank of the Colorado River. When the Civil War broke out one year later, Alleyton became a key link in the supply line of the Confederate States of America.

Cotton came from all over East Texas, Arkansas, and Louisiana on the rails of the BBB&C. It was ferried across the Colorado River, then transported by ox, horse, and mule drawn wagons and Mexican carts to Matamoros across the Rio Grande. From there it was shipped to Europe, thus evading the Federal Naval blockade. Imported munitions, clothing and medicine were brought back to the Alleyton Quartermaster depot by the returning wagons.

After Vicksburg fell in 1863 and the Mississippi River was sealed off, Alleyton became a part of the South's major supply lines from Mexico to the entire Trans-Mississippi west. Today there is not much to show for Alleyton's historic past. — Only a few houses, a Fourth Class Post Office (shown above) and some huge Live Oak trees along the center isle of a wide boulevard that terminates in the old depot area.

The Bandera Bulletin

VOLUME 37, NUMBER 20 | BANDERA, BANDERA COUNTY THURSDAY, NOVEMBER 26, 1981 | 25 CENTS PER COPY

SHJ Day Nears!

It's just one week away — Bandera's big open house, the Shopper's Holiday Jubilee on Thursday, December 3, from 5:30 to 9 p.m.

This shopping spree is the brain-child of Karen Walburn of Merle Norman Cosmetics Studio and Margaret Paradee of Paradee's Unpainted Furniture and Gift Shop, who worked with former Bandera County Chamber of Commerce President Johnny Boyle to organize the evening's events and get the chamber's backing.

These gals felt that Bandera has so many nice shops that a big open house, timed to coincide with the Christmas season, could acquaint everyone with what can be bought locally and also be a fun-filled evening.

"All the business people have been so enthusiastic and helpful," Karen said. "They're really offering good buys on many items."

The Bulletin has devoted the center section of this issue to advertisements telling all about the different offers being made. But read carefully — some stores are starting their specials now, to run through Thursday evening; other specials are so special they're only being offered between 5:30 and 9 p.m., December 3, and other offers start that day and continue for a limited time.

Pull out this center section and save it to refer to.

You'll find that there's much more offered than just shopping. A big parade will start at 5:30 p.m. and proceed down Main Street. Santa is expected to make an early visit and ride on the fire truck in the parade. This year he'll greet youngsters after the parade and pass out candy at the banks — First National and First State. Santa said he thought it would be more comfortable to talk to the children inside these buildings where it's nice and warm.

There will be carol singing in front of the courthouse after the parade, and you won't want to miss that! Also there will be a live Nativity Scene there.

Business houses will be decorated for Christmas and there will be judging done and awards given.

The Madrona Garden Club, under the direction of President Mrs. A.W. Huseby, is coordinating a decorating contest for homes. If you haven't signed up your home yet, do so right away. Call Mrs. G. M. Merritt at 796-3861, Mrs. Huseby at 796-3682, Amelia Dickens at 796-4311 or Kathleen Krannick at 796-4142. Deadline is Monday, November 30. Homes will be judged and awards given also. Judges will be coming from out-of-town just for this big event.

Be sure to wear your walking shoes, for you won't want to miss any part of the extravaganza. See you there!

Community Christmas Tree Program Merged With Shoppers Holiday Jubilee

The Bandera Boy Scouts and Cub Scouts will join with the merchants and the Bandera County Chamber of Commerce this year to help sponsor a community event of interest to all ages. The Boy Scouts will decorate the tree on the courthouse lawn in readiness for carol singing by Bandera choirs and the Memory Lane Melodiers on Thursday evening, December 3, after the parade. Come and join in singing the Christmas songs with your friends and neighbors. Webelo Scouts are helping Santa prepare bags of candy, and Santa will arrive, riding on the fire truck in the parade, and then will visit with his little friends at both banks, giving candy to the children.

Bandera's Flag Football Team Wins Championship

The Bandera flag football team took first place in the Kerrville League. The last game was played against Comfort on Tuesday, November 17. After numerous turnovers by both teams, the game ended tied up. In overtime each time was given 4 plays.

Bandera took possession first and on the second play moved to the 3-yard line and scored on the next play. Comfort could only manage 5 yards in their 4 plays, so Bandera won the game and the championship.

The team finished the season with a 6-1 record, outscoring opponents 163-69, averaging 23 points, while allowing only 9.8 points per game.

On Saturday, November 21, the regional tournament was held in Kerrville. Bandera lost the first game to a Seguin team, 31-6; won the second game from another Seguin team 29-8; and were eliminated from the tournament by a Kerrville team, 19-0.

The team had a very successful season by winning the championship. This is only the second year for playing together. Last year they were runners-up and took second place. The champion team members are Les Short, Hoby Craddock, Herb Syring, Jake Leal, Rob Kling, Bodie Browning, Jerry Word, Ken Berry, Johnny Cardenas, Bubba Quarles, John Dexter and Joe Glasscock.

Tale Has Watery End

A 16-year-old Bandera youth was charged with running a stop sign and fleeing from a police officer and then released to his parents.

The charges were made as the result of an incident which took place Sunday at about 10:30 p.m. in Indian Waters.

City policeman Jim De Lesdernier reported that a pickup ran a stop sign at 13th and Mulberry, and when he turned on the red light and his patrol car to signal that the vehicle should stop, the driver turned off the lights on his pickup and drove to Indian Waters. The chase ended when the pickup was driven into Lake Hiawatha. In the pickup was an ice chest with untagged deer meat and a hunting rifle, DeLesdernier said.

Notice

Raymond Stetner, chief engineer for the Texas Department of Highways and Transportation, will be the guest speaker at the monthly meeting of the Bandera County Chamber of Commerce on Tuesday, December 1, in the meeting room of the Bandera Electric Cooperative.

The meeting, which begins at 7:30 p.m., will concern the projected completion date and traffic flow through Pipe Creek and Bandera.

Everyone is invited to attend and participate in the question and answer session.

Bus Discipline Improves

School bus discipline has improved since the formation this fall of the Bandera ISD transportation committee, according to Del Rizner, transportation director for the schools, at the committee's second meeting November 16.

Members of the committee generally agreed that the letter from Superintendent Ronald Caloss, outlining a strict enforcement of the bus rules, has helped improve discipline aboard the district's buses. Caloss reported that 85 percent of the letters to parents were acknowledged, and that there has been favorable reaction on the part of parents to the renewed emphasis on safety.

Rizner also informed the committee that more meetings will be held between drivers and administrators, after regular driving hours, to facilitate communication on bus matters.

Committee member Friede Barefield reported to the group on other school transportation systems' operations, including the use of two-way radios, monitoring of buses, and inservice programs for drivers.

Attending the meeting were Friede Barefield, Marie Schindler, Hon Schindler, Del Rizner, Martin Smith, Al Kindle, Gus Pfeiffer, and Superintendent Caloss.

The next meeting will be scheduled for sometime in February.

Thanksgiving Day Service

The Thanksgiving Eucharist will be celebrated at St. Christopher's Church on Thursday at 10 a.m. with special music.

Gill Opens New Division

Ralph Hauger

Gill Savings Assn. has opened a new division of the Richard Gill Co. The farm and ranch real estate division will deal in the listing and sale of agricultural properties. This division is part of the Richard Gill Co., investment and marketing group, and Hondo resident Ralph Hauger has been named as agent for the new division. Hauger will work out of Gill Savings Hondo Office at Hondo.

Before coming to the Richard Gill Co., Hauger worked for the Bob Heyen Realty Co. of Hondo. He also spent many years in the retail field. He has lived in Hondo for the past 17 years.

The new farm and ranch division will offer agricultural marketing services to all agricultural interests in south Texas. Hauger said the service is open to all agricultural interests not just Gill Savings customers. Hauger may be contacted through any of the Gill Savings Branch offices.

Vandal Breaks Door At Boyles Grocery

The right front door at Boyles Grocery was broken Monday morning at about 2:10 a.m. City policeman Jim De Lesdernier reports that he saw a car drive in to the parking lot at Boyles, drive toward the building back up, and ram the door, breaking the glass. The cost to repair the door was reported to be $200.

A 22-year-old Austin man, Russell Wade Hartman, was charged with felony criminal mischief.

Mabee Corp. Donates Computer

The Mabee Petroleum Corp. of Tulsa, Okla., has contributed $76,500 to the Medina Children's Home to purchase a Datapoint computer system and minimailer, according to Dempsey Simpson, superintendent. The gift is the total cost of the system.

The computer which will be used for accounting, inventory, summaries and reports, student records and histories, mailing, etc., began arriving the last week in October. Conversion of the home's operations to the new system is expected to start this week.

Students will also be trained to use the system, affording them the opportunity to learn skills they can use later in life when seeking employment, Simpson said.

Dorothy Burk operates the new computer at Medina Children's Home, which was contributed by Mabee Petroleum Corp. of Tulsa, Okla.

Lakehills News

Helen Temple — 751-3185

From beautiful Lakehills, the fastest growing community east of the Rocky Mountains, comes the thought for the week: In work and in play one must try to recognize their limitations.

AROUND LAKEHILLS

American Legion Post 416

Post 416 of the American Legion held their regular monthly meeting on Thursday, November 19. The Ladies Auxiliary president and some of the members will go to the VA Hospital in Kerrville on December 4 to assist members of other auxiliaries in setting up the gift shop for the annual veterans' selection for their families. On December 10 the ladies will return to the VA Hospital to help the veterans select their gifts, wrap them and prepare them for mailing. This is an annual project for the American Legion. Each Post contributes to the purchase of the gifts and pays for the postage.

An Afternoon Party

Tony Kruse, PR director for the American Legion, announced that there will be a tree-trimming party at the American Legion Home on December 15. Bring your needle and thread and be ready to string popcorn and cranberries for old fashioned decorations. Handmade ornaments may also be used. The activities will begin at 2 p.m.

Christmas Eve in Lakehills

A dinner will be served at the Legion Home for the elderly, those alone, shut-ins, and everyone in general who desires to participate. This fine gesture is sponsored by the American Legion and the churches in Lakehills. Ruth Tschirhart is chairperson of the food committee. If you wish to donate a cake or pie, call Ruth.

Thank You Note

Thank you, my dear relatives, neighbors and friends. Your telephone calls, cards, prayers, and food were sincerely appreciated during my recent health problem. It is so nice to know that others are concerned and care.

Tarpley NEWS

Mrs. Hettie Dean
562-3464

A thought "Let's be thankful to be observing another Thanksgiving day, this Thursday."

Temperatures in the Tarpley area these mornings are 28 to 30 degrees, and several days frost has formed.

A correction — Nora Anderson was reported to have visited her son, Kenneth Anderson, and family in Corpus Christi, but it should have read in Freeport. Sorry, Nora.

Arthur Erfurt is on crutches these days due to an accident inwhich the arch of his foot was fractured. Hope he's okay soon.

Census Bureau data show that more women want some type of career work outside the home prior to marriage than ever before, she says.

DELAYED LAST WEEK

The coldest temperatures of the season were reported this past week with 28 and 29 degree readings and frost in the hill country.

The big south maple trees at Lost Maples State Natural area failed to put on their array of autumn beauty this year.

Most of the leaves turned dark and have fallen, so the foliage will not attain the brilliant red and gold tones for which they are noted.

In the early and late November thousands of visitors came to the 2,300 acre natural area. One Sunday last November 9,000 vehicles passed through the park with many parking out side the gates and walking in to see the trees officials said. Due to wet weather in June, the trees produced a heavy crop. It seems the trees produce their height of beauty in dry weather.

You can still take a drive through the hill country and see the beautiful mountain sides of wild cherry, sumac, Spanish oak, etc.

The building fund for enlarging the Baptist fellowship building was more than $21,000 Sunday.

Albert Tamplen received the contract to build the structure and work will begin in February.

Phill and Donna Young of Houston and Donna's sister, Linda Rosenbaum of Rosenburg, were weekend visitors of their grandparents, Alvin and Jessie Ivy.

CARD OF THANKS

We wish to express our thanks and appreciation to the many friends who kept us in mind in all kinds of cards, foods, visits, sawing and hauling fireplace wood and many other acts of kindness will never be forgotten. Gratefully,

Rod Kettles & Bellringers

To people unfamiliar with The Salvation Army's broad spectrum of modern social services, all based on Christian principles, the red kettles and bellringers they see on the streets at Christmas are the identifying trademarks of the Army. While this is certainly a stereotyped image of The Salvation Army, the story of how the trademarks originated is still an interesting one.

It was in America that The Salvation Army's traditional red kettles and bellringers first came into being. The place was San Francisco. The time was the depression of 1894. Shipping was at a standstill. Thousands of seamen and longshoremen were out of work.

As Christmas neared, Salvation Army Captain Joseph McFee was charged with raising funds to operate a soup kitchen and shelter for the needy. Roaming the city seeking donations, Captain McFee hit upon the idea of using a large kettle as a collection device, with an attendant bellringer to attract attention. He placed the first Salvation Army kettle on a tripod and added a sign: "Keep the kettle boiling!"

The public response was immediate and generous as passersby heard the cry: "Help feed the hungry sailors!" Captain McFee soon solved the financial problems in maintaining his kitchen and shelter.

And that is the story of how The Salvation Army's red kettles and bellringers, seen all over the world today, first came about.

A THOUGHT FOR THE WEEK

By John M. Grimes

It has been a long time since many Americans went into the woods and shot their Thanksgiving dinner. Also, it has been a long time since many housewives went to the market and brought home a turkey that was not already preplucked and precleaned.

It is hard for us to imagine how it must have been on that first Thanksgiving in 1621, when a tiny band of only 55 Pilgrims who had survived that first harsh winter in the New World paused in their labors to give thanks for their first harvest. Their courage should be a challenge to all of us in having a meaningful purpose.

Yet, despite the remoteness of that original Thanksgiving in terms of years, it is not so far away in spirit if we but reflect on the manifold blessings we have to be thankful for in this great nation. Thanks not only on this Thanksgiving holiday BUT every day of our lives. I am thankful for each day — and for the gift of life.

Thanksgiving is a special day. Between the feasting and the football watching, let us all take a few minutes to think about why it is so special.....

A THOUGHT FOR THE WEEK

By John M. Grimes

It has been a long time since many Americans went into the woods and shot their Thanksgiving dinner. Also, it has been a long time since many housewives went to the market and brought home a turkey that was not already preplucked and precleaned.

It is hard for us to imagine how it must have been on that first Thanksgiving in 1621, when a tiny band of only 55 Pilgrims who had survived that first harsh winter in the New World paused in their labors to give thanks for their first harvest. Their courage should be a challenge to all of us in having a meaningful purpose.

Yet, despite the remoteness of that original Thanksgiving in terms of years, it is not so far away in spirit if we but reflect on the manifold blessings we have to be thankful for in this great nation. Thankful not only on this Thanksgiving holiday BUT, every day of our lives. I am thankful for each day — and for the gift of life.

Thanksgiving is a special day. Between the feasting and the football watching, let us all take a few minutes to think about why it is so special.....

"Mommy how many days 'til Christmas?"

Once the winter air is filled with the festive, expectant sounds of the holiday, young-sters begin to catch the feeling of excitement. The hardest part for them is waiting. A Christmas chain can help season, for little ones not up to reading calendars. All it takes is some leftover Christmas gift wrap, scissors and some paste. The youngsters can make their own chain if you provide a blunt end scissors.

Cut strips from gift wrap about 1" x 6", one for each day until Christmas. Paste the strips into circles, linking [illegible] to [illegible] at the child's eye level, some-place easy to reach.

Let the child tear or cut a link off every night. As the holiday nears, she or he will have some sense of the time until the great day!

SHEAF OF GRAIN A SCANDINAVIAN CUSTOM

Scandinavian farmers traditionally practice the age-old custom of [illegible] a sheaf of grain to a pole and placing it [illegible] as an extra treat. It is said that no peasant would eat [illegible] until the birds had been provided for.

"THE TWELVE NIGHTS"

In northern Europe, the Teutons observed the winter solstice, calling it Yule. As the nights were long, it was referred to as "the twelve nights."

Yule Legends

[illegible] believe that a daughter, born on December 25th, will be] wise, witty and virtuous.

Polish children get their holiday gifts from Mother Star, and her companion Father Star, not from Santa Claus!

Children love cone-cu

[illegible] they love to bake them! Christmas "cone cups" are fun and a marvelous treat, iced and decorated with bright holiday gumdrops.

Fill flat-bottom ice cream [illegible] and bake in a slow cookie sheet. Ice[illegible] iced, and heat of a[illegible] so crumbly cupcake over. They're als[illegible] have, along on a ca[illegible] snack, and again,

Making Old Fashioned, Spicy Gingerbread Men Cookies...

One of the special and most delicious customs at Christmas is snappy, spicy gingerbread men cookies. Since the whole family loves them, why not have the whole family join together in a happy baking spree? Here's a quick and easy recipe:

Gingerbread Cookies
1 cup packed brown sugar
3 eggs
1 cup margarine or butter, softened
1¼ cups molasses
1 teaspoon salt
1 tablespoon baking soda
1 teaspoon ground cinnamon
1 teaspoon ground allspice
1 teaspoon ground cloves
1 teaspoon ground ginger
3 cups all-purpose flour plus 5-6 cups (to be used later)
6 " gingerbread man cookie cutter

Early in the day, in a large bowl with mixer at low speed, beat first 11 ingredients, until just mixed; constantly scraping bowl with rubber spatula. Increasing speed to medium, beat 3 more minutes; scraping occasionally. Using a wooden spoon, stir additional 5 to 6 cups of flour into dough, to make it stiff. Divide dough in half and wrap in plastic wrap. Dough can be used immediately or refrigerated for up to two days.

Preheat oven to 350 degrees F. On a lightly floured surface roll half the dough with a lightly floured rolling pin, until ¼" thick. With gingerbread man cookie cutter, cut as many cookies as possible. Using a pancake turner, arrange cookies on lightly greased cookie sheet, handling carefully. Bake 12 minutes until cookie edges are firm; loosen cookies from sheet and remove to wire rack to cool.

Reroll scraps and using remaining dough, repeat.

Using white frosting, prepared or your own home made favorite, and raisins, decorate gingerbread men.

Recipe makes about 2 dozen cookies.

Holiday Greenery and Berries—*A Word of Caution!*

Decorating with holiday greenery and bright red berries is an [illegible] tradition. However, some of these plants are potentially poisonous and generally [illegible] with pollen chemicals and can be dangerous.

Ancient people, living closer to the earth and more familiar with plants than most of us, knew about the "good and bad" in leaves, cones and buds.

Romantic mistletoe is for kissing under and decoration, but the pale green leaves and waxy white berries contain natural poisons, and are dangerous!

The yew berry, pinkish red and translucent, is also poisonous when eaten. Oddly enough yew berries have no harmful effect when eaten by birds. Our feathered friends have enzyme systems that render the poison found in yew berries, harmless!

Holly berries, shiny and sparkly red are far less dangerous, but can also upset the stomach.

It is important to discourage infants and children from tasting the tempting looking berries of holly and yew and Jerusalem cherries, whose attractive fruit is potentially dangerous. Its [illegible] are dangerous, [illegible] and can be fatal in sufficient quantities.

So remember . . . a word to the wise . . . and most important, no little ones!

Beautiful old music rings through a tuneful Yuletide

Hand bells, instruments several centuries old, are enjoying a popularity in this country that they have never known before. The playing of hand bells, their tones mellow and pure, accompanies many candlelight carol services in churches at the Yuletide season.

The change ringers of England, who rang tower bells by pulling ropes, are said to have invented hand bells about three hundred years ago. To keep warm and to spare their neighbors, they practiced at home, and so improvised the original hand bells.

Padding on the clapper and a spring mechanism prevent the bell from ringing more than once when it is thrust forward. The quality of the sound can be varied by swinging the bell after it rings, but this takes an advanced player. A really adept bell ringer can manage more than two bells, by picking up and putting others down on a table in front of him. Bell ringers wear gloves so they will not tarnish the highly polished bronze surface and so spoil the tuning.

There are two foundries in Pennsylvania that manufacture hand bells in this country. The foundry that produces the most hand bells abroad, is in London, where most of the work is still done by hand. The bronze bells are tuned precisely, to notes in a chromatic scale, ranging over as many as five octaves. The smaller they are, the higher the pitch; the larger they are, the lower.

Hand bell music has been likened to that of an organ, warm and ethereal, and it surely adds a unique flavor to the stirring and harmonious sounds of the holiday!

Christmas Trees Recycled To Balance Our Ecology

Each year whole forests of young spruce trees are chopped down in their prime and displayed with decorations as Christmas trees in millions of American homes. After the two-week holiday season, they are discarded.

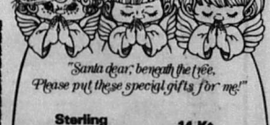

But Christmas trees can now be recycled. They can be given a second life in which their organic components can be put to work nurturing other life. A machine known as a wood chipper instantly reduces them to valuable garden mulch.

This mulch retains soil moisture and can be applied on top of snow to protect bulbs and stems of young trees and shrubs. Also, this coarse sawdust-like stuff is as good as salt or sand for improving traction on icy driveways.

Progress is being made toward completion of the wiring inside the Scout building located at Mansfield Park, and a heater has been installed. The Scouts gratefully acknowledge donations and assistance from Mr. and Mrs. David Perry of Kerrville; Mr. and Mrs. Wm. R. Jeffers of San Antonio; Calvin Cartrett; Milton F. Hausmann, John M. Goodenough, Richard Thornber, Frank Beechle, G.T. Sandidge, M.R. Sandidge, Buddy Sandidge, Phillip Singleton, Robert Moseley, Irving C. Billings, Johnny Cox, Richard Evans, Leroy Sprott, V.F.W. Post 8176, Howard Lurker, and many scouters who have worked.

Their next goal is to get the plumbing installed.

Composition Program Underway

Six secondary teachers from Bandera are participating in a staff development program in composition, conducted by Jean Petty of Education Service Center 20 in San Antonio. The teachers—Jill Edwards, Yvonne Fenner, and Kaye Walters from junior high and Lin Yakey, Marilyn Wiles, and Baird Neville from high school will attend three Saturday sessions on theory and methods of composition instruction.

Each participant will receive a sourcebook containing information on the stages in the writing process; modes, aims and audience; evaluation strategies; and the relationship of composition to other language arts.

The first session began Saturday, November 14.

LCRA Payments Withheld

The Lower Colorado River Authority's two largest wholesale customers, plaintiffs in a $138.5 million lawsuit against their supplier, are withholding payments to LCRA above the figure they contend they are legally obligated to pay.

An order signed Thursday, November 12, by District Judge Charles Matthews requires Pedernales and Bluebonnet Electric Cooperatives to pay LCRA nine-tenths of a cent per kilowatt hour, a maximum rate set out by LCRA in 1962 contracts with its customers running until 1987.

The costs over the ceiling price will be paid into the registry of the court until the suit, charging breach of the 1962 contract is settled.

Financial figures released by the two co-ops for October, the first billing month for which the order is in effect, reveal that LCRA will be receiving approximately a quarter of the amount billed to the two customers who are challenging their rate structure.

Pedernales received an October bill from LCRA for $2,354,961.13 and will pay $556,381.11 to LCRA and $1,698,580.02 into the court registry. Bluebonnet will pay LCRA $330,011.26 from an October billing of $1,349,388.79 and place $1,019,377.51 into the registry.

The suit filed by PEC and BEC alleges that LCRA arbitrarily broke the 1962 contracts in 1973 and forced its customers to sign new contracts in 1973 under the threat of having power cut off.

The two co-ops are seeking damages totalling $138.5 million — $93,644,517 for PEC and $45,059,609 for BEC — for charges above the ceiling set out in the 1962 contract.

'81 Farmers' Tax Guide Now Available

Every year about this time the County Extension office receives a supply of the Farmers' Tax Guide, prepared by the Internal Revenue Service, to distribute to farmers and ranchers. Last week, Bandera County received their shipment.

The Farmers' Tax Guide is a handy pamphlet that can help you prepare your income tax or tell you how to organize the information so you can get the best service out of the person that will prepare your taxes for you.

The Farmers' Tax Guide is free and a limited supply is available at the First National Bank in Bandera, Bandera County Courthouse, Bandera Post Office, First State Bank in Bandera, University Savings Assn., or the Bandera County Agent's office.

PUBLIC NOTICE

All Developers and Subdividers planning projects in Bandera County are urged to obtain and follow the Regulations Governing Subdivisions in Bandera County. Failure to follow these established regulations will almost certainly result in costly delays. Some of the most critical items are:

1. Written request to proceed accompanied by a statement from Bandera Electric Cooperative that electricity will be furnished.
2. Utility easements indicated by survey.
3. Road dedication indicated by survey.
4. Construction and maintenance bonds on roads.
5. All lots or tracts adequate in size.
6. Plats to be drawn to a scale of 200 feet to the inch, on 18" by 24" sheets. A key map shows the entire area to be drawn on U.S.G.S. maps which are available in the County Judge's Office.
7. Compliance with Bandera County Regulations covering sanitary facilities and water wells.

These directives, most of which have been in force since 1972 by order of the Bandera County Commissioners' Court, are available for any developer at the office of Permits and Inspections, County Courthouse. I urge all concerned to obtain this document and follow it closely during the course of your planning and development schedule.

We Miss Our Dogs

Jerry and Kaye Van Winkle and their three daughters — Emily, 9, Amy, 7, and Melany, 4 — moved to Pipe Creek a little more than a month ago. With them, they brought their children's two border collie puppies which they had just gotten a few days before.

On the day of the Fireman's Barbecue, October 18, the Van Winkles were gone for only an hour, but when they returned their puppies were gone.

Later on, they learned that a man had picked up the pups on Hwy. 1283 where they live, and dropped them off in Bandera, where they once again ran off. These puppies are very special to three little girls — Jerry and Kaye would be willing to give a reward for their return. You may contact Jerry at P.O. Box E. Pipe Creek, Tx 78063, 3.2 miles from Pipe Creek towards Lakehills on left in green trailer.

Shop Early / Mail Early Season Opens

This year the Postal Service is joining forces with the business community of Bandera in urging customers to shop early and mail early for Christmas.

Postmaster Joe H. Short asks shoppers to assist with the Christmas mailing crunch by shopping early and mailing early. Cards and parcels will reach their destinations in plenty of time for the holidays, if customers will start early, make certain that mail is addressed correctly and that packages are wrapped properly, Short said.

"Normally we handle about 25,000 pieces of mail a day — including cards, letters and packages, but during the holiday season, volume goes up to about 35,000 pieces," he said.

The key to successful holidaymailing is to mail early and correctly, Short says that includes planning now for gifts that must travel long distances by Christmas.

"Many overseas mailing dates — including those for the armed forces stationed overseas — occur during this month. Mailers can get specific information on the international dates by call us here at 796-4111," Short said.

"Customers should also take care to write legible ZIP coded addresses for both the intended recipient and the sender. Since mail sorting depends on the ZIP code as well as the name of the city and state, the use of the correct ZIP code will aid us in processing the mail.

"Last year our customers helped us by mailing early in the season and early in the day. We hope they will choose to cooperate with us again this year, so we both will have an enjoyable holiday mailing season."

That's Using Your Head!

By Holly Gabel

When all the helmets lie side by side — two stood out from all the rest.

Why were these helmets different from the others? They were, without a doubt, the most battered, marred, and battle-scarred of the entire group, which had been purchased for the '81 season.

To whom do these helmets belong? None other than senior defensive tackles T.J. Hicks and Clay Morrow. The coaches feel that the marred helmets represent an excellent attitude toward the team paired with an extra degree of self-determination.

The battle-worn helmets of Hicks and Morrow can be viewed in the trophy case at Bandera High School, where they have been placed in recognition of fine personal effort.

Varsity Comes Out On Top

By Gretchen Jennings

Bandera Varsity boys defeated the Devine Warhorses November 20, with a score of 62 to 51.

After the first quarter the score was 13 to 8. Going into the half the Bulldogs were ahead 24 to 20. The Dogs pulled way ahead to win 62 to 51.

Charlie Robison was high point with a total of 20 points, and Trey Shackelford was second with 15 points. David Edwards and Trey Shackelford lead with 17 rebounds, and Charlie Robison was second with 15.

Jim Bob Robbins, James Kling, Jimmy Jennings, and Doug Kirk all did a fine job on defense and also scored effectively to help the team. Coach Peterson thinks the team has a good balance of attack, and will do well in the games to come.

JV Wins Season Opener

By Sandy Riedner

Bandera JV girls' basketball opened the season with a victory over Comfort 22-16. This was the first basketball game of 1981 and was played in the BHS gymnasium, November 17. Varsity girls also played but were defeated by the Bobcats 35-59.

The JV game was extremely close, up until the fourth quarter. The first quarter ended with the score 4-4. In the second quarter Bandera was not able to score, but allowed the Bobcats only one basket, thus ending the half 4-4. In the third quarter both teams score 2 baskets, making the score 8-10. In the fourth quarter the Bulldogs were able to pull ahead scoring 14 points and allowing the Bobcats only 6 points. Terri Butler was high point scoring 13 points, of which many were from defensive steals. Others scoring were Shannon McMullan — 4, Kelly Clements — 4, and Amber Stein — 1.

The Varsity played a hard-fought game but the Comfort offense was constantly at their basket overcoming the Bulldog defense. At half the score was 26-41, Comfort's favor. In the third quarter both teams scored 6 points, but in the fourth quarter the Bobcats scored twice as much as the Bulldogs. Teresa Welch was high point with 19 points. Others scoring for Bandera were Dey Rome — 6, Christine Clauss — 6, Sandy Riedner — 4.

Victory For Openers

By Charles Newcomer

Bandera's boys varsity basketball team opened their 1981 season November 10th with a 52-42 victory over the Harper Loogborns.

It was evident early in the game that both teams had strong defenses as the low score of 8-8 ended the first quarter. Bandera's defense remained tough for the first three quarters allowing only 11 points to be scored in the second and third quarters, while the offense wrapped up 30 points for the Bulldogs.

In the fourth quarter Bandera worked against a full court press and received only 14 points, compared to Harper's 23 fourth quarter points.

High point for Bandera was Charlie Robinson with 16 points. Robison also led in rebounding with a total of 15.

JV Victorious In Opening Game

By Bubba Calos

Bulldog Junior Varsity Boys Basketball opened their 1981-82 season with a victory against the Harper Longhorns, November 19 at Harper.

Bandera led throughout the game with the sensational shooting of Steve Parker, who was high point, scoring 22 points. Defensively the Dogs held the Longhorns to 39 points while suffering 52, to nail down the 52-39 victory.

"I thought it was a good ball game. We played sloppy and had a lot of tournovers, which is to be expected the first game of the year. Going into the 4th quarter we were only ahead by 8 points but we blew Harper away in the final quarter only because we were well conditioned. Our practice consisted of a lot of running which helps us in the latter part of the game. We hope to improve each week, and with a few breaks we can have a fairly good year," commented Coach Kevin Long.

Close Victory For Varsity

By Kelly Collins

Varsity girls slipped by Devine with a victory of 51-50. The game was held November 20 in the Bandera High School gym.

The Bulldogs were behind the Arabians at the halftime with a score of 23-25. It was a see-saw battle between the two teams until the last few seconds of the game when Deyanira Romo made the winning basket for a final score of 51-50. High point scorer for the game was Teresa Welch who made 17 points. Dey Romo was second highest, making 11 points.

JV also played and was defeated by Devine with a score of 59-35. Terri Butler and Christine Fleming were both high point scorers for the game.

Did You Know . . .

One of the most commonly abused drugs is the mixture of alcohol with any of the sedatives. Each multiplies the effects of the other. Sometimes the effects are stronger than the body can handle. The results of this mixture can slow down breathing so much that the brain becomes oxygen starved. Coma, permanent physichal damage or death may result.

Success —

The State FFA President spoke to the BHS student body. Pictured are Bandera FFA officers Paula Edwards, Clay Morrow, President Jim Bob Robbins, State President Rafe Foreman, Bobby Morris, Darryl Becker, and Bill Norwood.

By Jake Ebert

Three steps in striving for success are setting goals, maintaining a positive attitude, and over coming obstacles.

These three steps were the outline of the presentation to the student body by State FFA President Rafe Foreman of Idalou, Tex. Rafe, a 1981 graduate, spoke on the importance of goals, and trying to improve one's self image. He told the students to be successful one must have a positive attitude and take pride in themselves and what they do. Failure is only an obstacle, not the end. Continue trying until success is achieved and your goals are reached.

Mrs. Vakey — A Valuable Teacher

By Charmaine Adamson

Among the many BHS faculty members shines the fun-loving, hard-working Mrs. Liz Vakey. Besides teaching English 2 and Physics, she sponsors the Student Council, Cheerleaders, and the Senior Class.

Mrs. Vakey was born in Arizona, and lived in Arkansaas. She moved to San Antonio as a freshman in high school. She attended college in Arizona, but graduated from Howard Payne College in Brownwood.

Mrs. Vakey has been teaching off and on since 1964. Before coming to Bandera in 1978, she worked at John Jay High School as the assistant principal. Her main hobby is collecting antiques.

Ex-Student Back On Campus

By Sandy Riedner

Who's that man behind the camera? He's Mr. Chuck Jones, a well known ex-graduate of BHS. Enthusiastic students can be found clustered around colleges formed by pictures of student life hanging in the trophy case by the gym. These admired collages are made by Mr. Jones who enjoys being around kids. He said knowing that he made someone happy is a reward in itself.

Mr. Jones graduated from Bandera High School in 1961. He replied, "The only difference between Bandera schools when I was enrolled and now, is the size. There were 28 seniors in my graduating class." Mr. Jones remarked how much fun it was to meet students whose parents he went to school and participated in athletics with.

You can always find Mr. Jones with a vigorous smile and a warm glow, but there is more than meets the eye. In February 1979, Mr. Jones was diagnosed with an acute case of leukemia. Although he was given 2 years to live, today, 2½ years later, he seems to be incredibly fighting the disease. he has visited Health classes at BHS and delivered inspiring and informative discussions about leukemia and death. You will be seeing Mr. Jones, roving Bandera school campuses throughout the year with his camera and his winning smile.

On Giving Thanks

Throughout the house smells of roasting turkey and freshly baked pumpkin pie drift upon the air amidst the sounds of pregame football commentaries and shouts of children at play. To most people this could only mean one event, Thanksgiving.

In days past (before television and, for that matter, radio) Thanksgiving was a day to give thanks to God for all His blessings of the past year. Not to say that thanks are not given today, of the old quotes is gone. Thanks is indeed given; thanks is given for not having to go to work or school.It is given because the turkey is not tough or the Jello is not runny, but is this the true meaning of Thanksgiving?

When you find yourself seated among your family and friends and your father asks you to return grace, why not really shock them and give thanks for something more than the state of the meal.

Prose For The Pros

By Dana Beman

November 19th, 14 well-prepared students clammered onto the bus with high hopes to do well at their first speech tournament of the year which was held in San Antonio at MacArthur High School. The students were entered in such categories as Duet Acting, Prose, Poetry, and Humorous Interpretation. Evidently their hard work and high hopes paid off; Karrie Oehler placed third in the finals on Prose and Elizabeth Walters placed third in the semi-finals which was also in Prose.

As one of the students proceeded onto the bus, I heard her exclaim, "Oh! Boy! Is this ever going to be a fun trip!" Yes, it was a "fun-trip." Several of the students recited their selections to eager listeners who were more than happy to give a helping hand while a few of the others relaxed and tried not to be nervous. Their sponsor, Mr. Baird Neville, emphasized the point of doing well and still having a good time because this was also a learning trip.

As the students journey caom to an end, they all concluded that the trip was time well spent and that they enjoyed meeting new and exciting people and going to different places. They hoped to do better the next time.

Kiss Me!

The Great American Smokeout Kissing Booth is manned by Student Council members Danny Spangler, Lisa Vakey, and Robin Chapman.

By Linda Muller

November 17th kicked off the Student Council's campaign in Bandera High School against smoking. The Bandera Chapter of the American Cancer Society asked the Council to help them sponsor the Great American Smokeout in Bandera by promoting it in the high school.

Student Council set up a "kissing booth" in the cafeteria and Hershey kisses, in place of actual kisses, were handed out to participating students. In order to obtain a "kiss" a student must sign a statement saying that he or she either would not smoke on November 19, the Great American Smokeout day, or would convince another smoker not to smoke on that date. The kissing booth fit in well with the motto of the Great American Smokeout campaign which was "Kiss me, I don't smoke." Overall, Student Council is happy with the success of the non-smoking drive, and feels that the kissing booth strategy added to the good outcome of the project.

Cancer Society Has New Rep

Linda Battle, new field representative, was introduced to the 16 members who attended the meeting of the local unit of the American Cancer Society. The recent UT graduate is from Beaumont.

Mrs. G.M. Merritt, service rehabilitative chairman, reported that two persons are presently being serviced. She said many persons are not aware of all the services Bandera County can provide. All that is required in most cases is written permission from the patient's physician. Loan equipment such as hospital beds, wheel chairs, commode chairs and walkers are available to as well as expendable items including dressings, hospital gowns, bed pans, pillows and other items.

These are in addition to the basic information and referral services. There are also such rehabilitation programs as "I Can Cope," a program that helps patients and their families understand a disease, learn the proper nutrition and exercise and handle problems of stress and self-image.

There will not be a meeting in December, but the Bandera County unit will start the New Year with a covered-dish luncheon on January 11 at Grace Lutheran Church. Dr. William Louis DuBose, local dentist, will be guest speaker. A film will be shown on diseases and cancer of the gums and teeth.

Comfort is one of the smallest in the hill country area, but it has a lot to offer visitors. Several new artists and craftsmen have recently moved to Comfort and joined this active group.

This year's showings include all types of paintings, antiques, stained glass, a selection of imported gifts, floral arrangements, hand-carved duck decoys and heritage-lace aprons, along with the well-known Comfort Skirts. Visitors can even have their portraits done during the open house.

Did You Know . . .

One of the most widely abused classes of psychoactive drugs is the mixture of alcohol with any of the sedatives. Each multiplies the effects of the other. Sometimes the effects are stronger than the body can handle. The results of this mixture can slow down breathing so much that the brain becomes oxygen starved. Coma, permanent physichal damage or death may result.

Success —

Trait You'll Have If

The State FFA President spoke to the BHS student body. Pictured are Bandera FFA officers Paula Edwards, Clay Morrow, President Jim Bob Robbins, State President Rafe Foreman, Bobby Morris, Darryl Becker, and Bill Norwood.

By Jake Short

Three steps in striving for success are setting goals, maintaining a positive attitude, and over coming obstacles.

These three steps were the outline of the presentation to the student body by State FFA President Rafe Foreman of Idalou, Tex. Rafe, a 1981 graduate, spoke on the importance of goals, and trying to improve one's self image. He told the students to be successful one must have a positive attitude and take pride in themselves and what they do. Failure is only an obstacle, not the end. Continue trying until success is achieved and your goals are reached.

Mrs. Vakey —

A Valuable Teacher

By Charmaine Adamson

Among the many BHS faculty members shines the fun-loving, hard-working Mrs. Lia Vakey. Besides teaching English 2 and Physics, she sponsors the Student Council, Cheerleaders, and the Senior Class.

Mrs. Vakey was born in Arizona, and lived in Arkansaas. She moved to San Antonio as a freshman in high school. She attended college in Arizona, but graduated from Howard Payne College in Brownwood.

Mrs. Vakey has been teaching off and on since 1964. Before coming to Bandera in 1978, she worked at John Jay High School as the assistant principal. Her main hobby is collecting antiques.

Ex-Student Back On Campus

By Sandy Riedner

Who's that man behind the camera? He's Mr. Chuck Jones, a well known ex-graduate of BHS. Enthusiastic students can be found clustered around collages formed by pictures of student life hanging in the trophy case by the gym. These admired collages are made by Mr. Jones who enjoys being around kids. He said knowing that he made someone happy is a reward in itself.

Mr. Jones graduated from Bandera High School in 1961. He replied, "The only difference between Bandera schools when I was enrolled and now, is the size. There were 28 seniors in my graduating class." Mr. Jones remarked how much fun it was to meet students whose parents he went to school and participated in athletics with.

You can always find Mr. Jones with a vigorous smile and a warm glow, but there is more than meets the eye. In February 1979, Mr. Jones was diagnosed with an acute case of leukemia. Although he was given 2 years to live, today, 2½ years later, he seems to be incredibly fighting the disease. he has visited Health classes at BHS and delivered inspiring and informative discussions about leukemia and death.

You will be seeing Mr. Jones, roving Bandera school campuses throughout the year with his camera and his winning smile.

Teens For Christ

By Toni Byam

Teens for Christ held their first meeting November 14, at Coach White's house. The turn out of the meeting was great when over 40 students attended.

Sponsors for the club are as follows: Mr. Charles Graves, Mrs. Joanne Caloss, Coach Tim Lukachik Coach Lynn White, Mrs. Ruth White, Mrs. Kathy VanderZee and the head sponsor is Mr. Charles Jones.

The first activity planned is a trip to San Antonio, December 12, for a Spurs game. Transportation will be available. The next meeting will be held again at Coach White's house. There will be a covered dish dinner for all members and afterwards the girls will stay all night for a retreat.

All members will have a chance to purchase a T-shirt or jacket representing our club and high school. The cost is $4 for the T-shirt and $21 for the jacket. Orders can be placed with any of the sponsors.

Any of the activities are open to any student and their parents. Please feel free to come and bring a friend.

On Giving Thanks

Throughout the house smells of roasting turkey and freshly baked pumpkin pie drift upon the air amidst the sounds of pregame football commentaries and shouts of children at play. To most people this could only mean one event, Thanksgiving.

In days past (before television and, for that matter, radio) Thanksgiving was a day to give thanks to God for all His blessings of the past year. Not to say that thanks are not given today, of the old ways is gone. Thanks is indeed given; thanks is given for not having to go to work or school.It is given because the turkey is not tough or the Jello is not runny, but is this the true meaning of Thanksgiving?

When you find yourself seated among your family and friends and your father asks you to return grace, why not really shock them and give thanks for something more than the state of the meal.

Prose For The Pros

By Dana Beman

November 19th, 14 well-prepared students clammered onto the bus with high hopes to do well at their first speech tournament of the year which was held in San Antonio at MacArthur High School. The students were entered in such categories as Duet Acting, Prose, Poetry, and Humorous Interpretation. Evidently their hard work and high hopes paid off; Karrie Oehler placed third in the finals on Prose and Elizabeth Walters placed third in the semi-finals which was also in Prose.

As one of the students proceeded onto the bus, I heard her exclaim, "Oh! Boy! Is this ever going to be a fun trip!" Yes, it was a "fun-trip." Several of the students recited their selections to eager listeners who were more than happy to give a helping hand while a few of the others relaxed and tried not to be nervous. Their sponsor, Mr. Baird Neville, emphasized the point of doing well and still having a good time because this was also a learning trip.

As the students journey caom to an end, they all concluded that the trip was time well spent and that they enjoyed meeting new and exciting people and going to different places. They hoped to do better the next time.

Kiss Me!

ISSING BOOTH

The Great American Smokeout Kissing Booth is manned by Student Council members Danny Spangler, Lisa Vakey, and Robin Chapman.

By Linda Muller

November 17th kicked off the Student Council's campaign in Bandera High School against smoking. The Bandera Chapter of the American Cancer Society asked the Council to help them sponsor the Great American Smokeout in Bandera by promoting it in the high school.

Student Council set up a "kissing booth" in the cafeteria and Hershey kisses, in place of actual kisses, were handed out to participating students. In order to obtain a "kiss" a student must sign a statement saying that he or she either would not smoke on November 19, the Great American Smokeout day, or would convince another smoker not to smoke on this date. The kissing booth fit in well with the motto of the Great American Smokeout campaign which was "Kiss me, I don't smoke." Overall, Student Council is happy with the success of the non-smoking drive, and fells that the kissing booth strategy added to the good outcome of the project.

ball game. We played sloppy and had a lot of tournovers, which is to be expected the first game of the year. Going into the 4th quarter we were only ahead by 8 points but we blew Harper away in the final quarter only because we were well conditioned. Our practice consisted of a lot of running which helps us in the latter part of the game. We hope to improve each week, and with a few breaks we can have a fairly good year," commented Coach Kevin Long.

JV also played and was defeated by Devine with a score of 59-35. Terri Butler and Christine Fleming were both high point scorers for the game.

New Decal Must Be Displayed

State Comptroller Bob Bullock warned that vehicles using liquified gas must display a new tax decal by January 1, 1982.

Bullock said legislative changes in the LP gas law will permit his office to tax vehicles on both weight and mileage and decals should cost less for those who drive fewer miles.

An LP-powered vehicle cannot legally be refueled or pass state vehicle inspection without a valid tax decal.

Fuel tax decals range in cost from $36 a year for a vehicle driven less than 5,000 miles annually and weighing less than 4,000 pounds, to $300 for a vehicle weighing over 63,501 pounds and driven more than 10,000 miles a year.

Bullock said renewal notices to owners of LP-powered cars and trucks are being sent out by his office, and decals are available from the comptroller's field offices and at the agency's Austin office.

Bullock estimated that there are more than 40,000 liquified gas powered cars and trucks in Texas.

The motor fuels tax on LP gas brings in about $4 million a year in tax revenue.

Optimist Club To Hear

The proposed Optimist Club of Bandera held its initial meeting on Tuesday, November 17th at the Flying L Ranch. After hearing from members of the Optimist Club of San Antonio as to how an Optimist Club can benefit Bandera, the first charter members declared their intentions to join. Bob Cowan, Raymond Hicks, Al Evans, Gene Paradee, and John Slocomb were the initial group to become charter members in a goal toward a minimum of 20.

Last Tuesday at noon the guest speaker was Mr. Richard Grant, director of Social Services of Youth Alternatives, Inc. of San Antonio. Mr. Grant explained that youth in crisis do have an alternative and told how Youth Alternatives gives this choice.

Next Tuesday, December 1, the speaker will be Mr. Julian De La Rosa, the Assistant Special Agent in charge of the San Antonio office of the Federal Bureau of Investigation. His topic will be "Taking The Ring Out of White Collar Crime." Mr. De La Rosa will speak specifically on white collar crime as it affects the citizens of Bandera. All prospective Optimists are invited to attend the meeting to be held at 12 noon at the Flying L Ranch next Tuesday, December 1. Ladies are always invited to attend any Optimist meeting.

Save Money On Required Insurance

Texas drivers will soon be required to have auto liability insurance — but those not currently covered can save money on their purchase.

The new compulsory liability insurance law goes into effect January 1. Every time Texas drivers are stopped for traffic violations or are involved in an auto accident investigated by law enforcement officials, they will be required to show proof of liability insurance coverage. Drivers will have to be covered for medical expense of $10,000 per person ($30,000 for two or more persons) and property damage of $5,000.

But most Texas drivers can save ten percent a year for three years on this insurance cost by enrolling in and graduating from the National Safety Council's Defensive Driving Course (DDC).

Administrated in Texas by the Texas Safety Association (TSA), the eight-hour course is taught by more than 600 agencies across the state. Many large employers teach the course to their employees. To find a DDC agency near you, consult the Yellow Pages for Driver Improvement or Driver Education.

Graduates of the eight-hour course who are insured by rate-regulated companies are eligible for a ten percent premium reduction in insurance for three years on liability, bodily injury, property damage, medical payments, personal injury protection and collision coverage. In all cases, drivers will find the first year's savings are more than the $15 fee usually charged for the course.

If you are unable to locate a DDC agency near you, call TSA at (512) 451-7421.

If the divorce and remarriage rate continues, there may be a generation of step-children that may raise another generation of step-children with very little educational help in doing so, says Diane Welch, a family life education specialist.

Welch is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Take Sight Precautions

Harry Flores, above, could have been the victim of a tragic accident if he had not been wearing safety glasses during a recent hunting trip. He was target shooting when his 45-caliber lead bullet ricocheted off of a tree back toward him. It hit his safety glasses and was deflected, averting a tragic and possibly blinding accident. The Texas Society to Prevent Blindness applauds Flores for his safety foresight and urges more hunters to wear protective eyewear when hunting.

Shoppers Holiday Jubilee

The Bandera Bulletin

VOLUME 37, NUMBER 21 | BANDERA, BANDERA COUNTY THURSDAY, DECEMBER 3, 1981 | 25 CENTS PER COPY

Trading Post Burglarized

The Diamond T Trading Post on Main Street in Bandera was burglarized early Monday morning, November 30. The safe was broken opened, but only $40 to $50 of change was kept there and it was taken. Among other items taken were 36 shirts, 5 suede vests, one pair brown boots, one pair grey boots, 50 silver rings with turquoise settings, 5 gold plated horseshoe rings, and 6 to 8 sweaters. The burglary was discovered at about 3:30 a.m. by city police.

It's Shoppers Holiday Jubilee Time!

Today's the day—Thursday, December 3—the day for a parade, carol singing, lighting the courthouse Christmas tree, seeing Santa riding on the fire truck and getting goodies from him at the banks. . . and all sort of fun-things.

Be sure to be in downtown Bandera by 5:30 p.m. to see the parade, which starts off the big celebration.

Remember that local merchants will have their stores open from 5:30 to 9 p. m., so do drop by to visit. You won't want to miss one!

See you tonight!

And They Say The Post Office Is Heartless . . .

We all fuss about the Washington bureaucrats who've messed up the Postal System — computers have replaced people and no one cares about service anymore.

Take heart! There are still employees at the Post Office who care about serving the public.

One of these is Pipe Creek Postmaster Carmen Haynes. She drove her car to Bandera (bet Uncle Sam didn't pay for the gas) on Wednesday, November 26, to pickup the Bulletins for subscribers in the Pipe Creek and Lakehills areas.

The next day was Thanksgiving, a Post Office holiday, and she knew if she waited for the carrier to bring them, those she serves wouldn't get their weekly papers until after the holiday.

We tip our hat to Carmen!

Russian Hog Killed

Friday evening, November 27, E.C. Whitehead, Sr., (1) killed this 186 pound Russian hog at his ranch near Medina. The animal was fat and in good condition.

Also pictured are E.C. Whitehead, Jr., and Lionel Kinsey.

Notice Of Meeting

The Board of Directors of the Bandera Independent School District will meet in regular session on Tuesday, December 8, at 7:30 p.m. at Bandera High School.

Game Violators Apprehended

On Sunday, November 29, approximately 150 pounds of venison, most of it already processed, was seized in 17 separate violations of state game laws by Game Warden Carleton Becker (1) and Deputy Game Warden Beauford McCarter. The meat filled the trunk of this car.

CHRISTMAS IN BANDERA
By Jake Short

"Twas three weeks before Christmas and all through the town
The people were frantically stirring around.

Decorations were hung all about with great care,
In hopes that the judges soon would be there.

The merchandise was placed on shelves by the hoards,
While crowds of customers pushed through the doors.

As customers spent their hard earned dough,
Merchants wrapped the goodies with ribbons and bows.

When out in the street there arose such a clatter
We dashed from the store to see what was the matter.

When, what to our wondering eyes should appear,
But an astounding parade, without any reindeer!

While stunned by the shine, and the fire truck's noise
We saw Saint Nick, with lots of toys.

So off to the banks the engine flew
With a truck full of goodies and St. Nicholas too.

And then in a twinkle we heard down the way,
The singing of carolers, which made our day.

In front of the courthouse we were amazed to see,
What was a very real nativity scene.

With all of the festivities and bargains in sight,
"A Merry Christmas to all and to all a Good Night."

Ashley Rugh Succumbs

Ashley M. Rugh, Sr., died in a San Antonio hospital Tuesday, December 1, after a long illness, at the age of 73 years.

A Bandera native, Rugh was a well-known civic leader. He served for eight years as county commissioner, was an active member of the Bandera County Chamber of Commerce, the Masonic Lodge, and the Bandera United Methodist Church. For 32 years he and his wife owned and operated the Texaco service station in Bandera.

Rugh was the son of Charles and Mila Huffmeyer Rugh. His grandfather, Daniel Rugh, came to Bandera in 1852 and was one of the founders of the town and of the local Methodist Church.

In July 1961 Rugh and wife, Meleese, were named Outstanding Citizens of Bandera County by the commissioners court.

Funeral services will be held at the Bandera United Methodist Church at 2 p.m. tomorrow, Friday, December 4, and burial will follow in the Bandera Cemetery.

Among his sorrowing survivors are his widow, Meleese Allen Rugh of Bandera; two sons, Ashley M. Rugh, Jr., of Helotes and Ronald Rugh of Temple; a brother, Charles P. Rugh of Bandera; a sister, Mary Bills of Houston; and five grandsons.

Auto Accidents Mar Holiday Weekend

Becky Rodriguez of Bandera was killed instantly Saturday morning when the late-model sports car she was driving overturned. The accident site was on SH 16 east of the Red Bluff Crossing. The highway was damp in spots at the time and Mrs. Rodriguez lost control of the vehicle while rounding a curve. The car drove up the side embankment, turned over on its top and slid to a stop.

A 22-year-old Tyler man was seriously injured when the pickup truck in which he was a passenger overturned five times. The accident took place at the Tarpley Pass on the Tarpley Road about 12:30 a.m. November 27. Bandera County EMS treated Kyle Helbig for multiple injuries and transported him to Sid Peterson Hospital in Kerrville. There he was treated and then placed in ICU for several days.

A Center Point woman was injured in a one-vehicle accident near the Privilege Creek crossing on SH 16 Saturday afternoon, November 28. Betty Strickland said she was lighting a cigaret when she lost control of her car. The car crossed onto the roadway under construction and climbed the bank, where it came to rest. Bandera County EMS transported her to Sid Peterson Hospital in Kerrville for treatment.

TERRY JOE MORROW, serving on the bank board that serves the People of Bandera County.

Terry Joe Morrow, with his wife, Jacque, came to Bandera in 1977 from the Rio Grande Valley. The Morrows have reared two children here in Bandera and are in the process of rearing their third, Lynette, who is now pre-school. Terry and Jacque fell in love with Bandera because of its pleasant Hill Country atmosphere and the strong individualism of the people. As far as the First National is concerned, Terry states, "An independently owned and operated bank is good for the community. It is the philosophy of the First National Bank to serve the people of this community and to set a strong example of independent banking."

Optimists To Hear About STNP

Guest speaker for the Optimist Club Monday, December 7, at the Flying L Ranch will be Mike Hardt, engineer in the Energy Systems Planning Group of the San Antonio Public Service. Since there has been a great deal of controversy over the South Texas Nuclear Project, this presentation should be both timely and interesting.

Last Tuesday, those in attendance heard an outstanding talk from Al Robinson of the San Antonio FBI office.

The charter membership roster stands at 11 for the proposed Optimist Club of Bandera. All prospective Optimists are cordially invited to attend next Monday's meeting at 12 noon at the Flying L Ranch. Ladies are always invited.

Lakehills News

Helen Temple — 751-3185

From beautiful Lakehills comes the thought for the week: Every busy housewife should kick off her shoes, lie down on the sofa and daydream for a few minutes each day.

AROUND LAKEHILLS

MLVFD

The MLVFD gratefully acknowledges donations from Carrol Snider, Robert F. Lich, F.E. Thornton, Leonard G. O'Neill, Emilio B. Paniagua, Charles E. Willingham, Leo A. Schott, Maurice M. Baird, John W. Kelly, Mr. and Mrs. Charles A. Palmantier, Fred D. Palmer and William C. Wiederhold.

It Was A Bell

The celebration of several November birthdays and the golden wedding anniversary of Gene and Martha Squires will be a conversation topic and a nice memory for the 75 guests who attended. Besides a buffet and birthday cakes there was a sing-a-long with Oscar Kuehne of SA at the piano.

The Guest List

Mr. and Mrs. Joe Reyna of Angleton and their grandchildren, Tony and Tana Flores, of Houston were the holiday guests of the Pat Godkins. Other guests were the Jim Logans of San Geronimo.

Church, Millie, Teri and Tracy of Big D were holiday guests of H.T. and P.R.

Other Guests:

Mr. and Mrs. Otto Hahn of Hamler, Ohio, Mr. and Mrs. Lester Hahn of Austin, R.C. Schott of El Paso, Minnie Hoehle and Ridley Mannink both of Hondo and Randy and Debbie Schott were the holiday guests of Mr. and Mrs. Rudy Schott. It was a beautiful holiday for the group.

J.R. Bags A Turkey

James Schott of Austin and grandson of the Rudy Schotts visited his grandparents over the holidays. He bagged a wild turkey which weighed 15 pounds dressed out.

The Fishermen

In a recent bass tournament near Pop's Place, Nick Hans brought in 9 pounds, 4 ounces, Sid Brisco trailed with 7 pounds and Sherly Sutton caught 6 pounds and 1 ounce.

Birthday Candles For M.P.

A birthday cake with pink and white decor and a buffet was the order of the end of a beautiful day on November 25 for Marie Pickett at Gene and Barbara Ott's Cedar Lounge. Members of the Monday night Munchies Club came to with Marie a happy birthday.

Annual Event

The American Legion of Lakehills, in conjunction with the local churches, will host their annual Christmas Eve dinner at the Legion Home. If you need a ride to the home or need someone to deliver your dinner, call Commander Ray Mauer or Auxiliary President Barbara George. Bring your children—Santa will be there.

Evelyn's

Evelyn will open her restaurant December 4. See ad elsewhere. The rumored that Judi, Doris and Claire will be there to greet old friends Evelyn's was formerly the Lakehills Inn. It has been remodeled.

A Work Party

Hammers, saws and buzzing machinery was the order of the day at the American Legion Home on Saturday. To be commended are Sandy and Randy Akin, Commander Ray Mauer, Ralph Willis, Leon Salzman, Gene Lane, Billy Mooney, William Colley, Norris Dohrow and Carson Wilkinson. These volunteers gave up their Saturday. They put up facia and soffit boards at the Legion Home.

Thank You Note

We wish to thank our relatives, neighbors and friends for their support and assistance when our home burned. It was a depressing thought to see our home going up in flames and wondering where we would spend the night and what we would do afterwards. Thanks to all of you for the food, cash donations, furniture, clothing and the Saturday benefit. May God bless each of you.

V.C. and Shirley Jones and children.

Her paternal grandparents are Mr. and Mrs. Melvin Rihn of Mico and her maternal grandmother is Mary Lou Holbrook. Bradley James is the baby's 3½ year old brother.

Together 35 Years

Mr. and Mrs. Melvin Rihn of Mico were honored on their 35th wedding anniversary with a party at the home of their son and daughter-in-law, Mr. and Mrs. Donald Rihn (Shirley), in San Antonio on Monday, November 23. For once Pat Perkins of Mico was speechless when she walked into the Hilltop Restaurant Sunday evening. Twenty-seven friends began to sing Happy Birthday as she opened the door. A buffet and a birthday cake were served. The party was hosted by Katie Hager, Melvin and Mildred Rihn.

Burger - Gossett

Photography by Evans

Mr. and Mrs. Lesley Ray Burger

The First Baptist Church of Medina was the setting for a double ring wedding ceremony for Shannon Lynn Gossett and Lesley Ray Burger on November 21, Rev. Bill Moseley officiated.

The bride is the daughter of Ben Gossett of Ft. Lauderdale, Fla., and Joyce Gossett of Dallas. The groom's parents are Mr. and Mrs. Jesse Ray Burger of Medina.

Given in marriage by her father, the bride wore a Victorian-style gown of tulle, adorned with venice lace. The bodice, accented with lace and seed pearls, featured a high Victorian collar of lace, with the long, sheer sleeves, ending in wide lace cuffs at the wrist. The three-tiered, chapel length train extended from the waist with each tier edged in a ruffle of lace. Her finger tip veil fell from a Juliet cap of lace and she carried a bouquet of cascading white silk roses, with a sprinkling of tiny blue primroses, and long white satin streamers. She wore her grandmother's pearl earrings, her only jewelry.

Cammie Burger, sister of the groom, was maid of honor. She wore a baby-blue sleeveless gown. Her bouquet was a cascade of trailing English ivy and blue silk roses, with blue satin streamers.

Tiffany Baker was flower girl and her gown was identical to the maid of honor's. She carried a basket of blue and white silk roses and baby's breath.

Bobby Burger, brother of the groom, served as best man and Jeffery Welty, as ring bearer.

Candle-lighters were Daryl Burger and Troy Baker. Craig Kinsey and Jerry Welty served as ushers.

For her daughter's wedding, the bride's mother chose a gown of sky-blue velveteen and her corsage was of baby blue carnations.

The grooms mother wore a dress of light royal blue shantung, with a corsage of white rosebuds.

The reception was held in the church fellowship hall, with Tracy Baker attending the bride's book.

The three-tiered wedding cake decorated in white and blue and topped with a bride and groom set in a lace gazebo, was served from the bride's table by Sue Burger and Loretta Thrane.

The groom's cake, a red-velvet layer cake decorated in mocha and burgundy with a cluster of crystal grapes, was served by Becky Mayor and Louanna Sides.

For traveling the bride chose a street length off-white dress with long sleeves and a narrow gold belt.

The couple will reside in Medina.

VFW Auxiliary Report

In reporting last week from the VFW Post and Auxiliary 8178, we lead you to believe that the bedspread was crocheted by one member. The bedspread was made by many members in the auxiliary and put together by Betty Anderwald, and the afghan was made and donated by one member and the ceramic wild cat donated by one. It was such a big task to take on. It was the idea of Gloria Cummings to have the members make this spread, and we do want to thank every member that helped this project become a success.

FANCY THAT'S

One of the most efficient converters of protein is the milk cow. About 90 percent of the fodder a cow eats becomes extremely nutritious food for people.

The most efficient protector of milk's vitamins is the paper carton. A gallon of milk gives you more vitamins in a paper carton 2-pak than clear plastic or glass jugs. The 2-pak is two paper half-gallons joined together by a handle and sold as a gallon package. The paper carton preserves the milk's nutrition by protecting it from exposure to the store's dairy case lights, a thief of valuable vitamins, according to scientific studies.

Senior Citizens News

The Senior Center will be well represented at the Holiday Shoppers Jubilee Thursday night. The minibus and participants will be in the parade. The Memory Lane Melodiers will be singing at the courthouse square, with many others from the community, and also caroling at other locations during the evening.

In addition, there will be a display of senior's crafts and paintings at Gill Savings, the old Callaghan house across from Clint Dowell Chevrolet.

After participating in the Holiday Shopper's Jubilee there comes another exciting event: the December birthday - Christmas party at the center. So put 12 noon, Tuesday, December 8, on your calendar and join the fun at the covered dish dinner. In addition to Happy Birthday, Christmas carols will be sung, and Vernell Mullenax will tell a new Christmas story. No gift exchange at this time; that feature will be incorporated in another party to be announced later.

To be sure the center is adequately adorned for this joyous season, please drop by on Monday, December 7, to help arrange the new supply of Christmas decorations in time for the first party of the season. Bring your own decorations to give or lend, to add to the atmosphere.

If all goes according to schedule, you may hear the first of several broadcasts by and for seniors on Station KQRK, this weekend. Listen for more information on the time, and learn of opportunities in your own community that you may not have known about before.

The Memory Lane Melodiers will meet on their regular second Friday of the month, December 10, at the Senior Center at 7 p.m. for an evening of singing for fun. If you have our latest song sheet, please bring it along.

A&I Offers Scholarships

A university scholars program, which will provide scholarships to students with outstanding academic backgrounds, has been announced at Texas A&I University by Dr. Bill Franklin, president.

The scholarships are another phase of Texas A&I's "Excellence in the '80s" program, which was initiated last year.

The new program will provide scholarships for two freshmen students in each of the university's five undergraduate colleges.

Ten new scholarships will be available annually. Each is for $4,000, payable at the rate of $500 each semester until graduation as long as a 3.0 grade point average (on a 4.0 scale) is maintained.

Applicants for the scholarships must have a minimum score of 25 on the ACT or 1100 on the SAT, must show promise of success in the major field as determined by tests and the selection committee, must have made a scholastic record that would justify consideration for a scholarship and must be in the upper quarter of his or her graduating class.

"We believe that the intellectual vitality of any university depends essentially on three things: the academic quality of the students, the quality of the faculty, and the resources that are available to support the teaching-learning process. This university scholars program is designed to attract some of the academically most capable students in the state to our university as a means of enhancing the quality of education we provide for all our students," stated Dr. Franklin.

Donations from six businesses, totaling $40,000, have allowed the program to be initiated.

Applications for the scholarships may be secured from high school principals or counselors, or by writing the Vice President for Academic Affairs, Campus Box 182, Texas A&I University, Kingsville, TX 78363.

Bulldogs Brand Palominos

By Sandy Riedner

Paw prints were left all over the new Natalia gym as the Varsity girls were victorious over the Palominos with a score 69-34, November 26. This was the Varsity's fourth game of the season making their record 3-1.

The Bulldogs overtook Natalia early in the game with a half-time score of 33-13, and kept their lead throughout the game. Teamwork was shown at its best as each member contributed at least 2 points to the over-all score. Dey Romo was highpoint, scoring 15 points. Other players scoring were Teresa Welch — 13, Sandy Riedner — 9, Diane Mangold — 7, Christine Caloss — 7, Tina Doebbler — 4, Mary Bolan — 3, Kathy Ryan — 2.

Dogs Down Mustangs

By Toni Ryan

Tuesday night featured a perfect application of both offensive and defensive play as the varsity and junior varsity romped Natalia Mustangs 59-46 and 56-44.

Varsity play going into half-time left the score at 34-34. But Bandera outscored Natalia 13 to their 5 points in the third quarter.

High point man for the varsity was led by Jim Bob Robbins with 13 points. Leading rebounders were David Edwards and Trey Shackelford with 14 rebounds each. These boys were also close behind Robbins with 11 and 9 points respectively.

The JV victory wasn't as hard fought. The Bulldogs could smell their victory in the first half. At the half the score was 31-15.

Leading scorer for the JV was Jonathan Graves with 13 points, followed by Chuck Ford, Heath Hulse and Steve Parker who all managed to score 10 points apiece. This made for a well-balanced offensive attack for the Bulldogs.

Victories over the Mustangs brought our record to four wins and no loses for the varsity and two wins and no loses for the JV.

Bouncing Spirit

By Holly Gabel

Cheering their way into basketball season, the 1981 cheerleaders are keeping mighty Bulldog spirit alive.

With the conclusion of an exciting football season, the cheerleaders are fired up and ready for the victorious basketball games that are anticipated by all Bulldogs fans. Rousing preparation, such as locker decorating, sign painting, and hard practices are constant.

At every home game blue and white uniformed players and cheerleaders can be viewed in action. Jumps, cart-wheels, and stacked up spirit appear during each quarter and at half time.

Enthusiastic chants can be heard far and near, while Bulldog supporters rally around their favorite team hoping for a victory.

As the game clock "ticks off" the final tense seconds, the cheerleaders demonstrate good sportsmanship in victory or defeat.

Bulldogs, how about a S-T-R-I-N-G of wins?

Have A Ball At Our Tournament

By Linda Muller

Are you tired of the same old entertainment in Bandera? Is your wallet getting thinner with the expenses of dragging Main? If so, hop in or on your car, bicycle, truck, or horse and head on down to the Bandera High School gym tonight or tomorrow night where you can watch some exciting basketball games for only 50 cents each if you are a student and one dollar-sixty if you are oh adult.

If planning to attend all or almost all of the games, a good money-saving idea would be to purchase a tournament pass for a price of $2.50 for students and $5 for adults. These passes can be purchased at the high school office or at any of the banks in town.

The first girls' game of the tournament will be played at 2 p.m. Thursday afternoon. High school students will be dismissed early this day in order to watch the game and support the Bulldog team. The first Boys' game will be at 8 p.m. Thursday. Come on out to our games and support the Bulldogs on their way to victory in the tournament.

Best Legs At BHS

By Charles Newcomer

After a full week of trying to figure out whose legs were whose, voters now know the people to which the legs belong.

For a week now students have been casting votes for sets of "mystery" legs.

Pictures were placed in a show case in such a way that only the legs of the persons were revealed. Then students had the opportunity to vote on the best pair.

Votes were cast by giving a nickel for a positive vote and a penny for a negative vote.

The winners were announced on December 1, and they were 1st place — Coach Kevin Long, 2nd place — Danny Spangler, 3rd place — Randy Mauer. Other contestants were Danny Sab, Evan Word, Robert Briseno, Mary Knuepper, Donna LeStourgeon, Sylvia Ann Fuentes, and a Bulldog named Fancy.

What Does UIL Have To Offer

By Wendy Frazier

What does UIL have to offer? Probably more than one would think. There are so many different areas in UIL competition that you couldn't begin to count them all. And the contests are a great challenge to the students who participate.

UIL competition includes such areas as sports, one-act play, music, science, math, writing, and speaking, with various fields under each one.

These contests develop such things as common sense, mental concentration, and personal and physical discipline, just to name a few.

UIL competition also benefits the students by helping with regular school studies. Moreover, students who participate learn to work under pressure, which helps in many ways.

In summary, students benefit in more ways than one by competing in UIL competition.

Bobcats Are Tough Opponents

By Dey Romo

In a battle between the Comfort Bobcats and the Bandera Bulldogs on November 11 in Comfort, JV girls were victorious and Varsity girls were defeated.

JV girls started the evening off with a close win of 39-36. Contributing to the 28 points were Terri Butler with 13, Shannon Hicks and Kelly Kindle with 4 points each, and Christine Fleming with 1 point.

This exciting game was followed by the Varsity game. With a score of 50-70, the Bulldogs surrendered to the Bobcats. Christine Caloss led the scorers with 19 points, followed by Teresa Welch with 15 points. Other contributers were Diane Mangold with 6, Dey Romo with 5, Tina Doebbler with 4, and Mary Bolan with 1.

By Gretchen Jennings

Bandera Varsity boys basketball went into a hard battle against TMI November 14. The Bulldogs came out victorious 51-50.

After the first quarter the Bulldogs were leading 13-8. At the end of the half TMI was ahead 28-27, but throughout the game the score moved back and forth. Finally the Bulldogs pulled ahead to win by one point 51-50.

James Kling was high point with 19 points, Jim Bob Robbins second with 16, and Charlie Robison third with 12. Jimmy Jennings and Charlie Robison were the leaders in rebounds with 13 each. David Edwards was second with 11 rebounds.

Did You Know . . .

One widely used and often unidentified drug is nicotine. It stimulates the digestive tract and nervous system as well as increasing heart rate and blood pressure. You can become dependent on this drug if you use it regularly. As anyone who has ever tried to stop smoking knows, sudden withdrawal can produce symptoms of irritability, aggressiveness, depression and difficulty in concentrating.

A quick and tasty sauce adds some spice to vegetables. Make by beating together half a cup of mayonnaise, half a cup of sour cream and three tablespoons of horseradish.

Antifreeze Is A Tasty But Deadly Poison To Pets

One laboratory confirmed death of a dog due to antifreeze poisoning has already been reported by the Texas Veterinary Medical Diagnostic Laboratory in Amarillo.

Although cooler temperatures hit the Texas Panhandle early, other parts of the state are just begining to experience the chilly winter weather. Consequently, motorists who are draining and adding antifreeze to their car radiators should be reminded that anti-freeze is a tasty but deadly poison to animals, and can result in their deaths.

"Anti-freeze has a sweet taste and is a tempting treat for animals. Consequently, veterinarians in Texas treat numbers of dogs and cats for anti-freeze poisoning each year," said Dr. Ben Johnston, president of the Texas Veterinary Medical Association (TVMA).

"It's probably more common than anyone realizes. An owner may find his pet in a coma or dead and not know what has happened," said Johnston.

A small amount constitutes a toxic dose for an animal — two to three c.c.s per pound of weight for a dog, and even less for a cat, said the TVMA president.

Anti-freeze poisoning accounts for about 15 percent of reported animal poisonings, but many are never reported because owners don't realize what their pet has gotten into.

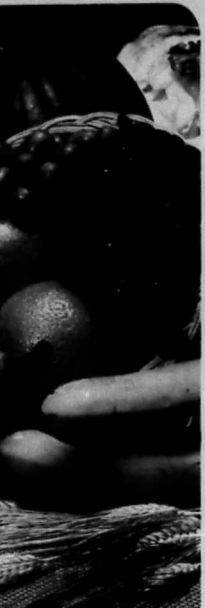

Johnston recommends that old anti-freeze be flushed down the sewer drain since it is biodegradable. Any that has spilled onto the driveway or street should be washed for 15 minutes toward the street drain. No puddles should be left for pets to get into. And no residue should be left behind because the dried crystals contain the poison. The drain pan should also be washed thoroughly.

The substance in antifreeze which animals find tasty is ethylene glycol, a sweetish colorless liquid that also is an ingredient in other compounds found around the house. The toxin also is found in brake fluid, windshield de-icers and wallpaper remover.

Don't forget that ethylene glycol is also a coolant and Texas motorists use it year round. So caution should always be used when disposing of anti-freeze or coolant.

An animal that has ingested any amount of antifreeze will appear drunk. He may be apprehensive, depressed, listless, uncoordinated or wobbly. If your family pet exhibits these symptoms he could be suffering from anti-freeze poisoning and should be taken immediately to your veterinarian. Treatment for anti-freeze poisoning can't wait.

Prevention is always the best medicine though, and the TVMA president urges pet owners and all Texans to use caution when disposing of anti-freeze or coolant.

The Bandera Bulletin

VOLUME 37, NUMBER 22 BANDERA, BANDERA COUNTY THURSDAY, DECEMBER 10, 1981 25 CENTS PER COPY

Now This Is The Big One!

Two hunters on the R.E. Adams ranch near Medina killed this large Russian hog Monday, November 30. C.G. Grigsby, pictured here with his wife, and Richard Dipuccio of Hitchcock killed the animal which weighed 260 pounds dressed. They estimated that it probably weighed about 340 pounds when killed.

Pharmacy Burglarized

A diminutive burglar squeezed through a narrow opening cut in the metal storeroom wall to gain access to Pollock's Pharmacy. Owner George Hohon discovered the break-in Tuesday morning.

After entering the storeroom, the intruder had to push open a door held shut by a bulky, heavy, low file cabinet. From there he broke open the back door of the pharmacy by pulling off a lock.

Once inside the store he took all the supply of "hard" drugs — controlled substances — a small amount of money and one camera and film. Nothing else was disturbed.

The case was investigated by city police officers and a Texas Ranger.

NOTICE

The Bandera Electric Cooperative, Inc., has employed the services of Osmose Co. to do pole inspections and maintenance on its power lines in and around Bandera.

The foreman of Osmose Co. will be carrying a letter of identification from Charles Seale, manager of Bandera Electric Cooperative, Inc. Their trucks are marked with an Osmose Co. emblem.

This company has worked for the cooperative for several years and is very reliable.

Wait 'Til Jan. To Sign Up

Taxpayers who wish to sign up for exemptions for tax purposes are reminded that the period to sign up does not begin until January 1, 1982. Exemptions can be claimed from January 1, 1982 through April 30, 1982.

These exemptions are to be claimed with the Bandera County Appraisal District. Their office is located in the Bandera County Tax Office.

Exemptions to be claimed are homestead, over 65, disabled veterans, disability and agriculture.

Shoppers Holiday Jubilee Proclaimed A Success

The first annual Shoppers Holiday Jubilee brought throngs of people to Bandera last Thursday to sing carols, watch the parade, shop for Christmas, and — for the most fun of all — to visit with friends while enjoying refreshments at the many open houses.

The united effort of merchants at their shops and local residents who decorated their homes produced this successful evening, which was sponsored by the Bandera County Chamber of Commerce.

Many homes and businesses were decorated for the season, and picking the winners was a tough job.

Mr. and Mrs. Henry M. "Pop" Adams won the first place plaque for decorations on their home at 12th and Cedar Streets. Second place was won by the Joe Hearn family at 508 Cedar.

In the business district, Bo's Rodeo and Ranch Shop was chosen for the best western decorations. The traditional category was won by First State Bank. Clint Dowell Chevrolet Co. was chosen winner of the best contemporary decorations category.

Out-of-town judges for both contests were Peggy Clanton of Kerrville, Peggy Ashmore of Lakehills and Laurie Smith of San Antonio.

Because of the response last Thursday many merchants plan to remain open until 9 p.m. December 10 and December 17, both Thursdays for the convenience of Christmas shoppers.

Look for the list of stores which will remain open those days in an advertisement on page 12.

Lamb Shearing Dates Set

All Bandera County 4-H Club members and FFA members who plan to show lambs in the Bandera County Livestock Show to be held January 14,15,16, 1982,are reminded that their lambs must be shorn in order to show.

Lamb shearing will be done at Medina Childrens Home starting at 1 p.m. on Friday, December 11, for Medina entrants, and for Bandera on Saturday, December 12, starting at 9 p.m. at the Bandera Rec. Center.

Bad Weather Plans Announced

In spite of the beautiful fall weather we have been enjoying in the hill country, the time for bad weather is fast approaching. Should severe conditions such as heavy rains, snow, or iced highways occur, parents of Bandera School students should tune their radios to station KQRK, FM 98, in Bandera. It it becomes necessary to cancel school for any reason, this station will broadcast closing bulletins as a public service.

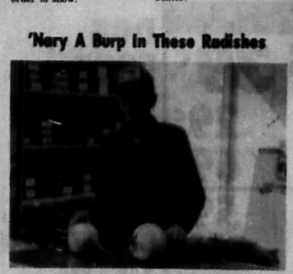

In addition, if it is necessary to dismiss school early due to severe weather, your children should know exactly where they are to go. This is especially true if your children ride a bus. Superintendent Ronald Caloss of the Bandera Public Schools encourages parents to formulate an emergency plan with their children to deal with the possibility of unscheduled early dismissals.

Want To Help

This Christmas would you or your family like to give a present to a needy child in Bandera County? The Spirits of Christmas Presents are collecting new or like-new toys or cash donations to provide Christmas gifts for children of this county. If you have any questions about this neighborhood Christmas program, call Karen Jackson at 796-4870 or Kathy Gardner at 796-4814.

Drop-off points for gifts and cash donations are the Bandera Elementary School Building Room 3, Ron Jackson's office on Main Street, or the Grace Lutheran Church Building on Highway 173. 22-3tnc

'Nary A Burp In These Radishes

Doc D'Spain raised these huge Chinese radishes in the garden at his home on 13th Street in Bandera. He said the largest measured 18 inches around and the other 16 inches. He said they came up in August but began their large growth when the weather became cooler.

Gill Completes Year In Bandera

The Bandera branch office of Gill Savings in September reached a deposit total of $2,690,128, proving it to be an integral factor in the company becoming the fastest growing and most profitable savings and loan in the state.

Approved in late 1979, the Bandera branch moved into its new location in December 1980. It added 50 new accounts for a dollar value of $214,321 this past September. "We now service more than 660 accounts in this area," said branch manager Dan Sandidge, who is assisted in the office by Paula Shackelford, Julie Aguilar, Cheryl Perry and Charlene Adams.

Combined with the new deposits generated in the 11 other Gill Savings branches around the state, the Bandera branch's new accounts helped push the September 1981 company-wide total of new deposits to $23,787,710.

"Our acceptance by the residents of the Bandera area has been outstanding and very gratifying," said chief executive officer Christopher Gill. "Their confidence in our company, along with that expressed by thousands of others over the state, has been a vital factor in Gill Savings' registering of more than a 100 percent growth in deposits for the past year. At the end of September, that total had increased to $245,838,805."

Gill Savings Assn. is a banking, real estate and insurance group whose home office is located in Hondo and corporate headquarters in San Antonio. It describes itself as an integrated real estate organization and has, for some years, been a leader in growth and profit among savings and loans. Presently, it is the most profitable savings and loan in Texas.

Rainfall Report

During November, .96 inches of rain was recorded in the rain gauge at the Soil Conservation office in Bandera according to Millard Schuchart. This is 1.08 inches under the average for November.

During the first 11 months of 1981, 42.11 inches of rain has been recorded.

Largest amounts fell on November 8, (.82) and November 29, (.14). The average for the month is 2.04 inches.

Sales Tax Analysis

During the second quarter of 1981, 167 Bandera County outlets reported $6,179,378 in gross taxable sales, according to a report from the comptroller's office.

Deductions totaled $3,186,801; use tax purchases were $5,586; and the amount subject to tax was $2,968,165.

Two Injured At Pipe Creek

Two Pipe Creek residents were injured when the pickup in which they were riding was struck by a jeep. The accident took place at the intersection of SH 16 and FM 1283 near Jenning's Store.

Merry Patton received head, neck, and knee injuries. Her 14-year-old daughter, Nancy, received leg injuries. Pat Patton, who was driving, was uninjured. Their pickup was hit on the right side by a vehicle driven by Fuzzy Coker.

City Adds To Christmas Spirit

Melvin King busily decorated the front of the Municipal Building before the Shoppers holiday Jubilee held Thursday. This and other Christmas decorations in the business district give the town a festive look.

Get Your Almanac Now

The 1982-83 Texas Almanac has been published by the Dallas Morning News and is now on sale at the office of the Bandera Bulletin. Known as the "Encyclopedia of Texas," this is the census edition.

This "Best Little Reference Book in Texas" provides up-to-date facts and figures about Texas on a wide-range of subjects, which includes history, government, economics, politics, agriculture, education, industry, weather, athletics and natural resources to name just a few.

Featured in this issue will be many articles of special interest, written by experts in their fields. Included is "1980 Census Counts," a look at populations by counties, cities, towns, and metropolitan areas; "East Texas—AChanging Region," a picture of this "laid-back" land awash in growth and evolution; "The First Texans," a chronicle of the early inhabitants of this region from Clovis man to the Caddo tribes; and Lee Milazzo's perspective of Texas writers and books in "Texas Literature."

The Almanac is a useful gift to customers, clients, friends and business associates. Those who receive it, value it and use it, and most of all, remember the giver.

Cost per issue is $4.95 plus 5 percent sales tax.

The Bandera United Methodist Church Sanctuary Choir will present a Christmas cantata "Love Came Down at Christmas" on Sunday, December 13, beginning at 10:55 a.m.

The children's Christmas program will also be held that day beginning at 7 p.m.

The public is invited to both of these services.

Fitzgeralds Attend Convention

Ethel and Cotton Fitzgerald

Two voting delegates representing the Bandera County Farm Bureau recently participated in the 48th annual Texas Farm Bureau convention held November 29 - December 2 in Corpus Christi.

They were Cotton Fitzgerald, president of Bandera County Farm Bureau, and his wife, Ethel Fitzgerald, of Pipe Creek.

Policies directing the state's largest farm organization were adopted by more than 1,300 delegates from 216 organized county Farm Bureaus during this meeting. Recommendations on national policies were also approved. These policies will advance to the American Farm Bureau Federation annual meeting to be held January 10-14 in San Diego.

Speakers featured at the convention included Carrol Chaloupka of Dalhart, Texas Farm Bureau president; Robert B. Delano of Warsaw, Va., American Farm Bureau Federation president; Warren Newberry of Waco, TFB executive director; and Donald Hebert of Waller, TFB secretary-treasurer.

The business session covered the final two days of the meeting. The last order of business was the election of directors and the president. The 1982 president is Carrol Chaloupka.

County leaders also attended several special conferences during the convention. Conference topics included energy, labor, taxes, water, mineral rights and leasing, and Farm Bureau economic services.

This year's youth events winners were Marcy Langridge of Sinton, 1982 TFB Queen; and John Dujka of Rosenberg, Talent Find winner. Named "Outstanding Young Farm and Ranch Couple of 1981" were Steven and Pat Bearden of Santa Rosa, Texas. The Free Enterprise Speech winner was Kevin Wells of Mt. Pleasant and the three runners-up were Catherine Pawlik of George West; Danny Hunter of Roscoe and Jerry Ayers of Crowell.

Bandera County Laws

My great grandfather, first judge of the newly formed 18th Judicial District of Texas (now 21st District) Judge E.F. Buckner, who came from Hernando, MS, to Texas in 1850 and ran for this office in 1856, when the District was organized, from Bexar County, and was elected, signed for his second court, the Docket of the First District Court in Bandera, April 7, 1857.

At that court District One and Two were laid out and laws for their operation of roads, schools and teachers pay agreed upon, Districts 3 and 4 were later designated.

This arrangement held for more than 100 years. Now our County Judge and our two Commissioners who swore to honor The Constitution of The People by the People, have redistricted our County without the consent of the governed.

Under criminal Law that is acceptable; but under our Constitution it is treachery, and the great law of "discrimination" today would forbid its perpetration under "Civil Rights."

How do we like them apples?

Mrs. J.W. Edwards
22-11p

Mrs. V.F. Kaiko had as guests during the Thanksgiving holidays her children, Ken, Janet, Valerie and Rob of Dallas, Donna Kaiko and Greg Glennen of San Antonio and J. D. and Ruth Stovall of Greenville.

Donna received her BA degree from St. Mary's University in 1978 and Master of Arts degree in English and Communication Arts in July 1981. She is employed at Joske's in Public Relations as special events coordinator.

MARVIN HATFIELD, serving on the bank board that serves the People of Bandera County.

Marvin's family moved to Medina in Bandera County in 1908. Marvin was only four at the time so it's only right that he has always called Medina and Bandera County home. He became a Director at the First National Bank in 1971 and has continued to serve since that time. As Marvin puts it, "The job is interesting. It gives you a good feeling to help people over their financial problems and to make a contribution to the growth of the Community." It is Marvin's strong belief that it is part of his duty to see that the Bank remains financially strong and that the depositors continue to get the service they deserve.

Lakehills News

Helen Temple — 751-5185

From beautiful Lakehills comes the thought for the week: Criticism is an unpleasant certainty for most of us.

AROUND LAKEHILLS

Christmas Eve Aftermoon

Plans have been finalized for the annual Christmas Eve dinner which will be served at the Legion Home from 3 to 4. This annual project is sponsored by the Lakehills American Legion Post 410 and the local churches. Everyone is invited. Those who are shut-ins or unable to drive, call Commander Ray Mauer or Barbara George, president of the ladies auxiliary, if you wish to have your dinner delivered. Santa will be there.

The Auxiliary In Action

Laura Bennett, Barbara George, Jerry Mauer, Eleanor Laue and Ruth Cowley of the American Legion Post 410 set up the gift shop for the veterans at the VA Hospital Friday. This task includes sorting and arranging the merchandise for easy selection. This annual service is provided by the auxiliary units of the district. On December 10 another group of auxiliary members of the LH post will be on hand to assist the veterans with selections and wrapping the gifts for mailing. There is no charge to the vets. The auxiliary pays the postage.

Back To Basics

The Legionnaires and the Ladies Auxiliary to Post 410 will meet at the Legion Home at 8 p.m., Sunday, December 13 to trim the Xmas tree. This year it is back to basics. Cranberries and popcorn will be strung and handmade ornaments will be hung on the live tree. All participants are asked to bring chips and dips, needle and thread, and help.

Guest List

Attorney Tom Devine of Philadelphia was a guest at the LHUMC Sunday. Tom is the father of Rev. Jeanne Devine. The Revs. Roy and Constance Wahl of SA were also guests. Debbie Buch of New Braunfels was the weekend guest of Patricia Godkin. Kathie Wilson of Waukesha, Wis. is the guest of her father, Paul Wilson. Mr. and Mrs. Jim Murphy of Dallas were the recent guests of the Harley Odoms.

Carols For J.W. and A.B.

The LHUMC choir sang Christmas carols for Jeffie Waterman and Alma Bradshaw at their respective homes Sunday evening. Jeffie and Alma have been ill for sometime; however they are doing will and on their way to recovery.

It Was A Large Crowd

A large crowd turned out Friday at Evelyn's to give her a Lakehills warm welcome. There was conversation, good food and Milton Hise who did some pickin' and singing.

English Christmas Music

Our own Rev. Jeanne Devine sang with a choral society Sunday afternoon in SA which presented English Christmas music at St. Andrew's Episcopal Church. Guests from Lakehills attended.

Condolences

Condolences are extended to the family of Galen Berkley who died Saturday evening. Lakehills will miss Galen who was held in high esteem by all who knew him.

This Is The Way

For an exciting life—hop a jet in Germany, call your sister Jan Slove in Pebble Beach and ask her to meet you at the Flying L in Bandera for lunch and a visit then jet off to Pasadena to attend a Mickey Gilley dance. 'Twas an exciting day for Jan who had just received word that her son Bill, Jr., had made 2nd Lt. and platoon leader at the military academy which he attends in N.M.

Guess Who?

LHUMW Meet

"Come as a Child," a Christmas program was presented by Lakehills United Methodist Women on December 2 at the church. The account of the birth of Jesus was told in scripture and narrative by Irene Zigler, Blanche Lloyd, Era Wilkinson and Alice Smart, in song by the rendition of two Christmas hymns by Rev. Jeanne Devine and with Alice Lundblad, Melissa Schneider, Olive Ziegler and Tussy Neumann completing the manger scene. A special meeting of the UMW will be held on December 16 to put up the tree and decorate the fellowship hall for Christmas. Joyce DeSalme was welcomed as a member of the group and Duna Walton as a guest. All members participated in furnishing special refreshments for each December meeting and they were enjoyed by 16 members and our guest.

A Birthday Party For Louise L.

Louise Letcher was honored on her 90th birthday recently at the home of her daughter and son-in-law, the Harley Odoms. It wasn't easy but the Odoms managed to keep the afternoon party a complete surprise from Mrs. Letcher. After the guests sang the happy birthday song, David Odom pinned his grandmother with a corsage. Coming especially for the happy occasion were Evelyn Wright, a niece from Houston, and grandson Tim Odom of Dallas. Forty

I wish to thank all the many musicians from San Antonio, Kerrville, Medina and Bandera for playing the music and participating at the benefit dance held for me at the Cabaret November 29, and to all those friends who attended the dance.

My special thanks go to Cotton Griffin, Gene Fuller of the Pickin' Parlor Music Store, Randy Thaler and Arkey Blue. Also special thanks to Tom and Mary K. Andress from the Copper Lantern at Wharton's Dock.

Thank you and God bless you.

Remember! Emergency number for fire, ambulance or sheriff is 796-3771.

Don't forget. Saturday, December 12, at 10 a.m. is election day at the Lakeshore VFD, to choose officers. All members are urged to attend and vote on their choice for officers to serve in 1982. There is still a great need for new equipment and other improvements in the fire department, so choose your officers carefully.

Coming for a few days at his lakefront property, Bill Burge was joined by his son, Dave, and friend, Larry Parks. Dave and Larry went on to Uvalde for some hunting. Bill is sticking around to enjoy the lake view.

From a telephone call Monk and Lucille Searcy and Mary K. Andress had with Fleda Jo and Jim Searcy at their home in Athens, it was learned that Jim is doing well and gaining strength. Hope you continue to progress, Jim.

Ellie Coffey is under medical attention at Wilford Hall Hospital, and Ronnie Searcy has the flu. We hope you both get well soon.

A benefit will be held for Jim Searcy at the Copper Lantern on Sunday, December 13. There will be barbecue, potato salad, beans, and all the covered dishes brought by the ladies at Lakeshore. Be sure to come.

Mattie and Slim Sanford are back from Dallas, after visiting their children. While there, they visited Fleda Jo and Jim.

Ronnie Keller came to see his mother-in-law, Mary K. Andreas, and Tom Andreas. His wife, Bonnie, and son, Ronnie, Jr., couldn't make it from Kerrville because of the fog, so they visited with her father, Bruce Cherry, and Barbara.

We are sorry to hear of Lester Coffey's mishap. Hope the bruises heal quickly, Lester.

The fishermen were here over the weekend for their bass tournament. We got word they had some good catches.

There was a good turn out at the monthly covered dish supper at the Copper Lantern last Saturday evening. Dickie Andreas furnished the barbecued ribs.

Larry Marchand, son of "Hondo," has just returned from a two-week trip to Hawaii. Larry said he had a wonderful time, but was still glad to return home.

Ida Klaus and sister, Dolly Sarran, were back after a two-week absence in San Antonio. Dolly will be departing again for a two- or three-week trip to different destinations in south Texas.

There hasn't been a great deal of news on the deer hunts lately. A large "spike" was brought in over the weekend, but not much else has been reported.

There will be an open house at the fire department on December 19, from 4 to 6 p.m., with tamales, hot eggnog, compliments of the LVFD. Other drinks will be available to purchase. Everyone is asked to bring a plate of snacks — chips, dips, sandwiches and other Xmas goodies. This will be a come-and-go party and it is hoped that Lakeshore community residents will stop by.

Adult Education Courses Offered

Openings are now available in the adult education courses taught by Anne Mauldin from 7 - 10 p.m. Monday and Wednesday evenings at Bandera High School.

The courses are designed to prepare students for the General Educational Development (G.E.D.) tests of high school credit, and they are structured to meet the needs of individual students. Instruction will be given in math, writing skills, reading, social studies, and science.

In addition to the G.E.D. program, a few openings are now also available in the English as a second language course, which is designed for persons of limited English-speaking ability. This course is an individual approach to enable adults to speak, read, and write English effectively.

Classes are free of charge and materials are provided for both courses to legal residents of the State of Texas or the United States.

For more information, call Mrs. Mauldin at 796-4284 in Bandera.

Christmas Party

The spirit of Christmas was in the air at the December meeting of the Bandera Fine Arts Club.

Christmas music was performed by Susan and Kenneth Cearley. An extra bonus was Cindy McMullan's reading of The Best Christmas Pageant Ever.

The meeting closed with the traditional exchanging of gifts by the members.

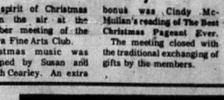

The Bookshelf

by Jimmie Hughey

Auntie Mame is coming to town. This 1958 comedy starring Rosalind Russell in the title role will be shown Tuesday, December 15 at 7 p.m. at the Bandera Electric Cooperative. This movie marks the beginning of a monthly event sponsored by the Bandera County Library. There is absolutely no charge and every one is welcomed and encouraged to come. The movie runs for a little more than two hours, so the young people would be able to get home early.

Future titles will be African Queen, Benji, Brian's Song, Cat Ballou, True Grit and others. There will be only one day's showing of each, although, if the need arises, we can show the film more than one time during that day. We hope that this service by your library will fill a long—standing need for our county.

The December 3 Open House was a huge success—people who professed to have never been in the library or who hadn't been in ten years, dropped in to see the changes made and some signed application cards to become regular patrons again.

IMPORTANT NEWS
FOR FARMERS OR CONTRACTORS
The 1981 Tax Act provides a full 10% investment credit for assets with a five year life. This is a direct credit of 10% of the price paid. In other words, money that would have been used to pay tax can be used to buy farm or construction machinery. Additionally, the equipment may be depreciated on a five year life (salvage value has been eliminated). IRS has also simplified this procedure by providing the following table:
1st Year — 10% 2nd Year — 22% 3rd thru 5th Year — 21% each
EXAMPLE OF TAX SAVINGS FOR AN INDIVIDUAL IN THE 40% TAX BRACKET PURCHASING:

ITEM	LIST	1st YEAR	2nd YEAR	3rd-5th YEARS	NET COST
TRACTOR OR BACKHOE	$45,000	$7,200*	$3,960	$3,780 each yr.	$22,500.00
HAY BALER	$8,500	$1,360*	$748	$714 each yr.	$4,250.00

A THOUGHT FOR THE WEEK
By John M. Grimes
Disappointment is something that all of us face in our lifetime. If we lead normal lives we face it quite frequently. Often times we become disappointed in someone or something, because a promise was broken; things didn't turn out the way we hoped they would.
But what is the worst kind of disappointment? Isn't it when we disappoint ourselves? We let ourselves down.
How many times have we set goals for ourselves and failed to reach them? How many times have we come so close to making it, but "didn't quite get there!" How many times have we promised ourselves to do something, yet never got around to doing it?
Did we set our goals too high or were we too lazy and didn't try hard enough? Whatever the reason, disappointing ourselves is not a good feeling. . .
What can we do about it? One way is to set our goals within a limit and really work toward achieving them.
Disappointment can be and should be handled.

After three days of basketball, December 3, 4, and 5, Comfort girls won the championship against Somerset which entitled Mary Knuepper, the Comfort coach, to receive the "Winning Coach" award of the girls' division of the tournament.

Girl's teams participating in the tournament were Bandera, Comfort, Devine, D'Hanis, Hondo, Somerset, Smithson Valley, and Utopia.

Final girls placings were Comfort — championship, Somerset — second, Hondo — third, and Devine — consolation.

This is the fifth annual tournament held at Bandera High School

First place Smithson Valley, 2nd place Bandera, 3rd place Utopia, consolation TMI were the results of the boys division in the Bandera Invitational Tournament played the 3rd, 4th, and 5th of December at Bandera High School Gym.

The big news besides the 2nd place trophy the Bulldogs won, according to coach Neal Peterson, was the enthusiasm and spirit of the Bulldog fans which cheered the Bulldogs through the tournament and then finally loosing in the championship to Smithson Valley.

Frazier Wins 1st In Showmanship

"Freddy" is shown by Wendy Frazier in Showmanship Contest.

During the 4-H and FFA Cattle Fitting and Showing Workshop at Kerr County Show Barn December 5, a showmanship contest was held in which 1st place was awarded to Bandera FFA member Wendy Frazier. The contest was based on participation and how well you presented your steer as well as yourself in the show ring.

Others who attended were Nancy Patton, Tina Macon, Robert Baker, and Tinker Stein.

At the workshop were speakers on beef selection and feeding, clipping and dressing, rat tailing, and showmanship. Bandera's vocational agriculture teacher, Miss Sandy Hunter, demonstrated on rat tailing and then supervised as FFA and 4-H'ers practiced on fake tails. There were also demonstrations on clipping and dressing in which everyone had a chance to ask questions.

IRS Tries To Give Away Money

The Internal Revenue Service is trying to give away $2,358,000.00! That's the total dollar figure on 3,661 checks for individuals in the southern half of Texas and 686 checks for businesses which were mailed out but returned to IRS as undeliverable.

The checks range from $1 for a Copperas Cove couple to a high of $39,143.98 due a Houston man. The latter man has a total of five checks the government got back as undeliverable. They total $47,088.97.

The most common reasons the checks are returned by people move and leave no forwarding address; illegible addresses on tax returns; or firms go out of business.

Anyone with a long overdue tax refund should contact IRS and tell them the name and address as it appeared on the tax return, the tax years and social security number. Call this toll-free number: 1-800-433-4830.

Cancer Society Memorials

American Cancer Society Memorials for November are Minnie Mae Wren, Mr. and Mrs. Pete Reed; Mrs. Rob Cox, Mr. and Mrs. Pete Reed; Edith Jones, Mr. and Mrs. Pete Reed; Mabel Fisher, Mr. and Mrs. Everett Kountz; Mrs. Bertha Lewis, Mr. and Mrs. Luther C. Mathis; Mrs. Alma Goff, Mr. and Mrs. James W. Furr; W. B. Spence, Dorothy B. Spence; Earl Roberts, First National Bank, Mr. and Mrs. Jack Trankelbach; Gus Gerfers, Mrs. Lillie Williams; Woody Wilson, Mr. and Mrs. I. T. Cleveland; and many other articles on gifted education.

Mrs. Evans participated in workshops in communication and time management strategies in providing a differentiated program for high school students. Calora was chairperson for a session concerning Project PEAK: Pupils Excelling in Ability and Knowledge.

Bandera's gifted program was implemented in 1980-81 with local funds. The program now receives some federal aid, thanks to the efforts of Mrs. Evans in getting a proposal approved. Thirty-nine children participated in the district's program which covers grades K-6. Superintendent Caloss has indicated that the program will be phased into the high school in the next few years.

First National Bank Offers Scholarship

The First National Bank of Bandera announces a two-part scholarship fund competition that enables high school seniors to enter local and national essay contests with a single paper. It is all part of a program sponsored by the nation's independent banks to increase public awareness of locally-owned banks' contributions to the community.

The bank is a member of the Independent Bankers Assn. of America, a professional trade association that is conducting the Howard and Katherine Bell Scholarship Fund competition. The national contest will award a total of $5,000 in prizes in a contest that is open to all high school seniors without regard for financial assistance needs.

First National Bank of Bandera is adding $100 in a local contest with local judging. The same entries submitted in the national competition will be judged in the local contest.

The bank is working with the Bandera Independent School District to encourage seniors to submit short essays on the community and one of the independent bank. Information on the contest is available both at the bank and the school, but entries will have to be made through the school. Entries must be submitted by January 8 to be eligible for both judgings. Prizes will be awarded directly to the winners in mid-March.

The scholarship fund program has been established to honor the career of Howard Bell, retiring executive director of IBAA, and his wife, for 30 years of service to the national banking association. IBAA is the only professional trade organization operated exclusively for the country's smaller banks.

Caloss Chairs Conference On Gifted Children

Bandera School Superintendent Ronald Caloss was chairperson for a session at the Texas Association for the Gifted and Talented's fourth annual conference November 20-21 in San Antonio. The district's teacher of the gifted, Mary Evans, also attended the conference, which has grown from 40 participants in 1977 to more than 700 this year, reflecting a growing interest in the education of the gifted.

Keynote speaker for the conference, James Gallagher, stressed that even gifted students must understand that learning and achievement require much hard work and commitment to long range goals which at times requires plain drudgery. The emphasis for today's gifted students is on practical creativity. Dr. Gallagher is the author of Teaching The Gifted Child

Rock Added To Detention Facility

A native limestone facade is being added to the jail and detention facility now under construction at the courthouse.

Artists To Visit Art Museum

The regular monthly meeting of the Bandera County Artists has been canceled for December. The club will spend a full day visiting the San Antonio Art Museum, instead of the scheduled session. For January 1982, the club will meet on the 19th, at the First State Bank at 7:30 p.m. Ed Meredith, nationally known artist, will present a program on stained glass at that time.

Hermann Sons President To Attend Party

The grand president of the Order of the Sons of Hermann in Texas, Louis B. Engelke of San Antonio, will attend the Christmas party of the Bandera Hermann Sons Lodge No. 81 Tuesday, December 15, at the Flying L Guest Ranch.

Beginning at 7 p.m., the yuletide event will include a buffet dinner and dance, Horace Brucks of Pipe Creek, lodge president, has announced.

Engelke will bring greetings from the grand lodge and make a brief address concerning activities of the society.

Chartered May 4, 1980, Bandera Lodge has 47 adult and junior members.

Christmas Gift

Azilee Heinen will receive a year's subscription to the Bulletin as a surprise gift from Nettie Dean of Tarpley.

Notice

The Ladies VFW Auxiliary to Bandera Post 9176 will hold their regular monthly meeting one week early this month, on Monday, December 14, at 2:30 p.m. at the post home.

Each member is asked to bring a $3 gift for the grab bag and a few refreshments of her choice.

Please, all members make an effort to attend.

Demolition Film To Be Shown to Optimists

John Anthis of San Antonio Bank and Trust will present a film entitled "The First Time" at the meeting of the Optimist Club of Bandera, when they meet Monday, December 14, at 12 noon at the Flying L Restaurant.

The film documents San Antonio's first demolition by explosion on June 18, 1978. The old Elk's building was "dropped" in an incredibly small area, demonstrating the miracle of explosives in the hands of experts.

At last Monday's meeting, Bob Cowan was elected temporary chairman of the Optimist Club of Bandera, and John Slocomb is the temporary treasurer. Permanent officers will be elected at the organization of the club.

New charter members added Monday include Tom Grant, Ken Pawvlik, David and Al Heep, and John Barr. This brings the total membership to 16, with a goal of 35. Ladies are always welcome to attend.

Mike Hardt, engineer in energy systems planning of San Antonio City Public Service, discussed the South Texas Nuclear Project at Monday's meeting.

In Appreciation

The family of Ashley Rugh, Sr., will be ever grateful for the many wonderful acts of love bestowed upon Ashley and each of us during our time of stress and sorrow.

We cherish the memory of your prayers, visits, cards and letters, telephone calls, flowers, food, memorials and endless hours of attention to his needs.

God bless you,
Melesse

Texas Heritage
By Garland Perry

After the end of the war with Mexico in 1848, the U.S. Government established eight military forts across the western frontier of Texas from Eagle Pass to Ft. Worth.

These forts were located about 60 miles apart and were established to protect area pioneer settlers against hostile Indians. Fort Croghan at Burnet was near the center of these outposts, with Ft. Martin Scott at Fredericksburg on one side and Ft. Gates at Gatesville on the other. It had the added responsibility of guarding the northwestern approaches to Austin and the Colorado River valley.

The fort was first located at Holland Springs and was originally used as a Texas Ranger Station, Company A, Second Dragoons, occupied the station on December 8, 1848. The following March the campsite was moved three miles north to Post Mountain adjoining the Hamilton Valley (Burnet) settlement. The Dragoons were soon joined by Company C, Eighth Infantry, and these two units established Fort Croghan. It was named for Colonel George Croghan, a distinguished army career officer.

The old fort was headquarters for all the Second Dragoons in 1852, but they didn't stay long. As settlements pushed further west, new outposts were also moved in that direction. Most of the Fort Croghan soldiers were moved out in 1853 and the fort was abandoned in 1855.

Ft. Croghan is only a shadow of its historic past. The Burnet County Historical Society did purchase the only remaining stone building and 1.7 acres of land in 1957. They have done an admirable job of restoring and furnishing the buildings and a part of the parade grounds with old pioneer relics and fixtures. The fort is open to the public only during summer months.

The Bandera Bulletin

VOLUME 37, NUMBER 23 — BANDERA, BANDERA COUNTY, THURSDAY, DECEMBER 17, 1981 — 25 CENTS PER COPY

Bandera Bulletin Has New Owner

Sale of the capital stock of Hunter Publishing Co., Inc., to Hills O' Texas Publications, Inc., has been announced by Ray Marvin Hay, Hunter Publishing president, and William E. (Bill) Dozier, Jr., Hills O' Texas president.

The firm publishes the **Bandera Bulletin** and the **Boerne Star**.

Dalmon M. McNair, veteran Texas newspaperman and college publications director, has been named editor and general manager of the **Boerne Star** and already is on the job, Dozier said. The present management of the **Bandera Bulletin** will continue temporarily, he added, with a new editor and manager to be named soon.

Dozier is editor and publisher of the **Kerrville Daily Times**. Other stockholders in both Hills O' Texas Publications and the Kerrville Publications, Inc., publisher of the Daily Times, are W.H. Fair and W.H. Fair, Jr., of Tyler.

The weekly **Bandera Bulletin** was established by the late J. Marvin Hunter, Sr., and his daughter, Mrs. John V. (Jennette) Saul on Friday, July 13, 1945. It was first published in a room at the Frontier Times Museum and later a building was erected on upper Main Street to accommodate the expanded operation. Later a second, larger building was built.

Hunter died in 1957, and Hay and Mrs. Saul continued to operate the paper.

In 1976 the **Boerne Star** was purchased from the Gammon Davis family of Kendall County.

Thank You . . .

The members of Hunter Publishing Co., Inc., wish to thank all of you who have so generously contributed to the successful operation of the **Bandera Bulletin** through the past 36 years.

No small-town weekly newspaper can long survive, much less prosper, without the cooperation and support of the community it serves, and Bandera County is truly unique in this respect. We gratefully acknowledge your involvement, helping us keep our loyal subscribers abreast of the happenings of interest in our area.

We have enjoyed serving you, and ask that you continue to give the new owners the loyal support you have extended to us.

We also owe a debt of gratitude to our hard-working, efficient and loyal employees. You are exceptional people and we have enjoyed working with you and appreciate your efforts.

Thanks to all of you,
Mrs. John V. Saul
Marvin, Ruth,
and Tom Hay

Bulletin To Be Published Earlier Next Week

In order to let our employees enjoy Christmas eve with their families, the **Bulletin** will be published one day earlier than usual next week, on Wednesday, December 23.

To meet this deadline, all news and advertising copy deadlines will be one day earlier.

Kathy Blackshear Is A Winner

VFW Post and Auxiliary 9176 has completed its annual Voice of Democracy contest, whose theme was "Building American Together." Bandera High School students, grades 10, 11, and 12, wrote a three to five minute script and judges chose Kathy Blackshear winner, with Karrie Oehler runner-up.

Kathy was then entered in the contest for District 23, a nine-county area including Kerrville, Mason, Llano, Fredericksburg, Johnson City, Center Point, Comfort, Kingsland, Bandera and Ingram.

Kathy won second in district competition. She will receive a scholarship from the Bandera VFW and Auxiliary and the second place scholarship from District 23.

At Commissioners Court

Bandera County Commissioners Court met Monday, December 14, for their regular monthly meeting, and spent the day transacting routine business. Present were Rein Vander Zee, judge; Jim Russell, Stanley Tschirhart, Bob Ashley and Bud Thompson, commissioners; and Vera King, deputy clerk.

Car For Sheriff's Department

Two bids for a car to be used by the Sheriff's department were received. The lower bid from Clint Dowell Chevrolet, Inc., was accepted.

Vehicle Insurance

Bids on insurance for all county vehicles were received from McMullan Insurance, Farm Bureau and First Security Insurance. The bids were reviewed and compared.

Mini Bus Driver

Peter VanZanten and Minnie Adams were chosen drivers of the Senior Citizens Mini Bus, to comply with federal guidelines. They replace Lola Limey who recently resigned.

Tank Truck

Representatives of the Lakeshore VFD met with the court seeking a truck to use as a water truck. Bob Ashley said Precinct 3 has two extra government surplus trucks from which one truck could be put in running condition, and the fire department gratefully accepted them.

Jail Heater

No bids were received for the heating unit removed from the old jail.

Pebble Beach

A petition from a group of property owners in Pebble Beach was read and discussed. Subdivision inspector Jerry Gray discussed drainage problems and the difficulties. Commissioner Tschirhart noted that the major problem with upgrading and improving drainage is that water mains are buried down the center of the roads, and feeder lines as well as the distribution mains are placed so near the surface. This complicates adding necessary culverts and increasing the depth of bar ditches to provide adequate drainage.

Temporary Workers

Marguerite Stevens, county tax assessor-collector, came before the court requesting part-time helpers to update voter registration information to include the new voting precinct number, due to county re-districting. She must have the work completed by the January 15 deadline.

Historical Commission

Gladys Graves came before the court asking that they instruct the Bandera County Historical Commission what should be done with the $200 the county gives each year to that organization. The court said that they do not in any manner control how the funds of that organization are used.

Mansfield Park

Conrad Nightingale and John Dexter representing Mansfield Park, presented to the court a comprehensive rate schedule for different classes of groups using the facilities there. They asked that this schedule be tried for one year and then reviewed and updated if needed. The court reviewed the recommendation and agreed to try it for a year.

Holiday

Thursday, December 24, was added as a holiday for courthouse personnel. The courthouse will be closed that day, as well as Friday, December 25.

Kitty Mansfield

Kitty Mansfield and surveyor Clarence Bauerlein met with the court, seeking a small correction of the property line dividing Mrs Mansfield's property and Mansfield Park. The correction was granted.

Subdivisions

Jerry Gray, subdivision inspector, reported on the progress in these subdivisions: Exotic Acres, River Oaks Ranch, Willow Springs, Mountain View, Mountain Ridge, Triple M Ranch, Bear Springs, Diamond J Ranch, Deer Forest and Lacy Park.

Gray also asked that an additional map rack be purchased for his office and the court approved the request.

Tax Appraisal Board Representative

Raymond Hicks was re-appointed the county's representative on the tax appraisal board by the court.

Re-Plat of River Bend Estates and Paris Estates

The court discussed the re-plat of River Bend Estates and Paris Estates, but no vote was taken.

Routine Business

The court approved minutes of the past meeting and bills for payment.

Parkers' Home At Medina Destroyed By Fire

Fire of undetermined origin destroyed the home of Mr. and Mrs. James Parker and family in Medina Thursday. Mr. Parker was at work at the Medina School and his wife at the Phillips 66 Station when the blaze was discovered.

Notice

The Bandera ISD tax office will be closed on the following days: Dec. 23, 24, 25, 30, 31, 1981, and Jan. 1, 1982. 32-1tc

Cemetery Desecrated By Vandals

Oak Rest Cemetery at Medina was desecrated by vandals recently. Grave stones were overturned and a large amount of damage was done.

To prevent a reoccurance, guards will watch the cemetery, and guilty parties will be prosecuted.

1st National Bank Adds Advisory Directors

Conrad Nightingale

Conrad Nightingale and Harvey Faris were recently elected advisory directors of the First National Bank of Bandera. The banks will seek their expertise in their respective fields, and expects these appointments to enable the bank to understand and service a larger cross section of the community.

School Will Impose Penalty On Delinquent Taxes

Meeting in regular session December 8, the Bandera Independent School District Board of Trustees imposed an additional penalty of 15 percent of the taxes, penalty and interest due on delinquent property, effective July 1, 1982. This action was taken at the recommendation of the district's tax attorneys, and will apply to all tax years remaining delinquent as well as to subsequently accruing delinquent taxes in the future which remain delinquent on July 1 of the year in which they become delinquent.

In other action the board approved payment of the December bills, including $40,961.73 of operating expenses; approved the audit report of the Bandera ISD for the 1980-81 school fiscal year, the consolidated application fund for the 1978-79 year period ending 1981, and the child nutrition program for the 1980-81 year; moved that Alexander Grant and Co. of San Antonio act as school auditors of the Bandera ISD for the 1982-83 school fiscal year and conduct the end of the year audit required by the Texas Education Agency; reemployed Gates Steen and Assoc. of Austin as delinquent tax attorneys for the district from December 6, 1981 to December 6, 1983; approved the amended bus routes for the 1981-82 school year; and appointed Don Hicks to serve on the Bandera County Appraisal Board.

Under items for information, Superintendent Calos informed the board that the revenue from this season's football gate totaled $10,976.61, $2,774.40 more than in 1980. He also gave board members an updated personnel roster, discussed a plan for implementing H.B. 246, gave trustees the District 26AAA 1982-83 football policies and rules, and announced that 1,080 students in grades K-12 were enrolled in the system as of December 2, 1981.

After consideration in executive session, the trustees approve Carla Lukachik, Mary Clements and Debra Anderson as substitute teachers for the remainder of the 1981-82 school year.

Present at the meeting were President Thomas H. Keese and members Patty Adamson, Richard Evans, Katie Buede, Eddie Jon Ryan, Charlotte Salzman and Rob Sandidge.

More of SH 16 To Be Improved

The State Department of Highways and Public Transportation released eight San Antonio area highway projects for bids this month. Four of the projects are to accommodate increasing traffic in urban Bexar County and the remainder are for safety and structural improvements on roadways in adjacent counties.

Released for bids was a 7.6-mile section of State Highway 16 in Bandera County from the Medina County line to Pipe Creek Crossing. The scheduled improvements will upgrade surface and structural quality of the highway and increase sight distances at several curves. Engineer for the project is C.E. Hackbeil of Hondo.

Moore Chosen ASC County Committeeman

L.D. Moore was elected to fill the three-year term as Agricultural Stabilization and Conservation County Committeeman. Preston Jennings was elected first alternate to the committee and Royce Jackson, second alternate.

R.R. Schott and Elton Boultinghouse complete the ASC farmer-elected committee.

The Bandera County ASCS will honor Paul Lavon Garrison with an open house at the county office on Monday, December 21, from 10 a.m. to 3 p.m. He has served as county committeeman for 20 years and the open house is in consideration of his service to the county. The local ASCS personnel invite you to come by and have refreshments.

'Tis The Season To Be Careful

Holiday shoppers are reminded to be especially careful not to encourage thefts from their vehicles, Deputy Sheriff Mel Lemons said.

He urged that they lock purchases in the trunk of the car or put them out of sight. Be sure to lock your vehicle, also.

Take your handbag with you. Do not leave it lying in your car unattended, he said.

Now is also a good time to mark with your own identifying number all new items. A thief is less likely to take a marked item.

Report any theft or burglary to law enforcement officers, Lemons said, even if you feel too much time has passed for the thieves to be caught. Sometimes merchandise is recovered and the owners are hard to locate, unless the loss was reported.

With hunters coming to our area, at times it is hard to distinguish between a hunter and someone who may have no authority to be on certain property. If you see any person who is acting suspiciously, call the sheriff's office so that they can check on the situation.

With a few precautions, your Christmas can be merrier.

Special Music At St. Christopher's

St. Christopher's Episcopal Church will celebrate the Christmas Tide with a program of special music at 5 p.m. on Sunday, December 20.

Featured on the program will be members of the Collequim Musicum of Trinity University in selections from Handel's Messiah.

Everyone is welcome.

Officers elected on December 12 for the new year are the president, Glenda Haley; vice president, Bill Haynes; director, Phil Bledsoe; treasurer, John Portman; secretary, Judy Hines. Those who attended the election were able to see the tree and decorations some of the volunteers put up earlier in the week. The fire department has obtained two more trucks. It will take some time to make them operational.

Remember the open house at the fire department on December 24 from 4 p.m. to 8 p.m. Tamales and egg nog will be served compliments of the fire department. Other drinks will be available to purchase. Everyone is asked to bring a plate of snacks — chips, dips, sandwiches and other Christmas goodies. This will be a come and go party and it is hoped that everyone in the Lakeshore Community will come by, enjoy this Christmas Eve Party, and bring your friends. Everyone is welcome.

On Saturday, December 19, Fran and Wayne Hildenburg will have Bierocks available. A minimum of 2 each is asked. The ingredients were donated by Bill Woegens, Wayne's brother-in-law. They will be ready for pick up at the Hildenburg's home at 5 p.m. and can also be obtained after 6:30 at the Copper Lantern. Proceeds will go to the Fire Department towards a base antenna or material for the storage building. If one should desire to do so, a larger donation will be happily accepted.

TARPLEY SCHOOL REUNION

The Tarpley School Reunion held September 6th in conjunction with the Annual Homecoming Barbecue sponsored by the TARPLEY VOLUNTEER FIRE DEPARTMENT brought together many ex-students and ex-teachers from as far away as Oregon and Florida. There were many incidents of recollections of events that took place as far back as the turn of the century and before. There were many more ex-students on campus than in the picture. The event was complimented highly and is expected to be scheduled again on the date of the Annual Homecoming Barbecue in 1983. The chairman of the event was Richard G. "Dick" Paxton.

During the tenure of the school for a period of some 60 years there were numerous teachers. Elaine Wright taught in Tarpley in 1921 and 1922. Prof. Everette Bridges taught in 1922 and 1923. The school closed upon being consolidated in 1950, while under the supervision of Prof. Benjamin Fleenor.

The school building is now the TARPLEY COMMUNITY CENTER, a meeting and place of voting for the area. Within the rooms and across the campus echo the memories of the students and teachers whose lives were made beneficial by the events and instructions provided by the interest and affection of the nearly 30 teachers and 541 students.

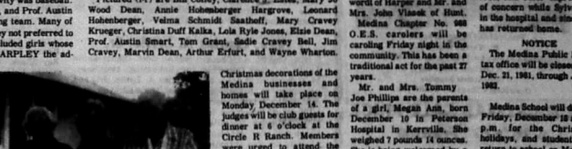

Tarpley is thankful for the happy convention and wishes for the reunion to be continued every two years. The Reunion Executive Board wishes a MERRY CHRISTMAS to all of those who attended the event.

With plenty of space, but with limited equipment the favorite athletic activity was baseball. Pictured at left are players involved throughout years of championship baseball, and Prof. Austin Smart whose coaching made the TARPLEY BASEBALL CLUB a winning team. Many of those in the photograph could have gone on to major league careers had they not preferred to remain in the hill country in favor of local fortunes. With a team that included girls whose talents were many times the long drive or the fantastic play giving TARPLEY the advantage there was always an excellent group spirit.

Estes, Mary Jo Wood Dean, Annie Hohenberger Hargrove, Leonard Hohenberger, Velma Schmidt Seathoff, Mary Cravey Krueger, Christina Duff Kalka, Lola Ryle Jones, Elzie Dean, Prof. Austin Smart, Tom Grant, Sadie Cravey Bell, Jim Cravey, Marvin Dean, Arthur Erfurt, and Wayne Wharton.

W. Ender, Paul Laskowski and Harold Hayes.

A TRIBUTE BY HIS FAMILY

The Big Fisherman is gone. Rev. John Platt always called Ashley the Big Fisherman, and those who knew from Scripture the life of Christ's disciple, Peter, knew the comparison was fitting.

Also, Rev. John Gibbs, in his funeral sermon, called Ashley a rock. Yes, like Peter, a rock, rough hewn, plain, imperfect. Christ's love smooth the rough edges and polish the hard stone until in perfection Ashley will take his place with Saints in Glory.

Ashley's world was one of endless, tireless work. His friend, Lee Mansfield, (God rest his great soul) said: "I never knew another young boy who would do the daylight to dark hours of work from which many grown men shied away."

Saving his money, he bought a truck to haul produce, livestock, and supplies from Bandera to San Antonio and back. No spool of thread or piece of material was too small for him to go by Kress' for the ladies. Yet, alone, he loaded and unloaded 200 pound sacks of salt.

He appreciated the trust his fellow citizens placed in him by re-electing him as County Commissioner four times. He worked during the second World War in a defense job for Southern Pacific.

Returning to his beloved Bandera, he owned and operated the Texaco Station for thirty-two years. Totally fair in all his dealings, Ashley never made a dishonest dollar. He knew that he would not have been successful without the help of the people who helped him, that they were the foundation of his good business. He believed that they, too, should share in his success.

He listened to others even when he did not appear to be listening, and then acted on what he heard with characteristic consideration for the other person.

Ashley raised Melcene's sisters, and seven years after marriage had two sons. The four of them were never struck physically yet they respected him—his word was law, and accepted with the strong conviction that Papa knew right from wrong.

He named his home "Friendship Cottage," and his doors were always open to his friends and his loved ones. He preserved and practiced all that God entrusted to him and in perfect love he provided for all of us.

No one in his family was allowed to worry: "You say you believe God will take care of you—live like it!" What a heritage to leave his family and his extended family. Praise the Lord!

A THOUGHT FOR THE WEEK

By John M. Grimes

Two things upon this changing earth can neither change or end — the splendor of Christ's humble birth and the love of friend for friend. Friends are a wonderful part of Christmas. A very special friend sent us a letter last Christmas . . . a letter we have loved, remembered and cherished . . . a letter we want to share with you. In part,

"... I'm sitting in front of the fireplace, watching the lights on our Christmas tree, and trying to balance a cup of coffee, two dogs and a portable typewriter on my lap. And as I watch the beauty of the lights, my thoughts turn to those who have made our life so eventful and happy. To those who have given so much of themselves to make this a better place. We would like to share with you our joy and happiness during this season, and thank you for becoming such an important part in our lives and our community. The little sack of blackeyed peas comes from our garden, in hopes that they will bring you good luck during the New Year, and along with them comes our most sincere wishes for you and yours, a Blessed Christmas."

This wonderful friend gave us the true Christmas feeling and the best gift of all—love and kindness from a true friend — the gift we will always treasure!

The Bookshelf

By Jimmie Hughey

The Christmas season is surely upon us and the library has stocked up on Christmas lore, recipes, decorations, and such like. Two new books are especially worthy of mention: The Saturday Evening Post Christmas Book and The Saturday Evening Post Christmas Book for Children. Both have some great stories, illustrations, history of various holiday customs and recipes. Also, the void in our collection where The Night Before Christmas should have been, has now been filled.

The velvet based, bejeweled Christmas tree hanging in the youth section of the library was made by the Tarpley Extension Homemakers Club and presented to the library. The committee consisted of Grace Wootton, Mary Worley, Evelyn Reisinger and Stella Fitzgerald. The frame was made and donated by Louis Reisinger. It is a beautiful addition to our holiday decoration and we thank these good ladies and Mr. Reisinger for sharing it with us.

The county library will be closed Wednesday, Thursday and Friday for Christmas. If you have books to be returned during that time, we'll try to keep the book drop empty enough to accommodate them.

Friday, December 18, there will be a Christmas party for the school children and any one who would like to join us; it will be at 2:30 p.m. here in the library, and there will be Christmas films along with stories and refreshments.

We wish you all a very merry, happy and safe and prosperous New Year.

Jr. High Cagers Improving As Season Grows Shorter

By Toni Byam

Seventh and eighth grade basketball teams are steadily improving in each game. Starting the year out with 3 loses both teams won their first game against Center Point.

Going into the Medina Valley Tournament, the seventh grade was all fired up and ready to take home the championship trophy.

The first step was to beat Medina Valley. The excitement began in the first quarter and didn't end until after going into over-time when the Bulldogs were victorious 36-32.

The second step wasn't as easy, the bulldogs were up against a bigger and stronger team, the Devine Warhorses. At the end of the game the Dogs were defeated 30 to 18. This left Bandera with the second place trophy.

Coach Lynn White stated that the teams were "outstanding both on offensive and defensive play throughout the entire tournament."

Outstanding players for the tournament were as follows: 7th grade—Mike Cardenas, David Clark, and Greg Marshall, 8th grade—David Zigler and Chris Persyn.

JV Takes Second

By Sandy Riedner

Bandera J.V. boys put on quite a show at the Medina Basketball Tournament as they proudly came home with a second place trophy! Medina High School sponsored the tournament in which 4 teams participated. Bandera was the only J.V. team entered in the tournament. Team placing were Keystone Varsity 1; Bandera J.V. 2; Medina Varsity 3; and Center Point 4.

In the first game Center Point was easily defeated as they fell in the path of the mighty Bulldogs. As the first quarter ended the Bulldogs were down by 7 points, but with the outstanding coaching of Kevin Long, they pulled ahead in the second quarter. The Bulldogs kept their lead and ended the game 49-39. Bruce Robinson had a hot hand as he accumulated 17 points with Steve Parker close behind scoring 14 points. Also scoring for Bandera were: Jonathon Graves-10, Chuck Ford-6, Tim Butler-1, Heath Hulse-1.

Beating Center Point qualified the Bulldogs for the championship game against Keystone Varsity. It was a hard fought game but the Bulldogs were not able to keep Keystone from the basket. Keystone took the lead in the first quarter and kept it throughout the game. Despite the Bulldogs keystoning effort the final score was Keystone-44 and Bandera-31. Those scoring for Bandera were Steve Parker -12, Heath Hulse -8, Jonathon Graves - 5, Tim Butler - 4, Chuck Ford 2.

Outstanding Musicians

By Noel Rodriguez

Each year some students of the Bandera Band rise upon themseives the hard, time-consuming art of practicing their instruments. Why? you might ask; to hold the title of an "All District Winner." If one makes All District, he may then go to the All Regional, All Area, and then hopefully to All State Band competition.

This year of the 16 people that went, 11 placed in All District Band. These students are as follows: Jeanelle Clingon 1st in baritone sax, Noel Rodrigues 1st in tenor sax, Michelle Adamson 1st in piccolo, Michelle Speckman 2nd in bass clarinet, Chris Reeves 3rd in trombone, Mark Reeves 4th in French horn, Dana Beman 4th in clarinet, Jacque Cantu 8th in clarinet, Karrie Oehler 9th in clarinet, Phyllis Graham 12th in clarinet, Jake Short 16th in trumpet. Other participants were Elizabeth Walters, Wendy Valdez, Donald DeThorne, Elaine Villanueva, and Derrick Berg.

These students will compete next Thursday for All Regional Band. These are just some of the talented memebers of the band which help to improve the band each year. Congratulations to each one and keep up the hard work.

Seniors Meet

By Dana Alanis

It's that time again! The time when all Seniors must assemble together and order their graduation announcements. This is the activity which took place in the auditorium December 8.

The graduates of 1982 were instructed on the various ways in which announcements, caps and gowns, etc., could be purchased. After all the orders were put in, the class voted on the type of announcement, class colors, class flower, class song, and class motto. A make-up date for those who missed ordering announcements will be announced at a later date.

Christmas Countdown

By Kelly Collins

Did you know there are only 16 days left until that wonderful time called Christmas Day? If you still haven't done all your shopping you have 13 days left to complete your list.

There are only 6 days left until students get out for the holiday season. I hope everyone is ready because Santa is on his way.

Band Beau & Sweetheart Candidates

By Noel Rodrigues

Band Beau and Sweetheart candidates were announced at the annual 1981 Christmas Concert.

As the band performed the cheerful 'Christmas Carols under the direction of Tome Walters and Bill Swantner, the time drew closer for the candidates names to be announced. Mr. Walters announced that the 1981 candidates would be Karrie Oehler, Dana Beman, Jacque Cantu, Elizabeth Walters, Jake Short, Brad Stevens, Noel Rodrigues, and Mark Reeves.

Of these eight candidates the band will vote on one boy and one girl. The winners will be announced at the Salad Supper on March 6th.

Bandera Does Well In Eagle Pass

By Wendy Frazier

Bandera FFA and 4-H'ers placed well in the Eagle Pass Steer Prospect Show on December 12. Students who attended were Tinker Stein, Wendy Frazier, Cindy Frazier, and Jake Frazier. Their placings are as follows; Tinker—Champion American Breed, Reserve Champion Chianina, 2nd medium frame American Breed, 2nd medium frame Exotic, and 4th small frame Simmental. Wendy—1st small frame Exotic, Cindy—3rd small frame Brahman, and 5th large frame Charolais. And Jake—2nd large Brahman.

Prospect shows help prepare steers as well as give the exhibitor experience for major and county shows by letting both animal and student get used to the show ring and competition. Also allows exhibitors to see some of the competition there will be outside their own county shows.

Building Toward Expanded Vocabulary Awareness

By Kurtis Karr

The English vocabulary is a wonderful thing. It is strange that so many words can be formed by the 26 simple building blocks from which it is composed.

In some words it is possible to extract and rearrange letters to form new words. For example, how many new words can you make with the word boredom?

Let's see, there's bore, and there's bored, and even boo. There's mood, dear, and more. But, if you look hard enough you can even find merodomb.

Now wasn't that interesting?

Who would have ever thought you could have fun with boredom?

Spurs Game Attended

By Holly Gabel

December 12, 6:00 p.m., a caravan of four vans exited the BHS parking lot, destination—the convention Center Arena in San Antonio.

A basketball game between the Utah Jazz and San Antonio Spurs was the first activity for the newly estabalished club, Teens for Christ.

Upon arriving at the ticket gate of the Arean, the Bandera group was met by Mr. Chuck Jones and several members of East Central's Youth for Christ organization. After receiving a warm welcome, Bandera Teens for Christ were seated high in the Arena.

Besides enjoying the competitive Spurs play Bandera T.F.C. members also enjoyed meeting the friendly East Central students.

At the close of the game the group was anxiously looking forward to meeting the Spurs players and receiving autographs. After all autographs were signed the club members boarded the vans for the return trip.

Although eyes were sleepy the happy memories of the night were wide-awake.

A special thanks to Mr. Chuck Jones for providing the game tickets. Bandera T.F.C. also expresses appreciation to all organizations and parents for transportation and sponsorship.

White Christmas? What's That?

By Linda Muller

"I'm dreaming of a White Christmas"...How many of us sing the lines of that holiday song made famous by Bing Crosby while dreaming to ourselves what it would actually be like to have a true white Christmas in Bandera for a change? Christmas-time is usually accompanied with thought of merrily building snowmen, energetically having snowball fights, making angel wings in the snow, catching snowflakes on your tongue, and other fun-filled winter activities having to do with that wonderful cold, white substance called snow.

Sure, we in Bandera carry on many Christmas traditions with snow. We take home and decorate trees, sometimes with artificial snow on them, we decorate the outside of our houses with colorful lights, go Christmas caroling in a car rather than a horse pulled sled, and some of us spray the rims of our windows with "snow" and hang plastic icicles around them.

Instead of all these pessimistic thoughts, let's take a moment to look at the bright side of the Christmas weather.

Supposing Santa brought you a bike this year? If in Boston or New York, the snow filled streets would probably make bike riding impossible, but here in our town, if you don't mind getting cherry colored cheeks from the brisk, cool air, bike riding could be a most enjoyable sport on Christmas day.

Think also of all the chores that are necessary with snow which we don't have to worry about. Shoveling sidewalks, putting chains on your car's tires, scraping of your windows to see outside, and hauling in the wood for the never ceasing fire are just a few of them.

So, next time you find yourself, like me, hopelessly wishing for just one or two little snowflakes to drift your way to Christmas time, try to remember all the things that come along with it, and you'll most likely be much more content with your usual 60 or 70 degree Christmas weather in Bandera.

Annuals Are Selling Quickly

By Dey Reese

Bulldog Annuals for 1982 will be on sale throughout this week, December 14-18 for $15. Journalism students will be taking orders in Junior High and Elementary every morning at first and second periods. They will also be taking payment for orders in the lunchroom at High School. Don't forget to get your book of memories.

Concert Bands Show Christmas Spirit

By Chris Reeves

Both the Jr. High and High School Concert Bands performed in the auditorium at the High School, Sunday afternoon, and played the traditional Christmas songs such as Jingle Bells, White Christmas, and Let It Snow.

Although the temperature was cold outside, inside the visitors were filled with the warmth of Christmas joy. Throughout the concert various band members were recognized for their accomplishments as District winners and Band Beau and Sweetheart nominees.

After the concert a reception was held in the band hall where cookies and punch were served.

Ho! Ho! Ho!

By Linda Muller

Christmas, perhaps the most celebrated holiday of all, is on its way at last. Children of all ages, from 1-100, anticipate the joy of the season all year long.

Although millions take part in the holiday, how many of us really understand the true meaning of Christmas? Christmas is the celebration of the birth of Christ. Sometimes people seem to forget this fact in the rush of decorating, purchasing gifts, baking goodies, and all the other Christmas holiday tasks that are tended to. Traffic jams from people on shopping sprees, put many in agitated and disgusted frames of mind. If these things are happening to you, perhaps your values and priorities need to be rearranged.

Christmas is a time for goodwill among mankind; caring for one another, helping people out that are in trouble — even those whom you don't know. It is a time for family togetherness; decorating the tree, going to church, and Christmas caroling. Christmas is a time when others practice their beliefs more often. Christmas should be a joyful event for all, young and old alike. The long-awaited day is drawing nearer, so put on that Christmas smile and get ready for the holiday.

Holiday Safety
Accidents never take a holiday. To help make your holiday safe, take these precautions:
• Clear walks and steps of ice, snow and other potential hazards.
• Take frequent rest breaks when shovelling snow, and never shovel snow immediately after a big meal.
• Select a fresh Christmas tree or a fire-resistant artificial one.
• Check tree lights for broken sockets and frayed wires, and replace them if damaged.
• Turn on outdoor lights at night when you expect company.
• Be alert for drivers who have had too much "holiday cheer."

Tiger Cruise — A Reunion

The Tiger Cruise was right on schedule for Larry Eugene Marchand, Jr., of Bandera. He has taken his 3000 mile ride aboard the aircraft carrier USS KITTY HAWK.

Marchand's brother, AO2 James L. League, was aboard the 80,000 ton Pacific Fleet carrier. Marchand was there for the Hawaii to San Diego portion of the KITTY HAWK's return from deployment in the Indian Ocean. It's part of a program called the "Tiger Cruise" in which sons, fathers and brothers of crew members are guests on the final leg of the return from deployment.

Now, after more than four months in the Indian Ocean and eight months after she steamed out of San Diego harbor, the giant carrier is home.

800 Tiger Cruisers made the trip from Pearl Harbor to San Diego with their sponsors. They were welcomed aboard by Captain R.C. Taylor, KITTY HAWK's Commanding Officer. For most Tigers this was the first opportunity to share what their sons, fathers or brothers experience while on the job at sea. They witnessed underway refueling and replenishment operations, naval gunfire exercises, shipwide tours, displays of the many aircraft of the ship's air wing, and a constant round of other shipboard activities.

The Navy considers the Tiger Cruise program one of the best ways to acquaint its sailor's families with life at sea. The Tigers who made the trip with KITTY HAWK would certainly agree.

"I'd like to say I meet a lot of interesting people on board and I enjoyed the cruise."

Over the five day cruise each Tiger shared in every shipboard evolution from reveille to taps. They brought their sponsors up to date with news of home. In the words of several KITTY HAWK crew members, They made the journey seem a lot shorter."

A tumultuous welcome home greeted KITTY HAWK, her crew and Tigers as they docked in San Diego. Thousands of family members, friends and well wishers lined the pier at the North Island Naval Air Station where they had said goodbye nine months before. In the interim KITTY HAWK had steamed 71,750 miles, the equivalent of about three times around the world. But for the 800 Tigers and a large part of the crew, the last 2000 miles seemed the best part of the long cruise.

Choose Children's Gifts With Eye Safety In Mind

When shopping for children's holiday gifts, beware of those that pose threats to eyes, cautions the Texas Society to Prevent Blindness.

More than 5,000 eye injuries were linked to toys last year, and nearly two-thirds of these accidents were suffered by children under the age of 15. BB guns, darts, and bows and arrows — "toy weapons" — were responsible for hundreds more injuries.

"Ninety percent of all eye injuries are preventable," notes Elvin Schofield, president of the Texas Society. "Safety-conscious adults can protect children from eye damage — or even the loss of an eye — by picking toys and games carefully and by teaching youngsters how to respect toy hazards and their own safety.

"Holiday gifts hopefully will bring children many hours of enjoyment without jeopardizing their well-being," Schofield added. Playthings with projectiles have been proven dangerous to eyes and should be avoided. A U.S. Consumer Product Safety Commission survey of hospital emergency rooms indicates that children under 15 were the victims of eye injuries predominantly from slingshots or sling-propelled toys, toy guns, and other toy weapons with projectiles, and gas, air or spring-operated guns.

Eye damage also can result from toys and games with less apparent hazards. Building sets, skateboards and battery-operated toys were a few of those responsible for eye injuries to children last year, primarily children under 15. In some cases, the child may be too young to handle a toy. Often, too, play gets rough, and youngsters accidentally hurt themselves or playmates.

Most of these eye injuries happen, reports the society, when children are not supervised. It's very important that parents show their children how to use their gifts properly. Does the child understand how to use the toy? Does he or she take a "harmless" toy and make it dangerous, for example, by pulling rubber tips off darts? Do older children keep their more complicated toys out of reach of younger brothers and sisters? When dangers are explained, does the child acknowledge and avoid them?

For a free copy of "Play It Safe — Your Child's Eyes Are At Stake," which contains important advice for parents to help children's eyesight, send a stamped, self-addressed, business-size envelope to the Texas Society to Prevent Blindness, P.O. Box 20-20, Houston, TX 77019. The Texas Society to Prevent Blindness is an affiliate of the National Society to Prevent Blindness, the nation's oldest voluntary health organization dedicated to sight conservation.

Did You Serve In The 45th Division?

The 45th Infantry Division Association is seeking names and addresses of persons who have served in the 45th Division at any time in its past, Kenneth O. Spurgeon, 1290 S. LaSalle, Abilene, Tx 79605, state chairman for the association, has announced. Persons knowing the names and addresses of any former 45th Infantry Division members should contact the chairman.

The 45th Infantry (Thunderbird) division participated in 511 combat days in eight campaigns in Europe in World War 2, and 429 combat days in four campaigns in Korea during the Korean War.

Attitude Reflects New Era

Students and educators today have a new attitude toward learning that reflects a new era in secondary schools, according to Bobbi Thomson, executive director, National Association of Secondary School Principals (NASSP).

"Principals across the nation tell me students have a new attitude toward getting the most they can from their academic subjects," Thomson recently told a national conference of education reporters. "Students are more positive today about learning than they have been in the last 10 years. This reflects their concern about getting a job upon graduation and greater support from their parents."

Thomson believes that the whole theme of secondary schools has changed from the late 60's and early 70's.

"Schools are very flexible and reflect the desires of the society," he indicated. "After Sputnik was launched, there was a call for more emphasis on math and science. During the Great Society movement, schools were asked to provide social services. Today they are focusing on productivity."

"The focus on productivity reflects the challenge that we face as a nation from other nations. The strength of our economy is linked intimately with the strength of our educational system. Our exports are based on the knowledge and skills of our people."

Thomson predicted that schools will not disregard equality, but they will emphasize quality with work in foreign languages, math, science, and the technologies.

"We (schools) are flexible enough to respond to the call of society, but we can't change the focus of the institution overnight," he stated. "No other institution, with the possible exception of the armed forces, has contributed one-half as much to equality of opportunity as schools have. We (schools) can do anything society wants us to do, but we can't do everything."

The secondary school today is being viewed as a serious place, according to Thomson. It is not a grim place, but a place where everyone is serious about learning.

Part of the changing attitude on the part of students is because they are also looking at the economy.

"Sixteen and seventeen year olds are concerned about getting jobs. They realize that the more work they accomplish, the more knowledge they gain in school, the better chance they'll have to land the job they want."

Parent support is also continuing to change, according to Thomson. Parents are realizing that learning is a cooperative partnership between the school and the home, and they are motivating their students to become serious about their work.

Schools started focusing on productivity about six years ago with the introduction of such concepts as competency testing to guarantee that the high school diploma meant something, but they still can make more improvements.

"We are about halfway toward achieving this new focus on productivity," he said. "Society, however, is facing a dilemma. Unless we invest in elementary and secondary education, we will fall farther behind other nations. The farther behind we fall, the less we'll be able to compete. Our country's economic future lies in the success of our schools."

Christmas Ornaments Can Be Dangerous To Pets

'Tis the season to be jolly, but the very things that make the Christmas season bright and gay, may be the things that can turn Christmas into a tragedy for your family pet.

"The Christmas tree, with colored lights and balls, tinsel and artificial snow is a tempting curiosity for your cats and puppies. Extra caution should be used to keep your pets out of the tree branches," said Dr. Ben Johnston, president of the Texas Veterinary Medical Assn. (TVMA)

Inquisitive, frisky pets may decide to munch, crunch, attack or swallow

GET A TEXAS GROWN CHRISTMAS TREE

For a real Texas Christmas this year, be sure your Christmas tree is a genuine Texas product. Sonic 75,000 Texas-grown Christmas trees will be ready for the Texas market this year, says a forestry specialist with the Texas Agricultural Extension Service, Texas A&M University System.

These trees offer a number of advantages. They are fresher, more fragrant and usually less expensive than those shipped in from other states.

Most Texas Christmas trees are grown in eastern counties and are marketed locally as well as in larger cities.

County Extension agents have listings of Christmas tree farms that operate on a "choose-and-cut" basis.

RAISING DRINKING AGE MAY REDUCE TEXAS FATAL CRASHES

A substantial reduction in nighttime fatal crashes involving young drivers has been found by Insurance Institute for Highway Safety researchers in states that have recently raised their legal minimum drinking age. By January of 1981, 14 states had raised their minimum drinking age since 1976, reversing the trend of the early 1970's when more than half of the states lowered the minimums.

decorative tree items such as glass balls, electric light wires, tinsel and string.

"Dogs and cats find ornaments and tinsel attractive, and they chew them and swallow them as if they were a bone. Glass ornaments splinter on contact and can cause perforation of the animal's gastric or intestinal walls," said Johnston, a Houston veterinarian.

Aluminum tinsel may contain a lead base and can be toxic to the animal. Tinsel and string are also harmful because they can ball up in the intestine and cause blockage.

Chewing on the wires of colored lights can cause electric shock and has proved fatal to many pets. Those that survive usually have severe mouth burns that require immediate veterinary treatment.

The best way to keep your family pet safe from such tragedies is prevention. Decorations should be kept high on the tree, or the tree should be placed on a table out of reach of pets. Pets should not be left alone with the tree.

If an emergency does arise, contact your veterinarian immediately.

Don't forget that holly, poinsettias and mistletoe are especially dangerous items at this time of year. Make sure these poisonous substances are kept well out of the family pet's reach.

New Drug Laws To Take Effect Jan. 1

Patients visiting their physicians and pharmacists will find some changes in the way drugs are prescribed and dispensed beginning Jan. 1, 1982, according to the Texas Medical Assn.

Two new state laws will allow the substitution of generic drugs for brand-name drugs in many cases, and will require physicians prescribing certain narcotics to fill out a new form. The form is designed to discourage both the diversion of prescription drugs to street use, particularly by drug users pretending to be ill, and the possibility of abuse in prescription writing.

In approving the generic-drug law, the Texas Legislature's stated intent is to save patients money on prescriptions. The legislation allows pharmacists, with the physician's permission, to substitute a cheaper, "generically equivalent" drug for the brand-name drug. The law says pharmacists should pass along the net savings on drug costs to the consumer.

The generic substitute must contain identical amounts of the same active ingredients as the brand-name drug. The substitute also must produce a therapeutic effect of the same strength and duration as the brand-name drug.

To allow the generic substitute, physicians first must give approval on the prescription by signing the blank labeled "Product selection permitted." (The other option is to require the brand-name drug by signing the blank labeled "Dispense as written.") If "product selection" is permitted, the pharmacist can substitute with a cheaper, generic drug — but only if the patient agrees. Before delivering the medication, the pharmacist must inform the patient — orally or by a posted sign — that a substitution can be made.

The patient has the right to refuse.

The law also stipulates that the pharmacist cannot substitute unless the cost to the consumer for the generic product is less than that of the brand-name product prescribed. Some drugs are not subject to substitution.

The second law, part of Gov. Bill Clements' "War on Drugs" program, will prohibit physicians from prescribing or administering certain narcotics and other drugs directly to patients (except those hospitalized) without completing a triplicate prescription. The doctor and the pharmacist each will keep one copy, and the third will go to the Texas Department of Public Safety. The form will include the date the prescription was written; the drug prescribed, dosage and instructions for use; and the patient's name, address and age. The information is intended to aid the DPS in its efforts against illegal drug use. This computerized information will be available only to investigators from the licensing boards for physicians, dentists, podiatrists and veterinarians, and to authorized DPS officers investigating suspected criminal drug violations. The DPS officers, however, must have the appropriate licensing board's approval.

Some of the drugs covered by the law include amobarbital, amphetamine, cocaine, codeine, meperidine, methadone, methaqualone, morphine, opium, oxycodone, pentobarbital and secobarbital.

Mrs. Anderson Is A Fan Of Collins Of Texas Bags

Collins of Texas, manufacturers of ladies handbags, has a real fan in Maryle Grace Nance Anderson. She has been collecting Collins bags since about 1955, a few years after the company was formed, and now owns 96 bags. She keeps them in a large bedroom closet her husband built for her.

Her favorites are the jeweled bags, but she has a few more of the leather ones.

Mrs. Anderson says the only bag that wore out was the first one she bought, one with a blue fish on it.

To show their appreciation to Mrs. Anderson for being a long-time loyal customer, the management of Collins of Texas recently presented her with a free bag.

Co-Ops Ordered To Pay LCRA

Pedernales and Bluebonnet Electric Cooperatives will comply with a Texas Public Utility Commission order to pay their October power bill to the Lower Colorado River Authority but will appeal the payment of any penalty charges.

A PUC examiner last week ordered the co-ops, LCRA's two largest wholesale customers, to pay the full bill rather than continuing to withhold the disputed amount which is being challenged in a $138.5-million lawsuit against LCRA.

Following the filing of the lawsuit challenging LCRA's rate structure, the two co-ops, acting under an order issued by District Judge Charles Matthews, paid that portion of their monthly bill over nine-tenths of a cent per kilowatt hour into the registry of the county.

That ruling resulted in PEC paying LCRA $556,381.11 from a bill of $2,254,961.13 and placing $1,698,580.02 into registry. BEC paid $330,011.25 from a bill of $1,369,388.79 and placed $1,039,377.51 into the registry.

A week later, District Judge W.C. Wallace ordered the original order set aside and the money in the registry returned to the co-ops. The cooperatives purchased certificates of deposit with the disputed sums, pending resolution of the question on whether it should be paid to LCRA.

LCRA successfully sought the PUC order to have the money paid to them. The PUC examiner also ordered the payment of any penalty charges.

"Since we were acting under a court order in placing the money in the registry of the court, we don't believe we should be forced to pay a penalty charge and will appeal that aspect of the PUC ruling," PEC General Manager Bennie Fuelberg said.

Texas Heritage

By Garland Parry

Much has been written about Indian depredations in pioneer Texas and no place was it more evident than in the Hill Country, our last major frontier, that was settled in the 1840's and 50's.

The Indians had become more desperate and more hostile as they were incessantly pushed back from their favorite hunting grounds into the plains and desert areas of the west.

One tragic incident occurred in 1859 near what is now Ingram in Kerr County. Rowland Nichols, a sturdy citizen who came to Texas in 1857 and was then serving as County Commissioner, walked away from his cypress shingle camp late one evening to hunt for wild turkey. When he didn't come home after dark, neighbors were alerted. Early the next morning a search party tracked Mr. Nichols up a draw about a mile from the camp where they found further signs of a commotion involving Indians. The trail turned abruptly and about a mile further Mr. Nichols' body was found under a tree where he had been murdered.

Reconstructing the events, the search party determined that Mr. Nichols was ambushed by the Indians in a ravine and was shot in the chest by an arrow. He dropped to his knees from the impact but recovered and ran to the location where he was killed by a bullet to the chest from a rifle. Evidence showed that he put up a desperate struggle with his foes. Bark was stripped from the tree that he circled time and again, using it as a shield as the Indians closed in for the kill. Mr. Nichols's rifle was later found buried in sand near where he was first attacked. It had not been fired.

Rowland Nichols was buried in the old Nichols Cemetery at Ingram. His widow and seven children remained in Kerr County and a number of relatives still live in that area. In 1954 a grandson, Rowland V. Nichols II (above), was elected County Clerk and died in office several months later. His son, Doyle Rowland and grandson, Roger Rowland Nichols of Kerrville still bear the family name.

Bandera Woman Injured In Two-Car Accident

Nancy N. Matthews of Bandera was injured in a two-vehicle accident Tuesday afternoon, December 15. The car she was driving was heavily damaged when it struck the rear of a slow-moving vehicle which had driver onto the highway from a side road. The accident took place about five miles north of Bandera on SH 173.

At Commissioners Court . .

Bandera County Commissioner's Court held a special session Thursday evening, December 17, to consider several matters.

Highway Department Property

The court discussed buying from the state the property on SH 16 west of Bandera which was used before the 1978 flood as the maintenance yard for the State Department of Highways and Public Transportation. No action was taken on this matter at this meeting.

If the county changes its system of road maintenance to a county-wide system rather than the precinct method now used, this property could be used as a maintenance yard. Considering using the unit system was placed on the agenda for the next regular meeting on January 11, however, a special meeting had been called for Tuesday, December 22, to consider this issue and also consider property acquisition.

Detention Facility

The court voted to accept the proposal of D.R. Building and Supply Co., Inc., to complete interior work in the extra space in the Detention Facility now under construction at the courthouse.

Jail Fixtures

Approval was given by the court to replacing the old bathroom fixtures in the jail with permanent-type stainless steel ones.

Angel Drive

A portion of Angel Drive in Avalon at Medina Lake was accepted by the court for county maintenance.

Re-Plat Vote

Commissioner Jim Russell made a motion to accept the re-plat of Paris Estates, and River Bend Estates I & II. Commissioner Bob Ashley seconded the motion, and in the vote, Russell and Ashley voted for the motion and Commissioners Stanley Tschirhart and Bud Thompson voted no. Judge Rein Vander Zee broke the tie, voting no.

Sending Greetings

The custom of exchanging greetings at holiday time is older than Christmas. The custom of the Christmas greeting card, however, is a relatively new one.

Christmas cards originated about 125 years ago, in England. Despite this recent start, printed greetings quickly caught the public fancy and are today one of the most popular forms of Christmas holiday traditions.

Yesteryear's Customs Live At Yuletide

Candles and carols, trees and treats, gifts and greens — and Santa Claus, of course. Wherever Christmas is celebrated, these symbols seem to appear.

In the modern era of rapid communication, there is a growing uniformity in the ways that people everywhere choose to mark the holiday. Yesteryear's customs, however, still have their place in modern celebrations. It's a case of "the more things change, the more they stay the same," as countries, communities and individuals seek to cherish and preserve their own special holiday traditions.

Some of these traditions, as treasured in memory or kept alive in holiday ritual, are compiled in the following paragraphs, according to information from the editors of Encyclopedia International.

Training Flights Will Pass Over South Texas

The 924 Tactical Fighter Group (formerly the 924 Tactical Airlift Group) recently changed missions and aircraft.

To accomplish the new fighter mission the 924 TFG has changed airplane types from the C-130 Hercules turboprop airlift aircraft to the F-4 Phantom, a combat proven multi-role jet fighter-attack aircraft.

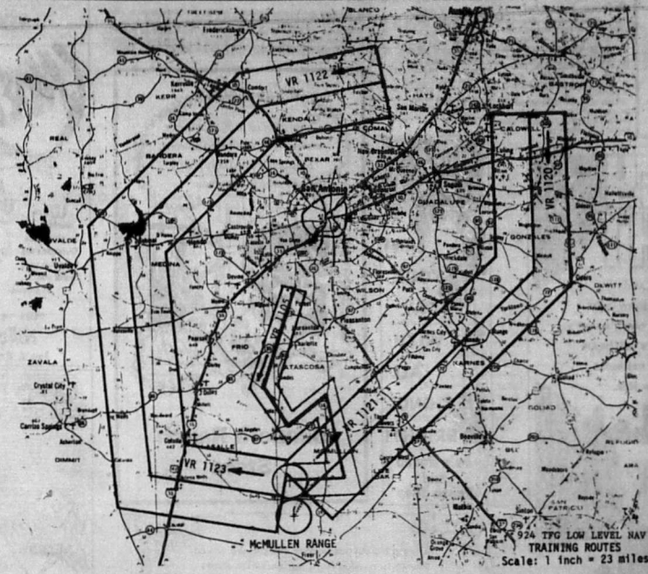

The conversion of the 924 TFG to the F-4 requires that low level navigation routes be flown so aircrews may maintain proficiency in low level navigation in meet Air Force semi-annual training requirements for fighter aircrews. To meet this need the 924 TFG aircraft from the 924 TFG will be flying three low level navigation Military Training Routes in south Texas.

These routes may be flown by 924 TFG aircraft from sunrise to sunset on a daily basis. The missions will usually be flown in formation of from two to four aircraft in various tactical formations at speeds from 360 to 520 miles per hour and at altitudes from 100 to 1,500 feet above ground level. No flights will be flown below 500 feet over populated areas. These routes will be flown only when the weather allows navigation by visual flight rules.

The military training routes includes VR-1122-1123. This route extends 10 miles either side of a line that proceeds west-southwest from the Blanco River 12 miles southwest of Dripping Springs to a highway 10 miles northwest of Boerne. Then the route turns more directly southwest to a highway three miles northwest of Sabinal. From this point VR-1122 turns south and extends approximately 63 miles to a road bend 12 miles southwest of Cotulla. The final portion of this route runs southeast where it terminates at the McMullen range.

This route may also be flown on a backward track from the range to the initial starting point (VR-1123).

To determine if these low level military training routes are being used by 924 TFG aircraft, contact San Antonio or Austin Flight Service Station (FSS) for VR-1122 or 1123.

CARDS WERE GENERAL

Most of the popular Christmas cards of the later 19th century in Europe had no particular Christmas significance. There were some manger scenes and others of religious nature, but these were far outnumbered by landscapes, flowers, kittens, and similar subjects.

Driving Yule Out

St. Knut's Day, January 13th, is the traditional time for taking down Christmas greens in Sweden. According to custom, as the tree is dismantled, young folk dance while their elders sing, "Twentieth day Knut driveth Yule out."

This custom is believed to be derived from the laws of King Canute, written in the early 11th century.

Singing Carols

With voices lifted in harmony for "Silent Night," "The First Noel" and other beloved songs, today's carolers carry on a Christmas custom that originated centuries ago.

In the fourth century A.D., St. Basil was praised with a musical poem in honor of the fight for Christianity over the Byzantine emperor Julian. Later in Greece, legends of St. Basil were set to music and sung at Christmas and the New Year.

St. Francis of Assisi led the villagers of Greccchio in singing hymns of praise to the Christ Child when in the 13th century he created a manger scene in this Italian town.

Blood Pressure Is Lifelong Disease

In most cases high blood pressure is a lifelong disease and is usually incurable, reports Dr. Mary Ann Shirer, a health education specialist.

"If your doctor tells you your high blood pressure is down to normal, you aren't cured. It merely means that since you're taking your medication and have done the things your doctor advised, you are controlling — not curing — your high blood pressure," she explains.

In order to enjoy a full and healthy life, continue to follow the doctor's treatment plan, she encourages.

SAR & NSDAR Meet

The Lt. Abraham Cantine Chapter of the SAR and the Bandera Chapter of the NSDAR met December 17, at the Mayan Ranch.

"Bells, A Brief History" was the subject of Mrs. E. M. Rosentreter's talk. Bells come on all sizes and shapes but are predominently tulip shaped, that they are considered musical instruments and that the world's largest is to be found in Moscow. It weighs approximately 432,000 pounds and is said to have a height of 20'7", a diameter of 22 feet and a circumference of 63 feet.

A carillon is composed of at least 23 bells and plays the chromatic scale by means of a keyboard mechanism, whereas chimes are fewer than 23 bells and play only whole notes. She said the 72-bell carillon in Park Avenue Baptist Church in New York is the largest in the U.S. Mrs. Rosentreter then gave a historical outline of the Liberty Bell from the first crack to the last.

Later the children's bell choir of the First Methodist Church in Bandera, led by Gloria Roberts, played Christmas carols.

A THOUGHT FOR THE WEEK

By John M. Grimes

Tradition has it that Marco Polo had a great interest in the Wise Man. He went to Persia to find out all he could about them. In a little town there he found a devotion in the Three Kings who had followed a star to worship a great Being born in the West, and their ages were very different. This intrigued Marco Polo.

The story is told that when the Three Kings came to the stable at Bethlehem they went in one at a time. First, the old man. Instead of finding what he had expected, he found an Old Man who talked with him. He was then followed by the middle-aged man. He was met by a Teacher of his own years who spoke with him. The young man entered and found a young Prophet. The three met together outside the stable and marvelled — how was it that all three had gone in to worship this Being Who was just born, and they had not found a Child, but three Men of different ages? Taking their gifts they went in all together, and were amazed to discover that the Prophet was then a Babe of 13 days old! Each saw separately in Christ the reflection of his own condition and age. But when they were in together, they saw Christ as He was. We shall find in Christ the answer to all our needs, and all the periods of our life . .

How Many Wise Men? Answers Are Many!

Three wise men?

In New Testament stories of the Nativity, only St. Matthew tells of "wise men from the east" — and how many wise men followed the star to the manger is not stated. The tradition that there were three probably comes from St. Matthew's description of three gifts — gold, frankincense and myrrh.

Another explanation for varying numbers of wise men. Twelve was the number traditional in the Eastern church, while in the West, mosaics and paintings showed sometimes two, sometimes three, four or more wise men.

During the sixth century, the idea that there were three came to be generally accepted. In legends, the wise men were given names: Melchior, Gasper, Balthasar.

Although St. Mathew did not use the name "Magi," he implied it when he wrote of "wise men," for "magi" was commonly used in Palestine to mean "great, illustrious."

Today, Nativity scenes show three wise men or Magi present at the manger along with the shepherds, who hastened to Bethlehem on the night Christ was born. Some historians, however, believe that the visit of the Magi didn't take place until much later — perhaps a year or even two years after the birth of Christ.

Filling Pockets

In Italy, Befana is the gift-giver who preceded Santa. She took her name from the name for Twelfth Night — Epiphania, or Epiphany — and brought her gifts on hang up their clothes. Then Epiphany Eve, January 5th, into each pocket goes a surprise. To make ready for Befana, prie — something good to tradition says, Italian chil- eat.

Loeffler Staffer Joins The Reagan Administration

Congressman Tom Loeffler, R-Texas, has announced that Mary Lou Grier, a long-time member of the official "Loeffler family," will leave his staff at the end of this year to join the Reagan Administration.

"Mrs. Grier will be appointed in January to a high post in the Department of the Interior, working closely with Secretary James Watt," Loeffler said.

"Mary Lou has been my strong right arm," Loeffler said. "She, as much as anyone, is responsible for my first election in 1978. Since that time, she has served as special assistant in our San Antonio district office and most recently has been office manager in our Kerrville district office.

"I view Mary Lou's departure with very mixed emotions. On the one hand, she will be invaluable to the President and Secretary Watt, since she is an experienced hand at Interior and knows their programs well. On the other hand, her dedicated service to the 21st Congressional District of Texas has been outstanding and all of us will sorely miss her sage advice, wise counsel and warm support. As I reflect, however, we are really not saying goodbye; we are only sharing her expertise with the Reagan Administration."

Mrs. Grier is married to Baxter Grier, president of Alamo Iron Works in San Antonio. They live on their ranch outside Boerne. She will commute between Washington and Texas, maintaining her Hill Country residence in the 21st Congressional District.

Replacing Mrs. Grier as office manager in Kerrville is Betty Murphy of Comfort.

Mrs. Murphy, a graduate of Harlandale High School in San Antnio and Southwest Texas State College in San Marcos, has been very active in volunteer work and is an ambulance driver for the Kendall County Emergency Medical Service.

"We welcome Betty to our staff and our family," Loeffler said of his new appointment. "Her insight, her knowledge of the Texas Hill Country and her keen spirit of participation will enable us to maintain the high degree of performance and service needed in a congressional district office."

She is married to Ross Murphy, a science teacher at Comfort High School, and is the mother of four children. In 1978, the couple were named the "Outstanding Citizens of Comfort."

King's Pecans To Compete For State Honors

The first annual Hill Country Pecan Show turned out to be a big success for pecan producers from Bandera, Kerr and Kendall counties. Five producers brought 18 pecan samples from Bandera County. Producers exhibiting were Joe and Melba King, Homer DeViney, Boyce Gaskin, Jack Killough and Vernon Poster.

From those 18 samples, nine were selected to go to regional competition in San Antonio. More than 250 samples were entered from the South Texas region, and a sample exhibited by Joe and Melba King will compete at the State Pecan Show.

Pecan Cook-Off Winners Announced

Ninety-six gourmet pecan cooks gathered for the Tri-County Pecan Bake Show held Saturday, December 5, in Kerrville for the selection of the grand champion pecan dish. Lisa Hough of the Blue Ribbon 4-H Club took top honors with her "Southern Cheese Log" and received $50 cash award.

Reserve Champion honors went to Linda Baker of Center Point for her "Turtles." She received a cash award of $25. Each champion in the Youth and Adult Division received $10 cash awards.

Entering from Bandera County were Jeannette DeViney, winning 1st place in the adult quick breads division, Shermalee Mack, second place, adult miscellaneous division with meat pies, and Janise Russell, participation ribbon for decorated yeast breads.

The Pecan Bake Show was sponsored by the County Extension Service Horticulture Committees in Bandera, Kerr and Kendall Counties, a part of the Texas Agricultural Extension Service.

Bringing the Tree

Christmas trees were first introduced to France in 1837, when Princess Helen of Mecklenburg married the Duke of Orleans and brought with her to Paris the Yule customs of her native country.

In spite of this and many later efforts to advance the cause of the Christmas tree, Parisians still prefer the earlier tradition, which says that gift exchange time for French adults is New Year's day.

Behold the Lord Jesus as he lay surrounded by those who loved Him. Hear His message...and spread the divine goodness everywhere, always!
Bandera Electric Cooperative, Inc.

Thanks, partners, for your special friendship throughout the year! May your Christmas be merry!

The Scientists Tell Me. . .

Proposed Changes in Beef Grading Should be Designed to Improve Uniformity

By Robert L. Haney
TAES Science Writer

Today's mass markets need uniform products and beef tags behind most other food products in achieving this uniformity. Increased accuracy of beef grading in describing quality characteristics should be a primary aim of any changes in standards, according to Dr. Don Farris, Professor in livestock-meat marketing at Texas A&M University.

Such an improvement would facilitate sorting beef items into more uniform lots, improving market communication and reducing marketing costs.

The government is considering holding hearings concerning proposed changes in the beef quality grading system. If such hearings hold true-to-form, they will be controversial due to a wide variety of interests.

"The major reasons advanced by some groups for changing beef grades is that it would be consistent with the apparent trend in demand for leaner beef. Some argue the change would cause leaner beef to be produced and less grain would be fed to cattle," according to Farris. "In my analyses of beef markets, I have seen no evidence of these voluntary grades influencing length of feeding."

"There have been several grade changes reducing fat requirements, but the measurable changes in length of feeding have been due to expected market conditions. For example, cattle were fed too long in 1974 when feeders expected the market to improve, and cattle were not fed long enough to suit the market in 1975 when the cattle market was seriously depressed and grain prices were high. Both developments took place before the last grade change was made."

Consumer preference for leaner beef is a long-term trend, according to Farris' research with the Texas Agricultural Experiment Station. It is indicated from analyses that showed the price spread between USDA Choice and USDA Good grade slaughter cattle was narrowing each year by about ten cents per hundredweight during the 1955-68 period when beef prices were more stable. The premium for USDA Prime over USDA Choice declined even faster.

This trend to leaner beef is continuing today, Farris says, though recent price and supply fluctuations make it harder to prove.

Official grades for beef are mainly designed to describe different degrees of fat tissue distributed through the lean (muscle) tissue, referred to as marbling, and different thicknesses of fat covering the carcass.

The degree of fatness in quality grades for steer and heifer beef declines in descending order for USDA Prime, USDA Choice, USDA Good and USDA Standard. The grade with the highest volume has been USDA Choice, whereas USDA Prime, the most expensive grade to produce is a small percentage of output. USDA Good is second in volume and for USDA Choice, yield grade 3, that it wants grain fed beef with a relatively low amount of waste fat. Some buyers pay a premium for even less waste yield grade 2. If beef grades can be changed to more precisely indicate quality characteristics, then producers, processors, retailers and consumers could benefit, Farris concluded.

The basic purposes of official grades for food products is to provide a widely accepted set of standards for all types of commerce. Some have been more useful than others, and most lack sufficient precision to suit some interests. In the absence of adequate grade standards, market firms develop their own. Sometimes they are fairly standard throughout the industry while others may be unique to a firm or certain types of firms. The advantage of federal standards is they are available to all and may be more widely accepted.

"Beef grades lack precision because of the wide variability among animals and variability of meat quality within a carcass, but these grades have been among the more widely used voluntary official standards," Farris says.

"Some firms do not use them at all, preferring their own specifications and identifying a set of specifications by a brand name rather than a grade. For example, a major food chain has never used them, preferring to use their own brand, and several others in recent years have discontinued the use of beef grades.

"Other firms use the official grades and add additional specifications to increase the descriptive precision and the uniformity of product traded. For example, the last grade change allowed Prime breeds to grade Choice for the first time. Some retailers then added to their specifications, so dairy carcass accepted. Clearly, if grades can be improved by adjustments and "fine tuning", they will improve communication in the market system.

"Because the voluntary grades only describe the product, and the market sets the premiums and discounts for different qualities daily, it doesn't follow that changing the grade specifications would be the cause of more or less grain feeding or longer feeding.

"Grade changes should not have any effect on the quantity of "heavy finished beef" preferred by some of the restaurant trade. It will be produced at the longer run only if buyers will pay for the added cost.

"Consumers can expect to pay a fair price for the quality they prefer, because the wholesale market daily adjusts the premiums and discounts for different grades, qualities, and cuts. If a retail store doesn't reflect these wholesale price differences, it can expect competitors to take over some of its business."

If a market system is working well, it is supposed to tell producers what consumers want. It is also supposed to tell consumers what producers can afford to produce.

Since the market keeps all segments in almost constant communication, there is a continued negotiation of how much producers will sell at specified prices and how much consumers are willing to pay for specific qualities.

The market is also a great protector of minority interests. Not all consumers want the same qualities and not all producers are interested or capable of producing the same qualities.

A good market system can either accommodate everyone's individual desires or change the prices enough to change peoples' minds.

But the market does not work perfectly. Producers cannot always interpret the signals correctly and consumers can change their preferences; however, the market then begin to adjust; if beef grades are changed, the market will immediately start adjusting premiums and discounts to the new grades.

In any case, the expected relative price of different grades (at determined by consumer demand) and the cost of grain mainly determine how long cattle are grain fed and what qualities are available in the market, Farris points out.

For example, consider how the market valued different carcass qualities the first eight months of 1981. USDA Choice yield grade 3 had a higher price than top USDA Good by 4 cents per pound. Carcasses with excess waste fat — USDA Choice yield grade 4 — were more than 10 cents lower.

This demonstrates that the market is already inflicting a heavy penalty for waste cattle whether the cause is genetic or over feeding; but it is also signalling with the premium its price below Choice varies in the short run mainly due to supply and feeding costs. Yield grades estimate the percent of lean retail cuts to total carcass weight.

Food Can Spoil Holiday

One of the more popular events during the Christmas festivities is usually the traditional meal. As enjoyable as it is, there are precautions that both the cook and the diners should take to make sure it is a holiday also to remember.

Foodborne illness is a common problem when large amounts of food are prepared in the home, says the Texas Medical Assn. The most common, avoidable errors made in food preparation related to time-temperature abuse, the amount of time foods are left at medium temperatures between cooking and refrigeration) should be kept at a minimum to avoid multiplication of bacteria that may cause disease. Always keep hot foods hot and cold foods cold and return unused portions of food that have been refrigerated promptly so they will stay cold.

Many food infections are caused by eating germs.

Almost all species of salmonella organisms grow rapidly in such foods as eggs, meat and milk from warmed animals. The germs can survive for long periods outside the animal body but proper cooking renders most foods safe.

Christmas means turkey and dressing in many homes. There are several specific rules for preparing both.

A frozen, plain turkey should be defrosted for several days in the refrigerator. Defrosting at room temperature is not recommended because it encourages the growth of bacteria. Fresh turkeys should be purchased close to the holiday and stored in the refrigerator no more than one or three days.

Frozen, prestuffed turkeys should not be defrosted before cooking. Read the label to find out the ingredients and the cooking instructions.

To prevent the growth of bacteria when preparing stuffing, stuff the bird loosely just before cooking and remove the stuffing as soon as the bird is done. Better yet, cook the stuffing separately so it cooks fast enough to keep bacteria from having a chance to grow.

If you suspect food poisoning (rapidly appearing symptoms are fever, headaches, nausea, vomiting, cramps and diarrhea), seek medical attention immediately.

Kelly Scott, Rob Sandidge and Freddie Flach were wrapped for Christmas by the Webelos den at the Christmas party.

Cub Scouts of Pack 146 and their families celebrated Christmas with a party Thursday, December 17 at the Scout Hut.

The Pipe Creek den, directed by Linda Cole, led as audience-participation skit.

Then the Webelos den chose from the audience three fathers to wrap as Christmas packages.

Awards which had been earned were presented to the following: Tobey Sandidge—bear badge, 2 year pin, Webelos colors and citizen pin; Scott Post—citizen and artist badges; Dustin Fitzgerald—Webelos colors and citizen pin; Jeff Cole—bobcat badge and Webelos colors; Frerich and Gilbert—citizen pins; Kevin Cole and Casey Jenkins—bobcat badges.

Regatta boat kits were distributed as gifts from the pack before refreshments were served.

Texas Heritage

By Garland Parry

Captain Charles A. Schreiner is often referred to as "The Father of Kerrville" and he is one person whose figure stands paramount in the history of the Texas Hill Country.

Immigrating to Texas with his family in 1852, young Schreiner joined the Texas Rangers two years later at age 16, and campaigned against the frontier Indians. He acquired a ranch near Kerrville and married Miss Lena Enderle in 1861. In less than a year he enlisted in the Confederate Army where he served for 3½ years.

The Schreiner family suffered extreme harships and poverty after the Civil War, but Mr. Schreiner readily accepted the challenge to not only survive but to move ahead in those difficult times. Using his keen foresight and management skills, he worked tirelessly—relying upon his innate ability and courage—as he charted a course into the fields of ranching, finance, business and commerce. First he teamed up with John T. Lytle and August Faltin in sending herds of Longhorns up the cattle drive trails to northern markets. Next he saw the need for a merchantile store in Kerrville and in 1869 he persuaded Mr. Faltin of Comfort to furnish the capital for a joint business venture. The little general store was a success and in 1869 Capt. Schreiner purchased Mr. Faltin's interest. Later they were partners in the merchantile business at Center Point, Ozona, Ft. Stockton and Junction.

As his vast land and business empire grew Mr. Schreiner took great interest in the development of his community, always encouraging men with leadership and integrity to devote time to public service. Before he died in 1927, the Schreiners had given more than one million dollars to philanthropic causes, including 700 acres of land for the present V.A. Hospital and more than 1000 acres and $500,000.00 cash to establish Schreiner Institute—now a four year college.

Bob Bennett, in his 1956 History of Kerr County said, "In essence the story of Kerr County is the story of Charles Schreiner.

Opal Word of the First State Bank and Bill B. Barrick, Austin artist, compare his painting of the old First State Bank building at 11th and Cedar Streets with his 1980 painting of the Bandera County Courthouse.

First State Bank of Bandera reached back into its historic past for the 1981 traditional Christmas Texas Heritage Art Series gift to customers and friends in Bandera County.

The painting of the 1850's period building, in which First State Bank—the first bank in Bandera, established in 1910—was selected by the bank as Austin artist Bill B. Barrick's subject this year. Barrick was in town Tuesday for the bank's open house, autographing copies of his painting.

Santa greeted youngsters in the lobby at the First State Bank during their open house Monday and Tuesday.

Drive Carefully During The Holidays

The Department of Public Safety has estimated that as many as 89 persons may perish on Texas streets and highways during the Christmas and New Year's holidays.

Texas drivers are asked to make this holiday season the safest in recent years.

The DPS estimated that 51 persons would die in motor vehicle accidents during the Christmas holiday weekend and another 38 people would be killed during the New Year holiday weekend. Both periods are 78 hours long.

Sixty-four persons died in traffic crashes during the Christmas holiday period last year, and motor vehicle accidents claimed 58 lives over the New Year's holiday weekend.

Pecan Orchard Field Day Set

The life of a pecan orchard manager is one continual battle to stay ahead of the game. Spray programs are always with them, general orchard maintenance pops up all the time, harvest is a big production and pruning is just around the corner.

On January 5, the Bandera County Extension Horticulture Committee has planned a field day for all area pecan enthusiasts, including orchard managers and homeowners. It will be held at Joe King's Pecan Valley Orchard located southwest of Bandera River Ranch at 2 p.m. Follow the Pecan Valley sign.

Dr. Loy Shreve, Extension horticulturist, will be available for instruction and to answer your questions. Joe King has also been kind enough to let you collect graft wood if you bring your own pruning shears and storage container.

For more information, contact the County Agent's office at 796-3840.

Wool output this year is estimated at 104 million pounds, up three million pounds over 1979, the latest year reported, says Ann Vanderpoorten, a clothing specialist.

Part of the increase is credited to people's need for warmer clothes since they've turned their thermostats down, she explains.

Vanderpoorten is on the home economics staff of the Texas Agricultural Extension Service, the Texas A&M University system.

The Bandera Bulletin

VOLUME 37, NUMBER 25 BANDERA, BANDERA COUNTY THURSDAY, DECEMBER 31, 1981 25 CENTS PER COPY

Dear Friends, Voters and Fellow Bandera Countians All—

Theodore H. White observed at one point in his most recent book, **In Search of History — A Personal Adventure**, Public affairs is an infection of the spirit that is probably incurable." I would have to agree with that observation. I have been afflicted by the particular malady, difficult as it is to quantify, since my college days. It has been my privilege in the succeeding 30 years to have been a participant in public affairs, in varying capacities and to varying degrees, at the county, state and federal levels, although in reverse order in my particular experience. For making it possible for me to complete this personal odyssey through the landscape of our country's political and governmental subdivisions, I will be ever grateful to the voters of my home town and county for electing me as their County Judge in 1978. Regretfully, I will not be a candidate to succeed myself in the 1982 elections. I am so announcing at the beginning of my fourth year in office, so that any individuals interested in seeking the position will have adequate time for their decision-making before the filing deadline without any concern for an incumbent candidacy.

Of course, I knew when I ran for the post in 1978 that it did not pay a great deal. However, I never intended to have to depend on the salary as a sole source of income. Succeeding developments in the economy generally and in the interest rate in particular served to effectively eliminate my prospects for outside income. Hence the necessity for me to move on to more remunerative activities in my profession, business or both. Analysts are beginning to talk of our economic future in terms of survival and, given even the heartiest of their predictions, it appears each of us may have to have his particular capabilities carefully disciplined, stay ever-alert and keep the door to any opportunity fully open at all times. Obviously this cannot be done when one's pre-occupation must be exclusively, or even nearly thereto, the arena of public affairs.

Further, I have never been sufficiently interested in money, in and of itself, to accumulate any of it — and certainly not enough to secure my future. Heretofore I always earned enough for my immediate needs and those of my family and only considered money a means to an interesting and fulfilling existence. If this was short-sighted then I must plead guilty, but I think it may be fairly typical of my generation which grew to adulthood during and after World War II in an ever-expanding and productive economy. It seems that I may now wish to revise my thinking. This year will mark my 40th anniversary as a contributor to the Social Security System but I have to accept the likelihood that I will never see any return from that source during my latter years. Here again, a compelling need to devote some time and attention to my individual, rather than our collective, future.

So, to those of you who supported me in the past and who might be inclined to do so in the future, with thanks I ask your understanding and offer my sincere regrets for being unable to seek re-election as your County Judge.

I hope good candidates will be forthcoming. Bandera County needs and deserves effective and capable leadership as she continues through the coming years of in-migration and development. County officials advise me that transactions have nearly tripled in their offices since 1978. Our population increased 30 percent in the past decade and could possibly double in the next. These types of developments demand foresight and effective, innovative leadership and management, lest the problems that they bring become hopelessly unmanageable as well as totally unaffordable by our taxpayers.

I think your Commissioner's Court during the past few years has laid a good foundation, given the limits of the authority within which we must operate, for the future management of our County's affairs. Before departing office, I will prepare a detailed "State of the County" paper, which I will file with the Bandera Bulletin as a public service message. In this paper I will detail developments of the past four years as well as advise on what I feel some of our future priorities should be. I hope that all of you who have an abiding interest in Bandera County and her future will take time to read it.

In the meantime, I will round out the coming year at the helm of your county government while seeing through to completion such projects as the County Law Enforcement Center, the Mansfield Park improvement project, consolidation of the county's road maintenance functions into a centralized system, and, hopefully, the establishment of a county-wide system of solid waste collection and disposal.

The very best to each and all of you for 1982 and beyond.

Bobcat Confirmed As Rabid

By Conrad Nightengale, DVM

Once again a rabid animal has been identified in Bandera County. A bobcat found sitting in a carport was sent to the Texas Department of Health and positively identified as rabid last weekend. The bobcat was found between Bandera and Medina.

These animals roam wide areas of countryside and expose large numbers of animals in their travels. Everyone is cautioned to be especially cautious of any wild animal that appears friendly or one that is displaying strange behavior. This applies to the hunters and trappers in this area also.

Leaving an animal carcass for a period of time before skinning it can help minimize the risk of contracting rabies from a trapped animal. Be sure to wear heavy gloves at all times while handling any trapped animals. As an added precaution, visit your physician for a vaccination against rabies before you go out trapping.

If you see an animal that you suspect of being rabid approach with extreme caution. Remember do not shoot it in the head or in any way damage the head as this is needed for the rabies test at the laboratory. Take the whole animal immediately to your local veterinarian for him to remove the head and submit it for testing.

Photographer Wanted

Any photographer interested in taking pictures commercially at the Bandera County Junior Livestock Show and Auction, January 14, 15, and 16, is asked to contact the publicity chairman, Cynthia Schwarz, immediately at 535-4333. 25-2tc

We Loved Our Pets—Too

This note is addressed to the owners of large dogs in the vicinity of Lakehills and Pebble Beach. If your dog had blood on his fur Sunday morning, December 27, he killed our pet sheep. Our sheep were in their pen and your dogs came over the fence and tore the flesh from these defenseless animals. One sheep was too heavy with lambs to run and the other was crowded into a corner and badly mutilated. Both were dead. What right do you have to allow your dogs to roam and destroy anothers beloved pets? Please keep your dogs penned or leashed. The Si Turners 25-1tc

Condolences

Condolences are extended to the family of Bob Moore. Bob was a civic-minded community member who devoted time to making Lakehills and Pebble Beach better places in which to live. He was a member of the American Legion Post 410, the Medina Lake Volunteer Fire Dept. and the Medina Lake Betterment Assn. Bob was held in high esteem by everyone who knew him and will be missed.

The Davenport Family

The Davenport family is made up of a family unit, father, mother and three children, most of them have been in the music profession for five years and longer. Bob, Sr., plays lead guitar and sings; in fact, every member of the family sings. Kathy (mom) plays back-up rhythm guitar; Bob Jr. plays bass guitar; drums and guitar and sings; he fronts the band most of the time. Christa plays steel guitar. Vance is the youngest member of the group and is one of the tightest drummers around. This talented family band will play dance music for all age groups at the Sportsman Inn on Jan. 2. See advertisement elsewhere.

A Thought for the Week

By John M. Grimes

"Tempus Fugit." Time indeed flies and we are always asking ourselves where it has gone. As the New Year approaches it reminds us of a thought we would like to share with you . . .

Suppose someone were to hand you a check made out in your name, properly signed, but with the amount left blank to be filled in by you for as much as you desire. Probably everyone at some time or another has indulged in daydreams centering around a desire to have everything he wants and the idea of a blank check comes to mind. Yes, it might be nice, you say, but it will never happen to me.

Yet, each of us is given a gift by God which is very similar to a series of blank checks. "Here you are," says God, "here is a life all your own. You may make it as valuable as you wish and spend it any way you like."

The thought of God's blank check has a special meaning for us as we begin a New Year. We can look at the calendar and see the new days, weeks and months. Here is a period of time we can use as we please, time unmarred by conflicts, disappointments and failures. Let us look ahead to it with hope and optimism. Another opportunity has been born. May the memories of the Old Year be the lessons of the New Year. May the opportunities of the Old Year be the challenges of the New Year. Let us spend it wisely . . . .

VETERANS WITH ANKYLOSIS ELIGIBLE FOR VA ADAPTIVE EQUIPMENT

The Veterans Administration is now able to reimburse veterans suffering from service connected ankylosis of one or both knees or hips, for the purchase of adaptive equipment which will enable them to drive their own automobiles or other vehicles.

The expansion of VA's automobile adaptive equipment program was made possible by recent Congressional action.

Under the program, VA makes available grants of up to $4,400 for some seriously disabled veterans to purchase an automobile or other conveyance.

The agency also pays for special equipment, such as engine and steering controls and wheelchair lifts, required for the operation of the vehicle by the disabled veteran.

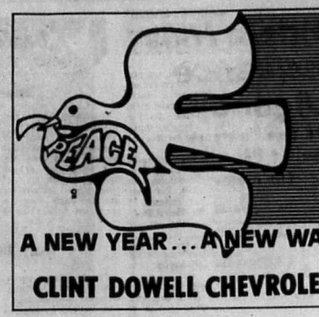

The $4,400 one-time automobile purchase grant goes to veterans or active duty personnel with service connected loss, or permanent loss of use of one or both hands or feet, or permanent vision impairment to both eyes to a prescribed degree.

Victims of ankylosis are not eligible for the vehicle purchase grant, but only for VA adaptive equipment.

VA will also pay for the repair, replacement or reinstallation of the special equipment in subsequent vehicles.

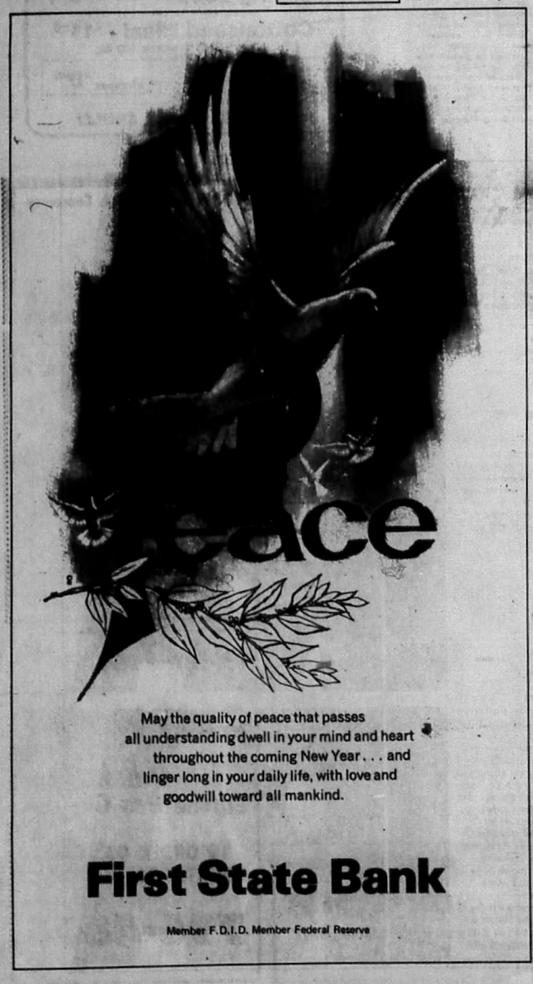

Veterans having questions concerning the purchase grant or eligibility for adaptive equipment should contact the nearest VA regional office.

Hill Country College Fund Nears Goal At Schreiner

Hill Country College Fund Chairman Tom Smith has announced that the annual scholarship drive for Schreiner College has almost reached its 1981 goal.

More than $187,000 has been received from more than 500 donors and college officials anticipate a successful conclusion by January 15.

"We feel really positive about the Hill Country's response thus far," Smith said. "I urge those supporters who have given in the past to help push the drive over the top before the year ends. In addition, we would appreciate all of our friends who still have charitable tax deductions to take in 1981 to consider supporting this worthwhile cause."

This annual fund drive finances Hill Country Tuition Grants, reductions of up to $800 per year, for every Hill Country resident who takes classes for credit at Schreiner. More than 200 area students from Kerr, Kimble, Kendall, Gillespie, Real and Edwards counties are now benefitting from the tuition grants which are a result of the fund drive. The 1981 fund drive goal is $175,000.

Kareb Kilgore, director of college advancement at Schreiner, encourages last-minute donors to respond now.

"The college can credit a person with a 1981 deduction if we receive a check before December 31, 1981. While it would be wonderful to conclude the campaign this calendar year, it is even more important to think what the HCCF does for the young people of our community. We know of no campaign like this in the U.S. which turns 100 percent of its receipts directly back to the community in the form of tuition grants. That more than 500 people already have supported the drive enthusiastically is overwhelming. We are very grateful and anticipate announcing in January a successful campaign.

Will We Have A Flu Epidemic This Year?

Texas may escape a major flu epidemic this year, researchers at Baylor College of Medicine said today.

While there is still a chance for a surprise epidemic, it almost certainly won't come until January, after students return to school from the holiday break, say the researchers at Baylor's Influenza Research Center.

They caution, however, that influenza vaccinations are still advised for people with heart or lung disease and the elderly, since forecasting outbreaks is difficult and annual vaccinations are necessary to maintain immunity.

So far this year, the flu season has been relatively mild and the number of respiratory illnesses in Houston were below last year's level until a few weeks ago.

For the 1981-82 season there are several things the Baylor flu researchers can say with certainty.

—Because schools provide the close contacts that can result in flu epidemics, the current holiday break provides a "buffer" on top of an already mild year for the illness — delaying any possible epidemic this winter.

—Influenza B virus, which already has caused sporadic infections this fall, may cause a mild outbreak later this winter.

—A variant of the Russian flu (A-England) virus may surface, because more young people have less immunity to this virus type.

—People below the age of 30, particularly school children, will be more susceptible to the variant.

Although predictions for a particular season are partly based on who is most likely to become ill, all people exposed to flu viruses can become ill.

"The virus you meet this year will be a little different from the one you met last year and you may get sick. You don't develop absolute immunity to the flu," said William P. Glezen, MD, of the Baylor center's staff.

For this reason, he recommends that high risk persons and the elderly get vaccinated.

He also cautions that forecasting flu outbreaks remains difficult because so little is known about the viruses and how they circulate.

"So much of the dogma we were taught 10 years ago has been destroyed by what's happened in recent years," Glezen said.

"Two distinct virus types (A-England and A-Bangkok) were circulating last winter, and the Russian flu reappeared in 1977 after its first appearance in 1946-57."

Realizations like these though, have made flu researchers' work less of a guessing game in the last few years.

Predictions for a flu season are based on three different factors.

"First we need to know what viruses have circulated, then we need to know if any new variant appears to be spreading anywhere in the world. Third, we try to determine what population will be susceptible to illness caused by these viruses," Glezen said.

To determine what viruses are circulating, the Baylor researchers look at what viruses caused illness the previous year. Experience in the past has shown that a cluster of late-season viruses — they produce what is called a herald wave — often reappear the following season.

There was no definite herald wave in 1980-81. However, a variant of one of the viruses that circulated last season, A-England, is expected this season.

The center also relies on virus reports from the World Health Organization and laboratories in Australia and New Zealand, because these countries experience their flu season during our summer.

Toots Mansfield enters Rodeo Hall of Fame

By MARJ CARPENTER

OKLAHOMA CITY — Toots Mansfield of Big Spring, world champion roper seven times and a living legend among rodeo cowboys, was officially inducted to the Rodeo Hall of Fame here Sunday night.

A room filled with world champion rodeo contestants from the national finals, longtime rodeo friends, family, and a busload of friends from Big Spring gave Mansfield a standing ovation as the band played, "I'm an Old Cowhand."

It had already been noted that Big Spring was very much present during an impressive flag ceremony that opened the banquet. The 13 flags of the states that built the Rodeo Hall of Fame were raised one at a time in a lighted courtyard supported by cheers of whoever came from each state to the banquet.

JUST BEFORE RAISING the Lone Star flag, the master of ceremonies announced, "And the flag goes up for those from Big Spring, Texas, and all points west," which brought a resounding roar from the crowd.

The entire evening was quite a tribute to Mansfield, "a Bandera, Texas, boy who decided to rope back during the Depression to make a few bucks for groceries." Mansfield, a quiet and modest man, made the longest speech of his life as he expressed his gratitude "for letting this happen in my lifetime when my friends and I could enjoy it."

He gave special thanks to his wife of 41 years, the former Mary Nell Edwards. The couple met during their rodeoing years in the late '30s in Madison Square Garden. Both Mary Nell's brother Sunny Edwards, who used to rope with Toots, and Mansfield's brother Bob were among the many family members present for the occasion.

Toots recalled that "after my late mother saw me rope a couple times, she really thought I ought to take up farming. But she became one of my greatest fans."

The longtime roper credited his "rodeo wife" for her 25 years of support on the road. Mansfield actually has rodeo'ed an additional 25 years in the West Texas and New Mexico area.

MANSFIELD HELD a record number of winners' belt buckles and trophies. Almost all of them were stolen in a burglary at his home five years ago. During a tour of the Rodeo Hall of Fame on Saturday, Toots looked at the showcases full of trophies. When asked what he will put in his showcase, he shrugged off the hurt and said, "Well I'll find an old pair of boots or something."

Toots still holds the record for the most money ever won in one day when he won $2,500 in a winner-take-all jackdown steer roping. He was sharing honors at the banquet Sunday with 23-year-old Jimmie Cooper of Monument, N.M., who was named All-Around Champion Cowboy with a record year's winnings of more than $108,000, just $47 ahead of his cousin Roy Cooper of Durant, Okla.

Both Jimmie and Roy have ridden in junior rodeos and senior rodeos all over West Texas, including Big Spring. Don Gay of Mesquite, who won the bull riding championship again, has also made appearances in the Big Spring show of which Mansfield is a member of the board of directors.

A former and early president of the Rodeo Cowboy Association, Toots was cited by his longtime friend, Tuffy Cooper of Monument, for his leadership in the Cowboy Association and as one of the first rodeo cowboys to be willing to share his secret of success with others by being the first to start training classes.

One of Mansfield's trademarks is the quick way he holds up his hands after tying down a calf. During his brief remarks, Toots expressed amazement that this habit had been singled out for honor. He said in his quiet drawl, "It wasn't that hard — you just throw up your hands and go down to the office and get your money." And he unconsciously made the quick gesture for which he became famous in the arenas.

Juan and the late Tony Salinas of Encinal helped teached Toots to rope, and he in turn taught many others. When Toots attended a gathering of the "Wild Bunch" of longtime rodeo participants, one former protege, Chonis Webster, grabbed Toots from behind in his exuberance and lifted him a foot off the floor.

"Watch my old ribs," Toots gasped.

'I didn't get here by myself,' he shrugged.

ONE FELLOW PERFORMER especially singled out by Toots was Walt Peagan of Rankin, who teamroped with Mansfield for many years. Toots looked out at his host of friends, worried that he might have missed someone, and added, "I see lots of folks I've roped with and ridden with and a whole bunch I've played dominoes with and even a couple I've gone to Sunday school with." Mansfield is a member of First Presbyterian Church of Big Spring.

But as far as Mansfield was concerned, the most important person at the rodeo finals was two-year-old Paddy Ryan Kelly of El Paso, his grandson. His daughter Deane was also present.

The real picture of happiness was on Saturday night at the rodeo finals when Toots was contentedly watching the ropers with Paddy Ryan sitting spellbound on his lap.

The Rodeo Hall of Fame, a beautiful museum and hall that holds art, western displays and portraits, traditionally places four rodeo participants into the hall each year. This year it was the late Mabel Strickland of Walla Walla, Wash., the late Everett Colborn of Dublin, Tex., and Nowata Slim Richardson, 87, of Los Angeles, who was unable to attend.

Mansfield, 67, enjoyed the banquet, the rodeo and the parties. These were filled with well wishers who have been names in rodeo such as Freckles Brown, Jim Shoulders, and many of the also-rans.

Folks even asked about his old horse Money Boy. Tuffy Cooper said, "I have no trouble with singling Toots out as a hero and a legend and a person you'd want your kids to be like."

Cooper told the story of an early champion roper back in the '30s who came back to tell his friends he had been beaten. "Who beat you?" one of his buddies asked. "A young fellow named Toots Mansfield," the roper answered. "I never heard of him," the first oldtimer said, and the roper answered, "You will."

Another old rodeo hand, Red Davis, once defended his gambling habits by saying, "As long as Toots Mansfield ropes, the Yankees play baseball and Shoo Fly runs, I'm going to bet." And to all these accolades Toots said simply, "I'm just lucky. I didn't get here by myself."

of interest to VETERANS

A new federal law signed in November authorizes the Veterans Administration to provide hospital care to Vietnam veterans whose ailments may be linked to Agent Orange exposure, even if scientific evidence of the connection does not yet exist.

* * *

The new law gives similar priority to veterans exposed to atomic radiation during the post-World War II occupation of Hiroshima and Nagasaki or subsequent nuclear weapons tests. This protects veterans whose illnesses are of mysterious origin or about which there is reasonable doubt — vets exposed to toxic agents whose problems are definitely not related to exposure will continue to be handled according to VA rules for nonservice-connected disabilities.

* * *

Claims for disability compensation are not affected by this relaxation of health care eligibility. Public Law 97-72 also extends the "Vet Center" outreach and readjustment counseling program for Vietnam era veterans until September 30, 1984.

* * *

At the end of fiscal year 1981, VA estimated there were slightly over 9 million veterans of the Vietnam era, which the government dates as beginning on Aug. 5, 1964, and ending on May 7, 1975. About 2 percent of them were women. Nearly one-third of all Vietnam era veterans served in Vietnam.

Veterans can get more information and assistance from any American Legion Post or Veterans Administration Office. — Jack Flynt, National Commander.

Put A Little California Sunshine In Your Pork Chops With Dates

Although you may not be able to import it directly, that California sunshine can come to you via the date gardens in India, where those luscious Sun Giant dates have just been harvested. Try Pork Chops California!

The dates add a subtle richness to the combination of pineapple, celery and onions, seasoned with soy sauce for an exotic flavor. The bland flavored pork chops take to this combination like a surfer takes to the sea — each lending its own special qualities to form a perfect union.

Pork Chops Californian

6 pork chops about ¼" thick
1 small onion, chopped
1 cup pineapple cubes and juice
2 tablespoons soy sauce
Dash of marjoram
1 cup sliced celery
1 cup sliced Sun Giant dates

Brown chops on both sides in a small bit of fat in a heavy skillet. Add onion, pineapple and juice, marjoram and soy sauce. Cover and simmer about 30 minutes. Add celery and dates and simmer another 10 minutes until pork chops are tender. Don't overcook the celery. Serve on platter with fruit and juice spooned over the chops. Serves 6.

Free Tax Help

Two free publications issued by the Internal Revenue Service explain federal tax rights and responsibilities for small business owners.

Publication 334, "Tax Guide for Small Business," goes into detail on such subjects as setting up a tax records system, determination of net income, tax credits and business assets. Publication 583, "Recordkeeping for a Small Business," explains what a small business person needs to know to meet tax obligations, such as how to file forms and compute the tax.

Taxpayers can obtain these free publications by mail, using the order form in the tax package.

Proper Field Care of Game Birds

Upland birds — quail, dove, pheasant, turkey, woodcock or rail — are popular game for Texas hunters. Proper care of birds in the field and during cooking assures tasty gourmet meals for the family table.

Several steps must be taken immediately following the kill to maintain top eating quality. Game should be field dressed as soon as possible. For larger birds such as pheasant and turkey, use a knife to cut a slit just below the breastbone and down to and around the vent. Remove all contents of the body cavity. Avoid breaking the gall bladder sac on the liver. Save the gizzard, heart and liver for eating purposes. Place giblets in a plastic bag. Cut near the base of the neck and remove the craw.

Wipe the body cavity clean with a moist cloth or rinse with water. Moisture spreads bacteria which cause spoilage. Most hunters remove the two oil glands found on the upper surface of the tail or the entire tail structure.

Cool the bird by allowing air to circulate in the body cavity. A small stick inserted in the cavity will help it open to speed cooling. Place the birds in a cooler if the outdoor temperature is not cold.

For smaller game birds such as quail, dove, woodcock or rail, hold the bird in one hand and use the thumb of the other hand to remove entrails and the craw. If the smaller game birds are not dressed in the field, they should be dressed at home the same day.

Lake Medina Shores Introduced

Dignitaries from San Antonio, Bandera, and surrounding communities were honored with a reception sponsored by Lake Medina Shores in Bandera, Sunday, December 20. Lake Medina Shores, a lake-oriented, recreational property development, held the reception to acquaint area dignitaries with the development before its grand opening in January 1982.

Lake Medina Shores is the most recent project developed by Tecon Properties, Inc., of Dallas. During the past 18 years, Tecon Properties and its affiliates have successfully developed more than 25 projects in Texas and Oklahoma similar to Lake Medina Shores. Amenities such as pools, recreational facilities, installation of utilities, and landscaping are offered recreational property buyers at Lake Medina Shores and other Tecon Properties' projects. Most amenities are completed before the first piece of property is sold. Areas suited for tent camping, travel trailers, mobile homes, modular homes and residential sites will be available at Lake Medina Shores.

Lake Medina Shores is located on Wharton Dock Road south of Bandera and will be open to the public in January 1982. James Pendley, a Bandera resident, will manage the development.

UTSA Offers Course For Gifted & Talented

High school students may study under outstanding faculty, enjoy a college campus environment and earn college credit at the University of Texas at San Antonio this summer in the university's Gifted and Talented Student Program.

The program, in its third year at UTSA, will offer 10 highly qualified San Antonio high school students the opportunity to earn four college credits in a variety of courses.

Applicants will be chosen on the basis of grades, standardized test scores, recommendations, statements of purpose and, in some cases, interviews and submission of materials indicating potential for the program.

Each student will enroll in two courses — one specific in nature and the other an interdisciplinary study involving films, lectures and discussions.

The curriculum for the 1982 program is Archaeology and the Rise of Civilization, Perceptions, Explorations in Philosophy, Principles of Biology, The Economic Cosmos, Art as Experience, Topics in Modern Psychology, Literature and Film, Alternative Futures, Matrix Algebra and Topics in the Humanities.

Participating as faculty for the program are Charles Field, professor of art and design; Dr. M. Neal Guentzel, associate professor of microbiology; Dr. Thomas J. Hester, professor of anthropology; Dr. Jerome Keating, assistant professor of statistics; Dr. Steven Kellman, associate professor of comparative literature; Dr. Eileen Lundy, associate professor of English; Dr. Marian Martinello, associate professor of education; Dr. Arthur Miller, associate professor of philosophy; Dr. David Schneider, professor of psychology; Dr. Richard Tangum, professor of urban systems-architecture; and Dr. Kenneth Weiher, associate professor of economics and coordinator for the 1982 program.

Applications will be accepted from high school students who will have completed the 10th or 11th grades by May 31, 1982. Also students who participated in the summer 1981 program program who will not have graduated by the date the program begins are eligible to apply.

Regular tuition and fees, as described in the university's undergraduate catalog, are approximately $70. A limited amount of financial aid, which is awarded according to financial need, will be available. Classes will meet daily May 31 through July 2, 1982.

Deadline for application is March 1, 1982. For additional information and applications for admission and financial aid, contact Dr. Kenneth Weiher, faculty coordinator, Gifted and Talented Student Program, Office of the Vice President for Academic Affairs, The University of Texas at San Antonio, or phone (512) 691-4224.

Superior Service Awards Given

Two district Extension directors located at Uvalde, Doyle L. Moore and Gloria Schwarzlose, shared a Texas Superior Service Unit Award in ceremonies in College Station, Friday, November 13.

The prestigious award was presented by Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service, during the Extension Service's headquarters staff conference at Texas A&M University.

Moore and Schwarzlose were cited for "superior performance in effectively demonstrating the team approach in Extension programing and management, resulting in a unified and dedicated staff of agents and specialists working to help Southwest Texas families improve their quality of life."

Moore, a Stephenville native, has been with the Texas Agricultural Extension Service for 31 years. Before assuming his present position at Uvalde, he previously served as district agent in District 10 for about a year. Earlier, he was county agricultural agent in Colorado County for many years, and his first assignment was that of assistant county agent in Washington County.

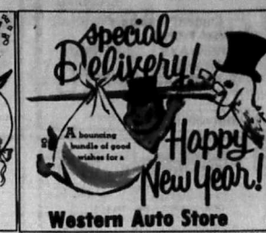

He has a B.S. degree and a master of education degree in agricultural education from Texas A&M University.

Schwarzlose, a native of Seguin, has completed 17 years with the Extension Service, the last 10 years in her current position. Before moving into the administrative role, she was Extension agent in Atascosa County.

She has a B.S. degree from Southwest Texas State University at San Marcos and a Master of Education degree in agricultural education from Texas A&M University.

Coughing Can Be Minor Annoyance or Major Symptom

Coughing is so common that most of us consider it to be "normal." This is particularly true among smokers and people with allergy or "sinus" problems. And since coughs are so common, they are often ignored. However, a change in a cough or a cough that lingers for weeks and weeks should be investigated, says the Texas Medical Association (TMA).

Coughing may develop because of many kinds of infections of the breathing tubes, whether from the common cold or from more serious respiratory problems, such as bronchitis, pneumonia or tuberculosis. It's fairly common for a cough to drag on for weeks after a cold. These coughs are usually harmless and generally won't injure the lungs. A very severe cough, however, can result in chest pains, headaches, and even, very rarely, in rib fractures.

A cough that lasts up to several weeks may be a sign of a potentially serious condition. If you cough persists or produces "mucus" (phlegm (pronounced "flem")) or if it changes in character, you probably should seek medical advice. Coughing associated with infection often produces phlegm or sputum which is yellow-green in color. Coughing up blood is a danger sign that should never be ignored.

Although the causes of coughs are numerous, many of them are related to the irritating effects of smoking. Coughing can be one of the earliest signs of lung cancer. At this stage it may be curable, so smokers especially should be alert to coughing as a warning sign.

Other common causes of cough include chronic ear and sinus infections, allergies and even heart disease.

Treating a suspicious cough means treating the cause of it, not just the symptom. Sometimes a simple physical exam is all that's needed to rule out anything serious. Other times x-rays or other diagnostic tests may be needed. Most of the time coughs are minor and require nothing more than a few evenings of taking an over-the-counter remedy to stop that annoying tickle in your throat. But if you have any of the signs that your cough may be trouble, don't hesitate to check it out. At this stage most disease can be helped effectively. Ignoring a symptom has never cured a disease.

Cheese is a "good" item to have on hand for a nutritious snack, says Dr. Cass Ryan-Crews, a food and nutrition specialist.

Soft cheese keeps up to two weeks after opening — if tightly wrapped, she says. Hard cheese will keep several months. Tightly wrap it, too.

If cheese becomes too hard, grate it or shred it and use in sauces, she adds.

HEALTHY ADVICE

by Fred Lucas, M.D.
Using Medicine Wisely

You've gone to the doctor, had your problem diagnosed, now you've had the prescription filled for the medicine to treat the ailment.

The doctor and pharmacist have done their jobs. Now it's up to you to use the medicine wisely. The best way to is follow a few simple rules.

- Take your medication as directed. Your physician always has a reason, sometimes more than one, for prescribing a particular medicine.
- Be sure you understand directions, such as the times during the day when the medication is to be taken. For example, "four times a day" may mean every four hours while you are awake or every six hours around the clock. If you're not sure, don't guess. Ask your physician or pharmacist.

- If you miss a dose, don't try to catch up by doubling the next dose. Call your physician or pharmacist to find out what to do.
- "Take with meals" means the medicine should be consumed with or immediately after eating a scheduled meal. If it's not possible to eat a meal, the medicine should be taken with some food, even if it's only crackers or milk. This prevents stomach upset that could occur if the medicine is taken on an empty stomach. Food can slow the body's absorption of the drug.
- Take the entire prescription. Even if the symptoms are gone and you feel much better, continue taking the medication as directed until it is finished.
- Be sure the label says on a prescription container until the medication is used or destroyed. Each prescription box or bottle label displays the name of the patient, physician, pharmacy, prescription number, date of purchase and the dosage directions.

Remember to use caution when taking medicine and consuming alcohol. Alcohol acts on the brain as a depressant and may temporarily decrease coordination, response to pain, alertness, breathing and sight. Certain medicines also act in a similar manner. Alcohol, in combination with some medicines, may decrease these functions to dangerously low levels, which could lead to unconsciousness or death.

Finally, a word should be said about over-the-counter drugs, available without a doctor's prescription. They can be effective in the treatment of a minor illness. However, when using two or more drugs, such as two non-prescription drugs, interaction can produce unwanted effects. Always tell your physician or pharmacist about all medications you are taking so that advice can be given about their proper and safe use.

Local Optimists To Name Officers

The proposed Optimist Club's nominating committee is busily at work and will report at next Mondays meeting. The committee — Sully Woodland, M.R. Sandidge and Raymond Hicks — will nominate the charter president, two vice presidents and six directors. This will not preclude nominations from the floor during the official organization meeting at 7 p.m. on January 11 at the Flying L Ranch conference room.

In addition, a committee chairman will be selected for youth activities, community service, publicity, membership, program, fellowship, and finance. The appointment of secretary-treasurer, sargeant-at-arms, chaplain and parliamentarian also will be considered.

Next Monday's meeting, January 4, at noon at the Flying L. will be set aside to hear a special presentation from Optimist International, as well as the reports from the nominating committee and the by laws committee, chaired by Ron Jackson.

Texas Heritage

By Garland Perry

There are 62 county courthouses in Texas that were built before 1900. Several of them are in Central Texas along the old frontier defense line of 1850.

It's doubtful if any courthouse in the state is more beautiful than the Victorian style Coryell County Courthouse at Gatesville. Designed by architect W. C. Dodson, the structure was erected in 1897 by builder Tom Lovell. The building is made of limestone and chocolate-red sandstone blocks that were precut at local quarries and hauled to Gatesville by horse-drawn wagons.

The north and south entrance to the courthouse have miniature "Statues of Liberty" on the right side of the Roman Corinthian style columns. The words "Liberty" and "Justice" are engraved at the top right and left corners of the entrance. Over the east side entrance is the builder's mark of an owl.

It is said that there is nothing romantic about a courthouse, but the Coryell County Courthouse is different. Even a casual observer would likely spend an hour or so viewing the beautiful old gingerbread structure and admiring the intricate architectural designs.

Gatesville, the countyseat of Coryell County, got its name from old Fort Gates, a frontier military post that was established in 1849 four miles east of Gatesville. The county, formed in 1854 from Bell County, was named for James Coryell, a frontier settler who fought Indians with Sterling C. Robertson's Ranger Company in 1836 and claimed his headright of land on Leon River near Gatesville. Ironically, Coryell was killed by Indians in 1837 while he and two companions were robbing a bee tree in the Brazos River bottom near Waco.
