"Rain, rain, go away...or at least, if it's going to rain...fix the roof!" Bandera County deputy Mike Timm seems to be saying. County commissioners have begun the repair process by accepting bids for roof repair at the jail, the courthouse, the old jail building, the old courthouse and Mansfield Park. The entire roof of the law enforcement building will be replaced at a cost of \$32,042. Meanwhile, for the month of Sept., 1994, Bandera County has received 3.04 inches of rain, according to Billy Griffin of the Soil Conservation Service. Griffin says his gauge showed .53 inches for July this year; .68 inches for August and a total to date of 24.40. Bandera County received 18.48 inches through Sept. last year.

Texas Natural Resource Con-servation Commission (TNRCC) to approve a proposal which will allow them to sell excess water (water not now used for-irrigation and current-ly left in Medina Lake) to

Bexar County for \$1.5 million over a five-year period. Because of the profit motive involved in selling the water for industrial and commercial use, Bandera County and LAMCOS (Lake Medina Conuse, Bandera County and LAMCOS (Lake Medina Conservation Society) are opposing BMA's proposed action. They say that if BMA is allowed to sell the "excess" water in Medina Lake, the lake will be drained; lake area wells will go dry and property values around the lake will dry. Concern has also been expressed for the future of fish and wildlife depending on the lake habitat for their existence.

BMA has entered a contract with Beara-Met will beara-Met to sell water to them for \$56 an acre foot, compared to the \$8 to \$10 an acre foot they currently receive from irrigators. BMA says that the money from Bezar-Met will allow them to fix leaks in their irrigation system and save

water and that the water saved will be the "excess" water sold to Bezar-Met.

The Austin hearing will determine the outcome of the dispute. BMA is expected to continue their testimony through Wednesday. LAMCOS is expected to take the stand beginning on Thursday. Their testimony will be followed by that of Bandera County.

In testimony Monday, BMA
used witnesses and computer
models in an attempt to convince the hearings examiner
that Medina Lake would not be
adversely affected by removing
their total allotment from it.

What is your perception of this community's newspaper? Besides the place where you read news, birth announce-ments, wedding announcements, obituaries and other "vital statistics," just what is the Bandera Bulletin?

Tangibly, it is generally a 20- to 24-page document that tells you what is going on in Bandera County and its communities. There are corremunities. There are corre-spondents who bring us the news from outlying communi-ties, and correspondents who bring us their unique per-spectives on what's happen-are all doing things on a reging around Bandera County. They are all wonderful, and deserve a hearty round of applause for all their dili-

Tangibly, it also contains, on an occasional basis, an inserted Visitors Guide, Apple Festival Guide, Cajun Festi-Rancher, etc. These special publications represent a lot of extra work for those of us involved and I am here to tell you that the people on the staff of the Bandera Bulletin have been absolutely wonderful. They do a great job.

I suppose we have crossed into the "intangible" category. I do what I do because I love the Bandera community, and I think it deserves a quality newspaper. I certainly do not do it for the money. II could make a lot more money at just about any other business

Our goal, during our tenure at the Bandera Bulletin, has been to serve the community, and to provide

here, and we understand that in order to live in "wonderful Bandera," most people are willing to make some sacrifices. This is our home.

Things are changing in Bandera. Currently, Bandera. Currently, we endeavor to give you a balance of news about what is going on in your county. Growth in our community is at an all-time high, and with that growth will come ular basis that you should

"Let the sentence fit the crime..."

Judge Ted Poe, of the Texas Criminal
Court of Appeals, has been coming up with
some creative sentencing in his courtroom.
Rather than just locking someone up, or
giving them stiff probation when they are convicted of a crime, Judge Poe has come up with
some pretty interesting and creative sentences.
For instance, a young man was convicted
of stealing (and wrecking) a car belonging to
an elderly woman. Not only did the judge
order the man to pay restitution to the
woman, but until the restitution was pald, the
judge ordered the man to surrender his own judge ordered the man to surrender his own car (a Trans Am) to the woman, in lieu of her

And a group of youths convicted of paint-ing graffiti were sentenced to supervised com-munity service— they spent several weekends cleaning up and painting over graffit that had been painted on highway overpasses.

The Bandera Sheriff's Department received a report or Monday, Sept. 12 that the Lakehills Post Office had been burglarized sometime during the night. A safe was ed and less than \$200 in cash was stolen. The Post Office was closed on Monday and no mail was put into the boxes while U.S. Postal Inspectors and sheriff department deputies investigated. Since the burglary was reported, an effort has been underway to inventory stamps, money orders and other items and make sure nothing else was taken in the robbery.

## **Roofing & Fencing**

#### Classic

Classic shingles have 3 tab design, and a 20 year warranty. Each shingle is self sealing, has a wind resistant rating, a UL Class 'A' fire rating, and comes in a variety of colors

Oakridge II shingles offers custom-styling, textured appearance and peak performance. Each shingle is laminated, has thicker fiberglas reinforcement and carries a 25 year limited warranty

McCoy's and Owens Coming have teamed up to be your source for the best roofing products in the industry. Great looking, longer lasting Owens Coming shingles can be purchased by the square or by the bundle.

#### If it's Cajun Festival time, it's good eatin' time!

For the 14th year in a row, the Lakehills community hosts the truly authentic Cajun Festival this Saturday, Sept. 24, from noon until 10 p.m. Some 8,000 to 10,000 people will swell the population of the Medina Lake town to enjoy pienty of great jazz, country and western, and of course, Cajun music. Authentically propared Cajun food Items are the highlight of the festival, with plenty of crawfish pies, jambataya, red beans and rice, boudin and lots of other mouth-watering delicacies available. The Great Gumbo Cook-off will provide plenty of gumbo for festival geers to sample. And noted historian, Robert Reed, will teach about the heritage, cooking, folklore and music of the Cajun culture. See the Cajun Festival Program inserted in today's paper for more information and a program of events.

#### County Commissioners vote to approve new tax rate of .4074

Bandera County Commissioners Court met last Thursday, September 15, in a public meeting, to vote on a new tax rate for residents of the county. There was no public imput voted, and unanimously approved a new base rate of 4074 on \$100 value. The tax rate is a decrease of 1/2¢ from the 1993-94 budget.

The meeting caused some concern for some local citisens, including Bob Rucker of Wharton's Dock. Mr. Rucker and several livends had planned to

several friends had planned to attend the meeting, advertised

by the County to be held Fri-day, Sept. 16.

In a phone call to County
Judge Ray Mauer, Mr. and
Mrs. Rucker were told that the
meeting had been held the day
before, on the 16th.
Judge Mauer informed Mr.
Rucker that, while the notice
of the meeting was incorrectly
posted in the notice the county
sent to The Bulletin, the posting at the courthouse was correct.

Mr. Rucker feels that the important posting is the one that appears in the paper, questioning, "Are we supposed to go to the courthouse every time there is a scheduled meet-ing, just to find out the proper date?"

Mr. Rucker and friends had

Mr. Rucker and friends had hoped to discuss the road con-ditions in Wharton Dock, in relation to County taxes. Judge Mauer scheduled an emergency meeting for the 16th for this purpose, but was unable to get a quorum for the

eeting. Judge Mauer encourages anyone who missed the meet-ing to attend the next sched-uled Commissioner's Court meeting on Monday, Sept. 26.

Governor Ann Richards, and
the Texas Animal Health
Department, have declared the
Bandera area a state of alarm
with regards to a growing
rables concern.
Vaccination of domestic animals (dogs, cats and horses)
which come into close contact
with people is the best acfogard to rables prevention.
Texas law requires ANNUAL
rables vaccination of ALL dogs
over three menths of age. Vaccinating pets and staying away
from wildlife during this rables

crisis is paramount in reducing the risk of exposure.

Nightingale says he has received numerous phone calls from county residents who have seen or destroyed wildlife- especially foxes-showing signs of rables. He warms that rabies takes several forms. "Don't trust any wild animal, especially if it appears friendly."

The rabies vaccination drive

friendly."

The rabies vaccination drive will begin at 8 a.m. on Saturday, Oct. 1 at Bandera Village at Vet-Mart. Dogs and cata three months old br older may be brought for vaccinations.

The cost is \$8.5 for the vaccination and \$2 for county dog

licenses.

The rabies drive will continue at both Bandera Vet-Mart on Highway 16 and at the main hospital, Hill country Veterinary Hospital, on Highway 173 south near Alke Helmentary, the following week of Oct. 3 through 8.

Hours for Bandera Vet-Mart are 9:30 a.m. through 5 p.m.
Hours for Hill Country Veterinary Hospital are 8 a.m. through 6.m.
Anyone needing a pet is urged to contact a local weterinary hospital and adopt a puppy or kitten. No one should pick up wildlife.

#### "I WISH WE HAD KNOWN ABOUT HOSPICE SOONER"

This is a comment we often hear from our patients and families. When a patient considers coming into our program, we find

that many feel that life is over and that they are giving up since a cure is not available for their diagnosis. However, once in hospice, with managed care being provided by professionals, our patients and their families learn how to attain the most that life has to offer. The longer a patient is in our care, the more time we have to teach and prepare the family. Those who have experienced the hospice program in their lives will tell you, "Get onto the program as soon as you can". Hospice is not about adding days to your life - it is about adding life to HOSPICE KERRUILLE

## One last thought, Bandera

with Iom Wolch I heard on the radio this morning about Congress planning on taking a vote on payraises for themselves.

After the baseball flasco, I started wondering what would happen if they voted the payraise down. Now, this gets

the imagination going, I mean, will they strike? Who will

I can imagine that it costs a good amount of money to live in Washington. The raise was referred to as a cost of living raise, and I can understand that. (I'm sure all the people in Washington, all the neighborhoods there, are concerned about a payraise to offset the rising cost of living in the nation's capitol.)

Somebody said that Congressmen make over \$135,000 a year. It must cost a good bit of money to live in Washington. So, they feel that it is time for that cost of living adjustment. The strike is starting to sound better al

family, call us!"
A licensed psychologist has agreed to facilitate these support groups if the community indicates the need is real in Term limits and pay ceilings all sound strange to If you are interested, call this country boy, but would the President call off the rest of the season? That would be a World Serie(ous) deal, Methodist Church at 751-9404 wouldn't it? Just a thought... one last thought, Bandera.

### Notice of Public Hearing on Tax Increase

the MEDINA INDEPENDENT SCHOOL DISTRICT will hold a public bearing on a crease total tax revenues from properties on the tax roll in 1994 by 15x recent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending in the taxable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation to the change in assable value of your property in relation.

The public hearing will be held on <u>Reptamber 2B 1986</u> at 6:10 rp.m. Earton, Keith Keese FOR the proposal Andy Lautzanhelser, Janay Hachaughton, Lihas Barton, Keith Keese Ardanst the purposal know PRESENT and Not Savyer.

The statement above shows the percentage increase the proposed rate represents over the <u>sffec</u> tax rate that the unit published on <u>saptember 16,1994</u>. The following table compares taxes or home in this stating unit has year to taxes proposed on the average home this year. Again, you taxes may be higher or lower, depending on the taxable value of your property.

Last Year \$ 48.815 5\_5,000 \$ 43.815 \$ 47.331 1.00 /5100 1.00 /5100 5 438.15 5 473.31

Under this proposal dates on the average home would <u>increase</u> by \$\_15,16

or <u>stabt</u> "percent compared with last years taxes. Comparing tax rates without adoubting for changes in property values, the lax rate to would increase. by \$\_0^-\$ per \$100 of casable value or \_\_\_6. "percent compared to last year's fax rate. These tax rate figures are not adjusted for changes to the taxable value or property.

There's a couple of hardy
guys making a "Camel Trail"
right now. They are riding over
2000 miles to relive the original trails in the 1800's.

Wouldn't it have been great if closed this Christmas, cause
they'd come down Main Street,
they're taking 19 of their family members on a Carribbean Cruise, including a 96 year old mother! Sounds like a Bandera

they'd come down Main Street, but they're too far south. We went on a "trail ride", Sunday. We were in Kerrulic and decided to see what ol' Ingram looks like since I hadn't been there in over 10 years. You know? It looks the same! Only kidding! Actually, lots of neat shops and they've kept the old flavor...and Jack Feagan has painted 15 huge historical murals on the outside walls of Moore Lumber. They're all over Hill Country

side walls of Moore Lumber. They're all over Hill County history. A really good job. Jack was the cne who'd painted he ladies face on the floor of the Bella Union, too.

Then, since we were that far, we decided to drive on thun. The road crosses and rocrosses the Guadalupe Rive.

The PTO sponsored Fall Frestival will be held on Saturday, or specific to the state of the properties of the propert far, we decided to drive on to Hunt. The road crosses and re-crosses the Guadalupe River, with geogeous views around every corner. We passed polo fields, lets of long horns, a bunch of big horses in a gor-geous meadow that must have had one of those huge criss-crossed hay racks for every horse. Never saw the likes! The replica of the 3400 year old Stone Henge, standing in the middle of a field of waving prairie grass. You come upon it prairie grass. You come upon it around a corner and it's a cul-ture shock! ## WELCOME

## to the 14th Annual Medina Lake Cajun Festival!

On the last Saturday in September, the small town of Lakehills, located on the shores of beautiful Medina Lake, transforms part of the Texas Hill Country into Cajun Country. This is the fourteenth year the fundraiser has been sponsored by the Medina Lake Betterment Association, Inc. The festival is the original Cajun Festival and Gumbo Cook-off in Texas. Though it has been imitated, it cannot be duplicated. and remains unsurpassed in its ability to bring the food, music and culture of Louisiana to deep within the heart of Texas. We hope that you will adopt the cajun motto for today: "Laissez les bon temps rouler!"

### If it's the Cajun Festival, there's got to be Gumbo!

Gumbo remains one of the great attractions of the Cajun Festival. Visitors can sample a wide variety of gumbos prepared by amateur and professional cooks from Texas and Louisians. Come early for the best selection.

Awards will be presented at the Fais Do Do Pavilion at 5:30 p.m.

Do Do Pavnion at 0:30 p.m.

Last year's professional championship
trophy went to Alice Harper of Naturally
N'Awlins in San Antonio. Country Cajun
Cafe of Corpus Christi came in second and
Dave Sailor of San Antonio's Acadiana
Restaurant captured third place honors.

In the amateur division, Alice Reynolds of Rockport walked away with first place, while local Ed Ahlders took second, and

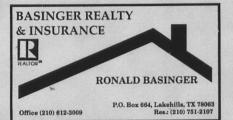

Gumbo remains one of the great attracus of the Caiun Festival. Visitors can in third place.

Ed Moore, of Lakehills, delighted the Festival goers and went home with both the People's Choice award and the

Showmanship Trophy.
Food chairman, Barbara Engel, says
Cajun cooking was influenced by the
French. Native ingredients were substituted by Acadians when they left Canada
and settled in Louisiana. The Spanish and

African influence is also evident in the choice of spices.

Typical ingredients include a roux base, tomatoes, onion, celery, bell pepper, green onions, parsley and garlic.

is unbelievable.

They burried to negotiate a water deal with BMA, called a special meeting to approve the agreement, then signed the contract and rushed it to Austin so BMA could gloating to the contract and rushed it to Austin so BMA could gloating the confidence and trust placed. This was a total betrayal of the confidence and trust placed in them by the people of Bandera County, Their irresponsible action caused a great deal of damage to all the other county tentities who are opposing BMA at the hearings in Austin.

I would hope that the people of Bandera County will remember this slap-in-the-face of Bandera County will remember this slap-in-the-face when the contract was signed as the county. The meantime, they should stop behaving like sheep and write or call the directors representing their procinct and demand an explanation of their action.

### Toys for Kids Trailride looks for volunteers

The 5th Annual Toys for Kids Trailride is currently seeking volunteers for their one-day ride on Saturday, and several data officials. The purpose of the hearing was to learn how the endangered species law is impacting farmers and ranchars in Texas and now the U.S. Department of Agriculture may be involved. TSCRA believes that "the protection of endangered species is a legitimate and worthwhile function of society which can be achieved without driving Texas cattle producers out of business," Thompson said, However, the current law is bruken and 'things are going to get worse for ranchers, not better, unless something is done by Congress..."

U.S. Department of programs including cost-share and operating loans.

Among the criteria for suitable warbler habitat, wildlife officials asy, is the presence of Asha juniper, also known as cedar, with sloughing bark.

The 33 county area being studied has varying degrees of codar infectation. Southwestern Cattle Raisers

### "I WISH WE HAD KNOWN ABOUT HOSPICE SOONER"

This is a comment we often hear from our patients and families.

When a patient considers coming into our program, we find that many feel that life is over and that they are giving up since a cure is not valiable for their diagnosis. However, once in hospics, with managed care being provided by professionals, our patients and their families learn how to attain the most that life has to offer. The longer a patient is in our care, the more time we has to teach and prepare the family. Those who have experienced the hos-pice program in their lives will tell you. "Get onto the program as soon as you can". Hospice is not about adding days to your life - it is about adding life to your days.

If you have any questions about ospice care, contact your doctor or call 1-800-858-7808

## **Public Notice** The City of Bandera will be looking into the possibility

of entering into an interlocal agreement with the County for police and municipal court services. Any agreement that could be reached will provide 24 hour quality police protection and court services. Before any contract is signed, the City will hold public hearings to report to the citizens as to the condition of the contract and how they will be implemented. There is NO guarantee that the City can enter into any agreement for services. The reason we are looking into this is to see if we can save taxpayers money and reduce property taxes while maintaining quality services and stop duplicating government services.

Worship or Entertainment

In our point in time, most people have in our point in time, most propyre rever developed a revenous craving for entertainment. In fact, a great part of every dollar made today is appent directly or indirectly, so satisfy this con-suming appetits. There are some ever increas-ing dangers that are confronting the church mibers are bringing these appetities into the assem-Speak

Worship is not entertainment. To worship is to do some

Worship is not entertainment. To worship is to do some-thing quite different from being entertained. Worship is Interection that takes place between the worshiper (christians) and God. This comes from the heart and soul of the participant. Many have, because of crazs for entertainment, started viewing worship as ritual, something does for their benefit, instead of something they engage in because of their love and devotion to God, their Creator. This, of course, secounts for the lack of stasf-feathers in the standance to services, because they haven't place priority on worship, as true worship. To some it is only entartain-ment that can be done or left off as dealred. Lack of stantion and seeming indifference of those greater, show uncounsationably that seeming indifference of those present, show unquestionably that they have to be entertained instead of this being a meaningful

they have to be entertained instead of this being a meaningful meeting between creature and Creator. We are blessed, at church services, with an opportunity to praise and adore the God of the universe, the Lord of Life. When we come reverently to his word to learn the prescribed acts that the Father allows as worship and then enter into them with our whole being, then life and power (Romans 1:16) will egain be present with-

In us.

"But an hour is coming, and now is, when the true worshipers shall worship the Fether in spirit and truth; for such people the Fether seaks to be His worshipers. God is spirit, and those who worship Him must worship in spirit and truth, "(John 4:23-49).

Do you WORSHIP God in spirit and truth, or are you simply being entertained? THINK ABOUT IT!

## Chamber starts work on Hunter's Barbecue

The Bandera County Chamber of Commerce is Iready laying plans for the 32nd Annual Hunters arbecue to be held Friday, Nov. 4.

A Troll Book Fair will be held at the Alkek Elementary School Library from Monday, Oct. 3 through Friday, Oct. 7. The fair will be open from 7:30 am. until 3:30 p.m. each day.

Students will be allowed to the school of the library during the day. This is the Chamber's only fund raiser of the day.

The fair will encourage students to read for pleasure and will also contribute to a worth-while project for the library. \*\*

The fair display will include attractive new books from many major publishers in all popular price ranges and in many categories of fiction and monofiction. the operation of the Chamber

The absolute deadline for participating in the Camp Cookbook is Sept. 30 and for the bandanna is Oct. 14. Both items are given as souvenirs to the first 1,200 people attending the barbecue. The Chamber urges those interested in participating to eturn their forms to the Chamber office or call for nore information at 796-3045.

Genie Strickland is coordinating exhibits, venlors, and entertainers. If you would like to have an that those students purchas-ing at least \$10 worth of books will receive a free poster. Students, parents and visiexhibit or set up a booth to sell unique hunting elated Items, call her at 589-2588.

The Chamber can use volunteers to assist with set up, serving, selling tickets and clean up.

Armadigger Water Well Drilling Service on Hwy. 16 had their grand opening ribbon cutting Saturday, Sept. 24 for the opening of their new retail store. Over 100 friends and customers came to wish them well which may have made it the biggest ribbon cutting in the history of Bandera.

• On Friday, we decided to visit the Cider Mill in Medina and have a cup of their deli-cious apple dumpling coffee and one of their fresh baked apple turnovers. On the drive up, we began passing some of those 200 plus antique cars that were staying in Kerrville, for the week.

Jeanie Strickland had tons of teensy pumpkins pouring out of big overturned baskets. Great mounds of huge pump-kins and shiny apples in every corner. The smell coming out of the bakery was unbelievable, and the hundreds of customers jammed into the little store

jammed into the little store were happy as larks buying and buying! For Christmas, Jeanie's going to have a forest of Christmas trees inside and outside and everywhere, so that ought to be fun.

Our tummies full to popping, would be a look at The Farm.

Scattered around are volleyball, basketball, baseball, tether ball, barbecue pita with gigantic bean pota, a full vegetable garden, on old covered wagon, fake cows with lariate hanging over their ears, for practice ropings, and a hay wagoo.

There are hiking trails with the flors and fauna all marked. What more could anyone want for a family reunion, corporate picnic, or whatever? Heading home, we passed

hring out the need for Volunteers to operate the equipment in the case of fire. Saturday, September 24, the Lakeshore fire Department was called out to fight a brush fire located about one mile of Wharton's Dock Road in the Bandera Ranchette Acres. Siz Fire Fighters responded, all over 55 years of age. One fire fighter is a cancer patient who is taking radiation treat-ments, another a heart patient. No one under the age of 55 responded, until Rusty Fox returned home from San Antonio and went to see if he no longer has kids or even grandchildren in school, she just wants to help!

### Classic Oakridge II

Classic shingles have 3 tab design, and a 20 year warranty. Each shingle is self sealing, has a wind resistant rating, a UL Class 'A' fire rating, and comes in a variety of colors

Oakridge II shingles offers custom-styling, textured appearance and peak performance. Each shingle is laminated, has thicker fiberglas

McCoy's and Owens Coming have teamed up to be your source for the best roofing products in the industry. Great looking, longer lasting Owens Corning shingles can be purchased by the square or by the bundle.

annual homecoming oming for the small parish of Immaculate Conception Church in Panna Maria The annual turkey dinner is a major fundraiser for the parish.

The church is the oldest

The church is the oldest Polish parish in the U.S. and is in need of repair. Stained glass windows have been reframed and releaded and steel cables have been placed in the walls. The bell tower needs refur-bishing, wiring needs to be replaced, joists, beams and the allar need repair. The major renovation project needs an additional \$250,000.

### Youth outreach council formed

Representatives from area Christian youth groups have formed a count to be falled the Banders Youth Outreach. The organization met Sunday under the leadership of president Brad Parker of Pipe Creek to plan activities for all area churches.

to plan activities for all area syste.

Officers had been elocted at the council first official engangement actional meeting held on September 19. Discussions regarding the unifying endeavor had begun in the summer months with adult leadership from area churches. Each church then selected a representative for the council.

The group adopted simple mission statement of, "Sewing Christ through serving others." Our goal is to help keep young people out of trouble by giving them something to do, says Parker.

"We're planning a baskethall tournament sometim and to make the service work during the holiday season to help less fortunate families."

### Medina homecoming this week

Medina's homecoming festivities will begin with the pre-game coronation of the king and queen at Bobcat Stadium at 6:30 p.m. Friday, Oct. 14. The royal court will be made up of representative from each class, from kindergarten to 12th

grade.

The football game, Medina vs. Leakey, will begin at 7:30. Half-time activities will include presentations to the football sweetheart, the cheerleader beau, and the band sweetheart and beau.

The excitement continues Saturday, Oct. 15 with the homecoming parade at 10 a.m. in downtown Medina. The theme of the parade is "Sports and Recreation." Each class participates with a float entry.

At 10:30, there will be a carnival at the school in the parking lot between the bus barn and the gym.

At 2:30 there will be a reogram to honor the ex-students in the school cafeteris. The classes honored this year are '35, '75, '65, '35, '45, '35 and '25.

Let STEPS INTO JESUS CHRIST
In accordance with Ephesians 5:23, Christ is
after the Bible in the

ans 1:16.

The ascond step is to BELIEVE (have faith) in st, which comes by hearing the word of God, Romans 7. Without faith, it is impossible to please God, Hebrews

10.17. Without saith, it is impossible to please God, Herbrews 1.5. The thind stags is to REPENT of sins or pretabl-Luke 13:3. All nem are commanded to repent because the judgment 43:4 is coming, Acts 17:30-31. The fourth step is to CONFESS faith in Christ, i.e. the Ethopian hobleman said T believe that Jesus Christ is 28 the son of God, 'Acts 8:37; Romans 10:10; or be denied before \$4\$ God-Matthew 10:33-33. The fifth step is to be BAPTIZED into Christ (body) Galatians 3:26-27, for the remission of sins and you are promised the gift of the Holy Spirit, Acts 2:33. Jesus said His that believeth and is buptized shall be saved"-Mark 16:13. Buption is a burial (immersion) in water-Romans 6:3-5, Acts 8:30-5.

All who obey the gospel are saved by the Lord. The Lord adds to his church (body) all who should be saved, Acts 2.47.

2-47. The above steps into Christ are things we must do to receive the benefit of the great sacrifice which Christ made for us. Christ can save us only if we are willing to obey him. The above steps into Christ come from the Bible-not from

man.

Come worship with us at 10:30 a.m. Sundays at the Church of Christ located on Highway 16 and Vanderpool Road, Medina, Texas, and let us assist you in obedience to the gospel. Write to HCR 1 Box 45, Medina, Texas 78055.

#### Letters to the Editor

Water issues very confusing

I have been trying to get-amart on area water issues, since moving to the Lakehills area two and one-half years ago. I am not making much prograss. Indeed, the more I hear and read, the less I understand. Two cases in point relate to a letter and an article in the Oct. 5 issue of The Bulletin.

5 issue of The Bulletin.

The first case concerns John
Mohar's letter, where in he outlines selected objections to the
recent water purchase agreement between BMA and the ment between BMA and the Springhills Water District. If everything Mohar says is true, we, the citizens of Bandera County, have really bought a pig-in-the-poke!

The second case concerns the article on the second anniversary of the 1992 water conservation agreement between the Beans-Metrop policy. The article points out that the anniversary was celebrated with the Beans-Met's presentation of a \$300,000 check to the BMA.

#### October Moments

October Moments

They blew into rown on a wet and windy October day. You might say they are a breed apart - from us and from each other! Yep, it was George Tunleson, Lee Dodge, Tally the horse, Toby the mule, and Clifford the bicycle. They left Tullas, Oklahoma destined for Zapata, Texas - and these visitors are a different breed. For one thing, they are taking it alow - about thirty miles a day, sometimes forty if Toby is feeling frisky! On the day I met them, Toby was feeling pretty ornery - maybe he didn't like having to stand out in the rain and smalle for a picture! George, a retired firman, and Lee, owner of Lee Dodge Auto in Tulsa, really didn't have much of a reason for their trek across this beautiful, fall-colored land.

Th's in the cause of freedom and of doing what you want to," says Lee, who pretty much does what he wants to as he rides his bicycle all over the country.

Th's to celebrate October - a kind month," says George, whose face shows the sun and wind of the many trail-rides that he participates in throughout the year.

# Young and Newcomer are Middle School

Young and Newcomer are Middle School honor students

At the close of each air-week period, the faculty at Banders middle school nominates one boy and one gift from each grade to be witness. God grades as well as demonstrating a record of human relations, positive attitude, involvement in school activities and other qualities are the main objectives. An interview with Mr. Weyman is also part of the process.

For the first six weeks the nominoes were: 6th grade, Christina Combs, Nicholas Leonard; 7th grade, Shannon Young, BJ. Mewcomer; 8th grade, Breanner Bicks, Evan Dews. The winners, Shannon Young, daughter of Bob and Cheryl Young of Tarpley, and BJ. Newsomer, son of Bill and Debble Newcomer of Bandera are both members of St. Stanislaus Catholic Church. They each were nominated and chosen last year. They are pictured above with Middle School principal Weyman.

Lady Bulldogs upset Somerset The action was tense Tuesday night as Banders came from an 8-14 deficit in game one to best Somerset in District action. Missed serves early in the game and lack of contunuisation get Banders behind, "Coach MacDonald said. The ladies didn't give up and tetemwork put them on top 16-14.

In the second game, the Bullday came cut serving strong and hitting the ball well to jump out to an 8-2 lead. The ladies controlled the rest of the game defeating Somerset 15-5, the deck and forth rotating two full rotations. Medina Valley then pulled and 6-14. Banders tried to rally back but were unexcessful.

In Game 2, Banders was plaqued with missed serves, missing a total of six. The girls would get a good hit or start a rally only to have it stopped by a missed serve. You just can't score points without a serve, "Coach MacDonald said.

The final scores were 9-15 in the first game and 5-15 in the second game. Banders's record falls to 8-14 overall and 3-4 in District Jay. There will be no games Tuesday night due to Taas testing. Next game is Friday in Hondo.

#### **Botany Cut**

#### **Eco-tourism comes to Bandera County**

A first of its kind botany cut is protected by the Texas Department of Transportation

Eco-tourism is not a term one is likely to find in the dictionary - yet. But like other new phrases that concern the conservation of the planet. eco-tourism is not hard to understand. In many places, tourists and visitors are increasingly being made aware of the flora and fauna unique, or natural, to the area they are investigating.

And in that spirit, the Native Plant Society and the Bandera County Roadway Maintenance Department have agreed to leave unmowed a 600 foot section of Highway 16 so that approximately 135 species of plants native to the area will be allowed to flourish for the public's viewing pleasure. Some of the more unusually named plants that can seen at various times during the year are: the Scrambled Egg; the Frogfruit: the Eve's Necklace: and the Dog's Ear.

The new attraction is called a "botany cut" and is a wildflower habi-

in our district of 16 counties and may be the first one in Texas.

Dorothy Mattiza, of the Native Plant paths with signs and pictures to Society, and Bruce Eliker, Bandera County roadway maintenance supervisor, the spot opened 5.2 miles north enthusiasts can obtain a list of the

The list includes the Latin name, the common name and a month-bymonth check-off space.

It should be interesting to visit the area during different times of the year and check off what is blooming at the time.

Trees in the cut include Celtis lae vigata, Hackberry; Diopyros Jexana, Texas persimmon: Juniperus ashei, Ashe juniper, ptelea trifoliata, Wafer ash. Quercus fusiformis, Plateau live oak; and Ungnadia speciosa, Mexican buckeye.

ntering Bandera from the east via State Hwy. 16, one of the first Ahistoric buildings a visitor can spot is the impressive (1) Schmidtke-Callahan House, at the intersection of Cypress and 13th Streets, currently the home of McMullan Insurance. The house was built in 1870 by James Henry White of Georgia, for Charles F. Schmidtke, an early-day merchant. sawmill and gristmill operator. Eventually the property changed hands, and in 1929, the owner of the property, J.C. Callahan, built a store near the house. The Callahan Store remained in husiness until 1958 when J.C. Callahan died. The property stayed in the Callahan family until 1979. when descendants of J.C. Callahan sold the property to Gill Savings. Gill tore down the old store and restored the house to its original condition. The Schmidtke-Callahan House is a recorded Texas Historic Landmark

Bosters are reminded that the laws for registering and titling boats and motors has changed as per House Bill 1970. The change primarily affects owners of sailboats, small motors and small motorboats. Under the new law, which became effective Jan. 1, sailboats 14 feet and longer must be registered and titled. All outboard motors (internal combustion) and motorboats, regardless of size, must be titled. Canoes. kayaks, punts, rowboats or vessels under 14 feet long (including sailboats) when they are paddled, poled, oared or windblown are exempt from registration.

Currently, all sailboats, regardless of length, are exempt from the registration and titling rule when their only propulsion is windblown. Outboard motors 12 horsepower and under and motorboats longer than 14 feet currently are not required to be titled.

One group that meets regularly is the Melodiers, who consider themselves musical ambassadors of the Silver Sage Corral. Accompanied by a variety of musical instruments, including a piano, violins and autoharps, the singers not only get together on a regular basis to just have sing-alongs, they make public appear-

There are also regular special activities including monthly birthday luncheons and the first-Friday-of-the-month pancake

Bandera's senior center was founded almost 13 years ago, and in 1984 they broke ground for the facility where the Silver Sage Corral is currently located. It was dedicated in April of 1985. For additional information call 704-490.

The rodeo cowboys champions' monument honors local rodeo mpions including Toots Mansfield, Ray Wharton, Buddy Groff,

Todd Whitewood, Scooter Fries, Clay Billings and Jimmy Adams.

The war heroes monument is a memorial to Bandera County men who sacrificed their lives in World War I. Some 23 names are inscribed on the granite monument that has stood since 1924.

The veterans' monument is the newest monument on the courth square, and is placed in honor and memory of all war veterans by the Bandera County veterans and auxiliaries. It is pledged as a "tibute to valor" in "patriotic allegiance to sanctify God and county,"

The Camp Montel monument is a memorial to the Texans who served in the Confederacy. It commemorates Captain Charles DeMontel, and the Texas Civil War Frontier Defense. The monument was placed by the state of Texas in 1964.

"Texas had 3,000 miles of coastline and frontier to defend from Union attack, Indian raids, marauders, and "bandits from Mexico" it says on the back of the granite monument, "defense lines were set to give... protection with the few men left in the state."

The Clark monument is a huge granite boulder that was erected as a smorial to Bandera pioneer Amass Clark, who died in 1937 at the age of 161. Clark, the first personnent settler in Bandera county, came here in 1853. He was a veteran of the Mexican war, and the stone marker originally stood in the National Cemetery at Pt. Sam Houston.

In 1945, when officials at Fort Sam Houston needed to move the marker to erect a building on the site, the granite monument was moved to Bandera.

Clark is buried in a little family cemetery about four miles west of

he Sabinal Canyon Museum, located on the main street of Utopia, has expanded from erals on display. 1.200 to 2.000 square feet and added entire new exhibits. Those who oversee the museum are eager western end of Bandera County.

The museum is always open on Saturday from 10 a.m. to 4 p.m. and on Sunday from 1 p.m. to 4 p.m. It will also open, at almost anytime, by request. Special groups or interested individuals are encouraged to marily from the 1850s to the 1920s. call (210) 966-2326, or (210) 966-3474 to make an appointment. There is no admission charge. The museum tells the story of settlers in the Sabinal Canvon. beginning in 1852. A rich collection of Native American history is included along with that of the white settlers of the 1800s. Due to the increased space, new exhibits have been accepted. Trunks of clothing have been passed down through families over the years, finding a permanent home in the museum. Furnishings and mementos from the first pioneer families continue museum collection

Because the Sabinal Canvon area is rich in Native American artifacts, archaeological digs have been carried out routinely. This has added to the unique character of the Sabinal Museum collection.

Pictures on display include: the first store and post office in Waresville (the town that proceeded Utopia); the old rock store, which was the first business built in Utopia: and histories of many of the

community's families (Thompsons, Davenports and Wares) recorded on decoupages, or wooden plaques.

Other exhibits include: a com-

munion set used by the Utopia First Christian Church: a Haliburton third reader used by J.H. Hicks in the 1930s: flat irons: egg beaters; carbide porch lamps; glass milk bottles; and an old McClelland cavalry saddle used in the 1940s.

Sabinal Canyon's history dates back to the Spanish Colonel Uvalde who fought the last great Indian battle in 1790, four miles south of the present-day town of Utopia. Uvalde defeated the Comanches who had previously driven out the Apaches and Kickapoos.

Much of this historic past is recorded in the Sabinal Canyon Museum. And, say volunteers who keep the museum open, "the main thing we want to do is get the word out that we are here! We want people to come in and visit us. We have a lot to offer. If the building is not open, call one of us."

unting the majestic white-tailed deer is one of Bandera County's major activities, and with good reason. Hunters here register as much success as those anywhere in Texas, and the place is fully geared to provide the tops in hunting fun. The scenery is unparalleled, the air is crisp most of the time and clear all the time and the game is plentiful.

Hunting in Bandera County is almost exc ively done on private leases. The popularity sively done on private research too populately of the area for hunting makes leases hard to find, but the hunters who shop around and make the necessary phone calls can find any-thing from door-only leases and single-day leases to year-round all-season leases

Most leases allow deer, turkey and dove hunting, and some leases have cabins, stocked fishing holes and other amenities. Most have a variety of stands and feeding

There is little public land hunting in Bandera County, but most hunters who have used both public lands and the lease system prefer the control they have over hunting access on private land.

Part of the appeal is the beauty of whitetailed deer. Many people enjoy just watching the graceful deer, and they say their beauty rivals any scenic view.

torical postscript: Anglo-American settlers hesan arriving as early as the 1850s to live in the Sabinal Canyon. Some of them, to their the sabinal Canyon. Some or them, to their sorrow, thought the maple trees they found there could be tapped for sugar, New England style. They killed the trees from which they attempted to extract syrup but made a success of farming with an unusual system of irrigation ditches by means of which they diverted river water to their fields. They were unwittingly carrying out the dreams of a French

socialist of the 19th century, Victor Prosper Considerant, acquired 20,000 acres in the canyon, to which he hoped to move his colony of political dissidents after a failure at La Reunion, now part of

Operating from San Antonio, Considerant and his backers wen broke again and never realized their grandiose plan.

Strangely enough, these dreamers and doers were not the first Europeans to see the Sabinal. Juan de Ugalde, a Spanish army offi-cer, whose name was misspelled when the town of Uvalde was named for him, conducted forays against the Indians in the century before.

But the first white man of all was none other than Cabeza de Vaca, the first white man to tour any part of Texas. Noted historian, the late J.W. Williams, in his book, "Old Texas Trails," takes careful pains to prove through on-site study of terrain and trees mentioned in the diary of Cabeza de Vaca, that the tough old Spaniard camped and rested at the head of the Sabinal, now Lost Manles, as he made his way across Texas after a Gulf Coast shipwreck in 1528

While commenting on many of the natural aspects of the location, de Vaca did not say whether he enjoyed the fall color of the naple trees or the springtime music of warblers and vireos.

State Natural Primitive Area just might be a destination to select during a visit to Bandera County. Located 10 miles southwest of the

city of Bandera on FM 1077 and open Thursdays through Mondays, the natural area is nearly 5,400 acres of Hill Country complete with running spring-fed stream, open grassland meadows, unland woods and craggy limestone peaks that reach 600 feet shove the valley below. Winding through the park from stream bed to rocky hilltop are 34 miles of trails

that are rated from easy to technical (challenging).

However, the area is just what its name implies. Primitive.

Motorized vehicles are allowed only on a few access roads and traffic is limited to travel to and from designated parking areas.

For hikers and mountain bikers there are 10 individual walk-in tent camping areas within 75 yards of parking. For the more hearty, three more primitive hike-in camp sites are

## Some history of the Pipe Creek community

Apaches were the first residents of what is now Pipe Creek.

According to historian J.M. Hunter, the settlers named Red Bluff Creek for the reddish colors of the banks, then named Pipe Creek while they were looking for a place to settle and Odem lost his pipe.

Odem also had a hand in naming Privilege Creek. He found land along the creek which attracted him and claimed the privilege of returning to that land to live unless he found a better place to settle. His party eventually settled along the Medina River in what is now Bandera, and began making cypress shingles.

Meanwhile, Jose Policarpo (Polly) Rodriguez, founded the Privilege Creek settlement in 1858. He served as a guide and scout for the U.S. calvary. He was looking for camels which had strayed when he found Privilege Creek. 1930's and early 1940's.

Lipan arched windows which continues to draw visitors. He also built a two-story rock house which doubled as a fort. Neighbors fled to his house during

Pipe Creek's growth began after 1870. Only two families lived in Pipe Creek in 1870. Between that time and 1880, nearly 70 families had joined

The 1880 Census found that most settlers were farmers. They grew cotton and corn; some molasses and hay. Hand planting and harvesting was a way of life. Pipe Creek's first store was built in 1870. The Pipe Creek Post Office was built in 1875 and received stage and mail service two times a week. The first phone was installed in 1908, and children took messages to other residents. It was 1920 before the idea of owning a phone became popular.

#### Medina Lake offers variety

Fishing and boating are two of the favorite pastimes at Medina Lake. The Lake is home to black bass, white bass, crappie, striped bass and

perch, all catchable if the right bait is offered in a proper manner in a correct location. But catfish are the real secret of Medina Lake.

Anglers will find fishing from a boat most successful since Medina Lake is surrounded by private property. The general public can launch a craft from a public boat ramp located at the state park at the end of PR 37.

Shore fishing is available and boats may be launched from privately owned ramps for a fee. Some launch sites on the lake include Cedar Point Landing, Bob's Cove, Red Cove, Goat Hill Camp, Pop's Place and

Fishing license information and TPWD boating safety information is available at local tackle shops and sporting goods stores, including Bandera Ice House and Lakehills Ic. House.

Lakehills, located near Medina Lake on PR 37 can trace some of its early settlers back to 1854 and the Morman colony of Lyman Wight. Real development arrived with the completion of the Medina Dam in 1912.

Henri Castro, an early settler of what is now Castroville, dreamed of building an irrigation system and bringing farming to the area. During his lifetime, an earthen dam was built on the Medina River near the site of the present dam. It was later replaced with stone. Both of these were on a small scale and were unable to provide a steady source of irrigation to

In 1894, Alex Walton took up the dream of a large dam. Engineers were skeptical, but Walton's faith in the project never wavered.

The actual construction of the dam was a wonder in 1910, and still is today. It took only two years to construct the largest dam in Texas, and the fourth largest in the United States. And it was done with private

# **Bump Gate Roaders plan action**

Forty concerned residents of Bump Gate Road met with County Commissioner Dan Alanis to discuss repair plans Sunday Oct. 16.

The road is scheduled to be paved, but county funds are unavailable at this time.

Each mile of paving costs Bandera tarpayers \$6,200. Alanis explained he has funds allocated for 1.5 miles mired the meeting, asked how the project could be expedited. Alanis responded that residents of other roads like Timber

Creek, Scenic Drive and Angel Drive raised half of the money mocessary for paving. The county matched the other half.

The residents discussed the pros and cons of paving the road. Everyone agreed safety and maintenance are major concras. Everyone present wanted the road paved, but only if certain issues were addressed.

Residents feel paving the road would result in increased speeds would result in increased speeds.

Currently the gravel road resembles a "wash board" at several locations and drainage

is a serious problem.
Run off of the water has resulted in server erosion. The road has narrowed and deep dithes and drop offs have formed. Two residents present were involved in accidents which were a direct result of the road hazards.
The first 1.5 miles of Bump Gate Road were paved several years ago. This resulted in better driving conditions, however, residents feel accidents have been more severed us to excessive speed.

For example, USFWS decided that using a water well on one's own land, 200 miles away from an endangered species, can be considered a "taking" because it could conceivably "harm" a minnow-sized fish called the founnow-sized fish called the foun-tain darter in Triver three-conditions are the condition of the difference of the condition of the condition of the understand of the condition of the condition of the cross Texas to enforce the "lak-ing" prohibitions of the Endangered Species Act. USFWS has given itself author-ity to threaten, fine, and even imprison property owners for activities totally unrelated to the kind of "harm" specified by Congress in the Endangered Species Act. Our second objection is that USFWS has failed to follow all the relevant environmental laws when attempting to enforce the Endangered Species Act. The most obvious example relates to the requirements of transforming what is an infor-mal agreement with regard to one animal into language the courts will recognize as applied to all plants and animals desig-nated or considered "endannated or considered "endan-gered." We've got a handshake agreement on one item, but we cannot think we have achieved a permanent solution of the larger threat to Texas property

owners.
Our dispute with USFWS involves three key areas. Our first disagreement is with their Act. The most obvious example relates to the requirements of the National Environmental Policy Act. In the event of a designation of critical habitat, an environmental impact statement is mandatory. The single most important criterion in these statements is an assessment of quality of life issues including economic impact assessments. In short, the law requires USFWS bureaucrats to Bud and Betty Ciarlo just from major surgery, got back from Vegas and Betty in a still laughing about the young women in their twenties work-out. Bud got from Hot to us more mature ladies, some

In most western states, the federal government is the largest landowner and it can impose restrictions upon itself, at whatever cost it sees fit. But in Texas, 97% of the land is priin Texas, 97% of the land is pri-vately held. There are no legal grounds for taking control of this land away from its owness by bureaucratic caveat. Some courts, including the federal circuit Creas land owners. Some courts, including the federal circuit court in Washington case, have already agreed with curviewpoint. We believe that clear, unequivocal court rulings provide the most effective means of reigning in these bureaucrats who could continue to run roughshod over Texas citizens.

## Council re-instates firefighters

The Bandera City Council met for a special meeting on Oct. 31 at 7:30 p.m. to discuss the council's appointment of temporary Fire Chief Brian McClane and the suspension by the fire chief of Phil Tobin and Gene Hayes, two volunteer fremen.

Tobin and Hayes were suspended by McClane, temporary fire chief, following their participation Tuesday, Oct. 25 at an accident in which Diana Arias of Pipe Creek was pinned in her car in Red Bluff Creas Hayes, the Clane, who was pinned in her car in Red Bluff Creas Hayes, the Clane, who was pinned in her car in Red Bluff Creas Hayes, the Clane, who was pinned in her car in the print of the pinned of the major accident, but didn't. Instead, both Tobin and Hayes worked steadily at the crash site for over four hours and were suspended that evening.

and were suspended that evening.

On Morday afternoon, Oct. 44, Tobin and Hayes responded to a call in which see man had been pinned under a truck. This response was also cited by McClane as a reason for the suspension. In fact, McClane and Mayor Robert Skinner met on Tuesday morning just before the Arian accident to discuss the annual track.

"He never remarked on the response we made on Monday." Tobin said.

"He could have said go back from the beginning (of the Arias accident), but he didn't," Hayes said.

The council asked McClane if there were other firefighters he knew of who could respond during the day. McClane listed about five, but when pressed for specific examples of recent fires, was only able to list one other firefighter besides Hayes and call during the day.

McClane said he had reprimanded both Hayes and Tobin before the suspension, but had been ignored.

If felt this was the only option to take," he said.

This surfactant foam is effecting for because and house fires.

This surfactant foam is effec-tive for house and brush fires, but has little effect on flamma-ble liquids that are present at auto accidents. The nozzles are aison to suitable for foam deliv-ery. If flammable liquid fire-fighting capability is desired, the city and fire department should invest in the proper agent and delivery system. Thirdly, the 'jaws of life' are hydraulically operated and have their own pump. The air com-pressor on the 1194 fire truck

cannot operate that piece of equipment. Therefore, the only reason to roll 1194 fire truck is to provide an air compressor for a pneumatic chisel, lift pads, and to provide personnel to help work the accident. Dear Editor:
The other night I was watching TV, when I saw a news item on Bandera. It was about the severe accident. I saw where two or our volunteer firemen, Phil Tobin and Gene Hayes, Phil Tobin and Gene Hayes, received a 45 day suspension for helping save the woman's life. In the 40 years of my Bexas County police career, I had never heard of anyone being punished for trying to save

# On the Lighter Side by Sean French, Publisher

Well it's that time of year again, when the population of Bandera grows in great numbers. That means it must be hunting season. Every year thousands of hunters will spend about nine weekends in Bandera County hunting deer and enjoying the beauty of the Cowboy Capital of the World.

As for myself, it will be my first. I have been told to shop early because all the restaurants and stores will be packed with anxious individuals from all over the state burjug things they forget and eating out because they don't want to cook. Some people call it an early Christmas for Banders, which which is probably a true statement with all the traffic and dollars that are spent here in Banders.

menders.

An for the visitors, just remember this is a great small town community that goes to great lengths to make you feel welcome and at home and all we can ask is for you to do the same in return.

Bandera County has a new Game Warden, Lewis Rather. He will be out and about checking on compaties to say hi and making sure everyone is following the laws, so don't be scared when he shows up to your campsite this weekend. Hell just be stopping to see how things are going and to get something to est.

Have a great hunting season and and we hope you enjoy your sky. Bring in some of your high pack pictures to the Bulletin so we can show everyone who shot May Grande.

lection Day is almost here. As in every pre-election period, claims heard. . . half truths and exaggerations

Our constitution of the United States permits this. Our constitution of the United States permits this. More importantly, it permits all of us to believe or disbelieve what we want. And still more important yet, it permits us the privilege and power to vote as we wish. There is no such thing as a controlled vote in our country. No one, absolutely no one but yourself can control your vote. Controlled votes are not permissible or possible. You are slone in the Ballot Box.

On Election Day you accept or reject the pleas and pressures. You have the freedom of choice. No one can impair you freedom to vote as you wish. Go to the polls. VOTE! No one was ever elected, no issue was ever decided by STAY-AT-HOME People

**BANDERA COUNTY RESIDENTS** IF YOU ARE FOR PRIVATE PROPERTY RIGHTS YOU SHOULD KNOW:

**GEORGE BUSH - SPEAKING TO A TEXAS ASSOCIATION OF** BUSINESS IN HOUSTON ON OCTOBER 20 SAID:

"I will do everything I can to defend the power of private property and private property rights when I am Governor of this state.

WHAT BUSH DID NOT SAY WAS:

When the Texas Rangers Baseball Organization ( Bush Is the Operating General Manager) wanted to build the ballpark In Arilngton, the Rangers got the State Government to give them, along with the Local Government, power to form an Association. That Association used its power:

1. To condemn the property of private property owners not willing to sell.

2. Turned their condemned property into a parking lot.

PHIL HARDBERGER

This is a Astory about service. A story about fairness. A story about people. Its story about spice Phil Handherger, Air Forcepilot, Peace Corps founder, legal scholar, and mountain climber. Justice Phil has lived three lives in one. He was a farmer's son who grew up wanting to serve his country. As Captain Hardberger he wanting to serve his country. As Captain Hardberger he (we B-47s in the Strategic Air Command. Under President Kennedy he helped set up the Peace Corps. Under President Johnson he worked to establish the Head

Under President Johnson he worked to establish the Head Start program. He is an avid Pyter who once set Trans-Atlantic records for flying solo, single-engined airplanes from Texas to Paris and San Antonio to Madrid. Endorsed by all Texas law enforcement groups. Judge Hardberger is a tireless legal scholar who wrote the book, Texas Courtroom Evidence, used by almost all Texas judges. It takes people who want to move mountains to make a difference. It's for that very reason that Justice Hardberger was overwhelmingly voted "Best Qualified" of all the judges running for the 4th Court of Appeals. Please keep Phil Hardberger in mind when you cast your own important

#### Toys for Kids Trailride set for Nov. 19

Plans have been finalized for the 5th Annual Toys for Kids Trailride. The ride will be held Saturday Nov. 19. Sign up begins at 7 a.m. and the ride will begin at 9 a.m. sharp.

This year the ride will begin at the Castle Lake

Volunteer Fire Department on Bear Creek Road and will go to historic Polly's Chapel, then down beautiful

Lunch will be served at the Bella Union Dance Hall. After lunch, the ride will continue into Bandera and finish with a parade down Main Street down to The

"The local business community has been generou in their support of this worth cause," says Kathy Nugent, ride organizer. "If we have good weather for the ride, we may beat last year's donation of \$2,000." All proceeds from the ride remain in Bander

County and will provide toys and food for needy children during the Christmas season. The ride will cost \$15 per rider and the first 75 to

register will receive breakfast, lunch, dinner and

"We will have a hay ride wagon and rental horse this year," says Nugent.

Nugent says there is still a need for volunteers to

help out the day of the ride with support vehicles and other facets of the ride.

All volunteers will receive free admission to the

"We had seen it before," says Lois Baumer. Lois and Laurie Baumer feed their feathered friends on a cypress slab in their yard where they live off the West Sabinal Road, just

north and west of Utopia. They also keep a "catch alive" trap out, to catch peaky nocturnal creatures, but haven't been baiting it lately. Even without bait, a rare visitor found its way into the trap to catch a snooze last Thursday night - an albino raccoon.

Thursday night - an albino rac-coon.

When Lois first saw it she thought it was a house cat that some skeptic had put in the trap as a joke. Lois had told folke as a joke. Lois had told folke about the white phenomenon and she had been kidded about her "illusions." But now she had proof "It didn't have one dark had on it." Lois says. The because it ends!

If we had "all the time in the speak world" then we would have enough time to do everything we wanted to do. There could be no such thing as 'wasted time' for time would have poral,' that is 'temporary,' by nature (Il Corinthian 418). James 4:14 reminds us of this by saying. "You do not know what your life will be like tomorrow. You are just a vapor that appears for a little while and then vanishes away." Our eternal spirits spead such while and then vanishes away." Our eternal spirits spead such while and then vanishes away." Our eternal spirits spead such abort time in this physical body that we need to be reminded, "Man..is of few days" (obl. 14, (Palins 90:12). The Clocker Life is would but once and no man has the power to know just when the clock will stop at late or early hour.

"Selected."
"For we must all annear hefore the indemner was of Child."

to know just when the clock will stop at late or early hour. Selected

"For we must all appear before the judgment seat of Christ, that each one may be recompensed for his deeds IN THE BODY, according to what he has done, whether good or bad" (II Corinthians \$10). It is the deeds done while "in the body" that will be brought into Judgment. After our spirit has been departed from the body in death (James 220), our everal deating wall have been selected, on the body."

Time cannot be awed up. Once a moment is gone, it is gone forever. Therefore what we chose to do with our time becomes valuable because we have spent or exchanged a part of our life for it. Don't put off serving the Lord outil you have reached some financial goal, "for what does it profit a man to gain the whole world, and for the saves upon the earth, where moth and rust destroy, and where thieves break in and steal" (Mark the %36-37). Spend your time laying up "treasures in heaven" of treasures upon the earth, where moth and rust destroy, and where thieves break in and steal" (Mark the %19-21).

#### Greetings from the Game Warden...

by Lewis Rather. Game Warden

Well believe it or not, it's that time of year already. Yes, deer season is just three days away.

That would be the general gun season - we know you bow hunters

have already bagged your trophies and it appears cation. to have been a good season. I know the anticipation of opening day is at a

fevered pitch with the plans for the Hunter's kill Barbecue being finalized and the recent spell of cool weather adding to the excitement. Anticipation, excitement and preparation are

But as with anything worth doing there are certain facts and precautions that we should all make ourselves aware of to ensure a good time for

The deer season for Bandera County begins Nov. 5, 1994 and runs through Jan. 1, 1995. For you muzzleloaders this year you have a season just for you which begins Jan. 7, 1995 through Jan. 15, 1995, antierless only. And guess what? For muzzleloaders, no antierless permit is required, however, you will need a muzzleloader

Many problems that arise during deer season are a result of misconceptions and misunderstandings of hunting rules and regulations.

The following is a general summary of the most common complaints and violations that occur during a typical hunting season:

NO HUNTING LICENSE. The license is required to be in your possession at all times while hunting. If you are over 17, you must also carry your personal ID. Some persons are also required to carry proof of hunter education certifi-

UNTAGGED DEER/TURKEY. The law requires that game be tagged immediately upon

TRESPASSING. It is important to know the boundaries where you are hunting and where you have permission to hunt. Remember, your responcertainly vital elements to a successful hunting sibility of retrieval of wounded game stops at the fenced or posted property of another landowner. Proper hunter ethics require that you contact that landowner for permission for further retrieval.

All regulations can be found in the '94-'95 Texas Hunting Guide from the Texas Parks and Wildlife Department. The guides are currently available at various local merchants.

For further information, please feel free to contact me through the Bandera Sheriff's Office at

Remember, let's all work together for a safe and enjoyable season.

#### GUN SAFETY TIPS

Firearms are commonplace in most farm and ranch households, but familiarity does not stop accidents from occurring.

"Most firearm accidents happen while people are cleaning or hunting with guns." Agriculture Commissioner Rick Perry said. "Prevention is the best veapon against these firearm casualties."

Families should make sure that the home has a safe and secure storage place for guns that is beyond the reach of children and careless adults. Store firearms and ammunition separately and keep both locked up.

Hunting is a natural sport for many rural families Perry said that hunting accidents can be orevented by following these basic safety rules:

. Control the direction of your firearm muzzle Carry your firearm safely. Keep the safety on and your inger off the trigger until you are ready to shoot.

\* Identify your target and know what is beyond it. \* Be sure the barrel and action are clear of obstruc ons and you have only the proper size ammunition for

the firearm you are carrying. \* Unload firearms when not in use. Leave the action open. Firearms should be carryed empty in cases to and from shooting areas.

\* Never point a firearm at anything you don not want to shoot. Avoid all horseplay with firearms.

\* Never climb a fence or tree, or jump a ditch or los with a loaded firearm. Never sull a firearm toward you

\* Never shoot a bullet at a flat or hard surface or water. During target practice, be sure your backstop is

\* Avoid alcoholic beverages or other mood-altering rugs before or while shooting.

The best advice for gun safety is to treat every rearm with the same respect due a loaded firearm.

Well, believe it or not, it's that time of year already. Yes, deer season is just three days away.

That would be the general gun season - we know you bow hunters

have already bagged your trophies and it appears cation. to have been a good season. I know the anticipation of opening day is at a

fevered pitch with the plans for the Hunter's kill Barbecue being finalized and the recent spell of cool weather adding to the excitement.

Anticipation, excitement and preparation are

But as with anything worth doing there are certain facts and precautions that we should all make ourselves aware of to ensure a good time for

The deer season for Bandera County begins Nov. 5, 1994 and runs through Jan. 1, 1995. For you muzzleloaders this year you have a season just for you which begins Jan. 7, 1995 through Jan. 15, 1995, antierless only. And guess what? For muzzleloaders, no antierless permit is required, however, you will need a muzzleloader

Many problems that arise during deer season are a result of misconceptions and misunderstandings of hunting rules and regulations.

The following is a general summary of the most common complaints and violations that occur during a typical hunting season:

NO HUNTING LICENSE. The license is required to be in your possession at all times while hunting. If you are over 17, you must also carry your personal ID. Some persons are also required to carry proof of hunter education certifi-

UNTAGGED DEER/TURKEY. The law requires that game be tagged immediately upon

TRESPASSING. It is important to know the boundaries where you are hunting and where you have permission to hunt. Remember, your responcertainly vital elements to a successful hunting sibility of retrieval of wounded game stops at the fenced or posted property of another landowner. Proper hunter ethics require that you contact that landowner for permission for further retrieval.

All regulations can be found in the '94-'95 Texas Hunting Guide from the Texas Parks and Wildlife Department. The guides are currently available at various local merchants.

For further information, please feel free to contact me through the Bandera Sheriff's Office at

Remember, let's all work together for a safe and enjoyable season.

#### GUN SAFETY TIPS

Pirearms are commonplace in most farm and ranch households, but familiarity does not stop accidents from occurring. "Most firearm accidents happen while people are

leaning or hunting with guns," Agriculture Commissioner Rick Perry said. "Prevention is the best veapon against these firearm casualties."

Families should make sure that the home has a safe and secure storage place for guns that is beyond the reach of children and careless adults. Store firearms

and ammunition separately and keep both locked up. Hunting is a natural sport for many rural families Perry said that hunting accidents can be prevented by

following these basic safety rules: . Control the direction of your firearm muzzle Carry your firearm safely. Keep the safety on and your

nger off the trigger until you are ready to shoot. \* Identify your target and know what is beyond it. \* Be sure the barrel and action are clear of obstruc

ions and you have only the proper size ammunition for the firearm you are carrying. \* Unload firearms when not in use. Leave the action open. Firearms should be carryed empty in cases

to and from shooting areas. . Never point a firearm at anything you don not want to shoot. Avoid all horseplay with firearms.

\* Never climb a fence or tree, or jump a ditch or log with a loaded firearm. Never sull a firearm toward you by the muzzle

\* Never shoot a bullet at a flat or hard surface or water. During target practice, be sure your backstop is

\* Avoid alcoholic beverages or other mood-altering rugs before or while shooting.

The best advice for gun safety is to treat every rearm with the same respect due a loaded firearm.

attling horns" to draw a smart old buck out of hiding and into gun range ranks as one of the most exciting of all hunting sports.

But strange as it might seem, it's a method of hunting that relatively few deer hunters have tried. The reason most of them offer is they don't know

how. They think it's a complicated technique which requires lots of coaching and years of practice to master, so they've never tried it.

The truth is, successful rattling is mostly a matter of being in the right place at the right time.

That fact alone should encourage hunters who have tried and failed to rattle up bucks to try again

### Rattling up the big one...

With that in mind, let's run over some down wind of the rattling site. the more common questions I hear deer ounters ask about rattling horns

a good set of rattling horns? A: It doesn't matter. Assuming bucks of give you good visibility.

various sizes fight, then they must have antlers of various sizes. Nor does sound matter much. A King

Ranch foreman told me his cowboys sometimes rattle up bucks by opening and closaction rifles. The metallic clacking sounds something like antlers clashing ... enough so it brings bucks.

Q. What should I look for in a good location to rattle?

A. Whenever possible, select a spot with openings down wind. Bucks usually, but you quit? not always, circle down wind of the noise before com-

Q: Can I rattle alone or do I need someone with

A: You can rattle alone, but you'll do better with one or two hunters to help watch. A buck may approach from any direction, and one person can't be looking every direction at once.

Some hunters also like to put one observer above ground, in a blind or tree, when possible. The height helps him cover the area.

Q: Do you need some sort of masking scent to block your odor

A: It's definitely a good idea, but not a must. One of the best I've seen is skunk scent. It can be carried in a tightly capped bottle, then opened on the ground

Q: Should I blind up real good when rattling? A: Another good idea, but don't blind up so tightly Q: What should I look for in choosing that you can't see a buck approaching. Just try to pick a brushy spot that will hide you fairly well but still

Q: When is the best time of day, and what are the best conditions, for rattling?

A: Any time may be good, but it's generally agreed that the best time is early morning on a clear, calm, cold day. The noise you make isn't driven by the wind ing the carriage on their 30-30 lever and travels better in all directions. But you might be successful any time of day under any conditions. I recently rattled several times on a clear, calm morning and got no response. The next morning was windy and overcast and I rattled up 11 bucks on the same

Q: How long do you rattle each time and when do

A: Every hunter who rattles has his own idea of what's best. But remember this. When bucks fight, no one keeps time for them. A pattern I like is to rattle (and slam the ground and hit bushes and trees and make a loud commotion) for about two minutes, then quit and watch for about two or three minutes.

Then rattle again, for only about a minute, with less

racket, and wait another two or three minutes. Then rattle just a few seconds, with no other noise, and wait another three or five minutes.

My thinking is if a buck didn't hear me the first time, he won't the second or third. Likewise, if he heard me the first time, and is on his way in, I don't want to overdo it ... just give him enough the second and third rounds to keep him on course.

#### TPWD Deer population surveys....

Texas Parks and Wildlife survey lines located in this and several Department recently completed annual deer population surveys here in Bandera County. The counts resulted in an estimate of 129 deer per 1.000 acres or about 61,000 deer county-wide.

This year in Bandera County the deer season opens on Saturday, Nov. 5, and runs through Sunday, Jan. 1. The bag limit is the same as last year - four deer, no more than two antiered bucks.

Doe permits or special doe tags will not be issued nor required to harvest anterless deer here in the Edwards Plateau. Hunters will need only the appropriate tag off of their hunting license, and landowner permission, to bag doe or anterless deer in Bandera and the other "either-sex" counties this

After reviewing the results of the recent deer population surveys, local wildlife personnel are recommending that most Bandera County landowners try for a harvest of one doe or anterless deer for every 75 acres and one buck for every 230 acres.

The recommended rates result from the need to better balance the sex ratio observed in the herd and from a desire to produce a healthier deer population that is properly matched to the existing supply of deer foods in the county.

These harvest rates are based on

other surrounding counties. Therefore, the recommended rates may not be completely suitable for each individual ranch in the county.

In general, if your acreage shows signs of overpopulation (a lack of brush and weeds available at and just above ground level, less than optimal deer weights and poor quality buck antler fawn survival, etc.) then you probably need to harvest your deer population at a higher rate and/or reduce livestock grazing pressure by reducing numbers or rotating your stock.

On the other hand, if you have a good deer habitat and an adequate supply of quality deer foods available, but seem to be short on deer numbers, then possibly you should harvest at a lighter rate than that recommended for the county.

Landowners interested in closely managing their local deer herd need to conduct their own on-site fall population surveys, with resulting harvest recommendations that meet their specific

management objectives.
Texas Parks and Wildlife Department wildlife personnel are available to assist with more specific wildlife management recommendations for individual tracts of land.

Licenses and stamps

A hunting license is required of any person, regardless of age, who hunts in this state. While hunting, fishing, or trapping, persons 17 years of age or older must carry on their person a driver's license or personal identification certificate issued by the Texas Department of Public Safety. Non residents must carry similar documents issued by the agency in their state or country of residence that is authorized to issue driver's licenses or personal identification certificates. It is against the law to:

hunt (take, seek or pursue) without a valid license

use another person's license to hunt or fish

let someone else hunt or fish with your license purchase more than one Resident Hunting License per year

purchase more than one General Non-Resident Hunting License

purchase more than one Non-Resident Spring Turkey Hunting License

purchase a General Non-resident Hunting License and a Non-Resident Spring Turkey Hunting License during a license year

#### **Hunter's document**

A legible hunter's document is necessary for a person to give, leave, receive or possess any part of a wildlife resourse that is required to have a tag or permit or is protected by a bag or possession limit. The Hunter's Document must go along with the part of the carcass until it reaches its final destination and it is finally processed. The document must have the following information:

Name and address of the person who killed or caught the wildlife

Name of the person receiving the resource

Description of the resource (number and type of species or parts

Date resource was killed or caught

Location where the resource was killed or caught (name of county. ranch, lake, area, bay, or stream.

The entire carcass of a deer or pronghorn may be given to, or transported by, another person if the tag from the hunter's license or the pronghorn permit remains attached until the carcass reaches its final destination and is finally processed.

Texas Parks and Wildlife Department biologists recently completed summer and fall turkey hen-poult surveys to determine the annual production of turkeys. All the figures have not been compiled, but preliminary results in the top regions of the state indicate a second straight year of low reproduction.

Larry Holland of Brownwood, TPWD biologist for

the 44-county Possum Kingdom district, said the region's hen-poult survey numbers are about the sec-

ond or third worst year since 1976. However, the area did see its second consecutive year "Probably in the eastern part of the district it's better than that. but in the western portion where most of the turkeys are, reproduction is down considerably."

After an impressive 2.71 poults per hen in 1992, the region's production dropped to 1.17 per hen in 1993 and .61 this year. The average is two per hen in a good year, he said. Only 20 percent of the hens had poults with them this year.
"The good news is we're still

seeing a lot of turkeys, but they're all adults. There should be a super number of birds to hunt, but we didn't get any recruitment this year." Holland said. "We have had

some rain recently, so they should go through the winter all right. It's just looking bad for next year. "The good thing," he said, "is that you can mise a

couple of years in a row and have one fairly decent year and bounce right back."

Hunters should find turkeys moving near feeders this fall, especially in the western part of the Possum Kingdom district. Holland said there was a spotty acorn crop, which will make food harder to find. Max Traweek of Kerrville, TPWD biologist for the

of had reproduction

"This is the second year in a row we've counted less than a poult per hen. We didn't have the right range conditions this year," he said. After having more than two poults per hen each year from 1990-92, the last two counts have been .7 per hen and .8 per hen.

"We're going into our third hunting season following those excellent production years, so there should be ample adult birds available." Traweek said. "We've been through this before with even lower production and still had plenty of birds. We don't anticipate any problems with hunters finding birds where they have in the past, the flocks just may not be as big." The turkeys should be in good shape going into the

season. Recent rains have added moisture and vegetation to the habitat, although turkeys prefer acorns, which are in short supply again this year "I'll bet they'll be hitting the feeders pretty heavily."

In addition to a valid Texas hunting license, turkey hunters must possess a \$5 turkey stamp. The statewide bag limit on Rio Grande turkeys is four per license year with no restriction on whether they are taken in spring or fall. The beard must remain on the turkey until it reaches its final destination and is processed. This applies in counties where it is legal to take only gobblers and bearded hens.

The north general gun season will be Nov. 5-Jan. 1 and the south season is set for Nov. 12-Jan 8 The Edwards Plateau district, said there should be plenty special South Texas season in 14 counties is Nov. 12-

Man's Best Friend
My great-grandmother Greene loved animals, especially dogs. She always treated her dogs as if they were humans. In fact, my grandfather remembers one time when he went to visit her. She was making a delicious breakfast with bacon, eggs and pancakes, He figured the breakfast was for him, but all of a sudden she started cutting the food into little pieces and scraped them into the dogs' bowl. He said disappointedly, "Hey, Mother, what about me!"

#### **District Champions**

The Bandera Bulldogs notched one for the record Priday night with a dominating 41-0 vin over Somerset. The undefeated Bulldogs are not only district champs, first time and the state of the state of the state of the state of Texas.

Banders has had good football teams in the past, however, this team may be one of the best as collective memory cannot identify the last parfect regular football season at Banders High.

"These young men have had one goal in mind since we first set foot on the practice field win district," Head Coach Mike Williamson said. "Not only hulk

Question: Why did Jesus use the phrase porm again; in John 31-107
First of all the context shows that Jesus as speaking to Micodesume, a ruler of the Jews (John 3:1), who was also a Phariseo. The Jesus based their confidence in their real tionably with God in their "flesh," that is that phenomena. their physical birthright from father

Abraham. Faul, who put no confidence in the Itah (i.e. his Jackish haritage)". Any upd others of his mationality to court the seemingly flashly virtue of being related to Abraham as "nub-bias" in order that they may "quin Christ" (Fhilippians 313-50 note also II Confinitions 1132). It was this "fleshly" confidence that prompted the unsettling statement of Jesus, "Therefore thing forth fruits in Neeping with spentance, and do not begin to say to yourselves, "We have Abraham for our father," for I say to you, that Cod is able from these stones to raise up children of Abraham" (Links 31s, also Netthew 31s).

Jesus second the very foundation of Nicodenus" spiritual confidence when He said, "Thuly, truly, I say to you, unless one is born again, he cannot see the kingdom of God (John 313).

Jesus was saying that it took more than being a descendent of Abraham to enter the kingdom of God. As a Jew, Nicodenus had entered the family and nation of God by natural birth. The Jeen emported the kingdom to be a voirally kingdom consequently, . Paul, who "put no confidence in the flesh (i.e. his

blitch. Seess had just destroyed this idea; to an astonized Nicodemus was finally with was that of the natural birth, so he asked, "Side can a man be born when he is old? He cannot enter a second time into his nother's works and be born, can he?" (John 314). The only wey the confused Nicodemus could understand "Dorn again," was to be physically born twice. "Sees any again," was to be physically born twice. "Seess emplain set to be physically born twice. "Seess emplain set to be second physical born of the significant of conf. (John 195). Here "Seess emplains that it is not a second physical born, but guittain birth he has in sind." That which is born of the filesh is flash, and that which is born of the flesh is flash, and that which is born of the flesh in the water involved in the spiritual set of beginn (Acts 8195). The water involved in the spiritual act of beginn (Acts 8195). The spirits is promised to those who repert and are shpirited in the same of Jesus Christ for the remission of sins (Acts 2138).

The whole affair was put into the Show Barn this year and what a success. The display booths were terrific. A lot of imagination and effort went into setting them up. It was like the fanciest state fair you ever

It was really hard to believe the effort put out by the cooks and cook's helpers, those who stood there at least three hours, cutting up the brisket and sausage. Then there was the setting up and taking down & beans, cole slaw, ice tes, etc. etc. The was a few of the commerce, has been and town and the setting up and taking down & beans, cole slaw, ice tes, etc. etc. The was a terrific community backing. The auction list of commerce, has terrific community backing. The auction list came from all over and every type of business imaginable gave. From overnight stays to golf packages to gift certificates to guns to antiques to blood tests at the doctors. How's that for a wide rangel And on the other side of this coin, the one's bidding were really generous, tool A grand success. Then Saturday a.m., I hotfooted it down to the American Legion Hall, where they had spring, to volunteer any efforts towards more breakfast tacos. I figured after the Silver Sage, I was an expert.

Muriel Strange was my podner and at noon we stopped the tacos and started the HAMBURGERS. I figured out that I must have cooked around 40 hamburgers. Got no professional, I might just hang out a sign. The shader all sungy Burgars? "What glorious weather it's en. With glorious weather it's en. Clark Aylsworth, pictured with his Clydesda Scottle, is a hero to his neighbor, Mike Widnes

Pipe Creek resident Clark Aylaworth gave his neighbor, Mike Widmer, something to be truly thankful for this Thankagiving when he risked his own life, and ended up injured, trying to save Widmer from a 4-wheeler accident on Cet. 24.

After eight hours of being pinned under his ATV, with fire anta hiting him and gasoline driping on him, Widmer says his neighbor's yelled question, "Is there somebody who needs help?" was the end of a long nightmax. Aylaworth, 74, claims to be "kinda hard of hearing," but thought he heard somebody crying for help at about 2.00 p.m. while working behind his account of the pipe Creek home, Twin Creek analysis, and the pipe Creek home, Twin Creek Aylaworth gives the credit to God.

Dear editor:

Here we are again with the holidays upon us. We are all time with our families and friends and sharing a great dinner.

Some of us are very happy about the holidays and look froward to them, but if you look around, you will see some pope let that have a hard time during the holidays.

People are depressed because they have no family or friends or a great dinner to share.

It is sad to say that we get so wrapped up with all the going on, that we forget the less fortunate.

open house of the whole town (just like ours on Dec 3 & 41) with wassels, Christmas glitter and great entertainment, Might be a fun outing for visiting relatives and friends.

There was an after of the decided of the

Friday.evenings. Anyone who had snacks brought them along and everyone brought their own whatever to drink.

It would only last half an hour, but during that time, we all got to know each other and worked a whole lot closer. (Bandera's Main Street merchants are so independent!)

### A Mighty Hunter

Haby, a distant relative and one of the pioneers of Castro's Colony, was born in Alsace, many in 1821 and started to Texas in company with his brother, Joe and many other colonists in Sept. 1843.

The ship in which they came was very old and came slowly, taking 121 days in the passage from Europe to Galveston.

Six wagon loads of the colonists came to San Antonio and stayed about four months there, while Mr. Castro was getting ready to move his people to his grant of land west of the Medina River.

When everything was ready, the start was made, Castro himself taking the lead with his family in a buggy. The newcomers enjoyed the open country with herds of deer and wild mustangs. Along the timbered streams were droves

After the people became somewhat settled, Mr. Haby became quite a hunter, and in one year killed more than 200 deer, ten bear, and panthers. Mr. Castro paid Haby for venison and other wild meats, as he did not hunt him
